Subject to Change Statement

This catalog has been prepared by faculty and administration to provide information to prospective and enrolled students. The right is reserved to change any of the rules and regulations of the University at any time, including those relating to admission, instruction, and graduation. The right to withdraw curricula and specific courses, alter course content, change the calendar, and to add or increase fees is similarly reserved. All such changes are effective at such times as the proper authorities determine and may apply not only to prospective students but also to those who already are enrolled in the University.

Regarding Discrimination

Minot State University subscribes to the principles and laws of the state of North Dakota and the federal government pertaining to civil rights and equal opportunity, including Title IX of the 1972 Education Amendments. Minot State University policy prohibits discrimination on the basis of race, gender, sexual orientation, gender identity, religion, age, color, creed, national or ethnic origin, marital status, or disability in the recruitment and admission of students and the employment of faculty, staff, and students, and in the operation of all college programs, activities, and services. Evidence of practices which are inconsistent with this policy should be reported to the Human Resource Director in the Administration Building.

Notice of Registration with Minnesota Higher Education Office

North Dakota University System is registered as a private institution with the Minnesota Office of Higher Education pursuant to sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

Introduction to Minot State University

History

Minot State University is a comprehensive public university whose purpose is to foster the intellectual, personal, and social development of its students, and to promote the public good through excellence in teaching, research, scholarly activity, and public service. Minot State is an integral part of the state and region it serves, and its mission and purposes are linked inextricably to the needs, aspirations, and the commonwealth of the people of North Dakota.

Since its founding in 1913, Minot State University has evolved steadily in fulfilling its commitment to serving North Dakota and creating opportunities for its citizens. Today the University offers a wide array of undergraduate programs in the liberal arts and the professions, and graduate education in eight master’s programs and one specialist program.

Originally established as a two-year normal school devoted to preparing teachers for service in the prairie schools of northwestern North Dakota, the institution soon expanded its offerings in response to the needs of the region, a pattern that has been repeated many times in Minot State’s subsequent history. Those who governed the institution recognized the need to add teacher preparation programs in the fine arts, liberal arts and sciences, and professional fields.

In 1924 the institution was given authority to offer the baccalaureate degree, and programs in the liberal arts began at Minot State. Programs in the sciences, humanities, fine arts, and social sciences were developed. Later, programs in special education, speech pathology, business, and nursing were added. In 1964 the school’s name was changed to Minot State College, and its mission expanded to include graduate education at the master’s level. In 1987 the institution’s name was changed to Minot State University, and today the University offers master’s degrees in communication disorders, education, management, management information systems, mathematics, music, science, and special education. The University offers one specialist degree in school psychology.

Mission

Minot State University is a public university dedicated to excellence in education, scholarship, and community engagement achieved through rigorous academic experiences, active learning environments, commitment to public service and a vibrant campus life.

Vision

- Minot State University will:
- Deliver high-quality education where, when, and how it is needed to a diverse, multi-generational student population
- Prepare students and the institution for the evolving social and technological challenges of the world
- Inspire scholarship and creative activity among students, faculty, and staff
- Empower graduates with a distinctive combination of professional expertise and broad-based education to support varied careers and productive lives
Campus and Region

The University’s tree-lined campus provides students a friendly and personal atmosphere. The campus includes five residence halls, seven classroom buildings, the Student Center, library, domed athletic facility, stadium press box, new wellness center, a concert hall, two theaters, and an art gallery.

The University is located in Minot, North Dakota, a city that serves as the cultural, educational, and commercial center of a region which includes western North Dakota, eastern Montana, and southern Saskatchewan and Manitoba. Minot is known for its beautiful residential areas, spacious parks, and busy commercial districts. Here students find many of the cultural advantages usually associated with larger cities, including a symphony orchestra, an opera company, two theatre companies, three art galleries, a fine arts center, numerous choral groups, and a city band. Minot International Airport is served by Delta Airlines, United Airlines, and Allegiant Air. The city is also served by Amtrak. Minot is situated in one of the finest agricultural, industrial, and commercial areas in the state. The city is near the Bakken energy region and the great Garrison Dam on the Missouri River which offers world-class outdoor recreational opportunities in fishing, boating, sailing, hunting and camping.

**Academic Information**

Details regarding academic advising, academic requirements, course equivalencies and substitutions, as well as grading, transcripts and registration are located within Academic Information.

**Academic Advising**

Minot State University maintains that academic advising is an important part of the educational process. Establishing a friendly and honest relationship with an academic advisor is advantageous. Effective advising helps students to maximize the educational benefits available to them. Advisors can help students make connections to appropriate University resources.

Although academic advisors are here to help, it is important for students to realize that they are responsible for meeting all graduation requirements. Students can increase their academic planning effectiveness by fully utilizing the advising system, by thoroughly acquainting themselves with the academic requirements of their major and minor fields, as well as the University policies for registration and graduation. The Undergraduate Catalog is the official source of information on these matters.

Students are encouraged and in some departments are required to meet with their assigned advisor each term prior to completing registration. Each student is assigned to an Academic Advisor of Record upon admission to the University, based upon declared major. Advisor assignments are typically adjusted when a student officially changes his/her major. The student is responsible for meeting with the Advisor of Record to plan for the upcoming term prior to completing the registration process. Changes of advisor assignment may be requested from the department overseeing the student’s major.

For more information regarding advising at Minot State University, please see the Academic Advising (p. 397) section of this document under Student Services.

**Academic Requirements**

**President’s Honor Roll**

Undergraduate students who earn a minimum term grade point average of 3.800 while enrolled for 12 or more MSU credits during the fall or spring semester are recognized for their achievement by placement on the President’s Honor Roll. The honor will show on the student’s transcript for the semester it was earned. Credits taken simultaneously via transfer, collaborative, or consortium registration are not included in the calculation and do not count toward the MSU minimum credit requirement. These courses are considered transfer credit.

**VP Academic Affairs Honor Roll**

Undergraduate students who earn a minimum term grade point average of 3.500 while enrolled for 12 or more credits during the fall or spring semester are recognized for their achievement by placement on the VP Academic Affairs Honor Roll. The honor will show on the student’s transcript for the semester it was earned. Credits taken simultaneously via transfer, collaborative, or consortium registration are not included in the calculation and do not count toward the MSU minimum credit requirement. These courses are considered transfer credit.

**Engagement Honor Roll**

Undergraduate students who complete a minimum of 50 hours, verified by supervisors, in any combination of engagement activities will be recognized on the Engagement Honor Roll. The honor will show on the student’s transcript for the semester it was earned.

**Academic Progress**

University-wide minimum academic progress requirements (individual colleges or departments may have higher requirements) are based on the set of minimum grade averages printed below. The minimum grade average requirement is raised progressively in order to help students meet the minimum requirements for graduation.
## Satisfactory Progress Requirements

<table>
<thead>
<tr>
<th>Semester Credits Attempted</th>
<th>Required Cum GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-23</td>
<td>1.500</td>
</tr>
<tr>
<td>24-59</td>
<td>1.750</td>
</tr>
<tr>
<td>60 or More</td>
<td>2.000</td>
</tr>
</tbody>
</table>

Please note: from fall 2019 on, all students must have a minimum of 2.000 cumulative GPA to meet satisfactory progress requirements.

### Retention

All student records are reviewed at the completion of each term throughout the year. Should the cumulative grade point average (Cum GPA) fall below the required minimum, as noted in the table above, the student is placed on academic warning, academic probation, or may be suspended, depending on prior academic history.

### Academic Warning

The first time a student’s end-of-term grades bring the Cum GPA below the required minimum, a warning shall be issued from the Registrar’s Office notifying the student that he/she has been placed on Academic Warning. A notation of “Academic Warning” is added to the student’s permanent record which will not appear on the student’s official transcript. An advisor hold will be placed on the student’s record.

### Academic Probation

The student on Academic Warning is given another term of enrollment to bring the Cum GPA up to at least the required minimum. Failing that effort, the student is moved from a status of Academic Warning to one of Academic Probation. A notation of “Academic Probation” is added to the student’s permanent record which will not appear on the student’s official transcript. An advisor hold will be placed on the student’s record and the student’s registration will be limited to 15 credits.

### Continued Probation

The student who has earned a term GPA of at least 2.0 will be extended yet another Probationary term in which to attempt to raise the Cum GPA to at least the required minimum. A notation of “Continued Probation” is added to the student’s permanent record which will not appear on the student’s official transcript. The student’s registration will be limited to 15 credits each term until the student’s end-of-term grades bring the Cum GPA to the required minimum.

### Academic Suspension

If a student on Academic Probation (Cum GPA is below the required minimum) earns below a term GPA of 2.0, the student will be placed on Academic Suspension. A notation of “Academic Suspension” is added to the student’s permanent record and official transcript.

A first Academic Suspension requires that the student sit out for the next fall or spring semester. The student may then be readmitted on Academic Probation to attempt again to bring the Cum GPA to at least the required minimum. At the end of this Academic Probation, if the student fails below a 2.0 term GPA, a second Academic Suspension will be issued and requires that the student sit out for a full academic year (including summer).

After returning from a second Academic Suspension, if the student receives less than a 2.0 term GPA, the student will be suspended once again. This academic suspension requires that the student sit out for five full academic years at which time the student may qualify for Academic Reassessment.

### Unofficial Withdrawal

A student who fails to withdraw from school and receives all failing grades for a semester will be considered to have unofficially withdrawn. This student will be placed on Academic Probation.

### Suspension Reinstatement

A student who has sat out the required suspension period must submit an Application for Readmission. If a student enrolls at another institution during the suspension period, the student must submit all official transcripts before readmission will be considered. The student will be readmitted on Academic Probation. An advisor hold will be placed on the student’s record and the student’s registration will be limited to 15 credits. At the end of this Academic Probation, if the student falls below a 2.0 term GPA, a second Academic Suspension will be issued and requires that the student sit out for a full academic year (including summer).

### Summer Term

Students on the first Academic Suspension may choose to enroll in the Summer Session at MSU in an effort to bring their Cum GPA up to the required minimum. The student must be advised of two conditions for this summer term. First, the student must achieve a minimum of a 2.0 term GPA for this
summer term in order to avoid a second suspension. Second, this minimum summer term GPA does not satisfy the first Academic Suspension period. Any student with a second Academic Suspension is not permitted to register for summer term.

**Suspension Appeals Committee**

Students suspended from the University may petition for a one-term extension of probationary status if they feel their case warrants special consideration. Appeals must be made in writing to the Registrar’s Office. Circumstances beyond the student’s control and a plan for improved performance must be evidenced before reinstatement will be considered. If the appeal is granted, the student will be conditionally readmitted with the statement “Academic Suspension/Reinstated” recorded on the permanent record and official transcript. An advisor hold will be placed on the student’s record and the student’s registration will be limited to 15 credits each term until the student’s end-of-term grades bring the Cum GPA to the required minimum.

APC - 10/11 & FS - 05/06/11

**Academic Honesty**

Honesty and integrity are central to academic life at Minot State University. They create a trust necessary in a community of scholars. When that trust is violated by cheating in any form, the atmosphere of academic freedom is threatened.

Minot State University is committed to academic integrity. Incidents of academic dishonesty may be documented by the faculty member with a copy of the documentation maintained by the department/division chair. A letter of explanation will be sent to the student. Cheating may affect the student in accordance with the faculty member’s grading policy. The student may appeal the faculty member’s penalty to the department chair. Student disciplinary action may result in accordance with the Student Conduct Policy, found in the Student Handbook. Academic dishonesty would include, but is not limited to, the following types of behaviors:

1. Misrepresenting another individual’s work as one’s own, e.g. plagiarism from hard copy or the Internet.
2. Copying from another student during an exam.
3. Altering one’s exam after grading for the purpose of enhancing one’s grade.
4. Submitting the same paper to more than one class.
5. Use of any material or device not approved by the instructor during an exam.
6. Turning in reports intended to be based on field collection data but which are, in fact, not.
7. Failure to respect the confidentiality of persons served or studied and to maintain the professional standards for ethical conduct as set forth in The Handbook of School Psychology published by the national Association of School Psychologists.

**Course Equivalency and Course Substitution**

Students who transfer courses to MSU that might meet program requirements of a particular major, minor, or concentration should have the courses evaluated by the appropriate program. Students should be able to provide information on each course involved, such as a detailed course description or a course syllabus. When a transfer course is found to be equivalent to a particular MSU course, a Course Equivalency form should be submitted to the Registrar’s Office. This form allows any future transfers of the same course from the same institution to automatically be accepted as meeting the requirement of the particular MSU course (valid for five years). In cases where the transfer course is not similar enough for equivalency, but is deemed appropriate as a substitution, a Course Substitution form should be submitted to the Registrar’s Office. This form only applies to that particular case for that student and does not meet prerequisite requirements.

There may be times when a student cannot take a particular MSU course required for a program because of time conflicts or changes in a program’s frequency of offering. In such cases, the program may allow another course to substitute for the required course. However, the course used to substitute for the required course cannot be another required course; in other words, one course in a program cannot be used to fulfill two required courses in that program. The substitute course must be one that is not already required by the program. The reason for the substitution must be a circumstance outside of the student’s control (time conflicts or changes in frequency of offerings); poor planning on the part of the student does not constitute sufficient grounds for course substitutions.

APC - 2/14/14 & FS - 2/27/14

*If a Course Substitution form is submitted, it does not override a prerequisite.*

**General Information**

**Credit**

Credit is defined in terms of semester hours. In addition, credits remain on the student’s record indefinitely.

For all MSU degree programs and courses bearing academic credit, the "credit hour" is defined as the amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:
1. one 50-minute period of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately sixteen weeks for one semester or the equivalent amount of work over a different amount of time. In courses, such as those offered online, in which “seat time” does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement; or
2. at least an equivalent amount of work (typically two to three hours) for other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

APC - 2/3/15 & FS - 2/19/15

**Full-Time Student Defined**

A full-time undergraduate load for a fall, spring, or summer semester is 12 credits.

**Overload**

Students who wish to attempt more than 18 credits in a term must have at least a 3.0 cumulative GPA. Students may not register for more than 22 credits per term. The overload approval form must be signed by the student's advisor, department/division chair and must also contain the division/department stamp. Return the completed form to the Registrar's Office for processing.

FS - 4/16/09

**Classification of Students**

Students are classified by year according to the number of credits earned as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>First-Year Student (Freshman)</td>
<td>0-23</td>
</tr>
<tr>
<td>Sophomore</td>
<td>24-59</td>
</tr>
<tr>
<td>Junior</td>
<td>60-89</td>
</tr>
<tr>
<td>Senior</td>
<td>90 or More</td>
</tr>
</tbody>
</table>

**Examinations—Regular**

Examinations in University courses are of two kinds:

1. Instructional tests administered by instructors at various times during a term, with or without prior notice
2. Final examinations administered at the close of each term in accordance with a prepared schedule of examinations.

**Examinations—Special**

Special examinations as administered at Minot State University serve two purposes: to meet a requirement or to earn credit by examination.

**Credit by Exam**

Under certain circumstances, a currently registered student may receive credit by examination for a course in which he/she has not been regularly enrolled. Each department or division may determine those courses, if any, for which credit may be earned by examination. Credit by examination may be awarded through nationally standardized tests or through institutionally devised tests.

**Nationally standardized tests** such as the College Level Examination Program (CLEP), the Advanced Placement (AP) examinations, or the National League of Nursing (NLN) examinations, may yield scores which earn lower division, satisfactory credits for the student. Students pay a test fee directly to the test service. MSU follows NDUS procedure which details the minimum credit-granting score, number of semester credits, and course(s) or type of course(s) to be awarded.

Computer-based CLEP testing is available on the Minot State University campus by appointment only. Contact the Center for Extended Learning for scheduling and registration information. An administrative fee applies for computer-based CLEP testing, in addition to any examination fee paid to the test service. Interested students may inquire at the Registrar's Office for specific information on how credit earned by examination may be applied to particular degree requirements, including General Education Requirements. Official score reports must be sent to the Registrar's Office before any satisfactory credits are posted to the student's permanent record. Credits earned by standardized examination do not carry letter grade or honor point values, nor are they considered credits earned in residence. Such credits posted to the Minot State University transcript may not transfer to other institutions.

**Institutionally devised tests** serve to validate prior learning in order to award college credit. Such tests may be either department examinations or validation examinations.

**Department Examinations** may be available to regularly enrolled students who wish to establish Minot State University credit for acquired proficiency in a given subject matter. Requests should be addressed to the chairperson of the division or department overseeing the corresponding courses who
will then determine if credit by examination is an appropriate alternative for the student. In some cases CLEP may be advised. High school transcripts or other evidence must first be presented to document qualification for a department examination.

A Petition to Earn Credit-by-Examination must then be obtained from the Registrar’s Office and completed as per instructions. A nonrefundable special exam fee of 50% of the regular per credit charge for each course is assessed and must be paid prior to taking the department examination.

Passed examinations establish satisfactory credits which are recorded on the student’s permanent record. However, no letter grades or honor points are posted to the permanent record. Credit established by department examinations will not count toward a student’s term load, nor are they considered credits earned in residence. Such credits posted to the Minot State transcript may not transfer to other institutions.

Validation Examinations may be available to regularly enrolled students who wish to establish credit for Minot State University courses that correspond to learning acquired at non-accredited and nondegree institutions. Evidence of having satisfactorily completed the corresponding course work must first be presented in the form of a transcript.

A Petition to Earn Credit-by-Examination must be obtained from the Registrar’s Office and completed as per instructions. A nonrefundable special exam fee of 50% of the regular per credit charge for each course is assessed and must be paid prior to taking the validation examination.

A committee of three faculty members appointed by the chairperson of the area offering the course(s) will administer and evaluate the examination. The majority opinion will prevail in determining if the student has passed. Such examinations must be searching and comprehensive. Passed examinations establish satisfactory credits which are recorded on the student’s permanent record. However, no letter grades or honor points are posted to the permanent record. Credit established by validation examinations will not count toward a student’s term load, nor are they considered credits earned in residence.

Petitions to take these examinations must be submitted by the student during the first term in residence. The chairperson of the area offering the course(s) will determine when the examination is to be taken.

Changes of Name/Address/Phone Number

Students are required to advise the University in writing of any changes of name, address or phone number. Contact information (address and phone number) should be updated using Campus Connection under Personal Information. Changes of name are processed in the Registrar's Office via a completed Name Change form with supporting documentation. Concerns about release of directory information should be directed to the Registrar’s Office.

Students are required to update their mailing and home addresses within 30 days of moving. If a student’s address is determined to no longer be valid, a hold will be placed on the student’s account until he/she updates his/her address.

Email Policy

Electronic mail (email), postal, and campus mail are official means by which the University may communicate with students. MSU exercises the right to send emails to students via the students’ Minot State University email account and expects that the received emails be read at least weekly.

Restricted Directory

The Family Educational Rights and Privacy Act (FERPA) designates certain information related to you as “Directory Information.” Students may request to prevent the release of directory information to third party individuals by notifying the MSU Registrar’s Office by completing the Student Rights to Privacy form found on the Registrar’s Office website. Failure to notify the Registrar’s Office as outlined above indicates implied consent to release directory information. Minot State University has identified the following as directory information:

- Name, campus address, home address, telephone listing, and campus e-mail address;
- Photograph;
- Student’s major(s) and the department, division, and college in which the student is enrolled;
- Classification as a first-year student (freshman), sophomore, junior, senior, graduate student, or special student;
- Enrollment Status: half-time, part-time, or full-time;
- Participation in officially recognized activities and sports;
- Weight and height of athletic team members;
- Dates of attendance at Minot State University;
- Degrees and awards received, including selection to the President’s Honor Roll, honorary organizations, and graduation with honors;
- The most recent previous educational agency or institution attended by the student.

Student Directory Information

Annual Notification of Rights under FERPA
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include the following:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.

   Students should submit to the Registrar, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.

   Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his/her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility. School officials are those members of an institution who act in the student’s educational interest within the limitations of their “need to know.” These may include faculty, administration, clerical and professional employees, other persons who manage student education record information including student employees or agents, and employees of the North Dakota Attorney General’s Office providing support or representation to Minot State University. Examples of a school official may include:
   a. a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff);
   b. a person or company with whom the University has contracted, eg. attorney, auditor, collection agency;
   c. a person serving on an institutional governing board;
   d. a person or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks.

   Other disclosures allowable without written consent are:
   a. to institutions in which the student seeks to enroll or is enrolled so long as the disclosure is for purposes relating to the student’s enrollment or transfer;
   b. to authorized representatives of federal, state, or local educational authorities;
   c. to accrediting agencies;
   d. in connection with a health or safety emergency;
   e. to comply with a judicial order or lawfully issued subpoena;
   f. concerning information considered “Directory Information.”

4. The right to refuse to permit the designation of all of the aforementioned categories of personally identifiable information as “Directory Information.”

5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Minot State University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

   Family Policy Compliance Office
   U.S. Department of Education
   400 Maryland Avenue SW
   Washington, DC 20202

A copy of the Family Educational Rights and Privacy Act of 1974 is on file and available for inspection at the following campus locations:

<table>

</tbody>
</table>

Transcripts

Unofficial Transcript
Current students and students enrolled at MSU since fall 2005 can acquire unofficial transcripts online, at no charge, using Campus Connection.
Official Transcripts

Students can request an official transcript online, in writing by mail, fax, or in person. Transcripts cannot be released without the student’s written signature unless requested online through Campus Connection. Transcripts cannot be requested by email or telephone. A service charge does apply per transcript copy, with additional charges for special ordering options. For additional information please visit www.minotstateu.edu/records/transcripts.shtml.

All transcripts contain a student’s entire academic record including undergraduate, graduate, and continuing education coursework.

Student Outcomes Assessment

The university routinely conducts campus-based studies of student achievement, student attitudes, student satisfaction, and professional and career development of students. These studies are grouped under the heading of “Outcomes Assessment.” Participation in outcomes assessment activities is expected of all students.

While every student is not selected for every campus assessment activity, students can anticipate that they will be involved in the assessment of the General Education outcomes and that at a minimum, graduating seniors will be required by their major departments to participate in assessing the effectiveness of their major program. Alumni will be surveyed to assess job placement rates. Assessment activities may include standardized testing, faculty developed exams, surveys, portfolios of student work, group or individual interviews, or observation of performance activities. There may be fees associated with standardized tests. Fees will be indicated in the term schedule when they are associated with a particular course.

Assessment results are used to enhance teaching and learning, improve the design and implementation of programs and curricula, and improve the quality of the educational experience for future generations of MSU students.

Grading System

Traditional Letter Grading

These grades are reported in letter symbols, each of which carries an honor point value per resident credit attempted. Honor points are used to measure a student’s scholastic achievement. (See also “Computation of Grade Point Average.”)

<table>
<thead>
<tr>

Satisfactory/Unsatisfactory Grading

Grades of Satisfactory or Unsatisfactory, rather than the traditional grades of A through F, are used in some courses at the University. A grade of “S” grants credit toward graduation but does not affect a student’s grade point average. A grade of “U” also does not affect the grade point average and does not grant credit toward graduation. The grading basis for all courses, including those offered strictly on an S/U basis, are available in Campus Connection by selecting the icon for additional course details.

Elective S/U Grading - Students may request to take a course on an S/U basis that is normally letter graded (A-F). The request must be made before the last day to drop a course for that particular session (full term, first eight weeks, second eight weeks).

The S/U option is open to all students in good academic standing who have achieved junior-year status with 60 or more semester hours. Students on Academic Warning or Academic Probation are prohibited from pursuing this option.

No more than fifteen semester hours of elective S/U course work can be applied toward a baccalaureate degree. The S/U option may not be used in those courses to be applied to the student’s major, minor, General Education requirements, or the professional education sequence. However, one S/U course may be applied to each area of concentration.

Additional S/U Grading - The S/U grading option is used to transcript nationally recognized academic tests such as the College Level Examination Program (CLEP), Advanced Placement (AP), and the American Council on Education (ACE). While individual test scores may be transcribed at the University, it is the responsibility of the student to ensure fulfillment of a program requirement through the department/division chair.

Satisfactory/Unsatisfactory grading is also used to record graduate level professional development activities numbered 2000 on the transcript, indicating workshop credit.
Other Symbols

A student’s record, or transcript, may contain additional symbols:

</table>

Policy on Incomplete Grades

An incomplete grade may be requested by a student who has been in attendance, has done satisfactory work (C or better) during the term, and whose work is incomplete for reasons found to be satisfactory to the instructor. A Course Completion Agreement detailing the work to be completed and expected completion date must be signed and dated by both the student and instructor. The original copy of the agreement must be submitted to the Registrar’s Office by the grade submission deadline. A copy of the agreement should be retained by the instructor and student. If a grade change is not received by the Registrar’s Office prior to the 1st Monday of the following month, the “I” grade will be automatically changed to the official grade as assigned on the agreement. Extensions will not be granted.

The grade of Incomplete (I) is an administrative grade that may only be entered by the Registrar’s Office with the exception of courses designated as practicum, internship, independent study, student teaching, field experience, or study abroad. A grade of “X” (In Progress) is available for 595, 598, and 599 courses.

The instructor will submit the grade earned at the time of grade posting if they choose not to sign a Course Completion Agreement or the student does not request an Incomplete grade.

The instructor may complete the contract on behalf of the student for circumstances beyond the student’s or faculty control. A summary must be attached to include the instructor communication attempts or actual communication with the student.

APC - 08-09 & FS - 4/16/09

Policy on Repeating Courses

Students may repeat courses taken at Minot State or those originally taken at another institution, but should be aware of the following guidelines:

- All courses must be repeated through MSU for an improved grade. Repeating a course at another institution will average both grades in GPA calculations. Both grades will be maintained on the student’s transcript. Transfer courses must be equated to MSU courses and must have been completed prior to enrolling at MSU to be eligible for the repeat policy.
- When repeating a course through MSU, the most recent grade will be included in GPA calculations.
- Courses that have been failed in a face-to-face format cannot be repeated via correspondence.
- Students cannot repeat courses for an improved GPA after a degree has been posted.
- Transcripts will automatically reflect repeated courses upon conclusion of a semester. Students are asked to contact the Registrar’s Office if they believe a repeated course has not been properly identified as a repeat on the transcript due to changes in course title or course numbering.

The student who wants to repeat a course no longer offered in the college curriculum must obtain permission to substitute a currently offered course from the chairperson of the division or department responsible for the original course.

DC - 8/27/14
Policy on Failure in Sequential Courses

Students who fail a course which is the prerequisite in a sequence of courses will not be allowed to continue in that sequence until a passing grade is received in the course.

Computation of Grade Point Average

The grade point average (GPA) is computed by dividing the number of honor points earned by the number of semester credits attempted for which grades of A, B, C, D, or F were given. Honor points for each course are calculated by multiplying the number of semester credits by the points awarded for the grade achieved in the course. For example, a student who received an A, B, C, and D in four 3-credit courses would have the following GPA:

\[
\begin{align*}
A \times 3 \text{ credits} &= 4 \times 3 = 12 \text{ honor points} \\
B \times 3 \text{ credits} &= 3 \times 3 = 9 \text{ honor points} \\
C \times 3 \text{ credits} &= 2 \times 3 = 6 \text{ honor points} \\
D \times 3 \text{ credits} &= 1 \times 3 = 3 \text{ honor points}
\end{align*}
\]

Total = 12 credits = 30 honor points = 30 honor points/12 credits = 2.50 GPA

GPAs are used in determining eligibility to work on campus, to receive financial aid, to continue in a course of study, to participate in varsity competition, for membership in organizations, and to petition for overload.

- **Cumulative GPA** accounts for all academic credit earned at Minot State University and at any other college or university attended.
- **Term GPA** reflects the student’s academic average for an individual term.
- **Major and Minor GPAs** account for those required and elective credits which will be applied to the major or minor. The same procedure is used in computing the averages for the elementary competence and concentration areas.
- **Education Sequence GPAs** are computed based on the completed semester credits for courses in the education core.

Grade Reporting

Students may access their grades through CampusConnection approximately one week following finals week. Discrepancies on transcripts must be brought to the attention of the Registrar’s Office within one year of the term in question.

Midterm Grading

Faculty members are required to report a midterm grade for each student. Letters will be sent to students with deficient grades. Ds, Fs, and Us are considered deficient grades. Students access their midterm grades in Campus Connection. Students receiving midterm deficiencies are encouraged to seek assistance from their instructors or other support services on the campus available to them. As a last resort, students have the option of dropping the course, following course drop procedures and published deadlines.

Note: Midterm grades are not a part of the student’s official record, and they will not appear on the student’s transcript.

DC - 2/27/13

Policy on Academic Reassessment of Past Grades

This policy pertains only to former Minot State University students returning to the University as pre-baccalaureate undergraduate students after an absence of five or more years. It provides those students an opportunity to have their academic standing reflect the increased maturity and improved level of academic performance gained since the interruption of studies at Minot State. It is designed to facilitate the return to good academic standing of students who have accumulated large honor point deficits in the early stages of their career at the University.

The following eligibility criteria must apply:

1. The student must be one whose previous academic performance at Minot State University as measured by cumulative grade point average (GPA) was less than 2.00.
2. The student has returned to the University as a pre-baccalaureate undergraduate student after an absence of five or more years.
3. The student has demonstrated a renewed academic interest and effort upon returning to Minot State by earning a first semester cumulative grade point average of at least 2.00 as a full-time student or at least a 2.00 in the first 12 semester credits completed as a continuing part-time student.
4. The student must be currently enrolled and in good standing at the time the request for academic reassessment is processed.
5. Grades eligible for exclusion are those earned five or more years ago at Minot State University. This policy does not apply to transfer credit from other institutions.

Students who meet the eligibility criteria may request to have “F” grades previously earned at Minot State University excluded from their total credits earned and from grade point average (GPA) computations for the purpose of meeting scholastic continuance and graduation requirements. Excluded “F” grades, however, will remain on the permanent transcript. The courses for which reassessment is sought must be discussed in consultation with the Academic Advisor of Record and must be approved by the student’s major department chair and by the Assistant Vice President of Academic Affairs. Students with more than one major need approval from each appropriate chair and Assistant Vice President of Academic Affairs. This policy may be
used only once during a student’s enrollment at Minot State University and cannot be revoked by the student after approval. Academic reassessment must be requested prior to the awarding of a baccalaureate degree.

Students in the Teacher Education program need to be aware that the North Dakota Education Standards and Practices Board (ESPB) has the authority to determine how GPA is calculated for teacher certification purposes. ESPB has had a practice of determining GPA based upon ALL college courses taken by the applicant. ESPB adds all grades, including “F” grades, which have been reassessed by institutions to determine if a student meets the 2.5 minimum grade point average requirement for certification.

Grade Appeal Procedures

The evaluation of student performance as a grade is recorded on the student’s University transcript as part of the student’s permanent record. The student’s grade is determined by the faculty member responsible for the course and is based upon factors related to achievement of the course objectives. The course grade is considered final unless an appropriate appeal is filed by the student. For the student who is dissatisfied with a grade and has reason to believe the grade issued is incorrect, the following appeal procedure is provided by the University:

Step 1

Within sixteen (16) weeks following the date of the original posting of the grade, the student shall confer with the instructor who issued the grade and outline the reasons why he/she believes the grade is incorrect. (If the faculty member is unavailable, the student is expected to contact the chairperson or Assistant Vice President of Academic Affairs within this same time period.) Following the student-faculty conference, the instructor shall advise the student of the outcome of the course grade review and shall process a grade change if appropriate.

Step 2

If the student still considers the grade to be incorrect, the student may formally appeal the grade to the department/division chair in which the faculty resides within fourteen (14) days following the completion of Step 1. Following the student-department/division chair conference, the chair shall advise the student of the outcome of the course grade review and shall process a grade change if appropriate.

Step 3

If the student still considers the grade to be incorrect, the student may formally appeal the grade at the administrative level within fourteen (14) days following the completion of Step 2. The Step 3 appeal process requires the student to obtain the procedure to be used in this step from the office of the Assistant Vice President of Academic Affairs.

Step 4

If the student is still dissatisfied, the student may request that the case be reviewed at a hearing by the Student Rights Committee. The formal request for the hearing must be received by the Registrar within fourteen (14) days after the completion of Step 3 and show documentation of Steps 1, 2, and 3.

The Student Rights Committee will not review courses that have already been excluded from a students’ GPA because they have been repeated.

The decision of the Student Rights Committee is considered final.

APC - 3/24/15 & FS - 3/26/15

Student Rights Committee

A student who fails to withdraw from school or who fails to drop a course prior to the first day of final exams is directed to the Student Rights Committee for individual review. Appeals are only granted for extenuating circumstances that are related to the course being appealed (See Grade Appeal Procedure).

Requests to the Student Rights Committee must be in writing, and it is the responsibility of the student to provide evidence supporting his/her request. The decision of the Student Rights Committee is considered final.

Information is available and requests are submitted through the Registrar’s Office or www.minotstateu.edu/records.

Registration

Registration for the next semester takes place over a one-week period in the middle of each semester. Registration priority is determined by the number of credits completed. Students may not enroll earlier than their assigned time, but they may register later. Refer to the academic calendar (http://www.minotstateu.edu/records/index.shtml) published each semester through the Registrar’s Office for specific registration dates. The schedule of classes is available in Campus Connection one semester prior to registration.

Students register online via Campus Connection. Registration through Campus Connection enables the student to enroll in courses starting at a pre-assigned time or anytime thereafter; however, students are encouraged to meet with their advisors prior to registering for courses. Video instructions
for using Campus Connection registration are available at minotstateu.edu/cc/cc_v9.shtml. First-year students (freshmen) and transfer students will be introduced to registration processes during orientation activities.

Adding Courses or Changing Sections

Students may make routine enrollment adjustments to their courses via Campus Connection.

Requests for adding closed, restricted, or overload credits must be processed through the Registrar’s Office. Students must obtain Petition to Add form from the department or division office responsible for each class they wish to add and obtain the necessary signatures and the department stamp before changes can be processed.

Classes may be added through the seventh day of a regular (16-week) session in fall/spring semester. Students may add classes through the fourth day of a standard summer semester or eight-week course.

Students may not add courses after the deadline unless very unusual circumstances exist. In such cases they must obtain the approval of the instructor and the chair overseeing the course and the department/division stamp provided by the department/division offices.

Waitlisting for Courses

A waitlist allows a student to indicate interest in a course that is presently full. For courses with the waitlist option, students will be asked to check “Ok to Waitlist” during the enrollment process in Campus Connection. The course will appear on the study list as “waiting” which indicates the potential for enrollment, not actual enrollment.

If a seat becomes available in the class, the first eligible student on the waitlist will be automatically enrolled in the course. An email notification will be sent to the student’s Minot State University email account stating the course has been added to the student’s schedule. The student is responsible for monitoring his/her study list and complying with all add/drop policies once enrolled. Students who no longer want to wait for an opening in a course must drop themselves from the waitlist through Campus Connection.

The last day to add to a waitlist is the fourth calendar day of a regular (16-week) session in fall/spring semester and the first calendar day for a term 1 or term 2 session (8-week). A student may be moved from the waitlist to “enrolled” status through the tenth calendar day of a regular (16-week) session in fall/spring semester and the fourth calendar day of a term 1 or term 2 session (8-week).

A student will be dropped from multiple waitlists if he/she is on the waitlist for multiple sections of the same course and is successfully enrolled in one of the sections. A student will not be added to a course off a waitlist if he/she is already enrolled in an available section of the same course. A Petition to Add form cannot be used to be added to a waitlist.

Dropping Courses

Students are able to drop courses online according to specific published deadlines. All but the last course can be dropped via Campus Connection. (See “Withdrawal from the University (p. 22)” for procedures on withdrawing from all courses.)

For a standard 16-week semester, the last day to drop a course without a record is the 10th calendar day in the fall term and the 11th calendar day in the spring term. The last day to drop courses or withdraw from the institution is the last business day of the 12th week of the term. Add, drop, and withdrawal dates for summer terms or other sessions not 16-weeks in length shall be proportionate to the standard 16-week term.

SBHE Policy 406.1

Late Course Drops

Students who fail to drop a course by the official drop date may apply for “late course drop” due to extenuating circumstances. Late course drops must be approved by the instructor and are subject to departmental policy. The instructor’s signature, department/division chair signature, and the department/division stamp must be obtained on a Late Course Drop Request or drop slip. Drop slips are available in the Registrar’s Office or the department/division offices. Once completed, drop slips must be returned to the Registrar’s Office for processing. A late course drop must be processed prior to the first day of final exams.

Class Attendance

Instructors are required to report course enrollment. After the seventh day of a regular (16-week) session in fall or spring and the fourth day of a summer or eight-week session, instructors are required to report students who have never attended any class sessions or completed an academic-related activity in their internet course(s). If such absence is reported by the instructor, the Registrar’s Office will administratively drop or withdraw the student. As a result a “W” will be recorded on the student’s official transcript and the course(s) will be subject to published refund policies. The Registrar’s Office will notify the student of the changes in his/her enrollment status. If the student would like to re-enroll in the course(s), he/she must obtain approval of the instructor and chair overseeing the course in the form of add slip, along with the department/division stamp.

Students are expected to attend all class sessions of any course for which they are registered. Prior to an instructor reporting course enrollment, instructors may cancel a student who is registered for a course but fails to attend any of the first three hours of class meeting time during the first ten
instructional days. This rule allows for early identification of class vacancies to permit other students to add closed classes. Students who know they will be absent from any class should contact the instructor in advance.

However, lack of attendance does NOT guarantee automatic cancellation for students. Each student is held accountable for those courses selected at the time of registration. Only a drop properly processed by Campus Connection will assure the student that a class has been dropped from his/her schedule of classes. Failure to officially drop a class or withdraw from the University will result in failing marks on the student's record.

A student who does not complete assigned academic work because of absence from class is responsible for making up that work in accordance with instructions provided by the faculty member teaching the course. Faculty may establish attendance standards and will determine whether a student will be permitted to make up work missed as a result of absence(s).

Minot State University has a commitment to students who represent the University in official capacities. University-sanctioned activities include events that are required or encouraged by a class, program, club, or athletic team. When a student has a scheduled absence due to a university-sanctioned activity, it is the student’s responsibility to communicate with the faculty member prior to his or her absence. Faculty members should have a procedure for student absences in each syllabus that details the method and advance time for students to communicate their absence. If a student notifies the professor in accordance with the faculty member’s policy, students should be allowed to complete class work. If a student does not communicate with the faculty member in advance of the absence, it is up to the faculty member’s discretion whether to allow the student to complete the work. If disputes arise with this policy within the semester, students should contact in progressive order, the faculty member, department/division chair, Assistant Vice President of Academic Affairs, and Vice President of Academic Affairs.

Faculty members who schedule co-curricular activities conflicting with a student’s other scheduled class sessions will be responsible for giving students as much advance notice as possible. The student will be expected to inform his/her other instructors and arrange for whatever makeup work, including examinations, may be required. If a satisfactory arrangement cannot be made, the student may appeal to the Dean of the college of the course in which he/she is enrolled.

As a courtesy to students and faculty, the Vice President for Student Affairs contacts faculty on behalf of the student for the following emergencies only if the student will be absent from classes for more than one week:

- Hospitalization
- Death in the Family
- Jury Duty
- Military Duties
- Family illness

Please Note: Notifying the Vice President for Student Affairs or faculty members through the Public Information Office DOES NOT constitute an excused absence. It is up to the discretion of the professor whether or not students will be excused from class or allowed to make up any missed work. Faculty members requiring an excuse to make up missed work must obtain it directly from the student.

**Withdrawal from the University**

Students who find it necessary to withdraw from all courses during a semester must complete a Withdrawal Form either at the Financial Aid Office or online at http://www.minotstateu.edu/finaid/withdraw.shtml. The last day to withdraw is the last business day of the twelfth week of instruction in a fall or spring semester and the end of the sixth week of instruction in a summer semester or eight-week session.

**Late Withdrawals**

Students who fail to withdraw from all courses by the official withdrawal date may be eligible for late withdrawal. The request for withdrawal must be for reasons beyond the student’s control, including but not limited to the following: death of an immediate family member, extended illness, or hospitalization of the student. Late withdrawals are processed through the Financial Aid Office. Third party documentation is required when requesting a late withdrawal. Documentation may be a letter from the student’s physician or an obituary notice or other documentation that verifies the student’s special circumstance. The student will receive “Ws” for the semester. A late withdrawal must be processed prior to the first day of final exams.

Students who leave the University without completing the official withdrawal procedure will receive failing grades (F’s) in all classes and will be disqualified from receiving financial aid.

**Degree Requirements**

**Catalog Governing Graduation**

University and departmental requirements to graduate default to the catalog under which a student initially enrolls with Minot State University. The student and/or an advisor must notify the Registrar’s Office if a student is following the requirements of a different catalog. Students can only choose to follow the requirements of a catalog that was published after initial enrollment, up to six years immediately preceding graduation. In the event courses are eliminated from curriculum, an appropriate substitution must be determined by the department. University or departmental requirements may change to comply with accreditation, certification, and licensing requirements. Should programs be eliminated from the curriculum, the University reserves the
right to determine an appropriate phase-out process. If there is break in enrollment, summer term excluded, the student must follow the requirements of the catalog representing the term in which the student re-enrolls.

Degrees Offered

Associate of Science (AS) Degree
Students are required to take a minimum of 30 credits from MSU and a minimum total of 60 semester hours is required. A minimum cumulative GPA of 2.00 is required to graduate. See program guidelines for specific requirements.

Bachelor of Applied Science (BAS) Degree
Students must complete an Associate of Applied Science (AAS) Degree prior to being accepted into the BAS programs. Students are required to take a minimum of 30 credits from MSU, and 60 from a four-year institution totaling the required 120 semester hour minimum. A minimum cumulative GPA of 2.00 is required to graduate. See program guidelines for specific requirements.

Bachelor of Arts (BA) Degree
Students earning a BA degree must pursue coursework outside the major and complete either:

1. One Major and three areas of Concentration
2. One Major, one Minor, and one area of Concentration
3. One Major, and two Minors

Majors, minors, and concentrations cannot be in the same content area. Students earning a BA who are interested in double-majoring will need to complete one concentration as well. Students who are interested in two minors will not need a concentration. A minimum of 120 total credits must be earned and a 2.00 cumulative GPA is required to graduate.

Bachelor of Fine Arts (BFA) Degree
In addition to General Education requirements, students must complete a specific option within the art curriculum. Additional admission requirements exist for this degree and students must be formally admitted to the BFA program after the completion of introductory courses. Refer to the Art (p. 115) program section of the catalog for additional admission guidelines. A minimum of 120 total credits must be earned and a 2.00 cumulative GPA is required to graduate.

Bachelor of General Studies (BGS) Degree
This degree does not recognize the specializations of majors, minors, or concentrations. Students considering this degree must contact the Registrar’s Office to declare BGS status. In addition to General Education requirements, students must complete a minimum of 40 semester hours of 300-400 level coursework as part of the total required 120 semester hours. A minimum cumulative GPA of 2.00 is required to graduate.

Bachelor of Science (BS) Degree
In addition to General Education requirements, students must complete a specific program of study. A minimum of 120 total credits must be earned and a 2.00 cumulative GPA is required to graduate.

Bachelor of Science in Education (BSEd) Degree
Teacher Education students must maintain cumulative grade point averages of at least 2.75 in all courses in the education core and a minimum 2.50 cumulative grade point average in the teaching major(s) or minor(s). Students must also complete the Teacher Education core and receive at least a “C” in every course in the Teacher Education core and courses that require admission to teacher education. Secondary admission requirements exist for this degree. For information on admission and retention policies in Teacher Education, refer to the Teacher Education Policies and Procedures (p. 283) section of this catalog. A minimum of 120 total credits must be earned and a 2.00 cumulative GPA is required to graduate.

Bachelor of Science in Nursing (BSN) Degree
Students who wish to earn this degree must be formally admitted into the nursing program and must make “satisfactory progress” as specified in the Department of Nursing (p. 246) section of this catalog. Once admitted, BSN candidates must maintain a minimum cumulative grade point average of 2.00 and a “C” grade in all required support and nursing major courses. A minimum of 120 total credits must be earned and a 2.00 cumulative GPA is required to graduate.

Bachelor of Social Work (BSW) Degree
Additional admissions requirements exist for this degree and students must be formally admitted into the Social Work Program after the completion of introductory courses. In addition, they must be formally admitted to the Field Experience during their senior year. Students must also complete specified General Education requirements and specified support courses in addition to the core social work coursework. Refer to the Social Work (p. 239) section of the catalog for additional admission guidelines. A minimum of 120 total credits must be earned and a 2.00 cumulative GPA is required to graduate.
Credits Required for a Degree

Baccalaureate Degree

A minimum of 120 semester credits is required for a baccalaureate degree at Minot State University. At least 60 of these credits must have been earned at a four-year college or university. The student must have completed the Minot State University General Education Requirements and all required courses for the selected major(s), minor(s), and area(s) of concentration and competency, as well as any other professional requirements as may be prescribed in each curricular plan. No more than 15 credits earned with the satisfactory/unsatisfactory option may be applied toward the degree.

Multiple Degrees

Students may elect to earn two or more bachelor degrees. Each degree must be different (i.e. BA and BS). For example, students cannot complete a BS double degree in Accounting and a BS in Criminal Justice. This would be a one degree with two majors. Neither could a student complete a BA in History and a BA in Psychology. In cases involving two majors with one degree, see the section of the catalog concerning double majors. Students deciding to earn two or more degrees must complete all the requirements of the major for each degree. Each student must earn a minimum of 30 semester hours beyond the first degree for each additional degree. While there may be overlap for the major requirements for the two or more degrees, students must complete all minor/concentration requirements for each degree. Repeated courses do not count towards the additional 30 semester hour requirement for each additional degree.

Double or Multiple Majors

Students may elect to earn a single degree (i.e. BA or BS) with more than one major. All requirements for both or multiple majors must be completed even though students will receive a single degree such as a Bachelor of Arts with majors in English and History. If a bachelor’s degree is the objective, it is only necessary to complete the number of semester hours required for a single major.

Adding a Major/Minor After a Degree has been Posted

Students who have previously completed a degree at Minot State University (with the exception of the BGS degree) may elect to return to the University to complete an additional major, minor, and/or concentration. Refer to the department of your chosen major/minor/concentration for detailed information about specific requirements.

Certificate of Completion or Certificate Program

Both Certificates of Completion and Certificate Programs will be annotated on an academic transcript. For each certificate of completion and/or certificate program, a student must complete one quarter of the semester hours through Minot State University.

Grade Point Average Requirements

A minimum cumulative grade point average of 2.00 is required in all of the major, minor, concentration, competency areas, and cumulative averages for associate and baccalaureate degree candidates. Some programs of study have higher minimum grade point average requirements. Refer to detailed program information to see specific grade point requirements.

Honors Requirements

The cumulative grade point average is used to determine which baccalaureate degree students may graduate with honors. Prospective honors graduates must have completed both a minimum of two terms in residence and 30 semester credits at Minot State University. For students earning a second degree, honors are based on grades earned beyond the first degree. The minimum honors requirements are as follows:

<table>
<thead>
<tr>
<th>Honor</th>
<th>Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cum Laude</td>
<td>3.500</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.750</td>
</tr>
<tr>
<td>Summa Cum Laude</td>
<td>3.900</td>
</tr>
</tbody>
</table>

Residency Requirements

All courses taught for Minot State University credit are considered “in residence.” Baccalaureate degree candidates must have earned a minimum of 30 semester credits in residence. At least 12 of the credits required for any major and at least six of the credits required for any minor must have been earned in residence. Some programs may require more than the minimum number of credits for the major or minor.

General Education Requirements

Minot State University General Education
General Education at Minot State University is designed to ensure students learn a common set of academic skills and capacities, display personal and social responsibility, and understand interconnecting perspectives shaping domestic and global issues. The overarching goal is to impart and develop skills that allow graduates to flourish and make life-long contributions to their professional, civic, and social world regardless of discipline, major, or career path. Three broad developmental categories, each with specific objectives, constitute general education at MSU. To ensure that all aspects are included in the undergraduate experience, students must take courses or engage in experiences from each area. The objectives for these broad areas are:

**Critical Capacities and Skills (CCS)** requires a student to demonstrate the capacity to think critically, write, collaborate, communicate, solve problems, and to deploy skills related to information and quantitative literacy.

- CCS1 (p. 26) Problem Solving
- CCS2 (p. 27) Information Literacy
- CCS3 (p. 28) Critical Reading
- CCS4 (p. 29) Quantitative Literacy
- CCS5 (p. 30) Oral/Written Communications
- CCS6 (p. 31) Collaboration

**Personal and Social Responsibility (PSR)** requires a student to develop an understanding and commitment to individual well-being and to civic life and community needs.

- PSR1 (p. 32) Relationships and Value Systems
- PSR2 (p. 33) Responding to Community Needs
- PSR3 (p. 33) Individual Well-Being

**Interconnecting Perspectives (IP)** requires a student to study, reflect, and apply the understanding of diverse global and domestic perspectives both in the classroom and in a global setting.

- IP1 (p. 34) Knowledge
- IP2 (p. 35) Experience

**Requirements**

All baccalaureate degree students must complete MSU’s General Education Requirements (GER). Courses taken to complete GER may also be used to complete the requirements of majors, minors, or concentrations.

Students fulfill developmental content requirements by taking courses approved for each of the specific CCS, PSR, and IP areas (11 total). Students fulfill many of these requirements using courses traditionally taken in the first or second year, but because both lower and upper division courses are included, in practice, meeting all of these requirements can be spread across the entire undergraduate career and can include courses in a student’s major. The learning outcomes of each of the 11 developmental areas are assessed using rubrics adapted from AAC&U’s LEAP rubrics. (See more about assessment below.)

Students must also take required core and foundational courses in academic areas distributed across oral and written communication (9 cr.), mathematics (4 cr.), the arts and humanities (6 cr.), the physical and natural world (8 cr.), history (3 cr.), the social sciences (6 cr.), and a first-year seminar (2-3 cr.). These core and foundational courses satisfy learning outcomes within CCS, PSR, and IP developmental content requirements. As such, the broad umbrella of developmental content also covers MSU’s foundational courses and core requirements. In addition to ensuring a well-rounded foundation in disciplinary content for every graduate, foundational content also facilitates transfer within the North Dakota University System (NDUS) by meeting the state’s GERTA (http://www.ndus.nodak.edu/employees/articulation-transfer/gerta-guides-request-form) (General Education Requirement Transfer Agreement) requirements.

**Assessment**

The MSU Academic Assessment Committee created an assessment system designed to collect data to evaluate the extent to which students acquire the skills, capacities, experiences, and perspectives specified in each major CCS, PSR, and IP area. To do this, departments of participating courses identified an assignment or piece of evidence in the course that can be evaluated using a rubric designed for a specific developmental sub-area and its learning outcomes. For example, a literature course that satisfies CCS3 (Critical Reading) might identify a particular writing assignment as the appropriate point of evaluation. The instructor applies the rubric, adapted from AAC&U’s LEAP rubrics (https://www.aacu.org/value-rubrics), to each paper and submits the results to a master database. Over time, the assessment committee will collect substantial amounts of data indicating student performance on the learning outcomes of each of the 11 areas, allowing regular cycles of analysis, campus discussion, and improvement. This system is designed to let MSU faculty see broad trends in the effectiveness of our general education model and to adjust for improvement.

**Transfer Students**

If a student transfers to MSU and is considered complete in his/her general education requirements under one of MSU’s agreements, the student will be considered to have met the requirements for the developmental content, foundational content, and required core.
Developmental Content

Three broad developmental categories, each with specific objectives, constitute general education at MSU. To ensure that all aspects are included in the undergraduate experience, students must take courses from each area. The objectives for these broad areas are:

**Critical Capacities and Skills (CCS)** requires a student to demonstrate the capacity to think critically, write, collaborate, communicate, solve problems, and to deploy skills related to information and quantitative literacy.

- CCS1 (p. 26) Problem Solving
- CCS2 (p. 27) Information Literacy
- CCS3 (p. 28) Critical Reading
- CCS4 (p. 29) Quantitative Literacy
- CCS5 (p. 30) Oral/Written Communications
- CCS6 (p. 31) Collaboration

**Personal and Social Responsibility (PSR)** requires a student to develop an understanding and commitment to individual well-being and to civic life and community needs.

- PSR1 (p. 32) Relationships and Value Systems
- PSR2 (p. 33) Responding to Community Needs
- PSR3 (p. 33) Individual Well-Being

**Interconnecting Perspectives (IP)** requires a student to study, reflect, and apply the understanding of diverse global and domestic perspectives both in the classroom and in a global setting.

- IP1 (p. 34) Knowledge
- IP2 (p. 35) Experience

**Critical Capacities Skills**

**Critical Capacities and Skills (CCS)** requires a student to demonstrate the capacity to think critically, write, collaborate, communicate, solve problems, and to deploy skills related to information and quantitative literacy.

- CCS1 Problem Solving
- CCS2 Information Literacy
- CCS3 Critical Reading
- CCS4 Quantitative Literacy
- CCS5 Oral/Written Communications
- CCS6 Collaboration

**CCS1 - Problem Solving**

Problem solving requires students to demonstrate the ability to raise vital questions and problems, formulating them clearly and precisely.

Students will demonstrate: 1. the ability to state a problem/question; 2. the ability to determine solutions associated with the problem/question; 3. the ability to evaluate evidence associated with the solutions; and 4. the ability to select and defend the best solution for the problem/question.

**CCS2 - Information Literacy**

Information literacy requires students to demonstrate the ability to locate, evaluate, select and assess relevant information, use abstract ideas to interpret information effectively, and come to well-reasoned conclusions and solutions.

Students will demonstrate: 1. the ability to determine the nature and extent of information needed; 2. the ability to access needed information effectively and efficiently; 3. the capacity to evaluate information and its sources critically; 4. individually, or as a member of a group, the ability to use information effectively in order to accomplish a planned objective; and 5. the ethical and legal use of information.

### Personal and Social Responsibility

**Personal and Social Responsibility (PSR)** requires a student to develop an understanding and commitment to individual well-being and to civic life and community needs.

- PSR1 Relationships and Value Systems
- PSR2 Responding to Community Needs
- PSR3 Individual Well-Being

#### PRS1 - Relationships and Value Systems

Relationships and value systems requires students recognize their relationships to communities and evaluate different value systems associated with community issues.

Interconnecting Perspectives

Interconnecting Perspectives (IP) requires a student to study, reflect, and apply the understanding of diverse global and domestic perspectives both in the classroom and in a global setting.

- IP1 Knowledge
- IP2 Experience

**IP1 - Knowledge**

Interconnecting perspectives: knowledge requires students demonstrate through coursework an understanding of diversity both globally and within the United States.

## Foundational Content

Foundational Content (FC) includes studies in the arts and humanities (FC1 6 cr.), the physical and natural world (FC2 8 cr.), history (FC3 3 cr.), and the social sciences (FC3 6 cr.).

### Foundational Content - Humanities (6 credits)

Students will demonstrate knowledge of human cultures and cultural products—the arts and letters—and of how to study, compare, and critique diverse cultural perspectives and aesthetics. Students will also have the opportunity to produce their own cultural artifacts.

Foundational Content - History and Social Sciences
Students will demonstrate knowledge of common and diverse historical experiences and of how to apply historical synthesis to inform decisions and understanding of the contemporary world. Courses from the social sciences in particular should emphasize scientific analysis from the everyday world and should analyze data and problems as they relate to the contemporary world. Courses from the social sciences in particular should emphasis analysis from the everyday world and should analyze data and problems as they relate to the contemporary world.

**Major Requirements**

**Declaring or Changing a Major**

Refer to the academic programs offered for the complete listing of majors, minors, and concentrations offered at Minot State University.

Students indicate on the application for admission the major or majors in which they are interested. Students undecided as of a field of interest may elect an undeclared major while making program and career decisions. Undeclared students must declare a major in a degree-granting program by the time they have completed 45 credits.

Students must complete at least one major in order to earn any Minot State University baccalaureate degree other than a Bachelor of General Studies (BGS) Degree. BGS students do not declare majors, minors, or concentrations.

Student may declare or change majors by accessing the online major/minor change form located at www.minotstateu.edu/records/forms.shtml.

**Credits Required for a Major**

In general, students in a bachelor degree program must complete a minimum of 36 credits in the major, although this may vary considerably across programs. At least 12 of the credits required for the major must be completed in residence at Minot State University.

Students may not earn a major without also earning or holding a Minot State University degree.

Students may elect to earn a single degree with more than one major. Students may complete a double major (two majors) or any number of majors. All requirements for the majors must be completed even though students will receive a single degree such as a Bachelor of Arts with majors in English and History.

**Credit Overlap**

Courses that are used to meet the requirements in one major or minor may also be used to meet requirements in other majors or minors.

**Grade Point Average Requirement**

A minimum grade point average of 2.00 is required for the major(s). Some programs of study have higher minimum grade point average expectations.

**Minor Requirements**

A minor is the completion within an area of specialization of a group of courses in a field other than the major. Minors may be earned in fields unrelated to students’ majors or they may be complementary or supportive of majors. Minors may be used to fulfill career needs or to facilitate in-depth investigation in a discipline of secondary interest.

**Declaring or Changing a Minor**

Any student may elect to earn one or more minors; however, Bachelor of Arts degree recipients often pursue at least one minor in order to complete degree requirements.

Students should discuss intentions to pursue the minor(s) with their advisors and with the affected department(s).

A notation recognizing the fulfillment of the requirements for the minor(s) will be posted on the student's permanent academic record at the time of graduation.

Student may declare or change minors by accessing the online major/minor change form located at www.minotstateu.edu/records/forms.shtml.
Teaching Minors and Praxis II
A teaching minor in a “core” subject area requires that the candidate successfully complete the Praxis II examination to obtain a major equivalency that allows them to teach in that subject area. A teaching minor in a “non-core” subject area allows the candidate to be licensed to teach in that area.

Credits Required for a Minor
Courses required for the minor are specified by each discipline that offers one. Although the actual number of credits required to complete a minor will vary by discipline, a minimum of 18 credits is standard. At least six of the credits required for the minor must be completed in residence at Minot State University.

Students may not earn a minor without also earning or holding a Minot State University degree.

Credit Overlap
Courses that are used to meet the requirements in one major or minor may also be used to meet requirements in other majors or minors.

Grade Point Average Requirement
A minimum grade point average of 2.00 is required for the minor(s). Some programs of study have higher minimum grade point average expectations. Refer to individual program guidelines for more information.

Concentration Requirements
A concentration is similar in concept to the minor but requires fewer credits for completion. Concentrations may be earned in fields unrelated to students’ majors or they may be complementary or supportive of majors.

Students may not earn a concentration without also earning or holding a Minot State University degree.

Pursuing a Concentration
Any student may elect to earn one or more concentrations; however, Bachelor of Arts degree recipients must pursue at least one concentration outside the division/department in order to complete degree requirements. The student should discuss intentions to pursue a concentration with his/her advisor.

Credits Required for a Concentration
Courses required for the concentration are specified by each discipline that offers one. Although the actual number of credits required to complete a concentration will vary by discipline, a minimum of nine credits has been established by the faculty for this purpose. Concentrations that include a minimum of 12 credits per SBHE Policy 409 will be transcribed.

Grade Point Average Requirement
A minimum grade point average of 2.00 is required for the concentration(s). Some programs of study have higher minimum grade point average expectations. Refer to individual program guidelines for more information.

Student may declare or change transcriptable concentrations by accessing the online major/minor change form located at www.minotstateu.edu/records/forms.shtml.

Graduation Requirements

Applying for Degree Candidacy
To become a candidate for a degree, an application for graduation must be submitted by the student to their advisor according to published deadlines. The advisor certifies that all major and minor requirements will be met by the close of the final term. The advisor then approves the application and submits it to the department chair for verification. The department chair then approves the application and submits it to the department chair for confirmation. The Registrar’s Office then informs the candidate of any requirements remaining to be completed to graduate. It is the student’s responsibility to comply with all deadline dates as specified in the calendar dates. Failure to do so could result in the postponement of graduation. Failure to comply with dates and deadlines may result in the delayed posting of a degree. Degrees are posted effective for the term the application is received by the Registrar’s Office.

Commencement
Degrees are conferred at commencement exercises held at the close of the spring semester. Candidates for graduation are those students who will have satisfied graduation requirements within the current academic year, as well as those who expect to finish their requirements in the summer session immediately following commencement. An academic year encompasses Fall, Spring, and Summer semesters. Each fall begins a new academic year. Students completing graduation within this period are encouraged to participate in the exercises.
Participation in the commencement ceremony does not signify degree completion.

Early Walk Through
Fall graduates may choose to walk through the spring commencement ceremony prior to completion of all graduation requirements. In order to be eligible for participation, the student must complete an application for graduation with their department/division chair and comply with all deadline dates as specified in the academic calendar.

Diplomas
Diplomas are issued following each term and are mailed within 6-8 weeks following the close of the academic session in which graduation requirements have been completed. Students must notify the Registrar’s Office of a forwarding address. Diplomas or official transcripts will not be released for students who have outstanding debts owed to the University.

Only student degrees are printed on diplomas. Majors, minors, and concentrations are not printed on diplomas. For example, if a student is receiving a Bachelor of Arts with a major in History, only “Bachelor of Arts” is printed on the diploma. Likewise, if a student is receiving a Bachelor of Science in Education with a major in Elementary Education, only “Bachelor of Science in Education” will be printed on the diploma.

Certificates
Minot State University offers options for Certificate Programs and Certificate of Completion. Students who receive only a certificate do not walk in commencement unless they have earned a bachelors degree at the same time.

A Certificate of Completion is awarded for an undergraduate course of study with less than 9 credit hours, or a non-credit course of study. At least one quarter of the semester hours must be earned through Minot State University. Certificates of Completion are annotated on an academic transcript; however, Certificate of Completion programs will not be recognized at commencement ceremonies.

Certificate Programs consist of at least 9 semester hours of coursework and typically include few General Education courses. At least one quarter of the semester hours must be earned through Minot State University. Completion of a Certificate Program will be annotated on an academic transcript; however, Certificate Programs will not be recognized at commencement ceremonies.

Admissions
At present, there is no mandatory application deadline; however, it is suggested that all students planning to enter the University for the fall term apply by April 1 of the preceding spring. Students planning to enter during subsequent terms should apply at least one month in advance. In general, early applicants receive higher priority for financial aid, housing, and class availability.

First-Year Student (Freshman) Admission Requirements
First-year applicants are defined as those who are applying to attend college for the first time after high school graduation.

Committed to high academic standards and professional support for students, Minot State University is dedicated to student success, engaged and life-long learning, advancement of knowledge, effective student service, and development of students of character. All first year students will participate in First Year Experience and Peer Mentoring. Additional assessments will be used to identify specific individual needs. Advisors will work closely with students to define goals, establish appropriate supports, and monitor progress.

Admission Checklist Requirements for First-Year Applicants

- A completed online undergraduate Application for Admission (http://www.minotstateu.edu/enroll/apply.shtml)
- A $35 non-refundable application fee
- Official transcripts (all final high school, GED, or college/university transcripts)
- High School Core Admission Requirements
  - Required of first-year students with a high school graduation date of 1993 to present
  - Required of U.S. students only
- ACT or SAT test results
  - Required of all U.S. and Canadian students who are less than 25 years of age on the first day of class

- Student Health Records: (Not required for admission consideration)
  a. Measles, mumps, and rubella (MMR). Proof of immunization for measles, mumps, and rubella requires two doses of vaccine given no less than one month apart, or positive serologic tests.
  b. Students ages 21 and younger must provide documentation of immunity against meningococcal disease given at or after age 16.
c. All students must complete the tuberculosis questionnaire.

To submit the required documentation, go to www.minotstateu.edu/health/immunization.shtml. **No student will be permitted to enroll in a subsequent term until immunization or documentation of a waiver is complete.**

**Minimum Academic Admission Requirements for First-Year Applicants**

- Minimum of 17 Composite ACT (900 SAT Total) AND a 2.0 Cumulative High School GPA

**Important Additional Information**

**Admission by Review**

Minot State University encourages all students to apply even if they do not meet the above ACT/SAT and or high school GPA requirements. Each applicant not meeting the high school core requirements will be reviewed based on additional criteria by the Admissions Exemption Committee.

**Application Process**

Admission begins by submitting an online admission application and the corresponding $35 fee to the Enrollment Services Office. The $35 application fee is mandatory and nonrefundable. Other required items (official transcripts, test scores, etc.) may be submitted at later dates as they become available. Communication will then be sent to the applicant advising of fully admitted, file incomplete, or denied admission status. Eligible students will receive subsequent electronic correspondence directing them to the date, place, and time for orientation/registration activities. All communication is done via email, with some mail correspondence.

All materials should be on file prior to the student’s registration. Students must be fully admitted before financial aid will be distributed. Admission to Minot State University is contingent upon successful completion of any current studies, if applicable. Therefore, it is imperative to send all final, official transcripts to Minot State upon completion of any current studies.

**Immunization Records**

**Proof of Two Immunizations as required by the State Board of Higher Education: (Not required for admission consideration)**

- Measles, mumps, and rubella (MMR). Proof of immunization for measles, mumps, and rubella requires two doses of vaccine given no less than one month apart, or positive serologic tests.
- Students ages 21 and younger must provide documentation of immunity against meningococcal disease given at or after age 16.
- All students must complete the tuberculosis questionnaire.

To submit the required documentation, go to www.minotstateu.edu/health/immunization.shtml. (http://catalog.minotstateu.edu/undergraduate/admissions/freshmanadmissionrequirements/www.minotstateu.edu/health/immunization.shtml) **No student will be permitted to enroll in a subsequent term until immunization or documentation of a waiver is complete.**

**ACT/SAT Test Results**

ACT or SAT scores are used to determine a student’s acceptance to the University, the scores must be submitted as a part of the admission process. The scores are used to assist students and their academic advisors in making good academic planning decisions. ACT scores should be sent to the University directly from the ACT office in Iowa City, Iowa. A student specifies the schools to which he/she wants scores sent at the time of writing the ACT exam. Subsequent requests may be made by contacting ACT Records, P.O. Box 451, Iowa City, IA 52243, (319)337-1313 or logging into their account at http://www.act.org/. **Note: Minot State University’s ACT code is 3214.**

While the ACT is preferred, the University accepts SAT scores as well. SAT scores: SAT College Board ATP, P.O. Box 6200, Princeton, NJ 08541, (609) 771-7600 or logging into their account at www.collegeboard.org (https://www.collegeboard.org). **Note: Minot State University’s SAT code is 6479.**

**Official Transcripts**

An official high school transcript records all work completed from grades 9-12, as well as the official date of high school graduation and cumulative GPA is required to complete your admissions file. This transcript must be sent directly from the high school to the Enrollment Services Office. Full admission status is contingent upon receipt of the final, official transcript sent when it becomes available.

**GED**

Students who hold a GED (General Education Development—high school equivalency certificate), rather than a high school diploma, must submit photocopies of their GED scores and certificates. For admission purposes GED scores must average #450 overall with no score lower than 410 on any of the subparts. Any student who tested for the GED in 2014 or later must provide documentation of a GED with a minimum score equal to or greater
than 145. Applicants with a GED are required to provide ACT/SAT score results and high school transcripts for further review, unless they are 25 years of age or older.

High School Core Admission Requirements

North Dakota State Board of Higher Education policy (402.2) requires that all students who completed their high school studies in the United States in 1993 to present must have completed the following high school courses before being permitted to enter Minot State University:

• **English (4 units)** - Including the development of written and oral communication skills.
• **Laboratory Science (3 units)** - Including at least one unit each in two or more of the following: biology, chemistry, physics, or physical science.
• **Mathematics (3 units)** - Algebra 1 and above, excluding business, consumer, and general mathematics.
• **Social Studies (3 units)** - Excluding consumer education, cooperative marketing, orientation to social science, and marriage/family.

The State Board of Higher Education strongly recommends that high school students intending to enroll in baccalaureate universities take algebra II (advanced algebra) and 2 units of a single classical or modern language, including American Sign Language and Native American languages.

Developmental Course Requirements

**What are Developmental Courses?**
Developmental courses are required as prerequisites for higher level English and Math courses, they do not count as credit toward graduation, and they do not impact college GPA. Students in developmental courses must earn a “C” or higher in order to take the next level course. The developmental courses qualify for Financial Aid.

**What Scores Require Developmental Courses?**
- An ACT English score of 17 or lower or SAT Evidence-Based Reading and Writing of 470 or lower
  - If age 25 or older at the start of the term or if transferring 24 or more credits you are exempt from the English developmental requirement
- An ACT Math score of 20 or lower or SAT Math score of 520 or lower

**What should I do next?**
If you feel your current ACT or SAT score(s) is not an accurate measure of your ability, you will want to consider taking the ACCUPLACER Placement exam. If you do not have an ACT/SAT score, you are required to take this exam. You will have the opportunity to take the ACCUPLACER exam when you come to New Student Orientation; however, if you would like to take the exam in advance, you may schedule an appointment by contacting the MSU Testing Center at 701-858-3990. If you have further questions please feel free to contact the Registrar’s Office at 1-800-777-0750 ext. 3345.

New Student Orientation

New Minot State University students (freshman and transfer) are required to complete a new student orientation. To facilitate completion of this requirement the campus will hold Orientation events during the summer and before the spring semester. These events will introduce students to the University through information sessions, a campus tour, academic advising, and with the student registering for classes. A virtual option is also available for distance students. Information about Orientation events are sent electronically to all students who have been admitted to the University.

Welcome Week

Welcome Week is part of the orientation experience at Minot State University. This mandatory experience introduces first-year students to campus and community resources that are vital to their success. Welcome Week will be held on the MSU campus: students will discover student success services and will be introduced to campus culture by a current MSU Student Leader. In addition to exploring the MSU campus, students will participate in an off-campus activity, where each student will make a difference in our regional community through service. New Minot State University students will be able to engage with the community, meet fellow students, and learn essential student success information all while participating in this fun program.

Transfer Admission Requirements

Transfer students with less than 24 transferable semester hours of earned credit (remedial credit excluded)—follow First-Year (Freshmen) Admission Requirements listed in previous section.

To apply for admission, transfer students must submit:

• A completed undergraduate Application for Admission (http://www.minotstateu.edu/enroll/apply.shtml)
• A $35 non-refundable application fee
• Official college/university transcripts from all previous institutions
• **Student Health Records: (Not required for admission consideration)**
  a. Measles, mumps, and rubella (MMR). Proof of immunization for measles, mumps, and rubella requires two doses of vaccine given no less than one month apart, or positive serologic tests.
  b. Students ages 21 and younger must provide documentation of immunity against meningococcal disease given at or after age 16.
  c. All students must complete the tuberculosis questionnaire.
Transfer applicants must present a cumulative GPA of 2.0 or higher on a 4.0 scale with 24 or more completed semester credits. Transfer applicants transferring in less than 24 completed semester credits will be required to submit his/her official final high school transcript and ACT/SAT scores. ACT/SAT scores are only required for students who are younger than 25 on the first day of class.

Upon receipt of all transcripts, the Registrar’s Office determines those credits that will transfer, as well as those credits that may be applied to the University’s General Education Requirements. Plus or minus grades are not recorded. Evaluation of credits as they apply specifically to the student’s major is done in consultation with the department/division chair at the time of the student’s registration for his/her first term at Minot State University. Students enrolling at Minot State University with the intention of transferring to another institution to complete their educational objectives are advised to work closely with the transfer campus as soon as possible to determine which courses will transfer most effectively. Faxed copies of transcripts are not considered official. For more information visit www.minotstateu.edu/transfer.

Students who have attended other regionally-accredited colleges or universities will be admitted without restriction to Minot State University if they left the last transfer institution in good academic standing and if their college/university cumulative grade point average meets the Academic Progress standards outlined in this catalog. MSU accepts and transcribes all credits from regionally accredited institutions and all credit hours will be transcribed as semester hours. **Failure to list all colleges, universities, and schools previously attended may result in denial of admission, dismissal, loss of credits, or other appropriate sanctions.**

### Academic Warning and Probation

If the transfer GPA is below the GPA average required for satisfactory academic progress, the student may be admitted on Academic Warning or Probation and conditions may be placed on his/her registration until the minimum cumulative grade point average requirement has been achieved.

### Academic Suspension

If a transfer GPA has resulted in the student’s academic suspension from another college or university, the student may be admitted on Academic Probation at Minot State but only if the student has completed their previous institutional suspension policy or Minot State’s suspension policy (whichever is greater).

### New Student Orientation

New Minot State University students (freshman and transfer) are required to complete a new student orientation. To facilitate completion of this requirement the campus will hold Orientation events during the summer and before the spring semester. These events will introduce students to the University through information sessions, a campus tour, academic advising, and with the student registering for classes. A virtual option is also available for distance students. Information about Orientation events are sent electronically to all students who have been admitted to the University.

### Regionally Accredited Agencies

- MSCHE—Middle States Commission on Higher Education
- NCA-HLC—North Central Association of Colleges and Schools/Higher Learning Commission
- NEASC-CIHE—New England Association of Schools and Colleges/Commission on Institutions of Higher Education
- SACSCOC—Southern Association of Colleges and Schools/Commission on Colleges
- WASC-ACCJC—Western Association of Schools and Colleges/Accrediting Commission for Community and Junior Colleges
- WSCUC—Western Association of Schools and Colleges/Senior College and University Commission

Minot State University accepts and transcribes all credits from regionally accredited institutions and credits on a course-by-course basis from non-regionally accredited institutions. To be transcribed, a course from a non-regionally accredited institution must be equated to an MSU course by the applicable department.

### North Dakota University System (NDUS) General Education Transfer Agreement

The NDUS Transfer Agreement was developed to assist students who transfer within the eleven NDUS campuses and tribal colleges in North Dakota. Students who have completed the lower division General Education Requirement (GER) at one campus are deemed to have completed them at another. Students who have not completed GER prior to transfer will find that their General Education coursework taken at one campus will be acceptable as General Education course work at another, although some redistribution of courses may result.

Students transferring into Minot State University should contact the Registrar at the former campus to have verification of GER completion forwarded to the Registrar’s Office at Minot State University. Students transferring out of Minot State University should either complete the Minot State University GER or take courses in the Minot State University General Education inventory that are marked for transfer (e.g. ND:ENGL, ND:HUM, ND:LABSC). Please direct questions about the Transfer Agreement to the Registrar’s Office.
Under the terms of the NDUS Transfer Agreement, the Minot State GER contains the following five components. Credits taken elsewhere and coded as indicated will help to complete the Minot State GER:

1. Communication (9 credits: 6 credits of English and 3 of Speech). Any NDUS course marked ND:ENGL may apply to the 6-credit English requirement, and any marked ND:SPEECH may apply to the Speech requirement.

2. History & Social Science (9 credits). 3 credits of History and 6 credits of Social Science). Any NDUS course marked ND:HIST and ND: SS.

3. Humanities (6 credits). Any NDUS course marked ND:HUM.

4. Science with a lab (8 credits). Any NDUS course marked ND: LABSC

5. Mathematics (4 credits). Any NDUS course marked ND:MATH which is at the level of college algebra or above.

For students who have not completed the general education requirements in transfer, the MSU Registrar’s Office will determine those credits which may be applied to the University’s General Education Requirements and issue a transcript summary to the student.

Limitations on Transfer Credit

Continuing Education Credit

Credits earned through continuing education opportunities on other campuses may be transferable. However, documentation must be provided to the Registrar’s Office prior to their acceptance.

Graduate Credit

A student may not apply transfer graduate credit toward requirements for an associates or baccalaureate degree at Minot State University.

Military Credit

Basic training courses are accepted in transfer and fulfill the PSR3 Individual Well-Being category of General Education requirements at the University. All other military credit and work experience is evaluated using the ACE, American Council on Education, guide recommendations on an individual basis. Military experience must be equated to a Minot State University course.

Religion Course Credit

No more than six semester credits in doctrinal religion will be accepted in transfer. Doctrinal religion courses that are accepted can be used as electives only.

Credit From Two-Year Institutions

Credit typically transfers from two-year institutions to Minot State University. Department chairs determine applicability of courses in transfer and the Registrar’s Office determines transferability of courses that fulfill General Education requirements. In order to be awarded a baccalaureate degree, a student must complete a minimum of 60 semester hours at a four-year institution, of which 30 semester hours must be earned through Minot State University.

Remedial Credit

Transfer credit earned at the remedial level will be transcribed. However, credit(s) will not count toward earned credit with Minot State University or be calculated in a student’s GPA.

Institutional Credit

Credit is evaluated on the basis by which the credit was initially awarded by the sending institution. MSU accepts credits earned via a nationally standardized examination as per NDUS policy. Credit by examination, credit awarded via placement, or life experience credit awarded by another institution is not accepted in transfer.

International Student Admission Requirements

Who is an International Student?

Minot State University is authorized by the U.S. government to issue SEVIS form I-20s and DS-2019s to assist non-immigrant international students to apply for F-1 student and J-1 exchange visitor visas, respectively.

The Office of Enrollment Services will issue I-20s to degree-seeking international students who meet all of the entrance requirements outlined below.

The Office of International Programs will issue DS-2019s to exchange students from partner institutions, who meet the requirements for their particular program. Exchange students should contact the International Office at their home institution for additional information.
International Student Admission Requirements

Admission Components

Admission is determined by a selective process that includes consideration of English language proficiency, academic achievements, financial resources, and student visa eligibility. For information regarding Admission to specific graduate programs, please refer to the graduate catalog or contact the Minot State University Graduate School at www.minotstateu.edu/graduate or 1-800-777-0750 (Ext. 3250).

Prospective international freshmen and transfer international students may apply online at: www.minotstateu.edu. Once the online application is submitted, the following supporting documentation must also be submitted by the appropriate deadline:

- Application for Form I 20 and Certification of Financial Responsibility
- Official Entrance Exam Score
- Official Records Demonstrating Prior Academic Achievement
- International Transfer Student Form (if applicable)
- A $35 non-refundable application fee
- Biographic Page of Passport
- Supporting Financial Documents

Deadlines for Admission

Fall semester: June 1 for application and all supporting documentation. Spring semester: October 15 for application and all supporting documentation.

First-Year International Students (Freshman)

International students who have not already completed more than 24 credit hours of university level coursework are considered first year students. If you are transferring fewer than 24 semester hours of college or university credit, you MUST submit documents as a first year student, in addition to the credits earned at the university level.

First year students must supply official secondary education records. The records must come directly from the issuing institution. Personal documents supplied by the student and/or notarized copies are not acceptable and will not be considered for admission.

Transfer International Students

International students who have previously attended a college or university and have completed at least 24 semester hours are considered transfer students. Students who have completed 24 or more credit hours of university level coursework MUST apply as a transfer student. International transfer students should follow the admissions procedures described above for international first-year students, but must also submit the following:

- Transcripts from all colleges or universities previously attended. Students transferring from a university outside of the United States must submit an official transcript from the institution reflecting all courses attempted and grades received, attached to a professional course-by-course evaluation and English translation completed by World Education Services, Education Credential Evaluators, or American Education Research Corporation. Information about the evaluation services can be found at www.wes.org (http://www.wes.org), www.ece.org (https://www.ece.org), and www.aerc-eval.com (http://www.aerc-eval.com).

Students must also provide an English translated copy of the institution’s catalog or a copy of the course descriptions or course syllabi from the catalog to aid in the evaluation of transfer credit. Since the evaluation of transfer can be lengthy, please be aware that the results of the evaluation may not be available prior to your arrival and registration at Minot State University.

Regardless of the number of credits transferred, students must meet all general and specific graduation requirements of the university.

Transfer students should have a cumulative grade point average of 2.0 or higher on a 4.0 scale.

- Transfer Clearance Form If you are transferring to MSU from a college or university in the United States, you must submit a transfer form signed by you and the international coordinator at your current school.

Credit Transfer

Post-secondary coursework completed prior to attending MSU is subject to review and approval by the department of the student’s chosen major and the Registrar’s Office. Evaluation of transfer credit normally will not be complete until the applicant has arrived on campus and has enrolled for coursework. Applicants seeking transfer credits for higher education work completed outside the United States may be asked to bring with them a detailed syllabus for each course, and they must be prepared to provide a full description of prior coursework to their academic adviser to facilitate the evaluation of transfer credits.
Entrance Exams

Academic success at Minot State University demands strong English language skills. Minot State requires all international students to provide an official Entrance before being accepted as a student. To be considered for admission, undergraduate applicants must submit one of the following:

- TOEFL (Test of English as a Foreign Language) Scores taken within 2 years:
  - IBT Minimum Score of 71 or
  - Paper-based minimum score of 525
- IELTS (International English Language Testing System) taken with 2 years:
  - Minimum score of 6.0 overall band
- SAT Exam
  - Subscores: Writing and Language of 25 AND SAT Total of 900
- ACT Exam
  - Composite score of 17 AND English sub test score of 18
- ACCUPLACER Exam
  - WritingPlacer of 5
  - Level 9 Completion Certificate issued within the last 6 months by The Language Company.
  - Transferring from a regionally accredited U.S. college or university after 2 years of study, in good standing, OR completion of Composition I and II with a grade of at least a B.

Academic Achievement

Applicants should have completed their secondary education and obtained their high school diploma or school-leaving certificate. Minot State University will review all secondary and university-level coursework (if applicable) for academic rigor and trends in academic performance.

Financial Support

International students are not eligible for U.S. federal or state need-based financial assistance. Therefore, certification of adequate financial support to meet the needs during the period of enrollment at MSU is required of all international non-immigrant applicants. The student must be prepared to document on a yearly basis the ability to pay the following year’s tuition and fees, as well as the cost of living expenses. To prove sufficient financial resources, international applicants should complete the Statement of Financial Responsibility form and submit it with the required documentation proving sufficient financial support to cover the entire cost of living and studying in the U.S. for every year of the student’s program of study. Documentation must be provided before admission is offered. Additional information regarding this requirement can be found on the MSU Office of International Programs website: www.minotstateu.edu/international.

Mandatory International Student Fee

Please check with the Office of International Programs regarding any International Student fees.

Mandatory Health Insurance

Per the North Dakota State Board of Higher Education (SBHE) policy section 505, international students at Minot State University in F-1 or J-1 status are required to be covered by the health insurance policy that has been designated by the Chancellor of the North Dakota State University System.

The insurance policy enrollment fee is automatically charged to an international student’s MSU financial account at the beginning of each semester, and it must be paid with other tuition and student fees. This coverage is required from the time of registration at MSU until termination or completion of program objectives. Any student who is not properly insured will be prohibited from participating in their program.

* Under NDUS Policy/Procedure 505, students from Canada and Norway are exempt from this requirement. However, students from Canada and Norway may opt to enroll in the NDUS designated policy if interested in obtaining coverage from a U.S. based insurance provider. Canadian students and parents should refer to www.minotstateu.edu/international for information regarding private and provincial health insurance considerations.

Other students might also be eligible for a waiver of the NDUS designated insurance if they are able to provide proof of comparable coverage. Waivers are granted in only a few exceptional situations. Instructions and a waiver form are provided at http://www.minotstateu.edu/international/ for those who wish to learn more about the process and requirements.

Health Records

Proof of Two Immunizations as required by the State Board of Higher Education: *Not required for admission consideration* Appropriate proof may be a copy of your childhood immunization records, school immunization records, documentation by your medical provider (personal physician, pediatrician, or county health department) that you had the respective disease(s) or the immunization and the dates.

- Measles, mumps, and rubella (MMR). Proof of immunization for measles, mumps, and rubella requires two doses of vaccine given no less than one month apart, or positive serologic tests.
Special Admissions

- Students ages 21 and younger must provide documentation of immunity against meningococcal disease given at or after age 16.

You can be immunized at a private health care provider or the MSU Student Health Center. To submit your health records, please see www.minotstateu.edu/health/immunization.shtml. A hold will be placed on the registration process of non-compliant students attempting to register for their next term at MSU.

Tuberculosis

All students must complete the tuberculosis questionnaire at Minot State University. To submit your health records, please see www.minotstateu.edu/health/immunization.shtml. A hold will be placed on the registration process of non-compliant students attempting to register for their next term at MSU.

Student Visa Status

Information about international students in the U.S. is tracked using the Student and Exchange Visitor Information System (SEVIS). Students are assigned a SEVIS ID number which is located on the upper right hand corner of the I-20. The ID number begins with an N and has 10 digits. Students are required by Congress to pay for this tracking system, and this SEVIS fee is an additional fee, not to be confused with the visa application fee. All new students must pay the SEVIS fee after receiving the I-20 form from Minot State University, but prior to visiting the U.S. consulate for their F-1 visa interview. Students from Canada, who do not require a visa, must pay the SEVIS fee before their first entry to the U.S. and will be asked for a copy of the receipt at the port of entry. To pay the SEVIS fee, go to the following web site: www.fmjfee.com/index.shtml (https://www.fmjfee.com).

American government regulations allow students to enter the U.S. only within 30 days of the start date indicated on the I-20 form. MSU campus housing is not available until just before the start of school, so if you arrive early you are responsible for your own accommodation. New and transfer international students are required to attend a welcome and F-1 regulation workshop specifically for international students at the beginning of their first semester at Minot State University. This orientation is in addition to the general MSU New Student Orientation and is held a few days prior to the start of classes.

The I-20 form is first endorsed by a Minot State University’s Office of Enrollment Services at the time it is issued and then must be re-endorsed at the end of each semester by the Office of International Programs. These signatures confirm full-time student status and enable F-1 students and their dependents to enter and leave the country. International students planning to travel outside of the U.S. during their entire length of study at Minot State University must bring their I-20 form to Office of International Programs for verification and signature renewal at least 48 hours prior to travel.

Students must be making satisfactory academic progress toward their major field of study in order to have their I-20 form endorsed each semester. “Academic progress” means that the student must be taking coursework that satisfies the declared degree requirements and maintain a satisfactory grade point average. Students who fail to meet these requirements will not be eligible to have their I-20 form re-endorsed.

Special Admissions

Special admissions may apply to any student who is classified as auditing students, early entry/dual credit students, former students, home-educated students, military students, non-degree students, and university employees as students. Please visit the links on the left to find out more about our special admissions processes.

Auditing Students

An auditor is one who attends class as a listener without the privilege of participating in any way in the regular class work. An auditor may participate in class activities at the discretion of the instructor. No credit is awarded for an audited course, and an auditor may not later establish credit in that course by taking a special examination. A student may change his/her status in a course from “credit” to “audit” or vice versa up through the final drop date of the term. This must be done on the proper form available at the Registrar’s Office. An auditor must meet University entrance requirements and follow all standard admissions procedures and complete a special audit form available at the Registrar’s Office. An auditor pays 50% of the regular, per credit tuition charge for the course. No financial aid will be awarded for courses that are audited.

Early Entry

Early Entry (Dual Credit) provides an opportunity for outstanding high school juniors and seniors to take first-year student (freshman) courses for university credit through Minot State University before graduation from high school. Students must follow first-year student (freshman) admission procedures.

With approval from their high school principal or superintendent, students may earn high school and college credit for the same course. Early Entry (Dual Credit) enrollment forms are available at the Center for Extended Learning and at local high schools. Persons in this program are strictly high school students retaining high school eligibility. They may participate in University functions/activities and have computer and library privileges.

For more information about early entry (dual credit), go to the CEL website (http://www.minotstateu.edu/cel/dual.shtml).

Former Students
Students who have previously attended Minot State University as degree-seeking students who are not currently enrolled are classified as former students. If a student has not attended for one semester or more, an Application for Re-Admission (https://www.minotstateu.edu/secure_pages/registrar/return.shtml) must be completed and submitted to the Registrar’s Office for the student's account to be reactivated. It is not necessary to complete a new application for admission or to pay the $35 application fee again. Students who have attended other post-secondary institutions are required to submit official transcripts before registering; this may include submitting older transcripts that are not currently on file. The Registrar’s Office should be contacted as early as possible so that former students may be invited to participate in early registration. Former students whose GPA is below a 2.0 with all transcripts taken into account will be admitted on probation. Students who have submitted transcripts from other institutions that have a negative academic standing, may need additional approval from their former institution. These students may also be readmitted on probation regardless of their GPA. The student must maintain satisfactory academic progress or they will be suspended at the conclusion of the term.

Home-Educated Students

The following guidelines for specific home-educated admission policies are patterned after the recommended criteria suggested by the National Center for Home Education.

Home Education Admission Requirements

Home Education applicants to Minot State University shall submit the following:

1. Online application for admission (http://www.minotstateu.edu/enroll/apply.shtml)
2. Mandatory, nonrefundable $35 application fee
3. Curriculum description or transcript showing the following:
   a. Specific listing of classes completed by the student, identified and/or separated by class levels. MSU may request a course syllabus or detailed description of course content.
   b. Clear identification of those courses which meet the North Dakota University System College Preparatory Requirements.
   c. Key explaining the grading system.
   d. Date of student’s graduation/completion of plan of study.
   e. Signature of the parent/instructor.
   f. Identification of any other private or public high school the student has attended.
4. Diploma/Certificate issued by the local school district in which the student resides, if the district provides such a document.
5. Official ACT/SAT test results, unless you are over the age of 25.
6. Student Health Records: (Not required for admission consideration)
   a. Measles, mumps, and rubella (MMR). Proof of immunization for measles, mumps, and rubella requires two doses of vaccine given no less than one month apart, or positive serologic tests.
   b. Students ages 21 and younger must provide documentation of immunity against meningococcal disease given at or after age 16.
   c. All students must complete the tuberculosis questionnaire.

To submit the required documentation, go to www.minotstateu.edu/health/immunization.shtml. No student will be permitted to enroll in a subsequent term until immunization or documentation of a waiver is complete.

See also: First Year Student Admissions Requirements (p. 41).

Military Students

General

Minot State University has been designated as an institutional member of Service members Opportunity Colleges (SOC), a group of more than 400 colleges and universities providing voluntary postsecondary education to members of the military throughout the world. As a SOC member, Minot State recognizes the unique nature of the military lifestyle and has committed itself to easing the transfer of relevant course credits. Service members Opportunity College has been developed jointly by educational representatives of each of the Armed Services, the Office of the Secretary of Defense, and a consortium of thirteen leading national higher education associations. It is sponsored by the American Association of State Colleges and Universities (AASCU) and the American Association of Community and Junior Colleges (AACJC).

Base Education Services Office

The Air Force maintains an Education Services Office at Minot Air Force Base. The University provides a coordinator at this base office. The coordinator assists Air Force personnel and their families in planning academic programs, selecting courses, completing financial aid procedures, and registration. All military personnel are encouraged to contact the Base Education Services Office for information and assistance relative to academic programs.
Undergraduate Non-Degree Students

Admission and Registration—Active duty military personnel, spouses, and dependents follow the application procedures (p. 41).

Computer Literacy Requirement

According to the Department of Defense directive 1322.8, all students completing a degree on the Minot Air Force Base must do one of the following: 1) successfully complete an introduction to computer science course as one of their program electives, or 2) present evidence (credential, transcript, etc.) that computer literacy has been obtained.

Evaluation of Educational Experiences of Military Personnel

Service personnel currently on active duty who have acquired certain educational experiences, or have attended service schools, or have passed college AP/CLEP/DANTES tests can have these evaluated for transfer credit. Minot State University accepts the following towards a bachelor’s degree:

1. Military service courses are given credit as recommended in the Guide to the Evaluation of Educational Experiences in the Armed Services published by the American Council on Education (ACE).
2. Advanced Placement (AP), The College Level Examination Program (CLEP), and DANTES subject standardized tests are accepted in some areas. Check with the Registrar’s Office for the current AP/CLEP/DANTES Policy, as it is subject to revision. (See also “Credit by Examination.”)

Undergraduate Non-Degree Students

Students who enroll in courses but do not wish to seek a degree may enroll as Undergraduate Non-Degree students. Students enrolling with this status are not eligible for federal financial aid and may not exceed a total of 12 semester hours of undergraduate credit. Non-degree seeking students who are active duty military can complete up to 24 semester hours of undergraduate credit. Students enrolling in upper-level coursework that have pre-requisites may be asked to provide a copy of a college transcript to the department overseeing the course and seek departmental approval prior to enrollment.

To apply to be a non-degree seeking student, students must complete the MSU Application for Admission (http://www.minotstateu.edu/enroll/apply.shtml), pay the $35 application fee, and provide a record of immunization for measles, mumps, and rubella if participating in classes on campus, students ages 21 and younger must provide documentation of immunity against meningococcal disease given at or after age 16, complete the tuberculosis questionnaire, and complete the Non-Degree Seeking form. However, non-degree students are not required to fulfill all admission requirements.

Enrollment in courses beyond 12 (24 for active duty military) semester hours will be contingent upon completion of all entrance requirements for transfer students. Students wishing to change their status to degree seeking must also complete the Application for Status Change from Non-Degree to Degree Seeking (https://www.minotstateu.edu/secure_pages/registrar/non-degree_to_degree.shtml). This form must be submitted and all official transcripts received by the Registrar’s Office prior to enrolling for the next semester.

University Employees as Students

Employees of Minot State University who have obtained initial approval from their supervisor are entitled to have tuition and activity fees waived for up to three classes per calendar year. The technology fee and application fee are not waived and must be paid by the employee. The waiver is applicable for Distance Education courses normally offered by the Center for Extended Learning and include classes such as online, IVN and correspondence; however, the employee is responsible for paying the technology fee, Connect ND fee, special course fees, and access fees.

Special Academic Programs

Minot State University offers special academic programs to students who attend. These programs are interdisciplinary in nature, and are not housed within one of the university’s three main colleges. Students must meet specific requirements before participating in the Honors program or International Program.

General Studies

Bachelor of General Studies Degree Requirements

This generalist’s degree program is designed for students whose educational objectives are not aligned with a more traditional degree program. It offers a flexible, individualized curricula leading to a Bachelor of General Studies (BGS) degree. Through individualized advising, the program helps students define their educational goals and design interdisciplinary curricula drawing on a variety of course offerings. The program is also intended to allow a student who has completed most of the requirements of a major but has been unsuccessful in some required portion of an approved program to complete a degree in a timely manner.
Goal | Outcome
--- | ---
Facilitate completion of a bachelor’s degree | Articulate how courses chosen for the degree contribute to intellectual, cultural, social, and personal growth
Ensure completion of General Education requirements | Provide rationale for the courses selected for the degree and relate that selection to professional employment or further education.
Utilize flexible instruction methods to complete remaining coursework | Apply for post-graduation opportunities.
Encourage exploration of upper-division coursework | Clarify and encourage academic and career goals

The following minimum requirements are in place:

1. 120 credits.
2. 40 credits of 300-400 level course work.
3. 30 credits earned in residence.
4. 60 credits from a four-year college or university
5. 2.00 cumulative grade point average.
7. Students pursuing a BGS degree are not permitted to declare any major, minor, or concentration.
8. Students will be required to complete a BGS Survey and Essay in the last semester of their undergraduate program.

Students may not substitute 100-200 level courses for 300-400 level courses. Transfer courses must be taken at the 300-400 level in order to count towards the BGS degree, regardless of equivalencies.

**Honors Program in Engagement & Scholarship (HOPES)**

**Honors Program Mission**

The Honors Program in Engagement & Scholarship (HOPES) will empower student scholarship and encourage active citizenship, leadership, and devotion to the common good.

**Honors Program Description**

The Honors Program in Engagement & Scholarship (HOPES) is a concentration or minor program that encourages motivated students to explore challenging and interdisciplinary curricula. Coursework emphasizes critical thinking, an interdisciplinary attitude, a broad worldview, and a commitment to serving others.

**Honors Program Goals**

Goal 1: To promote critical, reflective & independent thinking

Goal 2: To ensure a commitment to community awareness, involvement, and service

Goal 3: To foster excellence in verbal and written communication skills

Goal 4: To cultivate awareness of global issues and cultural diversity

**Honors Program Outcomes**

- Study current and historical international issues and aspects of global culture
- Develop the ability to read and interpret primary texts across disciplines
- Cultivate intellectual curiosity
- Learn to participate actively in substantive discussion
- Acquire the skills, knowledge, and perspectives necessary to collaborate and participate actively with diverse local and global partners
- Learn to articulate point of view and research findings clearly and effectively

**Additional Outcomes for the Honors Minor:**
• Acquire foreign language proficiency at an intermediate level
• Conduct independent & ethical research for the Honors Thesis/Project course
• Demonstrate firmly established written and verbal skills in the Honors Thesis/Project course

Admission and Retention
To be eligible for admission, first-year students must have a high school GPA of 3.50 or higher (on a 4.00 scale) or a minimum composite ACT score of 25 or a total SAT score of 1200 or higher. Students seeking admission after at least one academic term at a college/university must have a cumulative GPA of 3.30 or higher. The program is open only to baccalaureate students taking eight or more credits each term.

To be retained in the Honors Program, students must have a minimum 3.00 GPA in Honors courses and maintain a cumulative GPA of 3.30 or higher. Students whose Honors or cumulative GPA falls below the required minimum will be placed on probation status. Students whose GPA falls below the required minimum for two consecutive semesters will be dropped from the program. Students must meet minimum GPA requirements and complete Honors Thesis/Project (HON 451H (p. 283)) with a grade of B or above in order to fulfill the requirements of the minor and graduate with the Honors Program designation.

The Honors Program is an opportunity for students to earn an interdisciplinary minor or concentration. A minor in Honors requires the completion of 26-30 semester hours within the program. Course requirements for most majors permit enough “open” electives to accommodate the addition of Honors coursework.

Students participating in the Honors Minor engage in lively seminar discussions, conduct independent study and research, produce and present an advanced-level writing project, participate in community service projects, and earn public recognition for their achievements.

Total Hours 15-16

*A course can only be used once to fulfill requirements for a single category

Courses

HON 191H. The Honors Community. 1 Hour.
This course introduces students to the MSU honors program. Informal conversations with MSU faculty, administrators, honors students, staff, and community leaders will familiarize students with the university, the community, the honors approach to learning. Students also investigate or discover new or existing passions through student-created learning experiences (SCLE), created in consultation with the instructor. Students present, evaluate, and reflect on their learning and experiences related to the SCLE. Prerequisite: Student must be admitted to the honors program before enrolling in this course.

HON 199H. Honors Special Topics. 1-4 Hour.
An Honors-level exploration of special topic area determined by participating department. Content will vary.

HON 250H. Foundations of Leadership. 3 Hours.
HON 250H is designed to introduce students to basic components of leadership theory, concepts, and development. Students will engage in activities, assignments, and discussions that will enhance their leadership skills and community involvement.

HON 251H. Culinary Arts & Entertaining. 1 Hour.
A hands-on cuisine from a particular geographical region of the world. Readings on historical, social, economic, and artistic aspects of the relevant culture that pertain to the culinary arts. Applied lessons in menu planning, table setting, and food preparation/presentation. Additional course fee covers food costs. Prerequisite: Student must be admitted into the Honors Program before enrolling in this class.

HON 252H. Visionaries of the Past. 2 Hours.
A thematically organized survey of "Great Works" by noted authors and artists. Literature, art, theatre, film, and music will be included. These works have demonstrated enduring relevance, significant historical or social impact, and/or recognized aesthetic value. Broad themes in any given semester might include, for example, utopia/dystopia, human justice, social conflict, etc. Prerequisite(s): Honors Program admission or permission of instructor.

HON 264H. Thinking Outside the Box. 3 Hours.
A seminar that emphasizes the practice of intellectual inquiry, innovative pedagogies, and/or interdisciplinary connections. The class will rotate between academic colleges and departments. Prerequisite(s): Honors Program Admission or 3.30 cumulative GPA and permission of instructor.

HON 299H. Special Topics. 1-8 Hour.

HON 351H. Integrity & The Examed Life. 3 Hours.
This seminar addresses the two themes of moral integrity and Socrates' claim that only the examined life is truly worth living. The focus is on great works, both written and visual (movies), and the students are challenged to develop their own views on a number of substantive matters. Prerequisite: Students must be admitted to the Honors program or have a cumulative GPA of 3.30 and instructor consent before enrolling in this course.

HON 391H. Community Problem-Solving. 3 Hours.
A seminar in civic engagement. Students will work with a community leader or community agency to identify, understand, and formulate solutions to complex, real-life community challenges. Emphasis on political empowerment, collaborative work with diverse constituencies, research, data analysis, and problem-solving. Prerequisite: Student must be admitted into the Honors Program before enrolling in this class.

HON 395H. Citizenship and Service. 3 Hours.
An interdisciplinary exploration of community-building, social justice, and human liberation that engages students directly in meaningful community service. Study of history, theory, and the local/global realities of community-building; reflection on characteristics of a just society, individual responsibility, and potential leadership roles. Prerequisite: Student must be admitted to the honors program or have a cumulative GPA of 3.30 and instructor consent before enrolling in this course.

HON 399H. Honors Special Topics. 1-4 Hour.
An Honors-level exploration of special topic area, determined by participating department. Content will vary.
HON 450H. Honors Thesis/Project Proposal. 1 Hour.
The honors thesis/project is the Honors Program's capstone experience. It allows students to explore academic areas of their most passionate interests and engage in the process of discovery and scholarship. In this course, students get a head-start on their thesis/project. They use this time to 1) explore potential thesis/project topics; 2) identify an advisor; 3) review relevant research literature; and 4) develop a comprehensive proposal. Prerequisite: Student must be admitted into the Honors Program before enrolling in this class.

HON 451H. Honors Thesis/Project. 1-3 Hour.
The honors thesis/project is the Honors Program's capstone experience. It allows students to explore academic areas of their most passionate interests and engage in the process of discovery and scholarship under the direction of the Honors Director and faculty advisor. An honors thesis/project can be written in any discipline and may take a variety of formats—from a traditional scholarly paper to a design portfolio; from a business plan to a performance; from a service project to a scientific research project - but always includes a written component, a public presentation, and a defense before a faculty committee. Students will work with the Honors Director to determine the appropriate number of credits needed to complete the requirements of the course. Prerequisites: Student must complete HON 450H and have instructor consent before enrolling.

HON 494H. Honors Independent Study. 1-8 Hour.
HON 499. Special Topics. 1-8 Hour.

International Programs

Director: Libby Claerbout

Study Abroad

Explore the World with Minot State University! The Office of International Programs offers an array of opportunities to study abroad. Students will find options that are affordable, exciting, and rewarding.

Study Abroad programs and other international experiences, such as internship, work and travel abroad, offer students the opportunity to significantly enhance professional and personal competencies. Experience abroad expands one's knowledge of international affairs, provides a deeper understanding of other cultures, and offers new perspectives on subject matter that students have already been exposed to in the classroom. In addition, time spent in a foreign country can increase a student's career opportunities by providing direct, hands-on experience developing the skills necessary for success in an increasingly diverse and globally interdependent workforce.

The following education abroad options are available to MSU students:

Affiliate Programs

Affiliate programs are third-party study abroad providers that have been thoroughly researched and pre-approved by the MSU International Advisory Committee. MSU affiliate programs have been chosen specifically for the quality and credibility of their academic offerings, affordability, and the level of service provided to participants. Students can choose from a wide array of locations, program lengths and fields of study through MSU affiliate providers. Current MSU affiliate programs are: ISA (International Studies Abroad), Semester at Sea and the Florence School of Fine Arts.

Faculty-led Study Tours

Study tours are a great way for Minot State students to experience the world. Travel is organized by an MSU instructor who relates course objectives with local culture, customs, famous sites, and history. These programs also give students a chance to develop deep relationships with others in their academic field. Study tour programs vary from year to year and course credit offered will differ depending on the nature of the program and the faculty member leading the program.

Exchange Programs with Partner Institutions

Minot State has developed partnerships with institutions around the world, offering MSU students the opportunity to participate in exchanges. Students benefit from existing institutional relationships and departmental familiarity of academic programs and course offerings when they choose to study at a partner institution. Current exchange partners include locations in Norway, Sweden, and Denmark.

Credit Transfer and Financial Aid

Credit from approved study abroad programs may be applied towards a student's overall degree program at Minot State University. Students participating in a MSU Study Abroad program must be registered for full-time credits in either INT 497 (exchange programs) or INT 496 (non-reciprocal study abroad) during each term away. Registration in these courses allows for the release of financial aid to cover program costs.

General Education Credits

In addition to any course equivalency credit earned from classes taken abroad, students who successfully complete INT 496 or INT 497 will fulfill both of the following General Education Developmental Content requirements:

- IP2: Interconnecting Perspectives
• PSR1- Personal and Social Responsibility

Requirements for Participation

All students considering study abroad are required to work with the Office of International Programs staff in preparation for their time abroad. Students are encouraged to explore study abroad opportunities early in their academic career. Advance planning helps assure that study abroad programs will not unnecessarily prolong the period of time needed to get a degree, and assures that students meet application deadlines. The first step to studying abroad is to visit the International Programs website at http://www.minotstateu.edu/international, calling 701-858-4645, emailing: studyabroad@minotstateu.edu, or by stopping by the Office of International Programs on the 1st floor, Multicultural Center in the Student Center.

Study Abroad advising sessions with the Office of International Programs provide students with information regarding educational opportunities abroad, program selection, financial aid, and scholarships. In addition, the office offers support services such as pre-departure orientation sessions, assistance with the visa application process, and general cultural guidance once a student is on program.

In order to be accepted into a study abroad program, students must have a GPA of 2.5 or higher, and must have sophomore status (24 credits).

Application materials must be submitted by the appropriate application deadline and might include some or all of the following: MSU Study Abroad Application Form, Recommendation Forms completed by the Academic Advisor and another Faculty Member, Official MSU Transcripts, Personal Statement and the Host Institution or Program Provider Application. Further information on eligibility requirements, application materials, deadlines, policies, procedures and costs of participation may be found at http://www.minotstateu.edu/international.

Application Deadlines

Fall Semester and Academic Year Programs: February 15
Spring Semester Programs: September 15
Summer Programs: February 15

Mandatory Health Insurance

All participants in a Minot State University sponsored study abroad program or other approved study abroad programs are required to carry the international travel and health insurance policy specified by MSU. The fee for health insurance must be paid prior to the start of the study abroad program and will be billed to the student’s account.

College of Arts and Sciences

The College of Arts and Sciences provides students at the University the opportunity for a sound liberal education. A core value of Arts and Sciences is that learning is an end in itself, and that the principal utility of knowledge is in the pursuit of happiness. As teachers and scholars, Arts and Sciences faculty are concerned with the discovery of new knowledge as well as with the preservation and communication of the wisdom of the past. They seek to instill in all students the spirit of reasoned inquiry and habits of intellectual curiosity and discipline. In its curricula, the College seeks to enrich students with an appreciation of their intellectual, cultural, and aesthetic heritage; to provide them with the skills necessary to understand the complex human, societal, and technological issues of the present; to prepare them for direct entry into careers and advanced study in a variety of fields; and to foster in them a commitment to human growth and the continuing examination of life.

Mission Statement

The College of Arts and Sciences provides a comprehensive, holistic, and interdisciplinary education at Minot State University. College faculty integrate excellent teaching with scholarly and creative activity, thereby preparing undergraduate and graduate students with the knowledge, values, and skills needed in our diverse world.

Vision Statement

To be recognized as one of the best liberal arts colleges among mid-sized, comprehensive state universities in and beyond the USA.

Organization

The College of Arts and Sciences consists of the faculty of the following units (Found in the Faculty Tabs under "Chairs")

Pre-Professional Programs

Pre-Law

Advisor: Daniel Ringrose

Adequate preparation for entrance into an accredited law school requires a bachelor’s degree. No specific college major is required for admission to an American school of law. The Association of American Law School’s “Statement of Association Policy on Pre-Legal Education” states that an appropriate pre-law education develops: (1) comprehension and expression in words; (2) critical understanding of the human institutions and values with which
the law deals; and (3) creative power in thinking. Therefore, the pre law program takes the form of recommended course in various disciplines and an advising service to help the student shape his/her program to meet specific interests. Advising is also available to aid in preparation for the LSAT and in the selection of a law school. The prelaw student should select a major field of study to demonstrate a mastery of a specific area. Traditionally, pre-law students have majored in the social science fields of economics, history, political science, or sociology. Non-social science disciplines such as criminal justice may also be selected as the major field of study. Selection of a major should be determined by the student’s interests and career plans.

Total Hours: 127

1 For the first two years, the pre-law student is advised to take as many General Education credits as possible. In addition to fulfilling General Education requirements, this broad exposure will allow the student to discover what he or she finds interesting and does well in. Then the student should choose a major, minor and an area of concentration which can be completed in the junior and senior years. The major, minor and concentration courses should hone the intellectual skills that will be required for success in law school. In short, any major, minor and concentration that enables the student to develop communication and critical thinking skills will constitute an acceptable minor for a future law school candidate.

*These four-year matrices are possible with commitment, focus and optimal conditions.*

**Pre-Seminary**

Advisor: Stewart Kelly

The suggested curricula for pre seminary students follows closely the curricula prepared by the American Association of Theological Schools. Such preparation should include an adequate back ground in English language and literature, history, philosophy, and at least one of the natural sciences. There should be proficiency in at least one foreign language. Additional courses are recommended in the areas of humanities and social sciences. A broad background in history, literature, and culture is recommended before theology and religion courses are attempted.

The student interested in more specialized areas may contact the chairperson of the Division of Social Science for a more detailed program.

**Non-degree Advising: Pre-Seminary**

Total Hours: 123

These four-year matrices are possible with commitment, focus and optimal conditions.

Department of Biology

Chair
Dr. Alexandra Deufel

The Department of Biology offers three degrees (BA, BSE, and BS):

The Bachelor of Arts (BA) in Biology is designed for those students who desire to go to professional schools of medicine, dentistry, optometry, chiropractic, physical, and occupational therapy, mortuary science, and veterinary medicine or who wish to pursue graduate work in biology. The BA degree is also designed for those students who desire employment in the biomedical industry, environmental sciences, or wildlife management.

The Bachelor of Science in Education (BSE) in Biology is designed for students who are interested in careers as biology teachers in junior or senior high schools. Students completing this program meet all the requirements for secondary school certification in North Dakota. Furthermore, the broad-based biology curriculum prepares the students not only to teach biology, but also chemistry and physical science. The students are also fully prepared to pursue the graduate program for the Master of Arts in Teaching (MAT) degree in science.

The Bachelor of Science (BS) in Medical Laboratory Science (MLS) [Medical Technology] is a joint program of Minot State University and the University of North Dakota (UND) and complies with the National Accrediting Agency for MLS. Full-time students can complete coursework in three years, and begin clinical training during the summer session at UND in Grand Forks, ND. MLS majors are required to take a minimum of 38 credits of General Education courses. The General Education math and science requirements are automatically met by taking MLS required courses. Following successful completion of coursework, fourth-year students are guaranteed admission to the clinical year at one of the participating accredited hospitals in North Dakota, Montana, Minnesota, Arizona, Colorado, Iowa, Nebraska, Oklahoma, Oregon, South Dakota, Washington, Wisconsin, and Wyoming. Students who earn the BS-MLS degree obtain employment in a number of different medical areas including hospitals, physicians' offices, clinics, public health agencies, and pharmaceutical firms.

The Bachelor of Science (BS) in Bioinformatics (also called Computational Biology) prepares students to enter the bioinformatics field in commercial or academic settings. Bioinformatics is a cross-disciplinary field that encompasses computer science, mathematics, and biology in order to extract meaningful information from large biological data sets. The global bioinformatics industry has grown at double-digit rates for the past decade. Minot State University is the only school with the surrounding five state region to offer an undergraduate bioinformatics degree.

For all degrees in Biology, a minimum GPA of 2.50 is required for graduation.

In addition to the degrees, Biology also directs several pre-professional programs (Pre-medical, pre-dental, pre-veterinary, pre-mortuary etc.) and provides courses required for professional degrees in nursing, medical technology, radiologic technology, social work, criminal justice, physical education, elementary education, and special education. Biology also offers a number of general education courses that fulfill the FC2 category of general education.
Biology Department Mission:
The mission of the Department of Biology is to equip students with a broad and substantive knowledge of biology. We actively promote the development of critical thinking skills and an ingrained sense of the scientific method among our students. By actively mentoring students in the classroom and in our research labs, we seek to develop the skills that enable them to apply their new found knowledge in a research setting and advance the frontiers of biology.

Biology Department Goals:
The goals of the Department of Biology are:

- to provide research opportunities for our students so that they may contribute meaningfully to the study of Biology;
- to prepare students for advanced study in Biological Sciences and Health Sciences;
- to prepare students for biological careers in teaching, government, business, and industry;
- to enrich the General Education of students with Biology courses;
- to support the university and larger community with faculty and student service.

Biology Program Goals and Outcome

<table>
<thead>
<tr>

University Teacher Education Policies
Refer to the Teacher Education Policies and Procedure (p. 283) pages of the catalog for details regarding Teacher Education at Minot State University. These pages will explain admission, retention, and exit requirements of the program for biology, chemistry, earth science, physical science, and physics majors in Teacher Education.

Department Teacher Education Requirements
In addition to University-wide teacher education retention policies listed above, science majors in the BSE degree
programs must:

1. Meet regularly with an advisor within the Department of Biology to coordinate course work within their major.
2. Meet regularly with an advisor within the Department of Biology to coordinate course work within Science Education.
3. Apply to the Department of Biology to be recommended for Admission to Teacher Education. Minimum requirements for recommendation are:
   4. Complete General Education communications requirement with a minimum GPA of 2.50 with no grade lower than a “C.”
   5. Complete basic Skills Test (PPST), SAT, or ACT with satisfactory scores.
6. Maintain a minimum cumulative GPA of 2.50 for all course work taken.
7. Complete speech and hearing tests.
8. Complete autobiography, stating reasons teaching was chosen as a profession.
9. Obtain written recommendations from two faculty within the Division of Science.
10. Maintain minimum GPA of 2.50 within the major (at least 8 credits completed).

Once admitted to Teacher Education students must:

1. Maintain a GPA of 2.50 for all course work taken.
2. Maintain a GPA of 2.50 within their major.
3. Maintain a portfolio, which must be completed before application for student teaching will be considered.
4. Apply to the Department of Biology at least two semesters before student teaching.
5. Complete the required science teaching methods courses before student teaching.

All students majoring in another division or department and planning to teach with a minor in the sciences must submit their credentials to the Department of Biology for review at least two semesters before student teaching.

The Department of Biology will initially approve pre-service teachers. In addition, each candidate’s progress is reviewed each semester, in accordance with standards set by the University and the Department.

**Bachelor of Arts with a Major in Biology**

Two introductory courses (8 cr) must be completed prior to enrolling in 300+ courses required for the degree.

Total Hours 104-108
The first two years of the program primarily involve General Education courses and fundamental courses in chemistry, microbiology, anatomy and physiology. The third year involves the students in courses more directly relevant to their major, such as parasitology, hematology, and immunology. These courses address more specifically what the student will encounter during the clinical internship year. Minot State University’s medical laboratory science program is accredited by the NAACLTS through UND. All affiliated hospitals are accredited by the Council on Medical Education. Upon completion, the student is eligible to take the national examination conducted by the Board of Registry to become a certified clinical laboratory scientist by the American Society of Clinical Pathologists MT (ASCP) and the National Certification Agency for Medical Laboratory Personnel National Exam for certification as Medical Laboratory Scientist.

Acceptance to clinical year requires:

1. Satisfactory completion of required preparatory course work prior to the final year.
3. No more than one grade of “D” in preparatory coursework.
4. Not more than three courses with repeats for “D” or “F” grades.
5. Evidence of professional integrity (letter of recommendation from advisor).
6. Completion of the UND application process by the specified deadline.

**BIOL Courses**

**BIOL 103. Intro to Medical Lab Science. 1 Hour.**
Designed to acquaint first year student (freshman) medical technology students the the depth and breadth of this field. Students visit medical technology departments at local hospitals. The course is presented by the education coordinators at local hospitals. Lecture, 1 hour.

**BIOL 111. Concepts of Biology. 4 Hours.**
This course is designed to accommodate one semester of the general education requirement for non-science majors and Minot State University. The course will focus on a comprehensive survey of modern biology with an emphasis on enhancing the science literacy of the college educated student. Topics will include, but not limited to: cell biology, genetics, evolution by natural selection, systematics, and the impact of human activity on the biosphere. Where appropriate, topics will be illustrated with examples of the human animal and at all times the course will reflect the five strands of a general education course. Lecture, 3 hours; laboratory, 2 hours.

**BIOL 111H. Honors Concepts of Biology. 4 Hours.**
This course is designed to accommodate one semester of the general education requirement for non-science majors at Minot State University. The course will focus on a comprehensive survey of modern biology with an emphasis on enhancing the science literacy of the college educated student. Topics will include, but are not limited to: cell biology, genetics, evolution by human activity on the biosphere. Where appropriate, topics will be illustrated with examples of the human animal, and at all times the course will reflect the five strands of a general education course. Laboratory time will focus on small-scale research projects and in-depth discussion. Pre-requisite: admission to the Honors Program.

**BIOL 115. Human Structure & Function. 4 Hours.**
Structure and function of the human body. Anatomy and physiology of major body systems is emphasized. Lecture, 3 hours; laboratory, 2 hours.

**BIOL 127. Environmetal Biology. 4 Hours.**
Designed to acquaint students with major principles of ecology and the nature of human interaction with the living world. The course will focus on how human interaction influences the ecology of the earth. Ecological concepts covered will include community structure, predator prey interactions, competition, trophic levels, energy flow, the carbon cycle, and adaptation. In this light, students will examine specific issues and problems including those of land use choices, natural resource exploitation, biodiversity, industrialization, and urbanization.

**BIOL 150. Introduction To Cellular Biology. 4 Hours.**
Introduction to fundamental concepts of biology at the level of the cell including: bioenergetics, cell structure, physiology principles, genetic function and inheritance. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: Students must complete either CHEM 115 or CHEM 121 before enrolling in this course.

**BIOL 150H. Honors General Biology I. 4 Hours.**
Introduction to fundamental concepts of biology at the level of the cell including: bioenergetics, cell structure, physiology principles, genetic function and inheritance. Laboratory time will focus on small-scale research projects and in-depth discussion. Prerequisite: Student must be admitted to the Honors Program and complete CHEM 115 or 121 before enrolling in this course.

**BIOL 151. Introduction to Zoology. 4 Hours.**
This introductory biology course is intended for science majors interested in animal biology. The course begins with an introduction to the scientific method and some select cellular functions. The course then introduces some basic concepts of genetics, which leads to an exploration of evolutionary theory. This is followed by an exploration of animal diversity, with a heavy emphasis on animal structure, function, and evolutionary relationships. The course ends with a brief exploration of animal ecology. Lab exercises involve some dissections of preserved animals. Lecture, 3 hours; laboratory, 2 hours.
BIOL 151H. Honors General Biology II. 4 Hours.
The biology of animals is covered beginning with an emphasis on the underlying cellular structure and physiology and expanding towards larger whole organism features that are difficult to predict from cell biology. The general patterns of animal life are covered. In an effort to connect the general principles offered in this course to one's daily life (e.g. cellular respiration, excretion, muscle structure and function), an emphasis is placed on a mammalian systems. Laboratory time will focus on small-scale research projects and in-depth discussion. Pre-requisite: admission to the Honors Program.

BIOL 154. Introduction To Botany. 4 Hours.
Introduction to the biology of plants emphasizing evolution and diversity, plant anatomy and development, water and mineral nutrition, photosynthesis, and plant ecology. Lecture, 3 hours; laboratory, 2 hours.

BIOL 154H. Honors Introduction to Botany. 4 Hours.
Introduction to the biology of plants emphasizing evolution and diversity, plant anatomy and development, water and mineral nutrition, photosynthesis, and plant ecology. Laboratory time will focus on small-scale research projects and in-depth discussion. Pre-requisite: admission to the Honors Program.

BIOL 202. Introductory Microbiology. 4 Hours.
A survey of microbial cell biology, microbial genetics, microbial interaction with humans, and the impact of microorganisms on the environment. Lecture, 3 hours; laboratory, 2 hours.

BIOL 215. Genetics. 4 Hours.
Introduction to principles of genetics including: inheritance, DNA and chromosomes, gene regulation, evolution, and genetic engineering. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BIOL 150.

BIOL 220. Anatomy And Physiology I. 4 Hours.
Structure and function of the human body dealing with the chemical, cellular, and tissue levels of organization and integumentary, skeletal, muscular, and nervous systems. Lecture, 3 hours; laboratory, 3 hours.

BIOL 221. Anatomy And Physiology II. 4 Hours.
Structure and function of the human body dealing with the digestive, cardiovascular, respiratory, and urinary systems; special senses, metabolism, fluid and electrolyte, and acid-base balance. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BIOL 220.

BIOL 240. Biometry. 4 Hours.
The course will cover introductory statistic concepts in a form designed specifically for biology majors. It is a practical, software-based examination of concepts of sampling, hypotheses testing (non-parametric and parametric), descriptive statistics, contingency, correlation, analysis of variation, linear models and basic multivariate techniques. Only biological, real-world data will be used. The course will concentrate on underlying principles, applicability and practical use of methods covered. Prerequisites: Students must complete Math 103 or higher and at least two of BIOL 150, 151, and 154.

BIOL 250. Cellular Biology. 4 Hours.
An advanced cell biology designed for biology majors with an emphasis on biological chemistry, membrane and transport, cellular energy metabolism, protein synthesis, and modification, subcellular organelle structure and function, and the cell biology of the nucleus. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: BIOL 150.

BIOL 299. Special Topics. 1-8 Hour.

BIOL 301. Evolution. 3 Hours.
This course details the processes that influence evolutionary change. An emphasis is placed on the methodology for (1) inferring phylogenetic relationships (i.e. history), (2) determining the relative influences of natural selection and genetic drift, and (3) exploring the conditions that lead to various modes of speciation. Topics covered include population genetics, speciation, microevolution vs. macroevolution, punctuated equilibrium, life history theory, and modes of selection. Lecture, 3 hours. Prerequisites: BIOL 150, 151, 154, 215.

BIOL 302. General Microbiology. 4 Hours.
Students will develop a working understanding of the structure, growth, nutrition, metabolism, genetics, diversity and ecology of Bacteria, Archaea and viruses. Prerequisite: Students must complete BIOL 215 before enrolling in this course.

BIOL 310. Ethnobotany. 4 Hours.
This course will focus on the diversity of plant uses, covering approaches of diverse cultures, including introduction to medicinal plants, plant uses specific to North Dakota, and Native American plant use. Lecture, 3 hours, Lab 3 hours.

BIOL 325. Entomology. 4 Hours.
Classification, taxonomy, morphology, identification, life histories, interrelationships, and economic importance of insects. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Student must complete BIOL 151 before enrolling in this class.

BIOL 330. Biogeography. 4 Hours.
This course will describe the spatial patterns in the distribution of plants and animals and will examine how different factors influence these patterns. Lecture, 3 hours; recitation/lab, 2 hours. Prerequisites: BIOL 151 and 154.

BIOL 335. Comparative Vertebrate Anatomy. 4 Hours.
A study of the structure of vertebrates, with a focus on revealing the evolutionary relationships of major vertebrate groups. The laboratories will involve detailed examination and dissection of a broad range of vertebrate animals, including lampreys, sharks, amphibians, reptiles, and cats. Lecture, 3 hours; Lab, 3 hours. Prerequisites: BIOL 151 or 151H.
BiOL 340. Systematic Zoology. 4 Hours.
Evolution, classification, taxonomy, and identification of invertebrates and vertebrates. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Students must complete BIOL 151 before enrolling in this class.

BiOL 346. Developmental Biology. 4 Hours.
This course covers the morphological changes occurring during the development of select animals, as well as the current understanding of underlying molecular mechanisms that regulate development and produce those morphological changes. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Student must complete BIOL 215 before enrolling in this class.

BiOL 347. General Ecology. 4 Hours.
Plants and animals in their environment. An ecosystem approach is used. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Student must complete BIOL 150 and either 151, 142 or 154 before enrolling in this class.

BiOL 349. Plant Physiology. 4 Hours.
Physiological processes of plants with special emphasis on nutrition, metabolism, growth, and development. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: BIOL 150.

BiOL 350. Freshwater Biology. 4 Hours.
Biological, chemical, and physical characteristics of inland waters including origins, interrelationships and the effect of civilization. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Students must complete BIOL 142 or 150 or 151 or 154 before enrolling in this class.

BiOL 360. Morphology of Vascular Plants. 4 Hours.
Structure and development of vascular plants with special emphasis on evolutionary trends. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Students must complete BIOL 150 before enrolling in this class.

BiOL 394. Independent Study General Biol. 1-4 Hour.

BiOL 401. Population Genetics. 4 Hours.
This course explores the mechanics of evolution from the viewpoint of allelic frequencies. It begins with the basic theory of Hardy Weinberg equilibrium and expands that theory to embrace linkage disequilibrium, selection in single-locus and multifocus systems, genetic drift, and the effects of mutation rates, population size, and migration on the genetic structure of populations. Exposure is given to classic ideas (e.g., shifting balance theory and runaway sexual selection) and to applications of theory (e.g., breeding designs, conservation genetics). Lecture, 3 hours; recitation, 1 hour. Prerequisites: BIOL 215.

BiOL 402. Bioinformatics. 4 Hours.
Computational methods for study of biological sequence data in comparative biology and evolution. Analysis of genome content and organization. Techniques for searching sequence databases, pairwise and multiple sequence alignment, phylogenetic methods, and methods for pattern recognition and functional inference from sequence data. Pre-Requisites: Biol 150 and Math 103 or permission of the instructor.

BiOL 405. Prokaryotic Physiology. 4 Hours.
Indep examination of the physiology, metabolism, and genetics of bacteria and archaea. Lecture, 3 hours; Laboratory, 3 hours. Prerequisites: BIOL 215 and 151 or 142, or 154.

BiOL 420. Co-Op Practicum. 4-8 Hours.
A cooperative program with industry, state, and federal agencies for an in-depth study of a specialized aspect of biology. Students spend approximately 25 clock hours per semester hour for the practicum. Prerequisites: 2 years of biology or consent of biology coordinator.

BiOL 430. Pre-Veterinary Practicum. 3 Hours.
This program is designed to give MSU students a hands-on experience in veterinary medicine. The students spend about 80 hours per semester for the practicum. Prerequisite: 2 years of biology.

BiOL 440. Pre-Med Practicum. 3 Hours.
This program is designed to give MSU students a basic understanding of the hospital and its functions. Students spend approximately 90 hours per semester in the various departments and the family practice clinic. Students are supervised by the physicians involved in the program while the program is coordinated by a biology professor on campus. Prerequisite: Consent of instructor.

BiOL 445. Cancer Biology. 3 Hours.
This course describes the major aspects of cell cycle control and relates them to the multiple cell cycle defects associated with cancer. Lecture, 3 hours. Prerequisites: BIOL 215.

BiOL 448. Systematic Botany. 4 Hours.
Classification and taxonomy of plants with emphasis on local flora. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BIOL 154.

BiOL 450. Parasitology. 4 Hours.
Morphology, taxonomy, and life histories of the endemic, exotic, and zoonotic parasites of the animal kingdom. Diseases caused by parasites are also presented. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Restricted to students who Medical Laboratory Science majors.

BiOL 455. Hematology. 4 Hours.
Study of the blood and hematologic disorders including anemia, leukemia, and other blood dyscrasias. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Restricted to students who Medical Laboratory Science majors.
BIOL 458. Anatomy of Seed Plants. 4 Hours.
Development of cells, tissues, and organs in seed plants. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: BIOL 150.

BIOL 460. Herpetology. 4 Hours.
Herpetology is the study of reptiles (exclusive of birds) and amphibians; this includes extant groups (e.g., frogs) and extinct groups (e.g., dinosaurs). This course begins with the phylogeny, history, and taxonomy of "herps" (i.e., reptiles and amphibians) and progresses to coverage of physiology, ecology, and behavior. Prerequisite: BIOL 151.

BIOL 465. Immunology. 4 Hours.
Principles and techniques of immunology and serology. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: BIOL 150.

BIOL 470. Histology. 4 Hours.
The course presents the microscopic anatomy of vertebrates with an emphasis on humans. Structure-function relationships at the cell and tissue levels are highlighted. Cell and tissue anatomy comprise the structural basis of normal physiology. Knowledge of histology is essential for understanding disease mechanisms in terms of altered structure and function of the body. Students are expected to identify cells, tissues and organs, and understand the structural basis of their function. Emphasis is placed on microscopic study in laboratories. Lecture, 2 hours; laboratory, 4 hours. Prerequisite: BIOL 150 or 220.

BIOL 475. Clinical Microbiology. 4 Hours.
Isolation, identification, and clinical application of pathogenic microorganisms. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BIOL 142.

BIOL 480. Molecular Biology. 4 Hours.
This course covers a variety of topics concerning the macromolecules of living cells, focusing on nucleic acids and proteins. Major areas of study include: DNA replication and transcription, protein synthesis (translation), and comparison of processes in prokaryotic and eukaryotic cells. The latter part of the course will focus on mechanisms of gene expression, the molecular genetics of cancer, and applied molecular biology. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Student must complete BIOL 215 before enrolling in this class.

BIOL 482. Neurobiology. 4 Hours.
This course covers the organization and function of the nervous system. Students will learn about the nervous system at the anatomical, neurophysiological and molecular level. The course starts with the study of neuron at the cellular level and how they communicate chemically as individual cells and as a group. We then cover topics in sensation and how the nervous system commands the body. In the later part of the semester we will examine the neurobiology of human behavior, such as motivation, attention etc. and mental illnesses. Lecture, 3 hours. Laboratory, 3 hours. Prerequisites: Students must complete BIOL 150, CHEM 121, and 122 before enrolling in this course. Student must also have sophomore status or higher.

BIOL 492. Directed Research. 1-5 Hour.
The faculty of the Department of Biology considers a valuable component of the curriculum. The content and extent of research projects are determined by the student and a faculty sponsor. The research may be in the lab or field and is intended to help the student develop a greater appreciation of the scientific process. While publication is not a requirement, all projects have a goal of producing publishable results. A successful experience in research can be an asset for graduate studies and many careers in biology. Prerequisites: BIOL 150 and 151, or 142, or 154.

BIOL 499. Special Topics. 1-8 Hour.

CHEM Courses

CHEM 110. Survey of Chemistry. 4 Hours.
An introductory course covering topics that concern students’ everyday lives. This course is designed for liberal arts and general education students. The course consists of an introduction to the science and includes historical perspectives. The course is intended to present chemistry in its broad culture, social, and economic context. Lecture, 3 hours; laboratory, 2 hours.

CHEM 110H. Honors Survey of Chemistry. 4 Hours.
An introductory course covering topics that concern students’ everyday lives. This course is designed for liberal arts and general education students. The course consists of an introduction to the science and includes historical perspectives. The course is designed to present chemistry in its broad cultural, social, and economic context. Assignments will include investigation of specific topics and written descriptions of the findings. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 115. Introductory Chemistry. 4 Hours.
Presents knowledge of concepts of chemical principles in greater depth and with more mathematical applications than in CHEM 110. Includes studies of general inorganic principles. Lecture, 3 hours; laboratory, 2 hours.

CHEM 115H. Honors Introductory Chemistry. 4 Hours.
This course introduces concepts in general, organic, and biochemistry. Topics likely to be covered include: measurement, atoms, molecules, elements, the periodic table, nuclear chemistry, compounds, bonds, molecular geometry, classes of organic compounds, gases, liquids, solutions, chemical reactions, solutions, acids, bases, and biochemical compounds. Assignments will include investigation of specific topics and written descriptions of the findings. Lecture, 3 hours; laboratory, 3 hours. Corequisite: Math 102 or 103. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of the instructor.
CHEM 121. General Chemistry I. 5 Hours.
This course is the first of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: matter, measurement, atoms, ions, molecules, reactions, chemical calculations, thermochemistry, bonding, molecular geometry, periodicity, and gases. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Corequisite: MATH 103.

CHEM 121H. Honors General Chemistry I. 5 Hours.
This course is the first of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: matter, measurement, atoms, ions, molecules, reactions, chemical calculations, thermochemistry, bonding, molecular geometry, periodicity, and gases. Note: Chem 121 and 121L must be taken concurrently. Assignments will include investigations of specific topics and written descriptions of the findings. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Corequisite: Math 103. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 122. General Chemistry II. 5 Hours.
This course is the second of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: intermolecular forces, liquids, solids, kinetics, equilibria, acids, bases, solution chemistry, precipitation, thermodynamics, and electrochemistry. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Prerequisite: CHEM 121.

CHEM 122H. Honors General Chemistry II. 5 Hours.
This course is the second of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: intermolecular forces, liquids, solids, kinetics, equilibria, acids, bases, solution chemistry, precipitation, thermodynamics, and electrochemistry. Assignments will include investigations of specific topics and written descriptions of the findings. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Corequisite: Math 103. Prerequisites: CHEM 121H/121HL, Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 127. Chemistry of the Environment. 4 Hours.
This course is unique in that it uses topics of concern/interest to facilitate the learning and understanding of the scientific concepts behind them. The course will use current environmental topics, such as our atmosphere, global warming, energy, the ozone layer and water quality, to bring forward important chemical concepts as naming, bonding, stoichiometry, energetics, pH and chemical reactions. The course will also bring an interdisciplinary flavor to the material, discussing such topics as the carbon cycle and biological contributions, how earth processes may affect the quality of our drinking water and the effect of acid rain on the earth (both in terms of the geology and the ecosystem).

CHEM 227. Principles of Environmental Chemistry. 4 Hours.
Designed to provide students with a basic introduction to Environmental Chemistry. The course will introduce students to the environmental pathways, toxicology, and organic and inorganic environmental contaminants. The students will also study various processes in the environment, including those in air, soil, and water. Depending on time, the students may also be introduced to the management of hazardous chemicals. Prerequisite: Student must complete CHEM 127 before enrolling in this course.

CHEM 230. Quantitative Analysis. 5 Hours.
A course in quantitative chemistry including gravimetric and volumetric analysis, statistical treatment of data, and an introduction to some instrumental analysis. Lecture, 3 hours; laboratory, 6 hours. Prerequisites: CHEM 122.

CHEM 240. Fundamentals of Organic Chemistry. 5 Hours.
Theory of bonding and structure in organic molecules and their reactions. An emphasis on functional groups related to biological molecules. This course presents the minimum preparation for CHEM 480. Offered in the spring. Lecture, 4 hours; laboratory, 2 hours. Prerequisite: CHEM 122.

CHEM 299. Special Topics. 1-8 Hour.

CHEM 341. Organic Chemistry I. 5 Hours.
A study of different classes of organic functional groups, thier nomenclature, reactions, and properties. An introduction to Infrared and Nuclear Magnetic Resonance Spectroscopy is included. Offered in the fall. Lecture, 3 hours; laboratory, 3 hours; recitation, 1 hour. Prerequisite: CHEM 122.

CHEM 342. Organic Chemistry II. 5 Hours.
A continuation of CHEM 341. A study of the chemical and mechanistic properties of organic functional groups. Offered in the spring. Lecture, 3 hours; laboratory, 3 hours; recitation, 1 hour. Prerequisite: CHEM 341.

CHEM 360. Principles of Physical Chemistry. 4 Hours.
This course in designed for students interested in chemical education at the secondary level. Topics include gas laws, thermodynamics, equilibria, kinetics, quantum mechanism and spectroscopy. Offered alternate years. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: CHEM 230 and MATH 107.

CHEM 380. Environmental Chemistry. 4 Hours.
The course examines the interaction of chemical substances with the environment. Emphasis is placed on water quality and air quality. Offered alternate years. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: CHEM 230.

CHEM 420. Inorganic Chemistry. 3 Hours.
An advanced course in inorganic chemistry, including theories of covalent and ionic bonding, crystalline structure, coordinate covalent bonding, group theory, and coordination chemistry. Offered alternate years. Lecture, 3 hours. Prerequisites: CHEM 122, MATH 165.
CHEM 422. Inorganic Synthesis. 1 Hour.
Applied techniques in inorganic synthesis and compound characterization. Offered on demand. Laboratory, 3 hours. Prerequisite: Consent of instructor. Corequisite: CHEM 420.

CHEM 430. Instrumental Analysis. 5 Hours.
A survey of instrumental methods used for chemical analysis. These methods include molecular absorption, atomic absorption and emission, fluorescence and phosphorescence, infrared absorption chromatography, nuclear magnetic resonance and mass spectrometry. Offered alternate years. Lecture, 3 hours; laboratory, 6 hours. Prerequisite: CHEM 230.

CHEM 440. Organic Spectroscopy. 3 Hours.
Identification of organic molecules via spectroscopic methods. Methods studied include infrared, UV-visible, proton and carbon-13 nuclear magnetic resonance, and mass spectrometry. Offered alternate years. Lecture, 2 hours; laboratory, 2 hours. Prerequisite: CHEM 342.

CHEM 442. Medicinal Chemistry. 3 Hours.
This course is designed for students interested in medicinal applications of organic chemistry and for students interested in continuing their education in medicine, pharmacy, and other health related fields. The course offers the study of major classes of medicinal compounds presented in a broad historic and cultural perspective of the development of medicinal chemistry from the first attempt to synthesize quinine in the early XIX century to modern days' antibiotics. Offered alternate years. Lecture, 3 hours. Prerequisite: CHEM 342 and junior or senior status.

CHEM 461. Physical Chemistry I. 4 Hours.
This course is the first of a two-semester sequence of calculus-based physical chemistry for chemistry majors. Topics covered include thermodynamics and equilibrium. Offered alternate years. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: CHEM 122, MATH 166, and PHYS 222.

CHEM 462. Physical Chemistry II. 4 Hours.
A continuation of CHEM 461. Topics include: quantum mechanics, molecular orbital theory, group theory, and spectroscopy. Offered alternate spring terms. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: CHEM 461.

CHEM 480L. Biochemistry Laboratory. 2 Hours.
A course covering theory and laboratory experience with a variety of techniques used in biochemistry. Laboratory, 6 hours. Prerequisite: CHEM 230. Corequisite: CHEM 481.

CHEM 481. Biochemistry I. 3 Hours.
Study of major classes of biological compounds, synthesis of macromolecules, enzyme kinetics, intermediary metabolism, and control mechanisms. Lecture, 3 hours. Prerequisite: BIOL 150 and CHEM 240 or 342.

CHEM 482. Biochemistry II. 3 Hours.
A continuation of Chem 481 with more in-depth studies of particular pathways; particular emphasis is placed on medicinal chemistry and on corresponding clinical applications associated with the various pathways. Lecture 3 hours; Pre-requisite Chem 481.

CHEM 494. Directed Research in Chemistry. 1-6 Hour.
Students conduct research under the direction of a faculty mentor. The general topic and specific goals and activities are agreed upon by the student and mentor. The number of credits is proportional to the time committed to the research.

CHEM 497. Internship in Chemistry. 1-4 Hour.
A cooperative occupational training program in the field of chemistry or a related area. The course may be repeated in the same or different position. Prerequisite(s): Departmental approval and student must be a Chemistry or Chemistry Education major. Student must be at Junior or Senior status.

CHEM 499. Special Topics. 1-8 Hour.

Pre-Professional Programs

The Department of Biology offers a variety of programs that enable the student to obtain pre-professional training prior to entering a professional school. Where possible the course work taken at the University has been approved by the universities at Fargo and Grand Forks as equivalent to their pre-professional programs.

Pre-Chiropractic

Advisor: Dr. Zeni Shabani

Listed below are the Minot State University courses that satisfy the 60 cr requirement of all accredited colleges of chiropractic in the United States.

Select one of the following:

BIOL 115  Human Structure & Function
BIOL 202  Introductory Microbiology
BIOL 220  Anatomy And Physiology I
BIOL 150  Introduction To Cellular Biology  4
HMS 208  Medical Terminology  2
CHEM 121  General Chemistry I (& CHEM 121L)  5
### Pre-Professional Programs

<table>
<thead>
<tr>

### Pre-Dental Hygiene

Advisor: Dr. Paul Lepp

The only dental hygiene program in North Dakota is offered at the ND State College of Science at Wahpeton. Dental hygiene is a two-year program with limited admissions. Admission is typically highly competitive. For consideration the applicant must have at least one semester of chemistry and one of anatomy in college and a GPA of at least 2.5. Students interested in admission to the program at NDSCS may take the following courses at Minot State:

Required for admission to the program:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 110</td>
<td>College Composition I</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 220</td>
<td>Anatomy And Physiology I</td>
<td>4</td>
</tr>
<tr>
<td>CHEM 115</td>
<td>Introductory Chemistry (&amp; CHEM 115L)</td>
<td>4</td>
</tr>
</tbody>
</table>

Also recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 221</td>
<td>Anatomy And Physiology II</td>
<td>4</td>
</tr>
</tbody>
</table>

A second semester of chemistry covering principles of organic chemistry and biochemistry is desirable and can be fulfilled with the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 240</td>
<td>Fundamentals of Organic Chemistry</td>
<td></td>
</tr>
<tr>
<td>CHEM 481</td>
<td>Biochemistry I</td>
<td></td>
</tr>
<tr>
<td>MATH 210</td>
<td>Elementary Statistics</td>
<td>4</td>
</tr>
</tbody>
</table>

Optional:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 202</td>
<td>Introductory Microbiology</td>
<td>4</td>
</tr>
</tbody>
</table>

General Education courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 120</td>
<td>College Composition II</td>
<td>3</td>
</tr>
<tr>
<td>COMM 110</td>
<td>Fundamentals of Public Speaking</td>
<td>3</td>
</tr>
<tr>
<td>PSY 111</td>
<td>Introduction to Psychology</td>
<td>3</td>
</tr>
<tr>
<td>SOC 110</td>
<td>Introduction to Sociology</td>
<td>3</td>
</tr>
</tbody>
</table>

and any humanities elective

Total Hours: 35

---

### Pre-Medicine

Advisors: Dr. Heidi Super, Dr. Robert Crackel

Pre-med is not a major, it is a program of study which prepares a student to apply to medical school. Although some medical schools require only three years of undergraduate work, the majority prefer that the entering student have a bachelor’s degree. The University of North Dakota (UND) Medical School (and most others) does not care what kind of academic major a prospective student is pursuing, as long as a particular core of coursework is achieved. Prospective university medical students are strongly urged to declare a major area of study and to pursue a degree program at the baccalaureate level. The philosophy of education, required pre-medicine courses, and systems of training vary among the medical schools. All recognize the desirability of a broad education, a good foundation in the natural sciences (mathematics, chemistry, biology, physics), highly developed communication skills, and a solid background in the social sciences and humanities. At the UND School of Medicine the required minimum of university coursework includes:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 121</td>
<td>General Chemistry I</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 122</td>
<td>General Chemistry II</td>
<td>5</td>
</tr>
</tbody>
</table>
CHEM 341  Organic Chemistry I  5
CHEM 342  Organic Chemistry II  5
COMM 110  Fundamentals of Public Speaking  3
ENGL 110  College Composition I  3
ENGL 120  College Composition II  3
MATH 103  College Algebra  4
PHYS 203  Introduction to Physics I  4
PHYS 204  Introduction to Physics II  4

One year of Biology, Psychology, and/Sociology

**Pre-Dentistry**

Advisor: Dr. Paul Lepp

It is suggested that students interested in applying to dental school pursue a degree in one of the sciences and take specific courses to meet admission requirements for dental school. Students planning to seek tuition support from the state of North Dakota should notify both the North Dakota State Board of Higher Education Office and their advisor. Although specific requirements may vary, the following list of Minot State courses, based on the University of Minnesota, is typical:

**Required:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 121</td>
<td>General Chemistry I (&amp; CHEM 121L)</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 122</td>
<td>General Chemistry II (&amp; CHEM 122L)</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 341</td>
<td>Organic Chemistry I</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 342</td>
<td>Organic Chemistry II</td>
<td>5</td>
</tr>
<tr>
<td>BIOL 150</td>
<td>Introduction To Cellular Biology</td>
<td>8</td>
</tr>
<tr>
<td>BIOL 151</td>
<td>Introduction to Zoology</td>
<td>8</td>
</tr>
<tr>
<td>PHYS 203</td>
<td>Introduction to Physics I</td>
<td>8</td>
</tr>
<tr>
<td>PHYS 204</td>
<td>Introduction to Physics II</td>
<td>8</td>
</tr>
<tr>
<td>MATH 103</td>
<td>College Algebra</td>
<td>4</td>
</tr>
<tr>
<td>ENGL 110</td>
<td>College Composition I</td>
<td>6</td>
</tr>
<tr>
<td>ENGL 120</td>
<td>College Composition II</td>
<td>6</td>
</tr>
<tr>
<td>COMM 110</td>
<td>Fundamentals of Public Speaking</td>
<td>3</td>
</tr>
<tr>
<td>PSY 111</td>
<td>Introduction to Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

**Suggested electives:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 481</td>
<td>Biochemistry I</td>
</tr>
<tr>
<td>BIOL 470</td>
<td>Histology</td>
</tr>
<tr>
<td>BIOL 220</td>
<td>Anatomy And Physiology I</td>
</tr>
<tr>
<td>BIOL 221</td>
<td>and Anatomy And Physiology II</td>
</tr>
<tr>
<td>BIOL 202</td>
<td>Introductory Microbiology</td>
</tr>
</tbody>
</table>

**Pre-Mortuary Science**

Advisor: Dr. Paul Lepp

Students interested in mortuary science may take one or two years of courses prior to enrolling in a professional program. There are a variety of programs around the United States, some two-years, some four-years. The students should have some idea of which professional program they wish to enter so a specific set of Minot State University courses may be selected that best fits their needs. The pre-mortuary science curriculum at Minot State University is patterned after the program at Mount Hood Community College in Gresham, Oregon. Mount Hood Community College suggests 30 semester hours of credit with the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 110</td>
<td>College Composition I</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 120</td>
<td>College Composition II</td>
<td>3</td>
</tr>
<tr>
<td>COMM 110</td>
<td>Fundamentals of Public Speaking</td>
<td>3</td>
</tr>
<tr>
<td>PSY 111</td>
<td>Introduction to Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 261</td>
<td>Psychology of Adjustment</td>
<td>3</td>
</tr>
</tbody>
</table>
Pre-Professional Programs

MHA 423 Introduction to Counseling 3
Accounting and Business Ed 12
Health and Physical Education 5

For licensure in North Dakota, the North Dakota Century Code requires:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Communications</td>
<td>12</td>
</tr>
<tr>
<td>Social Science</td>
<td>15</td>
</tr>
<tr>
<td>Natural Science</td>
<td>18</td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td>89</td>
</tr>
</tbody>
</table>

Pre-Occupational Therapy
Advisor: Dr. Zeni Shabani

Listed below are the suggested courses that may satisfy the pre-occupational therapy curriculum for UND.

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 150 &amp; BIOL 151</td>
<td>8</td>
</tr>
<tr>
<td>BIOL 208</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 220 &amp; BIOL 221</td>
<td>8</td>
</tr>
<tr>
<td>CHEM 115</td>
<td>4</td>
</tr>
<tr>
<td>COMM 110</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 110 &amp; ENGL 120</td>
<td>6</td>
</tr>
<tr>
<td>PSY 111</td>
<td>3</td>
</tr>
<tr>
<td>PSY 252 &amp; PSY 352</td>
<td>6</td>
</tr>
<tr>
<td>PSY 241</td>
<td>4</td>
</tr>
<tr>
<td>PSY 270</td>
<td>3</td>
</tr>
<tr>
<td>SOC 110</td>
<td>3</td>
</tr>
<tr>
<td>Humanities: 9 credits from three different areas</td>
<td>9</td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td>53</td>
</tr>
</tbody>
</table>

Pre-Physical Therapy
Advisor: Dr. Christopher Keller

Physical Therapy has become a 6-7 year curriculum that results in award of a DPT (Doctor of Physical Therapy) in most programs in the United States, including the University of North Dakota. Our pre-physical therapy program has been developed to articulate with the UND program. Students typically complete a degree at Minot State University, and make application in the Fall Semester of their final year.

In addition to the pre-physical therapy coursework, students must volunteer and/or intern with a physical therapy department. Admission to PT programs is highly competitive. In 2011, the UND program received over 200 applications for 52 student positions. Only students with a minimum 3.60 grade point average were considered for interviews. The UND program may soon require that applicants take the GRE as part of the admissions process. Specific questions about the UND program can be submitted to Dr. Renee Mabey (reneemabey@med.und.edu, 701-777-2831).

Listed below are the Minot State University courses that satisfy the pre-physical therapy curriculum at UND:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 150 &amp; BIOL 151</td>
<td>8</td>
</tr>
<tr>
<td>BIOL 220 &amp; BIOL 221</td>
<td>8</td>
</tr>
<tr>
<td>CHEM 121 &amp; CHEM 122</td>
<td>10</td>
</tr>
<tr>
<td>COMM 110</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 110 &amp; ENGL 120</td>
<td>6</td>
</tr>
<tr>
<td>PHYS 203 &amp; PHYS 204</td>
<td>8</td>
</tr>
</tbody>
</table>
Minot State University

PSY 111  Introduction to Psychology  3
PSY 255  Child & Adolescent Psychology  3
PSY 270  Abnormal Psychology  3
SOC 110  Introduction to Sociology  3
Fine Arts and Humanities: 9 credits from at least two different departments  9
Total Hours  64

Pre-Physician Assistant

Advisor: Dr. Heidi Super

A physician assistant (PA) is licensed to practice medicine as a part of a team with a physician. The PA conducts physical exams, diagnoses and treats medical conditions, orders and interprets tests, writes prescriptions, counsels on preventative healthcare, and assists in surgery. The pre-physician assistant coursework is designed to fulfill the requirements that allow admission to the Master of Physician Assistant Studies at the University of North Dakota (UND). Admission to the UND PA program requires a baccalaureate degree (e.g. BA Biology) as well as 500 hours (1000 preferred) of direct patient care experience, showing a commitment to a career in medicine. Examples of patient care experiences are: Certified medical assistant, emergency medical technician, phlebotomist etc.

The following lists the prerequisite coursework for admission to the UND PA program. This prerequisite coursework can be completed while earning a BA Biology degree at Minot State University.

Required Coursework:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 202</td>
<td>Introductory Microbiology</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 220</td>
<td>Anatomy And Physiology I</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 221</td>
<td>Anatomy And Physiology II</td>
<td>4</td>
</tr>
<tr>
<td>HMS 208</td>
<td>Medical Terminology</td>
<td>2</td>
</tr>
<tr>
<td>HMS 215</td>
<td>Principles of Pharmacology</td>
<td>3</td>
</tr>
<tr>
<td>Statistics</td>
<td>Pick one of the following courses:</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 240</td>
<td>Biometry</td>
<td></td>
</tr>
<tr>
<td>MATH 210</td>
<td>Elementary Statistics</td>
<td></td>
</tr>
<tr>
<td>PSY 241</td>
<td>Introduction to Statistics</td>
<td></td>
</tr>
</tbody>
</table>

Take both organic chemistry courses OR take organic chemistry I and biochemistry: 8-10

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 341</td>
<td>Organic Chemistry I</td>
<td></td>
</tr>
<tr>
<td>CHEM 342</td>
<td>Organic Chemistry II</td>
<td></td>
</tr>
<tr>
<td>CHEM 481</td>
<td>Biochemistry I</td>
<td></td>
</tr>
</tbody>
</table>

Recommended Coursework:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 120</td>
<td>College Composition II</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 215</td>
<td>Genetics</td>
<td>4</td>
</tr>
</tbody>
</table>

Total Hours 36-38

Pre-Wildlife Studies

Advisor: Dr. Christopher Keller

The pre-wildlife studies program is designed to satisfy the basic requirements recommended by most universities offering degree programs in fields such as ecology, wildlife management, and fisheries management. The course requirements also fulfill the requirements for the first two years in biology. The program is sufficiently broad to enable the student to transfer at the end of two years to a college or university offering specialized curricula in various fields of wildlife studies.

The biology courses which a pre-wildlife student would typically take are:

Two semesters of Introductory Biology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 150</td>
<td>Introduction To Cellular Biology</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 151</td>
<td>Introduction to Zoology</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 154</td>
<td>Introduction To Botany</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 340</td>
<td>Systematic Zoology</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 347</td>
<td>General Ecology</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 448</td>
<td>Systematic Botany</td>
<td>4</td>
</tr>
</tbody>
</table>
In addition to biology, the other recommended science courses are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 121</td>
<td>General Chemistry I (&amp; CHEM 121L)</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 122</td>
<td>General Chemistry II (&amp; CHEM 122L)</td>
<td>5</td>
</tr>
<tr>
<td>PHYS 203</td>
<td>Introduction to Physics I</td>
<td>4</td>
</tr>
<tr>
<td>PHYS 204</td>
<td>Introduction to Physics II</td>
<td>4</td>
</tr>
</tbody>
</table>

Total Hours: 42

Department of Criminal Justice

Chair
Dr. Gary Rabe

Criminal Justice Mission Statement

The Department of Criminal Justice intends to provide students a comprehensive and balanced education through varied curricular offerings, which will be delivered in traditional and non-traditional formats. This education prepares students to assume professional roles, and to pursue further academic studies in criminal justice and related fields. The educational programs offered by the Department of Criminal Justice foster local, national, and global perspectives while emphasizing ethical, critical, creative, innovative, and culturally sensitive thinking regarding crime as well as the criminal and juvenile justice systems. The students of the Department of Criminal Justice’s programs not only gain knowledge about the etiology and the dynamics of crime, the structures and functions of agencies, and the general operation of the criminal justice system, but they also acquire practical skills to implement this knowledge for developing evidence-based, approaches and solutions, to the ever-changing issues facing contemporary society.

Program Goals

1. Maintain up-to-date and ample course offerings to prepare students for professional positions and further academic studies in Criminal Justice and related fields.
2. Continuously assess the quality of learning with rigorous and multi-faceted methods, and update the course offerings, contents, learning strategies, academic and non-academic activities, and materials.
3. Develop and maintain various degree offerings, minors, concentrations, certificate programs, and articulations with other institutional training / education programs, considering the contemporary needs and demands in the field of criminal justice.
4. Deliver curricular offerings through on-campus, off-campus, online, and blended strategies to meet educational needs of traditional and nontraditional student populations.
5. Offer courses to increase students’ awareness on local, state, national and international level dynamics of criminal justice system.
6. Emphasize and integrate an ethical, critical, creative, and diversity awareness in the courses offered through its programs.
7. Offer courses and opportunities to expose students to the daily operations, practices, and issues of the criminal justice system, in addition to provide them with necessary skills for solving problems by putting their knowledge into practice.
8. Rigorously work to recruit potential students through individual and collaborative efforts.
9. Regularly assess the retention and graduation rates in its programs.

Learning Outcomes

Students will gain a holistic open-systems perspective, and a comprehensive understanding of the functions of the criminal justice system with its various components surrounded by a broader legal, administrative, political, and social structure.

Students will comprehend the premises of the theoretical perspectives of criminology in regards to the etiology of general and recent patterns of criminal behavior, and how these theories have influence in the current operations of the criminal justice system. Students will also be capable of synthesizing and implementing the theoretical perspectives in developing new policies, programs, and solutions to the problems regarding crime and delinquency.

Students will grasp the historical, legal, and philosophical foundations, as well as administrative and criminal procedural functions of modern law enforcement. Students will be able to demonstrate a comprehensive understanding on contemporary challenges facing law enforcement, as well.

Students will comprehend the fundamental principles of substantive and procedural criminal law as a crucial method of formal social control in society. They will gain sensitivity to distinguish correctly between concepts of criminal law and they will grasp an understanding on how these concepts are affecting the criminal justice system’s practices and procedures. In addition, students will be able to point out and appreciate the significance of court cases in the overall substantive criminal and procedural law.
Students will be asked to fully grasp the history and fundamental concepts of the juvenile justice system and be able to compare and contrast to the criminal justice system. They will comprehend and integrate the various theoretical explanations to juvenile status and delinquent behavior as well as child and youth victimization. In addition, students will be able to identify and understand juvenile justice legal terminology, including juvenile rights and essential juvenile case law. Subsequently, they will be expected to understand the roles and influence of personnel in law enforcement, court (adult and juvenile) and correctional professions as it applies to the juvenile justice system. Finally, students will learn the impact rehabilitation has on the entire juvenile justice system including adjudication and corrections, acknowledging the various strategies and programs designed to prevent and reduce youth crime.

Students will trace the history and philosophies of correctional systems and identify the different ideologies and goals associated with the evolution of punishment and rehabilitation. Students will implement proper assessment, diagnostic techniques, classification, treatment, placement, and case management strategies for all typologies of offenders and be attentive to the most common targets for correctional interventions. Students will explore the role of correctional settings in the criminal justice system and critique various legal outcomes, policies, and practices that influence correctional implementation, personnel operations, and offender experiences. Students will be able to utilize research to evaluate and analyze effective correctional programs as well as evidence-based practices for professionals within correctional environments.

Students will gain a comprehensive understanding and critically examine the U.S. Court system along with the various types, functions, and theoretical aspects of law. Students will explore the organization of state, federal, and juvenile courts and will be able to demonstrate a broad understanding of the pretrial and trial process as well as the roles and responsibilities of the primary courtroom actors including prosecutors, defense attorneys, judges, and juries. They will be able to articulate the influence of extra-legal factors and their differential impact on offender processing and sentencing. Students will also understand the influence and challenges of contemporary issues facing the court system including caseload, media, alternative dispute resolution, and specialty courts.

Articulation Agreement - Lake Region State College
Minot State University has the following Articulation Agreement for MSU students to attend one semester at Lake Region State College to enroll in their courses to complete the North Dakota Peace Officers Training Certificate. This agreement indicates how the LRSC credits will be applied to the MSU Criminal Justice bachelor’s degree.

Articulation Agreement – POTP (Peace Officer Training Program)
Minot State University Criminal Justice Department and Lake Region State College POST Program have formed a partnership to allow an entering freshman student who is majoring in Criminal Justice and who follows the suggested program of study to graduate in four years with both a Bachelor of Science in Criminal Justice and be certified by the POST.

POST training is open to Minot State University Criminal Justice majors during the spring of their senior year. Students must make application to the Lake Region POST Program, meet physical and other requirements including a criminal background check. Following the suggested program of Criminal Justice study at Minot State University does not guarantee acceptance into the POST Program.

For more information contact the Criminal Justice Department at Minot State University. Curriculum requirements are posted on the Criminal Justice website at http://www.minotstateu.edu/cj/

Articulation Agreement – Fish and Wildlife Management
Minot State University, Dakota College at Bottineau, and Turtle Mountain Community College at Belcourt have a partnership agreement that creates a unique focus within a criminal justice degree. Through this agreement students complete the two year Associate Degree in Fish and Wildlife Management at Dakota College in Bottineau and basic criminal justice courses at Turtle Mountain Community College. Then, students transfer to Minot State University as juniors, where they will complete advanced courses in criminal justice, crimes against wildlife, and fulfill remaining degree requirements leading to a Bachelor of Science in Criminal Justice.

Students interested in completing this Program should contact the Criminal Justice Department at Minot State University or the Fish and Wildlife Management Program at Dakota College. Curriculum requirements are posted on the Criminal Justice Department website at http://www.minotstateu.edu/cj/.

### CJ Courses

**CJ 201. Introduction to Criminal Justice. 3 Hours.**
CJ 226. Introduction to Criminal Investigation. 3 Hours.
This course provides a broad examination of the basic principles involved in conducting a criminal investigation. Specifically, the students in this course learn about the general modus operandi of different types of criminals in committing; violent crimes, property crimes, organized crimes, sex crimes, cybercrimes, and several others in addition to gaining knowledge and skills to carry out basic processes of investigating these crimes. Furthermore, the course explores issues like reporting and documenting crimes and crime scenes, forensic examinations, interrogation and intelligence as well as carrying out searches. Prerequisite: CJ 201.

CJ 227. Crimes Against Children. 3 Hours.
This course explores child abuse and neglect as major types of crimes committed against children. Considering the fact that processing these types of crimes requires a set of specific knowledge and skills, this course primarily intends to teach students about the methods of identifying victims, mandatory reporting requirements, techniques of investigation and interviewing children. In addition, this course intends to provide students a broader perspective on understanding the social and individual dynamics of these types of crimes as well as potential policies and programs to prevent them.

CJ 229. Interviewing and Interrogation. 3 Hours.
This course aims to help students to gain a set of essential knowledge and skills to carry out interviews and interrogation for investigative and legal purposes as used in law enforcement, probation, corrections, juvenile justice, homeland security, and in other areas of application. Specifically, it covers crucial interpersonal communication skills as well as methods and techniques for understanding the psychological, ethical, and legal aspects of obtaining information from subjects.

CJ 299. Special Topics. 1-8 Hour.
Independent investigations of topics of special interest related to criminal justice. Topics may vary to reflect contemporary criminal justice issues. Prerequisite: CJ 201.

CJ 300. Policing. 3 Hours.
The broader objective of this course is to help students to gain knowledge and develop an intellectual perspective on the structure, role and organization of policing in a democratic, multi-cultural, postmodern society. Specifically, the course examines the philosophical, social, legal and political aspects of law enforcement as well as current and future trends, research, and practices that are developed for its overall functions. Prerequisite: CJ 201.

CJ 302. Use of Force in Policing. 3 Hours.
This course will examine the origins of police use of force to include a review of case law and department policy involving the various use of force levels by law enforcement. Students will research and review specific instances where the use of force by law enforcement have occurred. The course will include an examination of the subculture of policing and the situational factors affecting an officer's use of force and as a victim of violence. The course will review of the investigatory and judicial process after a law enforcement use of force incident and the statistical information involving the use of force by law enforcement. Prerequisite: Introduction to Criminal Justice (CJ 201).

CJ 320. Community Corrections. 3 Hours.
This class is intended to provide an analysis of probation, parole, and intermediate punishments. The course includes a brief overview of the history of community corrections in the United States. It is designed to familiarize students with the most recent developments in community-based corrections, including implementation, management, effectiveness, and challenges. It provides detailed descriptions of alternatives to incarceration, assumptions underlying programs, and outcome studies. A significant amount of discussion and in-depth analyses will include topics of probation, parole, community corrections officers, treatment, offender assessment, and intermediate punishments. Prerequisite: CJ 201.

CJ 330. Criminological Theory. 3 Hours.
This course intends to help students to gain an intellectual perspective on the nature of criminal behavior through which a comprehensive understanding regarding the existing and potential practices of the criminal justice system can be developed. This course examines positivist and classical perspectives of criminological theory regarding why people are committing crimes. More specifically, it explores legal, biological, social and psychological correlates of criminal behavior. Prerequisite: CJ 201.

CJ 332. Restorative Justice. 3 Hours.
A different approach to discipline, restorative justice, focuses on restoring the offender, victim, and the community. This class will examine the history of restorative justice, restorative justice programs for adult and juvenile offenders, effectiveness of its use, and offender populations most commonly selected for restorative justice inventions. Prerequisite: CJ 201.

CJ 340. Juvenile Justice System. 3 Hours.
Illustrated major components of juvenile justice system, including arrest, intake, adjudication, and disposition of juvenile offenders; examines transfer process for treating juveniles as adults; describes landmark legal cases extending rights to juveniles; examines juveniles court organization as an adversarial system; treatment of contemporary juvenile justice issues, including death penalty for juveniles and deinstitutionalization of status offenders. Prerequisite: CJ 201.

CJ 344. Media, Internet and Crime. 3 Hours.
Media, Internet, and Crime will prepare students to understand how mass media presents crime, criminals, and the American criminal justice system with respect to policing, courts, and corrections. The focus of this course will look at the historical evolution of media (sound, print, visual, comic books, film, television, video games, recorders) and the impact of the computer and the internet in the 21st century as it applies to dissemination of crime-related information. This course will attempt to dispel common misconceptions about the mass media's effects on crime and justice. Prerequisite: CJ 201.
CJ 345. Policy Issues in Criminal Justice. 3 Hours.
Assessment of the development, efficacy, and politics of criminal justice policy. Emphasis on analyzing the formulation, implementation, and evaluation of criminal justice policy. Prerequisite: CJ 201.

CJ 348. Legal & Ethical Issues in Criminal Justice. 3 Hours.
This course explores a wide range of legal philosophies and ethical issues in decision making and agency operations. Included are conflict in standards, decision making and operational priorities during routine and crises situations, professionalism in recognizing and dealing with questionable behavior of individuals, and the consequences of failing to deal effectively with them. Recommended: 201.

CJ 362. Gender Issues in Criminal Justice. 3 Hours.
This course will look at the constantly evolving gendered nature of crime, criminal justice theory, policy and practice and emerging legal doctrines about privacy and sexual rights. Key themes will include gender differences in criminal behavior, criminal victimization, criminal processing and law progression. In addition, the discussion of evolution of gender employment in the Criminal justice system will be included.Prerequisite: CJ 201.

CJ 364. Cybertcrimes. 3 Hours.
Cyber world is a recent context where many crime-related activities are going on at an incredible phase in different formats. The major objective of this course is to prepare students for their future careers in the field of criminal justice or related areas by providing essential knowledge with the major concepts, trends and issues in regards to the crimes committed in this very context. This course will be a general survey of the topic where the following areas will be covered during the course: - Computer as target (access offenses, interception of data, etc.) - Fraud and related issues on cyberworld - Content-related offenses (pornography, gambling, etc.) - Offenses against the person (harassment, etc.) - Major principles and procedures in the investigation of cybertcrimes - Legal and jurisdictional matters. Prerequisite: CJ 201.

CJ 366. International Crime. 3 Hours.
This course is an introduction to international crime and international criminal justice. Issues discussed include topics like globalization and globalized crime, international criminal law, international and transnational crimes, contemporary slavery, human smuggling and human trafficking. The course's goals should be viewed in the context of the phenomenon of globalization. An increasing number of people hold the view that because of globalization we cannot afford to ignore what happens in the world outside of the United States, and that knowledge of other cultures - including cultures of law and legal systems - is absolutely crucial in order to be able to meaningfully and respectfully interact with other nations of the world. Prerequisite: CJ 201.

CJ 368. Campus Crime. 3 Hours.
This course will give students a comprehensive understanding of campus crime and victimization. Special attention will be given to understating the scope of the crime problem nationally and within North Dakota with a focus on victims of sexual assault. The course will also actively research intervention strategies, prevention policies, and the role of the Clery Act, Title IX, and student responses to the problem.

CJ 375. Gangs. 3 Hours.
Explores gang phenomena in U.S.; concentrates in recent research about formation and gang related violence including the various criminological theories that explain the social, economic, political, and environmental reasons for the rise of gangs in various American urban centers. Prerequisite: CJ 201.

CJ 380. Corrections. 3 Hours.
Examines institutionalization of convicted offenders; describes jails and prisons; investigates issues including privatization of prison operations, inmate rights; correctional officer duties/training/ responsibilities are described; examines post-institutionalization experiences of released inmates in community programs; examines classification systems used to determine one's level of custody; describes different types of prisons/jails and their functions. Prerequisite: CJ 201.

CJ 381. Institutional Corrections. 3 Hours.
This course will examine the various issues in prisons and jails in the U.S. Past and current literature will be discussed regarding institutional corrections and participants in prisons and jails, including inmates, officers, and administrators. The explored issues include the purposes of incarceration, differences between jails and prisons, adaptation to life in prison for inmates, differences between male and female inmate experiences, correctional officers, prison violence, relationships in prison, and prisoners' rights. Prerequisite: CJ 201.

CJ 382. Correctional Rehabilitation. 3 Hours.
Various issues related to the implementation and effectiveness of correctional treatment approaches and programs will be presented in this course. This course will cover specific correctional programs, the risk/needs/responsivity model for effective correctional programming, the history regarding the goals of corrections, the research on whether correctional programs are reducing crime, and the most common targets for correctional interventions. Prerequisite: CJ 201.

CJ 383. Offender Risk Assessment and Typology. 3 Hours.
Almost all correctional settings, institutional or community-based, rely on offender assessment to guide practices with offenders. This class will provide a hands-on approach to conducting numerous actuarial risk assessments commonly used in correctional practice, such as the Level of Service Inventory-Revised (LSI-R). It will also discuss the barriers of offender typology in actuarial risk assessments including sexual offenders, drug offenders, and female offenders. Prerequisite: CJ 201.

CJ 384. Special Correctional Populations. 3 Hours.
This course provides an introduction to special correctional populations including: sexual offenders, drug offenders, female offenders, those with mental illness, those with learning disabilities, and others. Various definitions of these offenders will be examined as well as the theories behind their criminal behavior. Appropriate assessment, placement, and treatment of special correctional populations will guide the course. Prerequisite: CJ 201.
CJ 385. Terrorism & Homeland Security. 3 Hours.
This course has two major components: It, first, explores terrorism from an international and national perspective; examines the social, political, and cultural reasons for terrorism. In addition, the students learn about different types of terror and terrorist organizations existing in different countries and regions around the world. The second part of this course is dedicated to an exploration of homeland security. In this part of the course, the students learn about what constitutes homeland security as a concept as well as the practical operations and the history and legal foundations of the agencies responsible for maintaining homeland security. Prerequisite: CJ 201.

CJ 386. Juvenile Corrections. 3 Hours.
This course includes an examination of the history of ideas about and responses to juvenile delinquency. The course will also evaluate the scope and nature of juvenile delinquency historically and today. Explanations of the different patterns of offending and types of offending of juvenile delinquents as well as effective correctional practices will be examined. Finally, the course will devote a significant amount of time critiquing the responses of various parts of the juvenile justice system including probation officers, as well as responses by other social institutions such as the family, community, and schools. Prerequisite: CJ 201.

CJ 387. Punishment-From Corporal to Capital. 3 Hours.
Capital punishment is a controversial topic within the field of criminal justice. This course will provide students with the opportunity to get acquainted with the history of capital punishment; introduce the social and political perspectives that surround punishment; explore methods and costs of capital executions and other means of punishment such as prisons; review moral, ethical and political arguments related to the use of punishment; and examine the implications of using the death penalty as a form of punishment. Prerequisite: CJ 201.

CJ 390. Criminal Justice in Indian Country. 3 Hours.
Course examines historical and contemporary issues of crime, delinquency, justice, and public safety on American Indian Reservations and Alaskan Native Villages in the US. Specific focus will be given tribal justice systems; tribal interactions with Federal Justice Organizations (FBI, Federal Courts and Probation, Federal Bureau of Prisons), as well as tribal interface with local/county/state police, courts and corrections in 280 states such as ND. Tribal law and order reforms under PL 111-211 are examined along with reform policies for dealing with domestic violence, substance abuse, and gang violence. Recommended: CJ 201.

CJ 394. Independent Study General CJ. 1-6 Hour.
Intensive study of substantive interest areas of students; major literature review leading to analytical paper; topics chosen collaboratively by student and instructor/advisor. Prerequisite: consent of instructor.

CJ 395. Victims & Victimology. 3 Hours.
The course provides a student's overview of the characteristics and trends of victims in a variety of settings, and the criminal justice system's perception and response to these individuals. Prerequisite: CJ 201.

CJ 401. Administration of Criminal Justice Systems. 3 Hours.
This course is an overview of organizational theory as it applies to the administration of Criminal Justice agencies. It explores the nature of criminal justice organizations, individual and group behavior in these organizations as well as managerial processes carried out in these organizations. The topics included in this course covers, but not limited with, leadership, motivation, communication, evaluation, socialization, conflict, decision making, organizational change and effectiveness. Prerequisite: CJ 201.

CJ 402. Management Issues in Criminal Justice. 3 Hours.
This course examines organizational management problems and issues that impact the American justice organizations including police, courts, corrections, and juvenile justice. The course addresses organizational theories of administration and management and how these can be applied to contemporary criminal justice management issues. Prerequisite: CJ 201.

CJ 420. Homeland Security Advance. 3 Hours.
This course builds on a student's knowledge about the American Criminal Justice System and its relation to Homeland Security. Course examines Homeland Security's history, legal foundation, national infrastructure and interface with criminal justice. Specific focus is given: intelligence and counterintelligence, weapons of mass destruction, cyber-crime, organized crime, domestic and border security, and immigration issues. Incident command and control systems, adopted in 2012 are discussed. Students completing the course satisfactorily may wish to obtain FEMA certificates. Prerequisite: CJ 201 or consent of Department.

CJ 480. Research Methods in Criminal Justice. 3 Hours.
This course covers methods of social science research as they are commonly employed in the field of criminal justice. The students will gain a fine understanding of how a research project can be designed and applied to actual problems; issues of the criminal justice system as well as how the existing research reports and findings should be interpreted for a better understanding of the criminal justice policies and practices. At the end of the course, the students will be exposed to theory and practice of qualitative, quantitate and mixed methods of social research as well as reporting the findings in a scholarly and professional format. Prerequisites: CJ 201 and CJ 330.
CJ 481. Data Analysis Strategies in Criminal Justice. 3 Hours.
This course examines fundamentals of descriptive and inferential statistical analysis of various types of data used within criminal justice. Specifically, this course explores the appropriate use of data, the limits of various methods, how data is collected and organized, and how to interpret and report findings from the statistical analysis. The students will be exposed to, at least, one of the most commonly used statistical analyses software and gain practical experience in carrying out essential statistical analyses through this software. Prerequisite: CJ 201.

CJ 491. Senior Seminar. 3 Hours.
Integration of program outcomes with application of knowledge, values, and skills necessary for field entry, value and ethical considerations, and the development and implementation of future career objectives. Provides application of core courses, provides students with current developments in key core areas. Prerequisites: CJ 201, criminal justice major, senior status and must have completed all CJ core courses.

CJ 494. Directed Criminal Justice Research. 1-8 Hour.
This course provides an opportunity for students to carry out an independent research project in their area of interest within the field of criminology and criminal justice. The students will practically design their own research project in consultation with the instructor and implement appropriate research method under the guidance and supervision of the instructor. The overall purpose of the course is to help students to gain practical experience of identifying a research problem, designing a research project accordingly and carrying out this project. The students will, eventually, be expected to report the results of this project as a publication and an oral presentation to a group of audience.

CJ 497. Field Experience. 1-6 Hour.
Students practicum in a criminal justice or related agency; course may be repeated in either the same or different agency; designed to enhance these experiences, supplementary readings and written assignments are required. Prerequisites: CJ 201 or consent of instructor; all core requirements must be completed before enrolling; may be repeated once for 3 credit hours.

CJ 499. Special Topics Criminal Justice. 1-8 Hour.
Specialized topics offered as regular classes; topics vary depending upon student and faculty interest. Prerequisite: CJ 201.

LEGL Courses

LEGL 322. Criminal Law. 3 Hours.
A critical examination of the development and function of western criminal law; analyzes current definitions of criminal acts and omissions, defenses, and justifications in the social and legal society of the United States. Prerequisite: Student must complete CJ 201 before enrolling in this class.

LEGL 350. Criminal Procedure. 3 Hours.
This course is designed to expose students to the rules and procedures in which criminal prosecutions are governed. The course begins with examining the rules and procedures of police investigations and continues throughout the process of the criminal justice process. Examples of questions that criminal procedures addresses are: When can a police officer conduct a search of a home? When can a probation officer enter probation’s home without notice? Students will also examine the historical foundation of these rules and procedures. Prerequisite: Student must complete CJ 201 before enrolling in this class.

LEGL 365. Law & Society. 3 Hours.
Examination of the various perspectives on the development and implementation of law and assessment of the various facets of law in action. Prerequisite: CJ 201.

LEGL 370. Court Processing and Sentencing. 3 Hours.
Provides students with a comprehensive analysis of the U.S. court system; the function of state and federal district, appellate, and supreme courts is reviewed; students are introduced to the influence of extra-legal factors and their differential impact on offender processing; contemporary criminal justice issues facing the court system are also examined. Prerequisite: CJ 201.

LEGL 372. Juries. 3 Hours.
The primary objective of this course is to offer students a comprehensive, critical analysis of the jury system in the United States. A few of the issues to be examined are: jury selection and service, jury nullification, jury decision-making, information processing, juries and tort awards, and juror competence. A special emphasis will focus on the capital jury process and decision-making. Prerequisite: CJ 201.

LEGL 374. Comparative Criminal Justice Systems. 3 Hours.
This course is designed to provide students with an depth study of international criminal justice and legal traditions and systems. Students will be complete critique of the differences and similarities among various international criminal justice and U.S. justice and legal systems. Prerequisite: CJ 201.

Department of Mathematics and Computer Science

Chair
Mr. Scott Kast

Mathematics and Computer Science Department Mission

The mission of the Department of Mathematics and Computer Science is to equip students with knowledge in, skills of, and values of mathematics, computer science, and statistics and the ability to apply and advance the knowledge, skills, and values of these disciplines.
Mathematics and Computer Science Department Goals:

The goals of the Department of Mathematics and Computer Science are as follows:

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>To prepare students for careers in teaching, government, business, and industry.</td>
<td></td>
</tr>
<tr>
<td>To prepare students for graduate study in mathematics, computer science, and statistics.</td>
<td></td>
</tr>
<tr>
<td>To enrich the General Education of students with appropriate mathematics and computer science courses.</td>
<td></td>
</tr>
<tr>
<td>To support other disciplines with program specific service courses in the fields of mathematics, computer sciences and statistics.</td>
<td></td>
</tr>
<tr>
<td>To support other disciplines with mathematics, computer science, and statistics coursework.</td>
<td></td>
</tr>
<tr>
<td>To support the university and larger community with faculty and student research.</td>
<td></td>
</tr>
<tr>
<td>To support the university and larger community with faculty and student service.</td>
<td></td>
</tr>
<tr>
<td>To provide outreach coursework, seminars, and professional presentations.</td>
<td></td>
</tr>
<tr>
<td>To provide remedial and developmental coursework to prepare students to enter and succeed in a program of study.</td>
<td></td>
</tr>
<tr>
<td>To incorporate current technology to facilitate the goals of the department.</td>
<td></td>
</tr>
</tbody>
</table>

University Teacher Education Policies

Refer to Teacher Education and Policies (p. 283) section of the catalog for details regarding Teacher Education at Minot State University. These pages will explain admission, retention, and exit requirements of the program for math majors in Teacher Education.

Department Teacher Education Requirements

In addition to the University-wide teacher education policies listed above, majors in the Department of Mathematics and Computer Science must:

1. Maintain a minimum average of 2.50 after completing 16 semester hours in the mathematics major or minor or computer science education minor.
2. Complete the Math 391 methods course(s) and Math 371 and Math 381 practicum courses prior to student teaching.

The Department of Mathematics and Computer Science Review Committee monitors the progress of its teacher education students.

Placement in Mathematics

Appropriate initial enrollment in mathematics courses at Minot State University is determined by a combination of entrance and placement tests or the acceptance of credits of transfer, Advance Placement (AP), and College Level Examination Program (CLEP). Students enrolling without such previous credit are directed to entry level mathematics courses, courses numbered 102 through 165 depending on their scores on the ACT or SAT mathematics test and/or scores on locally-administered placements tests. Anyone without the required prerequisites enrolling in a mathematics course may be dropped from the class by the instructor.

ASC Courses

ASC 87. College Writing Prep. 3 Hours.
A precollege writing course that prepares students for ENGL 110. Provides instruction in writing error-free sentences, solid paragraphs and well-organized essays. No college credit is obtained for this course.

ASC 88. Composition Lab. 1 Hour.
This course provides supplemental and developmental instruction for students taking ENGL 110 and is taken during the same semester as ENGL 110. No college credit is obtained for this course. Prerequisite: ACT score of 14-17 or qualifying Accuplacer WritePlacer score.

ASC 92. Beginning Algebra. 3 Hours.
This course is a beginning level algebra course. Topics covered include fundamental operations, fractions, factoring, radicals, exponents, equations, and inequalities. This class does not satisfy college graduation requirements for math.
ASC 93. Intermediate Algebra. 4 Hours.
Topics of study include properties of the real number system, factoring, linear and quadratic equations, polynomial and rational expressions, inequalities, systems of equations, exponents, radicals, function notation, rational equations, and absolute value. Graduation credit is not given for this course. Prerequisite: Students must have an ACT math subtest score of 18-20 or an SAT score of at least 440-510. Co-requisite: Students must enroll in ASC 093L if ACT math subtest score is 14-17 or SAT score is less than 440.

ASC 93L. Intermediate Algebra Lab. 2 Hours.
Intermediate level lab provides students in ASC 093 with an extended experience in a lab setting working on algebra skills. Lab meets 4 hours per week. This class is S/U. Required Corequisite to ASC 093 if ACT math subtest score is from 14 - 17. Withdrawing from this class will also withdraw you from ASC 093.

CSCI Courses

CSCI 101. Introduction to Computer Science. 3 Hours.
General hardware and software issues such as: terminology, environments. Applications such as: word processing, spreadsheets, databases, Internet usage.

CSCI 110. Foundations of Computer Science. 3 Hours.
Introduction to computer science concepts and terminology including: generic data types, data representation, operating systems and system software, von Neumann architecture, OS and hardware usage, installation and maintenance, cyber security and privacy, and networking concepts.

CSCI 111. Introduction to Web Languages. 4 Hours.
Introduction to programming in a high-level language. Emphasis on problem solving and logical thinking. Design, implementation and testing of programs for small scale problems using elementary data types and control structures using web programming languages.

CSCI 112. Visual Basic and VBA. 4 Hours.
Introduction to programming in the Visual BASIC and Visual Basic Application. Prerequisites: CSCI 111.

CSCI 127. Beginning JAVA. 4 Hours.
An introduction to programming in the Beginning JAVA language. Prerequisite: Student must complete CSCI 120 or have consent of the instructor before enrolling in this class.

CSCI 160. Computer Science I. 4 Hours.
An introduction to computer science, with problem solving algorithm development, and structured programming in a high-level language. Emphasis is on design, code debug, and document programs, using techniques of good programming style. Prerequisites: CSCI 111 and ASC 93 with a C or higher in both courses or instructor consent.

CSCI 161. Computer Science II. 4 Hours.
Object-oriented concepts, terminology and notation. The C++ language is explored including topics such as dynamic memory, exception handling, function and class templates, operator overloading, inheritance, polymorphism, and generic programming with the standard template library. Additional topics may include GUI libraries. Prerequisites: CSCI 160 and MATH 103 with a C or higher in both courses.

CSCI 177. Intermediate JAVA. 4 Hours.
Intermediate level programming in the JAVA language. Prerequisite: CSCI 127.

CSCI 221. Web and Internet Programming. 4 Hours.
Service side programming for the WWW. Emphasis on servlet programming and distributed component programming using API's for object serialization, remote method invocation, database connectivity and XML generation. Prerequisite: CSCI 161 with a C or higher.

CSCI 242. Algorithms & Data Structures I. 4 Hours.
Advanced programming techniques including recursion divide-and-conquer, and backtracking will be considered. Dynamic and static data structures including lists, stacks, and queues. Modular programming, program specification and verification, and analysis of algorithms. Prerequisites: CSCI 161, MATH 107 or both MATH 103 and MATH 105 with a C or higher in all courses.

CSCI 243. Algorithms & Data Structures II. 4 Hours.
Advanced programming techniques including sorting, binary trees, AVL trees, graphs and networks. A discussion of searching techniques for conceptual graphs and networks and additional searching strategies. Analysis of algorithms will also be presented. Prerequisite: CSCI 242 with a C or higher.

CSCI 260. UNIX Environment. 4 Hours.
An introduction to the UNIX environment. Basic tools and utilities. Shell programming. Prerequisite: CSCI 160.

CSCI 275. Computer and Digital Hardware I. 4 Hours.
Fundamentals of digital systems, data representations, mathematics digital systems, microprocessor design and instruction sets, introduction to laboratory equipment. Prerequisites: CSCI 161, MATH 107 or both MATH 103 and MATH 105 with a C or higher in all courses.

CSCI 297. Internship. 1-8 Hour.
Supervised professional work experience in a cyber-technology environment at the 100 & 200 course level. May not be counted towards earned credits for major or minor. Student must have departmental approval before enrolling.

CSCI 299. Special Topics. 1-4 Hour.
Prerequisite: CSCI 101.
CSCI 321. Windows Programming. 4 Hours.
Development of applications for the Windows environment and use of a standard library and its classes. Prerequisite: CSCI 161 with a C or higher.

CSCI 323. Robotics. 4 Hours.
Introduction to robotics emphasis is on the computer design, programming of autonomous robot systems, basic dynamics and control of motion, sensors, and artificial intelligence techniques for robot applications in the real world. Individual and group projects analyze robot control problems, designing hardware, and software solutions. Students write basic control programs for different robot platforms and apply state-of-art artificial intelligence techniques to the control of robotic mechanisms. Prerequisite: CSCI 161 with a C or higher.

CSCI 330. Software Engineering and Testing. 4 Hours.
The principle, methods and models used to develop and manage software projects, including test implementation of a large-scale project. Prerequisite: Student must complete CSCI 161, 275 and 340 with a C or higher before enrolling in this course.

CSCI 331. Social Implications. 4 Hours.
An introduction to: The effects of computer technology (hardware and/or software) on society and individuals; ethical problems faced by computer professionals; human interaction and interfacing with computer technology. Prerequisite: CSCI 161, 275 and 340 or instructor consent.

CSCI 335. Theoretical Computer Science. 4 Hours.
Models of computation, regular expressions, finite automata, Kleene’s Theorem, lexical analysis, context-free grammars, pushdown automata, introduction to parsing. Prerequisites: CSCI 242, CSCI 275, MATH 208, and MATH 209 with a C or higher in all courses.

CSCI 340. Computer Networks I. 4 Hours.
Introduction to network design and management. Topics include the local area networks, wireless networks and communication systems, OSI and TCP/IP Models, signals and modulation, protocol designs such as Ethernet, Wifi, Bluetooth, cellular networks, ad hoc networks, flow control, error handling, routing, interfaces, and applications. Prerequisites: CSCI 161, CSCI 275, MATH 107 or MATH 103 and MATH 105, MATH 208, and MATH 209 with a C or higher in all courses.

CSCI 352. Comparative Languages. 4 Hours.
Comparison of procedural and non-procedural languages. Study of strengths and weaknesses of language for solving various problems. Introduction to implementation issues such as memory allocation. Prerequisite: CSCI 242.

CSCI 356. Database Management I. 4 Hours.
Introduction to database management systems, database theory and schema design, and programming, including data modeling, set theory, relational calculus, functional and multivalued data dependencies, and normalization. Various database models are discussed including, relational, NoSQL, network, hierarchical, and inverted files, and database management and security. Prerequisites: CSCI 161 and MATH 209 with a C or higher in all courses or BIT 312 or department approval.

CSCI 360. Systems Programming. 4 Hours.
Programming using interrupts and operating systems services. Device driver implementation. Brief comparison of different hardware systems. Prerequisites: CSCI 242, CSCI 275, MATH 208, and MATH 209 with a C or higher in all courses.

CSCI 370. Computer Organization. 4 Hours.
The structure and organization of computer hardware. Register implementation and usage. Memory management. Comparison of Architectures. Prerequisites: CSCI 161, CSCI 275, MATH 208, and MATH 209 with a C or higher in all courses.

CSCI 375. Computer and Digital Hardware II. 4 Hours.
Advanced applications of digital systems, builds on the content of CSCI 275, emphasis on system designs. Prerequisite: CSCI 275.

CSCI 391. Teaching Computer Science. 2 Hours.
Classroom management and equipment. Analysis of student difficulties, survey of current literature, observation, and practicum. Prerequisites: CSCI 160, 250 and admission to Teacher Education.

CSCI 440. Data Communications & Computer Security. 4 Hours.
Network administration and management of data protocols and models, basic configurations, software, hardware, and routing applications. Problems of computer security and possible solutions, internet security, secure operation system and kernels, with an emphasis on applications. Prerequisite: CSCI 340 with a C or higher.

CSCI 450. Operating Systems. 4 Hours.
Design and implementation of operating systems. Study of the control of and communication between interacting processes. Resource allocation and management in a multiprogramming environment. Prerequisites: CSCI 360 and CSCI 370 with a C or higher in both courses.

CSCI 452. Compiler & Interpreter Construction. 4 Hours.
Theory and practice of program translation. Lexical and syntactic analysis, error detection and response, optimization. Prerequisites: CSCI 275 and CSCI 335 with a C or better in both courses.

CSCI 456. Database Management II. 4 Hours.
Advanced database theory and applications. Students will be expected to have a solid foundations in normalization and database programming. Students will be expected to apply their knowledge of set theory, relational calculus and normalization to design and develop a large database project in a relational database system and create an application which uses the database in the programming language of their choice from a large data set. Prerequisite: CSCI 356 with a C or higher.
Introduction to computer and network security. Topics covered include the CIA triad model, symmetric and public-key encryption algorithms, hashing algorithms, and securing data storage, application and communications systems, firewalls, penetration testing, vulnerability assessments, reverse engineering, malware and ethics. Prerequisites: CSCI 340 and CSCI 370 with a C or higher in both courses.

CSCI 460. Capstone Project. 4 Hours.
The student chooses a research or software development project in consultation with the instructor. The student prepares a project proposal discussing the scope of the project and develops it to those specifications. On completion of the project the student is expected to present the results of their work and submit a final report. It is recommended that the project is focused on student's chosen field of study. Prerequisites: CSCI 242, CSCI 340, CSCI 356, and CSCI 370 with a C or higher in all courses.

CSCI 497. Internship. 1-8 Hour.
Supervised professional experience in computing applications. A maximum of two credits may be counted toward a major or minor. May be repeated up to a total of eight credits. Grading is pass/fail. Prerequisite: Departmental Approval.

MATH Courses

MATH 103. College Algebra. 4 Hours.
This course explores fundamental college algebra topics, either as preparation for further study in mathematics or to meet the general education requirement. Topics of study include the following: relations, functions, and graphing; equations and inequalities; complex numbers; radical, polynomial, rational, exponential, and logarithmic functions; systems of equations; matrices; sequences and series; and the binomial theorem. Prerequisite: ASC 093 with C or better, or qualifying math placement test score, or ACT math subtest score of 21 or higher. Required corequisite Math 103L if ACT math subtest score is 18-20 or qualifying Elementary Algebra math placement test score is 60-75.

MATH 103L. College Algebra Lab. 2 Hours.
College Algebra level lab provides students in Math 103 with an extended experience in a lab setting working on algebra skills. Lab meets 4 hours per week. This class is S/U. Required Corequisite to Math 103 if ACT math subtest score is 18-20. Withdrawing from this class will also withdraw you from Math 103.

MATH 104. Finite Mathematics. 4 Hours.
This course is for students whose major does not require MATH 103 College Algebra, Math 107 Precalculus, or courses in calculus. This course emphasizes the understanding and application of mathematics as they are used in everyday life. Topics of study include systems of linear equations and inequalities, matrices, linear programming, logic, mathematics of finance, elementary probability, and descriptive statistics. This course does not serve as the prerequisite for any other math course. Prerequisite: ASC 093 with C or better or qualifying math placement test score, or ACT math subtest score of 25 or higher.

MATH 105. College Trigonometry. 2 Hours.
A study of angles, trigonometric function and their inverses, solving triangles, trigonometric identities and equations, polar coordinates, and applications. Prerequisite: Students must complete Math 103 with a C or better or have an ACT subscore of 25 or higher before enrolling.

MATH 107. Precalculus. 4 Hours.
This course includes the study of equations and inequalities, polynomial, rational, exponential and logarithmic functions, conic sections, standard forms, polar-coordinates and introduction to parametric equations, graphing, trigonometric and inverse trigonometric functions, trigonometric identities and equations, and applications. Prerequisite(s): MATH 103 with a C or better, or qualifying math placement test score, or ACT math subtest score of 25 or higher.

MATH 146. Applied Calculus. 3 Hours.
Introduction to differential and integral calculus with applications from areas such as social science and business. Topics include limits, derivatives, integrals, exponential and logarithmic functions, and applications. Prerequisite(s): MATH 103 with a C or better, or qualifying math placement test score, or ACT math subtest of 25 or higher.

MATH 165. Calculus I. 4 Hours.
Topics include limits, continuity, differentiation, Mean Value Theorem, integration (indefinite and definite integrals), Fundamental Theorem of Calculus, and applications. Prerequisite(s): MATH 107 with a C or better, or MATH 103 and 105 with a C or better, or qualifying math placement test score, or ACT math subtest score of 29 or higher.

MATH 166. Calculus II. 4 Hours.
Topics include applications of integration, methods of integration, polar equations, sequences, series, power series, and application. Prerequisites: MATH 165 with a C or better.

MATH 201H. Environmental Mathematics. 3 Hours.
Exploration of environmental issues using mathematical models together with real world data. Topics may include: ecology, health sciences, economics, genetics, and other environmental issues. Possible field experience. Prerequisite: Math 102 with a C or higher, or qualifying math placement test score, or ACT math subtest score of 22 or higher.

MATH 205. Math Proof & Problem Solving. 3 Hours.
A course on mathematical proofs and axiomatic systems. Topics may include set theory, formal logic, combinatorics, graph theory. Prerequisite: MATH 165.
MATH 208. Discrete Mathematics I. 3 Hours.
Introduction to discrete mathematics with an emphasis in computer science and applications including: sets and set theory, Boolean algebra and digital logic theory, formal logic and equivalence, mathematical proofs (direct, contradiction, contrapositive, and induction), sequences and recursion, relations and functions, and relational algebra. Prerequisite: MATH 103 or MATH 107 or MATH 146 or MATH 165 with a C or better.

MATH 209. Discrete Mathematics II. 3 Hours.
Intermediate discrete mathematics with an emphasis in computer science and applications including: combinatorics and probability, graph theory including circuits, isomorphisms, trees, shortest path algorithms, algorithm analysis, regular expressions and formal languages, and finite-state automata. Prerequisite: MATH 208 with a C or better.

MATH 210. Elementary Statistics. 4 Hours.
An examination of introductory statistics concepts, including sampling, descriptive statistics, probability, correlation, regression, binomial and normal distributions, confidence intervals and hypothesis testing of one and two populations, ANOVA, and Chi-square tests. Technology will be used to enhance learning and mirror statistical applications and practices in the larger world. Prerequisite(s): ASC 093 with a C or better, or qualifying math placement test score, or ACT math subtest score of 21 or higher. Required corequisite Math 210L if ACT math subtest score is 18-20 or qualifying Elementary math placement test score is 60-75.

MATH 210L. Elementary Statistics Lab. 2 Hours.
Elementary Statistics level lab provides students in Math 210 with an extended experience in a lab setting working on statistics skills. Lab meets 4 hours per week. This class is S/U. Required Corequisite to Math 210 if ACT math subtest score is 18-20. Withdrawing from this class will also withdraw you from Math 210.

MATH 265. Calculus III. 4 Hours.
Functions of more than one variable, multiple integrals, line integrals, Green's and Stroke's theorem. Prerequisite: MATH 166.

MATH 266. Introduction to Differential Equations. 3 Hours.
First order equations, linear equations, systems of equations, series methods, Prerequisite: MATH 265 and MATH 314.

MATH 277. Mathematics for Elementary Teachers I. 3 Hours.
A course for elementary education majors. Topics include problem solving, number systems (natural numbers through the reals), number theory, and proportional reasoning. Technology and manipulatives are used throughout the course. Prerequisite: ASC 093 with a C or better, or qualifying math placement test score, or ACT math subtest score of 21 or higher.

MATH 294. Intro to Research Math. 1-2 Hour.
Students explore topics, expand their mathematical knowledge, and begin to conduct introductory research under the direction of a faculty mentor. The number of credits is proportional to the time committed to the research (1 SH = 3 hours of student work per week on average). Repeatable for up to 4 credits total. Prerequisite(s): MATH 165 with a B or better; instructor permission required.

MATH 299. Special Topic. 1-4 Hour.

MATH 305. Linear Algebra. 4 Hours.
Real vector spaces, subspaces, linear transformations, matrices, eigenvalues and eigenvectors, vector geometry. Prerequisite: MATH 107 or advanced placement.

MATH 314. Introduction to Mathematical Programming. 2 Hours.
An introduction to symbolic, numerical, and graphical computing using mathematical software packages. MATLAB will be used during fall semesters and Mathematica will be used during spring semesters. Prerequisite: Students must complete MATH 165 and MATH 305 before enrolling in this course.

MATH 315. Intro to Mathematical Modeling. 3 Hours.
An introduction to mathematical modeling is the translation of a real world problem into a well formulated mathematical model. Students will develop the basic skills and techniques of formulation, simulation, analysis, and testing of mathematical models for describing and predicting a variety of phenomena. Understanding the fundamental principles in model formulation in physics, chemistry, biology, business, economics, medicine, and social and environmental sciences will be emphasized. Prerequisites: Student must complete MATH 165 and Math 314 before enrolling in this class.

MATH 320. Number Theory. 3 Hours.
Unique factorization, residue theory, Diophantine equations, quadratic equations and reciprocity. Prerequisite: MATH 205.

MATH 325. Algebra for Secondary Teachers. 3 Hours.
Algebra topics in the secondary mathematics curriculum are explored using a variety of manipulative, technologies, and teaching resources. Focus areas include patterning, connections between algebraic topics, and multiple ways of knowing and learning algebraic topics. Prerequisite: Students must complete MATH 165 before enrolling in this course.

MATH 330. College Geometry. 4 Hours.
Geometry for secondary teachers. Euclidean geometry using both inductive and deductive approaches. Teaching tools include appropriate technology. Standard topics plus finite and transformational geometry. Prerequisite: MATH 205.

MATH 345. Linear Models. 4 Hours.
An introduction to statistical methods including topics from sampling, hypothesis testing, nonparametric statistics, resampling, simple and multiple regressions, and the general linear model. Computer statistical packages will be integrated into the course. Prerequisite: MATH 210 or equivalent.
MATH 346. Experimental Design. 4 Hours.
Statistical methods including topics from analysis of variance; fixed and random factors; block, nested, and crossed designs; factorial, fractional factorial and confounded designs; split plot designs; and multivariate analysis. Computer statistical packages will be integrated into the course. Prerequisite: MATH 210.

MATH 371. Early Practicum. 1 Hour.
This course will require a minimum of 45 clock hours in a practicum experience. The experience can be any one of or combination of the following: secondary classroom, teaching assistant on campus, tutor on or off campus, tutor in the MSU Math Clinic, tutor at Job Corps, or some other experience approved by the Mathematics Department. Prerequisite(s): MATH 165.

MATH 377. Mathematics for Elementary Teachers II. 3 Hours.
A course for elementary education majors. Topics include probability, statistics, and geometry. Calculators, computer software, and manipulatives are throughout the course. Prerequisite: ASC 093 with a C or better, or qualifying math placement test score, or ACT math subtest score of 21 or higher.

MATH 378. Mathematics for Elementary Teachers III. 3 Hours.
A required general education course for elementary education majors. Topics include algebraic reasoning and habits of mind, problem solving, set theory, probability, and statistics. Students will learn how to communicate, explain, and demonstrate mathematics using various physical models, conceptual models, manipulatives and other relevant tools through the study of student errors and implementation of classroom activities. Prerequisites: Students must complete Math 227 and Math 377 prior to enrolling in this course. Corequisite: Students must enroll in ED 221 at the same time as this course.

MATH 380. History of Mathematics. 3 Hours.
Development of mathematics from its early beginning through the present axiomatic approach. Problems from each era are included. Prerequisite: MATH 107 or advanced placement.

MATH 381. Secondary Math Practicum. 1 Hour.
This course will require a minimum of 60 clock hours in a practicum experience. The experience will take place in a grades 7-12 setting. Prerequisite(s): Admission to Teacher Education. Prereq/Coreq: MATH 391.

MATH 391. Teaching Mathematics. 3 Hours.
Intended for secondary mathematics teachers. Planning mathematics lessons, developing mathematics teaching skills. Prerequisite(s): Admission to Teacher Education.

MATH 394. Independent Study General Math. 1-4 Hour.
MATH 420. Abstract Algebra. 4 Hours.
Introduction to abstract algebraic systems. Groups, rings, homomorphisms and isomorphisms. Prerequisites: MATH 205.

MATH 445. Probability And Statistics I. 4 Hours.
Introduction to probability, discrete and continuous random variables, distribution functions, special probability distributions. Prerequisite: MATH 146 or 166.

MATH 446. Probability and Statistics II. 4 Hours.
Multivariate probability distributions. Functions of random variables, moment generating functions, sampling distributions, estimation methods, properties of point estimations, linear models, some special experimental designs. Prerequisite: MATH 445.

MATH 450. Real Analysis. 4 Hours.
Limits of functions and sequences, continuity, topology of the reals, differentiation, Riemann Integration, convergence and uniform convergence. Prerequisite: MATH 205.

MATH 460. Complex Analysis. 3 Hours.
Analytic functions, conformal maps, Cauchy integral formula, residue theorem. Prerequisites: MATH 265, 450.

MATH 466. Intro to Partial Differential Equations. 3 Hours.
Solution of the standard partial differential equations (Laplace's equation, transport equation, heat equation, wave equation) by separation of variables and transform methods, including eigenfunction expansions, Fourier and Laplace transform. Boundary value problems, orthogonality and Fourier series. Prerequisite: Math 266.

MATH 470. Numerical Analysis. 4 Hours.
Error analysis, numerical differentiation and integration, linear systems and numerical solutions to differential equations. The computer language of instruction will be FORTRAN. Prerequisites: Student must complete MATH 265, 305, and 314 before enrolling in this class.

MATH 494. Directed Research in Math. 1-4 Hour.
Students conduct research under the direction of a faculty mentor. The general topic and specific goals and activities are agreed upon by the student and the mentor. While publication or presentation is not a requirement, all projects have a goal of producing publishable/presentable results. The number of credits is proportional to the time committed to the research (1 SH = 3 hours of student work per week on average). Repeatable for up to 8 credits total. Prerequisite(s): Math 294 (2 SH); instructor consent.

MATH 499. Special Topics. 1-4 Hour.
Computer Science

Computer Science Program Mission

The mission of the Computer Science BS program is to equip students with knowledge in, skills of, and values of computer science and the ability to apply and advance the knowledge, skills, and values of computer science.

Computer Science Program Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>To provide a foundation in computer science principles and values.</td>
<td>Demonstrate competency in:</td>
</tr>
<tr>
<td>To provide a foundation in the principles of the environments (hardware, system and application software, human factors) which software impacts.</td>
<td>Application of programming principles, including fluency in a high-level language.</td>
</tr>
<tr>
<td>To give students the theoretical background needed to develop, document, troubleshoot, and test code in various languages and environments.</td>
<td>Using architectural principles and their implementation in hardware.</td>
</tr>
<tr>
<td>To give students a strong hands-on experience in applying computer science principles and values in a production environment.</td>
<td>Using the principles of operating systems.</td>
</tr>
<tr>
<td>To enable students to integrate computer science principles with technology based devices.</td>
<td>Using the principles of programming languages.</td>
</tr>
<tr>
<td>To enable students to successfully apply to graduate school in computer science or related disciplines.</td>
<td>Using computer networks and their implementation.</td>
</tr>
<tr>
<td>To prepare students for employment in government, business, and industry where a strong computer science foundation is required.</td>
<td>Demonstrate critical thinking skills by:</td>
</tr>
<tr>
<td>To support other disciplines with related computer science knowledge, skills, and values.</td>
<td>Interpreting specifications;</td>
</tr>
<tr>
<td>To develop students’ higher order thinking skills, including critical thinking and problem solving.</td>
<td>Creating specifications;</td>
</tr>
<tr>
<td>To encourage students to continue developing their knowledge, application, and value of computer science and technology.</td>
<td>Implementing a system using specifications.</td>
</tr>
<tr>
<td></td>
<td>Demonstrate problem solving skills by analyzing problems that are amenable to a solution involving computing.</td>
</tr>
<tr>
<td></td>
<td>Demonstrate skills needed for life-long learning.</td>
</tr>
<tr>
<td></td>
<td>Demonstrate the ability to function successfully in a research/workplace environment by:</td>
</tr>
<tr>
<td></td>
<td>Working independently and with others.</td>
</tr>
<tr>
<td></td>
<td>Meeting deadlines.</td>
</tr>
<tr>
<td></td>
<td>Successfully completing tasks whose requirements are not well-defined.</td>

### Computer Science Concentration

Elect at least 12 cr from CSCI courses.

**Total Hours** 12

### Certificate in Computer Programming

This certificate will confirm students’ mastery of knowledge and abilities at a level consistent with entry-level programming positions. The program will be of interest both to students who plan to pursue further work in a computing discipline and to students who wish to complement other interests with substantial knowledge of programming.

Mathematics

Mathematics Program Mission

The mission of the Mathematics BA program is to equip students with knowledge in, skills of, and values of mathematics and the ability to apply and advance the knowledge, skills, and values of mathematics.

Mathematics Program Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>The goals of the BA in mathematics are as follows:</td>
<td>The outcomes of the BA in mathematics are as follows:</td>
</tr>
<tr>
<td>To provide a foundation in principles of mathematics.</td>
<td>Demonstrate competency in the foundation areas of calculus and linear algebra and in at least two of the more specialized areas of algebra, analysis, classical applied mathematics, and/or probability and statistics.</td>
</tr>
<tr>
<td>To provide experiences communicating mathematical ideas so the student can read, write, listen, and speak effectively about mathematics.</td>
<td>Apply for graduate school in mathematics and get accepted.</td>
</tr>
<tr>
<td>To provide experiences using calculators and other technologies in appropriate mathematical contexts.</td>
<td>Get a job in industry where a strong mathematics background is needed.</td>
</tr>
<tr>
<td>To develop the student’s higher order and critical thinking skills through the mathematical reasoning process.</td>
<td>Use mathematics and calculator/technology to solve real world problems.</td>
</tr>
<tr>
<td>To enable students to relate mathematics to the real world through problem solving situations.</td>
<td>Communicate abstract mathematical concepts through proofs and problem solving.</td>
</tr>
<tr>
<td>To foster an appreciation of the beauty, elegance, utility, and power of mathematics.</td>
<td>Articulate the value of mathematics in their lives and in society.</td>
</tr>
<tr>
<td>To prepare the student for employment in government, business, and industry where a strong mathematics foundation is needed.</td>
<td></td>
</tr>
</tbody>
</table>

Mathematics Education Program Mission

The mission of the Mathematics BSE program is to equip students with the mathematical and technical knowledge, the communication and management skills of, values of mathematics and the ability to apply them and the dispositions required to effectively teach secondary mathematics to all students.

Mathematics Education Program Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>The goals of the BS program in mathematics education are as follows:</td>
<td>Graduates of the BS program in mathematics education will be able to do the following:</td>
</tr>
<tr>
<td>To provide a foundation in principles of mathematics.</td>
<td>Solve problems that require application of their knowledge of algebra, geometry, probability and statistics, mathematical systems, history, and calculus.</td>
</tr>
<tr>
<td>To provide a foundation in the art and craft of teaching.</td>
<td>Articulate mathematical concepts and effectively communicate them to students using appropriate mathematical vocabulary and terminology.</td>
</tr>
<tr>
<td>To provide a foundation in mathematics teaching methodologies.</td>
<td>Manage the classroom environment to provide safe and positive learning experiences.</td>
</tr>
<tr>
<td>To prepare the student for licensure in 7-12 mathematics education.</td>
<td>Present well planned lessons conducive to student learning using multiple teaching strategies.</td>
</tr>
<tr>
<td>To prepare students for employment where a strong mathematics education foundation is needed.</td>
<td>Incorporate technology in the teaching and learning of mathematics to enhance students’ learning and understanding of mathematics.</td>
</tr>
<tr>
<td>To prepare prospective mathematics teachers to engage in professional development activities and to become involved in professional associations.</td>
<td>Assess student learning of mathematics using both formal and informal methods of assessment.</td>
</tr>
</tbody>
</table>
To provide prospective mathematics teachers with a foundation in technologies used for teaching mathematics and for administrative and management activities.

Deliver instruction that incorporates multiple learning modalities, including adaptations to address diverse learning needs.

To provide opportunities for prospective teachers to work with diverse student populations.

Teach mathematics to students in a variety of grades (7-12) and in a variety of settings.

To ensure that prospective mathematics teachers can help all students learn mathematics.

Identify professional associations for all teachers and for mathematics teachers and state benefits of membership in such associations.

To provide a foundation in assessment of student learning of mathematics.

### Required Support Course

Select one of the following:
- CSCI 112 Visual Basic and VBA
- CSCI 160 Computer Science I

### Professional Education Sequence

May be taken prior to admission to Teacher Education
- ED 260 Educational Psychology
- ED 260L Clinical I
- ED 282 Managing the Learning Environment
- ED 282L Clinical II
- ED 284 Teaching Diverse Learners
- ED 284L Clinical III
- ED 320 Curriculum, Planning & Assessment I
- ED 321L Clinical IV
- ED 322 Curriculum, Planning, and Assessment II
- ED 323L Clinical V
- ED 324L Fall Experience
- PSY 255 Child & Adolescent Psychology
- SPED 110 Introduction to Exceptional Children
- SS 283 Ethnic and Cultural Diversity in America

May be taken only after admission to Teacher Education
- ED 380 Technology in Teaching
- ED 483 Student Teaching Seminar
- ED 493 Student Teaching, Secondary
- MATH 381 Secondary Math Practicum
- MATH 391 Teaching Mathematics

Additional program requirement is for the student to take the PRAXIS II Mathematics: Content Knowledge exam and the PRAXIS II Principles of Learning and Teaching: Grades 7-12 exam before completing the program.

### Total Hours

120

1 Math 165 is required for the math GenEd requirement

### Mathematics Minor (Non-Teaching)

#### Required Core
- MATH 165 Calculus I 4
- MATH 166 Calculus II 4
- MATH 205 Math Proof & Problem Solving 3
  or MATH 208 Discrete Mathematics I
- MATH 305 Linear Algebra 4

Two MATH Electives from 200, 300, or 400 level courses 7

Division of Humanities

Co-Chairs
Bill Harbort: Art, Communication Arts, Broadcasting, Theatre
Robert Kibler: English, Foreign Language, Gender/Women's Studies, Humanities

Division of Humanities Mission Statement
The Division of Humanities fosters critical and creative engagement in the study of diverse literature and languages, cultures and societies, visual and performing arts, and print and broadcast communications.

Division of Humanities Program Goals
Humanities students at Minot State study the expression of the human spirit in words and images. This includes:

- studying basic communication skills in speech and writing,
- studying the ways different cultures and historical periods express their unique spirit in words and images,
- studying the ways individuals express their unique vision and spirit in words and images,
- studying the relationships among technique, meaning, and vision in human expression.

University Teacher Education
Refer to the Teacher Education Policies and Procedures (p. 283) section of the catalog for details regarding Teacher Education at Minot State University. These pages will explain admission, retention, and exit requirements of the program for art, communication arts, English, and foreign language majors in Teacher Education.

Division Teacher Education Requirements
In addition to University-wide teacher education policies, majors in the Humanities Division must pass the appropriate subject-matter methods course before student teaching: ART 390 Art Methods, COMM 390 Communication Arts Methods, ENGL 390 Secondary Language Arts Methods, LANG 390 Foreign Language Methods.

ART Courses

ART 91. Visual Arts Seminar V. 0 Hours.
A continuation of VA seminar. Restricted to art majors and minors. Mandatory for all art majors after completion of ART 491.

ART 95. Art Experience. 0 Hours.
Students will assist and contribute to an art experience. The course experience will require student to facilitate and support the production of art by working with guest artists and/or contributing art to an event.

ART 101. Introduction to Studio Art. 3 Hours.
An introductory studio art course to familiarize the non-art major with the basic painting, printmaking, sculptural, jewelry, and ceramic processes. Six studio hours per week.

ART 110. Introduction to Visual Arts. 3 Hours.
Study and appreciation of visual arts. Three hour lecture.

ART 112. Print, Web, and Social Media Graphics. 3 Hours.
This course introduces students to forms and techniques of social media graphics. Students will explore stylistic elements that are documented in current trends and established methods of design. Students will learn to craft and analyze a variety of inventive texts for traditional and non-traditional forms of print, web and social media.

ART 122. Two-Dimensional Design. 3 Hours.
A basic course in the study of two-dimensional design for the studio artist. Six studio hours per week.

ART 124. Three-Dimensional Design. 3 Hours.
A basic course in the study of three-dimensional design for the studio artist. Six studio hours per week.

ART 130. Drawing I. 3 Hours.
Introduction to basic drawing techniques through a variety of materials. Six studio hours per week.
ART 140. Arts & Crafts. 3 Hours.
Instruction including, but not limited to, basic techniques in fibers, glass and metal processes. Six studio hours per week.

ART 180. Digital Photography. 3 Hours.
Introduction to digital photography. Digital SLR camera and tripod required. Six studio hours per week.

ART 191. Visual Arts Seminar I. 0.5-1 Hour.
Introduction of departmental requirements, procedures and opportunities. Fall and Spring semesters required for all art majors. Restricted to Art and Art Ed majors and minors.

ART 201. Art Methods for Elementary Education. 3 Hours.
Methods of teaching art in elementary education. Six studio hours per week.

ART 204. Jewelry and Small Sculpture. 3 Hours.
Introduction to basic jewelry and small sculpture techniques, design, and materials. Six studio hours per week.

ART 207. Digital Tools: Imaging & Print. 3 Hours.
An exploration of Adobe’s Photoshop, Illustrator and Indesign. Covers software programs and peripherals designed for imaging and print, building basic skills and knowledge of computer programs. Prerequisite(s): ART 112.

ART 210. Art History I. 3 Hours.
A survey of western art from Paleolithic to Renaissance.

ART 211. Art History II. 3 Hours.
A survey of western art from Renaissance to present.

ART 212. Non-Western Art History. 3 Hours.
An integrated survey of the art of non-western cultures.

ART 213. Graphic Design I. 3 Hours.
Introduction to the elements and practice of typography with emphasis on typefaces and letterforms in graphic design. Six studio hours per week. Prerequisites: ART 112, ART 207, ART 122, ART 123, and 130 or consent of instructor.

ART 214. Graphic Design II. 3 Hours.
Application of problem solving skills for visual communications as applied to the history of graphic design. Six studio hours per week. Prerequisite: ART 213 or consent of instructor.

ART 220. Painting I. 3 Hours.
Introduction to basic painting through a variety of materials. Six studio hours per week. Prerequisite: ART, 122, ART 123 and ART 130.

ART 225. Water Media I. 3 Hours.
Introduction to basic watermedia painting for the studio artist. Six studio hours per week. Prerequisite: ART 122, ART 123 and ART 130, or consent of instructor.

ART 231. Figure Drawing I. 3 Hours.
Introduction to basic figure drawing with a live model. Six studio hours per week. Prerequisite: ART 122 and ART 130, or consent of instructor.

ART 250. Ceramics I. 3 Hours.
Introduction to basic ceramic techniques. Six studio hours per week.

ART 265. Sculpture I. 3 Hours.
Introduction to basic sculpture materials and techniques. Six studio hours per week. Prerequisite: ART 122, ART 123, and ART 124, or consent of instructor.

ART 266. Sculpture II. 3 Hours.
Continuation of ART 265. Four studio hours per week. Emphasis on independent development of technique and style. Prerequisite: ART 265 or consent of instructor.

ART 270. Printmaking I. 3 Hours.
Introduction to basic printmaking techniques and materials: relief, monotype, and screen printing. Six studio hours per week. Prerequisites: ART 122, ART 123 and 130.

ART 271. Printmaking II. 3 Hours.
Basic exploration in intaglio and lithography printing techniques. Six studio hours per week. Prerequisites: ART 122, 123, and 130 or consent of instructor.

ART 274. Paper Works. 3 Hours.
Introduction to works on or of paper including book arts, papermaking, and letterpress printing. Six studio credits per week. Prerequisites: Art 122 and 123 or instructor consent.

ART 280. Traditional Photography. 3 Hours.
Introduction to traditional photography. SLR film camera and tripod required. Six studio hours per week.
ART 291. Visual Arts Seminar II. 0.5-1 Hour.
A continuation of VA Seminar, including second year portfolio reviews. Fall and Spring semesters required for all Art majors. Restricted to Art and Art Ed majors and minors. Prerequisite: Art 191 or consent of instructor.

ART 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit.

ART 299. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or on-time offerings of current topics. Prerequisite: Consent of instructor.

ART 300. Modernism. 3 Hours.
A survey of Modernism in Art.

ART 311. Postmodernism. 3 Hours.
A survey of Postmodernism in art.

ART 312. History of Architecture. 3 Hours.
A survey of architectural history from prehistory to the present.

ART 313. Women in the Visual Arts. 3 Hours.
A study of the impact of women in the visual arts throughout history.

ART 314. Art History Topics. 3 Hours.
A survey of a discipline's history from prehistory to the present. Topics are variable. Prerequisite: Art 210 and Art 211 or consent of instructor.

ART 315. Native American Art. 3 Hours.
Art and crafts of the indigenous people of the America's (North and South) through a study of their artifacts and history from pre-history to the present.

ART 322. Graphic Design III. 3 Hours.
An advanced exploration of graphic design in the contemporary digital environment, culminating in the execution of a professional portfolio. Six studio hours per week. Prerequisite: ART 214.

ART 323. Illustration Techniques. 3 Hours.
Introduction to materials, techniques, and problem solving skills used in illustration. Six studio hours per week. Prerequisite: ART 122, ART 123, and ART 130 or consent of instructor.

ART 325. Water Media II. 3 Hours.
Continuation of ART 225 with renewed emphasis on development of an individualized technique, style, and concept through acrylic as well as transparent watercolor. Six studio hours per week. Prerequisites: ART 123 and 225.

ART 331. Advanced Drawing. 3 Hours.
Advanced problems in drawing including still-life, figure drawing and contemporary style. Six studio hours per week. Prerequisites: ART 231 or consent of instructor.

ART 332. Figure Drawing II. 3 Hours.
Advanced problems in figure drawing with a live model. Six studio hours per week. Prerequisite: ART 231 or consent of instructor.

ART 333. Painting II. 3 Hours.
Continuation of ART 220 with emphasis on independent development of technique, composition, and style. Six studio hours per week. Prerequisite: ART 220 or consent of instructor.

ART 334. Painting III. 3 Hours.
Continuation of ART 333. Six studio hours per week. Prerequisite: ART 333 or consent of instructor.

ART 345. Introduction to Museum Studies. 3 Hours.
This course introduces students to the history, key debates, and contemporary practices of museums and galleries with a focus on exhibit design, education, conservation and collection management.

ART 351. Ceramics II. 3 Hours.
Advanced development of the individual ceramist-teacher in studio experience related to clay bodies, glazes, and firing procedures. Six studio hours per week. Prerequisite: ART 250 or consent of instructor. Entry level specialization and 100 level core foundations.

ART 352. Ceramics III. 3 Hours.
Continuation of ART 351. Six studio hours per week. Emphasis on independent development of the techniques and style. Prerequisite: ART 250 and 351.

ART 362. Printmaking III. 3 Hours.
Continuation of 270 and 361 with emphasis on independent development of technique, composition, and style. Six studio hours per week. Prerequisite: ART 270 or 361 or consent of instructor. Entry level specialization and 100 level core foundations.

ART 380. Advanced Photography. 3 Hours.
Advanced exploration of photography with emphasis on independent development of technique, composition and style. Six studio hours per week. Prerequisite(s): ART 281 or ART 382.
ART 382. Alternative Photography. 3 Hours.
Course will encourage exploration and production in photographic techniques not studied in beginning photography courses, including alternative
printing techniques. Repeatable to six credits. Six studio hours per week. Prerequisite: ART 180 or consent of instructor.

ART 390. Art Methods. 4 Hours.
Discussion and interactive experiences developing a K-12 art curriculum. Peer teaching and classroom management, organizational techniques, and
practicum. Prerequisites: ART 122, 130, 140, 201 and admitted into teacher education.

ART 391. Visual Arts Seminar III. 0.5-1 Hour.
A continuation of VA seminar, including a junior group exhibition. Fall and Spring semesters required for Art majors. Restricted to Art and Art Ed majors
and minors. Prerequisite: Art 291 or consent of instructor.

ART 420. Advanced Study in Art History. 1-6 Hour.
Open to advanced art students for independent research in art history. A preliminary outline of proposed research is required. This course is restricted to
art majors or minors. Prerequisite(s): Consent of instructor.

ART 422. Advanced Digital Design. 3 Hours.
An advanced study of contemporary software and theory used in digital communication. Prerequisites: Art 112 and Art 207 or consent of instructor.

ART 491. Visual Arts Seminar IV. 0.5-1 Hour.
A continuation of VA seminar. Fall and Spring semesters required. Restricted to Art and Art Ed majors and minors. Prerequisite: Art 391 or consent of
instructor.

ART 492. Capstone Experience. 3 Hours.
Provides for individual research culminating in a capstone exhibition, portfolio, paper or project with guidance from a capstone committee. Prerequisite:
ART 391 or consent of instructor. Co-requisite: ART 491 or consent of instructor. Student must be at junior or senior status before enrolling.

ART 494. Directed Research in the Studio Arts. 1-4 Hour.
This course provides flexible instruction in studio experiences at an advanced level. Consent of instructor. Variable credit 1-4.

ART 496. Study Tour. 1-6 Hour.
MSU faculty-led study trips to appropriate locations. The course requirements will include additional requirements beyond the travel itself and may be
repeated for credit.

ART 497. Art Internship. 1-12 Hour.
This course is offered for variable credit. It is an internship to gain further experience in student's selected option. Restricted to art majors and minors.

ART 499. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics. Prerequisite:
consent of instructor.

COMM Courses

COMM 099. Recitals. 0 Hours.
This is a zero credit course required of all communication arts majors and minors, and is required each semester in attendance. It is designed to
accumulate information about each student's required attendance at predesignated communication arts department recitals.

COMM 110. Fundamentals of Public Speaking. 3 Hours.
The theory and practice of public speaking with emphasis on topic selection, content, organization of material, language, methods of securing attention
and maintaining interest, delivery and critical evaluation of informative and persuasive messages. May not be used as part of communication arts major,
minor, or concentration.

COMM 120. Introduction to Broadcasting. 3 Hours.
Basic introduction to commercial and non-commercial broadcasting.

COMM 191. Freshman Seminar. 1 Hour.
Introduction to departmental requirements and opportunities. Pre-requisite: Communication major or minor.

COMM 210. Advanced Public Speaking. 3 Hours.
An advanced course in the art of oral discourse. Emphasis is placed on professional presentations, adapting to diverse audiences, logic, persuasion,
and rhetorical analysis. Prerequisite: COMM 110 or consent of instructor.

COMM 211. Communication & Popular Culture. 3 Hours.
Includes analysis of audience, occasion, subject, and speaker. Subject matter will include such media as movies, songs, television, humor, fashion,
public demonstration, advertisements, architecture, etc. Includes text readings, group discussion, analytical essays, and a critical paper and
presentation.

COMM 212. Interpersonal Communication. 3 Hours.
Introduces fundamental concepts of communication between individuals. Exploring aspects of self expression, relationship communication-how people
present themselves, and how others perceive them in return.
COMM 218. Public Relations Principles. 3 Hours.
An introduction to the theory and practice of public relations, emphasizing management functions, its publics, writing skills, communication process, tools, and professional ethics.

COMM 219. Mass Media and Society. 3 Hours.
Basic communication theory and its application to mass communication with emphasis on social, cultural, and political implication of the media.

COMM 220. Broadcast Advertising & Applications. 3 Hours.
This course will examine, through research and field experience, the fundamental elements of electronic advertising practices and applications. Students will learn success factors that increase the power of advertising through mass media. Restricted to sophomore, junior, and senior status.

COMM 221. PR & Media Writing. 3 Hours.
Introduction to basic writing skills in the field of public relations & the media. This is a writing intensive course. You will learn how to adapt message for various media & mediums. Specifically, you will learn to compose news releases, media advisories, internal communications information, and more. Active writing is a key component taught in this course. This course teaches students how to prepare professional public relations messages for print electronic media.

COMM 224. Social Media, Writing, and Design. 3 Hours.
Learn techniques used to capture readers' attention in online and print media while combining images and text to tell the story.

COMM 225. Audio Production I. 3 Hours.
Laboratory and lecture course with emphasis on the principles and techniques of radio production and programming.

COMM 226. Reporting and Feature Writing. 3 Hours.
Introduction to news gathering, judgment, writing, history, conventions, and style of the news story, the newspaper feature story, and the magazine article.

COMM 228. Reporting & Editing. 1 Hour.
Laboratory course in which class members work on the campus paper and attend staff meetings. Repeatable up to eight credits.

COMM 229. TV Activities. 1 Hour.
An opportunity for students to work on various projects that they will produce for on and off campus. Repeatable up to eight credits.

COMM 230. Radio Activities. 1 Hour.
An opportunity for students to work on various audio projects that they will produce for on and off campus groups. Repeatable up to eight credits.

COMM 235. Communication Arts Activities. 1 Hour.
The participation in a significant capacity in any communication arts activity above and beyond the requirements of a specific course. Repeatable up to eight credits.

COMM 236. Promotions Activities. 1 Hour.
The course provides students with an understanding of how to strategically plan promotions. Students are able to engage in real life events activities such as planning, marketing, advertising, production, writing, and more. Students are taught time management along side promotions. This course specifically directs students to have hands on experience within the Broadcasting Department. More directly, writing newsletters, promotions of channel 19, alumni relations, web site writing & creation, and advertising.

COMM 239. Sophomore Seminar. 1 Hour.
Study of communication (people, events, activities) as determined by student/professor consultation. Pre-requisite: Communication major or minor.

COMM 240. Internship. 1-2 Hour.
Hands-on experience in the discipline. Restricted to Communication majors or minor or consent of instructor.

COMM 249. Special Topics. 1-8 Hour.

COMM 311. Oral Interpretation. 3 Hours.
The study of literature for performance with emphasis on written and verbal analysis. The technique of performance applied to oral reading of literature.

COMM 315. Persuasion & Argumentation. 3 Hours.
An investigation of the structure, types, and tests of persuasive arguments with practical application through rhetorical analysis and speeches. Prerequisite: COMM 110 or consent of instructor.

COMM 316. Group Dynamics. 3 Hours.
Study of techniques of group discussion and small group theory with emphasis on participating in various types of discussion and conferences.

COMM 317. Rhetorical Theory. 3 Hours.
A study of the development of rhetorical standards and practices from ancient time to the present.

COMM 318. Organizational Communication. 3 Hours.
The course is a study of communication practices in organizations by examining organizational structure, leadership, teambuilding, and ethics. The course will include communication areas such as diversity, conflict, stress, and technology.

COMM 322. Media Sales and Analysis. 3 Hours.
A close up look at the business of broadcast advertising, including radio, TV, and cable.
COMM 323. Journalism History. 3 Hours.
Examination of the news gathering function of the mass media with special emphasis on press theory and the development of thought of freedom of expression.

COMM 324. Community Relations. 3 Hours.
This course examines current communication strategies used to establish and maintain contact with communities. Sects of society integrate communication differently and it's essential to a public relations practitioner to understand those levels of communication. This class explores a variety of ways to maintain community relations, focusing specifically on technology and social networking. Most importantly it informs students how to utilize community resources to promote strong community relations.

COMM 325. Campaigns and Strategies. 3 Hours.
This course will explore marketing, public relations, and advertising relationships in today's market. The textbook, classroom lectures, guest speakers, and assignments will build a solid foundation in the fundamentals needed to develop and implement campaigns and strategies in the field of public relations, advertising, and marketing. Prerequisites: COMM 218 and junior or senior status.

COMM 326. Media Announcing. 3 Hours.
Theories, practices, and techniques of "on-air" presentation will be the focus of this course. Students will develop the skills necessary to perform a variety of media announcing tasks. Students will study the techniques and styles required to perform as media newscaster, interviewers, program hosts, commercial and public service announcers. Prerequisite: COMM 120 or consent of instructor.

COMM 328. Play by Play Communication. 3 Hours.
Focuses on the theory and practice of electronic media sports coverage, with an emphasis on the role, skills and practice of radio and TV sports announcers and electronic sports media journalism. The class includes play-by-play broadcasts and a class project.

COMM 329. Sports Television Production. 3 Hours.
Professional sports media at an advanced level. Special topics in areas such as sports media production, announcing, performance and sports feature. The course will emphasize other performance situations, such as producing and anchoring radio and television sportscasts. After completing this course, students will be able to develop, write, pre-produce, produce, perform as talent and post-produce programming for broadcast sports media.

COMM 344. Investigative Reporting. 3 Hours.
This course is an introduction to the subject matter, techniques and ethics of investigative reporting. It will include such topics as secondary sources, primary documents, people sources, computer-assisted reporting, writing projects, accuracy and ethics. Prerequisite: COMM 244.

COMM 354. Special Events Planning. 3 Hours.
The course will introduce students to special events processes and techniques. Students will become knowledgeable about model workplace skills, leadership development, promotions, media relations, and production associated with an event. Site selection, program planning, and material development will be among other designations for the course.

COMM 360. Video Production I. 3 Hours.
Emphasis on the operation of video, audio, and editing equipment. Prerequisite: COMM 120.

COMM 361. Broadcast News Writing. 3 Hours.
Intensive survey and application of gathering, writing, and presenting.

COMM 362. Broadcast News Gathering. 3 Hours.
An introduction to the practical knowledge of basic electronic news gathering production techniques, as well as to learn to operate equipment associated with ENG. Students will learn the correct terminology and the basic formats of ENG. Prerequisite: COMM 360.

COMM 364. Communication for Educators. 3 Hours.
This course is designed for students pursuing an education or related degree. It will include the study of various communication opportunities faced by person in a profession educational setting.

COMM 388. Communication Arts Methods. 4 Hours.
Methods and materials for creative teaching of speaking, listening, and theatre and broadcast activities, in today's secondary school environment. Prerequisite: Admittance to Teacher Education.

COMM 390. Communication Arts Practicum. 1-3 Hours.
Student Internship with application of specialized speech techniques in broadcasting, theatre, or other areas of communication arts.

COMM 410. Advanced Problems. 3 Hours.
Courses beyond the present offerings on broadcasting, speech communication, and theatre arts. No more than three courses may be accrued.
COMM 412. Communication Law and Ethics. 3 Hours.
A study of the regulatory policies (federal, state, and municipal), history of free speech, the responsibility of the media, the responsibility of the individual as sender and receiver of messages, and ethical decision making in modern electronic and print media. The course will focus on current communications issues in social and workplace settings.

COMM 413. Gender Communication. 3 Hours.
Course designed to explore the theories surrounding differences and similarities in male and female communication. Focus on ways in which gender roles originated and are sustained in a variety of context including families, organizations, institutions, peer groups, the media, and interpersonal relationships. Prerequisites: COMM 110 and junior or senior status.

COMM 425. Crisis Communication. 3 Hours.
This course develops the public relations practitioner from a theoretical and professional approach. Students will learn how to incorporate grounded theory into crisis management plans. This course develops the research base focusing on fundamental case studies within the field in order to develop a proactive approach to crisis management. Students will learn how to use an ethical framework when engaging communities, organizations or the society at large before, during and after a crisis situation. Prerequisite(s): COMM 218.

COMM 460. Advanced TV and Social Media Production. 3 Hours.
Use of TV video, audio, and editing equipment in various news and commercial applications. Prerequisite: COMM 360.

COMM 475. Broadcast Production. 1-3 Hour.
The operations, techniques, and practices of broadcast production. Activities include originating, acquiring, organizing, and assembling news segments into a complete television program. Can be repeated for up to eight credits. Prerequisite: COMM 360.

COMM 492. Senior Portfolio. 1 Hour.
In this course, students will present their final portfolios prior to graduation. The portfolio will be compiled throughout the student's academic career and include professional quality elements for the student to market him/herself to potential employers. Portfolios may include coursework and/or work from an internship. Prerequisite: COMM 099.

COMM 497. Broadcast Practicum. 4 Hours.
Internship in the mass communication field allowing the students to put into practice, in a professional setting, those techniques and theories learned in their coursework. Prerequisites: Completion of 40 credits in communications with a 2.75 GRA in major.

COMM 499. Special Topics. 1-8 Hour.

ENGL Courses

ENGL 110. College Composition I. 3 Hours.
Guided practice in college-level reading, writing, and critical thinking. Emphasis on writing processes, and on approaches to critical reading. Does not apply toward the English major. Prerequisite: Students must complete ASC 87 with a C or higher, have an ACT English test score of at least 18, an SAT Reading & Writing score of at least 480, an ACCUPLACER test score of at least 5, or a PLAN test score of at least 15.

ENGL 111H. Honors Composition I. 3 Hours.
The first course in the honors curriculum, ENGL 111 takes the place of ENGL 110 and, if the student continues in the Honors Program, COMM 110 is required of all Honors Students earning a BSE degree. The course is reading intensive and encourages intellectual independence. Admission to the Honors Program is not a prerequisite, but ACT scores of 25 in reading and writing are required. Does not apply to the English major.

ENGL 120. College Composition II. 3 Hours.
Advanced practice in college-level writing from sources and in applying rhetorical strategies. Emphases in rhetorical strategies and incorporating research in academic writing. Does not apply toward the English major. Prerequisite: ENGL 110.

ENGL 121H. Honors Composition II. 3 Hours.
The second course taken in the honors curriculum. Replaces ENGL 120 in the general education program. Independent research and writing focuses in a rigorous study of literature. Prerequisites: ENGL 110 or 111H; admission to Honors Program or permission of the Honors Director. Does not apply toward the English major.

ENGL 191. English Community Seminar. 1 Hour.
This course is designed to be taken the spring following a student's declaration of an English or English Education major. The community seminar is an introduction to the English community at Minot State. Students will learn the many different areas of research within the field of English studies, become aware of club and academic opportunities within the department, and practice community building. Prerequisite: Students must be an English or and English Education major before enrolling in this course.

ENGL 209. Introduction to Linguistics. 3 Hours.
Enter level knowledge for the scientific study of language, including such topics as phonology, semantics, grammar, and related cultural history.

ENGL 211. Introduction to Creative Writing. 3 Hours.
Study and practice in writing techniques and strategies employed by writers in various genres, including fiction/creative nonfiction/poetry/teleplay/drama. Focus on developing skills in manipulating point of view, creating figurative language, writing realistic dialogue, developing themes and characters, and honing style to suit various audiences and genres. Read for craft by examining and analyzing the work of successful writers in various genres.
ENGL 220. Introduction to Literature. 3 Hours.
Reading and discussion of literary forms such as the short story, the novel, poetry, and drama, with emphasis on common literary terminology. Does not count toward the English major/minor.

ENGL 225. Introduction to Film. 3 Hours.
Introduction to the aesthetic, technical, and social significance of selected films, with emphasis on understanding basic film vocabulary and narrative structure. Four studio hours per week.

ENGL 227. Survey of Creative Nonfiction. 3 Hours.
This introductory survey course provides exposure to reading and analyzing a variety of creative nonfiction including reportage, criticism and commentary, memoir, and the personal essay to explore how the genre can be both honest and creative. Students will examine the use of voice, subjectivity, emotion, speculation, memory, humor, imagination, and the complicated idea of truth in nonfiction literature in its various forms, and discuss how nonfiction is conceived and constructed.

ENGL 231. Bible as Literature. 3 Hours.
Study of the Bible from a literary point of view.

ENGL 231H. Bible As Literature. 3 Hours.

ENGL 232. World Mythology. 3 Hours.
The study of representative myths, legends, and folklore from various cultures with emphasis upon the literary aspects of myth.

ENGL 238. Children's Literature. 3 Hours.
Introductory study of picture books and poetry: folk tales, fairy tales, myth, and legend; modern fiction, both realistic and imaginary, historical fiction, and biographical and informational books for children.

ENGL 240. World Literature. 3 Hours.
Study of diverse and significant literary texts in a variety of genres from antiquity to the present from a wide variety of cultures and nationalities in terms of their aesthetic quality, cultural values, and historical periods.

ENGL 251. Foundations in Brit Lit I. 3 Hours.
A survey of British literature from the Anglo Saxon period through the 18th century. Prerequisite: ENGL 110.

ENGL 252. Foundations in Brit Lit II. 3 Hours.
A continuing survey of British literature from the Romantic period to the present. Prerequisite: ENGL 110.

ENGL 261. Foundations in Am Lit I. 3 Hours.
A survey of American literature from the pre-Colombian aboriginal literature through the mid-nineteenth century. Prerequisite: ENGL 110.

ENGL 262. Foundations in Am Lit II. 3 Hours.
A survey of American literature from the mid-nineteenth century to the present. Prerequisite: ENGL 110.

ENGL 265. Native American Literature. 3 Hours.
The study of Native American Indian legends, poems, and stories with emphasis on contemporary writings.

ENGL 270. Introduction to Literary Criticism. 3 Hours.
The study of methods and assumptions of literary criticism, the reasons for and values of literary studies, and the formal academic discourse employed in English. Course serves as an introduction to the English major. Prerequisite: ENGL 110.

ENGL 299. Special Topics. 1-8 Hour.

ENGL 311. Contemporary American Poetry. 3 Hours.
This course explores the most exciting developments in American poetry from 1950 until the present. We will consider a wide array of poetic movements-the Beats, the New York School, Confessionalism, the San Francisco Renaissance, The Black Mountain group, the New Formalists, and the Language poets-in order to understand the aesthetic tendencies that inform American poetries being written today. In particular, we will examine key individual poets through close readings of their most exemplary work and how that work is emblematic of the social and historical milieu in which the poems were written.

ENGL 315. Profes and Tech Writing. 3 Hours.
Concentrated instruction and practice in technical and job-related expository writing.

ENGL 317. Teaching Writing. 3 Hours.
Study of methods of teaching writing with emphasis on contemporary theories. Prerequisite: ENGL 120.

ENGL 318. Writing Tutor Training. 1 Hour.
The course covers practices and theories for tutoring writers. Content includes the composing process, diagnosing problems, establishing rapport, managing research and helping with second language needs. Prerequisite: ENGL 120.

ENGL 318L. Supervised Writing Tutoring. 0 Hours.
Supervised tutoring experience in the Writing Center (20 hours). Prerequisites: Student must complete ENGL 110 and 120 with a grade of C or better. Prerequisite or Corequisite: be enrolled or have completed ENGL 318 before enrolling in this class.
ENGL 321. Topics in Creative Writing. 3 Hours.
This themed, team-taught creative writing course allows students further practice across genres of creative writing before entering advanced, genre-specific workshop courses. Themes and topics will change yearly to inspire students to explore new writing styles within the discipline and also gain exposure to diverse voices in poetry, fiction, and creative nonfiction.

ENGL 322. Am Dialects in Lit and Media. 3 Hours.
Examines American regional dialects (e.g. African American English, Chicano English, Appalachian English) and how those dialects are represented in literature and media. Students will explore the history, development, and linguistic features of various dialects, then they will read literature and watch films that make us of those dialects. Students will evaluate the effects of authentic and stereotypical representations of dialects on audience with an eye to exploring how these representations reflect attitudes towards dialects in America.

ENGL 324. Rhetoric of Everyday Life. 3 Hours.
This course is an introduction to modern rhetorical theory and the application of mid to late twentieth-century theories in analyzing, exploring, and interpreting our everyday experiences. In this course, students will continue the ongoing conversations of how we are influenced by the persuasive messages (written and performed) surrounding us in our cultures through rhetorical theories and how our personal histories influence the messages we receive.

ENGL 326. American Apocalyptic Lit. 3 Hours.
This course traces apocalyptic literature in the Americas from the Spanish explorers and Puritan settlers through to the twenty-first century. Students will read literature in a variety of genres and explore how both imagery and narrative tactics are critical in apocalyptic literature. Students will also explore how apocalyptic literature has indelibly marked American culture, politics, and social rhetoric. This course is a literary and cultural study course, not a religion or theology course.

ENGL 329. Coming of Age Literature. 3 Hours.
Students will discuss films and novels in which the main characters grow up. The texts' themes may include, but are not limited to, acculturation, appearance and reality, crime and punishment, death ecology, education, emotional and physical change, friendship, gender roles, human sexuality, individuals and institutions, individuals and society, love, race and ethnic relations, search for meaning, and spirituality. Students will select some of the texts through class vote.

ENGL 331. Ethnicity and Identity Search. 3 Hours.
The identity struggle that persons of specific ethnic backgrounds encounter in their cultural contexts. Texts (including films) and topics may vary and the ethnic focus may either be comparative or selective.

ENGL 334. Film Directors. 3 Hours.
According to the auteur theory, some directors are the dominant creators of their films. In the seminar we'll read selected materials about several major directors, view several films by each director, and identify and discuss the recurrent patterns, techniques, and meanings that are the directors' individual signatures.

ENGL 335. Film Genres. 3 Hours.
Films are commonly classified into broad categories, or genres, including action, war, western, comedy, science fiction, mystery/suspense, horror, drama, and family. In this seminar we'll discuss aesthetic conventions, content, cultural contexts, and socio-historical significance of films in three genres. We'll view nine or ten major films in total and we'll read selected materials.

ENGL 338. Topics in Adolescent Lit. 3 Hours.
Literature written for teenagers (ages fourteen through eighteen) is uniquely positioned because it addresses the emotional and social issues and fears unique to adolescence. In this course, students will read a variety of literature written for teens and through this literature, explore topics such as race, family, technology, and coming of age. Specific topics will vary each time the course is offered, but students will explore how writers attempt to address the concerns and problems of adolescents in an increasingly complex society.

ENGL 339. Topics in African Lit. 3 Hours.
The enormous effects of cultural change upon the Dark Continent will be studied through post-colonial African writers ranging from Chinua Achebe to V.S. Naipul. The course will continue with a study of contemporary African authors and literature.

ENGL 342. Gendered Literature. 3 Hours.
This course will explore through literature how gender intersects with other identity categories such as sex, class, sexuality, and race in shaping authorship, reading, and representation. Course materials will span time periods, cultures, and countries to investigate an array of experiences that interrogate concepts of gender. Through the course of the semester, students will explore the gender continuum, covering hegemonic masculinity, exaggerated femininity, and all the shades in between.

ENGL 343. Graphic Novels as Lit. 3 Hours.
Graphic novels have been labeled as "comics" and "pop" culture, unworthy of study; however, graphic novels are rising in popularity and prestige in this course, students will explore the evolution of the graphic novel, from its earliest forms through the present day, including stand alone novels and retellings of classical literature. Students will examine the ways in which artwork, narration, and dialogue interact to produce a hybrid piece of literature and will have the opportunity to write their own graphic novel manuscripts.
ENGL 345. American Noir. 3 Hours.
What used to be considered a sub-genre of detective or crime fiction, noir is more and more understood as a sub-genre of American modernism. Criminal and other "outsider" activity or behavior often drives the plot of noir fiction and film; however, this literature serves as the vehicle by which we can understand issues central to modern and contemporary (and literary) American life - issues such as class, race, gender, sexuality, sense of place, and/or belonging, moral codes, psychological well-being, achievement and success, and narrative style. Noir, then, develops and modifies popular literary and cultural formulas to address genuine social and aesthetic problems, and thus deserves the intense, focused analysis of this literature course.

ENGL 348. Language Arts for the Writer. 3 Hours.
The craft of writing with style is developed through the study of language arts and the close reading of a writer’s (or writers’) use of words, sentences, paragraphs, narration, characters, dialogue, details, and gestures. Personal selection of a writer by students.

ENGL 349. Chinese and Japanese Literature. 3 Hours.
This course will explore significant developments in Chinese and Japanese literature and art, as well as like developments amongst Asian minority groups, all discussed in their relationship to the literature of our own time and place. Includes works by Chinese T’ang poets and the creators of Japanese Noh Theater, among others.

ENGL 350. Literature of the Last Twenty Years. 3 Hours.
In this course students will read a selection of text written in the last twenty years in order to explore the place of recent text and literary trends within the study of literature. The course will offer a global perspective by featuring text from across the English speaking world. Students will think critically about the types of literature they have seen being widely distributed, adapted, and read during their lifetimes.

ENGL 355. Age of Shakespeare. 3 Hours.
Study of representative works of Shakespeare. Prerequisite: ENGL 110.

ENGL 357. Studies in Nineteenth Century American Literature and Culture. 3 Hours.
This course explores American literature of various kinds from the Revolutionary period, through slavery and Reconstruction, until the first wave of feminism (roughly 1770-1900). As literature reflects cultures, concerns, and issues, this textual study will allow readers multiple perspectives on struggles and triumphs throughout the period.

ENGL 358. Literature of the Upper Great Plains. 3 Hours.
Students will explore literature written in first-person about experiences of settling and of homesteading in the Upper Great Plains. Other accounts will be from children's perspectives of that was produced years after the fact. While much of the literature will be realism, some fiction will also be read for contrast. Students will compare accounts written by women and men, between Canada and Nebraska, between early nineteenth century and late twentieth century.

ENGL 359. Literature of the Wild. 3 Hours.
This course not only provides students with a focused way of examining how American nature writers have framed human interactions with the natural environment and how these writings are relevant to current ecological problems and issues, but it also asks that they inquire how cultural values have shaped our definitions of nature, our perceptions of and relationships to the natural environment, and our political priorities relative to the kinds of environmental problems and solutions that we address in the United States.

ENGL 360. Love, Lust, and Loss in Western Literature: The Pastoral, Elegiac, and Courtly Traditions. 3 Hours.
This course explores the development of literary traditions of love of Ancient Greece and Rome, Medieval, Renaissance, and Romantic English Literature, and its pertinence to love traditions of our own time. The course further considers two interesting corollaries of the literary love traditions: strange sex and weird spirituality.

ENGL 363. Magical Realism. 3 Hours.
Magical realism is a loosely defined and broadly descriptive genre in which natural laws are occasionally stretched or ignored. In this course students will explore the genre's range and variety. The reading and viewing lists will emphasize Mexican and Latin American novels and films. Students will explore the themes, characteristics, objectives, and attitudes of magical realism in order to better understand the genre's focus on the mysteriousness or everyday real.

ENGL 365. Media English. 3 Hours.
Methods for incorporating the production, editing, and publishing of computer-based media into the English classroom are developed by using computer graphics, video recorders, Google docs, pods, blogs, social networks, and other net tools.

ENGL 367. Media Literacy. 3 Hours.
In order to address the increasingly visual and digital demands of our culture and the citizen it produces, this course will explicitly deal with the dissemination of information and culture via different forms of popular media. Based on the idea that everything produced by our culture is readable text, students will read and produce both traditional and non-traditional texts in a variety of media. Students will also explore how different media changes, how we process information and the impact they have on important concepts such as identity, self, culture, community, authority, and argument.

ENGL 368. Place in Detective Fiction. 3 Hours.
From Sam Spade's San Francisco to Spenser's Boston to V.I. Warshawski's Chicago, place plays a huge role in the detective novel, often becoming a character itself. This course will examine the role of place, both real and invented, in detective novels and films. Students will read detective fiction and watch several films and through this, they will examine how the place in which a detective operates affects the unfolding of the mystery and the detective's attempts to find out "whodunit.".
ENGL 373. World Drama. 3 Hours.
Study of diverse and significant dramatic texts from antiquity to the present from a wide variety of cultures and nationalities in terms of their aesthetic quality, cultural values, and historical periods.

ENGL 374. Reading the Built Environment. 3 Hours.
With over three-quarters of America's population now living in cities, the dynamic between humans and the environment has shifted away from the natural to the built. This course will explore the varied interactions between cities/towns and the people who live there. Students will read literary and spatial texts in order to challenge the definition and experience of community and how it changes and adapts depending on the built environment that surrounds it - the spaces where cities bleed into one another, where nature has reasserted itself within the city, or where previously vibrant small towns and city centers stagnate.

ENGL 376. The American Century: American Literature and Culture in the Twentieth Century. 3 Hours.
In this course, students will read literature produced by twentieth-century American writers, and through it explore issues of race, class, gender, and region or place. Students will also study the critical theories and aesthetic movements associated with the terms modernism and postmodernism. Students will also investigate how literature and culture intersect and inform one another.

ENGL 378. The Modernists. 3 Hours.
This course examines that crazy experimental time in early twentieth century arts and letters when the idea of form explodes, creating all kinds of new literary and aesthetic models that changed our world. Includes works by T. S. Eliot, Gertrude Stein, William Butler Yeats, Virginia Wolf, Henry Green, Ezra Pound, and others, situated in the historic context of the two World Wars.

ENGL 383. Topics in Black American Literature. 3 Hours.
This course includes both fiction and non-fiction with readings from oral traditions and slavery to that of the nineteenth and twentieth centuries. Topics may focus on slavery, legal cases, migrations, language (dialect to rap) or other topics. We will explore the relationships between Black Americans and hegemonic groups, and the impact of African-Americans/Blacks upon the people and cultures of America.

ENGL 385. Tracking the Sword in the Stone: Arthurian Legend Then and Now. 3 Hours.
This course examines the development of Arthurian Legend from its sixth century British origins through the European Middle Ages and unto the present day, for Arthur, they say, is still among us.

ENGL 389. Warriors, Marchers, and Martyrs. 3 Hours.
The literature of collisions are studied, whether those collisions are political, military, cultural, racial, economic, religious, environmental, gendered, or sexual oppressions or crises. Texts (including films) and topics may vary.

ENGL 390. Secondary Language Arts Methods. 4 Hours.
Theory and practice in teaching literature, composition, and language in the secondary school. Includes practicum. Prerequisite: Admission to Teacher Education.

ENGL 391L. Junior Research Lab. 0 Hours.
This course is designed to be completed the spring semester prior to Senior Seminar (ENGL 491). In this research seminar, students will begin the research process for their senior seminar paper, select a second reader within the English department, and craft a research proposal and annotated bibliography pertaining to their research paper for Senior Seminar. Prerequisite: Students must be an English or an English Education major before enrolling in this course.

ENGL 397. Internship. 1-6 Hour.
Hands-on experience in the discipline. Placement determined at time of internship. May be repeated as desired. Prerequisite: Restricted to students who are English or English Education majors.

ENGL 399. Special Topics. 3 Hours.
ENGL 400. Studies in British Literature. 3 Hours.
Advanced study in themes, authors, genres within British Literature. Faculty teaching the course will provide sub-title descriptors for registration and transcription.

ENGL 401. Studies in American Literature. 3 Hours.
Advanced studies in various themes, authors, genres of American Literature.

ENGL 402. Studies in Literature and Culture. 3 Hours.
Advanced study in various themes, authors, genres in Literature and culture, to include World Literature.

ENGL 410. Fiction Workshop. 3 Hours.
Concentrated instruction and practice in writing fiction.

ENGL 411. Poetry Workshop. 3 Hours.
Concentrated instruction and practice in writing poetry.

ENGL 412. Creative Nonfiction Workshop. 3 Hours.
Concentrated instruction and practice in writing creative nonfiction.
ENGL 430. Advanced Seminar in Literature. 3 Hours.
Intensive exploration of selected literary texts and topics. May include literary and nonliterary cultural texts and genres, historical periods, oral and written forms, dramatic texts, the roles of audience, gender, class, nationalism and/or other social relations. Maybe repeated for credit as content changes. The seminar method will be used as the organizational norm for the class. In this method, students can expect to lead class discussions and openly critique the work of others in the class. Prerequisite: Students must complete ENGL 110 and ENGL 120 before enrolling in this course.

ENGL 435. Major Writers. 3 Hours.
Intensive study of selected literary works by major authors. Authors and selections will vary from semester to semester. Prerequisites: ENGL 120 and one 300-level English course or consent of instructor. May be repeated for credit as content changes.

ENGL 470. Advanced Seminar in Literary Criticism. 3 Hours.
Intensive exploration of one school (or related schools) of modern literary theory. Focus will be on primary works of criticism, not literature. May repeat for credit as content changes. Prerequisite: ENGL 270.

ENGL 491. Senior Seminar. 3 Hours.
In-depth study of literary issues. Serves as capstone course for English degree. Prerequisites: ENGL 120, 191, 391, and senior status. Course restricted to majors.

ENGL 494. Independent Study Honors Eng. 1-8 Hour.

ENGL 496. Study Abroad. 1-6 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count toward English major/minor/BSE.

ENGL 497. Internship. 4-12 Hour.
Hands-on experience in the discipline. Placement determined at time of internship. May be repeated as desired. Prerequisite: Restricted to students who are English or English Education majors or have the consent of the instructor.

ENGL 499. Special Topics. 1-8 Hour.

FREN Courses

FREN 101. Beginning French I. 3 Hours.
For beginners or those entering with one or two years of high school French. Introduction to listening, speaking, reading, writing, and culture.

FREN 102. Beginning French II. 3 Hours.
A continuation of Beginning French I. Prerequisite: FREN 101.

FREN 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of French. Pre-requisite: French or French Education major or minor.

FREN 201. Intermediate French I. 3 Hours.
Review of basic French with increased practice in conversation, reading, and writing. Prerequisite: FREN 102, three years of high school French or consent of instructor.

FREN 202. Intermediate French II. 3 Hours.
Continuation of FREN 201. Prerequisite: FREN 201.

FREN 220. French Film. 3 Hours.
An exploration of socio-cultural, historical, and political issues in French film. Supplementary readings on modern French art and literature in English translation. Taught in English.

FREN 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the French or French Education major or minor.

FREN 299. Special Topics. 1-8 Hour.
Varying areas of content, issues, or themes in the study of French language, literature, culture, and civilization. Repeatable for credit as topics change.

FREN 304. Introduction to French Literature. 3 Hours.
Designed to improve language skills with an emphasis on reading and to enhance the student's ability to understand literature. Includes study of poetry, drama, and narrative from the French-speaking world. Prerequisite: FREN 202 or consent of instructor.

FREN 340. Conversation & Composition I. 3 Hours.
The first of a year long sequence focusing on advanced practice in oral and written skills using cultural readings and other media. Prerequisite: Student must complete FREN 202 before enrolling in this class.

FREN 341. Conversation & Composition II. 3 Hours.
The second of a year long sequence focusing on advanced practice in oral and written skills using cultural readings and other media. Prerequisite: Students must take FREN 202 or consent of instructor before enrolling in this class.

FREN 343. Contemporary Culture of the French-Speaking World. 3 Hours.
Readings in culture and society from the French-speaking world.
FREN 394. Independent Study. 1-8 Hour.
Independent or directed study of special topics in the study of French. Pre-requisite: French or French Education major or minor.

FREN 395. Service Learning. 3 Hours.
Student will utilize reflection and research (both primary and secondary) to integrate (a) personal community or global service experience(s). Pre-requisite: French or French Education major or minor.

FREN 399. Special Topics. 1-8 Hour.
Varying areas of content, issues, or themes in the study of French.

FREN 401. Advanced Topics in French. 3 Hours.
Topics will vary from year to year depending on student backgrounds and needs.

FREN 402. Genres or Periods French Literature. 3 Hours.
Study of a major genre or period in French literature. Topics varies from year to year.

FREN 403. Senior Thesis In French. 3 Hours.

FREN 450. Senior Capstone Project in French. 3 Hours.
Individual research project on a cultural topic approved by the instructor on semester prior to enrollment in the course. Course is restricted to majors.

FREN 496. Study Tour. 1-18 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyound travel itself. May be repeated for credit. May count towards the French minor.

GERM Courses

GERM 101. Beginning German I. 3 Hours.
For beginners or those entering with one or two years of high school German. Introduction to listening, speaking, reading, writing, and culture.

GERM 102. Beginning German II. 3 Hours.
A continuation of Beginning German I. Prerequisite: GERM 101.

GERM 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of German. Pre-requisites: German or German Education major or minor.

GERM 201. Intermediate German I. 3 Hours.
Review of basic German with increased pratice in conversation and reading. Prerequisite: GERM 102, three years of high school German, or consent of instructor.

GERM 202. Intermediate German II. 3 Hours.
Continuation of GERM 201. Prerequisite: GERM 201.

GERM 220. German Film. 3 Hours.
An exploration of socio-cultural, historical and political issues in non-mainstream German film. Supplementary readings on modern German art and literature in English translation. Includes a cross-cultural unit on censorship in the arts during the cold war. Taught in English.

GERM 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the German or German Education major or minor.

GERM 299. Special Topics. 1-8 Hour.

GERM 340. Conversation & Composition I. 3 Hours.
This is one of a pair of courses focusing on advanced practice in oral and written skills using cultural reading and other media. Prerequisite: Student must complete GERM 202 or have the consent of the instructor before enrolling in this class.

GERM 341. Conversation & Composition II. 3 Hours.
This is one of a pair of courses focusing on advanced practice in oral skills using cultural readings and other media. Prerequisite: Student must complete GERM 202 or have the consent of the instructor before enrolling in this class.

GERM 342. Introduction to German Literature. 3 Hours.
Designed to improve language skills with an emphasis on reading and to enhance the student's ability to understand literature. Includes study of poetry, drama, and narrative from the German-speaking world. Prerequisite: Student must complete GERM 202 or have consent of the instructor before enrolling in this class.

GERM 343. German Culture. 3 Hours.
Readings in culture and society from the German-speaking world.

GERM 394. Independent Study. 1-4 Hour.
Independent or directed study of special topics in the study of German.

GERM 395. Service Learning. 3 Hours.
Students will utilize reflection and research (both primary and secondary) to integrate (a) personal community or global service experience(s). Pre-requisite: German or German Education major or minor.
GERM 399. Special Topics. 1-3 Hour.
Varying areas of content, issues, or themes in the study of German. Pre-requisite: German or German Education major or minor.

GERM 421. Advanced Topics In German. 3 Hours.

GERM 423. Senior Thesis In German. 3 Hours.

GERM 441. Periods in German Literature. 3 Hours.
Study of major genre or period in German literature. Topic varies from year to year. Prerequisite: Students must complete GERM 342 before enrolling in this course.

GERM 450. Senior Capstone Project In German. 3 Hours.
Individual research project on a cultural approved by the instructor on semester prior to enrollment in the course. Course restricted to majors.

GERM 496. Study Tour. 1-18 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. May count towards the German or German Education major or minor.

GERM 499. Special Topics. 1-4 Hour.
Topics will vary from year to year depending on student backgrounds and needs.

GS Courses

GS 225. Intro to Gender/Women's Studies. 3 Hours.
This course provides a general introduction to the wide array of historial, social, economic, and philosophical topics usually included within the boudaries of gender studies, and the methods used to analyze society and culture. Considers the differences between sex and gender by examining the relationships among nature, and masculinity, students will examine the patriarchal structure, feminism, non-hetero-normative sexualities, sexism, and various categories of generated existence. An interdisciplinary collection of texts from literature and theory, social sciences, psychology, pop culture, and film will be utilized.

GS 294. Independent Study. 1-3 Hour.
Directed topics of study.

GS 299. Special Topics in Gender/Women's Studies. 1-6 Hour.

GS 397. Internship: Medieval Fem Forum. 1-3 Hour.
Hands-on experience assisting with the production, editing, and distribution of an international feminist scholarly journal. Admission by application only. May repeat for credit.

GS 494. Independent Study. 1-3 Hour.
Directed topics of study.

GS 499. Special Topics in Gender/Women's Studies. 1-6 Hour.

HUM Courses

HUM 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of humanities.

HUM 210. Research Strategies. 2 Hours.
Both practical and theoretical in scope, this class is designed to help students become full participants in our Information Society. This class uses a mixture of lecture, in class discussion, hands on assignments, and written research project to give the student the technical skills and critical thinking abilities they need to use the printed and electronic information resources found in libraries and on the Internet.

HUM 251. Humanities. 3 Hours.
Integrated course in art, literature, and music from the Stone Ages through the Early Middle Ages.

HUM 252. Humanities. 3 Hours.
Integrated course in art, literature, and music from the Gothic Period through the Seventeenth Century.

HUM 253. Humanities. 3 Hours.
Integrated course in art, literature, and music from the Eighteenth Century to the Modern Era.

HUM 254. Non-Western Humanities. 3 Hours.
An integrated survey of the art, literature, philosophy, and history of a particular non-western culture. The specific culture studied from year to year will vary bur could rotate among Japanese, African, pre-Columbian American, Chinese, or Indian. May be repeated for credit.

HUM 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the Humanities minor.

HUM 299. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics. Prerequisite: Consent of instructor.
HUM 394. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of humanities.

HUM 399. Special Topics. 1-3 Hour.
Varying areas of content, issues, or themes in the study of humanities.

HUM 496. Study Tour. 1-6 Hour.
MSU faculty-led study trips to appropriate locations. The course requirements will include additional requirements beyond the travel itself and may be repeated for credit.

HUM 499. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics. Prerequisite: Consent of instructor.

LANG Courses

LANG 95. Foreign Language Experience. 0 Hours.
This is a service course in which students could use their language skills by tutoring in the schools, volunteering in the courthouse and hospitals, or presenting language lessons in the nursing homes with songs and parties.

LANG 101. Beginning Classical Greek I. 4 Hours.
Introduction to the language of the ancient Greek world. Students will learn a substantial amount of vocabulary as well as key morphological and syntactic constructions. Throughout, students will be exposed to snippets from authors ranging from Plato and Sophocles to Homer and Aristophanes. There will also be occasional forays into Mycenaean Greek and epichoric inscriptions.

LANG 104. Native Languages of America. 3 Hours.
This is an introduction to linguistic analysis using the languages native to North America as our template. Students will examine particular languages with an eye towards their sounds, word forms, and word order. Additionally, students will observe the historical development and cultural significance of particular native languages. Languages native to North Dakota such as Hidatsa, Mandan, Arikara, Lakota, Nakota, Dakota, Chippewa, and Cree will be highlighted.

LANG 105. Writing Systems. 3 Hours.
A history of the principle writing systems of the world and a discussion of how they work. In addition to studying cuneiform, Egyptian hieroglyphs, Chinese characters, Japanese kana and kanji, Korean hangul, Mayan glyphs, Hindi's devanagari, Linear A and B, Cree's alphasyllabary, Russian's cyrillic, Cherokee's syllabary, Hebrew and Arabic's consonantal writing systems, ample time will be spent tracing the history and development of the Roman alphabet's individual letters.

LANG 206. Latin and Greek in Scientific Terminology. 1 Hour.
This course familiarizes students with the Latin and Greek building blocks which are so fundamental to much terminology in the natural sciences. The morphological structure of Latin and Greek words will be explored as will the semantic ranges of the most common and useful affixes and roots.

LANG 298. Syntax & Morphology. 3 Hours.
To introduce ESL (English as a Second Language) students to the richness of English affixes as well as to the rules of sentence formation. Specifically: 1.

LANG 299. Special Topics. 1-8 Hour.

LANG 390. Foreign Language Methods. 4 Hours.
Practical Methods for teaching foreign languages. Examines theories of second language acquisition and research in effectiveness of various teaching strategies. Includes a 60 hour practicum in high school classes with some practice teaching. This course is limited to and required of foreign language majors and minors in the BSE program. Does not count towards the residency requirements for the FL BSE major or minor. Prerequisite: Admission to Teacher Education or department consent.

LANG 394. Independent Study General Lang. 1-4 Hour.

LANG 404. TA Foreign Language Seminar. 3 Hours.
This course is designed to provide structure to the experience of teaching foreign languages as a Fulbright Language Teaching Assistant (FLTA).

LANG 451. Study Abroad Recap. 1-6 Hour.
After completing a significant period of immersion in the target culture, students take this course at Minot State University the semester upon returning. The foreign language faculty assist students in reflecting upon their study abroad experience while narrowing down topics for a senior capstone. This course is restricted to declared FL BA/BSE majors and minors. It does not count towards the residency requirement for the FL BA/BSE major or minor; exceptions by department consent. This is taken at Minot State University the semester after returning from study abroad. Prerequisite: Restricted to students who are Foreign Language majors.

LANG 499. Special Topics. 1-8 Hour.

LAT Courses

LAT 101. Beginning Latin I. 3 Hours.
Introduction to the grammar and language of the Roman Empire with emphasis on Latinate words surviving into English. Throughout, students will be exposed to snippets from real Latin authors, e.g. Caesar, Vergil, Cicero, Ovid.
LAT 102. Beginning Latin II. 3 Hours.
A continuation of Latin 101 with an introduction to more advanced grammar topics such as the subjunctive, indirect discourse, conditional sentences, and the supine. Increasingly more advanced literary texts are also introduced.

LAT 201. Intermediate Latin I. 3 Hours.
A continuation of Latin 102 with primary focus on reading prose. Reading selections will come from Caesar's "Gallic Wars", Cicero's "Pro Caelio", Augustus' "Res Gestae", Suetonius' "The Twelve Caesers", and portions of Jerome's Vulgate Bible. Prerequisite: Student must complete Latin 102 before enrolling in this class.

LAT 202. Intermediate Latin II. 3 Hours.
To continue in the reading of original Latin prose authors such as Cicero, Caesar, Tacitus, and Suetonius as well as to explore the works of various poets such as Vergil, Horace, and Catullus. A final portion of the class will offer an overview of the development of the Latin language into the Romance languages. Prerequisite: Students must complete Latin 201 before enrolling in this course.

SPAN Courses

SPAN 101. Beginning Spanish I. 3 Hours.
For beginners or those entering with one or two years of high school Spanish. Introduction to listening, speaking, reading, writing, and culture.

SPAN 102. Beginning Spanish II. 3 Hours.
A continuation of Beginning Spanish I. Prerequisite: SPAN 101.

SPAN 120. Basic Spanish for Travel and Business. 3 Hours.
This course is designed to help students attain basic business conversation skills in Spanish. It will also provide a broad introduction to Spanish grammar and also cultural insight to business practices in the Spanish speaking world. Current events and topics related to the Hispanic World will also be discussed.

SPAN 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of Spanish. Pre-requisite: Spanish or Spanish Education major or minor.

SPAN 201. Intermediate Spanish I. 3 Hours.
Review of basic Spanish with increased practice in conversation, reading, and writing. Prerequisite: SPAN 102, three years of high school Spanish, or consent of instructor.

SPAN 202. Intermediate Spanish II. 3 Hours.
Continuation of SPAN 201. Prerequisite: SPAN 201.

SPAN 220. Hispanic Cinema. 3 Hours.

SPAN 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the Spanish or Spanish Education major or minor.

SPAN 299. Special Topics. 1-8 Hour.
Varying areas of content, issues, or themes in the study of Hispanic language, literature, culture, and civilization. Repeatable for credit as topics change.

SPAN 340. Conversation & Composition I. 3 Hours.
Advanced practice in oral and written skills using cultural readings and other media. Prerequisite: Student must complete SPAN 202 or have the consent of the instructor before enrolling in this class.

SPAN 341. Conversation & Composition II. 3 Hours.
This is one of a pair of courses focusing on advanced practice in oral and written skills using cultural readings and other media. Prerequisite: Student must complete SPAN 202 or have the consent of the instructor before enrolling in this class.

SPAN 342. Introduction to Hispanic Literature. 3 Hours.
Designed to improve language skills with an emphasis on reading and to enhance the student's ability to understand literature. Includes study of poetry, drama, and narrative from the Spanish speaking world. Prerequisite: SPAN 341 or consent of instructor.

SPAN 343. Contemporary Hispanic Culture. 3 Hours.
Readings in culture and society of the Spanish speaking world.

SPAN 394. Independent Study. 1-4 Hour.
Independent or directed study of special topics in the study of Spanish. Repeatable for credit as topics change.

SPAN 395. Service Learning. 3 Hours.
Students will utilize reflection and research (both primary and secondary) to integrate (a) personal community or global service experience(s). Prerequisites: Spanish or Spanish Education major or minor.

SPAN 399. Special Topics. 1-8 Hour.
Varying areas of content, issues, or themes in the study of Spanish.
SPAN 441. Hispanic Literature. 3 Hours.
Survey of the literature of the Spanish speaking world. Prerequisite(s): SPAN 342 or consent of instructor.

SPAN 443. Senior Thesis In Spanish. 3 Hours.

SPAN 450. Spanish Senior Seminar. 3 Hours.
Individual research project on a cultural topic approved by the instructor one semester prior to enrollment in the course. Course restricted to majors.

SPAN 496. Study Tour. 1-18 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. May count towards the Spanish or Spanish Education major or minor.

THEA Courses

THEA 95. Theatre Experience. 0 Hours.
Students will produce, direct, manage, design, build, perform, and market a family/youth production. The ultimate goal is to either invite area schools to the performances in the Aleshire Theatre or to tour the production to the area schools.

THEA 110. Introduction to Theatre Arts. 3 Hours.
Basic introduction to the theory and principles of theatrical presentation including dramatic literature, acting, stagecraft and dramatic analysis, with emphasis on practical application.

THEA 120. Intro to Drama Lit & Analysis. 3 Hours.
An introductory course in the literature of drama. Plays representative of important periods of theatre history are discussed and analyzed in their cultural context as well as for possible performance. Students work to understand the plays’ potential meanings for modern audiences.

THEA 121. The One-Act Play. 2 Hours.
The course revolves around the study of the one-act play, how it differs from the full length play, as well as the reading of several one-acts and evaluating them as per their availability and appropriateness for competition.

THEA 161. Acting I. 3 Hours.
A basic introduction to script analysis, scene work, and characterization. Exploring the actors tools through voice, movement, and stage combat may be implemented depending on instructor.

THEA 162. Audition Techniques. 1 Hour.
The selection, rehearsal, and performance of theatrical scenes and monologues as well as musical theatre material for the purpose of auditions.

THEA 164. Musical Theatre Professional Preparation. 2 Hours.
Designed to prepare students to be successful at professional Musical Theatre auditions and to provide them with practical skills and information related to show business (i.e: agents, managers, unions, negotiating, contracts, headshots, resumes, casting directors, etc.).

THEA 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of theatre. Pre-requisite: Theatre Arts major or minor.

THEA 199. Special Topics. 1-3 Hour.
Varying areas of content, issues, or themes in the study of theatre.

THEA 201. Theatre Practicum. 1 Hour.
Participation in a significant capacity in any communication arts sponsored theatrical production above and beyond the requirements of a specific course. Repeatable up to eight credits.

THEA 202. KCACTF Participation. 1 Hour.
Credit offered to those students selected for the KCACTF Irene Ryan Regional Scholarships as well as those students choosing to actively participate in the various regional events, i.e. Design Expo, Stage Management, Theatre Management Challenge, and those students interested in presenting work else where. The course will include selection, preparation, and presentation of the required artifacts or audition pieces.

THEA 203. Music Theatre Studio. 1 Hour.
Performance of major roles of Musical Theatre in studio projects. Emphasis on the student’s integration of singing, acting, and movement into a unified performance.

THEA 221. Costuming. 2 Hours.
Introduction to the art of theatrical costuming from history through construction. Included will be an introduction to the design process.

THEA 222. Make-Up. 2 Hours.
Theory and practical laboratory work in stage make-up applications, including mask building.

THEA 250. Creative Drama. 3 Hours.
The study of creativity, and the relationship of drama and creative play culminating with activities centering around storytelling and children’s theatre.

THEA 261. Performance Studies. 3 Hours.
An examination of “performativity.” and explorations of performance beyond the confines of “theatre proper”. Students will create works for the theatre which resist the limits of traditional narrative as well as experiment with the definition of performance.
THEA 270. Stagecraft. 3 Hours.
The course will begin with the stage managers approach to script analysis for a play in production and will conclude with the fundamental approach to
the implementation of the scenic artist’s designs for the stage through the study of set construction, painting techniques, and technical coordination.

THEA 275. Production Design. 3 Hours.
The focus of the course will be design process, as applied to the creation of the theatrical environment, including analysis, research, communication, and
implementation. Students will complete design projects in costuming, scenery, or lighting. Prerequisite(s): THEA 270.

THEA 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count
toward the Theater Arts major or minor.

THEA 297. Internship. 1-2 Hour.
Hands-on experience in the discipline.

THEA 299. Special Topics. 3 Hours.

THEA 301. Movement I. 3 Hours.
Introduction to physical and movement elements of the actor’s craft and stage performance, including neutral presence, alignment, walking, spatial
awareness, self-awareness, and availability. Exercises will be given to strengthen and stretch the body. Techniques involving the application of yoga,
pilates, ballet and Viewpoints will be applied to physical expression in character development and creation of object and animal essences. No previous
fitness/movement training required, only a quest for play and healthier daily living.

THEA 302. Movement II. 3 Hours.
Participants will develop body awareness, improve posture, enhance muscle strength, increase range of motion, and further the art of muscle relaxation.
Implementation and continuation of yoga/pilates matwork and ballet will increase strength, coordination, and flexibility for the stage performer. Final
project will involve movement application with classical Shakespearean text. No previous fitness/movement training required, only a quest for play and
healthier daily living.

THEA 303. Musical Theatre Dance. 3 Hours.
This course is designed to introduce the student to the basic principles and techniques characteristic of tap, jazz, and musical theatre dance styles.
Warm-up, exercises, combinations in a variety of jazz and tap styles will provide opportunities for the student to develop an efficient use of weight,
alignment, flexibility, articulation of footwork, coordination, endurance, strength, and musicality. A fun-filled class that culminates in song and dance
routines for the stage.

THEA 305. Musical Theatre History. 3 Hours.
History of Musical Theatre, primarily focusing on American Musical Theatre, from its defining influences and roots to the present. Topics to be covered
include significant productions, composers, lyricists, librettists, choreographers, directors, designers, and actors.

THEA 350. Theatre History, Criticism & Literature I. 3 Hours.
A survey of the development of the theatre and drama, including dramatic analysis, performance theory and style, theatre architecture, and individual
contributions, from its beginning to 1642. Prerequisite: Student must complete THEA 120 or have instructor consent before enrolling in this class.

THEA 351. Theatre History Criticism,& Literature II. 3 Hours.
A continuation of THEA 350 and the development of the theatre and drama, including dramatic analysis, performance theory and style, theatre
architecture, and individual contributions, from 1642 to the present. Prerequisite: Student must complete THEA 120 or have instructor consent before
enrolling in this class.

THEA 361. Acting II. 3 Hours.
In-depth study of modern trends in acting technique with special emphasis placed upon the creation of character through various acting styles, and
continued emphasis on voice and movement. Prerequisite: Student must complete THEA 161 or have the consent of the instructor before enrolling in
this class.

THEA 385. Directing. 3 Hours.
Fundamentals of composition and picturization, blocking, stage business, and rehearsal as applied to the directing of plays. Prerequisite: THEA 161 or
consent of instructor.

THEA 386. Playwriting. 3 Hours.
A study of the basic principles of writing for the stage. Emphasis will be on developing short forms of productions, specifically the ten-minute play.

THEA 387. Playwrights Lab. 1 Hour.
Development of original student-written plays. Focus will be on revision of 10-minute scripts for production. Prerequisite: Student must complete THEA
386 or have the consent of the instructor before enrolling in this class.

THEA 394. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of theatre. Pre-requisite: Theatre Arts major or minor.

THEA 395. Service Learning. 3 Hours.
Students will utilize reflection and research (both primary and secondary) to integrate (a) personal community or global service experience(s). Pre-
requisite: Theatre Art major or minor.
THEA 399. Special Topics. 1-3 Hour.
Varying areas of content, issues, or themes in the study of theatre.

THEA 401. Tour Show. 3 Hours.
This course is designed for both the Theater and non-Theater major/minor to acquaint the student with the basic principles of acting, stage work, and touring. These principles include, but are not limited to: script reading and analysis; a technical production process that would accommodate a limited budget and specifics to be performed in various spaces and conditions; the research and preparation of materials that would allow a non-traditional audience member and teacher to view the production and be able to incorporate performance materials back into a regular classroom activity.

THEA 414. Theatre Management. 3 Hours.
This course will emphasize the business of theatre: Production Procedures from beginning to the end; grant writing, box office procedures, publicity policies, and audience development. Prerequisite: BADM 301.

THEA 450. Contemporary Drama. 3 Hours.
A study of dramatic literature from 1952 to the present. Plays from England, Europe, and the Americas will be represented. Course may be repeated as the content changes.

THEA 480. Advanced Theatre Performance. 3 Hours.
The focus of the course may include: script analysis, dramaturgy, devising theatre, and vocal technique for the stage (including diction, pronunciation, and dialect as needed). Students will do a variety of projects leading to production concepts as discussed by the ensemble. The final project will be a finished theatrical performance directed and acted by class members. Prerequisites: THEA 161, 301, 361, and 385.

THEA 492. Capstone Experience. 3 Hours.
Provides for individual research culminating in a thesis project under direct supervision of an instructor. Student must be at junior or senior status before enrolling.

THEA 496. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the Theatre Arts major or minor.

THEA 499. Special Topics. 3 Hours.

WS Courses

WS 294. Independent Study. 1-3 Hour.
Directed topics of study.

WS 299. Special Topics. 1-3 Hour.
Special topics in Women's Studies.

WS 494. Independent Study. 1-3 Hour.
Directed topics of study.

WS 499. Special Topics. 1-3 Hour.
Special Topics in Women's Studies.

Art

Art Department Mission Statement

The objective of the art program is to develop creative, expressive and technically competent graduates who direct their time, energy, skills, and materials toward fulfilling the program outcomes. Within an aesthetic and historical context, students will form and articulate qualitative judgments and make critical decisions about their work and the work of others from the perspective of contemporary culture.

In the art program, the learning challenge will provide students with knowledge of other cultures, as well as their own. The creative work will be tailored to the unique intellectual, emotional and physical abilities of the student.

The art program is designed to provide a rewarding creative experience, challenging the student to flourish in technical abilities, design decisions, concept development and aesthetic evaluation.

Find out more about majoring in art at MSU by visiting: http://www.minotstateu.edu/msuart/.

Bachelor of Arts with a Major in Art

The Bachelor of Arts degree is a professionally oriented program designed to offer the candidate a well-rounded, rich experience in the process and practice of studio art and design in preparation for a career as a professional artist, or for direct entry into various art careers. Enrollment in the BA program is recommended for those students willing to make a considerable commitment of time and energy, which is necessary to achieve
professional competencies in their chosen option. Candidates accepted into the BA program are expected to adhere to a high standard of excellence and demonstrate significant artistic growth.

**BA Art Program Goals and Outcomes**

**GOALS**
- **Originate:** value originality, authenticity, integrity, innovation, insight, and dedication in the creation of artworks.
- **Design:** know and practice the fundamental concepts of good design and master personal creative and expressive abilities.
- **Create:** solve technical problems competently in a variety of media.
- **Critique:** critique the art of peers and self with respect and an awareness of diverse people, cultures, different art styles and the periods of their production.
- **Present:** evidence professional presentation through portfolio, exhibitions and marketing.

**OUTCOMES**
The student will:
- Know the fundamental concepts of design and technique.
- Solve technical problems competently in a variety of media.
- Exhibit proficiency in an option: art history, ceramics, drawing, graphic design, integrated media, painting, photography, printmaking, sculpture and traditional arts.
- Master personal, creative, expressive and aesthetic abilities.
- Value the expression of authenticity, integrity, innovation, insight and dedication to the process of creating artworks.
- Critique the art of peers and self with respect and encouragement.
- Develop awareness of diversity among people, cultures, art styles and the periods of their production.
- Form qualitative aesthetic judgments within a historical context.
- Develop a capstone experience that demonstrates mastery of the goals and outcomes of the program. This experience can be an instrument for post-graduate employment, career path, or for other personal goals.

BA Art majors are expected to attend Northwest Art Center exhibitions and other public art receptions. BA Art majors are expected to enroll in art seminars each semester throughout their university career, respectively Art 191, first year; Art 291, second year; Art 391, third year, Art 491, fourth year; and 091 each semester thereafter until graduation. BA Art majors are required to participate in a sophomore review and complete a capstone experience in partial fulfillment of their degree.

Bachelor of Fine Arts with a Major in Art

The Bachelor of Fine Arts degree is a professionally oriented program designed to offer the candidate a well-rounded, rich experience in the process and practice of studio art and design in preparation for a career as a professional artist, or for graduate study leading to the MFA, or both. Enrollment in the BFA program is recommended only for those students willing to make a considerable commitment of time and energy, which is necessary to achieve professional competencies in their chosen option. Candidates accepted into the BFA program are expected to adhere to a high standard of excellence, demonstrate significant artistic growth, and maintain a minimum of 3.00 grade point average in all art courses.

GOALS

Originate: value originality, authenticity, integrity, innovation, insight, and dedication in the creation of artworks.
Design: know and practice the fundamental concepts of good design and master personal creative and expressive abilities.
Create: solve technical problems competently in a variety of media and exhibit proficiency in the chosen option.
Critique: critique the art of peers and self with respect and an awareness of diverse people, cultures, different art styles and the periods of their production
Present: evidence professional presentation through portfolio, exhibitions and marketing.

OUTCOMES

The student will:
Know the fundamental concepts of design and technique.
Solve technical problems competently in a variety of media.
Master personal, creative, expressive and aesthetic abilities.
Value the expression of authenticity, integrity, innovation, insight and dedication to the process of creating artworks.
Critique the art of peers and self with respect and encouragement.
Develop awareness of diversity among people, cultures, art styles and the periods of their production.
Form qualitative aesthetic judgments within a historical context.
Develop a capstone experience that demonstrates mastery of the goals and outcomes of the program. This experience can be an instrument for post-graduate employment, career path, or for other personal goals.

BFA Art majors are expected to attend Northwest Art Center exhibitions and other public art receptions. BFA Art majors are expected to enroll in art seminars each semester throughout their university career, respectively Art 191, first year; Art 291, second year; Art 391, third year, Art 491, fourth year; and 091 each semester thereafter until graduation. BFA Art majors are required to participate in a sophomore review, BFA portfolio reviews, and complete a capstone experience in partial fulfillment of their degree.

Bachelor of Fine Arts Admission Guidelines

Applicants for admission into the BFA program must meet the following requirements:

1. Applicants must have second year status and have completed 15 credits of art courses required for the BFA.
2. Applicants must have been an enrolled art major at Minot State University for at least one semester before an official application may be submitted. (This does not preclude students from working toward BFA credits.)
3. Applicants must meet a minimum academic GPA of: 2.50 in coursework and a 3.00 in art coursework.

Students seeking admission to the BFA program must submit an application packet to the BFA Program Advisor. The application will then be routed to faculty for review followed by a faculty vote. Applicants must submit the following:

1. A letter of intent stating objectives and qualifications. In this letter, students should indicate an awareness of the differences between the BA and BFA degree programs, and how this degree will assist them in their art education and future career.
2. Current copies of all college transcripts. Unofficial copies are fine.
3. A list of all college art courses taken with the number of credits earned, grades received, and a tallied art GPA.
4. A disk or thumb drive with 10-15 images of recent work saved into a file. Images should be saved as .jpgs sized 1280 pixels wide by 1024 pixels high. At least half of the examples should reflect your chosen specialization. Collate the images into a PowerPoint presentation and save that file as both a .pptx and .pdf file.
5. Include an annotated image list keyed to the order of the images. The annotations should include: title, size, medium, date, and also include a brief statement as to the purpose of the work, such as why and for whom it was done. Explain why you made the design choices that you made.
Students must maintain continuous enrollment in the BFA program. Failure to do so will result in termination from the BFA program. Students seeking a hiatus must make a formal appeal in the form of a letter to the BFA director to extend their program. Admission into the BFA program, termination from it, and granting of the degree are done at the discretion of the BFA Director based on annual portfolio review and interview evaluations. Enrolled BFA students must present their work annually for the BFA Review throughout the duration of the program. Failure to do so will result in the termination from the BFA program.

**Bachelor of Science with a Major in Arts Administration**

The Bachelor of Science in Arts Administration degree is a professionally oriented program designed to offer the candidate a well-rounded, rich experience in preparation for a career as an arts professional as a gallery manager, director. Enrollment in the AA degree program is recommended for the candidate who wants to work in a small to mid-sized museum. Candidates accepted into the AA program are expected to adhere to a high standard of excellence and demonstrate significant artistic growth.

**AA Art Program Goals and Outcomes**
GOALS

**Originate**: value originality, authenticity, integrity, innovation, insight, and dedication in the creation of artworks.

**Design**: know and practice the fundamental concepts of good design and master personal creative and expressive abilities.

**Create**: solve technical problems competently in a variety of media and exhibit proficiency in museum and gallery administration.

**Critique**: critique the art of peers and self with respect and an awareness of diverse people, cultures, different art styles and the periods of their production.

**Present**: evidence professional presentation through portfolio, exhibitions and marketing.

OUTCOMES

The student will:

Exercise leadership in a changing cultural environment, identifying and articulating key issues and future trends facing arts management.

Plan for funding and development of the arts or cultural organization.

Effectively understand board governance structures, and processes for working successfully with employees, sponsors and volunteers.

Recognize the role of culture in the nation, its people and the world.

Understand how to facilitate connections between artists, artifacts and the audience through effective management practice.

Develop a professional network of resources in the community.

Develop a capstone experience that punctuates the experience, demonstrating mastery of the goals and outcomes of the program. This experience can be an instrument for post-graduate employment, career path, and graduate school admission or for other personal goals.

AA Art majors are expected to attend Northwest Art Center exhibitions and other public art receptions. AA Art majors are expected to enroll in art seminars each semester throughout their university career, respectively Art 191, first year; Art 291, second year; Art 391, third year, Art 491, fourth year; and 091 each semester thereafter until graduation. AA Art majors are required to participate in a sophomore review and complete a capstone experience in partial fulfillment of their degree.

Bachelor of Science in Education with a Major in Art

The Bachelor of Science in Education art degree is a professionally oriented program designed to offer the candidate a well-rounded, rich experience in preparation for a career as an arts teacher in the K-12 schools. Candidates accepted into the BSEd program are expected to adhere to a high standard of excellence and demonstrate significant artistic growth.

Art Education Program Goals and Outcomes

**GOALS**

*Originate:* value originality, authenticity, integrity, innovation, insight, and dedication in the creation of artworks.

*Design:* know and practice the fundamental concepts of good design and master personal creative and expressive abilities.

*Know:* the history of art and its impact on contemporary art.

*Create:* solve technical problems competently in various media: ceramics, drawing, graphic design, integrated media, painting, photography, printmaking, sculpture and traditional arts.

*Critique:* critique the art of peers and self with respect and an awareness of diverse people, cultures, different art styles and the periods of their production.

*Present:* evidence professional presentation through portfolio, exhibitions and student teaching.

*Teach:* display proficiency in peer teaching and in teaching K-12 art.

**OUTCOMES**

The student will:

Know the fundamental concepts of design and technique.

Solve technical problems competently in a variety of media.

Exhibit proficiency in teaching art, K-12.

Master personal, creative, expressive and aesthetic abilities.

Value the expression of authenticity, integrity, innovation, insight and dedication to the process of creating artworks.

Critique the art of peers and self with respect and encouragement.

Develop awareness of diversity among people, cultures, art styles and the periods of their production.

Form qualitative aesthetic judgments within a historical context.

Develop a capstone experience that demonstrates mastery of the goals and outcomes of the program. This experience can be an instrument for post-graduate employment, career path, graduate school admission or for other personal goals.

BSEd Art majors are expected to attend Northwest Art Center exhibitions and other public art receptions. BSEd Art majors are expected to enroll in art seminars each semester throughout their university career, respectively Art 191, first year; Art 291, second year; Art 391, third year, Art 491, fourth year; and 091 each semester thereafter until graduation. BSEd Art majors are required to participate in a sophomore review and complete a capstone experience in partial fulfillment of their degree. Please see the Teacher Education Policies and Procedures (p. 283) page for more information concerning admission to the program.

1 Required admission to Teacher Education.

Bachelor of Science with a Major in Multimedia Studies

The Bachelor of Science in Multimedia Studies degree is a professionally oriented program designed to offer the candidate a comprehensive and interdisciplinary understanding of business, design, communication and technology in preparation for a career as a professional in the communications industry. Candidates accepted into the MMS program are expected to adhere to a high standard of excellence and demonstrate significant artistic growth.
MMS Program Goals and Outcomes

GOALS
Originate: value originality, authenticity, integrity, innovation, insight, and dedication.
Know: practice the fundamental concepts of good design and communication.
Create: solve technical problems competently using technology.
Critique: critique the art of peers and self with respect and an awareness of diverse people, cultures, different art styles and the periods of their production
Present: evidence professional presentation through portfolio, recitals, exhibitions and marketing.

OUTCOMES
The student will:
Know the fundamental concepts of design and communication.
Master problem solving abilities.
Master use of technology in creating design.
Develop a professional network of resources in the community.
Develop a capstone experience that punctuates the experience, demonstrating mastery of the goals and outcomes of the program. This experience can be an instrument for post-graduate employment, career path, graduate school admission or for other personal goals.

MMS Art majors are expected to attend Northwest Art Center exhibitions and other public art receptions. MMS Art majors are expected to enroll in art seminars each semester throughout their university career, respectively Art 191, first year; Art 291, second year; Art 391, third year, Art 491, fourth year; and 091 each semester thereafter until graduation. MMS Art majors are required to participate in a sophomore review and complete a capstone experience in partial fulfillment of their degree. A senior project in Communication Arts may substitute for an art capstone experience by enrolling in COMM 392 Junior Project and COMM 492 Senior Project with the consent of the respective instructor.

**Art Concentration for Art Majors:**

An art concentration is a good companion to several majors, notably business and any of the sciences. Employers are seeking more creative employees with adaptive problem solving skills that art courses provide.

Communication Arts

Communication Arts Department Mission

- To better prepare broadcast and print journalists who can think and write effectively;
- To prepare students for the field of education by keeping the Communication Arts student up-to-date with speech and theatre innovations;
- To give the B.A. student a comprehensive background in Speech, to better prepare him/her for graduate study;
- To give the B.A. student a comprehensive background in Theatre, to better prepare him/her for graduate study.

Communication Arts Department Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>The MSU Communication Arts Department subscribes to the behavioral goals established for speech communication by the joint task force created by the American Theatre Association and the Speech Communication Association. Briefly, those goals are:</td>
<td>Ability to communicate effectively in a variety of contexts.</td>
</tr>
<tr>
<td>Ability to predict with accuracy the consequences of communication decisions and behaviors.</td>
<td></td>
</tr>
<tr>
<td>Ability to manage the following factors in communication situations: selection, development and presentation of ideas, strategies and media to influence human behavior.</td>
<td></td>
</tr>
<tr>
<td>Ability to evaluate messages on the basis of functional, ethical, and aesthetic considerations.</td>
<td></td>
</tr>
<tr>
<td>Ability to develop a personal communication style which can be adapted to a variety of communication contexts.</td>
<td></td>
</tr>
<tr>
<td>Ability to develop skills and attitudes which promote free inquiry, critical listening, receptiveness toward divergent viewpoints, and willingness to support unpopular ideas.</td>
<td></td>
</tr>
</tbody>
</table>

The goals established by the ATA/SCA govern a basic approach to teaching speech, theatre, and broadcasting and depend on the basic principles of our theme—select, arrange, perform.

Communication Arts/Broadcasting majors are required to attend all student and faculty recitals, attend all mainstage productions, and participate in the faculty-student evaluation sessions designated by the faculty. Communication Arts/Broadcasting majors are required to complete COMM 492 Senior Portfolio.

Broadcasting Program Goals and Outcomes

Students earning a BA in Broadcasting are evaluated in four areas of knowledge/skills. These areas are:

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Basic knowledge of historical, theoretical, critical areas of broadcasting, public relations and advertising, or journalism.</td>
<td>Identify, analyze, and explain concepts of historical, theoretical, and critical nature appropriate to their respective study of broadcasting, public relations and advertising, or journalism.</td>
</tr>
<tr>
<td>Basic knowledge and skills associated with production elements of broadcasting, public relations and advertising, or journalism.</td>
<td>Select applicable communication components, arrange them in an effective organizational pattern, and perform in appropriate venues.</td>
</tr>
<tr>
<td>Basic knowledge and skills associated with leadership/advocacy and behavior.</td>
<td>Utilize leadership/advocacy, knowledge, skills, and behavior in service and professional contexts.</td>
</tr>
</tbody>
</table>
Submission of research and creative work to applicable scholarly and interest groups on local, regional, and national levels.

**Bachelor of Arts with a Major in Broadcasting**

The Media Service Concentration is Required of all BA in Broadcasting majors.

English

Department of English Vision, Mission, and Goals:

The Study of English

The English major at Minot State University promotes the development of rational and creative abilities through the study of literary texts of various media. The program will have succeeded with those students who become independent scholars realizing the range of their abilities, the proper contexts and strategies for writing and reading, the multidisciplinary and global natures of their study, and the ethical dimensions of their work.

Vision Statement

The English Department envisions majors who become increasingly independent learners across the four years of their undergraduate education. We envision students who gain confidence in themselves and with that confidence express their ideas clearly and boldly; who are tolerant of others and comfortable with contradictions, complexity, and ambiguity; who are seekers and creators. We envision majors who grow in understanding of their own discipline within the broader context of liberal studies and of global cultures. Ultimately, we envision majors who are empowered by their education to interact effectively and usefully in the world.

Mission Statement

The English major will gain foundational knowledge, use that knowledge with a sense of professionalism and to move toward creative problem solving, and carry both knowledge and problem-solving abilities with them into their careers.

Department Goals

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>In keeping with our mission, our goals are to:</td>
<td>Develop increasing sophistication with reading, writing, speaking, and problem solving.</td>
</tr>
<tr>
<td></td>
<td>Develop a growing confidence with contradictions, complexities, and ambiguities.</td>
</tr>
<tr>
<td></td>
<td>Develop an increasing knowledge and understanding of historical, theoretical, and cultural contexts.</td>
</tr>
<tr>
<td></td>
<td>Develop the ability to research carefully and thoughtfully.</td>
</tr>
<tr>
<td></td>
<td>Develop an understanding of the concepts, texts, and practices of the discipline/profession.</td>
</tr>

**Film Studies**

Coordinator: Jean-François Mondon

This is an interdisciplinary minor in which students focus on film from various perspectives. Students learn to appreciate film as a unique art by studying its history, appreciating its cultural influences in time and place, critiquing its effects and styles, and understanding the creation of visual choices.

### Foreign Language

**Foreign Language Program Mission Statement**

To foster thoughtful engagement with world languages, literature and cultures while attuned to the historical and contemporary challenges that shape their uniqueness.

**Foreign Language Program Goals and Outcomes**

- Provide quality training in language acquisition
- Foster critical and creative thinking about diverse cultural legacies
- Guide research on issues of socio-cultural import in the studied culture
- Facilitate study abroad opportunities
- Mentor for the successful transition to graduate studies and careers

### Foreign Language BA and International Business Double Majors

Up to 15 credits in Foreign Language may also count towards satisfying the degree requirements in International Business for students pursuing a double major.

### Foreign Language Education Program Mission

The aim of the BSE program is to produce graduates who are proficient in the foreign language, knowledgeable of the culture, and conversant with contemporary methods of foreign language pedagogy.

**Foreign Language Education Program Goals and Outcomes**

- Provide quality training in language acquisition and foreign language pedagogy
- Foster critical and creative thinking about diverse cultural legacies
- Guide research on issues of socio-cultural import in the studied culture
- Facilitate study abroad opportunities
- Mentor for the successful transition to graduate studies and careers

SPAN 202  Intermediate Spanish II  4

The requirement for 101 and 102 can be met by scoring 8 credits on the CLEP (College Level Examination Program).

The 101 and 102 may be waived by department consent for students who have successfully completed 3-4 years of courses in one language option in high school. However, students entering MSU foreign language courses at the 200 level, and who intend to pursue graduate studies, are advised to take the CLEP exam to ensure graduate school acceptance of the foreign language concentration as a two year progressive sequence of college level language study.

**Linguistics Concentration**

2 foreign language courses (any level)  6-8
ENGL 209  Introduction to Linguistics  3
Choose One of the Following:  3
  LANG 104  Native Languages of America
  LANG 105  Writing Systems
  ENGL 322  Am Dialects in Lit and Media

Total Hours  12-14

**Gender/Women's Studies**

Coordinator: Sarah Aleshire

Minot State University offers both an undergraduate minor and a concentration in Gender/Women’s Studies. The program is an interdisciplinary academic program of study that takes as its focus the history, development, and consequences of culturally acquired sexual identities. Students examine how gender structures our lives, ideas, institutions, society, and cultural practices, and both men and women gain a clearer sense of identity and purpose.

Gender/Women’s Studies provides essential background for many careers, especially those in human services, teaching, law, government, law enforcement, clinical work, social work, public relations, advertising, administration, business, healthcare, and journalism.

Undergraduate research and civic engagement are major foci of our program. Students present papers at professional conferences, publish articles and essays in academic journals, and participate in a variety of other projects. Community partnerships have also been established with local establishments such as the Domestic Violence Center, the YWCA, the women's NRA chapter, and community clinics, providing students with the opportunity to apply classroom experience to the real world.

**Humanities**

**Goal of the Humanities Minor:**

The student taking a minor in Humanities is getting a really good broad liberal arts education. Humanities is the study of the arts and cultures of the world. Our basic courses, HUM 251 Humanities, HUM 252 Humanities, and HUM 253 Humanities, offer a rich and fulfilling study of the Western (European and American) tradition. HUM 254 Non-Western Humanities and other courses consider the artistic and cultural traditions of non-Western traditions. The other more specific courses (Art History, Music History, and Literary History for instance) strongly contribute to filling out the artistic and cultural knowledge of the student who chooses Humanities as a minor.

**Humanities Minor**

Students must use HUM 251, HUM 252, HUM 253, or HUM 254 to fulfill the Humanities portion of General Education. (6cr)

Division of Music

Chair
Erik Anderson

Division of Music Mission

The mission of the MSU Division of Music is to provide courses of study and performance opportunities in music that foster aesthetic, technical and intellectual development for the performer and teacher.

Division of Music Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Provide a comprehensive foundation of study which will prepare the student as a music professional to:</td>
<td>develop an understanding of the common elements and organizational patterns of music</td>
</tr>
<tr>
<td></td>
<td>develop compositional and improvisational skills</td>
</tr>
<tr>
<td></td>
<td>have opportunities to work with and be exposed to a wide selection of musical literature, styles, genres, and music of diverse cultural sources</td>
</tr>
<tr>
<td></td>
<td>develop competency in at least one major performance area</td>
</tr>
<tr>
<td></td>
<td>develop basic rehearsal and conducting skills</td>
</tr>
<tr>
<td></td>
<td>gain large and small ensemble experience throughout the course of study</td>
</tr>
<tr>
<td></td>
<td>demonstrate keyboard competency</td>
</tr>
</tbody>
</table>
develop knowledge of the applications of current technology
work independently to resolve a variety of musical problems and work toward artistic
synthesis

Provide a focused course of study which will prepare the
BSEd student to:
arrange and adapt music
develop intermediate rehearsal and conducting skills
demonstrate sufficient ability and pedagogical skill to teach according to chosen Option
(Choral, Band, Orchestral, Composite)
demonstrate functional ability and knowledge of the voice and wind, string, fretted, and
percussion instruments
teach music at various levels in a variety of settings
evaluate current methods and plan educational programs to meet assessed needs

Provide a focused course of study which will prepare the BA student to:
perform at the highest possible level in the major area
conceptualize and communicate individual musical interpretations
develop functional knowledge of applicable solo and ensemble literature
develop functional knowledge of pedagogy in the major area
develop functional knowledge of diverse styles and performance practices
prepare solo and ensemble performances in a variety of formal and informal settings

to serve the curricula of liberal arts and general education:
by providing opportunities for ensemble or solo performance
by providing opportunities to study music of the Western European tradition, world music,
jazz, and folk music

Division Objectives
1. To provide a comprehensive study of music through music literature, theory, performance, history, technology, and education.
2. To provide opportunities for the acquisition of knowledge, skill and pedagogical tools and toward the development of musicianship.

Proficiencies
1. All music majors (BSEd & BA) are required to pass a proficiency exam in piano. The proficiency exam will be administered each term.
2. In addition, all students pursuing the Bachelor of Science in Education (BSEd) degree with a major in music are required to have proficiencies in woodwinds, brass, percussion, strings, voice, and fretted instruments.

Private Instruction
1. A minimum of one-hour (1 cr.) per week, in the performing specialty is required of all music majors each semester.
2. A special fee is charged for private study.
3. All music majors are required to perform at Performance Lab once each semester.
4. Music minors are required to perform at two performance labs during their four semesters of applied study.
5. All music majors are required to present a full Senior Recital or complete an approved final project.
6. BSEd majors Composite Emphasis must complete 6 semesters of a secondary applied specialty.

Ensemble Participation
1. Large ensemble participation can be selected from Concert Choir, Concert Band/Marching Band, or Orchestra.
2. Participation in a large ensemble corresponding to the student’s applied specialty is required each semester up to and including seven semesters.
3. Vocal BSEd composite emphasis majors must also participate in a large instrumental ensemble for four consecutive semesters.
4. Instrumental BSEd majors composite emphasis must also participate in a large vocal ensemble for four consecutive semesters.
5. Music minors are required to participate in a large ensemble corresponding to their applied specialty for four consecutive semesters.
6. BSEd students may be required to enroll in applied study to facilitate successful participation in their chosen secondary ensemble.
7. Piano BSEd majors must participate in the same large ensemble (vocal or instrumental) for seven consecutive semesters. If pursuing the composite emphasis, an additional large ensemble (vocal or instrumental) is required for four consecutive semesters.

University Teacher Education Policies
Refer to Teacher Education and Policies (p. 283) of the catalog for details regarding Teacher Education at Minot State University. These pages will explain admission, retention, and exit requirements of the program for music majors in Teacher Education.
Division Teacher Education Requirements

University requirements for teacher education are described above. Additional requirements of the Division of Music include:

1. Maintaining a minimum grade point average of 2.5 in the major, minor, and professional education sequence;
2. Maintaining a minimum grade of “C” in all music courses;
4. Having progress monitored by the Division of Music Review Committee; and
5. Successfully completing all proficiency requirements.

Performance Attendance

All music majors are required to enroll in MUSC 099 Recitals/Concerts each semester as a music student. MUSC 099 Recitals/Concerts is a no (0) credit course for recording student attendance at concerts, recitals, and/or seminars.

Total Hours 11

Courses

MUSC 099. Recitals/Concerts. 0 Hours.
This if a non-credit course which will appear on each music major's semester program. It is designed to accumulate information as to the student's required attendance at predesignated recitals, concerts, and seminars. The final grade will be either Satisfactory (S) or Unsatisfactory (U).

MUSC 100. Music Appreciation. 3 Hours.
Designed for the non-music majors and may be used as partial fulfillment of Humanities requirement. Representative works from many cultures will be studied.

MUSC 101. Fundamentals of Music. 2 Hours.
Introduction to fundamental elements of music and functional musicianship for non-music majors.

MUSC 102. Private Piano. 0.5-4 Hour.
Course restricted to majors. Repeatable for credit.

MUSC 103. Private Harpsichord. 1 Hour.
Course restricted to majors. Repeatable for credit. Prerequisite: Restricted to students who are music or music education majors.

MUSC 105. Women's Chorus. 1 Hour.
Open to female singers with interest in singing.

MUSC 106. Private Organ. 0.5-4 Hour.
Repeatable for credit.

MUSC 110. Audio/Video Technology. 1 Hour.
This course is designed to provide basic knowledge and gain experience with recording live performances. Employing both on campus and online resources, the students will study basic practices for recording and production as they apply that knowledge to recording projects within the Division of Music. Prerequisite: Restricted to students who are music majors.

MUSC 111. Private Voice. 0.5-4 Hour.
Repeatable for credit.

MUSC 112. Diction for Singers I. 2 Hours.
Introduces rules, concepts and practice of proper pronunciation and articulation for singing in English and Italian using the International Phonetic Alphabet. Develops specific language skills necessary for solo vocal and choral singing and teaching. [Course offered every fall semester.]

MUSC 113. Diction for Singers II. 2 Hours.
Introduces rules, concepts and practice of proper pronunciation and articulation for singing in French and German using the International Phonetic Alphabet. Develops specific language skills necessary for solo vocal and choral singing and teaching. [Course offered every spring semester.] Prerequisite: Students must complete MUSC 112 before enrolling in this course.

MUSC 114. Western Plains Opera Production. 1 Hour.
The Western Plains Opera Production course will provide students a variety of opportunities for growth through both the performance and technical aspects of a fully-staged professional music production.

MUSC 115. Opera-Musical Production. 1 Hour.
Techniques of production and staging dramatic musical works, employing operas and scenes from operas. Prerequisite: consent of instructor.

MUSC 116. Private Strings. 0.5-4 Hour.
Repeatable for credit.

MUSC 117. Private Classical Guitar. 0.5-4 Hour.
Repeatable for credit.

MUSC 119. Vocal Ensemble. 1 Hour.
Membership subject to approval of director. (Rehearsals by arrangement.).
MUSC 120. Concert Choir. 1 Hour.
Membership subject to approval of director.

MUSC 121. Intro to Music Theory. 2 Hours.
Foundations of music notation and basic music literacy. Course provides a background for MUSC 122 Music Theory and a foundation for successful pursuit of the Music major. Prerequisite: Students must enroll in MUSC 123 Aural Skills at the same time.

MUSC 122. Music Theory I. 3 Hours.
Study of music notation and basic structure of music, including key signatures, scales, chords, fourpart writing and instrumental notation. Provides students with practical applications of music theory concepts. Meets three times weekly.

MUSC 123. Aural Skills I. 1 Hour.
A lab experience meeting twice weekly, to develop abilities in sight-singing, ear training, rhythm reading and error detection, interval and chord identification.

MUSC 124. Music Theory II. 3 Hours.
Further develops a student's understanding of music notation and basic structures of music, including voice-leading, figured bass, melodic forms, modulations and seventh chords. Meets three times per week. Prerequisite: MUSC 122.

MUSC 125. Aural Skills II. 1 Hour.
A lab experience meeting twice weekly, to develop abilities in sight-singing, ear training, rhythm reading and error detection, interval and chord identification. Prerequisite: MUSC 123.

MUSC 126. Private Brass. 0.5-4 Hour.
Repeatable for credit.

MUSC 127. MSU Singers. 1 Hour.
By audition.

MUSC 128. Keyboard Theory I. 1 Hour.
Prerequisite: Student must be enrolled in MUSC 122 before enrolling in this course.

MUSC 129. Private Composition. 0.5-4 Hour.
Instructor approval required. Repeatable for credit.

MUSC 130. Brass Ensemble. 1 Hour.
Rehearsals are arranged and membership is subject to approval of director.

MUSC 131. Private Percussion. 0.5-4 Hour.
Repeatable for credit.

MUSC 133. Private Woodwinds. 0.5-4 Hour.
Repeatable for credit.

MUSC 135. Woodwind Ensemble. 1 Hour.
Rehearsals arranged and membership subject to approval of director.

MUSC 140. String Ensemble. 1 Hour.
Membership subject to approval of director.

MUSC 144. Chamber Ensembles. 1 Hour.
Brass, String, Percussion, Woodwind, Keyboard, and Vocal students are welcome to join on approval of the instructor(s), either as an elective or in fulfillment of their Small Ensemble requirements.

MUSC 145. Percussion Ensemble. 1 Hour.
Rehearsals are arranged and membership subject to approval of director.

MUSC 150. Orchestra. 1 Hour.
Rehearse Thursday evening. The Minot Symphony Orchestra is a university-community organization. Open to qualified students upon approval of director.

MUSC 153. Accompanying. 3 Hours.

MUSC 155. Wind Ensemble. 1 Hour.
Open to qualified students subject to approval of director.

MUSC 160. Concert Band. 1 Hour.
Open to qualified students subject to approval of director.

MUSC 163. Beaver Athletic Band. 1 Hour.
Brass & Percussion Ensemble which performs at athletic events, in concert and in recital, community events and tours regularly. Members are selected by audition.
MUSC 164. Musical Theatre Professional Preparation. 2 Hours.
Designed to prepare students to be successful at professional Musical Theatre auditions and to provide them with practical skills and information related to show business (i.e: agents, managers, unions, negotiating, contracts, headshots, resumes, casting directors, etc.).

MUSC 165. Jazz Ensemble. 1 Hour.
Open to qualified students subject to approval of director.

MUSC 167. Jazz Combo. 1 Hour.
Open to qualified students subject to approval of director.

MUSC 177. Functional Piano. 1 Hour.
A piano class designed for students who are beginners on the instrument, first year theory students, and elementary education majors. Course restricted to majors. (Class meets twice weekly.) Prerequisite: Restricted to students who are music or music education majors.

MUSC 178. Functional Piano. 1 Hour.
Continuation of MUSC 177. Prerequisite: MUSC 177. (Class meets twice weekly.).

MUSC 180. Class Guitar I. 1 Hour.
Beginning technique in chord and melody playing is developed in class ensemble. Courses in progressive order of advancement.

MUSC 181. Class Guitar II. 1 Hour.
Continuation of MUSC 180. Prerequisite: MUSC 180.

MUSC 201. World Music. 3 Hours.
Designed to introduce the world's major music's in order to encourage and enhance cultural diversity. May be used as partial fulfillment of the Humanities requirement.

MUSC 202. Private Piano. 1-3 Hour.
Upper division private study.

MUSC 203. Music Theatre Studio. 1 Hour.
Performance of major roles of Musical Theatre in studio projects. Emphasis on the student's integration of singing, acting, and movement into a unified performance.

MUSC 205. History of US Through Music. 3 Hours.
Designed for the non-music majors and may be used as partial fulfillment of the Humanities requirement. American music which accompanied significant historical eras and development will be studied.

MUSC 206. Private Organ. 1-3 Hour.
Upper division private study.

MUSC 207. History of Pop and Rock Music. 3 Hours.
Pop Music and American Liberal Capitalism helped to create a planetary culture. Twentieth century events that brought the world to this pass were not so much a movement as a force of creativity and capitalism yoked by the first global communications network. This course brings liberal arts students into contact with tools and information on this subject.

MUSC 211. Private Voice. 1-3 Hour.
Upper division private study.

MUSC 216. Private Strings. 1-3 Hour.
Upper division private study.

MUSC 222. Music Theory III. 3 Hours.
A continuing study of the underlying theoretical background of tonal music, begun in Theory I and II. Topics include a thorough study of chromatic harmony and the deterioration of functional harmony in the late 19th century to the demise of tonality on the 20th. Analytical techniques are stressed. Meets three times per week. Prerequisite: MUSC 123, 124, or 125.

MUSC 223. Aural Skills III. 1 Hour.
A practical continuation of previous aural studies. Areas to be covered include advanced work in musical dictation, error detection, and sight singing. Meets twice per week. Prerequisite: MUSC 124 or 125.

MUSC 224. Form and Analysis. 2 Hours.
This course will explore the analysis of compositional forms, phrase structure and advances harmonic analysis of works from the 18th century to modern music. The course is restricted to music majors. Prerequisite: MUSC 222.

MUSC 225. Aural Skills IV. 1 Hour.
A practical continuation of previous aural studies. Areas to be covered include highly advanced work in musical dictation, error detection, and sight singing. Meets three times per week. Prerequisite: MUSC 222 or 223.

MUSC 226. Private Brass. 1-3 Hour.
Upper division study.

MUSC 229. Private Composition. 0.5-4 Hour.
Instructor approval required. Repeatable for credit. Prerequisite: MUSC 122, 124, 222, and music majors of junior and senior status.
MUSC 231. Private Percussion. 1-3 Hour.
Upper division private study.

MUSC 233. Private Woodwinds. 1-3 Hour.
Upper division private study.

MUSC 250. Basic Conducting. 2 Hours.

MUSC 260. Introduction to Music History. 3 Hours.
Survey of the history and traditions of western civilization through its music. Students will focus on the musical content and trace developmental trends through the common periods of music history. This course is restricted to music majors.

MUSC 299. Special Topics. 1-8 Hour.

MUSC 301. Music Methods for the Elementary Teachers. 2 Hours.
Methods and materials for the classroom teacher in guiding young children in musical experiences K-6. Prerequisites: MUSC 101 or 122 and Admission to Teacher Education.

MUSC 305. Musical Theatre History. 3 Hours.
History of Musical Theatre, primarily focusing on American Musical Theatre, from its defining influences and roots to the present. Topics to be covered include significant productions, composers, lyricists, librettists, choreographers, directors, designers, and actors.

MUSC 306. Music History and Literature I. 3 Hours.
This course will develop the students' knowledge of Western Civilization through its musical history and literature dating from ancient Greece to 1750. Students will focus on analytical and listening skills to further their understanding of musical styles.

MUSC 307. Music History and Literature II. 3 Hours.
This course will develop the students' knowledge of Western Civilization through its musical history and literature dating from 1750 to the present. Students will focus on analytical and listening skills to further their understanding of musical styles.

MUSC 325. Vocal Pedagogy. 3 Hours.

MUSC 340. Voice Methods. 1 Hour.
This course investigates basic vocal pedagogy methods, introducing essential tools for teaching singing. Student will study international phonetic alphabet to assist foreign language diction skills, and explore repertoire suited for the beginning singer. Prerequisite: restricted to major or consent of instructor.

MUSC 341. String Methods. 1 Hour.
A practical class involving the playing and techniques of teaching the bowed, orchestral string instruments (violin, viola, cello, and string bass) at the elementary level. Teaching materials and string pedagogy are also considered.

MUSC 342. Woodwind Methods. 1 Hour.
The purpose of this course is to give the student an introduction to the techniques of playing and teaching woodwinds. Teaching methods, proper playing position, embouchure, common problems and errors made by students, equipment, maintenance and repair of the instruments, and both pedagogical and performance literature will be presented.

MUSC 343. Brass Methods. 1 Hour.
Teaching techniques and performance proficiency on each of the brass family instruments.

MUSC 344. Percussion Methods. 1 Hour.
Techniques and methods of playing and teaching percussion.

MUSC 345. Wind Band Literature. 2 Hours.

MUSC 346. Symphonic Literature. 2 Hours.

MUSC 347. Chamber Music Literature. 2 Hours.

MUSC 350. Advanced Conducting. 2 Hours.
Objectives of this course are developing and refining gestures which convey musical meaning, to refine interpretive skills, and to develop an ability to critique and improve ones own conducting. Prerequisites: Restricted to students who are music majors with junior or senior status.

MUSC 366. Instrumental Jazz Improvisation I. 2 Hours.
Study of the utilization and translation of basic musical elements such as scales, mixolydian modes, dominant seventh chords, rhythm, form, and melody into an individually creative jazz performance. Open to all instruments including strings.

MUSC 367. Instrumental Jazz Improvisation II. 2 Hours.
Continuation of MUSC 366 by studying the dorian modes, minor seventh chords, and integration rhythm and melody with actual playing to further the students progress. Prerequisite: MUSC 366.

MUSC 384. Orchestra Methods in Secondary Education. 3 Hours.
Provides the parallel alternative for Band and Choral Methods classes. The string educator is often hired to teach only strings for a school system. This course includes methods and materials relative to a successful string program. Pre-requisites: MUSC 124 and admission to teacher education.
MUSC 390. Instrumental Methods in Secondary Education. 3 Hours.
Instrumental conducting, score reading and performance preparation, including examination of methods and materials used in secondary band and orchestra programs. Prerequisites: MUSC 124 and admission to Teacher Education.

MUSC 391. Choral Methods in Secondary Education. 3 Hours.
Choral conducting, score reading and performance preparation, including examination of methods and materials used in the secondary choir program. Prerequisites: MUSC 124 and admission to Teacher Education.

MUSC 392. Elementary Music Methods. 3 Hours.
Methods and materials used in elementary general music/choral music program grades K-8. Prerequisites: MUSC 123, 124, 125, and admission to Teacher Education.

MUSC 397. Elementary Music Field Experience. 1 Hour.
Development of basic skills on fretted instruments (guitar, ukelele), recorder, autoharp, percussion instruments for use in the elementary music classroom. Prerequisite: MUSC 124 and Admission to Teacher Education.

MUSC 440. Instrument Repair. 1 Hour.
Basic techniques in instrument maintenance and care.

MUSC 441. Piano Tuning. 2 Hours.
Study of piano tuning, piano construction and repair in addition to organ tuning. Prerequisites: The ability to play all major chords and any two note interval. May be repeated.

MUSC 442. Piano Pedagogy. 3 Hours.
The examination of teaching methods and applied music instruction management for piano majors.

MUSC 480. Senior Project. 1 Hour.
Capstone project representing accomplishment in designated applied study area.

MUSC 494. Independent Study Honors Music. 1-8 Hour.

MUSC 499. Special Topics. 1-8 Hour.

Division of Science

Chair
Dr. Robert Crackel

Division of Science Mission

The mission of the Division of Science is (1) to instill the knowledge and critical and creative thinking skills needed by students in today’s society, and (2) to serve the university, the academic community of scientists, and the general public. This is accomplished by offering distinctive programs in which students are mentored by faculty in a collaborative environment that integrates teaching and research through scientific inquiry.

Division of Science Objectives

The Division of Science is composed of the disciplines of Chemistry, Geosciences, Physics, Radiologic Technology, and Science Education. While much variation in degree requirements exists among the programs within the Division, all have the following common objectives: proficiency in a recognized field of science and broad liberal training for effective citizenship. Majors within the Division provide the student with a sound basic education within one of the sciences and the opportunity to elect courses in Mathematics, the Arts, and the Humanities. Pre-professional programs offer the option of preliminary coursework at Minot State before transferring to a professional school.

Chemistry

Chemistry is a rewarding subject of study in itself. Science may be the chief mode by which we perceive ourselves, and the world, in terms of what constitutes a “modern society.” Chemistry draws heavily on all of the sciences and it contributes in many ways to all the other sciences. Chemistry is the servant science because it supplies descriptions and understanding of many kinds of matter that are studied in other sciences. The objectives of the faculty in chemistry include:

1. the provision of high-quality undergraduate education to students seeking a career in the chemical industry, to those wishing to pursue a graduate degree in chemistry, and to those wishing to teach chemistry at the secondary level, and to those pursuing careers in areas requiring substantial background in chemistry such as medicine and forensic sciences;
2. the introduction of the philosophy and fundamentals of chemistry to students who are satisfying General Education requirements;
3. the broadening of scientific literacy;
4. provide opportunities for students to be involved in scientific research.

Students desiring the best preparation for graduate work and professional careers should pursue the BA degree. Those desiring to teach chemistry at the secondary level should earn the BSEd degree.
Geosciences

The Geosciences are among the most important fields of study in our highly technological world. It brings together a study of our energy resources, mineral deposits, land utilization, water resources, the atmosphere, planetary exploration, and the universe into one complex and interrelated discipline. Earth scientists are constantly examining each of these areas relative to mankind’s present and future needs in an attempt to maintain the quality of life on this planet earth.

The primary objectives of the geosciences curriculum are:

1. To prepare students as professional geologists for jobs with the petroleum industries, regulatory agencies, civil service positions, and for the continuation of studies in graduate school.
2. To prepare motivated, innovative, competent, and professional earth science teachers.
3. To give non-geoscience science majors a stimulating and comprehensive background in the earth sciences to prepare them to fulfill their role as knowledgeable and informed citizens who will direct the future growth of this country.

Radiologic Technology

The Radiologic Technology program is designed to prepare graduates with the knowledge, clinical experience, and critical thinking skills needed for a successful career in the healthcare system as radiologic technologists. Working with radiologists, radiologic technologists (radiographers) use their knowledge of physics and human anatomy to create medical images to diagnose disease or injury. Various types of imaging instruments may be used by radiographers.

The Radiologic Technology program involves two to three years of course work at Minot State University. To work as radiologic technologists, students will have to pass the American Registry of Radiologic Technology (ARRT) national registry exam. The objectives of the BS major in Radiologic Technology are:

1. To prepare students with the background needed in the sciences and other disciplines for a career as radiologic technologists, and
2. To prepare students for admission to an accredited clinical education program, which will provide students with the necessary clinical experiences and prepare them for the ARRT exam.

University Teacher Education Policies

Refer to Teacher Education and Policies (p. 283) section of the catalog for details regarding Teacher Education at Minot State University. These pages will explain admission, retention, and exit requirements of the program for biology, chemistry, earth science, physical science, and physics majors in Teacher Education.

Division Teacher Education Requirements

In addition to University-wide teacher education retention policies listed above, science majors in the BSEd degree programs must:

1. Select an advisor in the Division of Science within the department of their major to coordinate course work within their major.
2. Select an advisor within the Division of Science’s Science Education faculty to coordinate course work within Science Education.
3. Apply to the Division of Science to be recommended for Admission to Teacher Education. Minimum requirements for recommendation are:
   a. Completed General Education communications requirement with a minimum GPA of 2.50 with no grade lower than a “C.”
   b. Basic Skills Test (PPST) with satisfactory scores.
   c. Minimum cumulative GPA of 2.50 for all course work taken.
   d. Evidence of having completed speech and hearing tests.
   e. Completed autobiography stating reasons teaching was chosen as a profession.
   f. Recommendations from two faculty within the Division of Science.
   g. Minimum GPA of 2.50 within the major (at least 8 credits completed).

Once admitted to Teacher Education students must:

1. Maintain a GPA of 2.50 for all course work taken.
2. Maintain a GPA of 2.50 within their major.
3. Apply to the Division of Science at least two semesters before student teaching.
4. Complete the required science teaching methods courses before student teaching.

All students majoring in another division or department and planning to teach with a minor in the sciences must submit their credentials to the Division of Science for review at least two semesters before student teaching.
The Division of Science will initially approve pre-service teachers. In addition, each candidate’s progress is reviewed each semester, in accordance with standards set by the University and the Division.

CHEM Courses

CHEM 110. Survey of Chemistry. 4 Hours.
An introductory course covering topics that concern students’ everyday lives. This course is designed for liberal arts and general education students. The course consists of an introduction to the science and includes historical perspectives. The course is intended to present chemistry in its broad culture, social, and economic context. Lecture, 3 hours; laboratory, 2 hours.

CHEM 110H. Honors Survey of Chemistry. 4 Hours.
An introductory course covering topics that concern students’ everyday lives. This course is designed for liberal arts and general education students. The course consists of an introduction to the science and includes historical perspectives. The course is designed to present chemistry in its broad cultural, social, and economic context. Assignments will include investigation of specific topics and written descriptions of the findings. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 115. Introductory Chemistry. 4 Hours.
Presents knowledge of concepts of chemical principles in greater depth and with more mathematical applications than in CHEM 110. Includes studies of general inorganic principles. Lecture, 3 hours; laboratory, 2 hours.

CHEM 115H. Honors Introductory Chemistry. 4 Hours.
This course introduces concepts in general, organic, and biochemistry. Topics likely to be covered include: measurement, atoms, molecules, elements, the periodic table, nuclear chemistry, compounds, bonds, molecular geometry, classes of organic compounds, gases, liquids, solutions, chemical reactions, solutions, acids, bases, and biochemical compounds. Assignments will include investigation of specific topics and written descriptions of the findings. Lecture, 3 hours; laboratory, 3 hours. Corequisite: Math 102 or 103. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 121. General Chemistry I. 5 Hours.
This course is the first of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: matter, measurement, atoms, ions, molecules, reactions, chemical calculations, thermochemistry, bonding, molecular geometry, periodicity, and gases. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Corequisite: MATH 103.

CHEM 121H. Honors General Chemistry I. 5 Hours.
This course is the first of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: matter, measurement, atoms ions, molecules, reactions, chemical calculations, thermochemistry, bonding, molecular geometry, periodicity, and gases. Note: Chem 121 and 121L must be taken concurrently. Assignments will include investigations of specific topics and written descriptions of the findings. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Corequisite: Math 103. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 122. General Chemistry II. 5 Hours.
This course is the second of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: intermolecular forces, liquids, solids, kinetics, equilibria, acids, bases, solution chemistry, precipitation, thermodynamics, and electrochemistry. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Prerequisite: CHEM 121.

CHEM 122H. Honors General Chemistry II. 5 Hours.
This course is the second of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: intermolecular forces, liquids, solids, kinetics, equilibria, acids, bases, solutions chemistry, precipitation, thermodynamics, and electrochemistry. Assignments will include investigation of specific topics and written descriptions of the findings. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Corequisite: Math 103. Prerequisites: CHEM 121H/121HL, Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 127. Chemistry of the Environment. 4 Hours.
This course is unique in that it uses topics of concern/interest to facilitate the learning and understanding of the scientific concepts behind them. The course will use current environmental topics, such as our atmosphere, global warming, energy, the ozone layer and water quality, to bring forward important chemical concepts as naming, bonding, stoichiometry, energetics, pH and chemical reactions. The course will also bring an interdisciplinary flavor to the material, discussing such topics as the carbon cycle and biological contributions, how earth processes may affect the quality of our drinking water and the effect of acid rain on the earth (both in terms of the geology and the ecosystem).

CHEM 227. Principles of Environmental Chemistry. 4 Hours.
Designed to provide students with a basic introduction to Environmental Chemistry. The course will introduce students to the environmental pathways, toxicology, and organic and inorganic environmental contaminants. The students will also study various processes in the environment, including those in air, soil, and water. Depending on time, the students may also be introduced to the management of hazardous chemicals. Prerequisite: Student must complete CHEM 127 before enrolling in this course.

CHEM 230. Quantitative Analysis. 5 Hours.
A course in quantitative chemistry including gravimetric and volumetric analysis, statistical treatment of data, and an introduction to some instrumental analysis. Lecture, 3 hours; laboratory, 6 hours. Prerequisites: CHEM 122.
CHEM 240. Fundamentals of Organic Chemistry. 5 Hours.
Theory of bonding and structure in organic molecules and their reactions. An emphasis on functional groups related to biological molecules. This course presents the minimum preparation for CHEM 480. Offered in the spring. Lecture, 4 hours; laboratory, 2 hours. Prerequisite: CHEM 122.

CHEM 299. Special Topics. 1-8 Hour.

CHEM 341. Organic Chemistry I. 5 Hours.
A study of different classes of organic functional groups, their nomenclature, reactions, and properties. An introduction to Infrared and Nuclear Magnetic Resonance Spectroscopy is included. Offered in the fall. Lecture, 3 hours; laboratory, 3 hours; recitation, 1 hour. Prerequisite: CHEM 122.

CHEM 342. Organic Chemistry II. 5 Hours.
A continuation of CHEM 341. A study of the chemical and mechanistic properties of organic functional groups. Offered in the spring. Lecture, 3 hours; laboratory, 3 hours; recitation, 1 hour. Prerequisite: CHEM 341.

CHEM 360. Principles of Physical Chemistry. 4 Hours.
This course is designed for students interested in chemical education at the secondary level. Topics include gas laws, thermodynamics, equilibria, kinetics, quantum mechanics and spectroscopy. Offered alternate years. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: CHEM 230 and MATH 107.

CHEM 380. Environmental Chemistry. 4 Hours.
The course examines the interaction of chemical substances with the environment. Emphasis is placed on water quality and air quality. Offered alternate years. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: CHEM 230.

CHEM 420. Inorganic Chemistry. 3 Hours.
An advanced course in inorganic chemistry, including theories of covalent and ionic bonding, crystalline structure, coordinate covalent bonding, group theory, and coordination chemistry. Offered alternate years. Lecture, 3 hours. Prerequisites: CHEM 122, MATH 165.

CHEM 422. Inorganic Synthesis. 1 Hour.
Applied techniques in inorganic synthesis and compound characterization. Offered on demand. Laboratory, 3 hours. Prerequisite: Consent of instructor. Corequisite: CHEM 420.

CHEM 430. Instrumental Analysis. 5 Hours.
A survey of instrumental methods used for chemical analysis. These methods include molecular absorption, atomic absorption and emission, fluorescence and phosphorescence, infrared absorption chromatography, nuclear magnetic resonance and mass spectrometry. Offered alternate years. Lecture, 3 hours; laboratory, 6 hours. Prerequisite: CHEM 230.

CHEM 440. Organic Spectroscopy. 3 Hours.
Identification of organic molecules via spectroscopic methods. Methods studied include infrared, UV-visible, proton and carbon-13 nuclear magnetic resonance, and mass spectrometry. Offered alternate years. Lecture, 2 hours; laboratory, 2 hours. Prerequisite: CHEM 342.

CHEM 442. Medicinal Chemistry. 3 Hours.
This course is designed for students interested in medicinal applications of organic chemistry and for students interested in continuing their education in medicine, pharmacy, and other health related fields. The course offers the study of major classes of medicinal compounds presented in a broad historic and cultural perspective of the development of medicinal chemistry from the first attempt to synthesize quinine in the early XIX century to modern days' antibiotics. Offered alternate years. Lecture, 3 hours. Prerequisite: CHEM 342 and junior or senior status.

CHEM 461. Physical Chemistry I. 4 Hours.
This course is the first of a two-semester sequence of calculus-based physical chemistry for chemistry majors. Topics covered include thermodynamics and equilibrium. Offered alternate years. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: CHEM 122, MATH 166, and PHYS 222.

CHEM 462. Physical Chemistry II. 4 Hours.
A continuation of CHEM 461. Topics include: quantum mechanics, molecular orbital theory, group theory, and spectroscopy. Offered alternate spring terms. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: CHEM 461.

CHEM 480L. Biochemistry Laboratory. 2 Hours.
A course covering theory and laboratory experience with a variety of techniques used in biochemistry. Laboratory, 6 hours. Prerequisite: CHEM 230. Corequisite: CHEM 481.

CHEM 481. Biochemistry I. 3 Hours.
Study of major classes of biological compounds, synthesis of macromolecules, enzyme kinetics, intermediary metabolism, and control mechanisms. Lecture, 3 hours. Prerequisite: BIOL 150 and CHEM 240 or 342.

CHEM 482. Biochemistry II. 3 Hours.
A continuation of CHEM 481 with more in-depth studies of particular pathways; particular emphasis is placed on medicinal chemistry and on corresponding clinical applications associated with the various pathways. Lecture 3 hours; Pre-requisite Chem 481.

CHEM 494. Directed Research in Chemistry. 1-6 Hour.
Students conduct research under the direction of a faculty mentor. The general topic and specific goals and activities are agreed upon by the student the mentor. The number of credits is proportional to the time committed to the research.
CHEM 497. Internship in Chemistry. 1-4 Hour.
A cooperative occupational training program in the field of chemistry or a related area. The course may be repeated in the same or different position. Prerequisite(s): Departmental approval and student must be a Chemistry or Chemistry Education major. Student must be at Junior or Senior status.

CHEM 499. Special Topics. 1-8 Hour.

GEOL Courses

GEOL 101. Environmental Geology with Lab. 4 Hours.
Mankind's interaction with the earth. Major environmental problems facing citizens today including: water resources, energy and mineral resources, and geologic hazards. Local field trips. Lecture, 3 hours; laboratory, 2 hours.

GEOL 101H. Honors Environmet Geology W/Lab. 4 Hours.
Mankind's interaction with the earth. Major environmental problems facing citizens today including: water resources, energy and mineral resources, and geological hazards. Laboratory time will focus on small-scale research projects, in-depth discussions of particular topics including current events, and local field trips. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: Honors Program admission of 3.30 cumulative GPA and permission of instructor.

GEOL 105. Physical Geology with lab. 4 Hours.
Earth as a physical body, its structure, composition, and the geologic processes acting on and within the earth. Designed especially for students with a specific interest in geology and for those students contemplating a major in sciences. Field trips. Lecture, 3 hours; laboratory, 2 hours.

GEOL 106. Historical Geology with lab. 4 Hours.
Earth through time, its origin, history, and the history and evolution of animal and plant life. Laboratory study of fossils, sedimentary rocks, and stratigraphic problems. Field trips. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: GEOL 105.

GEOL 108. Earth and Planetary Science. 4 Hours.
An introduction to the physical geology of Earth and astronomy, focusing on our solar system. Earth's materials and structure; internal and surficial processes that work to shape Earth; the history of the Earth. Introduction to astronomy, including the earth's moon, the planets, and minor bodies of our solar system, the sun, and the universe beyond our solar system. Lecture, 3 hours; laboratory, 2 hours.

GEOL 110. Earth Science by Inquiry. 4 Hours.
This course uses inquiry-based methods to explore observational astronomy and some of the physical principles that shape the earth. Students will explore heat and temperature, magnetism, and optics, as well as the paths of the sun, earth, and moon through space.

GEOL 127. Environmental Earth Systems. 4 Hours.
This course is an introduction to Earth Science with an emphasis on people's connections to environmental issues. Earth science is covered within an Earth systems framework with an emphasis on interactions, now the various Earth systems interact with one another. It also deals with how Earth interacts with people, including how Earth affects people (resources, hazards), and how people affect Earth in both positive and negative ways. An underlying concept in this course is stewardship: how people can live with Earth responsibly, working toward a sustainable future.

GEOL 210. Minerals & Rocks. 3 Hours.
Physical, chemical, structural, and optical properties of minerals; description and identification of common rock-forming and ore minerals; mineral associations and introduction to classification of common rock types. Field trips. Offered each spring. Lecture, 1 hour; laboratory, 2 hours. Prerequisite: GEOL 105.

GEOL 220. Introduction to GIS. 3 Hours.
Introduces students to theory and techniques of geographic information systems (GIS), which includes the discovery, management, analysis, and display of spatial data. GIS is a valuable tool in disciplines that deal with spatial data, including geography, history, field or environmental sciences, epidemiology, economics, and business. This course is equivalent to GEOG 289. Lecture, 2 hours; laboratory, 2 hours.

GEOL 227. Earth Materials and Analysis. 4 Hours.
A study of earth materials, including minerals, rocks, soil, and water, and the basic processes that relate them. It can be considered essentially a course on the rock cycle (materials and processes), and to some extent the hydrologic cycle, with some emphasis on the methods used to characterize and identify earth materials. The laboratory portion of the course will focus on forensic geology, the use of a variety of laboratory/instrumental techniques to characterize and identify earth materials. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: Students must complete GEOL 127 and CHEM 127 before enrolling in this course.

GEOL 240. Geology of North Dakota. 3 Hours.
Geology of North Dakota for including historical geology of North Dakota and surrounding areas; Precambrian basement rocks; Phanerozoic sedimentary rocks; glacial geology; relationships between geology and physical geography (landforms); and existing and potential economic resources of North Dakota. Weekend field trip(s) required. Lecture, 2 hours; laboratory, 2 hours. Prerequisite: GEOL 105.

GEOL 260. Energy Resources. 3 Hours.
A survey of energy resources including fossil fuels, renewable, nuclear and unconventional sources. Emphasis on origin, use and implications of development. 2 hours Lec, 3 hours Lab. Prerequisite: GEOL 105. Offered alternate falls.

GEOL 290. Regional Geology. 3 Hours.
A study of the geology of a particular region in the United States or abroad. Class time involves introduction to the geology and preparation for a field trip to the region. Field trip is typically 10-14 days long and may involve hiking and camping. Special fees required. May be repeated for credit. Lecture, 2 hours, field trip required. Prerequisite: GEOL 101 or GEOL 105 or consent of instructor.
GEOL 299. Special Topics. 1-8 Hour.

GEOL 300. Geologic Field Methods. 3 Hours.
Geologic mapping and sampling techniques. Students use basic mapping instruments, gather data and record it while in the field, and construct complete and accurate geologic maps. Offered alternate falls. Lecture, 1 hour; laboratory, 4 hours. Prerequisites: GEOL 106 and 210 or consent of instructor.

GEOL 305. Methods in Mineral and Petrology. 2 Hours.
Application of modern laboratory methods to the study of minerals and rocks. Methods include optical and scanning electron microscopy, analysis of bulk materials by ICP-ACES and XRD, and EDX macroanalysis of minerals. Offered alternate fall semesters. Laboratory: 6 hours. Prerequisite: Students must complete GEOL 210 before enrolling in this course.

GEOL 307. Igneous & Metamorphic Petrology. 3 Hours.
Description and classification of igneous and metamorphic rocks based on mineralogy, textures, and chemical compositions; study of the origins of rocks through laboratory investigation of suites of related rocks. Field trips. Offered alternate springs. Lecture, 2 hours; laboratory, 2 hours. Prerequisite: GEOL 305.

GEOL 311. Paleontology. 4 Hours.
Fossilization, classification, evolution, and paleoecology. Geologic history and identification of major invertebrates phyla. Laboratory emphasizes fossils identification. Offered alternate falls. Field lecture, 2 hours; laboratory, 4 hours. Prerequisites: GEOL 106 and BIOL 151.

GEOL 320. Oceanography. 3 Hours.
Nature, origin, and evolution of ocean basins and sea water. Sea water chemistry, movement, and ability to support life. Life forms. Lecture, 2 hours; laboratory, 2 hours. Prerequisite: GEOL 105.

GEOL 321. Hydrogeology. 3 Hours.
Surface water hydrology; runoff and stream flow; groundwater hydrogeology: distribution of groundwater, aquifer properties, and regional groundwater flow, geology of groundwater occurrence; groundwater resource development and management; water law. Offered alternate springs. Lecture, 2 hours; laboratory, 3 hours. Prerequisite: GEOL 210.

GEOL 322. Geomorphology. 4 Hours.
Processes that shape the Earth’s surface. Effects of rock type, geologic structure, and climate on the formation and evolution of land forms. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: GEOL 210.

GEOL 323. Global Climate Change. 3 Hours.
Examination of physical, chemical, and biological processes that cause environments to change naturally or under the influence of human activities. Consideration of small watersheds, large lake systems and global atmospheric-ocean systems including meteorological processes. Emphasis on positive and negative feedback in controlling environments and their susceptibility to change. Pre-Requisite: Geol 101 or Geol 105 or Geol 108.

GEOL 331. Soils. 4 Hours.
Principles of soils including formation, properties, and classification. This course includes the use of soils information in environmental applications. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: GEOL 210.

GEOL 340. Chemistry of Natural Waters. 4 Hours.
Principles of aqueous chemistry, interactions between water and geologic materials, and the chemical nature of various natural waters; includes both fresh and saline waters found in both surface water environments (streams, lakes, oceans) and subsurface environments (vadose zone and saturated zones). Lecture, 3 hours; laboratory, 2 hours. Prerequisite: GEOL 210. Co-requisite: CHEM 121.

GEOL 361. Structural Geology. 4 Hours.
Stress, strain, mechanical behavior of rocks; description and interpretation of folds, faults, joints, and foliation; tectonic processes; interpretation of geologic maps and field data. Field trip. Offered alternate springs. Lecture, 2 hours; laboratory, 6 hours. Prerequisite: GEOL 210.

GEOL 390. Regional Field Geology. 3 Hours.
Application of geologic field methods to a particular area or areas. Field work focuses on rock unit descriptions, stratigraphic section measurement, and geologic mapping in areas of moderately complex geology. One hour of lecture per week is used to prepare for field work. The field work requires a 15-day trip. Prerequisite: GEOL 300.

GEOL 394. Independent Study General Es. 1-4 Hour.

GEOL 410. Advance Earth Science by Inquiry. 4 Hours.
Course involving aiding instructors in Earth Science by Inquiry (GEOL 110). Students will conduct oral interviews with GEOL 110 students during GEOL 110 class to determine their progress. Students will be required to learn plate tectonics and observational astronomy in depth during class preparation periods. Course exposes future secondary science teachers to inquiry methods in earth science and teaches them alternate reasoning methods that can be used at a variety of instructional levels. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: Consent of instructor.

GEOL 411. Field Geology. 6 Hours.
The methods of geology, including the preparation of stratigraphic columns, cross sections and geologic maps integrated with paleoenvironmental interpretation and structural history. Students must write professional level reports. Offered in summer. Prerequisites: GEOL 361, 471, and consent of instructor.

GEOL 421. Applied Hydrogeology. 3 Hours.
Mass transport in vadose and saturated zones; origin and behavior of inorganic and organic contaminants; investigative techniques; groundwater models; site remediation. Lecture, 2 hours; laboratory, 3 hours. Prerequisites: GEOL 321.
**GEOL 471. Sedimentation and Stratigraphy. 4 Hours.**
Origins, characteristics, and classification of sedimentary rocks. Techniques of study, interpretation of data, lithostratigraphy, biostratigraphy, chronostratigraphy, and correlation. Offered alternate falls. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: Student must complete GEOL 106 and 210 before enrolling in this class.

**GEOL 494. Directed Research in Geology. 1-2 Hour.**
Students conduct research under direction of a faculty mentor. The topic and goals are agreed to by student and mentor in writing at the beginning of the research. A requirement for successful completion of a second credit of GEOL 494 on a project is that the student will submit an acceptable draft of a research paper that includes introduction/background, methods, and results. Repeatable for credit.

**GEOL 497. Co-Op Practicum. 4-8 Hour.**

**GEOL 499. Special Topics. 1-8 Hour.**

**PHYS Courses**

**PHYS 110. Astronomy. 4 Hours.**
A study of the universe that begins with the earth as a planet, the planets and the satellites of our solar system, and moves out through stellar astronomy to galaxies and into the very fabric of the universe. It includes an evaluation of the methods and techniques of astronomy. Offered fall semester. Both day and night laboratories. Lecture, 3 hours; laboratory, 2 hours.

**PHYS 110H. Honors Astronomy. 4 Hours.**
A study of the universe that begins with the earth as a planet, the planets and the satellites of our solar system, and moves out through stellar astronomy to galaxies and into the very fabric of the universe. Explicit training in use of the full spectrum of the MSU observatory equipment. Offered fall semester. Both day and night laboratories. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of instructor.

**PHYS 203. Introduction to Physics I. 4 Hours.**
Elementary laws and principles of mechanics and fluids. Lecture, 2 hours; laboratory, 2 hours; recitation, 2 hours. Prerequisite: MATH 103.

**PHYS 204. Introduction to Physics II. 4 Hours.**
Elementary laws of electricity and magnetism, optics, and modern physics. Lecture, 2 hours; laboratory, 2 hours; recitation, 2 hours. Prerequisite: PHYS 203.

**PHYS 221. General Physics I. 5 Hours.**
Newton's laws; work and energy; impulse and momentum; angular momentum; oscillations; gravity; wave motion; thermodynamics. Lecture, 3 hours; laboratory, 2 hours; recitation, 2 hours. Corequisite: MATH 165.

**PHYS 221H. Honors General Physics I. 5 Hours.**
Newton's Laws; work and energy; impulse and momentum; angular momentum; oscillations; gravity; wave motion; thermodynamics. Emphasis on sophisticated quantitative reasoning, order of magnitude estimation, in-depth application of calculation, and physical underpinnings of other sciences and technology. Lecture, 3 hours; laboratory, 2 hours; recitation, 2 hours. Prerequisite: Math 165 and admission to the honors program or 3.30 cumulative GPA and permission of instructor.

**PHYS 222. General Physics II. 5 Hours.**
Electricity; Gauss' laws and potential difference; magnetism; Maxwell's equations; optics; introduction to modern physics. Lecture, 3 hours; laboratory, 2 hours; recitation, 2 hours. Prerequisite: PHYS 221. Corequisite: MATH 166.

**PHYS 222H. Honors General Physics II. 5 Hours.**
Electricity; Gauss' laws and potential difference; magnetism; Maxwell's equations; optics; introduction to modern physics. Emphasis on sophisticated quantitative reasoning, order of magnitude estimation, in-depth application of calculus, and physical underpinnings of other sciences and technology. Lecture, 3 hours; laboratory, 2 hours; recitation, 2 hours. Corequisite: Math 166 Prequisite: Honors program admission.

**PHYS 299. Special Topics. 1-8 Hour.**

**PHYS 394. Independent Study General Phys. 1-4 Hour.**

**PHYS 494. Independent Study Honors Phys. 1-8 Hour.**

**PHYS 499. Special Topics. 1-8 Hour.**

**SCI Courses**

**SCI 95. Interconnecting Perspectives in Science. 0 Hours.**
Science 095 examines how to present important scientific concepts to students from a diversity of backgrounds including different cultures, different learning styles, different ages, different genders, different physical abilities and different intellectual abilities.

**SCI 240. Research Methods. 2 Hours.**
This course will introduce students to library skills, computer skills and communication skills used to plan and carry out research projects. Students will search for, read, and discuss journal articles; write and edit project proposals; and learn basic data management and analysis skills. Prerequisite: sophomore, junior, or senior status.
SCI 299. Special Topics. 1-8 Hour.

SCI 301. Biogeochemical Cycles. 3 Hours.
A broad overview of global biogeochemical process, including the origin of elements, Earth evolution, evolution of biogeochemical cycles, biogeochemical cycles of major elements such as carbon, nitrogen, phosphorous, and sulfur, cycles of select trace elements, interactions of biogeochemical cycles, biogeochemistry of various ecosystems, and environmental biogeochemistry. Lecture, 3 hours. Prerequisite: Student must take BIOL 127, CHEM 127, or GEOL 127 before enrolling in this course.

SCI 391. Teaching Science in Secondary Schools. 3 Hours.
Study of science teaching in middle school and high school grades with emphasis on clinical experience. Basic techniques for all disciplines are individualized in practice. Emphasis on teaching an investigative approach to science. Prerequisite: Admission to Teacher Education.

SCI 394. Independent Study General Sci. 1-4 Hour.

SCI 426. Elementary Science Methods. 4 Hours.
Study of basic concepts of science within a framework of elementary school teaching methodology. Interpretation of science content, learning theory, curriculum approaches, instructional strategies, and lesson planning are emphasized. Includes extensive clinical experience. Lecture, 4 hours. Prerequisite: Admission to Teacher Education and ED 320. Corequisites: ED 320, 421, 422, 423, 424.

SCI 480. Seminar. 3 Hours.
Students present and discuss original student research project in both written and oral forms. To enroll, students must have completed their research and must have written the Introduction, Methods, and Results components of the research paper. Time in this course is also dedicated to a review of fundamental aspects of the discipline of their major and successful completion of a comprehensive exam. Prerequisites: senior status; and 2 credits of CHEM 494 or GEOL 494, or permission of instructors.

SCI 494. Independent Study Honors Sci. 1-8 Hour.

SCI 499. Special Topics. 1-8 Hour.

SCI 240  Research Methods
SCI 480  Seminar

Minor/Concentration/Electives

These should be chosen in consultation with your advisor to best prepare you for your career field. Example programs may include: 44-45

Pre-Health Professional
Biol 150  Introduction To Cellular Biology
Biol 151  Introduction to Zoology
Biol 154  Introduction To Botany
Biol 202  Introductory Microbiology
Biol 220  Anatomy And Physiology I
Biol 221  Anatomy And Physiology II
Biol 215  Genetics
Biol 250  Cellular Biology
Biol 335  Comparative Vertebrate Anatomy
Biol 401  Population Genetics

Geochemistry
Geol 105  Physical Geology with lab
Geol 210  Minerals & Rocks
Geol 321  Hydrogeology
Geol 240  Geology of North Dakota
Geol 421  Applied Hydrogeology
Chem 380  Environmental Chemistry

Chemical Business
Acct 200  Elements of Accounting I
Acct 201  Elements of Accounting II
Acct 315  Legal Environment of Business
BADM 301  Fundamentals of Management
BADM 321  Marketing
BADM 427  International Marketing
BADM 436  Organizational Behavior Principles and Practices
Econ 201  Principles of Microeconomics
Econ 202  Principles of Macroeconomics
Fin 353  Corporation Finance

Electives

Forensic Chemistry (Criminal Justice Minor)
CJ 201  Introduction to Criminal Justice
CJ 300  Policing
CJ 330  Criminological Theory
CJ 340  Juvenile Justice System
CJ 380  Corrections
Legl 322  Criminal Law
Legl 370  Court Processing and Sentencing

### Second Major/Minor/Concentration(s)/Electives

Total Hours: 32

All transfer course work must be approved by the Geoscience program before it will be accepted for substitution into the geology major.

It is strongly recommended that geology majors in the BA curriculum select a minor and/or concentrations from the following: chemistry, physics, environmental geology, mathematics, or computer science.

### Bachelor of Science in Education with a Major in Earth Science

</tbody>
</table>

Bachelor of Science with a Major in Radiologic Technology (124-126 cr)

This curriculum is designed for students who wish to complete a full Bachelor’s degree at MSU. Once a student has completed all of the necessary on-campus course work they then enroll for two years of clinical training at any accredited school of radiologic technology. There are five of these schools in North Dakota, one of which is in Minot. These schools are separate from the University, and admission to them is competitive. Admission to clinical training is the sole prerogative of the individual hospital-based program. Admission to Minot State University does not guarantee acceptance into clinical training. Students pursuing the BS degree must enroll at Minot State during the two years of clinical training and pay full tuition and fees each semester. Students who require financial aid from Minot State University during the summer months of clinical training are allowed to register as full-time students. Students receive a minimum of 52 semester credits for clinical training.

Once a student has been accepted into a radiologic technology school, they then apply to the Division of Science for permission to enroll in RAD 405 Radiologic Technology Clinical. RAD 405 Radiologic Technology Clinical carries the prerequisite of acceptance into the Radiologic Technology program. Students pursuing this program would, upon successful completion of the program, be granted a BS degree from Minot State. They would also be eligible to take the American Registry for Radiologic Technologist (AART) Examination to become certified as a registered radiologic technologist/radiographer. MSU maintains, where feasible, tuition agreements with radiologic technology schools for students pursuing the BS degree.

Transfer students are required to meet all of the MSU residency requirements, the General Education requirements, and to take a minimum of 12 credits of the required course work for the major at MSU. Credits from clinical study cannot be used to meet any of these requirements. No student who is already a registered radiologic technologist/radiographer may be accepted into RAD 405 Radiologic Technology Clinical.

General Education

General Education courses 38-40

Radiologic Technology majors are required to take the following specific courses which may also be used to help satisfy the General Education requirements.

MATH 107 Precalculus
PHYS 203 Introduction to Physics I
PHYS 204 Introduction to Physics II
PSY 111 Introduction to Psychology
SOC 110 Introduction to Sociology

Required Courses

BIT 220 Management Information Systems 3
BIOL 220 Anatomy And Physiology I 4
BIOL 221 Anatomy And Physiology II 4
CHEM 115 Introductory Chemistry (& CHEM 115L) 4
CSCI 101 Introduction to Computer Science 3
HMS 208 Medical Terminology 2
KIN 431 Kinesiology 3
MATH 210 Elementary Statistics 4
PHIL 210 Ethics 3
PSY 270 Abnormal Psychology 3
RAD 102 Introduction to Radiologic Technology 1

Clinical Experience

4 Semesters at 13 Credits per Semester 52

Total Hours 124-126
Pre-Professional Programs

Pre-Medicine

Advisors: Dr. Heidi Super, Dr. Robert Crackel

Pre-med is not a major, it is a program of study which prepares a student to apply to medical school. Although some medical schools require only three years of undergraduate work, the majority prefer that the entering student have a bachelor's degree. The University of North Dakota (UND) Medical School (and most others) does not care what kind of academic major a prospective student is pursuing, as long as a particular core of coursework is achieved. Prospective university medical students are strongly urged to declare a major area of study and to pursue a degree program at the baccalaureate level. The philosophy of education, required pre-medicine courses, and systems of training vary among the medical schools. All recognize the desirability of a broad education, a good foundation in the natural sciences (mathematics, chemistry, biology, physics), highly developed communication skills, and a solid background in the social sciences and humanities. At the UND School of Medicine the required minimum of university coursework includes:

<table>
<thead>
<tr>
<th>Course</th>
<th>Core Courses</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 121</td>
<td>General Chemistry I (CHEM 121L)</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 122</td>
<td>General Chemistry II (CHEM 122L)</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 341 &amp; CHEM 342</td>
<td>Organic Chemistry I &amp; Organic Chemistry II</td>
<td>10</td>
</tr>
<tr>
<td>COMM 110</td>
<td>Fundamentals of Public Speaking</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 110 &amp; ENGL 120</td>
<td>College Composition I &amp; College Composition II</td>
<td>6</td>
</tr>
<tr>
<td>MATH 103</td>
<td>College Algebra</td>
<td>4</td>
</tr>
<tr>
<td>PHYS 203 &amp; PHYS 204</td>
<td>Introduction to Physics I &amp; Introduction to Physics II</td>
<td>8</td>
</tr>
<tr>
<td>One year of Biology, Psychology, and/or Sociology</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>41</strong></td>
</tr>
</tbody>
</table>

Other medical schools have similar requirements but their catalogs should be consulted. It is recommended that pre-med students at Minot State take more than the minimum requirements. Serious students should, in addition, consider courses such as:

<table>
<thead>
<tr>
<th>Course</th>
<th>Core Courses</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 202</td>
<td>Introductory Microbiology</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 220 &amp; BIOL 221</td>
<td>Anatomy And Physiology I &amp; Anatomy And Physiology II</td>
<td>8</td>
</tr>
<tr>
<td>BIOL 215</td>

<td>3</td>
</tr>
<tr>
<td>MATH 210</td>
<td>Elementary Statistics</td>
<td>4</td>
</tr>
<tr>
<td>Computer Science Courses</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>35</strong></td>
</tr>
</tbody>
</table>

Pre-med students are also encouraged to take part in an undergraduate research project while at MSU. High school students wishing to follow a pre-med track as an undergraduate should take at least one year each of biology, chemistry, and physics, and two or more years of math while in high school in order to be prepared for college coursework.

Non-degree advising: Pre-Medicine

This is a non-degree program. General Education categories are shown for appropriate courses for information only. There is no requirement that these students complete the MSU General Education requirements, nor is there any requirement that they earn 120 cr.

## Pre-Optometry

Advisors: Dr. Heidi Super, Dr. Robert Crackel

Admission to a college of optometry requires a high school diploma and two to four years of study at an accredited college or university. Most students accepted to colleges of optometry have completed three years of college and a large percentage have bachelor’s degrees. In high school the students should take at least one year of biology, chemistry, and physics, and should take as much mathematics as possible, including algebra, geometry, and trigonometry. The curriculum at the University will depend on the individual student’s interest and the college of optometry where the student plans to apply. Each student will take a minimum of one year of biology, chemistry, physics, mathematics, and English. Students planning to seek tuition support from North Dakota for out of state schools should notify both the North Dakota State Board of Higher Education and their University advisor.

### Non-degree advising: Pre-Optometry

This is a non-degree program. General Education categories are shown for appropriate courses for information only. There is no requirement that these students complete the MSU General Education requirements, nor is there any requirement that they earn 120 cr.

**Pre-Pharmacy**

Advisors: Dr. Robert Crackel, Dr. Mikhail Bobylev

The majority of colleges of pharmacy require students to have a minimum of two years of study at an accredited college or university prior to admission. An increasing number of pharmacy colleges are requiring a four year degree for admission. The Pre-Pharmacy program at Minot State is designed to meet the interests of students as well as to satisfy the entrance requirements for the particular pharmacy school. Admission into a school of pharmacy is on a competitive basis. The criteria for admission include grade point average (especially in the sciences), performance on the pharmacy college admission test (PCAT), and relevant experience in the field of pharmacy. The only school of pharmacy in North Dakota is at North Dakota State University. Courses that satisfy the Pre-Pharmacy curriculum at NDSU include Microbiology, Intro to Cellular Biology, Anatomy and Physiology I and II, General Chemistry I and II, Organic Chemistry I and II, Biochemistry, Microeconomics, College Composition I and II, Calculus I and II, Statistics, Physics I, and Fundamentals of Public Speaking. Other medical schools have similar requirements but their catalogs should be consulted. It is recommended that pre-med students at Minot State take more than the minimum requirements.

**Non-degree advising: Pre-Pharmacy**

**Pre-Veterinary Medicine**

Advisor: Dr. Heidi Super, Dr. Robert Crackel

It is suggested that students interested in applying to veterinary school pursue a degree in one of the sciences and take specific courses to meet admission requirements. Note that admission to veterinary school is highly competitive. Students planning to seek tuition support from the state of North Dakota should notify both the North Dakota State Board of Higher Education Office and their advisor. Although specific requirements vary, the following list of Minot State courses based on the University of Minnesota list is typical:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Hours</th>

**Division of Social Science**

**Chair of Social Science**

Dr. Daniel Ringrose | email: daniel.ringrose@minotstateu.edu

The Division of Social Science at Minot State University encompasses the disciplines of Economics, Geography, History, Philosophy, Political Science and Sociology. The division's programs offer BA, BSE, minor, and concentration options. Students seeking a Bachelor of Arts degree may major in History, Sociology, or Social Science. Students seeking a North Dakota secondary education teaching license can pursue the History BSE or Social Science BSE degree. At one point or another the vast majority of MSU students will take courses in the division to satisfy their general education history, social science, and diversity requirements. Also, students are encouraged to consider declaring a minor or concentration in one or more Social Science area, as this training extends and complements many other majors. Please see each specific area for more detail.

**Areas with Majors include:**

History BA, History BSEd (teacher preparation) | Contact History faculty for advising

Social Science BSEd (teacher preparation) | Contact History faculty for advising

Social Science BA | Contact any Social Science Division faculty for advising
Areas with Minors and/or Concentrations include:

Economics (Minor & Concentration) | Contact Economics faculty for advising
Geography (Minor & Concentration) | Contact Geography faculty for advising
History (Minor & Concentration) | Contact History faculty for advising
Native American Studies (Minor & Concentration) | Contact Dr. Jastrzembski for advising
Philosophy (Minor & Concentration) | Contact Dr. Kelly for advising
Political Science (Concentration) | Contact Dr. Larshus for advising
Sociology (Minor & Concentration) | Contact Sociology faculty for advising

Economics

Department Coordinator: Daniel Ngugi (PhD).

Economics is the study of how individuals, businesses, and governments, make decisions on the use of what is available to them, in order to satisfy their needs. These needs may include maximizing happiness, maximizing profits, or getting the best outcomes for the society at large. At the economics department we offer courses and experiences that provide the tools to guide the decision making process. Graduates in economics are in great demand in business, government, non-profits, and academia. The courses we offer at the department support the Energy Economics and Finance major (in the college of business), and the general education curriculum. Additionally, we offer a minor in economics—for both teaching and non-teaching degree seeking students—as well as a concentration. Many of our courses are offered on the campus, online, and at the Minot Air Force base.

Total Hours: 12
Courses

ECON 201. Principles of Microeconomics. 3 Hours.
Supply and demand, price and output determination in the product and resource markets, consumer demand, elasticity, costs and profits, and intentional trade.

ECON 202. Principles of Macroeconomics. 3 Hours.
Nature, method, and scope of economic analysis; nature of economic growth; inflationary tendencies and unemployment, monetary and fiscal policies, international finance. (May be taken before 201.).

ECON 299. Special Topics. 1-8 Hour.

ECON 312. Price Theory. 3 Hours.
Analysis of individual consumer demand, principles of production, costs, pricing and output decisions under different market structures. Prerequisite(s): ECON 201.

ECON 314. National Income Analysis. 3 Hours.
Study of major movements in national income, production, employment, price levels, as well as policy related to growth and equilibrium. Prerequisite(s): ECON 202.

ECON 315. Labor Economics. 3 Hours.
Survey of labor-management relations that examines the policies and objectives of labor unions history and government, organizing, and bargaining, economics of the labor market and wage determination, government control and major laws that affect labor-management relations. Prerequisites: ECON 201 and 202.

ECON 318. Money and Banking. 3 Hours.
Nature and function of U.S. depository institutions (especially commercial banks, saving and loans, and credit unions); their regulation with particular emphasis on the Federal Reserve System's monetary policy and instruments of control and an introduction to monetary theory. Prerequisites: ECON 201 and 202.

ECON 320. Environ and Nat Resource Econ. 3 Hours.
This class engages students in standard economic theory through the lens of environmental issues such as global climate change and overpopulation. The approach of this class combines traditional microeconomic analysis with a detailed examination of macro-level ecological problems that require local, national, and global policy solutions. It discusses how to utilize natural resources efficiently and issues related to the usage of natural resources. Prerequisite(s): ECON 201.

ECON 394. Independent Study General Econ. 1-4 Hour.

ECON 410. Managerial Economics. 3 Hours.
Managerial Economics is an application of the part of Microeconomics that focuses on the topics that are of greatest interest and importance to managers. The purpose of learning this subject is to help managers make better decisions. Topics include demand and cost analysis, market structure, pricing decision, and government regulations. Some powerful analytical tools such as regression analysis, business forecasting, and linear programming will also be covered to assist the decision making process. Prerequisites: ECON 201 and 202.

ECON 414. International Economics. 3 Hours.
Study of the causes for international trade, classical and neoclassical models of international trade, the movement for money, goods, and factors for production over national boundaries, role of trade barriers and balance of payments. Prerequisites: ECON 201 and 202.

ECON 418. History of Economic Thought. 3 Hours.
Study of evolution of economic thought under different social and political background, like mercantilism, physiocracy, classical economies, historical school and Socialist doctrines. Prerequisites: ECON 201 or 202.

ECON 419. Economic Planning & Development. 3 Hours.
Study of basic techniques and methods in planning which facilitate various levels of economic development. The application of the planning strategies necessary to effect desirable economic development is also undertaken. Prerequisites: ECON 201 and 202.

ECON 421. International Energy Markets. 3 Hours.
This course introduces students to the International Energy Markets. It will examine energy industry market structure and how it relates to business decision making. The course will provide fundamental economic knowledge needed to implement decisions related to the energy industry. It will review supply and demand structures of the energy market as well as various energy forecasting methodologies. The course will use energy data analysis methodology as a tool for analyzing future energy requirements. Prerequisites: ECON 320 and 312.

ECON 494. Independent Study Honors Econ. 1-8 Hour.

ECON 499. Special Topics. 1-8 Hour.

Elect two 200-400 level GEOG courses 6

**Total Hours** 12

**Courses**

**GEOG 110. Introduction to Geography. 3 Hours.**
Study of geography in a modern context and its synthesizing role in relation to both physical and social sciences. Major emphasis is on the relationships between people and their environment, spatial interactions, and regional structures.

**GEOG 161. World Regional Geography. 3 Hours.**
A survey of the world's geographic regions. Focus on the location of Earth's major physical features, human populations, cultures, and their interaction.

**GEOG 261. Countries and Cultures. 3 Hours.**
The course presents countries of the world through the experiences of MSU faculty native to these countries. The principal objectives are: 1) to illustrate the immense diversity of world countries and cultures, 2) to facilitate the students' understanding and appreciation of the world cultures, 3) to motivate students to learn more about other countries and cultures, 4) to help students to become citizens of the world, 5) to increase marketability of MSU students on the global job market.

**GEOG 262. North America. 3 Hours.**
A thematic and regional approach to the geography of North America that stresses human patterns and relationships with the physical environment. Pre-Req: GEOG 110 and GEOG 161.

**GEOG 263. North Dakota. 3 Hours.**
Study of the interrelationship that exists between North Dakota's physical and cultural environments. Specific topics include physiography, climate, flora, prehistoric occupation, historic development, demography, and economic structures. Pre-Req: GEOG 110 and GEOG 161.

**GEOG 264. Geography of Africa. 3 Hours.**
Study of the natural regions of Africa with emphasis on the climate, physical and human resources, trade, culture, and their effects upon world affairs.

**GEOG 265. Geography of Asia. 3 Hours.**
A regional study of Asia with special emphasis on Central, South, East, and Southeast Asia. A study of the natural and cultural regions with emphasis on the climate, physical and human resources, trade, culture, and their effects upon world affairs.

**GEOG 266. Latin America and the Caribbean. 3 Hours.**
A general overview of an extremely diverse region that is the product of both physical and cultural factors which have interacted over time to produce a unique landscape.

**GEOG 267. Geography of Europe. 3 Hours.**
A study of Europe's environmental and cultural geography with emphasis on its environmental regions, current Supranational union, and nationalistic divisions.
**GEOG 268. Geography of the Middle East. 3 Hours.**
An investigation of the natural, political, and historical regions of Southwestern Asia, the Levant, and the Saudi Peninsula. International political linkages, economic implications of oil, environmental opportunities and limitations, and cultural landscapes are emphasized.

**GEOG 289. Introduction to GIS. 3 Hours.**
Introduces students to theory and techniques of geographic information systems (GIS), which includes the discovery, management, analysis, and display of spatial data. GIS is a valuable tool in disciplines that deal with spatial data, including geography, history, field or environmental sciences, epidemiology, economics, and business. This course is equivalent to GEOL 220. Lecture 2 hours; laboratory, 2 hours.

**GEOG 299. Special Topics. 1-8 Hour.**

**GEOG 289. Introduction to GIS. 3 Hours.**
Introduces students to theory and techniques of geographic information systems (GIS), which includes the discovery, management, analysis, and display of spatial data. GIS is a valuable tool in disciplines that deal with spatial data, including geography, history, field or environmental sciences, epidemiology, economics, and business. This course is equivalent to GEOL 220. Lecture 2 hours; laboratory, 2 hours.

**GEOG 299. Special Topics. 1-8 Hour.**

**GEOG 330. Geography of Weather & Climate. 3 Hours.**
The major aspects of meteorology which involves the study of weather conditions will be addressed. Climatology will be treated as the scientific study of the Earth's climates. The dynamics of global climate change will be discussed in detail.

**GEOG 340. Human Geography. 3 Hours.**
Human Geography: The world will be viewed as a complex interaction between political, economic, social, and cultural systems, illustrative of the changes that occur on the landscape over time.

**GEOG 360. Perception of the Environment. 3 Hours.**
This seminar will examine attitudes and perceptions people hold of their environment and how landscapes become symbolic in cultural identity. Perceptions of a variety of environments will be studied including plains, mountains, deserts, lakes, rivers, forests, deltas, rural towns, farmscapes, and urban settings. The thematic emphasis will be on how perceptions of landscapes are important to environmental ethics, community identity, and land management.

**GEOG 370. Geography of World Tourism. 3 Hours.**
A systematic description and analysis of the world's major tourism destination regions including coastal zones, alpine areas, interior lakes, and waterways, cities, and cultural attractions. Geographic and economic factors affecting the development of tourism regions are considered. Pre-Req: GEOG 110 and GEOG 161.

**GEOG 380. Cultural Geography. 3 Hours.**
As a sub-field within human geography, the seminar will address the human imprint on the physical landscape. The study will focus sharply on describing and analyzing the ways language, religion, economy, government and other cultural phenomena interact in space creating place; basically, how humankind functions spatially.

**GEOG 394. Independent Study General Geog. 1-4 Hour.**

**GEOG 499. Special Topics. 1-8 Hour.**

**History**

**History Program Coordinator**
Dr. Joseph Jastrzembski | email: joseph.jastrzembski@minotstateu.edu

**History Program Mission**
We prepare graduates to appreciate, craft, and practice history.

**Welcome!**
History at Minot State University prepares students for diverse careers in Education, Law, Public Service, Consulting, and many other areas. Whichever major a student chooses (the Bachelor of Arts / BA or the Bachelor of Science in Education / BSEd) the core history coursework is identical. The key difference is in the supplemental coursework outside the major: BA students select a minor and concentration, while BSEd students complete professional education coursework instead of a minor, and they select one or more support areas instead of a concentration.

Students also are encouraged to pursue history as a complement to other majors. Those interested in declaring a history minor or concentration should visit with any history faculty member.

The History Program maintains a web page with additional information about the program: http://www.minotstateu.edu/history/.
History Program Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>To study and demonstrate understanding of history subject matter and methodology through such perspectives as globalism, multiculturalism, gender, and ethnicity.</td>
<td>Department faculty include these themes throughout the history curriculum; history majors will encounter them continually in their academic career. To ensure a more comprehensive understanding of global or multicultural themes of all history majors and an understanding of non-Western history and culture, majors must distribute their course work among the areas of American, European and non-Western history. The department also offers courses specifically focused on women's history, Native American history, and African American history.</td>
</tr>
<tr>
<td>To study and demonstrate familiarity with historical content for a variety of periods and places.</td>
<td>All majors must take courses in American, European and non-Western history. These courses variously address culture, society, government, change and continuity across time.</td>
</tr>
<tr>
<td>To develop and demonstrate advanced critical and analytical thinking and writing skills, including the ability to present and support an argumentative thesis to specialists and to the broader public.</td>
<td>Persuasive writing is a primary objective of our department. Majors are introduced to critical thinking and writing as soon as they enter a 100 level course, and refine these skills in all successive courses, as they are called upon to render valid historical judgments in class discussions, oral presentations, examination essays, and research papers. Majors develop skills to present and support persuasive arguments.</td>
</tr>
<tr>
<td>To analyze and interpret primary and secondary sources in the service of historical methodology.</td>
<td>Analysis of primary and secondary sources figures prominently in history courses at MSU. Initially, students in survey courses are exposed to and become familiar with individual documents and excerpts; intermediate level courses require more extensive contact with primary documents such as novels, memoirs, speeches, and film. In addition, these courses include substantial work with secondary source monographs. Advanced level research courses expect extensive work and analysis of primary and secondary sources. This is critical for students if they seek to research topics for themselves and form their own interpretations.</td>
</tr>
<tr>
<td>To evidence ability to become informed on historiographical issues, through the use of standard and current journals, books and reviews.</td>
<td>Students must be able to locate and use standard works of history. They must also be able to ascertain the trends in the profession by reading current books, book reviews, and professional journals. This goal is a central component of our practice and method course (280), but it is also firmly tied into all of our elective courses. Moreover, students will learn that the writing of history is conditioned by the period and society which produces it.</td>
</tr>
<tr>
<td>To develop and demonstrate a sense of chronology, change, and continuity as they pertain to history.</td>
<td>History courses emphasize the importance of student understanding of the dimension of time and change in human existence. A sense for the crucial relationship of the past to the present is emphasized in each course.</td>
</tr>

Social Science Support Courses

Select at least ONE area (Geography, Political Science, Economics) and complete 12 credits. BSE students may complete additional areas (12 credits each) for certification in those areas.

NOTE: ESPB requires 12 credits in each selected support area. 3 of these credits are taken as Social Science General Education (see above). The remaining 9 credits complete the selected area for a total of 12 credits. Area specific course requirements:

ECON: 201, 202, and any two advanced ECON electives

GEOG: 110 and any three advanced GEOG electives

POLS: 115, 116, 220, and one upper level POLS elective

Professional Education Sequence

Elective Courses

May be Taken Before Admission to Teacher Education
ED 260 Educational Psychology
ED 260L Clinical I
ED 282 Managing the Learning Environment
ED 282L Clinical II

Admission to Teacher Education Required
ED 380 Technology in Teaching
SS 391 Secondary History/Social Science Teaching Methods
SS 398 Secondary Hist/Soc Sci Practicum
ED 493 Student Teaching, Secondary (and ED 483)

Total Hours 121-123

Additional Program/Degree/Graduation Requirements

- Admission and Retention to Teacher Education has special requirements. Please see Teacher Education Policies and Procedures (p. 283) for further information.
- History Portfolio
  - Completion of history portfolio required for graduation. For more information on portfolio requirements go to http://www.minotstateu.edu/history/.
- Graduation Requirements
  - History BSEd majors must take the appropriate PRAXIS II content area exam and the PLT exam. Their official scores must be reported to the university before graduation. (Graduation requirements do no mandate specific scores on these exams, but the North Dakota Teacher licensure requirements do. These include successful PRAXIS II content area and PLT exams. For more information go to http://www.minotstateu.edu/history/)
  - 2.5 GPA required in major for graduation.
  - Please see Teacher Education Policies and Procedures (p. 283) for additional information.

History Minor (Non-Teaching)

Take 21 credits in HIST courses

At least two courses in the minor need to be taken at the 300-400 level
At least one non-General Education course on American History 3
At least one non-General Education course on European History 3
At least one non-General Education course on non-Western History 3
Additional history courses to reach 21 credits total 12

Special Topics Courses and Seminars may also satisfy this requirement. Consult with your History advisor.

Courses

HIST 95. Intercultural Experience. 0 Hours.
History 095 creates and/or facilitates intercultural and/or interpersonal experiential opportunities for students. Students will participate in an experience that requires thoughtful and demonstrated engagement.

HIST 97. History/Social Science Portfolio. 0 Hours.
Students should register for this course in the semester they intend to submit their portfolio for their History BA, History BSEd, or Social Science BSEd degree.

HIST 101. Western Civilization I. 3 Hours.
A survey of the political, intellectual, social and economic trends of Western Civilization from the Classical Age of the French Revolution. (General Education History Survey).

HIST 102. Western Civilization II. 3 Hours.
A survey of the political, intellectual, social, and economic trends of Western Civilization from the French Revolution to the present. (General Education History Survey).

HIST 103. US History to 1877. 3 Hours.
Survey of U.S. history from Colonial period to the end of Reconstruction. (General Education History Survey).

HIST 104. US History from 1877. 3 Hours.
Survey of U.S. history from the end of Reconstruction to present. (General Education History Survey).

HIST 203. Modernization of Early America. 3 Hours.
This course will introduce students to the major developments in American social, intellectual, and cultural history from discovery through the Civil War. The focus of the course will be on the concept of modernization: why, when, and how was life in America evolving toward those characteristics we consider part of modern life? Central topics will include cultural interaction, daily life, the development of a new society, American exceptionalism, the evolution of American intellectual thought, democratization, social movements, and the development of an American literature. US.

HIST 206. Islam and the Muslim World. 3 Hours.
This course introduces students to the history and culture of the wider Muslim world. In this course we will study three aspects of Islam and the Muslim World: Islam as a religion, the 1,400 year history of Muslim civilization in all its diversity, and Islam today. NW.

HIST 211. World Civilizations to 1500. 3 Hours.
A survey of the history of world civilizations to 1500. (General Education History Survey).

HIST 212. World Civilizations Since 1500. 3 Hours.
A survey of the history of world civilizations since 1500 (General Education History Survey).

HIST 215H. Modern World Origins. 3 Hours.
A seminar in the origins of the modern world. Class time will emphasize student discussion of assigned relevant historical sources, both primary and secondary. In addition, there will be extensive and varied writing assignments. Honors Program admission of 3.30 cumulative GPA and permission of the instructor is required. (General Education History Survey).
HIST 219. Environmental History. 3 Hours.
This course is an introduction to the field of Environmental History. It will explore the relationship between people, communities, resources and the environment in the past and will study examples from the U.S., Europe, and other parts of the world. Students will use secondary literature and primary-source case studies to study major environmental themes related to conservation, resource management, land use, development, water, and pollution. Upon completion students will demonstrate understanding of the scope and depth of environmental issues in world history, of the methods historians have developed to approach such questions, and of major case studies related to rural and urban experiences.

HIST 220. North Dakota History. 3 Hours.
This course surveys the history of North Dakota, amid its broader geographic region, from prehistoric times to the present. Course topics examine the environmental, social, economic, cultural, and political development of the state and its people. US.

HIST 227. History of Vietnam. 3 Hours.
This course surveys the history of Vietnam from its formation to the late twentieth century. Topics covered include Vietnam's cultural and historical origins, its place in South-East Asia, colonization under the French, the experience of WWII, the French and American wars in Vietnam, and Vietnam since the 1970s. NW.

HIST 231. History of Latin America. 3 Hours.
Survey of the countries below the Rio Grande from pre-Colombian times to the present. Special attention to continuity of Native American culture, colonial legacies, identity, gender roles, revolutions, relations with the U.S., and land and income distribution. NW.

HIST 234. Renaissance and Reformation. 3 Hours.
This course surveys Europe's prehistory and antiquity from the agricultural revolution of the Neolithic until the fall of the Western Roman Empire in 476 CE. It explores the political organization, social institutions, economies, religions, art, and cultures of both the "classical" civilizations of Greece and Rome and the Celts, the Minoans, the Mycenaean, the Etruscans, and other civilizations that developed in and shaped the ancient European region. EU.

HIST 244. Renaissance and Reformation. 3 Hours.
This course surveys the history of Europe from the break-up of the Western Roman Empire in the fifteenth century through the Renaissance in the sixteenth century. It examines both the history of and popular ideas about the European Middle Ages, including discussion of such topics as knights and violence, race and antisemitism, women's social and political roles, and political and religious conflict. EU.

HIST 251. Introduction to Public History. 3 Hours.
The purpose of this course is to introduce students to public history, which is often simply defined as the practice of history outside of the classroom, produced for a non-academic audience. This simple definition belies complicated fundamental issues, such as what role the public audience does and should play in the determination of what issues are of historical concern, and how they should be handled. Starting with consideration of what public history is, and what are its purposes and basic questions, the class will then work on developing some of the basic skills that public historians need. Students will speak with and, in some cases, shadow current professionals in the field. They will be introduced to sources of historical information available in the local community and organizations of value to public historians. Ultimately, students will utilize the ideas and skills that they develop during the semester as they undertake a local historical research project that will culminate in a public presentation.

HIST 261. American Indian History. 3 Hours.
A survey of American Indian history from pre-contact to the present, providing an overview of major trends and developments. US.

HIST 280. Practice and Method. 3 Hours.
This colloquium introduces students to the tools, research, and writing methods, resources and theoretical approaches required in upper level history courses. It includes a semester-long student-initiated research project that will allow students to refine their skills. The course also features discussion of reading that illustrate a wide variety of historical approaches and methods. To be taken upon declaring a major in history or social science.

HIST 299. Special Topics in History. 1-8 Hours.
These are flexible courses that may be taught depending on student needs. The design of the course is to present the student an opportunity to concentrate on various topics. Prerequisites may apply. (Depending on topic, course may be categorized as a NW, EU, or US).

HIST 315. History of American Women. 3 Hours.
The experience of women in American history, with emphasis upon the continual change in women's roles and differences brought about by region, ethnicity, and economic class. Prerequisites: any general education history survey or consent of instructor. US.

HIST 319. Colonial America. 3 Hours.
Traces the development of the colonies from the time of European exploration and early English colonization to the confrontations between Britain and America in the 1760s and 1770s. Prerequisite: any general education history survey or consent of instructor. US.
HIST 320. The Early Republic. 3 Hours.
Study of the social, intellectual, political, and diplomatic forces, issues, and personalities in America's formative (1781-1824) years. Prerequisite: any general education history survey or consent of instructor. US.

HIST 325. Sectionalism and the Civil War. 3 Hours.
Traces the rise of sectionalism as a force on antebellum America leading to the Civil War. Prerequisite: any general education history survey or consent of instructor. US.

HIST 328. The Transformation of America. 3 Hours.
Study of industrialization, urbanization, and immigration in America from 1865 to 1901, focusing on the social, political, and international consequences of and reaction to economic change. Prerequisite: any general education history survey or consent of instructor. US.

HIST 336. African American History. 3 Hours.
Examines the history of African Americans in American society from 1619 to the present, including the West African cultural context, cultural retentions and changes in the American environment, and the emergence of cohesive African American culture. The course pays special attention to the ideas, contributions, and changing roles of African Americans within American society, economy, culture, and politics. Prerequisite: any general education history survey or consent of instructor. US.

HIST 337. Imperialism in Asia. 3 Hours.
Models of western imperialism will be contrasted with those developed by Japan and China to develop a comparative study of political, cultural, and social developments in Japan, Indochina, China and other Asian countries. Recent trends and relationships with the West will be emphasized. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 341. Roman Republic and Empire. 3 Hours.
This course explores in detail the history of Rome from the foundation of the city in the ninth century B.C.E. through the fall of the western part of the Roman Empire in 476 C.E. Topics discussed include Roman Republican institutions, imperial expansion, the creation of the Roman Empire, the foundation and development of Christianity, and the lasting influence of Rome on European politics and culture. Prerequisite: any general education history survey or consent of instructor. EU.

HIST 342. The Age of the Vikings. 3 Hours.
This course looks not only at the "Viking Age" circa 780-1070 CE but also at the origins of the Vikings and their cultural contexts and legacies. It discusses Scandinavian society from late antiquity through the Middle Ages, exploring social structure, gender ideas and relations, religion and mythology, technology, politics and war, literature, and art. This course details Viking raids, expansion, and integration throughout Europe and examines modern literature and media to discover what "Viking" came to mean long after the Viking Age ended. Prerequisite: any general education history survey or consent of the instructor. EU.

HIST 343. The Medieval Church. 3 Hours.
This course examines the Christian church and Christendom from its beginnings in the Roman Empire through the eve of the Protestant Reformation. It examines the history and institutions of the church, including monasticism, the papacy, church-state conflicts, East-West divisions, medieval philosophy and theology, mysticism, popular religion, and the Crusades. Prerequisite: any general education history survey or consent of instructor. EU.

HIST 347. The Making of Modern Europe. 3 Hours.
A thematic study of Europe during the age of the industrial and social revolution, 1815-1919. This course compares major social and cultural trends across a variety of European nations. Prerequisite: any general education history course or consent of instructor. EU.

HIST 350. Europe in 20th Century. 3 Hours.
A detailed consideration of the main political, intellectual, social, and economic trends of 20th century Europe. Prerequisite: any general education history course or consent of instructor. EU.

HIST 351. The Mediterranean World. 3 Hours.
This course explores the development and interactions of the many Bronze Age and Iron Age civilizations and peoples of Africa, Asia, and Europe who were connected by the Mediterranean Sea. Those studied include the Egyptians, Minoans, Mycenaeans, Assyrians, Hebrews, Phoenicians, Persians, Greeks, and Romans. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 352. Medieval & Early Modern Women. 3 Hours.
This course examines the lives of European women from the beginning of the Middle Ages through the early seventeenth century. It explores the use of gender as a category for historical interpretation as it investigates women's (and men's) identities, agency, and power in the household, the court, the Church, and the marketplace. While this course does examine the lives of famous women, it primarily seeks to reveal the lives, thoughts, feelings, and experiences of all European women over the course of eleven centuries. Prerequisite: any general education history survey or consent of instructor. EU.

HIST 353. Great Plains Indian History. 3 Hours.
Study of the culture and history of the Indian peoples of the Great Plains. Prerequisite: any general education history survey or consent of instructor. US.

HIST 364. Explorers and Encounters. 3 Hours.
This course is about early modern explorers and the lands and peoples they encountered. The course reflects on explorations and encounters by European explorers as they marveled and interpreted the peoples and lands they met. The class encompasses the Atlantic, Indian Ocean, and the Pacific and changes over time from the late 15th through the 18th centuries, as attitudes changed and perceptions of the other modified. Prerequisite: any general education history survey or consent of instructor. NW.
HIST 365. Peoples & Cultures of Native North America. 3 Hours.
The course surveys the major culture areas of North America prior to contact with Europeans. In each region particular attention is given to one group or nation to highlight cultural adaptations and development. Prerequisite: any general education history survey consent of instructor. US.

HIST 380. History of Mexico. 3 Hours.
Mexico and the U.S. are entering into an ever closer relationship, but their histories are quite different. This survey outlines the Mexican past from pre-Colombian to modern times. We will focus on one area (the Andes or Mesoamerica) and study a wide variety of topics such as: conquest, colonialism, religion, gender, protests, and ecology. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 385. History of Brazil. 3 Hours.
Brazil is more than carnival alone, but that is a fundamental aspect of the largest South American society. In this course, we will examine Brazilian history and society from a wide variety of angles. The country is very diverse: from the Amazon rainforest where native peoples still live in isolation, to the Sao Paulo metropolitan area that can compete with any Western country as to modernity and industrial development. Brazil is a country full of contrasts: optimistic but sad, dancing sambas but violent. In the course we will examine Brazil's past and how this contributed to the country's present social, economic, political, and cultural situation. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 392. Experimental Course in History. 3 Hours.
This is an experimental course that may be taught department needs. The design of the course is to allow the instructor to test and assess content and methodology that may become a permanent part of a department's course listings. Prerequisites: any general education history survey or consent of instructor. Depending on topic, course may be categorized as a NW, EU, or US.

HIST 394. Independent Study General Hist. 1-4 Hour.
Depending on topic, course may be categorized as NW, EU, or US. Must have instructor consent.

HIST 399. Readings in History. 1-3 Hour.
Study and discussion of readings in history. Specific topic will be arranged with the instructor. Prerequisite: consent of instructor. Depending on topic, course may be categorized as a NW, EU, or US.

HIST 401. Historiography. 3 Hours.
A course to consider both the philosophy or theory of history as well as the mechanics of "doing" history. Prerequisites: any general education history survey or consent of instructor.

HIST 410. Trans-Mississippi West. 3 Hours.
An in-depth look at the impact of this region on the development and growth of America. Prerequisites: any general education history survey or consent of instructor. US.

HIST 415. 20th Century America. 3 Hours.
A seminar focusing on a particular theme or time period of 20th century American history. A specific focus will be selected each time the course is offered. Prerequisites: any general education history survey or consent of instructor. US.

HIST 430. Native American Social History. 3 Hours.
Seminar examining the different social experiences of Native peoples in North America. Topics include, among others, historical demography, gender, intercultural relations with the U.S. Prerequisites: any general education history survey or consent of instructor. US.

HIST 434. History and Multimedia. 1-3 Hour.
This course is designed to teach students to transform the content of a traditional seminar paper into a variety of multimedia formats. It introduces students to current digital tools, explores design issues and organizational strategies, and considers how to design presentations for varied audiences such as museums, children and schools, internet users, portable device users, and senior populations. No technical background is required, although students will need to have completed a 300 or 400 level history research paper to use as the raw material for this course, or they must co-enroll in a 300 or 400 level history class that requires such a paper.

HIST 436. Piracy, Smuggling, and Corruption. 3 Hours.
In this course students will study morals and values in their colonial Latin American contexts, how they are construed and how historians and contemporaries have interpreted them. We will do this by examining the most controversial peoples in these societies, from prostitutes to pirates, from slaves to men and women of ill repute. This promises to be a voyage of discovery of the other and of the self. Prerequisites: any general education history survey or consent of instructor. NW.

HIST 440. Comparative Slavery in the Americas. 3 Hours.
North and South America have different experiences with slavery. In this seminar we will compare and contrast the African impact on both continents, especially in Brazil and the United States. Some topics that we will study are the slave trades, runaway slave societies, the Haitian revolution, African religions, race relations, gender roles, families, and the meanings of freedom. Prerequisites: any general education history survey or consent of instructor. NW or US.

HIST 441. The Early Middle Ages. 3 Hours.
This seminar focuses on Late Antiquity and the Early Middle Ages, the period from the late fourth through the late tenth centuries C.E. during which the Western Roman Empire was replaced by the individual kingdoms and principalities of medieval Europe. Participants will research the history and historiography of this period, which includes the "barbarian invasions" of Rome and the fall of the Western Roman Empire, the rise of the Roman Church, the transition from Classical to medieval philosophy, the establishment of the Carolingian and Holy Roman Empires, and the foundation of medieval European political, social, and economic systems. Prerequisite: any general education history survey or consent of instructor. EU.
HIST 442. The Crusades. 3 Hours.
This seminar explores the period of the Crusades from its inception in the late eleventh century through its demise in the later Middle Ages. It looks at the development of the religion of Islam and of Muslim political states, the wars of the Crusades, the creation of the Crusader States, and conflict and cooperation among Christians, Jews, and Muslims in Asia and North Africa. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 460. Modern France and Francophone Society. 3 Hours.
An in-depth seminar on the major themes of modern French history from 1750 to the present. Prerequisites: any general education history survey or consent of instructor. EU.

HIST 491. History Seminar. 3 Hours.
An advanced seminar in history with a major paper requirement. Prerequisite: any general education history survey or consent of instructor. Depending on topic, course may be categorized as NW, EU, or US.

HIST 494H. Independent Study Honors Hist. 1-8 Hour.
Depending on topic, course may be categorized as a NW, EU, or US. Prerequisite: consent of instructor.

HIST 497. Internship. 1-6 Hour.
Placement in applied public history setting for practical experience. Prerequisite: HIST 280 and consent of instructor. Repeatable for credit.

HIST 499. Special Topics in History. 1-8 Hour.
This is a flexible course that may be taught depending on student needs. The design of the course is to present the student an opportunity to concentrate on various topics. Prerequisites may apply. Depending on topic, course may be categorized as a NW, EU, or US.

Native American Studies

Welcome

Program Coordinator:
Joseph C. Jastrzembski, Dept. of History
joseph.jastrzembski@minotstateu.edu
(701) 858-3322
Main 201D

The interdisciplinary Native American Studies curriculum at Minot State University offers a wide range of courses in Native American art, literature, history, anthropology, science, and contemporary social issues. In addition, the program fosters service learning opportunities at Native American reservations and important historical and archaeological sites. Minot State University offers both a minor and concentration in Native American studies. The Native American Cultural Awareness Center, on the campus of MSU, sponsors an annual pow-wow and honor dance in April at the MSU Dome.

Total Hours 12

Philosophy

Program Coordinator

Dr. Stewart Kelly | email: stewart.kelly@minotstateu.edu

The philosophy program offers a wide range of courses examining the human condition. Specific courses foster a range of critical thinking skills and examine a broad array of questions central to both western and eastern thought. Students are challenged both to broaden their horizons and to examine their own beliefs in light of the thinkers discussed and the texts read.

**Courses**

**PHIL 100. Critical Thinking. 3 Hours.**  
The study of effective thinking, both logic and evaluative.

**PHIL 101. Introduction to Philosophy. 3 Hours.**  
Basic problems, concepts, and methods of philosophy.

**PHIL 102. Philosophy of Human Nature. 3 Hours.**  
Focuses on what it means to be a human being and the so-called "nature-nurture controversy.".

**PHIL 201. Philosophy of Religion. 3 Hours.**  
A critical examination of the reasonability of religious belief. The existence of God, the problem of evil, and other topics will be discussed.

**PHIL 210. Ethics. 3 Hours.**  
A study of traditional concepts in ethical theory and moral reasoning.

**PHIL 299. Special Topics In Philosophy. 1-8 Hour.**

**PHIL 330. Political Philosophy. 3 Hours.**  
This course examines the basic principles and features of the major political philosophies and systems of government.

**PHIL 355. The Enlightenment. 3 Hours.**  
The course is a general overview of the historical, cultural, political and philosophical elements of European Enlightenment. Topics covered included but are not limited to the following: the rise of science, the roles of reason, the attack on "tradition" and the development of Democracy and human rights.

**PHIL 380. Existentialism. 3 Hours.**  
A careful examination of major existentialist thinkers (Kierkegaard, Nietzsche, Sartre, etc.) and dominant existential themes: alienation, mortality, the meaning of life, and God.

**PHIL 383. Asian Philosophy. 3 Hours.**  
A critical examination to the leading eastern worldviews: Buddhism, Hinduism, Confucianism, Taoism, and the eastern views.

**PHIL 394. Advanced Philosophy. 3 Hours.**

**PHIL 399. Independent Study General Phil. 1-4 Hour.**

**PHIL 494. Independent Study Honors Phil. 1-8 Hour.**

**PHIL 499. Special Topics In Philosophy. 1-8 Hour.**

Courses

POLS 95. Political Science Experience. 0 Hours.
POLS 095 - Political Science Experience provides students with a diverse selection of applied experiences to gain more critical understanding of a variety of political and cultural topics at all levels: International, National, State and Local. The experience requires students to actively engage in the political process broadly defined. It is designed to fulfill the IP2 requirements of General Education.

POLS 115. American Government. 3 Hours.
Principles of American government, political behavior, institutions.

POLS 116. State and Local Government. 3 Hours.
Structures, politics, and behavior in state and local governments.

POLS 275. Contemporary Community Issues. 3 Hours.
This course is designed to develop your understanding of the different communities you are a member of and the issues facing them in the 21st century. Drawing on theories and concepts from various disciplines, we will expand on how communities and the issues associated with them are defined, constructed and addressed at multiple levels of society. Specifically, we will examine various political and social issues facing our communities including but not limited to: crime, ecology, inequalities, health care and the family. We will also set those issues in their larger state, national and global context, address the impact of that context and the proposed possible outcomes for the future.

POLS 299. Special Topics. 1-6 Hour.

POLS 325. Graphic Novels and Politics. 3 Hours.
Graphic Novels - like any form of social commentary - have a history of addressing the politics of the day. This course will take a critical look at how the Graphic Novels have addressed the political and civic issues today and historically. Drawing on primary source materials and analytical texts, the course examines not only how civic issues and politics shape Graphic Novels, but also how Graphic Novels impact larger civic and political discussions.

POLS 375. Contemporary Political Issues. 3 Hours.
This course is designed to develop your understanding of the larger political world and the issues facing it in the 21st century. Drawing on theories and concepts from various disciplines, we will expand on how political issues are defined, constructed and addressed at multiple levels of society. Specifically, we will look at various political issues and policies facing the United States, including but not limited to: crime, ecology, inequalities, health care and the family. We will also set those issues in their larger global context, address the impact of that context and the proposed possible outcomes for the future.

POLS 394. Independent Study General Ps. 1-4 Hour.

POLS 451. Political Sociology. 3 Hours.
Political sociology broadly conceived is the study of power and domination in social relationships to include the relationship between state and society. The course draws upon comparative history to analyze socio-political trends and thereby includes the analysis of the family, the mass media, universities, trade unions, etc. A typical research question might, for example, be: what factors explain why so few American citizens choose to vote.

POLS 494. Independent Study Honors Ps. 1-8 Hour.
POLS 499. Special Topics In Political Sci. 1-6 Hour.

Social Science

Social Science Composite Degree Options:
Students have a choice of two composite degrees in Social Science. The Social Science BA is a Bachelor of Arts with a focus on two areas in the social sciences. The Social Science BSEd prepares candidates for secondary (7-12) teaching in social studies (History, Economics, Geography, Political Science). Education Candidates should also consider the History BSEd options. Both History and Social Science BSEd degrees are advised by the History faculty.

Social Science BA Program Mission
Professionally train students in a modern and dynamic environment with the net aim of enhancing their capabilities to be successful.
### Social Science Program Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>To develop and demonstrate an understanding of social science concepts and tools and their application to the analysis of social, cultural, and political systems.</td>
<td></td>
</tr>
<tr>
<td>To develop and demonstrate an understanding and appreciation of cultures and cultural diversity.</td>
<td></td>
</tr>
<tr>
<td>To develop and demonstrate a sense of chronology, change, and continuity.</td>
<td></td>
</tr>
<tr>
<td>To develop and demonstrate a critical and analytical framework in which to understand how people create and change structures of power, authority and governance.</td>
<td></td>
</tr>
<tr>
<td>To develop and demonstrate a critical and analytical framework in which to understand individual development and identity as well as the interactions of individuals, groups, and institutions.</td>
<td></td>
</tr>
<tr>
<td>To develop and demonstrate a critical and analytical knowledge of economics and economic systems, in particular how people organize for production, distribution, and consumption of goods and services.</td>
<td></td>
</tr>
<tr>
<td>To develop and demonstrate a critical and analytical knowledge of geographic concepts and tools, physical and human landscapes, and the interaction of people, places, and environments.</td>
<td></td>
</tr>
<tr>
<td>To develop and demonstrate advanced critical and analytical thinking and writing skills, including the ability to present and support and argumentative thesis.</td>
<td></td>
</tr>
</tbody>
</table>

### Social Science Education Program Mission

Provide students with the knowledge, skills, tools, and training required to function as qualified, professional teachers able to expertly impart knowledge and guide their charges with the objective of preparing a better citizen.

### Social Science Education Program Goals and Outcomes

To develop and demonstrate a critical and analytical knowledge of geographic concepts and tools, physical and human landscapes, and the interaction of people, places, and environments.

To develop and demonstrate advanced critical and analytical thinking and writing skills, including the ability to present and support an argumentative thesis.

Additional Program/Degree/Graduation Requirements

Admission to Teacher Education

• Social Science BSEd majors must successfully complete the Pre-Professional Skills Test (PPST) before applying to the Teacher Education Program. For more information on PPST requirements go to http://www.minotstateu.edu/history/.

• 2.5 GPA required in major for admission to Teacher Education

Social Science Portfolio

• Completion of social science portfolio required for graduation. For more information on portfolio requirements go to http://www.minotstateu.edu/sse/.

Graduation Requirements

• Social Science BSEd majors must take the appropriate PRAXIS II content area exam and the PLT exam. Their official scores must be reported to the university before graduation. (Graduation requirements do no mandate specific scores on these exams, but the North Dakota Teacher licensure requirements do. These include successful PRAXIS II content area and PLT exams. For more information go to http://www.minotstateu.edu/history/teacher_ed.shtml)

• 2.5 GPA required in major for graduation.

Bachelor of Arts with a Major in Social Science

General Education

General Education courses 38-40

Foundational Courses

Analytical/Quantitative Literacy

MATH 210 or PSY 241

PHIL 100 or ECON 201 or ECON 202

Research Literacy

SOC 278 or HIST 251

Writing Literacy

ENGL 315 or HIST 280

Technical Literacy

GEOG 289 or GEOL 220 or BOTE 247 or ART 112

Capstone Research Project Preparatory Courses

SS 399 or ECON 320 or ECON 410 or ECON 414 or GEOG 340 or GEOG 380 or POLS 220

In this course the student will develop a capstone research project in consultation with an advisor.

In consultation with an advisor, choose at least four courses from below that will contribute to your capstone research project.
Bachelor of Science in Education with a Major in Social Science

General Education

General Education courses 38-40

Must take PSY 111 as one Social Science General Education elective. The other Social Science General Education elective must come from the General Education courses found in the Core area choices (see below).

Required Core

A. History Surveys

Depending on what general education history course you choose, choose three additional general education history survey courses such that you have at least 6 credits of US History surveys and 6 credits of non-US History surveys.

Three HIST Survey Courses 9

B. History Methodology

HIST 280 Practice and Method 3

C. History Electives

The following courses must be at the 200-400 level. At least one must be a 400-level seminar

HIST Elective (US or European) 3

HIST Elective (non-western, not HIST 211, HIST 212, or HIST 215H) 3

D. Core Social Studies Areas

Select two of the following areas: 24

Area One: Economics

ECON 201 Principles of Microeconomics
ECON 202 Principles of Macroeconomics
ECON Upper Level Elective

Area Two: Geography

GEOG 110 Introduction to Geography
GEOG Elective
GEOG Elective
GEOG Elective

Area Three: Political Science

POLS 115 American Government
POLS 116 State and Local Government
POLS 220 International Politics
POLS Upper Level Elective

Professional Education Sequence

May be taken prior to admission to Teacher Education

ED 260 Educational Psychology 2
ED 260L Clinical I 0
ED 282 Managing the Learning Environment 2
ED 282L Clinical II 0.5
### Sociology

#### Program Mission

The Sociology Department challenges students to think critically and analytically about diverse human societies and their institutions.

Specialized areas within the major allow students to study specific social topics based on career interests and goals for continuing education. Sociology tracks are available in General Sociology, Society & Inequality, and Applied Sociology. Another feature of the program is that students have the option of selecting from two senior-level capstone courses that are intended to integrate, extend, critique and apply knowledge gained throughout their educational experience at MSU. During their capstone experience students may elect to assist faculty in conducting research activities. They may also complete internship within a community setting where they can apply sociological principles to areas such as domestic violence, women’s studies, adult learning, drug and alcohol abuse, child care, business, or politics.

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>To develop a solid knowledge base constructed upon a review of diverse sociological concepts, principles, paradigms, theories and research.</td>
<td>Students are expected to successfully complete an Introduction to Sociology exam measuring knowledge of concepts, principals, paradigms, theories and research.</td>
</tr>
<tr>
<td>To acquire an understanding and sense of chronology of the historical development of classical and contemporary sociological theory.</td>
<td>Students are required to successfully complete all reading and writing requirements for an upper level theory class.</td>
</tr>
<tr>
<td>To review and critically assess the advancement of sociological theory and research in the diverse range of knowledge contained within the sociological literature.</td>
<td>During the senior capstone, students are required to successfully complete a senior readings, research project or internship project implementing theoretical and research principles from sociology.</td>
</tr>
<tr>
<td>To learn the importance of applying qualitative and quantitative sociological research methods and statistics to presentations, papers and scholarly publications.</td>
<td>Students are required to develop research paper in upper-level classes that implement qualitative and quantitative methods and statistics. Faculty encourages majors to submit papers for presentation and publication.</td>
</tr>
<tr>
<td>To become aware of and responsive to contemporary social conditions, issues and problems such as racism, ethnocentrism, sexism, ageism and classism.</td>
<td>Students will successfully complete papers, debates, oral presentations or persuasive argumentative projects addressing contemporary social conditions, issues and problems.</td>
</tr>
<tr>
<td>To critically evaluate the interaction of multiple social institutions within a variety of diverse cultures, societies and environments in advanced and developing nations.</td>
<td>Students will successfully integrate issues of cultural diversity and globalization in writing assignments and capstone projects.</td>
</tr>
</tbody>
</table>
To demonstrate knowledge of advanced critical, analytical and writing skills necessary for success in graduate school and/or occupations requiring rigor and excellence.

The senior capstone class will provide students with an opportunity for self-reflection and self-evaluation. Students within the class will successfully complete a variety of writing assignments intended to analytically evaluate the synthesis of sociological knowledge. Within the capstone, students will show evidence of working with peers in a collegial environment that simulates graduate school and/or professional career settings.

Total Hours: 12
Courses

SOC 110. Introduction to Sociology. 3 Hours.
An introduction to the basic insight, concepts, theories and methods of the discipline. The course encourages students to think critically, to apply sociological knowledge, and to develop a global perspective. Topics for discussion include culture, social interaction, deviance, sexuality, stratification, race relations, gender, family, economics, politics, technology, and social change. SOC 110 is a prerequisite for all 300 and 400 level SOC courses.

SOC 200H. Idea of Society. 3 Hours.
The idea of society is perhaps one of the most difficult abstractions in our repertoire. This course introduces the student to various perspectives that seek to explain both the historical and contemporary meaning of society. Honors Program admission or 3.30 cumulative GPA and permission of the instructor is required.

SOC 201. Social Problems. 3 Hours.
A sociological analysis of major social problems.

SOC 210. Introduction to Anthropology. 3 Hours.
Examination of customs, institutions, and social organization of preliterate societies. Brief consideration of physical and biological aspects of human development.

SOC 252. Criminology. 3 Hours.
Study of criminal behavior, including the nature and causes of crime, and of official responses to criminal law violations. Prerequisite: SOC 110.

SOC 255. Diversity in Families. 3 Hours.
An introduction to diverse family issues and concerns in global perspective. The course examines the changing functions, patterns and structures of the family as a major social institution. Topics include changing patterns of dating, mate selection, cohabitation, marriage, dual career families, adoption, divorce, and remarriage.

SOC 269. Culture and Sexuality. 3 Hours.
This course will examine ethical, cultural, psychological, social, and political issues related to sexual relationships and sexual behavior. Specific issues covered include sexual consent and sexual responsibility; harassment and freedom of speech; privacy; censorship and pornography; impact of media on sexual relationships; and university and governmental regulation of intimate relationships, such as interracial relationships and student-professor relationship. Prerequisite(s): SOC 110 or SOC 200H.

SOC 275. Contemporary Community Issues. 3 Hours.
This course is designed to develop your understanding of the different communities you are a member of and the issues facing them in the 21st century. Drawing on theories and concepts from various disciplines, we will expand on how communities and the issues associated with them are defined, constructed and addressed at multiple levels of society. Specifically, we will examine various political and social issues facing our communities including but not limited to: crime, ecology, inequalities, health care and the family. We will also set those issues in their larger state, national and global context, address the impact of that context and the proposed possible outcomes for the future.

SOC 278. Social Research Methods. 3 Hours.
Study of the basic methods of empirical social science research. Topics include techniques and theory of research design, formulating and testing hypotheses, measurements, sampling, modes of observation, data management, and elementary data analysis.

SOC 280. Social Movement & Human Right. 3 Hours.
This course examines the complex relationship between social movements and human rights. Primary emphasis will be given to how grassroot movements/mobilizations have both shaped and contested our modern conceptions and practices of human rights in the US and globally. Prerequisite(s): SOC 110 or SOC 200H.

SOC 299. Special Topics in Sociology. 1-8 Hour.
This is a flexible course that may be taught depending on student needs. The design of the course is to present the student an opportunity to concentrate on various topics.

SOC 325. Environmental Sociology. 3 Hours.
This course examines the interrelationship between our community, culture, society and the global environment. Students will become engaged in diverse environmental projects, discussions and debates on eco-feminism, bio-diversity, bio-piracy, environmental degradation and future sustainability. Students will complete a final project that provides suggestions, recommendations and solutions to environmental preservation in the future.

SOC 357. Sociology of Religion. 3 Hours.
A sociological analysis of religious belief, behavior, organization, and the relation between religion as an institution and the larger society of which it is a part. Prerequisite: SOC 110.

SOC 361. Comparative Ethnic Studies. 3 Hours.
Examination of the social, political, legal, and economic development of ethnic inequality in our American society. Topics include prejudice and discrimination, majority and minority relations, institutionalized racism, intergroup contacts, migration, immigration, affirmative action and equal opportunity programs. Prerequisite: SOC 110.

SOC 363. Sociology of Gender. 3 Hours.
This course focuses on the social, political, legal, and economic dimensions of contemporary women's issues. Topics include the feminization of poverty, reproductive technology, single parenthood, childcare policies, aggression against women, and institutionalized sexism. Prerequisite: SOC 110.
SOC 369. Studies in Deviance. 3 Hours.
This course examines how so-called deviant identities, communities, desires, and practices are socially, historically, and culturally constructed. Particular emphasis is placed on non-traditional forms of deviancy. Discussion topics include transgender issues, queer theory, body modification, religious fanaticism, and militia groups. Prerequisite: SOC 110.

SOC 374. Cultural Studies. 3 Hours.
This course provides students with a basic understanding of the dynamics of culture and its impact on global change. Areas covered include: institutional structures of culture, cultural history and legacies, production and distribution of culture, effects of culture on meaning and social action. Prerequisite: SOC 110.

SOC 375. Social Change and Development. 3 Hours.
Designed to familiarize students with the theories, methods, and analytical frameworks for understanding social change and development in a global context. Topics covered include gender and race/ethnicity issues, social movements, and collective behavior, economic development, and globalization. Prerequisites: SOC 110 and three credits of Sociology.

SOC 376. Social Psychology. 3 Hours.
Study of the social sources and patterns of the aging perception, attribution, socialization, and interpersonal interaction. Prerequisite: SOC 110.

SOC 394. Independent Study General Soc. 1-4 Hour.

SOC 399. Senior Readings. 1-6 Hour.
Intended for students close to completing their major/minor sociology requirements. This course provides a forum for students to test the knowledge and skills they have acquired throughout their course of study by re-examining specific issues pertinent to sociology. Topics to be discussed range from civic, political, and religious participation through race, ethnicity, and gender issues. Prerequisites: SOC 110, three credits of sociology, and consent of instructor.

SOC 401. Research/Practicum/Internship. 1-6 Hour.
The course allows students the option of developing a major paper involving a literature review or empirical research or placement in applied setting for practical experience. Community and/or campus settings are available. Prerequisite: Student must complete SOC 110 OR SOC 200H before enrolling in the class.

SOC 420. Drugs & Society. 3 Hours.
An examination of public policy and the social construction of drugs and drug use. Includes the history of drug legislation, the interactional experiences of drug users, harm reduction and rehabilitation vs. criminalization, social effects, drug culture, and legalization debates. Prerequisite(s): SOC 110 or SOC 200H.

SOC 451. Political Sociology. 3 Hours.
Political sociology broadly conceived is the study of power and domination in social relationships to include the relationship between state and society. The course draws upon comparative history to analyze socio-political trends and thereby includes the analysis of the family, the mass media, universities, trade unions, etc. A typical research question might, for example, be: what factors explain why so few American citizens choose to vote.

SOC 476. Theory Construction & App. 3 Hours.
Course is based on a basic understanding of the properties, limitations, and applications of theory is important not only to producers of sociological knowledge but also as consumers of that knowledge. The goal of the class is develop an understanding of sociological theory by exploring some of the basic theoretical orientations sociologists use in studying social phenomena and some of the specific theories based on these orientations. By considering criteria appropriate for evaluating these orientations and the theories developed from them. And exploring the different ways that a sociological theory may and may not be used in resolving social problems. Prerequisite(s): SOC 110 or SOC 200H.

SOC 477. Sociological Theory. 3 Hours.
This course introduces students to the major nineteenth and twentieth century thinkers who shaped the development of sociological thought. In exploring the theoretical heritage of sociology, the course seeks to develop an appreciation of what theory is and how necessary and useful it is for examining and understanding the social world. A major assumption of the course is that sociological theory has an eminently practical function for understanding ourselves and the world we live in. Prerequisite(s): SOC 110 or SOC 200H and SOC 476.

SOC 494. Independent Study Honors Soc. 1-8 Hour.

SOC 499. Special Topics in Sociology. 1-8 Hour.
This is a flexible course that may be taught depending on student needs. The design of the course is to present the student an opportunity to concentrate on various topics.

College of Business

The primary purpose of the College of Business is to prepare students for professional careers in business, education, or government. Many of the course offerings are also available for those who desire an orientation to the field of business or as in service education for those actively employed. Specific programs are listed under the respective departments. Students desiring specific information should contact the appropriate department chairperson. http://www.minotstateu.edu/business.
Mission Statement

The MSU College of Business educates, challenges, inspires, and mentors students in their pursuit of a high-quality business education through interactive and engaged learning experiences for their professional and personal betterment.

The mission statement is supported by the following values and actions.

The College of Business...

...educates, challenges, inspires, and mentors...

Values:

• Students First
• Dedication, focus, proactivity, collegiality, nurturing

Actions:

• Impart knowledge, professionalism, and intellectual curiosity
• Develop skills and competencies
• Deliver programs
• Extend boundaries
• Initiate aspirations for leadership
• Build relationships
• Guide and advise

...students in their pursuit of a high-quality business education...

Values:

• Curricular integrity, excellence, rigor
• Professionalism

Actions:

• Serve undergraduate and graduate students, seminar and workshop participants, and prospective students and pre-college students in exploratory experiences
• Through on-campus, online, and off-site courses at MAFB, in Bismarck, and at international partner sites
• Deliver BS, BAS, BSE, MS, and MEd degree programs in majors, minors, certificates, and concentrations
• With attention to assurance of student learning through regular program assessments, identifying specific outcomes and measuring results
• Maintaining professional business program accreditation
• Supported by continuous faculty improvement

...interactive and engaged learning experiences...

Values:

• Comprehensive, holistic, relevant
• Applications-focused

Actions:

• Utilize interactive and engaged learning experiences characterized by:
  • student-faculty interaction
  • student-student interaction
  • student-community interaction (professional, business leaders, service organizations)
  • multiple delivery modes
  • advanced technology
• Demonstrate learning in courses and through participation in organizations and activities, with emphasis on:
  • business applications of theory
  • experiences such as internships, study-abroad tours and exchanges, student-faculty research, and competitive events
...for their professional and personal betterment.

Values:

- Commitment to life-long learning
- Pride and confidence; desire to succeed
- Civic responsibility and a strong work ethic

Actions:

- Develop graduates prepared for careers in local and global employment
- Instill a sense of place and unique appreciation for North Dakota
- Promote ethical behavior, good citizenship, and professional engagement

Organization

Three departments comprise the academic organization of the College as follows:

Department of Accounting and Finance, Jay Wahlund, Chairperson
Department of Business Administration, Deanna Klein, Chairperson
Department of Business Information Technology, Lori Willoughby, Chairperson

Severson Entrepreneurship Academy

Chuck Barney, Director

The Severson Entrepreneurship Academy was created as a result of a milestone gift to the Minot State University College of Business on February 9, 2010. The $1 million donation comes from Clint Severson and Conni Ahart. Severson is chairman of the board, chief executive officer and president of Abaxis, a medical devices company based in northern California. He is the 2007 Forbes Entrepreneur of the Year and a 1973 alumnus of then Minot State College.

Students from all majors can participate in the academy. With the following resources available, students will have the most authentic experience possible as they begin their own business ventures:

- Curriculum focused on knowledge and skills critical for understanding how to start, maintain, and analyze start-up businesses, with emphasis on managing on-line businesses
- Entrepreneurship Club, as mechanism through which students learn a format for analyzing start-up business plans; affiliated with national Collegiate Entrepreneurship Organization (CEO)
- Advisory Board composed of successful entrepreneurs to guide and direct the Academy
- Seed Money Fund available to be awarded to the best student business start-up plans, as selected by students in the Entrepreneurship Club
- Finance Club to manage the Seed Money Fund; proceeds distributed to the Entrepreneurship Club
- Resource Room as repository for print and electronic resources and software for understanding and analyzing entrepreneurial ventures; base for conducting research about entrepreneurship in North Dakota

College of Business Core Curriculum

Students pursuing a Bachelor of Science degree in accounting, finance, international business, management, marketing, management information systems, or energy economics and finance must complete the College of Business Core Curriculum.

The College of Business core is not required for the Business Education and Bachelor of Applied Sciences programs (Applied Management and Applied Business Information Technology). The core provides students with a broad level of knowledge in preparation for more specialized work in their selected business programs.

College of Business Required General Education Courses:

ECON 201 Principles of Microeconomics
ECON 202 Principles of Macroeconomics
MATH 210 Elementary Statistics

College of Business Core Requirements:

ACCT 200 Elements of Accounting I
ACCT 201 Elements of Accounting II
ACCT 315 Legal Environment of Business
BADM 301 Fundamentals of Management
Student Learning Assessment for Bachelor of Science Programs

General Program Intended Student Learning Outcomes (College of Business Core ISLOs)

Goal: Students will be able to demonstrate the relevant disciplinary knowledge and competencies in the functional areas of business.

• Students will acquire relevant disciplinary knowledge appropriate to their programs of study.
• Students will acquire relevant skills appropriate to their programs of study.
• Explain the major concepts in the functional areas of accounting, marketing, finance, management, and information management systems.

Goal: Students will be able to demonstrate knowledge of various environments in which business operates.

• Students will acquire relevant disciplinary knowledge appropriate to their programs of study.
• Evaluate the legal, social, and economic environments of business.
• Describe the global environment of business.
• Describe and explain the ethical obligations and responsibilities of business.

Goal: Students will be able to demonstrate the ability to apply appropriate decision-support tools in business decision making.

• Students will efficiently apply their knowledge and skills in contemporary business environments.
• Apply decision-support tools to business decision making.

Goal: Students will be able to demonstrate professional written and oral communication skills.

• Students will acquire relevant skills appropriate to their programs of study.
• Students will efficiently apply their knowledge and skills in contemporary business environments.
• Construct and present effective oral and written forms of professional communication.

ACCT Courses

ACCT 200. Elements of Accounting I. 3 Hours.
Basic principles of the complete accounting cycle with emphasis on current assets; property, plant, and equipment; and current liabilities. Prerequisite: Math 103.

ACCT 201. Elements of Accounting II. 3 Hours.
A continuation course of acct 200 with emphasis on partnerships, corporations, and management accounting. Prerequisite: Student must complete ACCT 200 before enrolling in this class.

ACCT 299. Special Topics In Accounting. 1-8 Hour.

ACCT 301. Intermediate Accounting I. 3 Hours.
 Begins with a review of the accounting process and the conceptual framework underlying financial accounting. It proceeds to an in-depth study of cash, time value of money, receivables, and inventory. Prerequisites: ACCT 201 and BOTE 247.

ACCT 302. Intermediate Accounting II. 3 Hours.
Continues the intermediate sequence with in-depth coverage of operational assets (tangible and intangible), liabilities (current and long-term), stockholders equity, and investments. Prerequisite: Acct 301.

ACCT 303. Intermediate Accounting III. 3 Hours.
ACCT 303 Intermediate Accounting III 3cr. Concludes the intermediate sequence with in-depth coverage of the statement of cash flow, pensions, and post retirement benefits, leases, earnings, per share, financial statement analysis, accounting for income taxes, accounting changes and error analysis, revenue recognition, and financial reporting. Prerequisite: ACCT 302.
ACCT 315. Legal Environment of Business. 3 Hours.
Includes the nature and function of law; contracts and private property as basic concepts in free enterprise; the legal system and evolution of attitudes and law regarding marketing functions and governmental regulation imposed on business activities. Prerequisite: Restricted to students with sophomore, junior or senior status.

ACCT 321. Managerial Accounting. 3 Hours.
Emphasizes structuring and analyzing accounting data for management decisions related to manufacturing, merchandising, and service entities. Prerequisite: Student must complete ACCT 201 before enrolling in this class. Corequisite: Student must complete BADM 301 before or at the same time as this course.

ACCT 322. Advanced Managerial Accounting. 3 Hours.
Addresses cost allocation, inventory methods, and concepts, process and activity based costing systems, standard costing, and performance measures. Prerequisite: ACCT 321.

ACCT 325. Government/Not-For-Profit Accounting. 3 Hours.
Covers accounting principles for state and local governmental units, universities, hospitals, and other not-for-profit organizations. Topics include budgetary accounting, the preparation of reports and statements, and the use of special funds. Prerequisite: Student must complete ACCT 301 before enrolling in this class.

ACCT 331. Business Law I. 3 Hours.
Topics include contracts (formation, performance, rights, and remedies), negotiable instruments, and legal matters relating to the financial/banking community. Prerequisites: Junior or senior statuses and consent of instructor. Prerequisite: Restricted to students with junior or senior status.

ACCT 332. Business Law II. 3 Hours.
Topics includes Uniform Commercial Code (Art. 2, sales contracts), Uniform Commercial Code (Art. 9, secured transactions), employment/agency law. Prerequisite: ACCT 331.

ACCT 351. Fraud Examination. 3 Hours.
This course is designed to provide the student with an introduction to the skills necessary to detect, investigate, and prevent fraud, and white-collar crime. The material covered in this course should be of interest to accountants, auditors, fraud investigators, loss prevention specialists, attorneys, educators, criminologists, or business owners/managers. The purpose of this course is to 1) educate the student about both the pervasiveness of and the causes of fraud and white-collar crime in our society, 2) explore the methods of fraud detection, investigation, and prevention, and 3) increase the student's ability to detect material financial statement fraud. Prerequisite: ACCT 200.

ACCT 360. Accounting Information Systems. 3 Hours.
Emphasizes how accounting information systems function in today's business environment. Manual and computer systems will be used to study the processes and procedures by which an organization's financial information is accumulated, classified, processed, analyzed, and communicated. Topics include business cycles, controls, integrated accounting software, spreadsheets, and relational databases. Prerequisites: Students must complete ACCT 201 and BOTE 247 before enrolling in this class.

ACCT 375. Principles of Energy Accounting. 3 Hours.
Provides a study of the accounting and taxation principles and theories relating to the energy industry. The course will focus on specific accounting entries, presentation on and impact to financial statements, and taxation concepts relating to oil, gas, and other energy companies. Prerequisite: ACCT 201.

ACCT 394. Independent Study General Acct. 1-4 Hour.

ACCT 401. Advanced Accounting I. 3 Hours.
Advanced Accounting I addresses issues related to business combinations and consolidated financial statements as well as partnership accounting. Prerequisite: ACCT 302.

ACCT 411. Taxation of Individuals. 3 Hours.
Provides a study of federal taxation principles and theories relating to individuals with emphasis on the determination of gross income and taxable income. Taxation of self-employment income will be examined and taxation of property transactions is introduced. Students apply these principles by preparing federal income tax returns, and by performing tax research. Prerequisite: Student must complete ACCT 201 before enrolling in this class.

ACCT 412. Taxation of Property Transactions and Business Entities. 3 Hours.
Provides a study of federal taxation principles and theories relating to corporations, partnerships, LLCs and S Corporations. Taxation of property transactions will be studied thoroughly. Students will apply these principles by preparing various types of federal income tax returns and by performing tax research and tax planning. Prerequisite: Student must complete ACCT 411 before enrolling in this class.

ACCT 415. Energy Law. 3 Hours.
Energy Law is an ever-changing discipline that emphasizes how both individuals and businesses interact with the law related to the energy industry on a day-to-day basis. This course will focus on the relationships between energy corporations and the individual land owner or service provider as well as the relationships between environmental laws and production. Prerequisite: Student must complete ACCT 300 before enrolling in this class.

ACCT 430. Auditing/Assurance Concepts & Practices. 3 Hours.
Introduces audit theory, standards, responsibilities, and processes. Study of audit principles and practices including evidence gathering, internal controls, sampling and testing, report writing, ethics and legal liabilities. Prerequisite: Student must complete ACCT 302 before enrolling in this class.
ACCT 431. Advanced Auditing & Assurance. 3 Hours.
Discusses compilations, reviews, examinations and other assurance services. Explores contemporary auditing and assurance issues. Prerequisite: Student must complete ACCT 430 and MATH 210 before enrolling in this class.

ACCT 480. Controllership. 3 Hours.
Examines the role of a controller as a vital member of an organization’s management team. Students exercise judgement in solving accounting-related problems by synthesizing and applying knowledge gained from previous business coursework. Focus will be placed on cost management, budgeting, organizational behavior, ethics, cash management, policy-making, internal control, performance measurement, compensation and benefits accounting information systems, and tax compliance. Prerequisites: Student must complete ACCT 321, ACCT 430, have senior status and complete the College of Business core courses before enrolling in this class.

ACCT 494. Independent Study Honors Acct. 1-8 Hour.

ACCT 495. Seminars in Leadership Development. 3 Hours.
Special topics in leadership including concepts, principles, and processes to facilitate effective, compassionate, and ethical leadership within the leader/follower relationship. The course will the relevance of self-awareness, self-management, environmental situations, social awareness and responsibility, and relationship management in authentic leadership. Prerequisites: Restricted to College of Business majors and minors and students with junior or senior status. Instructor consent is required.

ACCT 497. Accounting Internship. 1-12 Hour.
Refers to supervised professional experience in public, industrial, governmental, or non-profit accounting. Students must meet standards set by both the employer and the Accounting Department. A maximum of 2 credits count toward the major with the remaining credits counting as electives. This course is restricted to accounting majors. Consent of program coordinator required.

ACCT 499. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offering and current topics.

FIN Courses

FIN 251. Personal Finance. 3 Hours.
Introduces the consumer to money management and the development of long and short term personal financial planning. Topics include budgeting, consumer credit, saving and investing, insurance planning, retirement and estate planning, real estate investment, and shelter planning. An excellent course for beginning students and nonbusiness majors.

FIN 281. Fundamentals of Energy. 3 Hours.
An introductory course in energy fundamentals, which will include an overview of various energy sources, energy terms and definitions, and calculations related to energy. Energy economics and management are emphasized. Energy calculations, such as unit cost for petroleum and unit cost for electricity will be taught.

FIN 299. Special Topics in Finance. 2-3 Hour.

FIN 353. Corporation Finance. 3 Hours.
Introduces the student to the essentials of financial management. Coverage includes financial analysis, working capital management, capital budgeting, cost of capital, dividend policy, and long term financing decisions. Prerequisites: ACCT 201 and MATH 210.

FIN 355. Investments. 3 Hours.
Introduces the student to the principles of investment. Topics to be covered include: description of the investment environment and investment decisions; introduction to investment, security, and portfolio theories; financial statement analysis; the implications of the Efficient Market Hypothesis for active and passive portfolio management; and analysis, valuation and management of equities, fixed income securities, indices and indexed funds, and derivative securities. Prerequisites: FIN 353 and ECON 201 and 202.

FIN 357. Advanced Corporate Finance. 3 Hours.
An advanced course which examines issues related to financing the corporation including capital structure, valuation of various forms of debt and equity financing, capital budgeting decisions, dividend policy decisions, financial analysis, forecasting and managing risk with financial instruments. Prerequisite: FIN 353.

FIN 360. Entrepreneurial Finance. 3 Hours.
Introduces the student to the theories, knowledge, and financial tools needed by the entrepreneur in starting, building, and harvesting a successful venture. Topics include financing a new venture, managing profit and cash flow, financing the growth of the firm, alternative financing methods, creation of value, valuation methods, financial distress, and harvesting a successful venture. A primary focus is on the financial aspect of the business plan. Prerequisite: FIN 353.

FIN 421. International Energy Markets. 3 Hours.
This course introduces students to International Energy Markets. It will examine energy industry market structure and how it relates to business decision-making. The course will examine both renewable and non-renewable energy industry market structures. The course will provide fundamental economic knowledge needed to implement decisions related to the energy industry. It will review supply and demand structures of the energy market as well as various energy forecasting methodologies. The course will use energy data analysis methodology as a tool for analyzing future energy requirements. Prerequisites: Students must complete FIN 281 ECON 320, and FIN 353.
FIN 443. Real Estate Finance. 3 Hours.
Introduces the students to the basic principles of real estate, real estate law, and real estate finance. Topics include the ownership and transfer of real estate property, legal instruments, analysis of real estate markets, real estate appraisals, legal aspects of real estate, and financing residential, commercial, and income property. Prerequisites: FIN 353 and ACCT 300.

FIN 451. Insurance & Risk Management. 3 Hours.
Examines the nature of risk and risk management from a social, individual, business and organizational perspective. Explores the available risk management tools and alternatives including insurance. Prerequisites: FIN 353 and ACCT 300.

FIN 454. Portfolio Theory. 3 Hours.
Studies advanced concepts relating to investment and investment financial statement analysis, stock market efficiency and anomalies, derivative securities, valuation of debt, equity securities and modern portfolio theory. Prerequisite: FIN 355.

FIN 455. Financial Institutions & Markets. 3 Hours.
Focuses on the management of depository and non-depository financial institutions and the use of the money and capital markets in financial management strategy. Institutional emphasis includes banks, S & Ls, credit unions, investment companies, real estate investment trusts, finance companies, insurance companies, and pension funds. Prerequisite: FIN 353.

FIN 457. International Corporate Finance. 3 Hours.
Examines financial management implications of exchange risk exposure, accounting conventions, international constraint on capital flows, international investment management, foreign taxation, and working capital management of international firms. Prerequisite: FIN 353.

FIN 458. Financial Analysis and Valuation. 3 Hours.
Provides a framework for using financial statement data in a variety of business analysis and valuation contexts used by management, security analysts, bankers, and business consultants. The student will be taught the concepts and tools to analyze financial statements and cash flows in order to evaluate the effectiveness of a company's strategy and to make sound financial decisions. Prerequisite: FIN 357 and senior status.

FIN 491. Seminar in Energy Topics. 2 Hours.
This course introduces current practices and trends and reviews applications that are used in the energy industries. The topics presented will focus on both the short and long-term energy outlook for society. Both renewable and non-renewable energy topics will be presented by industry leaders and experts. Both North Dakota and global energy forecasting needs will be discussed.

FIN 495. Seminars in Leadership Development. 3 Hours.
Special topics in leadership including concepts, principles, and processes to facilitate effective, compassionate, and ethical leadership within the leader/follower relationship. The course will examine the relevance of self-awareness, self-management, environmental situations, social awareness & responsibility, and relationship management in authentic leadership. Prerequisites: Restricted to College of Business majors and minors and students with junior or senior status. Instructor consent is required.

FIN 497. Internships. 2-9 Hour.
A cooperative occupational training program in the area of finance. Maximum of 3 credits will count toward major. Prerequisites: restricted to major, junior or senior status and consent of the department.

FIN 499. Special Topics. 1-16 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics.

Accounting

Accounting Program Mission
The mission of the Accounting Program is to prepare individuals to enter the accounting profession, to strengthen the skills of those already part of the work force, and to develop lifelong learning skills and professional relationships. Preparation for the accounting profession encompasses learning the functions of accounting, the underlying body of concepts that form accounting theory, and the application of these concepts to practical problems and situations. Since accounting inter-relates with other disciplines, the student is made aware of the multifaceted nature of business. Emphasis is placed on technical knowledge, problem analysis and solution, information systems, communication and ethics.

Accounting Program Goals and Outcomes

<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demonstrate knowledge of and apply the principles and procedures of financial accounting.</td>
<td>1. Know the conceptual framework of financial accounting and reporting.</td>
</tr>
<tr>
<td></td>
<td>2. Perform the steps in the accounting cycle.</td>
</tr>
<tr>
<td></td>
<td>3. Perform financial statement analysis and interpret results.</td>
</tr>
<tr>
<td></td>
<td>4. Recognize the effect of business transactions on the financial statements of a business.</td>
</tr>
</tbody>
</table>
5. Explain and use the elements of an accounting information system.
6. Know and apply generally accepted accounting principles.

Demonstrate knowledge of and apply the principles and procedures of managerial accounting.
1. Know and apply the various cost systems.
2. Distinguish and analyze various cost classifications.
3. Use key cost and revenue measures and techniques.

Demonstrate knowledge of and apply auditing and attestation theories, standards and procedures.
1. Differentiate the various attestation and other services.
2. Define and employ applicable attestation and other professional standards.
3. Prepare and interpret audit reports.
4. Describe the elements of internal control and their role in deterring fraud and achieving an organization’s goal.

Demonstrate and apply knowledge of federal taxation, ethics, professional and legal responsibilities, and business law.
1. Know and apply the federal income tax concepts as they pertain to individuals.
2. Know and apply the federal income tax concepts as they pertain to business entities.
3. Define and account for other taxes (such as payroll tax, property tax, and sales tax) that impact business.
4. Identify advantages, implications, and constraints of legal structures for businesses.
5. Recognize legal issues as they pertain to agency, contracts, debtor-creditor relationships, government regulation of business, uniform commercial code, and real property.
6. Recognize other professional, legal, and ethical responsibilities.

Integrate skills related to technology, research, problem solving and communications.
2. Demonstrate the integration of accounting and spreadsheets.
3. Demonstrate effective communication skills (written, oral, professional demeanor, etc.).

Demonstrate knowledge of and apply principles and procedures related to the following areas, if selected; fraud examination, governmental and not-for-profit accounting, accounting information systems, law, auditing, money and banking, or certain finance areas.
1. Know and apply principles and procedures related to areas of student interest or student career goals.

Bachelor of Science with a Major in Accounting (120 CR)

The accounting major is designed to provide a basic level of expertise in accounting theory and practice. The student has the opportunity to complete additional courses in fraud examination, cost accounting, business law, auditing, not-for-profit accounting, and accounting information systems. The student may elect courses in anticipation of sitting for various professional examinations in the field of accounting or to provide additional background for a specific career track. Internships are also available to provide practical experience in diverse accounting fields.

North Dakota law requires persons sitting for the CPA professional examination to have completed 150 semester hours of college education, which includes a baccalaureate degree. Students interested in becoming CPAs should be prepared to extend their programs of study by at least 22 semester hours at the undergraduate or graduate levels to meet this requirement.

Finance

Finance Program Mission
The finance program mission is to enable the graduating finance major to use the principles, tools, and techniques for effective and efficient financial management, perform financial analysis and planning, explain the Investments environment and asset valuation models, identify short, intermediate, and long-term financial alternatives, apply financial management for new ventures and small business, and to understand the management performance, and regulatory aspects of financial institutions and markets.

Finance Program Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demonstrate knowledge of and apply the principles, tools and techniques for effective and efficient financial management</td>
<td>1. Perform financial statement analysis to evaluate a firm's financial performance and produce pro forma financial statements.</td>
</tr>
<tr>
<td></td>
<td>2. Know the characteristics of and apply the evaluation techniques to fixed-income securities, like bonds, preferred stock, and common stock.</td>
</tr>
<tr>
<td></td>
<td>3. Use the capital budgeting decision models adjusting for risk.</td>
</tr>
<tr>
<td></td>
<td>4. Know the management of working capital, including decisions about the optimal overall level of current assets and the optimal mix of short-term and long-term funds used to finance the company's assets.</td>
</tr>
<tr>
<td></td>
<td>5. Know how operating and financial leverage aid management in assessing risk/return trade offs of various types of financial decisions.</td>
</tr>
<tr>
<td></td>
<td>6. Apply the concepts of the time value of money.</td>
</tr>
<tr>
<td></td>
<td>7. Know the concept of risk and apply it to the valuation process of alternative investments.</td>
</tr>
<tr>
<td></td>
<td>8. Know the different alternatives for short-term, intermediate-term, and long-term funding.</td>
</tr>
<tr>
<td>Demonstrate knowledge of and apply investment strategy and analysis from basic investing to the theory of portfolio construction and risk management.</td>
<td>1. Identify major types of financial markets, the major participants, and recent trends in those markets.</td>
</tr>
<tr>
<td></td>
<td>2. Compare and contrast major types of investment classes such as bonds, stocks, and alternative investments.</td>
</tr>
<tr>
<td></td>
<td>3. Know the techniques of macroeconomics and industry analysis and use technical analysis.</td>
</tr>
<tr>
<td></td>
<td>4. Perform analysis of investment alternatives, manage a portfolio, and evaluate results.</td>
</tr>
<tr>
<td></td>
<td>5. Apply portfolio theory in the construction of a portfolio within an environment of risk and uncertainty.</td>
</tr>
<tr>
<td>Demonstrate an understanding of the management, performance, and regulatory aspects of financial institutions and markets</td>
<td>1. Know the types of financial markets and the role of financial institutions within those markets.</td>
</tr>
<tr>
<td></td>
<td>2. Explain how to forecast interest rates using the loanable funds theory.</td>
</tr>
<tr>
<td></td>
<td>3. State how financial market participants monitor monetary and fiscal policies.</td>
</tr>
</tbody>
</table>
4. Know how interest rates are affected by various factors and how to manage interest rate risk with futures, options, swaps, and forward contracts.

5. Identify the sources and uses of funds, regulations, management, and performance of commercial banks, thrifts, mutual funds, securities firms, insurance companies, pension funds, and credit unions.

Demonstrate the theories, knowledge and financial tools necessary to start, grow and harvest a successful business venture

1. Identify the ingredients for doing a start-up business and the components of a financially sound business model.

2. Analyze a business plan and create the financial portion of the plan illustrating the venture’s financial viability.

3. Identify opportunity-screening criteria used by venture capital investors and describe the due diligence process relating to financing and harvesting a potential new venture.

4. Determine how much money is needed to start the company and its cash burn rate, and describe the sources used to fund a new venture including venture capital, bank loans, and government loan guarantee and micro-credit programs.

5. Know how to use financial statements in managing and in creating long-term value of an entrepreneurial venture.

6. Describe the concept of sustainable sales growth rate as well as the process of identifying when and how many additional funds will be needed to support the venture’s sales forecast.

7. Demonstrate the techniques of determining the value of a small business firm.

8. Discuss how an entrepreneur can develop an exit strategy to harvest the venture.

Demonstrate knowledge of and apply principles and procedures related to the following areas, if selected: financial accounting, federal income taxation, finance as related to real estate, insurance & risk management, banking, or managerial economics.

1. Know and apply principles and procedures related to an area of student interest or student career goals.

Bachelor of Science with a Major in Finance (120 CR)

The finance major prepares students for a wide variety of careers in business and government, including corporate financial management, financial analysis, financial institutions, entrepreneurship, investments, real estate, financial planning, and international business. It provides students with knowledge and decision-making skills for acquiring, investing, and managing capital. The concepts, methods, and techniques equip the students with a thorough understanding of the financial process in order to add value to any organization.

Bachelor of Science with a Major in Energy Economics and Finance (120 CR)

The Energy Economics and Finance major is designed to provide a foundation in geological sciences and a rigorous selection of economics and finance courses focused on energy topics to enable students to perform business analyses as members of asset-project teams for a range of business analysis positions in the energy industry, from business and financial analyst or project analyst for an energy company or a utility, to energy loan specialist for a financial institution, to energy economist, to a corporate planner leading eventually to CFO or CEO positions and to positions as energy-audit consultants to public service commissions. The special strengths of the program include its capability to link economic and financial analysis processes and practices with energy-related issues, its ability to offer students the opportunity to enhance this link through “options” that provide specialization, and its uniqueness within the region.

The Energy Economics and Finance program is designed to prepare students to be financial analysts capable of providing value to energy organizations. To meet this objective, the curriculum builds upon a strong business core by further blending knowledge in three areas: geology, economics, and finance. The curriculum has four components: General Education, College of Business Core Requirements, required major courses, and elective options.

### Courses

**BADM 101. Introduction to Entrepreneurship. 3 Hours.**
Introduces fundamental concepts of entrepreneurship. Students will develop an understanding of the entrepreneurial mindset and core entrepreneurship competencies. Explores current issues and trends in entrepreneurship.

**BADM 120. Fundamentals of Business. 3 Hours.**
Students will develop an understanding of the abilities and skills required for success in future business and nonbusiness careers and endeavors within society. This course may not be taken by business majors during their final two semesters. An excellent course for beginning students and nonbusiness majors. Prerequisite: Restricted to freshman and sophomore students.

**BADM 299. Special Topics In Bus Admin. 1-8 Hour.**

**BADM 301. Fundamentals of Management. 3 Hours.**
Focuses on the nature of management, the evolution of management thought, strategic management and planning concepts, decision making and creative problem solving, and motivation and leadership in a changing environment. Prerequisite: Sophomore status.

**BADM 303. Human Resource Management. 3 Hours.**
Includes personnel policies, programs, and procedures, standards, employment, staffing, wage and salary administration, personnel laws, and personnel research. Prerequisite: BADM 301.

**BADM 304. Entrepreneurship/Small Business Management. 3 Hours.**
Introductory entrepreneurship course intended to provide a solid foundation in terms of the vital role played by entrepreneurs, innovation, and creativity in the global economy. The various components of a business plan are introduced. This course is complemented at the end of the management program with the entrepreneurship and new venture creation course. Prerequisite: Student must complete BADM 301 and have junior status before enrolling in this class.

**BADM 307. International Business. 3 Hours.**
Introduces conceptual and operational problems of participating in international business. Coverage includes a study of managerial, marketing, financial, accounting, legal, economic, and cultural environments in foreign markets for the conduct of world business. Prerequisite: Student must complete BADM 301 and 321 before enrolling in this class.
BADM 309. Safety Management. 3 Hours.
Introduces safety management in the work place and its application to the law, OSHA, cost analysis, program organization, and safety program administration. Prerequisite: BADM 301.

BADM 321. Marketing. 3 Hours.
Acquaints students with the principles, concepts and perspectives underlying marketing functions, including the conception, pricing, promotion, and distribution of products, services, and ideas, and the role of marketing in society. Prerequisite: Restricted to students with sophomore status.

BADM 322. Professional Selling. 3 Hours.
Introduces the basic principles that underlie selling and the steps in making a sale (prospecting, approaches, objections, presentations, demonstrations, closing). Practical illustrations and demonstrations are employed. Prerequisite: BADM 321.

BADM 324. Integrated Marketing Communications. 3 Hours.
Acquaints students with the role of integrated marketing communications concepts and practices in enhancing the equity of brands, and provides thorough coverage of all aspects of an IMC program: advertising, promotions, packaging, and branding strategies, point of purchase communications, marketing oriented public relations, and event and cause oriented sponsorships. Prerequisite: BADM 321.

BADM 340. Corporate Entrepreneurship. 3 Hours.
The course focus is on creating work environments for entrepreneurial thinking and skills to recognize, assess and exploit market opportunities for a company. This course allows students to examine the unique nature of corporate entrepreneurship and the application of entrepreneurial concepts and behaviors within an established company. Students explore entrepreneurial imperatives businesses need to become more innovative to acquire a sustainable competitive advantage. Students examine the role that leaders and managers play in initiating and implementing entrepreneurial activities such as new product launches and managing innovation within a business. Prerequisite: BADM 101.

BADM 406. Professional Business Ethics. 3 Hours.
Studies of ethical issues faced by businesses including distributive justice, capitalism, decision-making, corporate responsibility, corporate morality, governance, whistle-blowing, hiring policies, codes of ethics, advertising, safety, pollution, and foreign business practices. Prerequisites: BADM 301 and senior status.

BADM 408. Negotiations. 3 Hours.
The study of negotiation to include framing, strategizing, planning, tactics, negotiating, and settlement. The course of study includes individual, organizational, and collective bargaining processes. It also includes practical applications of bargaining processes through group projects. Prerequisite: BADM 301.

BADM 416. Operations Management. 3 Hours.
Introduces the concepts, issues, and problems of operations management and the management of the production function. Problems are analyzed and solutions are recommended. Microcomputer applications are addressed. Prerequisite: Student must complete BOTE 247, ECON 201, MATH 210, and BADM 301 before enrolling in this course.

BADM 421. Applied Business Research. 3 Hours.
Explores the full range on activities involved in the marketing research process for business including research and measurement concept, sampling and field work, and data analysis and presentation. Prerequisites: BADM 321, MATH 210.

BADM 422. Consumer Behavior. 3 Hours.
Studies the consumer decision-making process in the purchase of goods and services. Emphasis is placed on developing and understanding the determinants of consumer behavior and the appropriate application of marketing strategies. Prerequisite: BADM 321 or permission of instructor.

BADM 424. Logistics & Channel Management. 3 Hours.
Explores channels of distribution considering behavioral, social, and economic aspects of the distribution system to include transportation, inventory management, order processing, purchasing, warehousing, material handling, packaging, customer service, and product scheduling. Prerequisite: BADM 321.

BADM 427. International Marketing. 3 Hours.
Introduces the essentials of conducting international marketing operations to include estimating market potential, developing entry strategies, and managing and controlling marketing programs. Prerequisite: BADM 321.

BADM 436. Organizational Behavior Principles and Practices. 3 Hours.
Includes the principles, concept, and processes that interpret human relations in management at the individual, group, and organizational levels. Prerequisite: BADM 303.

BADM 437. International Culture & Management. 3 Hours.
Examines the impact of culture on business practices and introduces the student to the management process in an international setting. Includes an examination of comparative systems and environmental conditions and their impact on management decisions. Prerequisite: Student must complete BADM 307 before enrolling in this class.

BADM 462. International Business Strategy. 3 Hours.
Provides an international business capstone experience. Case studies illustrating international business decisions and operations are emphasized. Prerequisite: BADM 307.
BADM 465. Strategic Management. 3 Hours.
Strategic management is an analysis of the objectives of business firms and the development and evaluation of strategies and policies designed to meet these objectives. Cases are emphasized. Prerequisite: Student must complete BADM 301, 321, and FIN 353 before enrolling in this class.

BADM 470. Projects in Entrepreneurship. 3 Hours.
Provides application of the skills acquired in previous entrepreneurship and College of Business courses through experiential coursework. Students will complete individual research culminating in a final portfolio project. The project will allow the opportunity to integrate the tools learned in the program to develop and detail their business venture. Prerequisites: Students must complete BADM 101 and BADM 304 prior to enrolling in this course.

BADM 488. Marketing Strategy. 3 Hours.
Management of marketing organizations and integration of functions, with emphasis on planning and designing strategies and applying tools and techniques for problem solving and decision making. Prerequisites: Student must complete BADM 321 and 421 before enrolling in this class.

BADM 489. Entrepreneurship and New Venture. 3 Hours.
This course focuses on entrepreneurship, new venture creation, and the completion of a business plan. The business plan applies principles, concepts, and a framework to real world situations. Prerequisites: Students must complete BADM 321, 304, FIN 353 and ACCT 321 before enrolling in this class.

BADM 495. Seminars in Leadership Develop. 3 Hours.
Special topics in leadership including concepts, principles, and processes to facilitate effective, compassionate, and ethical leadership within the leader/follower relationship. The course will the relevance of self-awareness, self-management, environmental situations, social awareness and responsibility, and relationship management in authentic leadership. Prerequisites: This course is restricted to College of Business majors and minors and students with junior or senior status. Instructor consent is required.

BADM 496. Study Abroad. 3 Hours.
MSU faculty-led trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit for different countries.

BADM 497. Internship. 2-9 Hour.
A cooperative occupational course relevant to your BADM degree program. Maximum of 3 credits will count toward major. Prerequisite: Restricted to students who are International Business, Management, or Marketing majors.

BADM 499. Special Topics in Business Administration. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics.

International Business

International Business Program Mission

The International Business graduate is prepared for domestic and international careers where graduates will be employed in activities involved with the international flow of goods, services, and information. Our graduates take positions with global businesses, governmental organizations, and non-profit organizations. Our graduates add value to their employers’ organizations through their acquired international expertise and sensitivities.

### Certificate of Entrepreneurship

The program cultivates comprehensive knowledge of entrepreneurship theories and practices. Students learn how to launch, manage and harvest a business. Students graduate with a strong understanding of various types of entrepreneurship: new venture creation entrepreneurship, small business entrepreneurship/management, and corporate entrepreneurship. This approach provides students a well-rounded perspective of entrepreneurship so they can pursue starting their own business (for profit, nonprofit, or social), manage an existing small business with entrepreneurial insights or lead entrepreneurial endeavors such as new product launches. Students will study creativity and how to manage innovations within the public and private sectors. Students will apply skills of opportunity recognition, resource leveraging, bootstrapping and risk mitigation, through simulations, case studies, and real-world experiences. Students leave the program with a nurtured entrepreneurial mindset and the knowledge, skills and abilities to engage in entrepreneurial endeavors in various settings.

Required: Entrepreneurship Portfolio

This program provides students with a robust set of entrepreneurship courses and experiential learning activities. The design provides exposure to entrepreneurship and develops an understanding of entrepreneurial concepts to various majors. Students learn how to finance, start, manage, grow and harvest a successful business. The courses also demonstrate how to manage an existing business and how to work in a corporation that supports intrapreneurship. Students will learn that developing an entrepreneurial and innovative mindset is beneficial beyond starting or owning a business. Students completing the program develop insights on skills of opportunity recognition, innovation management, resourcefulness, and the use of creativity to gain and sustain competitive advantage.

Entrepreneurship Minor

Required: Entrepreneurship Portfolio

The Certificate of Entrepreneurship is a series of highly interactive classes designed to instill entrepreneurial thinking in students. The certificate will provide students with the knowledge of the entrepreneurial process and how to start, finance, plan and launch a business. The certificate combines business and entrepreneurial courses to develop an understanding of how to recognize business opportunities; attract, valuate and manage resources; and transform business opportunities into value. The certificate program culminates with an experiential application of the skills acquired in the courses. Graduates will produce a business website, a well-developed business pitch and a full business plan and portfolio.

## Marketing Education Concentration

Restricted to Business Education majors.
BADM 120  Fundamentals of Business  3
BADM 301  Fundamentals of Management  3
BADM 321  Marketing  3
BADM 324  Integrated Marketing Communications  3
Total Hours  12

Office Services Concentration

Entire concentration also offered online.

Select 10-12 credits from BOTE or BIT courses.  10-12
Total Hours  10-12

Certificate Program in Application Software Specialist

Non-degree program designed for students seeking software application expertise. Courses apply toward Bachelor of Science in MIS major. All courses also offered through MSU online. This program is for students who are not majoring in MIS.

BOTE 247  Spreadsheet Applications  3
BIT 154  Word Processing & Presentation Software  3
BIT 310  IT Project Management  3
ART 112  Computer Graphics  3
BIT 311  Collaborative Computing  3
BIT 312  Data and Information Management  3
Total Hours  18

Certificate in Information Assurance

BIT 220  Management Information Systems  3
or CSCI 160  Computer Science I

BIT 385  Technology Management  3
BIT 444  IT Security & Information Assurance  3
BIT 445  IT Audit Controls  3
CJ 364  Cybercrime  3

Certificate Program in Web Development

Non-degree program designed for students seeking courses involving web site design. Courses apply toward Bachelor of Science in MIS major. All courses are also offered through MSU Online. This program is for students who are not majoring in MIS.

BIT 235  Introduction to Web Site Design  3
BIT 312  Data and Information Management  3
BIT 358  IT Infrastructure  3
BIT 370  Web-Based Application Development  3
ART 112  Computer Graphics  3
Total Hours  15

BIT Courses

BIT 123. Technology-Personal Development. 3 Hours.
Introduction to technology for personal development. Emphasis placed on how to exploit technology to achieve goals and improve quality of life.

BIT 154. Word Processing & Presentation Software. 3 Hours.
Pre-requisites: Previous computer experience.
BIT 220. Management Information Systems. 3 Hours.
Designed to provide an introduction to systems and development concepts, technology acquisition, and various types of application software that have become prevalent or are emerging in modern organizations and society. Also introduces students to contemporary information systems and demonstrates how these systems are used throughout global organizations. The focus of this course is on the key components of information systems - people, software, hardware, data, and communication technology, and how these components can be integrated and managed to create competitive advantage.

BIT 235. Introduction to Web Site Design. 3 Hours.
Basics of web site design using HTML code and web editing software.

BIT 236. Business Design Tools. 3 Hours.
Hands-on computer course that surveys current software packages in the area of business designing tools. Offered on campus Fall even years and online Fall odd years.

BIT 299. Special Topics. 1-3 Hour.

BIT 310. IT Project Management. 3 Hours.
The course is designed to examine the processes, methods, techniques and tools that organizations use to manage their information systems projects utilizing a systematic methodology for initiating, planning, executing, controlling, and closing projects.

BIT 311. Collaborative Computing. 3 Hours.
Course explores collaboration within an organization, including establishment and maintenance of a collaborative culture, virtual team development and member roles, collaborative communication, and collaborative tools and technology. Prerequisite: Student must complete BIT 220 before enrolling in this class.

BIT 312. Data and Information Management. 3 Hours.
Provides the students with an introduction to the core concepts in data and information management. It is centered around the core skills of identifying organization information requirements, modeling them using conceptual data modeling techniques, converting the conceptual data modes into relational data models and verifying its structural characteristics with normalization techniques, and implementing and utilizing a relational database. Prerequisites: Students must complete BIT 220, 310, and 311 before enrolling in this course.

BIT 318. Business Communication. 3 Hours.
Focuses on oral, written and nonverbal communication skills used in business. Emphasis on virtual and global communication, listening, and collaborative communication skills, and enhancement of communication using multi or social media. Prerequisites: ENGL 110.

BIT 342. Advanced Web Site Design. 3 Hours.
Enhancement of students' skills to plan, develop, and integrate well-designed web sites that combine effective navigation with the balanced use of style sheets, media queries, fluid layouts, images, tables, movie clips, sound, and different methods of creating web-based animations. Offered on campus spring odd years and online spring even. Prerequisites: BIT 235. Corequisite: BIT 236.

BIT 358. IT Infrastructure. 3 Hours.
Designed to explore topics related to both computer and systems architecture and communication networks.

BIT 370. E-Commerce. 3 Hours.
Exploration of E-Commerce and E-Business technologies and key concepts of the evolving dynamic of business and information system environments. Students will study the continuously altering world of business in a digital marketplace including architecture, security, social media, and diverse platform implementations.

BIT 385. Technology Management. 3 Hours.
Designed to explore current issues, approaches to the management of technology, the interaction of new technologies with existing technologies, legal and regulatory implications of technology, ethics, and the processes through which organizations generate and absorb technological innovations.

BIT 391. Methods of Teaching Business. 3 Hours.
Emphasizes the competencies needed for preservice teachers that may apply to the teaching of any business course. Special emphasis placed on classroom management strategies, unit development, lesson planning, evaluation and assessment option, along with other activities pertaining to the actual teaching experience. Offered on campus fall odd years. Prerequisite: Admission to teacher education and MOS certification at specialist level in Word, Excel or PowerPoint.

BIT 399. Special Topics. 1-3 Hour.

BIT 421. Philosophy of Career & Technical Education. 3 Hours.
Addresses the history, growth, legislation, and elements of career and technical education. Students research principles and practices of vocational business education and their relationship to general business education and other areas of career and technical education. Offered on campus fall odd years. Co-requisite: BIT 423. Prerequisite: Admission to teacher education and junior status.

BIT 423. Leadership in CTSOs. 3 Hours.
Study of planning and implementing of career and technical student organizations. Principles in developing co-curricular career and technical education curriculum are included. Offered on campus Fall odd years. Prerequisite: Student must be admitted into teacher education before enrolling in this class. Prerequisite or Corequisite: Student must be enrolled in or have completed BIT 421.
BIT 440. Enterprise Architecture. 3 Hours.
Designed to explore the design, selection, implementation, and management of enterprise IT solutions. The focus is on applications and infrastructures as applied within the business. Prerequisite: Student must complete BIT 220 before enrolling in this course.

BIT 441. IS Strategy, Management, & Acquisition. 3 Hours.
Designed to explore the issues and approaches managing change, managing the information systems function in organizations, and how the IS function integrates, supports, and enables various types of organizational capabilities. Prerequisite: Students must complete BIT 440 before enrolling in this course.

BIT 443. Outsourcing Management. 3 Hours.
Designed to explore the initiation of a sourcing decision and evaluation process through supplier selection and transition to outsourcing and insourcing. Prerequisite: Students must complete BIT 220 before enrolling in this course.

BIT 444. IT Security & Information Assurance. 3 Hours.
Designed to explore hardware, software, processes, communications, applications, and policies, and procedures with respect to organizational IT Security and Risk Management. Offered on campus Fall odd years and online Spring even years. Prerequisite: Students must complete BIT 358 before enrolling in this course.

BIT 445. IT Audit Controls. 3 Hours.
Designed to explore the fundamental concepts of the information technology audit and control function. The main focuses of this course is on the understanding information controls, the types of controls and their impact on the organization, and how to manage and audit. Offered on campus Fall odd years and online Spring even years. Prerequisite: Students must complete BIT 385 before enrolling in this class.

BIT 452. Client/Server Database. 3 Hours.
Designed to explore the issues of managing database systems as essential organizational resources. Students learn the enterprise-data-architecture components, data storage configurations, and information retrieval methods. Offered on campus Spring even years and online Fall odd years. Prerequisite: Student must complete BIT 312 before enrolling in this class.

BIT 453. Systems Analysis. 3 Hours.
Designed to explore systematic methodologies for analyzing a business problem or opportunity, determining what role, if any, computer-based technologies can play in addressing the business need, articulating business requirements for the technology solution, specifying alternative approaches to acquiring the technology capabilities need to address the business requirements, and specifying the requirements for the information systems solution. Prerequisite: Student must complete BIT 220, BIT 310, and BIT 311 before enrolling in this class.

BIT 460. MIS Seminar. 3 Hours.
The MIS seminar provides the students an opportunity to explore current issues, trends, and careers in the field. Prerequisite: Restricted to students with senior status.

BIT 470. Projects in MIS. 3 Hours.
The culminating experience for all MIS majors. The application of concepts learned from courses taken in the College of Business core, Management Information Systems core, and tracks are applied to real-world projects. Prerequisite: Restricted to students with senior status.

BIT 494. Independent Study Honors. 1-8 Hour.

BIT 495. Seminars in Leadership Development. 3 Hours.
Special topics in leadership including concepts, principles, and processes to facilitate effective, compassionate, and ethical leadership within the leader/follower relationship. The course will examine the relevance of self-awareness, self-management, environmental situations, social awareness & responsibility, and relationship management in authentic leadership. Prerequisites: Restricted to College of Business majors and minors and students with junior or senior status. Instructor consent is required.

BIT 497. Internship. 3-9 Hour.
Internship allows the student to combine an on-the-job learning experience with related academic coursework. Prerequisite: Senior status, restricted to MIS majors.

BIT 499. Special Topics. 1-3 Hour.
Topics will vary from year to year.

BOTE Courses

BOTE 102. Keyboarding I. 3 Hours.
Basic instruction and practice in using the alphanumeric keyboard. Emphasis on proper fingering for touch operation of the keyboard, development of speed and accuracy, and exploration of business document formatting. Offered online only.

BOTE 127. Information Processing. 3 Hours.
Introduction to computer concepts, hardware and software applications, operating systems, word processing, spreadsheets, presentations, and Internet. Course may be waived if students holds MOUS certification in Word, Excel, and Power Point at the specialist level.

BOTE 147. Word Processing. 3 Hours.
Use of current word processing software to create professional business documents including letters, memos, reports, tables, forms, brochures, and graphic aids. Advanced features in printing, macros, and merging also practiced. Prerequisite: BOTE 152 or at least one semester of high school keyboarding. Offered online only.
BOTE 152. Keyboarding II. 3 Hours.
Development of speed and accuracy in keyboarding straight copy and production activities. Emphasis placed on formatting and keying various business documents including memos, letters, reports, and tables from straight copy, rough drafts, and unarranged material. Prerequisite: BOTE 102 or at least one semester of high school keyboarding. Offered online only.

BOTE 247. Spreadsheet Applications. 3 Hours.
Intermediate and advanced use of application software for creation of spreadsheets, graphs, databases, and macros. Integration with other software applications is also reviewed.

Management Information Systems

Management Information Systems Program Mission

A Management Information Systems graduate is a professional and technical person who is knowledgeable of many facets of information systems and is able to assimilate information technology theory and skills.

The Management Information Systems graduate will be able to ...

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>

Applied Business Information Technology

Program Mission

The Bachelor of Applied Science in Applied Business Information Technology graduate is a technical person who is knowledgeable of many facets of information technology and is able to assimilate information technology skills.

The BAS in Applied Business Information Technology graduate will ...
Goal | Outcome
---|---
Lead and collaborate information systems project in a professional manner. | Lead cross-functional global teams, discuss globally distributed projects, and work effectively in diverse teams.
Negotiate with internal and external constituents when solving MIS problems. | Communicate with users about funding, resources of time, staff, and features; distinguish between providers regarding service levels; examine and illustrate with providers regarding quality and performance of deliverables; and facilitate negotiations between competing internal interests.
Apply analytical and critical thinking skills in the information systems environment. | Analyze the ethical and legal implications of complex situations; analyze the risks associated with complex systems; solve complex problems; use quantitative analysis techniques appropriately and effectively; and enhance innovation and creativity in oneself and others.
Identify and design opportunities for IT-enabled organizational improvement. | Ensure alignment between IT strategy and organizational strategy; improve organizational processes with information technology solutions; understand and design the role of information systems in managing organizational risks and establishing controls; identify and exploit opportunities created by emerging technology innovations; understand and document information requirements; improve various stakeholders’ experience in interacting with the organization, including issues in human-computer interaction.
Analyze and evaluate information systems sourcing alternatives. | Identify and design high-level solution and sourcing options; analyze and document the feasibility of various options; compare solution options using multiple decision criteria; create a financial justification for choosing between alternatives; and evaluate cultural differences for options that cross geographical boundaries.
Design and implement information systems solutions. | Design enterprise architectures; identify, evaluate, and procure detailed solution and sourcing options; configure and integrate organizational solutions using packaged solutions; design and implement solutions that provide a high-quality user experience; design secure systems and data infrastructures; design and implement applications; manage and explore organizational data and information; manage information systems development/procurement resources; and manage information systems projects.
Managing ongoing information technology operations. | Manage the use of enterprise technology resources; manage application performance and scalability; maintain existing information systems; manage relationships with technology service providers; secure data and systems infrastructure; and ensure business continuance.
Synthesize business knowledge, practices and theories in generating and presenting a discipline specific project. | Deliver a professional presentation to an audience of MIS professionals and peers.

**BAS BIT Program Guidelines**

Guidelines for Bachelor of Applied Science (BAS) degree program:

- Students must have an AAS to be accepted into this program.
- Student must complete General Education requirements at MSU or another institution.
- There are special exceptions to MSU policy that apply only to North Dakota residents, who need only 42 credits from MSU to complete the degree.
- If a student has completed his/her AAS out of state, all regular MSU policies apply (meet MSU General Education requirements, 60 credits at 4-year institution and at least 30 credits from MSU).
- A minimum cumulative total of 120 credits is required to graduate.

**Business Education**

**University Teacher Education Policies**

Refer to Teacher Education Policies (p. 283) pages for details regarding Teacher Education at Minot State. These pages will explain the admission, retention, and exit requirements of the program for business majors in teacher education.

**Business Education Program Mission**

A Bachelor of Science in Education Business graduate reflects knowledge of the business education curriculum and is certified/licensed to teach business subjects in grades 7-12. The BSEd-Business graduate is a reflective decision maker who applies skills of critical thinking, analysis and creativity in developing, delivering and assessing the business curriculum.
# Business Education Program Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Completes all course and program requirements which result in professional educator licensure and completes coursework required for career &amp; technical certification.</td>
<td>Maintains a cumulative grade point average of 2.75, required by the Minot State Teacher Education Unit.</td>
</tr>
<tr>
<td></td>
<td>Joins Phi Beta Lambda.</td>
</tr>
<tr>
<td></td>
<td>Completes a minimum of one online course.</td>
</tr>
<tr>
<td></td>
<td>Applies knowledge through a variety of performance assessments.</td>
</tr>
<tr>
<td>Plans, organizes and manages a business education program that shall include: business and office technology, computer information systems, workplace skills and career opportunities, and advising a business student organization.</td>
<td>Arranges activities fostering the development of skills such as appropriate communication, human relations, and teamwork skills.</td>
</tr>
<tr>
<td></td>
<td>Designs a comprehensive business education program for the school setting.</td>
</tr>
<tr>
<td></td>
<td>Compiles a plan of activities for a business education student organization in accordance with the organization’s handbook.</td>
</tr>
<tr>
<td></td>

<td>Adapts the business curriculum for special needs students.</td>
</tr>
<tr>
<td></td>
<td>Utilizes various teaching resources to develop and update lesson plans.</td>
</tr>
<tr>
<td></td>
<td>Develops a realization of the world for vocational education from its beginnings to the present time; includes pertinent legislation.</td>
</tr>
<tr>
<td></td>
<td>Develops strategies for designing curriculum for business education.</td>
</tr>
<tr>
<td></td>
<td>Develops strategies for implementing work place opportunities for high school students.</td>
</tr>
</tbody>
</table>

Goals adapted from North Dakota Program Approval Standards for Business Teacher Education and National Association for Business Teacher Education.

# Department Teacher Education Requirements

In addition to university-wide teacher education policies, students enrolled in a degree program in business teacher education will complete the basic core and required courses. Students must be members of the MSU chapter of Phi Beta Lambda (PBL), and must retain membership in PBL through their student teaching experience. During course work, at least one course must be taken in the online environment.

North Dakota career and technical education certification requirements are listed at [http://www.nd.gov/cte/teacher-cert/](http://www.nd.gov/cte/teacher-cert/).

The status of students admitted to Business Teacher Education is reviewed each semester.

# College of Education and Health Sciences

## College of Education and Health Sciences Mission

The College of Education and Health Sciences prepares quality professionals and pre-professionals in education, human services, and health sciences to meet the needs of others within a changing society.
College of Education and Health Sciences Vision

The College of Education and Health Sciences will maintain a regional, national, and international reputation as a college:

• With graduates whose standards of performance are sought after by employers
• With faculty who are sought after for their expertise as scholars and teachers and for their contributions to the community
• With first class facilities including state-of-the-art technology and equipment

Organization

The College consists of five departments. In addition, the Assistant Vice President of Academic Affairs serves as the head of the Teacher Education Unit which has programs from all three colleges on campus.

• Department of Addiction Studies, Psychology, and Social Work, Dr. Vicki Michels, Chair
• Department of Communication Disorders, Dr. Ann Beste-Guldborg, Chair
• Department of Nursing, Dr. Nicola Roed, Chair
• Department of Teacher Education and Kinesiology, Dr. Terry Eckmann, Chair
• Department of Special Education, Dr. Holly Pedersen, Chair

Teacher Education Policies and Procedures (p. 283).

Department of Addiction Studies, Psychology and Social Work

Chair
Dr. Vicki Michels

The Department of Addictions Studies, Psychology, and Social Work (ASPSW) offers three undergraduate programs and one graduate program leading to the following degrees:

• Bachelor of Science degree in Addiction Studies
• Bachelor of Social Work degree
• Bachelor of Arts degree in Psychology
• Education Specialist degree in School Psychology

Dedicated to quality learning, ASPSW comprises 13 full-time faculty members and approximately 18 adjunct faculty members delivering our programs across North Dakota:

• Minot (Addiction Studies, Psychology, Social Work, and School Psychology)
• Bismarck (Addiction Studies, Psychology, Social Work)
• Fargo (Social Work)
• Dickinson (Social Work)

In cooperation with MSU’s Center for Extended Learning, several ASPSW course are available around the world with online delivery. We also are expanding the reach of our Social Work program to Norway.

Our faculty and students are heavily engaged in service to the community and are active in research. Service and research foster an understanding for our students regarding how our departmental disciplines are applied in the community and add to our scientific knowledge. Student-led activities are facilitated by the Student Social Work Organization (SSWO) and the Psychology and Addiction Studies Club (PASC).

Our programs are fully accredited by the National Addiction Studies Accreditation Commission (NASAC), the Council on Social Work Education (CSWE) and the National Association of School Psychologists (NASP).

MHA Courses

MHA 297. Addiction Studies Practicum. 2 Hours.
Participation in individual, group, and family counseling in an agency or hospital involved in addiction counseling. Prerequisite: PSY 111.

MHA 338. Professional Relations & Ethics. 3 Hours.
Study of Federal Confidentiality Laws and ND Commitment Law and process in order to protect the rights of the client. Prerequisite: PSY 111.

MHA 344. Dynamics of Addiction. 3 Hours.
Emphasizes the history of drug abuse, theories, and controversies regarding chemical dependency, and multidisciplinary approaches to treatment. Prerequisite: PSY 111.
MHA 349. Psychopharmacology. 3 Hours.
An introduction to behavioral pharmacology, including the basics of pharmacology, psychology, and neuroscience needed to understand drugs of abuse. Prerequisite: PSY 111.

MHA 423. Introduction to Counseling. 3 Hours.
Study of the theories of counseling and application of these principles for dealing with behavioral problems in agencies, schools, or hospitals. Prerequisite: PSY 111.

MHA 424. Advanced Counseling. 3 Hours.
Further study of counseling theory with students being required to develop a workable methodology of their own. Prerequisite: PSY 111.

MHA 476. Group Dynamics. 3 Hours.
Actual group experience in a lecture/lab format. Readings and written assignments focus on organizing groups and skills required of group facilitators. A problem solving/personal growth group meets each week. Prerequisite: PSY 111.

MHA 485. Addiction Studies Practicum. 15 Hours.
Participation in the North Dakota consortia to provide experience in the addiction field. This is a 4.5 month, full time experience, where the student actively participates as an addiction counselor in training. Course restricted to psychology or addiction studies majors.

MHA 486. Addiction Studies Practicum. 15 Hours.
Participation in one of the North Dakota consortia to provide experience in the addiction field. This is the second part of the nine month practicum experience required for licensure as an addiction counselor. The course involves a 4.5 month, full time experience, where the student actively participates as an addition counselor in training. Course restricted to psychology or addiction studies majors.

PSY Courses

PSY 111. Introduction to Psychology. 3 Hours.
A survey of the scientific study of behavior and mental processes. Topics studied include development of normal and abnormal behavior, learning, biopsychology, development, memory, personality, cognition, therapy, and social psychology. This course is a prerequisite to most other psychology courses.

PSY 112. Foundations of Psychology. 3 Hours.
Designed for psychology and addiction studies majors, this course will emphasize the tools necessary to advance in these fields. Prerequisites: Students must complete PSY 111 before enrolling in this class, and declare a major in Psychology or Addiction Studies.

PSY 241. Introduction to Statistics. 4 Hours.
This course examines basic concepts in measurement, scaling, descriptive statistics, binomial and normal distribution, applied probability, and z-scores. In addition, this course introduces inferential statistics and hypothesis testing, including t-test, analysis of variance, correlation and linear regression, and the chi-square test statistic. Basic software applications will also be examined. Prerequisites: ASC 093 with a C or better, or qualifying math placement test score, or ACT math sub-test score of 21 or higher. Required co-requisite PSY 241L if ACT math sub-test score is 18-20 or qualifying pre-algebra math placement test score is 60-78.

PSY 241L. Introduction to Statistics Lab. 1 Hour.
Introduction to Statistics level lab provides students in PSY 241 with an extended experience in a lab setting working on statistical skills. Lab meets 2 hours per week. This class is S/U. Required co-requisite to PSY 241 if ACT math sub-test score is 18-20. Withdrawing from this class will also withdraw you from PSY 241.

PSY 242. Research Methods in Psychology. 4 Hours.
A study of the scientific methods as it is used in the investigation of problems in psychology. A variety of types of research methodologies, as well as the advantages and disadvantages of their use. Ethical implications of the use of various methodologies will also be discussed. Prerequisites: PSY 241, Math 210, or departmental approval.

PSY 252. Child Psychology. 3 Hours.
Overview of theories of human development from conception through childhood including physical, cognitive, language, social, and self-help skills in family, school, and community settings. Prerequisite: PSY 111.

PSY 255. Child & Adolescent Psychology. 3 Hours.
Overview of theories of human development from conception through adolescence including the physical, cognitive, language, social, and educational aspects of the individual development. Special emphasis will be given to the individuals learning capabilities. This course cannot be applies towards the Psychology or Addiction Studies majors, minors, or concentrations. Prerequisite: PSY 111.

PSY 261. Psychology of Adjustment. 3 Hours.
This course will present psychological research about improving adjustment and overall quality of life. Factors affecting adjustment include gender, personality, self-esteem, ability to communicate effectively, health, experience of stress, changes with aging, and coping processes. Factors also include things like social influence and pressure, relationships with others, career preparation, work, and stages of life. The desired outcome is for students to use this knowledge to actively take charge of their own lives, effectively adjusting to an ever-changing world. Prerequisite: PSY 111.

PSY 270. Abnormal Psychology. 3 Hours.
A survey of the classification, symptoms, and etiology of psychological disorders. Prerequisite: PSY 111.
PSY 299. Special Topics in Psychology. 1-8 Hour.

PSY 313. Industrial Organizational Psychology. 3 Hours.
This course will examine human behavior in industrial and organizational settings. Psychological principles are applied to selection, placement, adn training. The effectiveness of individuals and groups within organizations, including leadership and control, conflict and cooperation, motivation, and organizational structure and design, is examined. Prerequisite: PSY 111.

PSY 352. Adolescent Psychology. 3 Hours.
Study of physical, cognitive, emotional, social, and behavioral parameters of adolescence from preteen to young adulthood. Prerequisite: PSY 111.

PSY 365. Evolutionary Psychology. 3 Hours.
Examines the important aspects of human behavior as it is explained as a result of natural selection. The course will focus on a number of topics including sex differences, mate selection, selfishness and altruism, homicide and violence. Prerequisite: PSY 111.

PSY 375. History & Systems of Psychology. 3 Hours.
Examines the historical development of the science of psychology. Special emphasis is placed upon cultural context and its influences on the developing systems of psychology. Prerequisite: PSY 111.

PSY 376. Social Psychology. 3 Hours.
An interdisciplinary approach to the study of behavior of individuals in relation to social stimulus situation. Prerequisite: PSY 111.

PSY 379. Psychology of Adult & Aging. 3 Hours.
Overview of theories of human development from young adulthood through old age focusing on demands of personal adjustment, family, work, retirement, adn community life. Prerequisites: PSY 111; recommended: PSY 252 or 352.

PSY 394. Independent Study General Psych. 1-4 Hour.
Election of a topic and a course of study. Must be approved by a psychology staff member and the psychology chair. Student must be a psychology major and have 12 semester credits.

PSY 410. Cognitive Psychology. 3 Hours.
Examines the research dealing with the processing of sensory information, attention, short term and long term memory, decision making and problem solving, as well as related topics. Prerequisite: PSY 111.

PSY 411. Introduction to Personality Theories. 3 Hours.
Examines the basic concepts of personality development as viewed by the psychoanalytic, learning, humanistic and trait-type theorists. Special emphasis is placed on the comparison of various perspectives. Prerequisite: PSY 111.

PSY 413. Theories & Practice of Psychotherapy. 3 Hours.
Aimed at the development of a balanced view of teh major concepts of various therapies and an awareness of practical applications and implementation of techniques used by the various therapists. Prerequisite: PSY 111.

PSY 435. Theories of Learning. 3 Hours.
Examines the basic concepts of learning theory as viewed by the more prominent theorists in the area. Emphasis is placed on the comparison of the various perspectives within historical contexts. Prerequisite: PSY 111.

PSY 460. Sensation and Perception. 3 Hours.
Focus on the principles of our sensory systems and the laws which govern the sensory processes. The course includes research and theories on the visual system, auditory system, chemical senses, and the skin senses. Prerequisite: PSY 111.

PSY 465. Introduction to Behavioral Neuroscience. 3 Hours.
An introduction to the neuroanatomical and neurophysiological bases of behavior, including learning, reinforcement, eating and drinking, sleep, sexual behavior, and mental disorders. Prerequisite: PSY 111.

PSY 473. Behavior Modification. 3 Hours.
Description of behavioral principles and procedures for assessment and treatment that can be used helping professionals to enhance behavioral development. Class projects are required. Prerequisite: PSY 111.

PSY 491. Senior Seminar in Psychology. 3 Hours.
Overview of psychology as a discipline and a synthesis of biological and psychological factors in human behavior. Prerequisites: PSY 111, 241, senior status and psychology major.

PSY 494. Directed Behavioral Research. 1-4 Hour.
This course provides students with the practical applications of research designs. Although a resulting publication is not required for the course, it is desired outcome. Students will need to work with a faculty Sponsor on a specific research project.

PSY 495. Service Learning. 3 Hours.
This course provides students with the ability to work in meaningful community service coupled with instruction about the service and reflection on their service. Prerequisite: Students must be psychology majors in their junior or senior year before enrolling in this course.

PSY 496. Senior Research Thesis. 3 Hours.
Students will formulate an original research topic and write a paper in that topic. Restricted to psychology majors and senior status.
PSY 497. Psychology Practicum. 3 Hours.
Placement in an applied setting for practical experience. Prerequisite: Students must be a psychology major in their junior or senior year before enrolling in this class.

PSY 499. Special Topics In Psychology. 1-8 Hour.

SWK Courses

SWK 250. Interpersonal Skills. 3 Hours.
This course is designed to develop verbal and nonverbal interpersonal skills related to common, everyday interactions as well as those interactions germane to the Generalist Practice Planned Change Process. The course requires 25 hours of concurrent interpersonal skill building human service experience.

SWK 256. Development of Social Welfare. 3 Hours.
The course reviews and evaluates the history, philosophical assumptions, values and development of social welfare programs and services throughout the United States. The course examines the socio-political-economic conditions which not only form, but influence social welfare systems. In addition, the course discusses intersections between privilege and oppression. The course reviews multiple marginalized, oppressed, and underserved populations with which social work intersects and ways that social work can positively impact social, economic, environmental justice, and human rights.

SWK 285. Child Welfare in Rural Comm. 3 Hours.
This course will examine the basic core of child welfare services: Services to protect children from neglect and abuse, family preservation services, foster care, adoption, and child advocacy. Additionally, it will examine the legal framework that governs the affairs of children.

SWK 299. Special Topics In Social Work. 1-4 Hour.

SWK 330. Human Behavior and the Social Environment. 3 Hours.
This course reviews the biopsychosocial-cultural aspects of human development across the life span within the context of Generalist Practice. Students will apply knowledge of human behavior and the social environment, person-in-environment and other multidisciplinary theoretical frameworks to provide social work across the life span. Prerequisite: Student must complete SWK 250, SOC 110, and PSY 111 before enrolling in this class.

SWK 331. Family Dynamics. 3 Hours.
This course applies a variety of theoretical perspectives, including systems theory and person-in-environment in order to use skills to engage, assess, intervene, and evaluate social work practice with families.

SWK 335. Social Work Methods I. 3 Hours.
This course applies knowledge, values, and skills for entry level Generalist Practice Social Work with individuals and families using evidence-based skills and interventions. Students will develop skills to engage, assess, plan, intervene, and evaluate social work practice with individuals and families. Prerequisites: SWK 331 and admission to the Social Work Program.

SWK 340. Social Welfare Policy. 3 Hours.
A generalist practice framework is used for the analysis of social welfare policies and current policy structures, and policy practice, advocacy, and evaluation used in agency, community, and legislative settings.

SWK 350. Rural Social Work Practice. 3 Hours.
Study and evaluation of rural, regional social services and delivery systems, characteristics of rural populations and community analysis, function and roles of social worker in a nonmetropolitan environment. Prerequisite: SWK 250, 255 and 256.

SWK 379. Aging Practices and Policies. 3 Hours.
Study of social welfare policies which sanction and direct services and welfare for the elderly.

SWK 394. Independent Study General Sw. 1-4 Hour.

SWK 401. Contemporary Issues with Native American Families. 3 Hours.
This course will survey contemporary issues that Native American families face in today's society and how these influence the context of family life and the helping process.

SWK 402. N.A. Children & Adolescents. 3 Hours.
This course will survey contemporary issues that Native American children and adolescents experience in today's society and how these issues affect their family life and issues related to delivery of services.

SWK 426. Social Work Methods II. 3 Hours.
This course applies knowledge, values, and skills for generalist social work practice with groups using evidence-based skills and interventions. Students will develop and utilize skills to engage, assess, intervene, and evaluate social work practice with groups. Prerequisites: SWK 340 and admission to the Social Work Program.

SWK 427. Social Work Methods III. 3 Hours.
This course applies knowledge, values, and skills for generalist social work practice with organizations and communities using evidence-based skills and interventions. Students will develop and utilize skills to engage, assess, intervene, and evaluate social work practice with organizations and communities. Pre-requisites: SWK 330, 331, and Admission to the Social Work Program.
SWK 428. Crisis Intervention. 3 Hours.
This course introduces students to the theory and practice of crisis intervention with an emphasis on the use of short-term intervention and problem-solving techniques. This course emphasizes crisis theory and crisis intervention models applied to various crisis problems and populations at-risk. Pre-requisites: Junior or Senior status.

SWK 429. Interprofessional Health Care Practice. 3 Hours.
Today’s fast-paced, high acuity health care system demands health care professionals who can collaborate effectively using an interprofessional team approach in order to provide patient-centered care. Students will explore discipline specific roles and scope of practice as well as issues common to all health care professions such as communication, team dynamics, ethics, patient safety, and quality improvement. Pre-requisites: SWK 250, 256, 330, 331, 335, and 340.

SWK 430. Diversity, Oppression, and Social Change. 3 Hours.
This course focuses on enhancing knowledge and insight into the impact of oppressed individuals to include, but not limited to age, color disability, ethnicity, family structure, gender national origin, race, and sexual orientation. To promote self-awareness, a key component in cross-cultural social work practice, students will be challenged to thoughtfully and critically analyze their own identity development by examining personal beliefs and life-experiences with privilege and oppression. The person-in-environment assessment strategy will be applied as practical intervention strategy for future practice with diverse individuals. Pre-requisites: SWK 250, 256, 330, 331, 335, and 340. Co-requisite: SWK 426.

SWK 442. Research Methods in Social Work. 3 Hours.
This course introduces students to the concepts and principles of social work research methodology. This course includes conceptualizing a social work problem, designing research strategy, making use of relevant literature, and organizing and evaluating relevant data. Prerequisite(s): MATH 210 or PSY 241.

SWK 489. Field Experience. 3-9 Hour.
Field experience is a course that provides structured and educationally directed learning experiences in public and private human service agencies, but is geared for those students who may want an additional field experience prior to Field Education. Pre-requisite: Admission to the Social Work program and consent of instructor.

SWK 490. Field Education. 12 Hours.
This course is a structurally and educationally directed learning experience in public and private human service agencies that utilizes social work knowledge, values, and skills. Pre-requisite: Admission to the Social Work program. Co-requisite: SWK 491.

SWK 491. Senior Seminar. 3 Hours.
The Senior Seminar course taken concurrently with Field Education promotes the integration of knowledge, values, and skills and field learning with a focus on professional and ethical issues. Co-requisites: SWK 490 and senior status.

SWK 494. Independent Study Honors Sw. 1-8 Hour.

SWK 499. Special Topics. 1-8 Hour.

Addiction Studies
A 3.0 grade point average classes required for the major and a 2.5 overall GPA

Addiction Studies Program Mission
To prepare students for licensure as an addiction counselor within the state of North Dakota.

Addiction Studies Program Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>The student will gain an understanding of the dynamics of addiction.</td>
<td>To prepare students for licensure in addiction counseling.</td>
</tr>
<tr>
<td>The student will understand the counseling process in addiction and other human problems.</td>
<td>To provide students with the skills necessary for independent practice.</td>
</tr>
<tr>
<td>The student will have an understanding of scientific inquiry and critical thinking applied to the addiction field.</td>
<td></td>
</tr>
</tbody>
</table>

Bachelor of Science with a Major in Addiction Studies (120 CR)
Credits applied to the addiction studies major/minor/concentration may not be applied to the psychology major/minor/concentration.

### Psychology Program Policies

1. Students majoring in psychology earning a grade of "D" or "F" in a psychology course or required course for the psychology major must retake the course and earn a grade of "C" or higher.
2. To graduate with a major in psychology, students must take the Psychology Major Field Exam when enrolled in Senior Seminar and earn a score that falls within the percentile rank of no lower than one standard deviation below the national mean. The standard is meant to ensure students’ working knowledge of psychological concepts is consistent with undergraduate psychology students nationally.

3. To help foster success in our program:

a. Students majoring in psychology will take the Psychology Major Field Exam when taking Foundations of Psychology. These exam results give the students and the program faculty a baseline measure of psychological knowledge. Foundations of Psychology should be taken within the first year of declaring psychology as a major and prior to completing 9 psychology credit hours.

b. Students will take the Psychology Major Field Exam for a second time after taking 20-25 psychology credits. Students will review the exam results with their advisor, discuss progress made since the first Major Field Exam, assess weaknesses, and develop a plan for remediation if necessary.

Psychology Program Mission
To foster the study of human behavior through the development of scientific skills.

Psychology Program Goals and Outcomes

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>The student will understand the different domains and their impact on human behavior.</td>

Additional PSY electives 6
- Any 200-400 level courses except PSY 255 are acceptable

Total Hours 24

### Psychology Concentration

Credits applied to the psychology concentration may not be applied to the addictions studies major/minor/concentration. MHA 297 Addiction Studies Practicum, MHA 485 Addiction Studies Practicum, and MHA 486 Addiction Studies Practicum may not be applied to the psychology minor.

Select courses to total twelve semester hours all of which must be at the 200-400 level. PSY 255 Child & Adolescent Psychology is not acceptable for the concentration.
Social Work

The Social Work Program is accredited at the baccalaureate level by the Council on Social Work Education. The Program does not give academic credit for life experience or work experience, or allow such experience to be substituted for the field practicum or the required core courses.

Students must receive a "C" or better in all social work courses and maintain a GPA of at least 2.5 in all required social work foundation courses.

The Program is organized and implemented without discrimination on the basis of race, color, gender, age, creed, ethnic or national origin, handicap, or political or sexual orientation.

Social Work Program Mission

The Minot State University Social Work Program through teaching, scholarship, and service prepares students with the knowledge, professional values, and skills for competent generalist social work practice in the Northern Great Plains. Students learn to reflect critically, advocate for social and economic justice and human rights, and work with diverse populations.

(Council on Social Work Education, 2015 EPAS)

Admission Requirements

Students are required to make application for admission to the social work program. Criteria for admission are as follows:

1. Successful completion of two social work courses, SWK 256 Development of Social Welfare, and SWK 250 Interpersonal Skills—or their equivalent (as approved by the social work faculty) with a grade of "C" or better. The combined GPA for these two courses must be at least 2.50.

2. Attainment of Cumulative GPA of 2.00 or better.

3. Completion of ENGL 110 College Composition I, ENGL 120 College Composition II, BIOL 111 Concepts of Biology, SOC 110 Introduction to Sociology, PSY 111 Introduction to Psychology, ECON 201 Principles of Microeconomics, or ECON 202 Principles of Macroeconomics, and POLS 115 American Government.

4. Evidence of at least 25 hours volunteer or paid work experience in a community service agency concurrent with SWK 250 Interpersonal Skills.

5. Social Work students must agree to read and abide by the NASW Code of Ethics and MSU Student Code of Conduct.

6. Personal statement and essay.

Admission to the Social Work Program occurs twice each academic year. Acceptance into the program is currently based upon the applicant’s GPA, written application, human service experience, and other personal qualifications. Students may not take SWK 335; Social Work Methods I, or any other advanced social work courses (with the exception of SWK 401/402) until they have been formally accepted into the Social Work Program and have successfully completed courses including SWK 250, 256, 330, and 331.

Once a student has been accepted into the program, the acceptance will expire if the student is not enrolled in any social work courses within five consecutive semesters or at the discretion of the program. This is not including the field practicum. Evaluating whether the student can continue with his/her social work courses will be the responsibility of the Social Work Program and/or Academic Affairs Committee.

Social Work majors must achieve an overall GPA of 2.00 and a grade of "C" or better in all required social work courses, in which they are enrolled prior to enrolling in SWK 490 Field Education.

The undergraduate social work program is accredited by the Council on Social Work Education (CSWE). Graduates of this program are eligible for regular membership in the National Association of Social Workers and may also be eligible for advanced standings in many graduate social work programs. The program leads to the Bachelor of Social Work (BSW) degree.

Department of Communication Disorders

Chair
Dr. Ann Beste-Guldborg

Communication Disorders Mission

The study of Communication Disorders prepares students for the professions of Speech-Language Pathology, Audiology or related fields. The undergraduate degree in Communication Disorders is preparatory for the master’s degree in Speech-Language Pathology or Clinical Doctorate in Audiology and may lead to licensure as a Speech Language Assistant or employment/continued study in a related field.

The Master of Science degree in Communication Disorders: Speech-Language Pathology leads to North Dakota licensure in Speech Language Pathology and ASHA certification as a Speech-Language Pathologist.

The Department also offers a Post-Baccalaureate Program for individuals who have an undergraduate degree in a discipline other than Communication Disorders and who desire to apply for admission to a graduate program in speech-language pathology.

All faculty in the area of Communication Disorders hold the Certificate of Clinical Competence, in their respective areas, from the American Speech-Language-Hearing Association. Faculty are also licensed to practice Speech-Language-Pathology and/or Audiology by the North Dakota State Board of Examiners in Speech-Language Pathology and Audiology.

The Mission of the Department of Communication Disorders is to provide entry level Speech-Language professionals who meet the needs of the state and region by:

1. Providing students with high quality educational and clinical experiences
2. Encouraging active engagement through a variety of community service and clinical experiences
3. Delivering integrated experiences that allow students the opportunity to connect theory with practice, work in teams, respect the diversity of today’s world, and understand connections between research, evidence based practice, and the therapeutic environment.

The Master’s of Science in Communication Disorders: Speech-Language Pathology program at Minot State University is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700.

Communication Disorders Program Goals and Outcomes

The program provides prerequisite training consistent with ASHA standards preparing students to enter a graduate degree program in Communication Disorders with emphasis in Audiology or Speech-Language-Pathology. The curriculum will provide students with:

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>To provide a foundation in the basic sciences, mathematics, psychology, and education as well as in areas of typical development across the lifespan that complement the study of communication disorders.</td>
<td>Demonstrate knowledge of principles of biological, physical, and social/behavioral science. Demonstrate knowledge of statistics and principles of education related to the discipline of communication disorders.</td>
</tr>
</tbody>
</table>
To provide students with a theoretical understanding of the nature of typical communication development and usage across the lifespan as well as an introduction to communicative disorders and basic skills in therapeutic methodology.

Demonstrate knowledge of basic human communication processes, development, and disorders across the lifespan. Demonstrate an understanding of diversity as it relates to the discipline of communication disorders.

To provide students with basic clinical experiences designed to facilitate basic therapeutic skills in speech language pathology.

Demonstrate basic knowledge and skill related to prevention, assessment, and intervention for people with communication disorders across the lifespan. Demonstrate professional/ethical behavior according to established ASHA standards and Code of Ethics.

To academically prepare students for graduate study or entry level work in speech language pathology, audiology, or a related field.

Demonstrate effective critical thinking, problem-solving, and oral/written communication skills. Be academically and clinically prepared for graduate study or employment in speech language pathology, audiology, or a related field.

Department Policies

Successful completion of the undergraduate program allows a student to obtain a Bachelor of Science degree with a major in Communication Disorders.

The following policies apply:

1. Students earning a grade of ‘D’ or ‘F’ in a CD course must retake the course and earn a grade of ‘C’ or higher.
2. After the term in which 11 semester hours of required CD courses have been accumulated (typically after the end of the sophomore year), students must have a GPA of 2.75 in required CD courses (CD-GPA). If the CD-GPA falls below 2.75, students will be placed on probation and will have only one semester to raise the CD-GPA to a minimum of 2.75. Failure to raise the CD-GPA to 2.75 will result in dismissal from the program. Students are allowed only one semester of academic probation.
3. Students must have a cumulative GPA of at least 2.75 to graduate with a degree in Communication Disorders.
4. CD majors must complete the speech and hearing screening no later than the first semester of their junior year. Prior to enrollment in CD 324 Techniques in Communication Disorders, students must pass the screening or complete a more thorough evaluation which results in the development of a remediation plan to address the communication disorder. Students must have adequate communication skills for retention in the program.
5. When there is supported evidence of academic dishonesty or unprofessional/inappropriate conduct in clinic the student may receive a failing grade for the course and will be subject to University sanctions up to and including dismissal from the program.

Bachelor of Science with a Major in Communication Disorders

A BS degree is awarded upon satisfactory completion of the requirements listed below:

I. General Education - Required Core (15 SH) and Foundational Content (23 SH) as well as all Development Content requirements

II. Required CD Courses (38-41 SH)

| CD 310 | Introduction to Communication Disorders |
| CD 320 | Introduction to Phonetics |
| CD 321 | Language Development |
| CD 322 | Speech Sound Disorders |
| CD 324 | Techniques in Communication Disorders |
| CD 331 | Language Disorders in Children |
| CD 341 | Speech & Hearing Science |
| CD 342 | Introduction to Audiology |
| CD 411 | Clinical Practicum |
| CD 412 | Neurology for Communication Disorders |
| CD 413 | Anatomy and Phys for Communication Disorders |
| CD 420 | Advanced Communication Disorders |
| CD 427 | Aural Rehabilitation |

III. Additional Required Courses (24-31 SH)

| PSY 241 | Introduction to Statistics |
| or MATH 210 | Elementary Statistics |
| PSY 252 | Child Psychology |
| PSY 352 | Adolescent Psychology |
| PSY 410 | Cognitive Psychology |
ED 260  Educational Psychology
ED 380  Technology in Teaching
SPED 110  Introduction to Exceptional Children
SPED 113  American Sign Language I
or SPED 117  Manually Coded English
SPED 410  Introduction to Learning and Emotional/Behavioral Disabilities
SS 283  Ethnic and Cultural Diversity in America

1  May be used for General Education requirements

IV. Psychology Component: Choose 3 (9 SH)

MHA 349  Psychopharmacology
MHA 423  Introduction to Counseling
PSY 261  Psychology of Adjustment
PSY 270  Abnormal Psychology
PSY 376  Social Psychology
PSY 435  Theories of Learning
PSY 460  Sensation and Perception
PSY 465  Introduction to Behavioral Neuroscience
PSY 473  Behavior Modification

V. Aging Component: Choose 1 (3 SH)

PSY 379  Psychology of Adult & Aging
HMS 279  Death & Dying

VI. Literacy Component: Choose 1 (2-3 SH)

ECE 313  Language Development and Emerging Literacy
ELED 352  Foundations of Reading
ENGL 238  Children's Literature
ENGL 338  Topics in Adolescent Lit

Post-Baccalaureate Program

The Post-Baccalaureate Program (Post-Bac) is intended for individuals who have an undergraduate degree in a discipline other than in Communication Disorders. Typically, Post-Bac students have earned degrees in English, education, psychology, or linguistics although students who have completed a bachelor’s degree with any major may apply for consideration to the post-bac program.

The Post-Bac Program is a two or three-semester plan in which the student takes all undergraduate classes in Communication Disorders. To meet ASHA standards, the student are required to have a grade of "C" or better in the following classes: (1) statistics, (2) biology, (3) physical science (physics or chemistry), and (4) social/behavioral science (psychology, sociology, or anthropology). Students are also encouraged to have a background in sign language, and course work in diversity. If missing these classes may be taken prior to, during, or after the Post-Baccalaureate year.

Admission to the Post-Bac program is competitive. Application must be completed through Enrollment Services by March 1. Accepted students must demonstrate a strong commitment to apply to the master’s program; however, successful completion of the Post-Bac program does not guarantee acceptance into the graduate program. A minimum 3.00 grade point average must be earned in the fall semester for continued enrollment.

Post-Baccalaureate Admission Procedures

1. Post-Baccalaureate Admission Procedures

   1) Complete and Submit the MSU Undergrad Online Application to the Post-Baccalaureate Program with $35 (US) application fee.
      a) Type of Application: Undergraduate Transfer
      b) Major/Program: Communication Disorders
c) Degree/Plan: Non-Degree Seeking

d) Answer Yes to Supplemental Question: Are you applying to the Post-Baccalaureate Communication Disorders Program?

Priority Consideration deadline March 1. Applications accepted through May 1

Submit the following documents:

All non-academic documents can be emailed to msu.admissions@minotstateu.edu, faxed to 701/858-3888 or mailed to: Minot State University, Enrollment Services, 500 University Ave W, Minot, ND 58707.

2) Original Official Transcripts
   a) Submit official transcripts from all universities attended and currently attending. Candidate must have a 3.0 GPA at the undergraduate level in order to apply.

3) Three Recommendations
   a) The online application will direct you to electronically submit three names of persons who will complete your online recommendation forms. Choose persons who can attest to your ability to complete the intensive one-year Post-Baccalaureate Program and potential success at the graduate level.

4) Autobiography
   a) Submit an autobiography to describe current status and reasons why you want to pursue a career in Speech-Language Pathology.

5) Provide proof of two doses of immunization for measles, mumps, and rubella.
   a) Can be submitted after acceptance into the Post-Baccalaureate Program

International and Canadian Applicants only:

6) I-20 and Financial Documents
   a) International and Canadian Applicants need to submit the I-20 form and proof of financial support for an Undergraduate degree as part of their application package
   
   b) Canadian
      i) http://www.minotstateu.edu/international/documents/app_can_i20_and_cfr.pdf.

   c) International:
      i) http://www.minotstateu.edu/international/documents/app_int_i20_and_cfr.pdf

      Please Note: North Dakota state policy requires us to collect evidence of financial support before an International applicant’s file can be reviewed. You are required to undergo a financial certification process prior to acceptance into the post baccalaureate program; however, this is not an indicator of the department’s decision.

Retention Criteria in Post-Baccalaureate Program

1. Students may not continue enrollment with any grade lower than “C” in departmental coursework.
2. Students must have and maintain a minimum 3.0 GPA (“B” average).
3. Students must pass a speech language hearing screening or provide evidence of a remediation plan to address communication issues.

Post-Baccalaureate Program Options (2 or 3 semesters):

1. CLINICAL PRACTICUM Option- 3 semesters (Recommended for anyone planning graduate study at MSU)

   Fall Semester: 11 semester hours (+ any missing courses)

<table>
<thead>
<tr>

Any other undergraduate courses required to meet ASHA certification standards: physical science (chemistry or physics), biological science, statistics, sign language, diversity.
Spring Semester: 20 hours

CD 321 Language Development
CD 341 Speech & Hearing Science
CD 324 Techniques in Communication Disorders
CD 331 Language Disorders in Children
CD 413 Anatomy and Phys for Communication Disorders
CD 420 Advanced Communication Disorders
CD 427 Aural Rehabilitation

Summer Semester: 7 hours

CD 342 Introduction to Audiology
CD 411 Clinical Practicum

2. NO CLINICAL PRACTICUM Option- 2 semesters

Fall Semester: 15 hours (+ any missing courses)

CD 310 Introduction to Communication Disorders
CD 320 Introduction to Phonetics
CD 322 Speech Sound Disorders
CD 342 Introduction to Audiology
CD 412 Neurology for Communication Disorders

Also any other undergraduate courses required to meet ASHA certification standards: physical science (chemistry or physics), biological science, statistics, sign language, diversity.

Spring Semester: 20 hours

CD 321 Language Development
CD 341 Speech & Hearing Science
CD 324 Techniques in Communication Disorders
CD 331 Language Disorders in Children
CD 413 Anatomy and Phys for Communication Disorders
CD 420 Advanced Communication Disorders
CD 427 Aural Rehabilitation

Courses

CD 150. Profession of Com Disorders. 2 Hours.
An introduction into the profession of Communication Disorders. Contents will describe the progression from the preprofessional student level to the expert-consultant level. Major topics will include development of interpersonal skills, professional skills, problem-solving skills, technical skills and knowledge/experience.

CD 299. Special Topics In Comm Disorders. 1-8 Hour.

CD 310. Introduction to Communication Disorders. 3 Hours.
A survey of various communication disorders: language, phonology, fluency, voice, hearing impairment, cleft palate, cerebral palsy, aphasia. Eight hours of clinical observation is required.

CD 320. Introduction to Phonetics. 3 Hours.
A study of the sounds of American English and the use of the International Phonetic Alphabet (IPA) to record normal and disordered articulatory production.

CD 321. Language Development. 3 Hours.
The study of those events and processes which combine in relatively predictable and observable ways and are evidenced in the acquisition of language.

CD 322. Speech Sound Disorders. 3 Hours.
The study of the types, causes, and treatment of speech disorders including articulation and phonological disorders, voice and fluency. Eight hours of clinical observation are required. Prerequisite: Student must complete CD 310 and 320 before enrolling in this class.
CD 324. Techniques in Communication Disorders. 3 Hours.
Therapy approaches and techniques for planning and carrying our clinical practicum. This course includes a required laboratory experience and is a prerequisite for CD 411. Prerequisite: CD 322.

CD 331. Language Disorders in Children. 3 Hours.
The study of deviant language patterns and patterns associated with cultural diversity. Language evaluation with emphasis on linguistic analysis and the development of language programming appropriate to language problems will be covered. Five hours of clinical observation are required. Prerequisite: Student must complete CD 321 before enrolling in this class.

CD 341. Speech & Hearing Science. 2 Hours.
Fundamentals of acoustics, speech production, speech perception, and basic instrumentation. Prerequisite: CD 310.

CD 342. Introduction to Audiology. 4 Hours.
A study of the basic tests of hearing with emphasis on test administration and interpretation. It includes anatomy and physiology of the auditory system and its relationship to various types and degrees of hearing loss. Prerequisite: CD 310.

CD 394. Independent Study General Cd. 1-4 Hour.

CD 410. Audiology Practicum. 1 Hour.
This practicum course will provide the undergraduate student in Communication Disorders, who has an interest in Audiology, the opportunity to participate in Audiology diagnostics in the CD clinic. The student will initially observe the audiologic diagnostic/patient management protocols in the clinic and will gradually be required to participate in greater measure. The goal is for the student to acquire greater understanding of audiologic test administration, interpretation, and patient counseling. Pre-requisite: CD 342.

CD 411. Clinical Practicum. 3 Hours.
Supervised practicum in a clinical setting. Prerequisite: CD 324.

CD 412. Neurology for Communication Disorders. 2 Hours.
This course provides an overview of the role of neuroanatomy in speech and language. Attention is given to the structures of the brain and spinal cord, the ascending and descending pathways, cranial nerves, and the vascular supply to the brain. The role of these structures in the communication process is discussed. Prerequisites: CD 310, 341.

CD 413. Anatomy and Phys for Communication Disorders. 3 Hours.
This course provides an overview of the anatomical and physiological bases of communication. Attention is given to the structures and functions of the respiratory, phonatory, resonatory and articulatory systems. Prerequisites: Students must complete CD 310, 341, and 412. May take concurrently with advisor's consent.

CD 420. Advanced Communication Disorders. 3 Hours.
This course will provide a general overview of neurologically-based communication disorders, dysphagia, voice disorders, and stuttering. Course work will emphasize characteristics, procedures for assessment, and general treatment approaches for these communication disorders. Five hours of clinical observation are required.

CD 424. Language Development. 3 Hours.

CD 426. Speech Language Development and Disorders for the Teacher. 4 Hours.
The study of speech language development and disorders of children. Inter-relationships among personal, social, academic, speech, and language skills are covered. Academic modifications and coordination with specialized personnel are emphasized. For non-majors.

CD 427. Aural Rehabilitation. 3 Hours.
Study of the rehabilitative philosophies and methodologies of individuals with hearing impairments.

CD 494. Independent Study Honors Cd. 1-8 Hour.

CD 499. Special Topics In Comm Disorders. 1-8 Hour.

Department of Nursing

Chair
Dr. Nicola J. Roed

Nursing Program Mission

The Minot State University Department of Nursing, as an integral part of the parent institution, is dedicated to excellence in nursing education, scholarship, and community engagement. The mission of the Department of Nursing is to educate individuals for professional roles in nursing and for graduate education through rigorous academic experiences, active learning environments, commitment to public service, and contributions to a vibrant campus life.

The philosophy of the Department of Nursing faculty is anchored in the major constructs of the meta-paradigm of nursing. Those constructs are identified as person, environment, health and nursing. Nursing education is viewed as a process designed to facilitate learning. Students and faculty are active
and responsible participants in learning. Nursing education at the baccalaureate level integrates content from the arts and humanities and social and physical sciences.

The key curricular components emphasized within the curriculum are derived from the Department of Nursing’s mission and philosophy and include **professionalism, research, holistic health, and globalization**. The Department of Nursing’s theoretical beliefs are eclectic in nature with key concepts drawn from the works of Florence Nightingale, Madeline Leininger, and M. Jean Watson. Faculty embraces these theoretical beliefs as vital to nursing and baccalaureate education.

**Nursing Program Goals and Outcomes**

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Provide a positive learning and workplace environment that supports student success and promotes sensitivity to diverse populations.</td>
<td>Communicate effectively - orally, in writing, with technology.</td>
</tr>
<tr>
<td>Deliver high-quality nursing education by providing an accredited baccalaureate nursing program supported by the liberal arts and sciences.</td>
<td>Integrate knowledge for safe, effective, quality care environments, health promotion and maintenance, psychosocial integrity, and physiological integrity.</td>
</tr>
<tr>
<td>Provide for the acquisition of knowledge, values, and skills to enable nursing graduates to meet competencies for entry level roles. Foster collaborative partnerships to enhance nursing education learning opportunities.</td>
<td>Practice professional nursing in a variety of settings responding to the needs of diverse individuals, families, groups, and communities.</td>
</tr>
<tr>
<td>Support meaningful service and community engagement.</td>
<td>Employ critical thinking/reasoning in problem solving and decision making.</td>
</tr>
<tr>
<td>Promote health and well-being to individuals and groups with varied and complex health needs across generations.</td>
<td>Incorporate research for evidence-based nursing practice.</td>
</tr>
<tr>
<td>Encourage ongoing personal and professional development and life-long learning.</td>
<td>Students attain the expected level of achievement on end of program comprehensive assessments including licensure exams and are employed in nursing.</td>
</tr>
</tbody>
</table>

**Advisory Information**

First-year student (freshman) and sophomores should select required support courses before other required and elective courses. Study of the current class schedule, the summer schedule, and the yearly schedule of classes will aid students in planning how to complete requirements to be eligible for admission into the nursing major. Students are expected to maintain contact each semester with their academic adviser.

**Assessment**

The purpose of assessment is to measure the extent of attainment of Department of Nursing goals and student learning outcomes. Assessment results are used to evaluate and improve the program. Participation in assessment activities (e.g., surveys, standardized tests) is required of all nursing majors. Decisions about progression can be affected by student outcomes of assessment results, for example the Assessment Technologies Institute (ATI) assessments.

**Approval and Accreditation**

The Department of Nursing is approved by the North Dakota Board of Nursing (NDBON) and accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN). The NDBON is located at 919 57th St Suite 504, Bismarck, ND 58504-5881 and can be contacted at 701-328-9778. ACEN may be contacted at 3343 Peachtree Rd NE, Suite 850, Atlanta, GA 30326 or at 404-975-5000. The Department of Nursing is a member of the National League for Nursing Council of Baccalaureate and Higher Degree Programs.

**Cooperating Agencies**

Clinical experiences and learning opportunities occur in many different settings, including but not limited to the following agencies. Educational agreements are required for all clinical sites.

- City/County Free Clinic, Minot
- Dakota Boys and Girls Ranch
- Day Care and Child Care Centers
- First District Health Unit
- Minot Catholic Schools and Public Schools
- North Central Human Service Center
- Student Health Services, MSU
- Trinity Homes
- Trinity Hospital and Medical Clinics
Bachelor of Science in Nursing (122 credits)

The Bachelor of Science in Nursing degree is a four-year course of study and delivers a high-quality nursing education by providing an accredited baccalaureate nursing program supported by the liberal arts and sciences. A graduate is prepared as a generalist nurse and is qualified to take the licensure examination to become a registered nurse. Minot State University’s nursing program provides experiences in meeting human needs holistically along the health-illness continuum.

The Department of Nursing reserves the right to alter content, sequence, and courses offered in the nursing program to maintain relevance with current and future professional nursing education and practice.

Clinicians with Bachelor of Science in Nursing (BSN) degrees are well-prepared to meet the demands placed on today’s nurse. BSN nurses are prized for their skills in critical thinking, leadership, case management, and health promotion, and for their ability to practice across a variety of inpatient and outpatient settings. Nurse executives, federal agencies, the military, leading nursing organizations, health care foundations, magnet hospitals, and minority nurse advocacy groups all recognize the unique value that baccalaureate-prepared nurses bring to the practice setting (AACN, 2014).

Expenses

There are additional expenses for all students admitted to the program related to program fees, uniforms, supplies, travel, health protection requirements, and exams. Please contact the department for current expenses.

Requirements for Application for Admission into the Nursing Major

Admission to the nursing major (NURS 255 and higher numbers) requires that a student has demonstrated scholarly ability to pursue a professional career in nursing. An Application for Admission to the Nursing Major must be submitted by September 15 for Spring admission and by February 1 for Fall admission, along with the $25.00 application fee.

Prior to applying to the nursing major, a student must have met the following criteria:

1. Completed Minot State University admission requirements. This needs to be done before making application to the nursing major. The application, required fee, and official transcript(s) from previously attended colleges and universities should be sent to the Admissions Office.
2. Completed all science courses within 10 years prior to admission to the nursing major. Students with a previous bachelors degree in a professional clinical health care role (ex: radiology, medical technologist) who have documented clinical practice within the last 10 years may have the 10 year science policy waived. If the student accepts the waiver, their transcribed grade for science courses will be used for application.
3. Maintained a minimum cumulative grade point average (GPA) of 2.75. May waive as a condition for application the required cumulative GPA from a previous bachelors degree as transcribed by Minot State University on the official transcript. The required support course GPA remains at 2.8 for application. In addition, the candidate requesting this waiver must earn an Advanced score on the current TEAS® test (460;78%) to be considered for admission. The cumulative GPA will be used as a tiebreaker.
4. Achieved a minimum grade of “C” in each required support course. Support courses that are repeated must be successfully completed with a “C” or better prior to application.
5. Required Lab Science Courses can be repeated only once with the most current grade being used for Required Support GPA.
6. Achieved a GPA of 2.8 in required support courses.
7. Completed or enrolled in a minimum of 47 SH plus UNIV/FYE if required.
8. Completed a minimum of 8 required support courses of which two are Sciences (BIOL 202, BIOL 220, BIOL 221, CHEM 115).

9. Completed or Enrolled in All Required Support Courses for the Nursing Major 40 SH

10. All students born outside the United States and Canada must complete the TOEFL:IBT with a minimum cumulative score of 84 and a Reading score of 15 or higher, Listening score of 15 or higher, Speaking score of 26 or higher, and Writing score of 17 or higher. Official results must be sent directly from the testing agency (www.ets.org/toefl).

11. All applicants must take the current Test of Essential Academic Skills (TEAS®) test and achieve a “proficient” level score to be eligible for admission. The TEAS® test can be taken no more than two times for each application period (www.atitesting.com).

12. A 1-2 page essay on your philosophy of nursing must be included with the application.

13. Two references must be submitted before the deadline for application. The reference form may be downloaded from the DON web page at: http://www.minotstateu.edu/nursing/. These reference forms must be mailed directly to the Department of Nursing at Minot State University by the recommender (not the applicant).

14. The signature of your advisor is required for admission application. It is expected that you communicate through email, phone, or in person with your advisor during the application process.

15. Students without a nursing license, but having transferable nursing major credits comparable to NURS 255 and higher numbered coursework: A letter of recommendation which documents the student leaving the program in good standing must be received from the prior nursing program administrator.

16. A student who has been accepted into the program two times, but has not been successful; or has withdrawn from nursing; or has been dismissed from the program; or has not met Admission and Progression requirements; or otherwise has not been successful will not be eligible for readmission.

A criminal background check is required of all students admitted into the MSU Nursing Program before clinical experiences occur. See the policy and procedure regarding criminal background checks on the Department of Nursing Web site for further information.

The stated admission requirements are the minimum qualifications. Fulfilling these requirements does not guarantee admission when the number of applicants exceeds available clinical space. The Department of Nursing complies with the MSU policy that prohibits discrimination in the recruitment and admission of students.

- Fulfilling the stated admission requirements does not guarantee admission into the nursing program.
- Established assessment benchmarks must be met by students for progression and graduation.
- Successful completion of the nursing program does not guarantee professional licensure.
- The number of admissions can be altered based on available resources

Nursing Department Selection Policy and Procedure

Policy
By November 15, available positions will be filled for the following Spring semester. By March 15, the available positions will be filled for the following Fall semester. The positions will be filled from eligible applicants based upon the following "Procedure." These selected students will be deemed "admitted" pending satisfactory review of transcripts.

**Procedure**

1. Positions will be filled through guaranteed admission and/or ranking.
2. Ranking will be accomplished through a point system: (Total possible 27)
   - Required support courses GPA will be calculated as 5 x the GPA of completed support courses at the time of application for a maximum of 20 points.
   - TEAS - points will be given for the following scores: Proficient (1) Advanced (3) Exemplary (5)
   - Eligible applicants will be ranked using the GPA from the completed required support courses and results of the TEAS.
   - MSU credits 12-24 cr (1) 25 or more (2)
3. Tie Breaker: Cumulative GPA will be used to break a tie.
4. Selection: The qualified applicants are selected for admission assignment in the following semester. Remaining qualified applicants will remain ranked as "alternates" for that semester.
   - Upon the disqualification or withdrawal of a selected student, the open positions will be offered to the highest ranked student from the list of alternates.
5. Continuing Requirements for Admission after Selection: The admission status is subject to a review of the transcript after posting of grades for the semester during which application was made. A satisfactory review includes:
   - Maintained a minimum cumulative GPA (grade point average) of 2.75.
   - Completion of all required support courses, with a minimum grade of "C." Achieve an overall GPA of 2.8 in the Required Support Courses. An "I" in a course will be judged as an incomplete if the faculty member for the course or courses does not provide written documentation that all requirements have been satisfactorily completed at a minimum grade of "C" by the first day of classes of the semester of admission; therefore, an "I" without the above required written documentation means a student would be ineligible for admission.
   - Completion of 50 semester hours.
6. English language proficiency requirement. (See MSU Undergraduate Catalog for policy under Requirements for Admission to the Nursing Major.)
7. Criminal Background Check, CPR and Health Protection Requirements are required upon acceptance.
8. A student not meeting required criteria may reapply during the next application period.

**Progress in the Major**

Nursing majors must achieve a minimum grade of "C" in nursing courses and required supplemental courses for continuous progress in the nursing program. PSY 270 Abnormal Psychology must be completed with a minimum grade of "C" prior to NURS 354 Psychiatric-Mental Health Nursing. HMS 215 Principles of Pharmacology and HMS 243 Pathophysiology must be completed prior to or concurrent with NURS 255 and NURS 264. A statistics course must be completed with a grade of 'C' or better prior to or concurrent with NURS 363 Theory and Research.

To obtain a minimum grade of "C," nursing courses may be repeated one time only subject to Admission and Progression committee recommendations, faculty decision and such considerations as availability of faculty, clinical resources, and classroom spaces. The Faculty Committee reserves the right to deny the readmission of a student who failed one or more courses in the nursing major. Any student not making satisfactory progress may be subject to stipulations, such as probationary status, providing evidence of adequate aptitude for nursing, or evidence of academic improvement in prerequisite or concurrent courses. Documentation of any or all of these may be required.

Special student requests, such as for readmission, should be directed by petition or letter to the Admission and Progression committee through the Department of Nursing Chair’s office.

Adherence to policies in the Department of Nursing Handbook is required and includes the maintenance of current CPR certification, proof of health insurance, and Health Protection Requirements.

Students must successfully complete each semester’s listed nursing, support, and HMS courses before advancing to the next semester. Students are required to meet or exceed established assessment benchmarks for progression and graduation.

**BSN Completion**

The Bachelor of Science in Nursing for Registered Nurses is available in an online format with one designated clinical course. Individual clinical experiences are arranged by students under the direction of qualified expert faculty.

**Requirements for Admission for BSN Completion Program:**

1. Make application to Minot State University.
2. Request an appointment with the Advanced Standing Director in the Department of Nursing. An informal credit review of prior course work will be conducted to plan a program of study.

3. Students who have graduated from a board approved nursing education program and have passed NCLEX-RN® need to:
   a. Make application to the Department of Nursing.
   b. Submit nursing license documentation to the Department of Nursing.
   c. Submit a criminal background check form and fee.

4. Students who have graduated from a board approved nursing education program, but have not yet passed NCLEX-RN® may take the following courses before acceptance into the program:
   a. General education courses
   b. Required support courses
   c. NURS 363 Theory & Research
   d. NURS 383 Professional Nursing I
   e. Special Topics courses (6 semester hours) approved by the Department of Nursing

Electives or Transfer Courses (26)

A minimum of 30 credits need to be taken at Minot State University

Health Management Science Minor (24 CR) (Non-nursing majors only)

The goal of the Health Management Science Minor is to:

- Provide students with the background and foundational skills necessary to manage personal health and to be an informed citizen in the health care arena.
- Provide students with an understanding of the dynamic, multidimensional, and interdisciplinary aspects of the management of health.
- Provide students with a knowledge base for informed decision-making regarding personal health management.
- Provide students with an understanding of culturally congruent and age appropriate dimensions in health management in a global society.

Required Core

**HMS Courses**

**HMS 151. Stress Management. 2 Hours.**  
Focuses on utilizing concepts related to stress and stress management strategies to achieve holistic high level wellness.

**HMS 203. Health Care Through the Life Span. 3 Hours.**  
Provides an overview of promotion of health and prevention of illness throughout the life span.

**HMS 208. Medical Terminology. 2 Hours.**  
Comprehensive examination of prefixes, stems, and suffixes as well as emphasis on pronunciation, spelling, and definitions of words used by health professionals including key pathology, diagnostic and treatment procedures terms.

**HMS 213. Life Span Growth & Development. 3 Hours.**  
Focuses on human growth and development throughout the life span. Prerequisite: PSY 111. Classroom Study = 45 hrs.

**HMS 215. Principles of Pharmacology. 3 Hours.**  
Provides a survey of all major drug groups as they apply to providing safe, therapeutic client care.

**HMS 240. Nutrition. 3 Hours.**  
Nutrition and application to human dietary needs of people at different ages.

**HMS 243. Pathophysiology. 3 Hours.**  
Provide fundamental knowledge of the structural and functional changes caused by disease and alterations in body function. Emphasis is placed on understanding changes and responses that produce signs and symptoms in common health problems. Prerequisites: Student must complete BIOL 220 and 221 before enrolling in this class.

**HMS 260. Introduction to Public Health. 3 Hours.**  
Examines the history, biomedical basis, disciplines (epidemiology, statistics, social and behavioral sciences), and techniques of public health, including education and policy development. Focuses on the health care system, medical care, and trends in public health. Prerequisite: Restricted to students with senior standing or have consent of instructor.

**HMS 279. Death & Dying. 3 Hours.**  
Provides a wholistic approach to end-of-life issues, including death, dying, and bereavement.
HMS 299. Special Topics Health Mgmt Sci. 1-8 Hour.

HMS 322. Therapeutic Touch. 2 Hours.
This elective course explores the scientific, theoretical, and clinical foundations of therapeutic touch. Contemporary research findings are discussed and critiqued. Blends both didactic and experiential learning into a balanced, grounded approach to this new version of ancient, caring, healing art. Prerequisites: junior or senior year or faculty approval. CS = 30*.

HMS 333. Transcultural Health Care. 3 Hours.
Present framework for health care providers to learn concepts and characteristics of diverse populations to provide culturally competent care for individuals, families, and communities.

HMS 379. Health & Physiological Aspects of Aging. 3 Hours.
Examines concepts of health, physiological changes, and health related practices of older adults. Required for Gerontology minor.

HMS 394. Independent Study General HMS. 1-4 Hour.

HMS 460. Quality & Risk Management in Health Care. 3 Hours.
Examines the fundamentals of a health care quality and risk management program, including risk identification, loss prevention, loss reduction, claims management process, risk financing, legal-ethical factors, and clinical risk exposures. Provides experience in quality and risk management practices that are unique to the health care settings. Prerequisite: Restricted to students with senior standing or have consent of instructor.

HMS 463. Issues Health Care Regs & Prac. 3 Hours.
Examines a variety of agencies that oversee and regulate healthcare in the United States. Focuses on a variety of professional standards and laws that affect quality of care, delivery, and managerial decision making. Prerequisite: Restricted to students with Senior status.

HMS 494. Independent Study Honors HMS. 1-8 Hour.
HMS 499. Special Topics Health Mgmt Sci. 1-8 Hour.

NURS Courses

NURS 221. Pre-Professional Development. 1 Hour.
Facilitates the development of professional behaviors, roles, and responsibilities. Provides opportunity for professional development, community service, and continuing education. Nursing elective graded pass/fail. Guidelines available through Department of Nursing. Prerequisite: Pre-nursing or nursing major.

NURS 222. Math For Meds. 1 Hour.
Enables the student to develop calculation skills, using the dimensional analysis technique, to safely calculate and administer medications.

NURS 253. Nursing Perspectives. 3 Hours.
Focuses on introductory concepts of the discipline of professional nursing. Open to the general university student. CS = 45*.

NURS 255. Nursing Foundations. 5 Hours.
Applies basic theoretical concepts to professional nursing in appropriate practice settings. Prerequisites: Admission to nursing. CS = 60; C/L = 90*.

NURS 264. Health Assessment. 4 Hours.
Applies methods required for a nursing health assessment in classroom and laboratory setting. Prerequisites: Admission to nursing. CS = 45; C/L = 45*.

NURS 299. Special Topics. 1-4 Hour.

NURS 323. Gerontological Nursing. 3 Hours.
Fosters an awareness and understanding of the aging population by investigating the biopsychosocial and spiritual needs of the elderly population. The issues of wellness, health, and function are addressed. The student is expected to gain an understanding of nursing and nursing's role in providing care for the older population. Prerequisites: NURS 255, 263, 264 or permission of instructor; and admission to nursing.

NURS 325. Adult Health I. 5 Hours.
Focuses on nursing care of adults experiencing common health problems with predictable outcomes in selected body systems, including concepts of absorption, elimination, regulation, mobility, perceptual dysfunction, cell injury and inflammation, altered immune responses, and perioperative principles. Concepts important in understanding health and illness in the elderly are included. Clinical experiences occur in laboratory simulation and perioperative settings. Prerequisites: Admission to nursing. CS = 45; C/L = 90*.

NURS 335. Adult Health II. 5 Hours.
Focuses on nursing care for adults, including the elderly, who experience chronic and/or progressive health problems in selected body systems. Concepts of sensation, oxygenation, digestion, regulation, movement/coordination, and abnormal cell growth are included. Principles and practices of intravenous therapy are applied to the adult client. Clinical experiences occur in the laboratory, medical, and rehabilitation settings of the hospital. Prerequisite: Admission to nursing. CS = 45; C/L = 90*.

NURS 344. Child Health Nursing. 4 Hours.
Applies theories, concepts and competencies in providing nursing care for infants, children, and adolescents within families. Clinical experiences will occur in a variety of settings. Prerequisites: Admission to nursing. CS = 30; C/L = 45*.
NURS 354. Psychiatric Mental Health Nursing. 4 Hours.
Applies psychosocial concepts and theories in psychiatric-mental health nursing within a nursing process framework for care of persons with mental health conditions. CS = 30; C/L = 90. Prerequisites: Student must complete NURS 325, 335, PSY 270 and be admitted into the nursing program before enrolling in this class.

NURS 361. Women's Health. 1 Hour.
Apply current theories and concepts in women's health and health practices within families. Prerequisite: Restricted to students who are admitted into the nursing program.

NURS 363. Nursing Theory and Research. 3 Hours.
Surveys contribution of theory and research to the development of the discipline of nursing. Focuses on nursing theories, conceptualizations, and research utilization for decision making within professional nursing. Prerequisite: Admission to nursing. CS = 45*.

NURS 364. Maternal Newborn Nursing. 4 Hours.
Applies current theories, concepts and competencies in evidence based maternal-newborn nursing. Provides experiences in caring for women, childbearing, families and newborns in the hospital, clinic and community. Compares the nursing roles in maternal-newborn nursing. CS - 30; C/L = 90. Prerequisite: Student must have completed NURS 335 prior to enrolling in this class.

NURS 383. Professional Nursing I. 3 Hours.
Professional Nursing I introduces the student to the nature of baccalaureate nursing, including the Department of Nursing Philosophy and curricular concepts. Students explore various nursing roles and theories in a variety of traditional and nontraditional settings. Prerequisite: acceptance into BSN program.

NURS 394. Nursing Internship. 1-6 Hour.
NURS 397. Nursing Internship. 2-6 Hour.
Fostering development of clinical nursing skills and decision making in approved health care agencies. Guidelines available through Department of Nursing. Prerequisite: admission to nursing. One semester credit hour = minimum of 45 hours of clinical study. Prerequisite: NURS 335.

NURS 399. Independent Study General Nurs. 1-4 Hour.
NURS 421. Nursing Leadership Development. 1 Hour.
Provides opportunities to implement leadership skills in professional roles and community service. Promotes activities in professionalism, continuing education, and networking. Guidelines available through Department of Nursing. Prerequisites: NURS 256 and 264; and admission to nursing.

NURS 456. Public Health Nursing. 5 Hours.
Demonstrates population-focused community-oriented nursing through the synthesis of nursing theory and public health theory applied to promoting, preserving and maintaining the health of populations and grounded in social justice. Provides experience in a variety of urban, rural, and frontier community settings. Prerequisite: NURS 344,354,361 and 364. Admission to nursing. CS = 45; C/L = 90*.

NURS 457. Public Health for the Professional Nurse. 5 Hours.
Demonstrates population-focused community-oriented nursing through the synthesis of nursing theory and public health theory applied to promoting, preserving and maintaining the health of populations and grounded in social justice. Provides experience in a variety of urban, rural, and frontier community settings. Prerequisite: NURS 363 and 383. Admission to BSN Completion Program. CS = 45; C/L = 90*.

NURS 458. Public Health Prof Nurse II. 3 Hours.
Provides opportunities for clinical application of population-focused, community-oriented nursing theory through experience in a variety of urban, rural and/or frontier community settings. Prerequisites: NURS 383,363,457 or corequisite and Admission to RN to BSN.

NURS 464. Adult Health III. 5 Hours.
Focuses on advanced nursing care of adults experiencing acute, complex, and potentially unstable illnesses and injuries. Concepts, principles, and theories relating to adaptation and life support management of regulatory systems are included. Clinical experiences include laboratory simulation and life support settings, including critical care areas, dialysis, and emergency/trauma services. Prerequisite: Admission to nursing and senior status. CS = 45; C/L = 90*.

NURS 471. Nursing Review. 1 Hour.
Provides a systematic review of essential nursing content required for licensure. Prerequisites: Student must complete NURS 456 and 484 before enrolling in this class.

NURS 472. Trends and Issues. 2 Hours.
Evaluates current issues and trends impacting upon professional nursing practice. Introduces strategies to empower nurses for professional nursing with emphasis on legal, ethical and political economic frameworks, career management; health care policy. Prerequisites: Admission to nursing and faculty approval. CS = 30*.

NURS 473. Nursing Leadership & Management. 3 Hours.
Analyzes theories and concepts of leadership and management for the professional nurse in dynamic nursing care delivery systems. Prerequisite: Admission to nursing. CS = 45*.

NURS 483. Professional Nursing II. 3 Hours.
Professional Nursing II will provide the student with an opportunity to examine professional nursing in a changing health care delivery system including the current and future focus of nursing care. Prerequisite: Acceptance into RN to BSN completion program.
NURS 493. Professional Nursing III. 3 Hours.
This integrative capstone course provides the student opportunity to design and implement a project in collaboration with faculty by integrating leadership and management concepts into nursing practice in a health care system. Prerequisite: acceptance into RN to BSN completion program.

NURS 494. Independent Study Honors Nurs. 1-8 Hour.

NURS 496. Study Abroad. 1-6 Hour.
Provides opportunities for MSU faculty-led study trips to appropriate locations. Focuses on becoming more culturally knowledgeable about global health care by immersion in a nursing culture of a different country. Will include additional requirements beyond travel itself. May be repeated for credit for different countries.

NURS 497. Nursing Practicum. 6 Hours.
Integrates management concepts in clinical nursing practice in selected health care systems with the collaborative guidance of faculty and clinical preceptors. Prerequisites: Admission to nursing. C/L = 270*.

NURS 499. Special Topics In Nursing. 1-8 Hour.

Department of Special Education

Chair
Dr. Holly Pedersen, Chair

Special Education Program Mission
MSU’s special education program: 1) provides exemplary learning experiences to prospective and practicing educators; 2) provides technical assistance and services to schools, families, and agencies; 3) disseminates current and relevant information to state and local agencies; and 4) conducts credible, practical research.

Students who complete one of MSU’s special education programs will be reflective decision makers who provide exemplary educational services to people with disabilities.

Special Education Department Goals and Outcomes
The Department’s goals and outcomes are aligned with the national Council for Exceptional Children standards and practices for professional development.

<table>
<thead>
<tr>
<th>Goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prepare professional personnel to teach children and adults with disabilities.</td>
<td>Students will describe the philosophical, historical and legal foundations of special education.</td>
</tr>
<tr>
<td>Render community service to children and adults with disabilities through testing, clinical program and consultation.</td>
<td>Students will describe the characteristics of learners with and without disabilities.</td>
</tr>
<tr>
<td>Assist teachers, administrators and parents to understand and improve the lives of individuals having special needs.</td>
<td>Students will demonstrate appropriate assessment, diagnosis and evaluation procedures and strategies for individuals with disabilities.</td>
</tr>
<tr>
<td></td>
<td>Students will use appropriate instructional content and practices for individuals with disabilities.</td>
</tr>
<tr>
<td></td>
<td>Students will plan and manage the teaching and learning environment for individuals with disabilities.</td>
</tr>
<tr>
<td></td>
<td>Students will manage learner behavior and social interactions.</td>
</tr>
<tr>
<td></td>
<td>Students will engage in and facilitate appropriate communication and collaborative partnerships.</td>

</table>

Admission to Teacher Education
All students completing a BSEd in Special Education must meet specific teacher education requirements prior to enrolling in Block I/II methods courses, corresponding community-based practica, and student teaching. To accomplish this, an application packet must be completed and submitted one semester prior to anticipated Block I enrollment. The application procedure can be found on the Teacher Education Unit (TEU) web page: http://www.minotstateu.edu/teu/

The Teacher Education Administrative Council (TEAC) will review the packet and will grant or deny admission to Teacher Education prior to registration for the following semester. After admission to Teacher Education, the students may enroll in restricted classes, provided all other prerequisites are met.
Criteria for Retention in Teacher Education

The retention policy can be found on the following web page: http://catalog.minotstateu.edu/undergraduate/teachereducationpoliciesandprocedures/
#admissiontoteachereducation

Exit Requirements from the Special Education Major

1. Successful completion of all coursework outlined by the student’s Program of Study and major department. Students may have no grade lower than C in any course required for their major.
2. Successful completion of student teaching.
3. Successful completion of the Praxis II tests.
4. Completed formal application for graduation.

Praxis Testing

Students graduating in Special Education are required to successfully complete the Praxis II test for the area of Special Education: Core Knowledge and Applications. The test code is 5354.

North Dakota teacher licensure information can be found on the following web page: http://www.nd.gov/espb/

Licensure Requirements

Students are responsible for knowing the licensure requirements for the state or province they wish to teach in.

### Courses

**SPED 101. Introduction to Intellectual & Developmental Disability Services. 3 Hours.**
A survey of the various types of developmental disabilities, the philosophy of service, person centered planning, working with families, job coaching, and legal and ethical considerations for persons with developmental disabilities.

**SPED 110. Introduction to Exceptional Children. 3 Hours.**
A survey course examining exceptionalities of learning with a focus on understanding current social and educational responsibilities.

**SPED 111. Health Care in IDD I. 3 Hours.**
This course concentrates on basic medication concepts and procedures, health and wellness issues, nutrition information, and oral hygiene.
SPED 112. Health Care in Developmental Disabilities II. 3 Hours.
This course focuses on the most common types of seizures and provides information on how to observe, report, and assist persons during seizures. Included also are techniques of positioning, turning, and transferring persons with physical disabilities. This course provides an introduction to issues in sexuality and also teaches how to support independent living skills in persons with intellectual disabilities.

SPED 113. American Sign Language I. 3 Hours.
This course is designed to introduce students to American Sign Language. Students develop basic vocabulary and conversation skills. Fundamental aspects of Deaf Culture are incorporated.

SPED 115. American Sign Language II. 3 Hours.
This course is a continuation of ASL I. Students will expand vocabulary and conversation skills. Focus is on a greater understanding of ASL and its cultural features. Prerequisite: Student must complete SPED 113 before enrolling in this class.

SPED 117. Manually Coded English. 3 Hours.
An introduction to Signing Exact English and finger spelling. A basic sign vocabulary is presented.

SPED 120. Intro to Positive Behavior Supports. 3 Hours.
This course focuses on principles of behavior; defining, recording, and charting behavior, and how to write behavioral objectives. It teaches positive behavior support strategies and how to design and implement positive behavior support plans.

SPED 140. Human Development. 3 Hours.
A study of the sequence of human development from conception to late childhood, adolescence through adulthood, with emphasis on motor, language, cognitive, emotional, and social characteristics.

SPED 141. Development of Young Children. 2 Hours.
In this course, students will learn typical and atypical development of children ages birth to age five. The course includes observation of development, introduction to service delivery models, and study of best practices in intervention. Prerequisite: Students must complete in SPED 110 before enrolling this course.

SPED 201. Applied Behavior Analysis for Teachers. 3 Hours.
Learners in this course will be introduced to best practices in Applied Behavior Analysis (ABA) in the classroom. In addition, students will learn preventative, supportive, and corrective behavioral strategies for individuals with both low and high incidence disabilities. Varying theoretical paradigms related to human behavior will also be explored and considered to understand student behavior. Prerequisite: Students must enroll in SPED 110 at the same time as this course.

SPED 202. Intro to Sensory Disabilities. 3 Hours.
In this introductory course in sensory disabilities, students will learn the dimensions of deaf/hard of hearing, visual impairments, and dual impairments. The content will cover the etiology of sensory disabilities that can result in additional learning challenges. In addition, historical foundations and research evidence upon which educational best practice is based for sensory disabilities is identified. Prerequisite: SPED 110.

SPED 210. Applied Behavior Analysis for Teachers. 3 Hours.
Learners in this course will be introduced to best practices in Applied Behavior Analysis (ABA) in the classroom. In addition, students will learn preventative, supportive, and corrective behavioral strategies for individuals with both low and high incidence disabilities. Varying theoretical paradigms related to human behavior will also be explored and considered to understand student behavior. Prerequisite: Students must enroll in SPED 110 at the same time as this course.

SPED 213. American Sign Language III. 3 Hours.
This advanced course is a continuation of ASL I & II as a tool to enrich their vocabulary and understanding of the structure of ASL. Topics relating to Deaf Culture will be discussed throughout the course as well as opportunities to increase fluency in the language. Prerequisites: SPED 113, SPED 115.

SPED 220. Promoting Inclusive Opportunities. 3 Hours.
The course introduces a value-based process for developing and evaluating major program goals for persons with disabilities including the relationship of assessment to goal setting and person-centered planning. Students will apply instructional interventions including assistive technology applications for persons with intellectual disabilities. Strategies for promoting relationships between people with disabilities and other community members and guidelines for leisure program planning and implementation will be discussed.

SPED 223. Dual Diagnoses: ID and Mental Health Disorders. 2 Hours.
An overview of issues related to supporting people who experience both intellectual disability and mental health disorders including identification of the need for services, treatment options, and standards for service provision. The course provides information for program coordinators on assessment of mental health disorders, collaboration with community-based team members, pharmacological and behavior support, and cognitive behavioral therapies and approaches with individuals with intellectual disabilities.

SPED 225. Assisting People with Traumatic Brain Injury. 2 Hours.
This course provides a comprehensive overview of Traumatic Brain Injury (TBI) and how to assist people with TBI and their families. It discusses community resources, assessment issues and strategies, as well as the role of employment consultants in working with people with TBI.

SPED 233. Experience In SPED. 1 Hour.
Through a service learning approach, students will be introduced to a diverse, vibrant, professional community working together with others to ensure that individuals with exceptionalities are valued and included in all aspects of life. Students will be exposed to leadership policy and practices. Prerequisite or Corequisite: Students must be concurrently enrolled in or have previously taken SPED 110.
SPED 234. Disability and Society. 3 Hours.
This course prepares future leaders to understand new perspectives on viewing disability as a part of a diverse society. Learning experiences are designed to eliminate myths and preconceptions and prepare students to successfully encounter diversity as expressed by people with disabilities who may be colleagues, employees, neighbors, or members of the community.

SPED 250. Developing Communicative Interactions. 2 Hours.
This course is designed to provide training to personnel who work with persons with extensive and pervasive support needs. It is a multimedia training program in the area of social, communicative language skill development, and intervention. The course also discusses effective interpersonal communication.

SPED 255. Aging and IDD. 2 Hours.
This course is designed to address training needs of direct support professionals and human services personnel working with senior citizens with developmental disabilities in community programs. It covers demographic and philosophical considerations, health, social, and legal issues, and coordination of services.

SPED 296. Field Experience in IDD. 4 Hours.
Practical experience in the development of individual program plans, medication management; positioning, turning, and transferring techniques; management of seizure disorders; job coaching; participant empowerment; facilitation of services; community networking; facilitation of relationships; provision of person-centered supports; vocational, education, and career support; assessment, documentation; communication; positive behavior supports; and aging issues. Prerequisites: SPED 101, 11, 112, 120, and 221 or instructor permission.

SPED 299. Special Topics In Special Ed. 1-8 Hour.
Research in current trends related to various topic areas in the field of special education.

SPED 300. Language and Communication Interventions. 3 Hours.
Students will learn the characteristics of culture and use of language as it relates to diversity across cultures. Additional focus will be on communication and social interaction alternatives and typical and atypical language development. Students will learn augmentative and alternative communication strategies to support and enhance the verbal and non-verbal communication skills of individuals with exceptional learning needs. Prerequisite: SPED 110 and Admission to Teacher Education or Interpreting & Sign Language Studies major.

SPED 310. Introduction to Intellectual Disability and Autism Spectrum Disorder. 3 Hours.
In this survey course, students will explore definitions and issues related to individuals with intellectual disability (ID) and autism spectrum disorder (ASD). In addition, trends and practices will be discussed in the areas of developmental disabilities. Students will understand the impact of learners' academic and social abilities, attitudes, interests, and values on instruction and career development. Prerequisite: Student must complete SPED 110 before enrolling in this class.

SPED 311. Introduction to Autism Spectrum Disorder. 3 Hours.
This course will examine the historical perspective of the autism spectrum as well as the etiology, early detection, assessment, diagnosis and characteristics of persons with ASD throughout the lifespan. Participants will learn a variety of interventions and instructional strategies appropriate in non-educational settings in order to improve an individual's social, behavior and communication skills among other quality of life outcomes. Prerequisite: Students must complete SPED 101 before enrolling in this course.

SPED 312. Intermediate Sign Language. 3 Hours.
A course in American Sign Language that focuses on increasingly complex aspects of the language including vocabulary, grammar, concepts and discourse. Students further develop their fluency in the language. Course content is beyond the fourth level of ASL.

SPED 318. Advanced Interpreting. 3 Hours.
This course covers advanced concepts and skills in the interpreting process. It focuses on refinement of ASL to English and English to ASL interpretation as well as ethical and practical application in the profession. Prerequisite: Students must complete SPED 316 before enrolling in this course.

SPED 330. Survey Of Deaf Culture. 3 Hours.
This survey course provides an overview of the rich and vibrant language and culture of individuals who are Deaf in North America.

SPED 340. Assessment in SPED. 4 Hours.
Students will learn to administer and interpret a variety of assessment instruments appropriate for diverse learners. The focus will include the use of legal provisions and ethical principles, screening, pre-referral, referral and classification practices and procedures, for individuals with exceptional learning needs. In addition, curriculum-based assessment will be used to evaluate instruction and monitor student progress. Prerequisite: SPED 110 and admission to Teacher Education.

SPED 341. Assessment in Developmental Disabilities. 4 Hours.
Students will gain knowledge in the fundamental concepts of assessment and purposes of various assessment methods in developmental disabilities. Students will also acquire skills in planning for assessment, instrument selection, administration, scoring, interpreting and reporting assessment results. Practical application of assessment skills for person centered planning is required. Prerequisite: Students must complete SPED 101 before enrolling in this course.
SPED 379. Leadership in SPED. 3 Hours.
The student will engage in service learning activities that benefit individuals with diverse learning needs, their families, and community. Students will gain leadership skills through these activities and will understand how their dispositions uphold high standards of competence and integrity. Students will focus on collaboration, partnerships, and ethical and professional practices in the field of special education. Prerequisite: Sped 110 and admission to teacher education.

SPED 410. Introduction to Learning and Emotional/Behavioral Disabilities. 3 Hours.
Students will understand the characteristics of individuals with specific learning disabilities, emotional/behavior disorders, and other common conditions such as ADD/ADHD. Students will understand prevalence, etiology, and diagnostic criteria of these disabilities as well as gain awareness of evidence based practices to support these learners. Prerequisite: Sped 110.

SPED 412. Advanced Sign Language. 3 Hours.
A course in American Sign Language that focuses on advanced levels of concept expression and dialogue for a myriad of settings. Course content is beyond the fifth level of ASL.

SPED 420. Inclusive Practices. 3 Hours.
Students will learn methods for differentiating instruction to meet the needs of a diverse range of learners in inclusive settings. Concepts of the shared model of Response to Intervention (RTI) and Universal Design for Learning (UDL) will be emphasized. A variety of co-teaching practices will be modeled within this course. In addition, collaborative partnerships with school personnel and community members for integrating individuals with exceptional learning needs will be demonstrated. Prerequisites: SPED 110 and admission to teacher education.

SPED 433. Advanced Field Experience. 4 Hours.
Advanced practical experience in interpreting and sign language.

SPED 440. Instructional Interventions for People with DD. 3 Hours.
This course is designed so students can attain knowledge of theories and research that form the basis for instructional interventions for adults with developmental disabilities. Students will learn how to develop and select instructional content and strengthen their understanding of resources and strategies for adults who require a Person Centered Plan. The course focuses on how to identify functional skills in a variety of domains, write goals and objectives, develop a task analysis, design intervention plans, collect and graph baseline and instructional data and then make data-based decisions. Prerequisite: Students must complete SPED 101 before enrolling in this course.

SPED 441. Methods for High Incidence Disabilities. 3 Hours.
Students will have knowledge of theories and research that form the basis for curriculum development and instructional practice for students identified as having high incidence disabilities. Students will develop and select instructional content with resources and strategies for students described as needing intermittent or limited levels of support. Students will learn to make responsive adjustments to lesson planning and instructional pedagogy based on assessment and data-based decision making. Students will develop and implement comprehensive individualized education programs in collaboration with various team members. Prerequisite: Students must complete SPED 101 before enrolling in this course.

SPED 442. Methods for Low Incidence Disabilities. 3 Hours.
Students will have knowledge of theories and research that form the basis for curriculum development and instructional practice for students who have been identified as having low incidence disabilities. Students will develop and select instructional content with resources and strategies for students described as needing extensive and pervasive levels of support. Students will learn to make responsive adjustments to lesson planning and instructional pedagogy based on assessment and data-based decision making. Students will develop and implement comprehensive, annual individualized education programs in collaboration with various team members. Students will demonstrate techniques in transferring, positioning, lifting and CPI training. Prerequisite: SPED 110 and admission to Teacher Education.

SPED 444. Transition to Adult Life. 3 Hours.
Students will have knowledge in designing and using methods for assessing transition instruction for students of all ages with a special emphasis on students with a transition IEP (16-21). An emphasis on functional academics, vocational training, life and social skills development, recreation/leisure opportunities, and post-secondary training will be included. Students will understand their role in developing transitional individual education programs and how to work effectively with human services providers. Prerequisite: SPED 110 and admission to Teacher Education.

SPED 445. Collaboration in Special Education. 3 Hours.
This course examines issues and effective strategies for successful collaboration with interdisciplinary team members so students with disabilities can be included in the general education classroom. Students will understand the importance of fostering responsive, respectful, and beneficial relationships between families and professionals. Students will learn how to communicate and problem solve effectively with other team members including family members and legal guardians. Prerequisite: SPED 110 and admission to Teacher Education or Interpreting & Sign Language Studies major.

SPED 446. Interdisciplinary Teaming and Community Collaboration in Human Services. 3 Hours.
This course examines issues and effective strategies for successful collaboration with interdisciplinary team members so people with disabilities can be included in their communities and meet their personal outcomes. Students will describe the critical aspects that foster responsive, respectful, and beneficial relationships between families and professionals. Students will demonstrate how to communicate and problem solve effectively with other team members including direct support professionals, consultants, family members and legal guardians. Prerequisite: Students must complete SPED 101 before enrolling in this course.
SPED 454. Models & Strategies in Employment for People with Developmental Disabilities. 4 Hours.
Students will learn effective models and strategies of individualized employment support for individuals with developmental disabilities from high school transition through retirement. Students will learn about and apply current best practices to support employment outcomes. Prerequisite: Students must complete SPED 101 before enrolling in this course.

SPED 491. Senior Seminar in IDD. 4 Hours.
Seminar on various topics for seniors in the field of intellectual and developmental disabilities.

SPED 494. Practicum in Special Education. 4 Hours.
Students will participate in a practicum with their school partners to design, implement, and evaluate instructional practices. Prospective special educators will develop and apply knowledge, skills, and dispositions essential to the roles for which they are being prepared. Prerequisite: SPED 110 and admission to Teacher Education.

SPED 497. Externship in IDD. 8 Hours.
Students will participate in a final practicum in the field of human services and be supervised by agency personnel in a variety of adult agencies. Participating agencies include residential, vocational, recreational, social, protection, and advocacy as well as case management agencies serving adults with intellectual and developmental disabilities.

SPED 499. Special Topics in SPED. 1-8 Hours.
Research in current trends related to various topics in the field of special education.

Intellectual/Developmental Disabilities

Chair
Dr. Holly Pedersen, Chair

Human Services: Intellectual/Developmental Disabilities Program Mission

Minot State University is a leader in the preparation of Human Service Professionals for over thirty years. Through a contract with the Developmental Disabilities Division of the Department of Human Services, MSU delivers training for direct support and other professionals statewide. University faculty collaborate with service providers to ensure that the coursework and field experiences have direct application to the challenges faced by human service professionals.

To meet the national demand for human service professionals, MSU now offers this established program online for individuals looking for careers in leadership, program planning, and service coordination for children and adults with intellectual/developmental disabilities in programs throughout the nation.

Purpose of the Program

To provide Human Service Professionals with the knowledge and skills needed to provide effective services and supports that enable individuals with intellectual and developmental disabilities to lead self-determined and personally satisfying lives.

Program Goals

1. Provide exemplary learning experiences
2. Promote best practices
3. Recognize expertise
4. Support professional development and career paths

Our programs are fully accredited by the Higher Learning Commission North Central Association of Colleges and Schools and the National Alliance of Direct Support Professionals (NADSP).

Exit Requirements for the Human Services Degrees

1. Successful completion of all coursework outlined by the student’s Program of Study. Students may have no grade lower than C in any course required for their major.
2. Successful completion of the final externship.
3. Completed formal application for graduation.

Bachelor of Science in Human Services with a Major in Intellectual/Developmental Disabilities (non-teaching)

MSU’s Bachelor of Science in Human Services with a major in I/DD can be a career ladder choice for graduates of our Associate of Science in Human Services with a major in I/DD degree. Students may also enroll in this four-year program with neither an Associate degree nor previous experience in the
I/DD service industry. Like the Associate of Science degree, the Bachelor's degree is offered on-line and students may take advantage of many paid, hands-on experiences in the I/DD service industry while studying.

**Associate of Science Degree in Human Services with a Major in Intellectual/Developmental Disabilities**

The Associate of Science in Human Services with a major in I/DD offers the first degree option in the career ladder of Human Services programs at MSU. Available online, this flexible program provides candidates with the foundational knowledge and skills to serve individuals with intellectual and developmental disabilities.

For individuals working in the I/DD service industry in North Dakota, a partnership between MSU and the Department of Human Services allows students to apply training from their workplace towards this degree through the credit by exam process.

The Associate of Science Degree in Human Services with a major in Intellectual/Developmental Disabilities is awarded upon satisfactory completion of the designated 30 credits of Intellectual/Developmental Disabilities coursework and the 38 credits of General Education coursework.

NOTE: Most courses in AS in Human Services with a major in I/DD are only offered once every two years. Students schedules will vary. See advisor for assistance.

**Intellectual/Developmental Disabilities Concentration**

**Required**
- SPED 101 Introduction to Intellectual & Developmental Disability Services 3
- SPED 120 Intro to Positive Behavior Supports 3

Select two or three of the following: 4
- SPED 220 Promoting Inclusive Opportunities
- SPED 111 Health Care in IDD I
- SPED 112 Health Care in Developmental Disabilities II
- SPED 223 Dual Diagnoses: ID and Mental Health Disorders
- SPED 250 Developing Communicative Interactions
- SPED 255 Aging and IDD
- SPED 296 Field Experience in IDD

**Certificate of Completion in Intellectual/Developmental Disabilities**

- SPED 101 Introduction to Intellectual & Developmental Disability Services 3

Select three or four of the following: 12
- SPED 111 Health Care in IDD I
- SPED 112 Health Care in Developmental Disabilities II
- SPED 120 Intro to Positive Behavior Supports
- SPED 140 Human Development
- SPED 220 Promoting Inclusive Opportunities
- SPED 223 Dual Diagnoses: ID and Mental Health Disorders
- SPED 225 Assisting People with Traumatic Brain Injury
- SPED 250 Developing Communicative Interactions
- SPED 255 Aging and IDD
- SPED 296 Field Experience in IDD

**Total Hours** 15

**Interpreting and Sign Language Studies**

The BAS is a 2+2 degree. Students will complete an AAS in American Sign Language & Interpreting Studies at LRSC* and then transfer to MSU to complete years 3 and 4, resulting in a BAS in Interpreting & Sign Language Studies from MSU. Courses will be delivered through distance technology so that students can take the program while being physically located at either campus. *Students may enter the BAS having obtained an AAS in Interpreting from another institution.

**Bachelor of Applied Science in Interpreting and Sign Language Studies**

- SPED 110 Introduction to Exceptional Children 3
- PSY 111 Introduction to Psychology 3
- SPED 210 Intro to Ed of Children w/DHH 3
- SPED 250 Developing Communicative Interactions 2
- PSY 255 Child & Adolescent Psychology 3
- SPED 302 Language and Communication Interventions 3
- SPED 312 Intermediate Sign Language 3
- SPED 316 Intermediate Interpreting 3
- SPED 318 Advanced Interpreting 3
- SPED 410 Introduction to Learning and Emotional/Behavioral Disabilities 3
- SPED 412 Advanced Sign Language 3
- SPED 420 Inclusive Practices 3
- SPED 433 Advanced Field Experience 4
- SPED 445 Collaboration in Special Education 3
**Department of Teacher Education and Kinesiology**

**Chair -- Terry Eckmann, Ph.D.**

The Department of Teacher Education and Kinesiology is responsible for: 1) the required pedagogy core courses for all teaching majors; 2) the preparation of Elementary teachers; 3) the preparation of Early Childhood Education teachers; 4) the preparation of Physical Education teachers; 5) the preparation of Corporate Fitness and Wellness Management majors; and 6) the preparation of Athletic Training majors.

The department also has responsibility for the operation of the Teacher Advisement and Field Placement Office, which handles group advising relative to Teacher Education and coordinates practicum and student teaching placements.

**Teacher Education and Kinesiology Department Mission**

The Department of Teacher Education and Kinesiology (TEK) emphasizes the role of the teacher as reflective decision-maker through a conceptual model which emphasizes action, reflection, and knowledge (ARK). Through course work and field experiences the student builds knowledge around specific discipline content and around best pedagogical practices, providing a basis for reflection and action.

TEK, in addition, supports the overall mission of the broader Teacher Education Unit (TEU) at Minot State University. The TEU focuses on current cognitive science research to prepare teachers who demonstrate reflective decision-making and the ability to integrate knowledge of content, students and the contexts in which we learn.

Our Mission is to prepare educational professionals with:

- knowledge of content, and knowledge of cognitive and developmental sciences,
- performance skills, and
- professional dispositions toward the students, curriculum, and reasons they teach. This preparation will allow them to work successfully with:
  - varied students,
  - within a global community.

1 Cognitive Science is defined here as a multi-disciplinary field or study which includes what we know about observed individual and social behaviors, mental representations and thinking processes (mind), biophysical structures, functions and mechanisms of learning (brain), and how human beings change over time as they develop in all quadrants: cognitive, social, emotional and physical growth (education).

**Teacher Education and Kinesiology Department Goals and Outcomes**

**Objectives**

1. To provide a comprehensive teacher training program in elementary and secondary education.
2. To prepare competent teachers who are involved in acting and reflecting on the pedagogical and content knowledge they have acquired.
3. To provide specialized training in reading, early childhood education, and middle school.
4. To provide opportunity for certification in Water Safety Instruction (WSI), Cardio-Pulmonary Resuscitation (CPR), and Hunter Education.
5. To provide a sound foundation for graduate studies in education.
6. To develop skills and knowledge that aid in developing a personal, lifetime wellness concept.
7. To provide a program to meet the needs of students seeking employment opportunities in hospital wellness centers, sports medicine departments, community sport and fitness clubs, and corporate fitness settings.
8. To provide courses that fulfill the General Education requirements and provide university students with the chance to develop life long activity opportunities.

Department/Division Requirements: see catalog descriptions under each department and division offering a BSEd degree.

**DTS Courses**

**DTS 200. Special Topics In Dts. 1-8 Hour.**

**DTS 225. Introduction To Safety Education. 1 Hour.**
Promotes general safety with special emphasis on school bus safety, fire safety, and tornado safety.

**DTS 230. Driver & Traffic Safety Education. 3 Hours.**
Introduction to driver and traffic safety education. A review of various high school textbooks and other teaching tools.

**DTS 250. Defensive Driving. 1 Hour.**
Classroom course that is a part of the National Safety Council's Driver improvement program. Successful completion allows a three point reduction on a licensee's driving record.

**DTS 260. Teenage Driving Behavior Problems. 2 Hours.**
Teaches prospective drivers about the past problems concerning teenage traffic offenders. Assists driver educators in adjusting classroom presentations to address problems with beginning teenage drivers.

**DTS 350. Advanced Driving. 3 Hours.**
Advanced driving to improve skills, perception, decision making, and general driving ability.

**DTS 390. Traffic Law. 3 Hours.**

**DTS 399. Independent Study General Dts. 1-4 Hour.**

**DTS 450. Organization & Administration of Safety Education. 2 Hours.**
Basic concepts and development of the four phase program: dual controlled car, simulator, multiple car driving range, and classroom. Corequisite or Prerequisite: DTS 230.

**DTS 452. Instruction in Range, Simulator and In-Car. 3 Hours.**
Instruction in the use of electronic driving simulator, equipment, multiple care driving range, and dual controlled car. Prerequisite: DTS 450.
DTS 454. Driver Education for the Disabled. 2 Hours.
Instruction in dual-controlled cars with special hand controls for teaching the handicapped. Prerequisite: DTS 450.

DTS 499. Independent Study Honors Dts. 1-8 Hour.

ECE Courses

ECE 310. Introduction to Early Childhood Education. 3 Hours.
Study of early childhood learning theories, developmentally appropriate materials, classroom arrangement, observational techniques, and curriculum planning. Actual experience with materials, observation, and field experience.

ECE 312. Methods: Arts Integration. 2 Hours.
This course explores and uses the fine and performing arts as primary pathways to learning in young children. Includes selecting materials, creating environments, and planning lessons and activities that integrate art, music, and movement across curriculum disciplines.

ECE 313. Language Development and Emerging Literacy. 3 Hours.
Language activity includes speaking, writing, reading, and listening. Coursework will center on how language is acquired, the functions of language and how language develops. Examine how teachers can best support the growth of children as language learners and users.

ECE 314. Mathematics & The Young Child. 2 Hours.
This course explores curriculum and methods for teaching mathematics in pre-K through grade 3. Candidates actively engage in projects and activities that help them develop a conceptual understanding of teaching mathematics in a cooperative and constructionist environment where children view themselves as mathematicians. Emphasis is placed on the use of manipulatives, problem solving activities, and children's literature in the planning and organizing of developmentally appropriate classroom activities and lessons.

ECE 316. The Emergent Reader. 2 Hours.
This course explores a wide variety of developmentally appropriate instructional practices for teaching early childhood learners multiple ways of communicating and experiencing language through books and media programs. Emphasis is placed on integrating reading, writing, speaking, and listening as forms of creative personal expression. Effective methods of teaching children how to decode and encode print are studied. Prerequisites: Students must complete ECE 335 and be admitted to Teacher Education before enrolling in this course. Corequisites: Students must also be enrolled in ECE 310, 312, and 314 at the same time.

ECE 320. Infant/Toddler Development. 2 Hours.
This course explores the child’s growth and development from birth to 36 months. It will give candidates a basis for understanding normal developmental needs of children and a means of meeting them in the children’s home, childcare center, and community environments.

ECE 322. Leadership & Supervision in Early Childhood Education. 2 Hours.
This course explore effective organization of early childhood programs and looks at managing the day-to-day operations of a program. Candidates examine leadership frameworks and unique leadership styles, and how to apply the principles of leadership to create vision, become an agent of change, and model professional and ethical behavior. Candidates examine supervision frameworks for effective recruitment, selection, and orientation practices. Candidates study a comprehensive model for supervising staff, promoting ongoing professional development and creating a strengths based team in nurturing positive teaching/learning environments.

ECE 333. Preschool Methods and Materials. 3 Hours.
Study of development of 4-7 year olds and procedures in preschool planning including teaching techniques and expressive materials for the campus preschool. Prerequisite: Students must complete ECE 310 before enrolling in this course.

ECE 338. Home School Community Relations. 2 Hours.
This course explore home-school-community relations. The content includes history, parental involvement in school, parent-teacher conferences, home visits, parent and community programs, and community resources for parents.

ECE 361. Observation and Assessment ECE. 3 Hours.
Students will learn about and actively engage in a variety of observational methods to assess the social, motor, and cognitive growth of young children. Prerequisite: Student must complete ECE 310 before enrolling in this course.

ECE 430L. Pre-School Practicum. 1 Hour.
Students will work in the Minot State University Preschool, with direct application of those concepts learned in ECE 361 and ECE 333. Corequisites: Students must take ECE 361 and ECE 333 at the same time. Course is restricted to Early Childhood Education majors and Elementary Education majors with a Kindergarten Concentration. Admittance to teacher education is required.

ECE 436. Kindergarten Methods and Materials. 3 Hours.
Exploration of curriculum, methods, and materials for use in kindergarten settings. Prerequisite: Student must complete ECE 310 before enrolling in this course.

ED Courses

ED 221. Diagnostic Teaching. 1 Hour.
This course provides an introduction to the concept and practice of diagnostic teaching and data driven instruction. Candidates will apply these principles and practices in a 30 hour tutoring experience.
ED 250. Foundations of Education. 2 Hours.
Study of the historical, philosophical, sociological, concepts that have impacted the development of American public schools. Includes an orientation to the teaching profession and a field experience.

ED 250H. Foundations of Education. 2-3 Hour.
Study of the historical, philosophical and sociological concepts that have impacted the development of American public schools. Includes an orientation to the teaching professional and a field experience. Pre-requisite: acceptance into the Honors Program and must be of sophomore, junior or senior status.

ED 260. Educational Psychology. 2 Hours.
Emphasis learning theory, effective teaching, classroom management and child development as applied to educational settings.

ED 260H. Educational Psychology. 2 Hours.
Emphasizes learning theory, effective teaching, classroom management and child development as applied to educational settings. Pre-requisite: Admitted to the Honor Program and of sophomore, junior or senior status.

ED 260L. Clinical I. 0 Hours.
The initial level clinical within the teacher education program provides candidates with 20 hours of observations in schools related to their major and the content in educational psychology. Prerequisite or Corequisite: Students must be enrolled in or have completed ED 260 before enrolling in this course.

ED 282. Managing the Learning Environment. 2 Hours.
Strategies for successfully creating a positive learning environment in the classroom; strategies for dealing with the disruptive student, strategies for creating positive parental involvement in student learning.

ED 282L. Clinical II. 0.5 Hours.
This entry level clinical provides candidates with 12 hours of experience in a variety of support programs and services in educational settings.

ED 284. Teaching Diverse Learners. 2 Hours.
Adapting teaching strategies to culture, ethnic, linguistic, developmental, and physical differences in the classroom. Collaborating with related professions in individualizing instruction.

ED 284L. Clinical III. 0.5 Hours.
This entry level clinical experience provides candidates with 30 hours of engagement with professional organizations and service learning in projects related to education in schools and the community.

ED 299. Special Topics. 1-8 Hour.

ED 320. Curriculum, Planning & Assessment I. 2 Hours.
The development of curriculum for the public schools and strategies for the planning, delivery, and assessment of instruction. Prerequisite: ED 260.

ED 321L. Clinical IV. 0.5 Hours.
This mid-level clinical experience provides students in teacher education with an extended experience in school working on academic interventions with small groups of students.

ED 322. Curriculum, Planning, and Assessment II. 2 Hours.
The development of assessment processes and tools based on the reciprocal relationship between instruction and assessment, with a focus on data driven interventions and instruction. Prerequisite: Students must complete ED 320 before enrolling in this course.

ED 323L. Clinical V. 0.5 Hours.
This mid-level clinical experience provides students in teacher education with an extended experience in school working on academic interventions with small groups of students and designing appropriate assessments. Prerequisite: ED 320.

ED 324L. Fall Experience. 0 Hours.
This mid-level clinical experience provides students in teacher education with an extended experience in the fall semester observing and assisting with beginning of the year room design, organization, and classroom management policies and procedures.

ED 350. Middle School Philosophy & Curriculum. 3 Hours.
Acquaints students with the philosophy of middle school education and current practices in middle school curriculum, instruction, and assessment. Prerequisites: ED 320.

ED 380. Technology in Teaching. 2 Hours.
Strategies for the instructional uses of technology including multimedia presentation, e-mail, internet, spreadsheets, data bases, and emerging technologies. Prerequisites: Admission to Teacher Education and ED 320 or CD major or BS in Early Childhood major.

ED 394. Independent Study In Education. 1-4 Hour.

ED 402. Content Area & Develop Reading. 3 Hours.
The study of teaching reading at elementary, middle school, and high levels; ways of responding to literature and other written materials, content area reading for different purposes, application of strategies and study skills, and use of a variety of performance assessments. Prerequisite: Student must complete ED 320 before enrolling in this class.

ED 440. Remedial Reading. 3 Hours.
Diagnosis and treatment of children with reading difficulties. Prerequisites: Admission to Teacher Education and ED 352.
ED 441. Clinical Practice in Remedial Reading. 3 Hours.
Supervised practice in a clinical remedial reading situation. Prerequisites: Admission to Teacher Education and ED 440.

ED 451. Middle School Teaching Strategies. 3 Hours.
Designed to develop the skills and teaching strategies to implement a middle school program. Stressess teaming, thematic curriculum development, advising, and working with parents. Prerequisites: Admission to Teacher Education and ED 320.

ED 480. Clinical Practicum in Education. 1-5 Hour.
This course is designed to give education majors an opportunity to have 30 hours of practical experience. Placements in schools settings are arranged by the Teacher Advisement and Field Placement office. Prerequisites: Admission to Teacher Education, a methods class, and departmental approval.

ED 482. Student Teaching Seminar. 2 Hours.
This seminar will provide support to candidates as they complete the final phase of their teacher education program. Topics relevant to student teaching will be discussed. Corequisite: Students must be enrolled in either ED 491, 492, 493, 494, or 495 at the same time as this course.

ED 483. Student Teaching Seminar. 2 Hours.
This seminar will provide support to candidates as they complete the final phase of their teacher education program. Topics relevant to student teaching will be explored including classroom management, diversity, technology, instructional strategies, assessment, and data driven instruction. Corequisite: Students must be enrolled in either ED 491, 492, 493, 494, or 495 at the same time as this course.

ED 484. Student Teaching Seminar. 2 Hours.
This seminar will provide support to candidates as they complete the final phase of their teacher education program. Topics relevant to student teaching will be explored including classroom management, diversity, technology, instructional strategies, assessment, and data driven instruction. Corequisite: Students must be enrolled in either ED 491, 492, 493, 494, or 495 at the same time as this course.

ED 491. Student Teaching Kindergarten. 4-16 Hour.
Supervised teaching in kindergarten. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 492. Student Teaching, Elementary. 4-16 Hour.
Supervised teaching in elementary schools. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 493. Student Teaching, Secondary. 4-16 Hour.
Supervised teaching in secondary schools. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 494. Student Teaching K-12. 4-16 Hour.
Supervised teaching in both elementary and secondary levels in restricted areas. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 495. Student Teaching, Special Areas. 4-16 Hour.
Supervised teaching in special areas: mentally handicapped and education of the deaf. Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 497. Mentored Clinical Practice. 5-16 Hour.
This course is designed to provide a one year mentored clinical internship for classroom teachers. Prerequisites include departmental approval and emergency licensure by the Educational Standards and Practices Board of North Dakota.

ED 499. Independent Study Honors Ed. 1-8 Hour.

ELED Courses

ELED 352. Foundations of Reading. 3 Hours.
Principles, techniques, and approaches for implementing a developmental reading program in the elementary school. Prerequisite: Admission to Teacher Education and ED 320 or BS in Early Childhood major or CD major.

ELED 421. Elementary Mathematics Methods. 3 Hours.
Practicum in teaching mathematics to children in cooperative learning groups through the use of manipulative materials, symbolic representations, and problem solving approaches. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning processes. Prerequisites: Admission to Teacher Education, ED 320, MATH 277 and 377 or ECE 314. Corequisites: ELED 422, ELED 423, ELED 424, and SCI 426.

ELED 422. Elementary Language Arts Methods. 3 Hours.
Encompasses curriculum, theory, and methodology in language arts. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning processes. Prerequisites: Admission to Teacher Education and ED 320, ELED 352. Corequisite: ELED 421, 423, 424, SCI 426. Course restricted to Elementary Education and Early Childhood Education majors.

ELED 423. Elementary Reading Methods. 3 Hours.
Principles, techniques, approaches, and materials for teaching reading in grades K through 8. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning processes. Prerequisites: Admission to Teacher Education and ED 320, ELED 352. Corequisite: ELED 421, 422, 423, 424, SCI 426. Course restricted to Elementary Education or Early Childhood Education majors.
Athletic Training

Criteria for Retention

Athletic Training Program students must maintain a cumulative grade point average of at least 2.75 in all courses. At the end of each semester, grades will be reviewed and if the required grade point average is not met, the candidate will be placed on probation. Students will be permitted to continue taking courses within the Athletic Training Program the subsequent semester provided a 2.75 grade point average is achieved by the end of the semester or as determined in a written agreement between the student, the advisor, and the Program Director.

Athletic Training Program students must receive a grade of “C” or better in every course of the Athletic Training Program core. At the end of each semester, grades will be reviewed and if the student has received a grade less than a “C” in any course of the Athletic Training Program core, the student will be permitted to continue taking courses within the Athletic Training Program but must complete the course with the grade of a “C” or better.

Athletic Training Program students must earn a grade of a “C” or better in all courses that are prerequisites for clinical courses. Students will not be allowed to take the clinical course until the prerequisite course has been repeated with the grade of a “C” or better. The Advisor and Program Director may develop a written plan with a student that would allow for the student to take a clinical course after receiving a grade of less than a “C” in the prerequisite course due to extenuating circumstances, however, the student will still be required to pass the course with a “C” or better.

The student must meet any additional departmental requirements. Students are required to check with their advisors concerning any additional departmental requirements. The student is expected to demonstrate the dispositions of a good Athletic Trainer throughout the program by being motivated/dedicated, responsible, resourceful, caring/sensitive, open minded, poised, ethical and collegial (collaborative/cooperative).

The student must maintain continuous enrollment. Students who are not enrolled at the university for more than two consecutive semesters (excluding summer semesters) will be dropped from the Athletic Training Program and must be re-admitted to the Athletic Training Program before proceeding with any coursework requiring admission to the Athletic Training Program.

Athletic Training Probation/Disciplinary Policy

Effect of Probationary Status

Students who do not maintain the required grade point average will receive a warning and be placed on academic probation from the program for the following semester. Students will have one semester to bring their grade point average up to the required grade point average. During the semester of academic probation, students are not able to participate in clinical rotations or athletic training room hours unless stipulated in the student's plan developed by the student, the Advisor, and the Program Director. Students will be required to meet with their academic advisors and the program director and submit a grade report sheet at the time of each meeting as determined in the plan of study.

Students who display inappropriate dispositions are to be reported by faculty or preceptor. Prior to filing the report, faculty/Preceptors would be expected to discuss their concerns about the student’s disposition with the student. If discussion of the concern does not remedy the problem, then an inappropriate dispositions report is filed. Both the student and reporting person should sign the report. If the student is unavailable (eg. due to excessive absences) the report may be filed without the student’s signature. The written report is filed with the Chair of Teacher Education and Human Performance who will forward copies to the candidate’s advisor and the Program Director. The form will describe the inappropriate disposition or behavior and also indicate the level of urgency in remedying the situation. Any report of inappropriate dispositions will require that the reporting faculty member be notified of an advisor/student action plan to remedy the concerns. In the case of multiple reports of inappropriate dispositions or an egregious incident the student will be required to meet with the Athletic Training Program Selection Committee (ATPSC) which will determine what action needs to be taken. Action may include an advisor/student plan to remedy concerns, probation with a plan to remedy concerns, or removal from the program. In the event of multiple reports or an egregious incident a “plan follow through: report must be filed with ATPSC prior to the Program Director’s endorsement to sit for the Board of Certification (BOC), Inc. exam.

Following the probationary semester, the ATPSC will review the candidate’s status. This review will include, but will not be limited to: grade point averages, dispositions, recommendations from faculty, and the previous probation history. The ATPSC will change the candidate’s status to fully admitted, or will drop the student from the Athletic Training Program. The candidate will be informed of the decision at the end of the semester. A student dropped from the Athletic Training Program will be dropped from clinical courses.

Student grievances would be taken up with the Preceptor. If the preceptor is not able to reconcile the problem, the issue should be brought to the Program Director, followed by the Chair of the Teacher Education and Human Performance Department, then the Assistant Vice President for Academic Affairs.
Procedure for Re-admittance to the Athletic Training Program

If a student was dropped from the Athletic Training Program for failure to enroll for more than two consecutive semesters, the candidate must meet with his or her advisor and be recommended for reinstatement by his or her advisor and the department chair.

If the student was dropped from the program for other reasons, he or she must go through the full admissions process, but will not be required to duplicate relevant items from the first admission.

Transfer Student Policy

Students considering a transfer to Minot State University may request an unofficial transcript review by contacting the Registrar’s Office at 701-858-3347. Students transferring to Minot State University must request that an official college or university transcript be sent to Minot State University Enrollment Services. An unofficial transcript can be sent to Minot State University’s Registrar’s Office for evaluation. Students should also submit an official transcript to the Athletic Training Program Director for review of program specific courses to determine eligibility for application to the Athletic Training Program (ATP). Transfer students will need to apply for admission to Minot State University and complete the admissions requirements. Transfer students are required to meet the same requirements for admission to the ATP as current Minot State University students (see Athletic Training Program Application Checklist). Transfer students are required to go through the process for application for admission to the Athletic Training program as are all new students. Acceptance of courses does not mean that a student will automatically be admitted to the Athletic Training Program. Transfer students will be required to take all Athletic Training Program specific course work at Minot State University. Students may be able to transfer in the following course work contingent upon syllabus and course catalog audits: BIOL 220 Anatomy And Physiology I, BIOL 221 Anatomy And Physiology II, PHYS and CHEM (determined by the Registrar’s Office for general education requirements and Program Director for ATP requirements).

The Transfer Process

Students must complete the following:

- Apply for admission, pay $35 application fee, and complete admissions requirements.
- Submit your official transcript(s) and review your Transfer Credit Summary Report to see how courses were transferred. You may also see Transfer Credit Guidelines to see course equivalents, how courses are approved, and how courses will be reviewed.
- Participate in orientation. All transfer students are required to participate in new student orientation.
- Enroll in classes, get your student ID, arrange your housing, and purchase your parking pass.

Corporate Fitness and Wellness Management

The B.S. in Corporate Fitness and Wellness Management offers a wide and diverse range of job opportunities within fitness, exercise, health, wellness, nutrition and rehabilitation. MSU Corporate Fitness graduates and former students have or are currently employed in the following occupations:

President of ANYTIME FITNESS, LLC – over 1,400 fitness center locations located in 10 different countries worldwide

Exercise physiologist in a hospital cardiac rehab program

University professor

Exercise physiologist working with individuals with physical and mental disabilities

Hospital wellness/fitness program director

Sports performance enhancement program owner & director

Strength & Conditioning Coach: major league baseball, universities (NCAA Div. I),sport kinetics centers, and high schools

College graduate assistants in exercise science and nutrition research programs

Personal trainers

YMCA program directors

Physical rehab and massage therapist

Private business corporation fitness/wellness program director
Health and Fitness clubs and Retirement Centers

Professional sports team marketing and promotions director

Dance studio and fitness center owner

Early Childhood

The Minot State University Early Childhood Education program provides candidates with an educational experience that focuses on current cognitive science research* to prepare teachers who demonstrate reflective decision-making and the ability to integrate knowledge of content, students and the contexts in which we learn. The program’s objectives prepare educational professionals with:

• knowledge of content, and knowledge of cognitive and developmental sciences,
• performance skills, and
• professional dispositions toward the children, curriculum,
• and reasons they teach.

The mission of the Early Childhood Teacher Education program incorporates the University mission to advance knowledge, as well as critical and creative thinking skills of the Early Childhood Education majors, that will allow candidates to work successfully with:

• varied children
• in changing classroom environments,
• within a global community.

* Cognitive Science is defined here as a multi-disciplinary field of study, which includes what we know about observed individual and social behaviors, mental representations and thinking processes (mind), biophysical structures, functions and mechanisms of learning (brain), and how human beings change over time as they develop in all quadrants: cognitive, social, emotional and physical growth (education).

Bachelor of Science in Early Childhood

General Education  38-40

Requires two lab sciences: one each in Life and Physical Sciences, in addition to the requirement for GEOL 108 Earth and Planetary Science, which is taken in the Elementary Education major. Requires MATH 103 College Algebra or MATH 104 Finite Mathematics, and either GEOG 110 Principles, or GEOG 161 World Regional

Coursework not requiring admission to Teacher Education

Courses

ECE 310. Introduction to Early Childhood Education. 3 Hours.
Study of early childhood learning theories, developmentally appropriate materials, classroom arrangement, observational techniques, and curriculum planning. Actual experience with materials, observation, and field experience.

ECE 312. Methods: Arts Integration. 2 Hours.
This course explores and uses the fine and performing arts as primary pathways to learning in young children. Includes selecting materials, creating environments, and planning lessons and activities that integrate art, music, and movement across curriculum disciplines.

ECE 313. Language Development and Emerging Literacy. 3 Hours.
Language activity includes speaking, writing, reading, and listening. Coursework will center on how language is acquired, the functions of language and how language develops. Examine how teachers can best support the growth of children as language learners and users.

ECE 314. Mathematics & The Young Child. 2 Hours.
This course explores curriculum and methods for teaching mathematics in pre-K through grade 3. Candidates actively engage in projects and activities that help them develop a conceptual understanding of teaching mathematics in a cooperative and constructionist environment where children view themselves as mathematicians. Emphasis is placed on the use of manipulatives, problem solving activities, and children's literature in the planning and organizing of developmentally appropriate classroom activities and lessons.

ECE 316. The Emergent Reader. 2 Hours.
This course explores a wide variety of developmentally appropriate instructional practices for teaching early childhood learners multiple ways of communicating and experiencing language through books and media programs. Emphasis is placed on integrating reading, writing, speaking, and listening as forms of creative personal expression. Effective methods of teaching children how to decode and encode print are studied. Prerequisites: Students must complete ECE 335 and be admitted to Teacher Education before enrolling in this course. Corequisites: Students must also be enrolled in ECE 310, 312, and 314 at the same time.

ECE 320. Infant/Toddler Development. 2 Hours.
This course explores the child's growth and development from birth to 36 months. It will give candidates a basis for understanding normal developmental needs of children and a means of meeting them in the children's home, childcare center, and community environments.

ECE 322. Leadership & Supervision in Early Childhood Education. 2 Hours.
This course explores the effective organization of early childhood programs and looks at managing the day-to-day operations of a program. Candidates examine leadership frameworks and unique leadership styles, and how to apply the principles of leadership to create vision, become an agent of change, and model professional and ethical behavior. Candidates examine supervision frameworks for effective recruitment, selection, and orientation practices. Candidates study a comprehensive model for supervising staff, promoting ongoing professional development and creating a strengths-based team in nurturing positive teaching/learning environments.

ECE 333. Preschool Methods and Materials. 3 Hours.
Study of development of 4-7 year olds and procedures in preschool planning including teaching techniques and expressive materials for the campus preschool. Prerequisite: Students must complete ECE 310 before enrolling in this course.

ECE 338. Home School Community Relations. 2 Hours.
This course explores home-school-community relations. The content includes history, parental involvement in school, parent-teacher conferences, home visits, parent and community programs, and community resources for parents.

ECE 361. Observation and Assessment ECE. 3 Hours.
Students will learn about and actively engage in a variety of observational methods to assess the social, motor, and cognitive growth of young children. Prerequisite: Student must complete ECE 310 before enrolling in this course.
ECE 430L. Pre-School Practicum. 1 Hour.
Students will work in the Minot State University Preschool, with direct application of those concepts learned in ECE 361 and ECE 333. Corequisites: Students must take ECE 361 and ECE 333 at the same time. Course is restricted to Early Childhood Education majors and Elementary Education majors with a Kindergarten Concentration. Admittance to teacher education is required.

ECE 436. Kindergarten Methods and Materials. 3 Hours.
Exploration of curriculum, methods, and materials for use in kindergarten settings. Prerequisite: Student must complete ECE 310 before enrolling in this course.

Elementary Education

The BSEd Program is aligned with the Education Standards and Practices Board of North Dakota grade 1-6 Elementary Education teaching license. Those who wish to teach Kindergarten add the Kindergarten Concentration to become K-6. Those who wish to teach middle school grades 7-8 add the Middle School Concentration and a concentration of 24 credits in the subject areas they wish to teach in grades 7-8.

Electives
Requires either 8 credits from the endorsement options which follow, or 8 credits of other electives.  8
Total Hours  126-128

The methods classes for elementary education candidates must be taken together in one semester. During this time candidates will complete a five week, full day practicum experience in an elementary school.

Optional: Concentrations

Kindergarten Concentration
The kindergarten concentration requires a BSEd with a major in elementary education plus the following coursework:

ECE 333  Preschool Methods and Materials  2
ECE 360  Language Acquisition: The child  3
ECE 335  Early Childhood Education  3
ECE 361  Observation and Assessment ECE  3
ECE 430L  Pre-School Practicum  1
ED 491  Student Teaching Kindergarten  6-8
Total Hours  18-20

Middle School Concentration
The middle school concentration requires a BSEd with major in elementary education or BSEd in secondary education plus the following coursework:

ED 350  Middle School Philosophy & Curriculum  3
ED 402  Content Area & Develop Reading  3
ED 451  Middle School Teaching Strategies  3
PSY 352  Adolescent Psychology  3
  or PSY 255  Child & Adolescent Psychology
Total Hours  12

Reading Concentration
The reading concentration requires a BSEd with a major in elementary education or BSEd in secondary education plus the following coursework:

ED 402  Content Area & Develop Reading  3
ED 440  Remedial Reading  3
ED 441  Clinical Practice in Remedial Reading  3
ELED 352  Foundations of Reading  3
Total Hours  12

This course work provides eligibility for a Title I Credential for elementary education majors. Requirements for Title I Credential for secondary majors will vary based on the content area.

ED Courses
ED 221. Diagnostic Teaching. 1 Hour.
This course provides an introduction to the concept and practice of diagnostic teaching and data driven instruction. Candidates will apply these principles and practices in a 30 hour tutoring experience.
ED 250. Foundations of Education. 2 Hours.
Study of the historical, philosophical, sociological, concepts that have impacted the development of American public schools. Includes an orientation to the teaching profession and a field experience.

ED 250H. Foundations of Education. 2-3 Hour.
Study of the historical, philosophical and sociological concepts that have impacted the development of American public schools. Includes an orientation to the teaching professional and a field experience. Pre-requisite: acceptance into the Honors Program and must be of sophomore, junior or senior status.

ED 260. Educational Psychology. 2 Hours.
Emphasizes learning theory, effective teaching, classroom management and child development as applied to educational settings.

ED 260H. Educational Psychology. 2 Hours.
Emphasizes learning theory, effective teaching, classroom management and child development as applied to educational settings. Pre-requisite: Admitted to the Honor Program and of sophomore, junior or senior status.

ED 260L. Clinical I. 0 Hours.
The initial level clinical within the teacher education program provides candidates with 20 hours of observations in schools related to their major and the content in educational psychology. Prerequisite or Corequisite: Students must be enrolled in or have completed ED 260 before enrolling in this course.

ED 282. Managing the Learning Environment. 2 Hours.
Strategies for successfully creating a positive learning environment in the classroom; strategies for dealing with the disruptive student, strategies for creating positive parental involvement in student learning.

ED 282L. Clinical II. 0.5 Hours.
This entry level clinical provides candidates with 12 hours of experience in a variety of support programs and services in educational settings.

ED 284. Teaching Diverse Learners. 2 Hours.
Adapting teaching strategies to culture, ethnic, linguistic, developmental, and physical differences in the classroom. Collaborating with related professions in individualizing instruction.

ED 284L. Clinical III. 0.5 Hours.
This entry level clinical experience provides candidates with 30 hours of engagement with professional organizations and service learning in projects related to education in schools and the community.

ED 299. Special Topics. 1-8 Hour.

ED 320. Curriculum, Planning & Assessment I. 2 Hours.
The development of curriculum for the public schools and strategies for the planning, delivery, and assessment of instruction. Prerequisite: ED 260.

ED 321L. Clinical IV. 0.5 Hours.
This mid-level clinical experience provides students in teacher education with an extended experience in school working on academic interventions with small groups of students.

ED 322. Curriculum, Planning, and Assessment II. 2 Hours.
The development of assessment processes and tools based on the reciprocal relationship between instruction and assessment, with a focus on data driven interventions and instruction. Prerequisite: Students must complete ED 320 before enrolling in this course.

ED 323L. Clinical V. 0.5 Hours.
This mid-level clinical experience provides students in teacher education with an extended experience in a school working on academic interventions with small groups of students and designing appropriate assessments. Prerequisite: ED 320.

ED 324L. Fall Experience. 0 Hours.
This mid-level clinical experience provides students in teacher education with an extended experience in the fall semester observing and assisting with beginning of the year room design, organization, and classroom management policies and procedures.

ED 350. Middle School Philosophy & Curriculum. 3 Hours.
Acquaints students with the philosophy of middle school education and current practices in middle school curriculum, instruction, and assessment. Prerequisites: ED 320.

ED 380. Technology in Teaching. 2 Hours.
Strategies for the instructional uses of technology including multimedia presentation, e-mail, internet, spreadsheets, data bases, and emerging technologies. Prerequisites: Admission to Teacher Education and ED 320 or CD major or BS in Early Childhood major.

ED 394. Independent Study In Education. 1-4 Hour.

ED 402. Content Area & Develop Reading. 3 Hours.
The study of teaching reading at elementary, middle school, and high levels; ways of responding to literature and other written materials, content area reading for different purposes, application of strategies and study skills, and use of a variety of performance assessments. Prerequisite: Student must complete ED 320 before enrolling in this class.

ED 440. Remedial Reading. 3 Hours.
Diagnosis and treatment of children with reading difficulties. Prerequisites: Admission to Teacher Education and ED 352.
ED 441. Clinical Practice in Remedial Reading. 3 Hours.
Supervised practice in a clinical remedial reading situation. Prerequisites: Admission to Teacher Education and ED 440.

ED 451. Middle School Teaching Strategies. 3 Hours.
Designed to develop the skills and teaching strategies to implement a middle school program. Stresses teaming, thematic curriculum development, advising, and working with parents. Prerequisites: Admission to Teacher Education and ED 320.

ED 480. Clinical Practicum in Education. 1-5 Hour.
This course is designed to give education majors an opportunity to have 30 hours of practical experience. Placements in schools settings are arranged by the Teacher Advisement and Field Placement office. Prerequisites: Admission to Teacher Education, a methods class, and departmental approval.

ED 482. Student Teaching Seminar. 2 Hours.
This seminar will provide support to candidates as they complete the final phase of their teacher education program. Topics relevant to student teaching will be discussed. Corequisite: Students must be enrolled in either ED 491, 492, 493, 494, or 495 at the same time as this course.

ED 483. Student Teaching Seminar. 2 Hours.
This seminar will provide support to candidates as they complete the final phase of their teacher education program. Topics relevant to student teaching will be explored including classroom management, diversity, technology, instructional strategies, assessment, and data driven instruction. Corequisite: Students must be enrolled in either ED 491, 492, 493, 494, or 495 at the same time as this course.

ED 484. Student Teaching Seminar. 2 Hours.
This seminar will provide support to candidates as they complete the final phase of their teacher education program. Topics relevant to student teaching will be explored including classroom management, diversity, technology, instructional strategies, assessment, and data driven instruction. Corequisite: Students must be enrolled in either ED 491, 492, 493, 494, or 495 at the same time as this course.

ED 491. Student Teaching Kindergarten. 4-16 Hour.
Supervised teaching in kindergarten. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 492. Student Teaching, Elementary. 4-16 Hour.
Supervised teaching in elementary schools. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 493. Student Teaching, Secondary. 4-16 Hour.
Supervised teaching in secondary schools. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 494. Student Teaching K-12. 4-16 Hour.
Supervised teaching in both elementary and secondary levels in restricted areas. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 495. Student Teaching, Special Areas. 4-16 Hour.
Supervised teaching in special areas: mentally handicapped and education of the deaf. Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 497. Mentored Clinical Practice. 5-16 Hour.
This course is designed to provide a one-year mentored clinical internship for classroom teachers. Prerequisites include departmental approval and emergency licensure by the Educational Standards and Practices Board of North Dakota.

ED 499. Independent Study Honors Ed. 1-8 Hour.

ELED Courses

ELED 352. Foundations of Reading. 3 Hours.
Principles, techniques, and approaches for implementing a developmental reading program in the elementary school. Prerequisite: Admission to Teacher Education and ED 320 or BS in Early Childhood major or CD major.

ELED 421. Elementary Mathematics Methods. 3 Hours.
Practicum in teaching mathematics to children in cooperative learning groups through the use of manipulative materials, symbolic representations, and problem solving approaches. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning processes. Prerequisites: Admission to Teacher Education, ED 320, MATH 277 and 377 or ECE 314. Corequisites: ELED 422, ELED 423, ELED 424, and SCI 426.

ELED 422. Elementary Language Arts Methods. 3 Hours.
Encompasses curriculum, theory, and methodology in language arts. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning processes. Prerequisites: Admission to Teacher Education and ED 320, ELED 352. Corequisite: ELED 421, 423, 424, SCI 426. Course restricted to Elementary Education and Early Childhood Education majors.

ELED 423. Elementary Reading Methods. 3 Hours.
Principles, techniques, approaches, and materials for teaching reading in grades K through 8. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning processes. Prerequisites: Admission to Teacher Education and ED 320, ELED 352. Corequisite: ELED 421, 422, 423, 424, SCI 426. Course restricted to Elementary education or Early Childhood Education majors.
ELED 424. Elementary Social Studies Methods. 3 Hours.
Curriculum, theory, and methodology in the teaching of social studies. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning process. Prerequisites: Admission to Teacher Education and ED 320. Corequisite: ELED 421, 422, 423, 424 SCI 426. Course restricted to Elementary Education or Early Childhood Education majors.

ELED 425. Elementary Education Practicum. 0 Hours.
This practicum course accompanies the 5 methods classes in elementary education and reflects approximately 150 hours in the elementary classroom.

Instructional Science Concentration

Students may have 12 credits in any combination of the following courses:

Driver and Traffic Safety Concentration  

This program is the only Driver and Traffic Safety program in the state and is one of a very few in the region. Several states have indicated they would recognize this concentration in certifying teachers as driver education instructors. Requirements for this credential would be:  

1. A valid teaching license or eligibility for one.  
2. Completion of the following courses:  
3. DTS 230  Driver & Traffic Safety Education  3  
  DTS 350  Advanced Driving  3  
  DTS 260  Teenage Driving Behavior Problems  2  
  DTS 450  Organization & Administration of Safety Education  2  

Total Hours  10  

Since this program is offered in an online environment our pool of potential students covers ND, SD, Minnesota and Montana. These courses meet the North Dakota ESPB requirements for a minor equivalency.
Teacher Education Policies and Procedures

Teacher Education Mission

The Teacher Education Unit (TEU) at Minot State University focuses on preparing teachers who demonstrate reflective decision-making and the ability to integrate knowledge of content, students and the contexts in which we learn.

Our mission is to prepare educational professionals with:

- knowledge of content, and knowledge of cognitive and developmental sciences,
- performance skills, and
- professional dispositions toward the students, curriculum, and reasons they teach.

This preparation will allow them to work successfully with:

- varied students,
- in changing classroom environments,
- within a global community.

Teacher Education Philosophy

Our philosophy for Teacher Education at MSU is to:

- prepare learners to participate in a democratic society,
- engage learners’ natural curiosity about their communities and the world,
- access and purposefully reflect upon continuously evolving knowledge-bases in their content area(s) and cognitive / developmental sciences,
- construct skills and attitudes necessary for critical thinking and the useful application of knowledge,
- build effective teacher/student/community relationships, and
- demonstrate a sense of agency toward ethical, respectful and responsible behaviors.

THEREFORE, WE BELIEVE:

- Responsibility for the preparation and continuing development of teachers, must be shared by university faculty, educational practitioners, and the state, through its educator licensure standards;
- Teacher Education faculty must model ethical professional practice;
- Teacher Education faculty must be involved in both scholarly activities and the field of practice, to continually clarify and expand the professional knowledge base in both content and pedagogy;
- Teacher Education faculty must systematically evaluate programs and graduates to assure their continued high quality;
- Teacher Education programs must reflect global diversity and prepare professionals to teach in a pluralistic and multicultural society within a global community;
- The education of teachers must consist of a course of study that demonstrates high expectations, including a broad liberal education, academic subject matter preparation, knowledge of cognitive and developmental characteristics (of children, adolescents, young adult learners) and general and content-specific preparation in teaching methodology;
- The Teacher Education program and subsequent graduate study must include a wide variety of school-based experiences that serve as opportunities for candidates to apply pedagogical knowledge, grounded in research from cognitive and developmental science, and reflect on its application;

Teacher Education Goals

To actualize our Conceptual Model, philosophy and beliefs, Teacher Education faculty have applied the standards of the Interstate Teacher Assessment and Support Consortium (InTASC) within our curriculum and TEU Assessment System. The InTASC Standards set high expectations for teacher candidates in subject-area content, learning sciences, and contextual understanding; reflecting our mission and vision:

Learner and Learning

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.
Progressions:

1. The teacher uses understanding of how learners grow and develop (in cognitive, linguistic, social, emotional, and physical areas) to design and implement developmentally appropriate and challenging learning experiences.

2. The teacher uses understanding of learners' commonalities and individual differences within and across diverse communities to design inclusive learning experiences that enable each learner to meet high standards.

**Standard #3: Learning Environments.** The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Progressions:

1. The teacher collaborates with others to build a positive learning climate marked by respect, rigor, and responsibility.

2. The teacher manages the learning environment to engage learners actively.

**Content**

**Standard #4: Content Knowledge.** The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Progressions:

1. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches.

2. The teacher creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

**Standard #5: Application of Content.** The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Progressions:

1. The teacher connects concepts, perspectives from varied disciplines, and interdisciplinary themes to real world problems and issues.

2. The teacher engages learners in critical thinking, creativity, collaboration, and communication to address authentic local and global issues.

**Instructional Practice**

**Standard #6: Assessment.** The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide teacher and learner’s decision-making.

Progressions:

1. The teacher uses, designs or adapts multiple methods of assessment to document, monitor, and support learner progress appropriate for learning goals and objectives.

2. The teacher uses assessment to engage learners in their own growth.

3. The teacher implements assessments in an ethical manner and minimizes bias to enable learners to display the full extent of their learning.

**Standard #7: Planning for Instruction.** The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Progressions:

1. The teacher selects, creates, and sequences learning experiences and performance tasks that support learners in reaching rigorous curriculum goals based on content standards cross-disciplinary skills.

2. The teacher plans instruction based on information from formative and summative assessments as well as other sources and systematically adjusts plans to meet each student’s learning needs.

3. The teacher plans instruction by collaborating with colleagues, specialists, community resources, families and learners to meet individual learning needs.

**Standard #8: Instructional Strategies.** The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Progressions:
1. The teacher understands and uses a variety of instructional strategies and makes learning accessible to all learners.

2. The teacher encourages learners to develop deep understanding of content areas, makes connections across content, and applies content knowledge in meaningful ways.

Professional Responsibility

**Standard #9: Professional Learning and Ethical Practice.** The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

**Progressions:**

1. The teacher engages in continuous professional learning to more effectively meet the needs of each learner.

2. The teacher uses evidence to continually evaluate the effects of his/her decisions on others and adapts professional practices to better meet learners' needs.

3. The teacher practices the profession in an ethical manner.

**Standard #10: Leadership and Collaboration.** The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

**Progressions:**

1. The teacher collaborates with learners, families, colleagues, other school professionals, and community members to ensure learner growth.

2. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning and to advance the profession.

**Teacher Education Vision**

The vision we hold of our graduates is embodied in the Teacher Education Unit’s Conceptual Model, Teachers as a Reflective Decision-makers, focusing on Action, Reflection and Knowledge (ARK).

**Teachers who act** are decision-makers who model professional practice, who have a sense of purpose and agency to engage and empower students within inclusive communities of learners. They value, encourage, and monitor the sustained, active involvement of every student in carefully planned, meaningful learning experiences. They collaborate willingly with colleagues and other professionals on educational issues, to plan and implement practices informed by professionally grounded evidence. They offer and receive support in continuing to develop as an expert teacher.

**Teachers who reflect** are decision-makers who evaluate relevant choices for teaching, decide and act on the preferred choices. They continually reevaluate their choices in light of their effectiveness, evidenced by students’ responses and achievement, and by current literature and research. They reflect on cognition and learner development in regard to how students process information in the mind/brain, and the influences of the contextual environments in which students live. They hold the perspective of improving students’ future success, and life-long learning as an engine driving the common good of society.

**Teachers who know** are decision-makers who have acquired a strong knowledge base in subject-area content, cognitive and developmental sciences, and pedagogy. They understand that these knowledge-bases interact to help students construct meaning and useful knowledge. They understand the importance of continually striving for currency across these areas. This multi-disciplinary knowledge base provides information for reflection and action in teaching situations as well as the skills and attitudes necessary to ensure continued growth.

**Professional Dispositions**

In addition to the InTASC Standards, MSU Teacher Education Unit faculty has designed six professional dispositions statements which embody how we expect our graduates to be disposed toward the students, curriculum, and reasons they teach. Candidates and graduates should be:

1. **The teacher candidate demonstrates respect:**

   **Actively observes, recognizes, respects, and responds to all learners and their families (the diversity present in a classroom.)**

2. **The teacher candidate demonstrates communication and collaboration:**

   **Recognizes, values, and seeks out the voices of various stakeholders for the ultimate purpose of cooperation and collaboration inside and outside of the classroom.**

3. **The teacher candidate demonstrates a commitment to complexity of content:**
**Actively seeks to understand content at a deeper, fuller level and seeks the same for students**

D. The teacher candidate demonstrates a commitment to student learning:

**Actively engages learners in their own learning and uses data as an impetus to make decisions, both instructional and otherwise, short-term and long-term.**

E. The teacher candidate demonstrates reflection:

**Engages in thinking about teaching and learning, evaluating what is working and what is not working, and actively seeking to improve practice and student learning**

F. The teacher candidate demonstrates responsibility:

**Takes responsibility for teaching strengths and weaknesses, as well as student learning and non-learning.**

Teacher Advisement and Field Placement Office

The Teacher Advisement and Field Placement Office (TAFP) serves all candidates enrolled in Teacher Education programs across campus. This office is responsible for regularly scheduled group meetings held throughout each academic year (Student Teaching orientations, and Student Teaching seminars). In these meetings, candidates are specifically coached regarding admission, retention, and exit policies, as well as various application procedures and deadlines associated with MSU’s Teacher Education program and certification. Office members are available for candidates on an individual basis to answer questions related to their progress through the Teacher Education program. In addition to advisement, the office is responsible for coordination of all Teacher Education field-based experiences in partnership with the schools, including practicum arrangements and student teaching placements.

Admission to Teacher Education

The candidate must submit a completed admissions packet prior to a Teacher Education Administrative Council (TEAC) admission meeting. These meetings are held the week prior to the semester registration time and at the end and the beginning of each semester. The packet will contain the following:

1. Application form.
   One of the requirements listed on the application form is that the Teacher Education Unit must be able to verify satisfactory grade point averages through previous semesters:
   a. Minimum 2.50 GPA on the Communications portion of General Education requirements (ENGL 110 College Composition I, ENGL 120 College Composition II, COMM 110 Fundamentals of Public Speaking) with no grade lower than “C”.
   b. Minimum Cumulative GPA of at least 2.75
   c. Minimum GPA in the teaching major and teaching minor of at least 2.5.
   Students who have met all other requirements for Admission to Teacher Education and do not hold an overall GPA of 2.75, but do demonstrate a 3.00 GPA in their last 45 semester hours of study, may petition for special review by TEAC for admission to Teacher Education. Students granted admission by TEAC under this provision must demonstrate an overall GPA of 2.75 prior to Student Teaching.

2. Must be enrolled in, or have completed ED 260L.

3. Satisfactory basic skills, demonstrated by the Core Academic Skills for Educators Test (CASE) scores. A minimum composite score of 466 based on the Current Qualifying Scaled Scores for Reading (156), Writing (160), and Mathematics (150), provided the candidate has met the passing score currently in place for two of the three tests.

4. Must pass a background clearance check or verify that a background clearance is required for a job or volunteer position.

The advisor(s) and department chair(s), upon verifying all of the required information in TK20, sign the verification form, and the student can upload the verification form into TK20.

The Teacher Education Administrative Council will grant or deny admission to Teacher Education prior to registration for the following semester. After admission to Teacher Education, the candidate may register for restricted education courses provided all other prerequisites are met.

1. Candidates who have been certified for teaching in another state or province may be admitted to Teacher Education without completing all of the above requirements; however, each case must be recommended to the Teacher Education Administrative Council (TEAC) by the department chair of the candidate’s major area of study.

2. Candidates applying for post baccalaureate licensure must work with the Teacher Education and Human Performance Department to complete a plan acceptable to the University and the North Dakota Education Standards and Practices Board.

3. Individuals seeking ‘licensure-only’ student teaching placements, in which they are not receiving a degree from Minot State University, but MSU will transcript their student teaching credits, must take the core methods in their program area with MSU. This requirement exists to assess required academic and pedagogical competencies prior to placement in a school. Courses designated as ‘core methods’ are defined by each program area, and assessments parallel those required of degree candidates.
Application for Student Teaching

Prospective student teachers should make application for student teaching nearly a full semester in advance of their expected placement. Application materials and instructions are available from the Teacher Advisement and Field Placement office, Swain Hall, 218B. Candidates should check current semester schedule booklets, the Red and Green, the TAFP website at http://www.minotstateu.edu/teu/student_teaching.shtml, and the campus bulletin boards for relevant published deadlines and announcements regarding student teaching. Only completed applications, submitted by the published deadline, will be processed and considered for approval for student teaching.

Retention in Teacher Education Criteria for Retention in Teacher Education:

1. Teacher Education candidates must maintain cumulative grade point averages of at least 2.50 in all courses in the Teacher Education core, and overall 2.75. The candidate must receive at least a “C” grade in every course of the Teacher Education core and methods courses that require admission to Teacher Education. A grade below a “C” in a Teacher Education core course that does not require admission to teacher education may not place a candidate on probation but prior to student teaching candidates must obtain a grade of not less than a “C” in all core courses. At the end of each semester, grades will be reviewed and if the stated conditions are not met the candidate is placed on probation. This probation must be remedied by the end of the next semester or the candidate is automatically dropped from Teacher Education. A candidate on probation will not be allowed to student teach. See section on “Effect of Probationary Status.”

2. The candidate must meet any additional departmental requirements. Students are requested to check with their advisors concerning any additional departmental requirements.

3. The candidate is expected to demonstrate the dispositions of a good teacher throughout the program by demonstrating commitment to: respect, communication and collaboration, complexity of content, student learning, motivated, dedicated, responsible, reflection, and responsibility. Candidates who display inappropriate dispositions are to be reported by faculty or field based supervisors. Prior to filing the report faculty would be expected to discuss their concerns about the candidate’s disposition with the candidate. If discussion of the concern does not remedy the problem then an inappropriate dispositions report is filed. Both the candidate and reporting person should sign the report. If the candidate is unavailable (eg. due to excessive absences) the report may be filed without the candidate’s signature. The written report is filed with the Chair of Teacher Education and Human Performance who will forward copies to the candidate’s advisor or department Chair. The form will describe the inappropriate disposition or behavior and also indicate the level of urgency in remedying the situation. Any report of inappropriate dispositions will require that the reporting faculty member be notified of an advisor/candidate action plan to remedy the concerns. In the case of multiple reports of inappropriate dispositions or an egregious incident the candidate will be required to meet with the Teacher Education Administrative Council (TEAC) which will determine what action needs to be taken. Action may include an advisor/candidate plan to remedy concerns, probation with a plan to remedy concerns, or removal from the program. In the event of multiple reports or an egregious incident a “plan follow through” report must be filed with TEAC prior to recommendation for licensure.

4. The candidate must maintain continuous enrollment. Candidates who are not enrolled at the university for more than two consecutive semesters (excluding summer semesters) will be dropped from Teacher Education and must be re-admitted to Teacher Education before proceeding with any coursework requiring admission to Teacher Education.

Effect of Probationary Status

1. The candidate on probation must work to remedy the causes of probation and may not take any further coursework requiring admission to Teacher Education other than courses that need to be retaken. This should involve consultations with the faculty advisor.

2. Following the probationary semester the Teacher Education Administrative Council (TEAC) will review the candidate’s status. This review will include but not be limited to: the grade point averages, dispositions, recommendations from faculty, and the previous probation history. The TEAC will change the candidate’s status to fully admitted, or will drop the student from the Teacher Education program. The candidate will be informed of the decision at the end of the semester. A candidate dropped from Teacher Education will be dropped from any course requiring admission to Teacher Education.

3. Candidates on probation may not apply for student teaching.

Procedure for Readmission to Teacher Education

If a candidate was dropped from Teacher Education for failure to enroll for more than two consecutive semesters, the candidate must meet with his/her advisor and be recommended for reinstatement by his/her advisor and the department chair.

If a candidate was dropped from the program for other reasons, he/she must go through the full admissions process, but will not be required to duplicate relevant items from the first admission.

Exit Requirements from Teacher Education

1. Successful completion of all coursework outlined by the Teacher Education Unit and the major department.

2. Successful completion of student teaching including required documentation.

3. Completion of required Praxis II and PLT tests.

4. Make formal application for graduation.
Praxis II

All candidates must complete the Praxis II content and PLT exams relative to their major to be eligible for graduation. Individual departments may use their discretion in determining the most effective placement of the testing within their sequence of courses for the major.

To be eligible for licensure in ND, all candidates in core areas as defined by ESEA (Elementary and Secondary Education Act) must demonstrate satisfactory basic content knowledge in their major as indicated by their Praxis II test(s) scores. K-12 majors must successfully complete the Elementary PLT or the Secondary PLT plus their respective Praxis II exams to meet licensure requirements.

Candidates who do not meet or exceed the minimum Praxis II or PLT test scores established by the North Dakota Education Standards and Practices Board may have their degree posted provided all other degree requirements are met. Candidates will be reminded that without passing the Praxis II and PLT exams they will not be provided with a letter of support indicating that they have met ND standards for licensure.

Praxis II and Teaching Minors

A teaching minor in a “core” subject area requires that the candidate successfully complete the Praxis II examination to obtain a major equivalency that allows them to teach in that subject area. A teaching minor in a “non-core” subject area allows the candidate to be licensed to teach in that area.

Licensure

The Head of the Teacher Education Unit recommends licensure based on the candidate meeting the guidelines established by the Education Standards and Practices Board of North Dakota.

Course Descriptions

ACCT 200. Elements of Accounting I. 3 Hours.
Basic principles of the complete accounting cycle with emphasis on current assets; property, plant, and equipment; and current liabilities. Prerequisite: Math 103.

ACCT 201. Elements of Accounting II. 3 Hours.
A continuation course of acct 200 with emphasis on partnerships, corporations, and management accounting. Prerequisite: Student must complete ACCT 200 before enrolling in this class.

ACCT 299. Special Topics In Accounting. 1-8 Hour.

ACCT 301. Intermediate Accounting I. 3 Hours.
 Begins with a review of the accounting process and the conceptual framework underlying financial accounting. It proceeds to an in-depth study of cash, time value of money, receivables, and inventory. Prerequisites: ACCT 201 and BOTE 247.

ACCT 302. Intermediate Accounting II. 3 Hours.
Continues the intermediate sequence with in-depth coverage of operational assets (tangible and intangible), liabilities (current and long-term), stockholders equity, and investments. Prerequisite: Acct 301.

ACCT 303. Intermediate Accounting III. 3 Hours.
ACCT 303 Intermediate Accounting Ill 3cr. Concludes the intermediate sequence with in-depth coverage of the statement of cash flow, pensions, and post retirement benefits, leases, earnings, per share, financial statement analysis, accounting for income taxes, accounting changes and error analysis, revenue rcognition, and financial reporting. Prerequisite: ACCT 302.

ACCT 315. Legal Environment of Business. 3 Hours.
Includes the nature and function of law; contracts and private property as basic concepts in free enterprise; the legal system and evolution of attitudes and law regarding marketing functions and governmental regulation imposed on business activities. Prerequisite: Restricted to students with sophomore, junior or senior status.

ACCT 321. Managerial Accounting. 3 Hours.
Emphasizes structuring and analyzing accounting data for management decisions related to manufacturing, merchandising, and service entities. Prerequisite: Student must complete ACCT 201 before enrolling in this class. Corequisite: Student must complete BADM 301 before or at the same time as this course.

ACCT 322. Advanced Managerial Accounting. 3 Hours.
Addresses cost allocation, inventory methods, and concepts, process and activity based costing systems, standard costing, and performance measures. Prerequisite: ACCT 321.

ACCT 325. Government/Not-For-Profit Accounting. 3 Hours.
Covers accounting principles for state and local governmental units, universities, hospitals, and other not-for-profit organizations. Topics include budgetary accounting, the preparation of reports and statements, and the use of special funds. Prerequisite: Student must complete ACCT 301 before enrolling in this class.
ACCT 331. Business Law I. 3 Hours.
Topics include contracts (formation, performance, rights, and remedies), negotiable instruments, and legal matters relating to the financial banking community. Prerequisites: Junior or senior status and consent of instructor. Prerequisite: Restricted to students with junior or senior status.

ACCT 332. Business Law II. 3 Hours.
Topics include Uniform Commercial Code (Art. 2, sales contracts), Uniform Commercial Code (Art. 9, secured transactions), employment/agency law. Prerequisite: ACCT 331.

ACCT 351. Fraud Examination. 3 Hours.
This course is designed to provide the student with an introduction to the skills necessary to detect, investigate, and prevent fraud, and white-collar crime. The material covered in this course should be of interest to accountants, auditors, fraud investigators, loss prevention specialists, attorneys, educators, criminologists, or business owners/managers. The purpose of this course is to 1) educate the student about both the pervasiveness of and the causes of fraud and white-collar crime in our society, 2) explore the methods of fraud detection, investigation, and prevention, and 3) increase the student’s ability to detect material financial statement fraud. Prerequisite: ACCT 200.

ACCT 360. Accounting Information Systems. 3 Hours.
Emphasizes how accounting information systems function in today’s business environment. Manual and computer systems will be used to study the processes and procedures by which an organization’s financial information is accumulated, classified, processed, analyzed, and communicated. Topics include business cycles, controls, integrated accounting software, spreadsheets, and relational databases. Prerequisites: Students must complete ACCT 201 and BOTE 247 before enrolling in this class.

ACCT 375. Principles of Energy Accounting. 3 Hours.
Provides a study of the accounting and taxation principles and theories relating to the energy industry. The course will focus on specific accounting entries, presentation on and impact to financial statements, and taxation concepts relating to oil, gas, and other energy companies. Prerequisite: ACCT 201.

ACCT 394. Independent Study General Acct. 1-4 Hour.

ACCT 401. Advanced Accounting I. 3 Hours.
Advanced Accounting I addresses issues related to business combinations and consolidated financial statements as well as partnership accounting. Prerequisite: ACCT 302.

ACCT 411. Taxation of Individuals. 3 Hours.
Provides a study of federal taxation principles and theories relating to individuals with emphasis on the determination of gross income and taxable income. Taxation of self-employment income will be examined and taxation of property transactions is introduced. Students apply these principles by preparing federal income tax returns, and by performing tax research. Prerequisite: Student must complete ACCT 201 before enrolling in this class.

ACCT 412. Taxation of Property Transactions and Business Entities. 3 Hours.
Provides a study of federal taxation principles and theories relating to corporations, partnerships, LLCs and S Corporations. Taxation of property transactions will be studied thoroughly. Students will apply these principles by preparing various types of federal income tax returns and by performing tax research and tax planning. Prerequisite: Student must complete ACCT 201 before enrolling in this class.

ACCT 415. Energy Law. 3 Hours.
Energy Law is an ever-changing discipline that emphasizes how both individuals and businesses interact with the law related to the energy industry on a day-to-day basis. This course will focus on the relationships between energy corporations and the individual land owner or service provider as well as the relationships between environmental laws and production. Prerequisite: Student must complete ACCT 300 before enrolling in this class.

ACCT 430. Auditing/Assurance Concepts & Practices. 3 Hours.
Introduces audit theory, standards, responsibilities, and processes. Study of audit principles and practices including evidence gathering, internal controls, sampling and testing, report writing, ethics and legal liabilities. Prerequisite: Student must complete ACCT 302 before enrolling in this class.

ACCT 431. Advanced Auditing & Assurance. 3 Hours.
Discusses compilations, reviews, examinations and other assurance services. Explores contemporary auditing and assurance issues. Prerequisite: Student must complete ACCT 430 and MATH 210 before enrolling in this class.

ACCT 480. Controllership. 3 Hours.
Examines the role of a controller as a vital member of an organization’s management team. Students exercise judgment in solving accounting-related problems by synthesizing and applying knowledge gained from previous business coursework. Focus will be placed on cost management, budgeting, organizational behavior, ethics, cash management, policy-making, internal control, performance measurement, compensation and benefits accounting information systems, and tax compliance. Prerequisites: Student must complete ACCT 321, ACCT 430, have senior status and complete the College of Business core courses before enrolling in this class.

ACCT 494. Independent Study Honors Acct. 1-8 Hour.

ACCT 495. Seminars in Leadership Development. 3 Hours.
Special topics in leadership including concepts, principles, and processes to facilitate effective, compassionate, and ethical leadership within the leader/follower relationship. The course will the relevance of self-awareness, self-management, environmental situations, social awareness and responsibility, and relationship management in authentic leadership. Prerequisites: Restricted to College of Business majors and minors and students with junior or senior status. Instructor consent is required.
ACCT 497. Accounting Internship. 1-12 Hour.
Refers to supervised professional experience in public, industrial, governmental, or non-profit accounting. Students must meet standards set by both the employer and the Accounting Department. A maximum of 2 credits count toward the major with the remaining credits counting as electives. This course is restricted to accounting majors. Consent of program coordinator required.

ACCT 499. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offering and current topics.

ARB 101. Beginning Arabic I. 4 Hours.
For beginners or those entering with one or two years of high school Arabic. Introduction to listening, speaking, reading, writing, and culture.

ARB 102. Beginning Arabic II. 4 Hours.
A continuation of Beginning Arabic I. Prerequisite(s): Arabic 101.

ARB 201. Intermediate Arabic I. 4 Hours.
Review of basic Arabic with increased practice in conversation, reading and writing. Prerequisite(s): Arabic 102, three years of high school Arabic or consent of instructor.

ARB 202. Intermediate Arabic II. 4 Hours.
Continuation of Arabic 201. Prerequisite(s): Arabic 201.

ARB 220. Arabic Film. 3 Hours.
An exploration of socio-cultural, historical, and political issues in non-mainstream Arab cinema. Supplementary readings in English translation. Films projected in Arabic, with English subtitles. Taught in English.

ARB 299. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics.

ARB 340. Conversation & Composition I. 3 Hours.
Advanced practice in oral and written skills using cultural reading and other media. Prerequisite(s): ARB 202 or consent of instructor.

ARB 341. Conversation & Composition II. 3 Hours.
Advanced practice in oral skills using cultural reading and other media. Prerequisite(s): ARB 202 or consent of instructor.

ARB 342. Intro to Arabic Literature. 3 Hours.
Designed to improve language skills with an emphasis on reading and enhance the students' ability to understand Arabic literature. Includes study of poetry, drama, and narrative form Arabic speaking countries. Prerequisite(s): ARB 302.

ARB 343. Arabic Culture. 3 Hours.
Readings in culture and society of the Arab world.

ARB 394. Independent Studies. 1-3 Hour.
Independent or directed study of special topics in the study of Arabic. Arabic majors or minors only. Prerequisite(s): ARB 342.

ARB 402. Genres. 3 Hours.
Study of a major genre or period in Arabic Literature. Topic varies from year to year. Prerequisite(s): ARB 343.

ARB 450. Senior Capstone in Arabic. 3 Hours.
Individual research project on a cultural topic approved by the instructor one semester prior to enrollment in the course. Restricted to Arabic majors.

ARB 496. Study Abroad. 1-18 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. May count towards the Arabic major.

ARB 499. Special Topics. 3 Hours.
Varying areas of content, issues, or themes in the study of Arabic. Repeatable for credit as topics change. Prerequisite(s): ARB 340 or consent of instructor.

ART 101. Introduction to Studio Art. 3 Hours.
An introductory studio art course to familiarize the non-art major with the basic painting, printmaking, sculptural, jewelry, and ceramic processes. Six studio hours per week.

ART 110. Introduction to Visual Arts. 3 Hours.
Study and appreciation of visual arts. Three hour lecture.

ART 112. Print, Web, and Social Media Graphics. 3 Hours.
This course introduces students to forms and techniques of social media graphics. Students will explore stylistic elements that are documented in current trends and established methods of design. Students will learn to craft and analyze a variety of inventive texts for traditional and non-traditional forms of print, web and social media.

ART 122. Two-Dimensional Design. 3 Hours.
A basic course in the study of two-dimensional design for the studio artist. Six studio hours per week.

ART 124. Three-Dimensional Design. 3 Hours.
A basic course in the study of three-dimensional design for the studio artist. Six studio hours per week.
ART 130. Drawing I. 3 Hours.
Introduction to basic drawing techniques through a variety of materials. Six studio hours per week.

ART 140. Arts & Crafts. 3 Hours.
Instruction including, but not limited to, basic techniques in fibers, glass and metal processes. Six studio hours per week.

ART 180. Digital Photography. 3 Hours.
Introduction to digital photography. Digital SLR camera and tripod required. Six studio hours per week.

ART 191. Visual Arts Seminar I. 0.5-1 Hour.
Introduction of departmental requirements, procedures and opportunities. Fall and Spring semesters required for all art majors. Restricted to Art and Art Ed majors and minors.

ART 201. Art Methods for Elementary Education. 3 Hours.
Methods of teaching art in elementary education. Six studio hours per week.

ART 204. Jewelry and Small Sculpture. 3 Hours.
Introduction to basic jewelry and small sculpture techniques, design, and materials. Six studio hours per week.

ART 207. Digital Tools: Imaging & Print. 3 Hours.
An exploration of Adobe's Photoshop, Illustrator and Indesign. Covers software programs and peripherals designed for imaging and print, building basic skills and knowledge of computer programs. Prerequisite(s): ART 112.

ART 210. Art History I. 3 Hours.
A survey of western art from Paleolithic to Renaissance.

ART 211. Art History II. 3 Hours.
A survey of western art from Renaissance to present.

ART 212. Non-Western Art History. 3 Hours.
An integrated survey of the art of non-western cultures.

ART 213. Graphic Design I. 3 Hours.
Introduction to the elements and practice of typography with emphasis on typefaces and letterforms in graphic design. Six studio hours per week. Prerequisites: ART 112, ART 207, ART 122, ART 123, and 130 or consent of instructor.

ART 214. Graphic Design II. 3 Hours.
Application of problem solving skills for visual communications as applied to the history of graphic design. Six studio hours per week. Prerequisite: ART 213 or consent of instructor.

ART 220. Painting I. 3 Hours.
Introduction to basic painting through a variety of materials. Six studio hours per week. Prerequisite: ART 122, ART 123 and ART 130.

ART 225. Water Media I. 3 Hours.
Introduction to basic watermedia painting to the studio artist. Six studio hours per week. Prerequisite: ART 122, ART 123 and ART 130, or consent of instructor.

ART 231. Figure Drawing I. 3 Hours.
Introduction to basic figure drawing with a live model. Six studio hours per week. Prerequisite: ART 122 and ART 130, or consent of instructor.

ART 250. Ceramics I. 3 Hours.
Introduction to basic ceramic techniques. Six studio hours per week.

ART 265. Sculpture I. 3 Hours.
Introduction to basic sculpture materials and techniques. Six studio hours per week. Prerequisite: ART 122, ART 123, and ART 124, or consent of instructor.

ART 266. Sculpture II. 3 Hours.
Continuation of ART 265. Four studio hours per week. Emphasis on independent development of technique and style. Prerequisite: ART 265 or consent of instructor.

ART 270. Printmaking I. 3 Hours.
Introduction to basic printmaking techniques and materials: relief, monotype, and screen printing. Six studio hours per week. Prerequisites: ART 122, ART 123 and 130.

ART 271. Printmaking II. 3 Hours.
Basic exploration in intaglio and lithography printing techniques. Six studio hours per week. Prerequisites: ART 122, 123, and 130 or consent of instructor.

ART 274. Paper Works. 3 Hours.
Introduction to works on or of paper including book arts, papermaking, and letterpress printing. Six studio credits per week. Prerequisites: Art 122 and 123 or instructor consent.

ART 280. Traditional Photography. 3 Hours.
Introduction to traditional photography. SLR film camera and tripod required. Six studio hours per week.
ART 291. Visual Arts Seminar II. 0.5-1 Hour.
A continuation of VA Seminar, including second year portfolio reviews. Fall and Spring semesters required for all Art majors. Restricted to Art and Art Ed majors and minors. Prerequisite: Art 191 or consent of instructor.

ART 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit.

ART 299. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or on time offerings of current topics. Prerequisite: Consent of instructor.

ART 300. Modernism. 3 Hours.
A survey of Modernism in Art.

ART 311. Postmodernism. 3 Hours.
A survey of Postmodernism in art.

ART 312. History of Architecture. 3 Hours.
A survey of architectural history from prehistory to the present.

ART 313. Women in the Visual Arts. 3 Hours.
A study of the impact of women in the visual arts throughout history.

ART 314. Art History Topics. 3 Hours.
A survey of a discipline's history from prehistory to the present. Topics are variable. Prerequisite: Art 210 and Art 211 or consent of instructor.

ART 315. Native American Art. 3 Hours.
Art and crafts of the indigenous people of the America’s (North and South) through a study of their artifacts and history from pre-history to the present.

ART 322. Graphic Design III. 3 Hours.
An advanced exploration of graphic design in the contemporary digital environment, culminating in the execution of a professional portfolio. Six studio hours per week. Prerequisite: ART 214.

ART 323. Illustration Techniques. 3 Hours.
Introduction to materials, techniques, and problem solving skills used in illustration. Six studio hours per week. Prerequisite: ART 122, ART 123, and ART 130 or consent of instructor.

ART 325. Water Media II. 3 Hours.
Continuation of ART 225 with renewed emphasis on development of an individualized technique, style, and concept through acrylic as well as transparent watercolor. Six studio hours per week. Prerequisites: ART 123 and 225.

ART 331. Advanced Drawing. 3 Hours.
Advanced problems in drawing including still-life, figure drawing and contemporary style. Six studio hours per week. Prerequisites: ART 231 or consent of instructor.

ART 332. Figure Drawing II. 3 Hours.
Advanced problems in figure drawing with a live model. Six studio hours per week. Prerequisite: ART 231 or consent of instructor.

ART 333. Painting II. 3 Hours.
Continuation of ART 220 with emphasis on independent development of technique, composition, and style. Six studio hours per week. Prerequisite: ART 220 or consent of instructor.

ART 334. Painting III. 3 Hours.
Continuation of ART 333. Six studio hours per week. Prerequisite: ART 333 or consent of instructor.

ART 345. Introduction to Museum Studies. 3 Hours.
This course introduces students to the history, key debates, and contemporary practices of museums and galleries with a focus on exhibit design, education, conservation and collection management.

ART 351. Ceramics II. 3 Hours.
Advanced development of the individual ceramist-teacher in studio experience related to clay bodies, glazes, and firing procedures. Six studio hours per week. Prerequisite: ART 250 or consent of instructor. Entry level specialization and 100 level core foundations.

ART 352. Ceramics III. 3 Hours.
Continuation of ART 351. Six studio hours per week. Emphasis on independent development of the technique and style. Prerequisite: ART 250 and 351.

ART 362. Printmaking III. 3 Hours.
Continuation of 270 and 361 with emphasis on independent development of technique, composition, and style. Six studio hours per week. Prerequisite: ART 270 or 361 or consent of instructor. Entry level specialization and 100 level core foundations.

ART 380. Advanced Photography. 3 Hours.
Advanced exploration of photography with emphasis on independent development of technique, composition and style. Six studio hours per week. Prerequisite(s): ART 281 or ART 382.
ART 382. Alternative Photography. 3 Hours.
Course will encourage exploration and production in photographic techniques not studied in beginning photography courses, including alternative printing techniques. Repeatable to six credits. Six studio hours per week. Prerequisite: ART 180 or consent of instructor.

ART 390. Art Methods. 4 Hours.
Discussion and interactive experiences developing a K-12 art curriculum. Peer teaching and classroom management, organizational techniques, and practicum. Prerequisites: ART 122, 130, 140, 201 and admitted into teacher education.

ART 391. Visual Arts Seminar III. 0.5-1 Hour.
A continuation of VA seminar, including a junior group exhibition. Fall and Spring semesters required for Art majors. Restricted to Art and Art Ed majors and minors. Prerequisite: Art 291 or consent of instructor.

ART 420. Advanced Study in Art History. 1-6 Hour.
Open to advanced art students for independent research in art history. A preliminary outline of proposed research is required. This course is restricted to art majors or minors. Prerequisite(s): Consent of instructor.

ART 422. Advanced Digital Design. 3 Hours.
An advanced study of contemporary software and theory used in digital communication. Prerequisites: Art 112 and Art 207 or consent of instructor.

ART 491. Visual Arts Seminar IV. 0.5-1 Hour.
A continuation of VA seminar. Fall and Spring semesters required. Restricted to Art and Art Ed majors and minors. Prerequisite: Art 391 or consent of instructor.

ART 492. Capstone Experience. 3 Hours.
Provides for individual research culminating in a capstone exhibition, portfolio, paper or project with guidance from a capstone committee. Prerequisite: ART 391 or consent of instructor. Co-requisite: ART 491 or consent of instructor. Student must be at junior or senior status before enrolling.

ART 494. Directed Research in the Studio Arts. 1-4 Hour.
This course provides flexible instruction in studio experiences at an advanced level. Consent of instructor. Variable credit 1-4.

ART 496. Study Tour. 1-6 Hour.
MSU faculty-led study trips to appropriate locations. The course requirements will include additional requirements beyond the travel itself and may be repeated for credit.

ART 497. Art Internship. 1-12 Hour.
This course is offered for variable credit. It is an internship to gain further experience in student's selected option. Restricted to art majors and minors.

ART 499. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics. Prerequisite: consent of instructor.

ART 91. Visual Arts Seminar V. 0 Hours.
A continuation of VA seminar. Restricted to art majors and minors. Mandatory for all art majors after completion of ART 491.

ART 95. Art Experience. 0 Hours.
Students will assist and contribute to an art experience. The course experience will require student to facilitate and support the production of art by working with guest artists and/or contributing art to an event.

ASC 87. College Writing Prep. 3 Hours.
A precollege writing course that prepares students for ENGL 110. Provides instruction in writing error-free sentences, solid paragraphs and well-organized essays. No college credit is obtained for this course.

ASC 88. Composition Lab. 1 Hour.
This course provides supplemental and developmental instruction for students taking ENGL 110 and is taken during the same semester as ENGL 110. No college credit is obtained for this course. Prerequisite: ACT score of 14-17 or qualifying Accuplacer WritePlacer score.

ASC 92. Beginning Algebra. 3 Hours.
This course is a beginning level algebra course. Topics covered include fundamental operations, fractions, factoring, radicals, exponents, equations, and inequalities. This class does not satisfy college graduation requirements for math.

ASC 93. Intermediate Algebra. 4 Hours.
Topics of study include properties of the real number system, factoring, linear and quadratic equations, polynomial and rational expressions, inequalities, systems of equations, exponents, radicals, function notation, rational equations, and absolute value. Graduation credit is not given for this course. Prerequisite: Students must have an ACT math subtest score of 18-20 or an SAT score of at least 440-510. Corequisite: Students must enroll in ASC 093L if ACT math subtest score is 14-17 or SAT score is less than 440.

ASC 93L. Intermediate Algebra Lab. 2 Hours.
Intermediate level lab provides students in ASC 093 with an extended experience in a lab setting working on algebra skills. Lab meets 4 hours per week. This class is S/U. Required Corequisite to ASC 093 if ACT math subtest score is from 14 - 17. Withdrawing from this class will also withdraw you from ASC 093.
ATR 128. Introduction to Athletic Training. 3 Hours.
The purpose of this course is to familiarize student with the profession of athletic training. Students will be introduced to the NATA, the NATA Code of Ethics, the certification process, continuing education, and the NATA Educational Proficiencies. Course topics include epidemiology of injuries, PPE, and program overview.

ATR 129. A T Clinical Experience I. 1 Hour.
Students will be assigned to clinical rotations during this clinical course. The competencies and clinical integrated proficiencies for this clinical course are based on content knowledge and psychomotor skills taught in previous courses. The emphasis this clinical course includes the content areas of acute care of injury and illness, clinical evaluation of basic injuries, prevention, and health promotion, which includes risk management/prevention, basic healthcare administration, basic psychosocial skills/knowledge, professional development and responsibility, and to a limited extent, nutrition. Evidence based practice is embedded throughout the entire curriculum. Students in ATR 129 clinical experience will have prior experience in ATR 208. Prerequisite: Students must complete ATR 128, have CPR certification, and be admitted to the Athletic Training program before enrolling in this course.

ATR 206. Medical Conditions. 3 Hours.
The purpose of this course is to provide students with the knowledge and skills to recognize and treat common medical conditions.

ATR 207. Prevention & Care of Injuries. 2 Hours.
Provides a basic understanding of common injuries. Focus will be on the evaluation and course of treatment of the injuries presented.

ATR 223. A T Clinical Experience II. 1 Hour.
Students will be assigned to clinical rotations during this clinical course. Students in the ATR 223 Clinical Experience will have prior experience in KIN 431, ATR 206, and ATR 410, in addition to the courses listed in the ATR 129 Clinical Experience. The competencies and clinical integrated proficiencies for this clinical course are based on content knowledge and psychomotor skills taught in previous courses. The emphasis of this clinical course includes content areas of clinical evaluation of medical conditions and injuries, prevention and health promotion, which includes risk management/prevention, basic healthcare administration, therapeutic intervention, including pharmacology and modalities. Evidence based practice is embedded throughout the entire curriculum. Prerequisites: Students must take ATR 129, 206, 410, and KIN 431, and sophomore status enrolling in this class.

ATR 304. Therapeutic Exercise. 3 Hours.
The purpose of this course is to provide a background rehabilitation, healing, physics, examination, and assessment. The course will discuss techniques of therapeutic exercise, performance enhancement, and application to regions and conditions of the body. Prerequisite(s): ATR 410 and KIN 431.

ATR 307. Head, Neck, & Spine Evaluation. 3 Hours.
The purpose of this course is to provide students with the knowledge and skills to perform evaluation of head, neck and spine injuries or conditions. Students will be able to perform an observation, take a history, palpate, perform MMT, perform a neurological evaluation, evaluate ROM, perform special and functional tests for the head, neck, and spine. Prerequisite(s): ATR 207, KIN 431, and BIOL 220.

ATR 308. Biomechanics. 2 Hours.
The purpose of this course is to introduce students to biomechanics. Course topics include terminology, the quantitative and qualitative perspective of biomechanics. The study of biomechanics in this class will involve the study of the body's architecture with the body's abilities to function in motion. Prerequisite(s): ATR 207, KIN 431, and BIOL 220.

ATR 323. A T Clinical Experience III. 2 Hours.
Students will be assigned to clinical rotations during this clinical course. Students in the ATR 323 Clinical Experience will have taken KIN 270 in addition to the required courses for ATR 129 and ATR 223. The competencies and clinical integrated proficiencies for this clinical course are based on content knowledge and psychomotor skills taught in previous courses. The emphasis of this clinical course includes the content areas of clinical evaluation of medical conditions, injuries with experience in evaluation of upper and lower extremity injuries, prevention and health promotion, which includes risk management/prevention/nutrition, basic healthcare administration, and psychosocial intervention. Evidence based practice is embedded throughout the entire curriculum. Prerequisites: Student must complete KIN 270, ATR 223, and junior status before enrolling in this class.

ATR 324. A T Clinical Experience IV. 2 Hours.
Students will be assigned to clinical rotations during this clinical course. Students in the ATR 324 clinical will have taken ATR 307 in addition to the required courses for ATR 129, 223, and ATR 323. The competencies and clinical integrated proficiencies for this clinical course are based on content knowledge and psychomotor skills taught in previous courses. The emphasis of this clinical course includes the content areas of clinical evaluation of medical conditions, injuries with experience in evaluation of injuries to upper extremity, lower extremity, head, neck, and spine in addition to the evaluation skills students remain to be active in their implementation of therapeutic modalities through the practice of treating the entire patient and with clinical integration of skills and knowledge. Evidence based practice is a focus in this clinical with evidence based practice performing a literature search on topics of prevention and health promotion, which includes risk management/prevention/nutrition and psychosocial intervention. Prerequisites: Student must take ATR 307 and 323 and junior status before enrolling in this class.

ATR 410. Advanced Athletic Injuries & Modalities. 3 Hours.
Provides specific manual examinations involved in the evaluation of athletic injuries. Use of therapeutic modalities in the treatment of athletic injuries will also be studied. Students will take part in laboratory work in order to facilitate hands on experience. Prerequisite or Corequisite: ATR 207.
ATR 420. Athletic Training Management. 2 Hours.
The purpose of this course is to familiarize students with the scope and practice of managing an athletic training environment. Topics include organization and administration of an athletic training room, the reimbursement, policies and procedures of athletic training rooms, and the legal concerns. Prerequisite(s): ATR 207.

ATR 423. A T Clinical Experience V. 2 Hours.
Students will be assigned to clinical rotations during this clinical course. Students in the ATR 423 clinical will have taken ATR 304 and ATR 308 in addition to the required courses for ATR 129, ATR 223, ATR 323, and ATR 324. The competencies and clinical integrated proficiencies for this clinical course are based on content areas of clinical evaluation of injuries with experience in the clinical evaluation and acute care of medical conditions and injuries to upper extremity, lower extremity, head, neck, and spine, in addition to the evaluation skills students retain to be active in their implementation of therapeutic modalities as well as therapeutic exercise skill through the practice of treating the entire patient with clinical integration of skills and knowledge learned throughout the program. Prevention and health promotion continues to be a theme in ATR 423, which includes risk management and prevention of injuries and nutrition. In addition to the courses listed, students will also have the courses listed in the ATR 129, 223, 323, and 324 clinical courses. Prerequisites: Student must complete ATR 304, 308, and 324, as well as senior status before taking this class.

ATR 424. A T Clinical Experience VI. 2 Hours.
Students will be assigned to clinical rotations during this clinical course. Students in the ATR 424 clinical will have taken ATR 420 in addition to the required courses for ATR 129, ATR 223, ATR 323, ATR 423, and ATR 423. The competencies and clinical integrated proficiencies for this clinical course are based on content knowledge and psychomotor skills taught in previous courses. The theme for this clinical course is embedded in the acute care of injuries and illness and the use of clinical integration proficiencies form student content throughout their program that ensures students have the skill set and knowledge to become successful entry-level athletic trainers. In addition to the courses listed, students will also have the courses listed in the ATR 129, 223, 323, 324, and 424 clinical courses. Prerequisites: Student must take ATR 420 and 423 and have senior status before enrolling in this class.

ATR 425. Capstone in Athletic Training. 1 Hour.
The capstone course is a course designated to allow students to show case their knowledge and research skills that they have learned while in the program. The theme for this courses is professional development and responsibilities. The courses format is a two part format with one portion of the course is devoted to allowing students to be active in creating evidence based medicine through a research project or presentation of a comprehensive literature review and the other portion devoted to preparing the athletic training student for the certification exam. The semester will start out with an introduction of the expectations for athletic training students for the certification exam. The semester will start out with an introduction of the expectations for research presentations. Students will select a research topic that provides an opportunity for scholarly work. The topics will be selected by the students a the onset of the semester to allow ample opportunities for an open forum format or presented at the North Dakota Athletic Trainer's Association's annual meeting. The next portion of the course will provide students with study techniques and practice exams to prepare them for the BOC, Inc. certification exam. Instructors, prior students, and outside guests will be invited to speak to the students on athletic training topics. Prerequisites: Students must complete ATR 420 and 423 and have senior status before enrolling in this course.

BADM 101. Introduction to Entrepreneurship. 3 Hours.
Introduces fundamental concepts of entrepreneurship. Students will develop an understanding of the entrepreneurial mindset and core entrepreneurship competencies. Explores current issues and trends in entrepreneurship.

BADM 120. Fundamentals of Business. 3 Hours.
Students will develop an understanding of the abilities and skills required for success in future business and nonbusiness careers and endeavors within society. This course may not be taken by business majors during their final two semesters. An excellent course for beginning students and nonbusiness majors. Prerequisite: Restricted to freshman and sophomore students.

BADM 299. Special Topics In Bus Admin. 1-8 Hour.

BADM 301. Fundamentals of Management. 3 Hours.
Focuses on the nature of management, the evolution of management thought, strategic management and planning concepts, desision making and creative problem solving, and motivation and leadership in a changing environment. Pre-requisite: Sophomore status.

BADM 303. Human Resource Management. 3 Hours.
Includes personnel policies, programs, and procedures, standards, employment, staffing, wage and salary administration, personnel laws, and personnel research. Prerequisite: BADM 301.

BADM 304. Entrepreneurship/Small Business Management. 3 Hours.
Introductory entrepreneurship course intended to provide a solid foundation in terms of the vital role played by entrepreneurs, innovation, and creativity in the global economy. The various components of a business plan are introduced. this course is complemented at the end of the management program with the entrepreneurship and new venture creation course. Prerequisite: Student must complete BADM 301 and have junior status before enrolling in this class.

BADM 307. International Business. 3 Hours.
Introduces conceptual and operational problems of participating in international business. Coverage includes a study of managerial, marketing, financial, accounting, legal, economic, and cultural environments in foreign markets for the conduct of world business. Prerequisite: Student must complete BADM 301 and 321 before enrolling in this class.

BADM 309. Safety Management. 3 Hours.
Introduces safety management in the work place and its application to the law, OSHA, cost analysis, program organization, and safety program administration. Prerequisite: BADM 301.
BADM 321. Marketing. 3 Hours.
Acquaints students with the principles, concepts and perspectives underlying marketing functions, including the conception, pricing, promotion, and distribution of products, services, and ideas, and the role of marketing in society. Prerequisite: Restricted to students with sophomore status.

BADM 322. Professional Selling. 3 Hours.
Introduces the basic principles that underline selling and the steps in making a sale (prospecting, approaches, objections, presentations, demonstrations, closing). Practical illustrations and demonstrations are employed. Prerequisite: BADM 321.

BADM 324. Integrated Marketing Communications. 3 Hours.
Acquaints students with the role of integrated marketing communications concepts and practices in enhancing the equity of brands, and provides thorough coverage of all aspects of an IMC program: advertising, promotions, packaging, and branding strategies, point of purchase communications, marketing oriented public relations, and event and cause oriented sponsorships. Prerequisite: BADM 321.

BADM 340. Corporate Entrepreneurship. 3 Hours.
The course focus is on creating work environments for entrepreneurial thinking and skills to recognize, assess and exploit market opportunities for a company. This course allows students to examine the unique nature of corporate entrepreneurship and the application of entrepreneurial concepts and behaviors within an established company. Students explore entrepreneurial imperatives businesses need to become more innovative to acquire a sustainable competitive advantage. Students examine the role that leaders and managers play in initiating and implementing entrepreneurial activities such as new product launches and managing innovation within a business. Prerequisite: BADM 321.

BADM 406. Professional Business Ethics. 3 Hours.
Studies of ethical issues faced by businesses including distributive justice, capitalism, decision-making, corporate responsibility, corporate morality, governance, whistle-blowing, hiring policies, codes of ethics, advertising, safety, pollution, and foreign business practices. Prerequisites: BADM 301 and senior status.

BADM 408. Negotiations. 3 Hours.
The study of negotiation to include framing, strategizing, planning, tactics, negotiating, and settlement. The course of study includes individual, organizational, and collective bargaining processes. It also includes practical applications of bargaining processes through group projects. Prerequisite: BADM 301.

BADM 416. Operations Management. 3 Hours.
Introduces the concepts, issues, and problems of operations management and the management of the production function. Problems are analyzed and solutions are recommended. Microcomputer applications are addressed. Prerequisite: Student must complete BOTE 247, ECON 201, MATH 210, and BADM 301 before enrolling in this course.

BADM 421. Applied Business Research. 3 Hours.
Explores the full range on activities involved in the marketing research process for business including research and measurement concept, sampling and field work, and data analysis and presentation. Prerequisites: BADM 321, MATH 210.

BADM 422. Consumer Behavior. 3 Hours.
Studies the consumer decision-making process in the purchase of goods and services. Emphasis is placed on developing and understanding the determinants of consumer behavior and the appropriate application of marketing strategies. Prerequisite: BADM 321 or permission of instructor.

BADM 424. Logistics & Channel Management. 3 Hours.
Explores channels of distribution considering behavioral, social, and economic aspects of the distribution system to include transportation, inventory management, order processing, purchasing, warehousing, material handling, packaging, customer service, and product scheduling. Prerequisite: BADM 321.

BADM 427. International Marketing. 3 Hours.
Introduces the essentials of conducting international marketing operations to include estimating market potential, developing entry strategies, and managing and controlling marketing programs. Prerequisite: BADM 321.

BADM 436. Organizational Behavior Principles and Practices. 3 Hours.
Includes the principles, concept, and processes that interpret human relations in management at the individual, group, and organizational levels. Prerequisite: BADM 303.

BADM 437. International Culture & Management. 3 Hours.
Examines the impact of culture on business practices and introduces the student to the management process in an international setting. Includes an examination of comparative systems and environmental conditions and their impact on management decisions. Prerequisite: Student must complete BADM 307 before enrolling in this class.

BADM 462. International Business Strategy. 3 Hours.
Provides an international business capstone experience. Case studies illustrating international business decisions and operations are emphasized. Prerequisite: BADM 307.

BADM 465. Strategic Management. 3 Hours.
Strategic management is an analysis of the objectives of business firms and the development and evaluation of strategies and policies designed to meet these objectives. Cases are emphasized. Prerequisite: Student must complete BADM 301, 321, and FIN 353 before enrolling in this class.
BADM 470. Projects in Entrepreneurship. 3 Hours.
Provides application of the skills acquired in previous entrepreneurship and College of Business courses through experiential coursework. Students will complete individual research culminating in a final portfolio project. The project will allow the opportunity to integrate the tools learned in the program to develop and detail their business venture. Prerequisites: Students must complete BADM 101 and BADM 304 prior to enrolling in this course.

BADM 488. Marketing Strategy. 3 Hours.
Management of marketing organizations and integration of functions, with emphasis on planning and designing strategies and applying tools and techniques for problem solving and decision making. Prerequisites: Students must complete BADM 321 and 421 before enrolling in this class.

BADM 489. Entrepreneurship and New Venture. 3 Hours.
This course focuses on entrepreneurship, new venture creation, and the completion of a business plan. The business plan applies principles, concepts, and a framework to real world situations. Prerequisites: Students must complete BADM 321, 304, FIN 353 and ACCT 321 before enrolling in this class.

BADM 495. Seminars in Leadership Develop. 3 Hours.
Special topics in leadership including concepts, principles, and processes to facilitate effective, compassionate, and ethical leadership within the leader/follower relationship. The course will the relevance of self-awareness, self-management, environmental situations, social awareness and responsibility, and relationship management in authentic leadership. Prerequisites: This course is restricted to College of Business majors and minors and students with junior or senior status. Instructor consent is required.

BADM 496. Study Abroad. 3 Hours.
MSU faculty-led trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit for different countries.

BADM 497. Internship. 2-9 Hour.
A cooperative occupational course relevant to your BADM degree program. Maximum of 3 credits will count toward major. Prerequisite: Restricted to students who are International Business, Management, or Marketing majors.

BADM 499. Special Topics in Business Administration. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics.

BIOL 103. Intro to Medical Lab Science. 1 Hour.
Designed to acquaint first year student (freshman) medical technology students the the depth and breadth of this field. Students visit medical technology departments at local hospitals. The course is presented by the education coordinators at local hospitals. Lecture, 1 hour.

BIOL 111. Concepts of Biology. 4 Hours.
This course is designed to accommodate one semester of the general education requirement for non-science majors and Minot State University. The course will focus on a comprehensive survey of modern biology with an emphasis on enhancing the science literacy of the college educated student. Topics will include, but not limited to: cell biology, genetics, evolution by natural selection, systematics, and the impact of human activity on the biosphere. Where appropriate, topics will be illustrated with examples of the human animal and at all times the course will reflect the five strands of a general education course. Lecture, 3 hours; laboratory, 2 hours.

BIOL 111H. Honors Concepts of Biology. 4 Hours.
This course is designed to accomodate one semester of the general education requirement for non-science majors at Minot State University. The course will focus on a comprehensive survey of modern biology with an emphasis on enhancing the science literacy of the college-educated student. Topics will include, but are not limited to: cell biology, genetics, evolution by nature selection, systematics, and the impact of human activity on the biosphere. Where appropriate, topics will be illustrated with examples of the human animal, and at all times the course will reflect the five strands of a general education course. Laboratory time will focus on small-scale research projects and in-depth discussion. Pre-requisite: admission to the Honors Program.

BIOL 115. Human Structure & Function. 4 Hours.
Structure and function of the human body. Anatomy and physiology of major body systems is emphasized. Lecture, 3 hours; laboratory, 2 hours.

BIOL 127. Environmental Biology. 4 Hours.
Designed to acquaint students with major principles of ecology and the nature of human interaction with the living world. The course will focus on how human action influences the ecology of the earth. Ecological concepts covered will include community structure, predator prey interactions, competition, trophic levels, energy flow, the carbon cycle, and adaptation. In this light, students will examine specific issues and problems including those of land use choices, natural resource exploitation, biodiversity, industrialization, and urbanization.

BIOL 150. Introduction To Cellular Biology. 4 Hours.
Introduction to fundamental concepts of biology at the level of the cell including: bioenergetics, cell structure, physiology principles, genetic function and inheritance. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: Students must complete either CHEM 115 or CHEM 121 before enrolling in this course.

BIOL 150H. Honors General Biology I. 4 Hours.
Introduction to fundamental concepts of biology at the level of the cell including: bioenergetics, cell structure, physiology principles, genetic function and inheritance. Laboratory time will focus on small-scale research projects and in-depth discussion. Prerequisite: Student must be admitted to the Honors Program and complete CHEM 115 or 121 before enrolling in this course.
BIOL 151. Introduction to Zoology. 4 Hours.
This introductory biology course is intended for science majors interested in animal biology. The course begins with an introduction to the scientific method and some select cellular functions. The course then introduces some basic concepts of genetics, which leads to an exploration of evolutionary theory. This is followed by an exploration of animal diversity, with a heavy emphasis on animal structure, function, and evolutionary relationships. The course ends with a brief exploration of animal ecology. Lab exercises involve some dissections of preserved animals. Lecture, 3 hours; laboratory, 2 hours.

BIOL 151H. Honors General Biology II. 4 Hours.
The biology of animals is covered beginning with an emphasis on the underlying cellular structure and physiology and expanding towards larger whole organism features that are difficult to predict from cell biology. The general patterns of animal life are covered. In an effort to connect the general principles offered in this course to one's daily life (e.g. cellular respiration, excretion, muscle structure and function), an emphasis is placed on a mammalian systems. Laboratory time will focus on small-scale research projects and in-depth discussion. Pre-requisite: admission to the Honors Program.

BIOL 154. Introduction To Botany. 4 Hours.
Introduction to the biology of plants emphasizing evolution and diversity, plant anatomy and development, water and mineral nutrition, photosynthesis, and plant ecology. Lecture, 3 hours; laboratory, 2 hours.

BIOL 154H. Honors Introduction to Botany. 4 Hours.
Introduction to the biology of plants emphasizing evolution and diversity, plant anatomy and development, water and mineral nutrition, photosynthesis, and plant ecology. Laboratory time will focus on small-scale research projects and in-depth discussion. Pre-requisite: admission to the Honors Program.

BIOL 202. Introductory Microbiology. 4 Hours.
A survey to microbial cell biology, microbial genetics, microbial interaction with humans, and the impact of microorganisms on the environment. Lecture, 3 hours; laboratory, 2 hours.

BIOL 215. Genetics. 4 Hours.
Introduction to principles of genetics including: inheritance, DNA and chromosomes, gene regulation, evolution, and genetic engineering. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BIOL 150.

BIOL 220. Anatomy And Physiology I. 4 Hours.
Structure and function of the human body dealing with the chemical, cellular, and tissue levels of organization and integumentary, skeletal, muscular, and nervous systems. Lecture, 3 hours; laboratory, 3 hours.

BIOL 221. Anatomy And Physiology II. 4 Hours.
Structure and function of the human body dealing with the digestive, cardiovascular, respiratory, lymphatic, endocrine, reproductive, and urinary systems; special senses, metabolism, fluid and electrolyte, and acid-base balance. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BIOL 220.

BIOL 240. Biometry. 4 Hours.
The course will cover introductory statistic concepts in a form designed specifically for biology majors. It is a practical, software-based examination of concepts of sampling, hypothesis testing (non-parametric and parametric), descriptive statistics, contingency, correlation, analysis of variation, linear models and basic multivariate techniques. Only biological, real-world data will be used. The course will concentrate on underlying principles, applicability and practical use of methods covered. Prerequisites: Students must complete Math 103 or higher and at least two of BIOL 150, 151, and 154.

BIOL 250. Cellular Biology. 4 Hours.
An advanced cell biology designed for biology majors with an emphasis on biological chemistry, membrane and transport, cellular energy metabolism, protein synthesis, and modification, subcellular organelle structure and function, and the cell biology of the nucleus. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: BIOL 150.

BIOL 299. Special Topics. 1-8 Hour.

BIOL 301. Evolution. 3 Hours.
This course details the processes that influence evolutionary change. An emphasis is placed on the methodology for (1) inferring phylogenetic relationships (i.e. history), (2) determining the relative influences of natural selection and genetic drift, and (3) exploring the conditions that lead to various modes of speciation. Topics covered include population genetics, speciation, microevolution vs. macroevolution, punctuated equilibrium, life history theory, and modes of selection. Lecture, 3 hours. Prerequisites: BIOL 150, 151, 154, 215.

BIOL 302. General Microbiology. 4 Hours.
Students will develop a working understanding of the structure, growth, nutrition, metabolism, genetics, diversity and ecology of Bacteria, Archaea and viruses. Prerequisite: Students must complete BIOL 215 before enrolling in this course.

BIOL 310. Ethnobotany. 4 Hours.
This course will focus on the diversity of plant uses, covering approaches of diverse cultures, including introduction to medicinal plants, plant uses specific to North Dakota, and Native American plant use. Lecture, 3 hours, Lab 3 hours.

BIOL 325. Entomology. 4 Hours.
Classification, taxonomy, morphology, identification, life histories, interrelationships, and economic importance of insects. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Student must complete BIOL 151 before enrolling in this class.
BIOL 330. Biogeography. 4 Hours.
This course will describe the spatial patterns in the distribution of plants and animals and will examine how different factors influence these patterns. Lecture, 3 hours; recitation/lab, 2 hours. Prerequisites: BIOL 151 and 154.

BIOL 335. Comparative Vertebrate Anatomy. 4 Hours.
A study of the structure of vertebrates, with a focus on revealing the evolutionary relationships of major vertebrate groups. The laboratories will involve detailed examination and dissection of a broad range of vertebrate animals, including lampreys, sharks, amphibians, reptiles, and cats. Lecture, 3 hours; Lab, 3 hours. Prerequisites: BIOL 151 or 151H.

BIOL 340. Systematic Zoology. 4 Hours.
Evolution, classification, taxonomy, and identification of invertebrates and vertebrates. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Students must complete BIOL 151 before enrolling in this class.

BIOL 346. Developmental Biology. 4 Hours.
This course covers the morphological changes occurring during the development of select animals, as well as the current understanding of underlying molecular mechanisms that regulate development and produce those morphological changes. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Student must complete BIOL 215 before enrolling in this class.

BIOL 347. General Ecology. 4 Hours.
Plants and animals in their environment. An ecosystem approach is used. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Student must complete BIOL 150 and either 151, 142 or 154 before enrolling in this class.

BIOL 349. Plant Physiology. 4 Hours.
Physiological processes of plants with special emphasis on nutrition, metabolism, growth, and development. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: BIOL 150.

BIOL 350. Freshwater Biology. 4 Hours.
Biological, chemical, and physical characteristics of inland waters including origins, interrelationships and the effect of civilization. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Students must complete BIOL 142 or 150 or 151 or 154 before enrolling in this class.

BIOL 360. Morphology of Vascular Plants. 4 Hours.
Structure and development of vascular plants with special emphasis on evolutionary trends. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Students must complete BIOL 150 before enrolling in this class.

BIOL 401. Population Genetics. 4 Hours.
This course explores the mechanics of evolution from the viewpoint of allelic frequencies. It begins with the basic theory of Hardy Weinberg equilibrium and expands that theory to embrace linkage disequilibrium, selection in single-locus and multifocus systems, genitic drift, and the effects of mutation rates, population size, and migration on the genetic structure of populations. Exposure is given to classic ideas (e.g., shifting balance theory and runaway sexual selection) and to applications of theroy (e.g., breeding designs, conservation genetics0. Lecture, 3 hours; recitation, 1 hour. Prerequisites: BIOL 215.

BIOL 402. Bioinformatics. 4 Hours.
Computational methods for study of biological sequence data in comparative biology and evolution. Analysis of genome content and organization. Techniques for searching sequence databases, pairwise and multiple sequence alignment, phylogenetic methods, and methods for pattern recognition and functional inference from sequence data. Pre-Requisites: Biol 150 and Math 103 or permission of the instructor.

BIOL 405. Prokaryotic Physiology. 4 Hours.
Indept examination of the physiology, metabolism, and genetics of bacteria and archaea. Lecture, 3 hours; Laboratory, 3 hours. Prerequisites: BIOL 215 and 151 or 142, or 154.

BIOL 420. Co-Op Practicum. 4-8 Hour.
A cooperative program with industry, state, and federal agencies for an in-depth study of a specialized aspect of biology. Students spend approximately 25 clock hours per semester hour for the practicum. Prerequisites: 2 years of biology or consent of biology coordinator.

BIOL 430. Pre-Veterinary Practicum. 3 Hours.
This program is designed to give MSU students a hands-on experience in veterinary medicine. The students spend about 80 hours per semester for the practicum. Prerequisite: 2 years of biology.

BIOL 440. Pre-Med Practicum. 3 Hours.
This program is designed to give MSU students a basic understanding of the hospital and its functions. Students spend approximately 90 hours per semester in the various departments and the family practice clinic. Students are supervised by the physicians involved in the program while the program is coordinated by a biology professor on campus. Prerequisite: Consent of instructor.

BIOL 445. Cancer Biology. 3 Hours.
This course describes the major aspects of cell cycle control and relates them to the multiple cell cycle defects associated with cancer. Lecture, 3 hours. Prerequisites: BIOL 215.

BIOL 448. Systematic Botany. 4 Hours.
Classification and taxonomy of plants with emphasis on local flora. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BIOL 154.
BIOL 450. Parasitology. 4 Hours.
Morphology, taxonomy, and life histories of the endemic, exotic, and zoonotic parasites of the animal kingdom. Diseases caused by parasites are also presented. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Restricted to students who Medical Laboratory Science majors.

BIOL 455. Hematology. 4 Hours.
Study of the blood and hematologic disorders including anemia, leukemia, and other blood dyscrasias. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Restricted to students who Medical Laboratory Science majors.

BIOL 458. Anatomy of Seed Plants. 4 Hours.
Development of cells, tissues, and organs in seed plants. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: BIOL 150.

BIOL 460. Herpetology. 4 Hours.
Herpetology is the study of reptiles (exclusive of birds) and amphibians; this includes extant groups (e.g., frogs) and extinct groups (e.g., dinosaurs). This course begins with the phylogeny, history, and taxonomy of “herps” (i.e., reptiles and amphibians) and progresses to coverage of physiology, ecology, and behavior. Prerequisite: BIOL 151.

BIOL 465. Immunology. 4 Hours.
Principles and techniques of immunology and serology. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: BIOL 150.

BIOL 470. Histology. 4 Hours.
The course presents the microscopic anatomy of vertebrates with an emphasis on humans. Structure-function relationships at the cell and tissue levels are highlighted. Cell and tissue anatomy comprise the structural basis of normal physiology. Knowledge of histology is essential for understanding disease mechanisms in terms of altered structure and function of the body. Students are expected to identify cells, tissues and organs, and understand the structural basis of their function. Emphasis is placed on microscopic study in laboratories. Lecture, 2 hours; laboratory, 4 hours. Prerequisite: BIOL 150 or 220.

BIOL 475. Clinical Microbiology. 4 Hours.
Isolation, identification, and clinical application of pathogenic microorganisms. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BIOL 142.

BIOL 480. Molecular Biology. 4 Hours.
This course covers a variety of topics concerning the macromolecules of living cells, focusing on nucleic acids and proteins. Major areas of study include: DNA replication and transcription, protein synthesis (translation), and comparison of processes in prokaryotic and eukaryotic cells. The latter part of the course will focus on mechanisms of gene expression, the molecular genetics to cancer, and applied molecular biology. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Student must complete BIOL 215 before enrolling in this class.

BIOL 482. Neurobiology. 4 Hours.
This course covers the organization and function of the nervous system. Students will learn about the nervous system at the anatomical, neurophysiological and molecular level. The course starts with the study of neuron at the cellular level and how they communicate chemically as individual cells and as a group. We then cover topics in sensation and how the nervous system commands the body. In the later part of the semester we will examine the neurobiology of human behavior, such as motivation, attention etc. and mental illnesses. Lecture, 3 hours. Laboratory, 3 hours. Prerequisites: Students must complete BIOL 150, CHEM 121, and 122 before enrolling in this course. Student must also have sophomore status or higher.

BIOL 492. Directed Research. 1-5 Hour.
The faculty of the Department of Biology considers a valuable component of the curriculum. The content and extent of research projects are determined by the student and a faculty sponsor. The research may be in the lab or field and is intended to help the student develop a greater appreciation of the scientific process. While publication is not a requirement, all projects have a goal of producing publishable results. A successful experience in research can be an asset for graduate studies and many careers in biology. Prerequisites: BIOL 150 and 151, or 152, or 154.

BIOL 499. Special Topics. 1-8 Hour.

BIT 123. Technology-Personal Development. 3 Hours.
Introduction to technology for personal development. Emphasis placed on how to exploit technology to achieve goals and improve quality of life.

BIT 154. Word Processing & Presentation Software. 3 Hours.
Pre-requisites: Previous computer experience.

BIT 220. Management Information Systems. 3 Hours.
Designed to provide an introduction to systems and development concepts, technology acquisition, and various types of application software that have become prevalent or are emerging in modern organizations and society. Also introduces students to contemporary information systems and demonstrates how these systems are used throughout global organizations. The focus of this course is on the key components of information systems - people, software, hardware, data, and communication technology, and how these components can be integrated and managed to create competitive advantage.

BIT 235. Introduction to Web Site Design. 3 Hours.
Basics of web site design using HTML code and web editing software.

BIT 236. Business Design Tools. 3 Hours.
Hands-on computer course that surveys current software packages in the area of business designing tools. Offered on campus Fall even years and online Fall odd years.
BIT 299. Special Topics. 1-3 Hour.

BIT 310. IT Project Management. 3 Hours.
The course is designed to examine the processes, methods, techniques and tools that organizations use to manage their information systems projects utilizing a systematic methodology for initiating, planning, executing, controlling, and closing projects.

BIT 311. Collaborative Computing. 3 Hours.
Course explores collaboration within an organization, including establishment and maintenance of a collaborative culture, virtual team development and member roles, collaborative communication, and collaborative tools and technology. Prerequisite: Student must complete BIT 220 before enrolling in this class.

BIT 312. Data and Information Management. 3 Hours.
Provides the students with an introduction to the core concepts in data and information management. It is centered around the core skills of identifying organization information requirements, modeling them using conceptual data modeling techniques, converting the conceptual data models into relational data models and verifying its structural characteristics with normalization techniques, and implementing and utilizing a relational database. Prerequisites: Students must complete BIT 220, 310, and 311 before enrolling in this course.

BIT 318. Business Communication. 3 Hours.
Focuses on oral, written and nonverbal communication skills used in business. Emphasis on virtual and global communication, listening, and collaborative communication skills, and enhancement of communication using multi or social media. Prerequisites: ENGL 110.

BIT 342. Advanced Web Site Design. 3 Hours.
Enhancement of students’ skills to plan, develop, and integrate well-designed web sites that combine effective navigation with the balanced use of style sheets, media queries, fluid layouts, images, tables, movie clips, sound, and different methods of creating web-based animations. Offered on campus spring odd years and online spring even. Prerequisites: BIT 235. Corequisite: BIT 236.

BIT 358. IT Infrastructure. 3 Hours.
Designed to explore topics related to both computer and systems architecture and communication networks.

BIT 370. E-Commerce. 3 Hours.
Exploration of E-Commerce and E-Business technologies and key concepts of the evolving dynamic of business and information system environments. Students will study the continuously altering world of business in a digital marketplace including architecture, security, social media, and diverse platform implementations.

BIT 385. Technology Management. 3 Hours.
Designed to explore current issues, approaches to the management of technology, the interaction of new technologies with existing technologies, legal and regulatory implications of technology, ethics, and the processes through which organizations generate and absorb technological innovations.

BIT 391. Methods of Teaching Business. 3 Hours.
Emphasizes the competencies needed for preservice teachers that may apply to the teaching of any business course. Special emphasis placed on classroom management strategies, unit development, lesson planning, evaluation and assessment option, along with other activities pertaining to the actual teaching experience. Offered on campus fall odd years. Prerequisite: Admission to teacher education and MOS certification at specialist level in Word, Excel or PowerPoint.

BIT 399. Special Topics. 1-3 Hour.

BIT 421. Philosophy of Career & Technical Education. 3 Hours.
Addresses the history, growth, legislation, and elements of career and technical education. Students research principles and practices of vocational business education and their relationship to general business education and other areas of career and technical education. Offered on campus fall odd years. Co-requisite: BIT 423. Prerequisite: Admission to teacher education and junior status.

BIT 423. Leadership in CTSOs. 3 Hours.
Study of planning and implementing of career and technical student organizations. Principles in developing co-curricular career and technical education curriculum are included. Offered on campus Fall odd years. Prerequisite: Student must be admitted into teacher education before enrolling in this class. Prerequisite or Corequisite: Student must be enrolled in or have completed BIT 421.

BIT 440. Enterprise Architecture. 3 Hours.
Designed to explore the design, selection, implementation, and management of enterprise IT solutions. The focus is on applications and infrastructures as applied within the business. Prerequisite: Student must complete BIT 220 before enrolling in this course.

BIT 441. IS Strategy, Management, & Acquisition. 3 Hours.
Designed to explore the issues and approaches managing change, managing the information systems function in organizations, and how the IS function integrates, supports, and enables various types of organizational capabilities. Prerequisite: Students must complete BIT 440 before enrolling in this course.

BIT 443. Outsourcing Management. 3 Hours.
Designed to explore the initiation of a sourcing decision and evaluation process through supplier selection and transition to outsourcing and insourcing. Prerequisite: Students must complete BIT 220 before enrolling in this course.
BIT 444. IT Security & Information Assurance. 3 Hours.
Designed to explore hardware, software, processes, communications, applications, and policies, and procedures with respect to organizational IT
Security and Risk Management. Offered on campus Fall odd years and online Spring even years. Prerequisite: Students must complete BIT 358 before
enrolling in this course.

BIT 445. IT Audit Controls. 3 Hours.
Designed to explore the fundamental concepts of the information technology audit and control function. The main focuses of this course is on the
understanding information controls, the types of controls and their impact on the organization, and how to manage and audit. Offered on campus Fall
odd years and online Spring even years. Prerequisite: Students must complete BIT 385 before enrolling in this course.

BIT 452. Client/Server Database. 3 Hours.
Designed to explore the issues of managing database systems as essential organizational resources. Students learn the enterprise-data-architecture
components, data storage configurations, and information retrieval methods. Offered on campus Spring even years and online Fall odd years.
Prerequisite: Student must complete BIT 312 before enrolling in this class.

BIT 453. Systems Analysis. 3 Hours.
Designed to explore systematic methodologies for analyzing a business problem or opportunity, determining what role, if any, computer-based
technologies can play in addressing the business need, articulating business requirements for the technology solution, specifying alternative approaches
to acquiring the technology capabilities need to address the business requirements, and specifying the requirements for the information systems
solution. Prerequisite: Student must complete BIT 220, BIT 310, and BIT 311 before enrolling in this class.

BIT 460. MIS Seminar. 3 Hours.
The MIS seminar provides the students an opportunity to explore current issues, trends, and careers in the field. Prerequisite: Restricted to students with
senior status.

BIT 470. Projects in MIS. 3 Hours.
The culminating experience for all MIS majors. The application of concepts learned from courses taken in the College of Business core, Management
Information Systems core, and tracks are applied to real world projects. Prerequisite: Restricted to students with senior status.

BIT 494. Independent Study Honors Bued. 1-8 Hour.

BIT 495. Seminars in Leadership Development. 3 Hours.
Special topics in leadership including concepts, principles, and processes to facilitate effective, compassionate, and ethical leadership within the
leader/follower relationship. The course will examine the relevance of self-awareness, self-management, environmental situations, social awareness &
responsibility, and relationship management in authentic leadership. Prerequisites: Restricted to College of Business majors and minors and students
with junior or senior status. Instructor consent is required.

BIT 497. Internship. 3-9 Hour.
Internship allows the student to combine an on-the-job learning experience with related academic coursework. Prerequisite: Senior status, restricted to
MIS majors.

BIT 499. Special Topics. 1-3 Hour.
Topics will vary from year to year.

BOTE 102. Keyboarding I. 3 Hours.
Basic instruction and practice in using the alphanumeric keyboard. Emphasis on proper fingering for touch operation of the keyboard, development of
speed and accuracy, and exploration of business document formatting. Offered online only.

BOTE 127. Information Processing. 3 Hours.
Introduction to computer concepts, hardware and software applications, operating systems, word processing, spreadsheets, presentations, and Internet.
Course may be waived if students holds MOS certification in Word, Excel, and Power Point at the specialist level.

BOTE 147. Spreadsheet Applications. 3 Hours.
Intermediate and advanced use of application software for creation of spreadsheets, graphs, databases, and macros. Integration with other software
applications is also reviewed.

CD 150. Profession of Com Disorders. 2 Hours.
An introduction to the profession of Communication Disorders. Contents will describe the progression from the preprofessional student level to the
expert-consultant level. Major topics will include development of interpersonal skills, professional skills, problem-solving skills, technical skills and
knowledge/experience.
CD 299. Special Topics In Comm Disorders. 1-8 Hour.

CD 310. Introduction to Communication Disorders. 3 Hours.
A survey of various communication disorders: language, phonology, fluency, voice, hearing impairment, cleft palate, cerebral palsy, aphasia. Eight hours of clinical observation is required.

CD 320. Introduction to Phonetics. 3 Hours.
A study of the sounds of American English and the use of the International Phonetic Alphabet (IPA) to record normal and disordered articulatory production.

CD 321. Language Development. 3 Hours.
The study of those events and processes which combine in relatively predictable and observable ways and are evidenced in the acquisition of language.

CD 322. Speech Sound Disorders. 3 Hours.
The study of the types, causes, and treatment of speech disorders including articulation and phonological disorders, voice and fluency. Eight hours of clinical observation are required. Prerequisite: Student must complete CD 310 and 320 before enrolling in this class.

CD 324. Techniques in Communication Disorders. 3 Hours.
Therapy approaches and techniques for planning and carrying our clinical practicum. This course includes a required laboratory experience and is a prerequisite for CD 411. Prerequisite: CD 322.

CD 331. Language Disorders in Children. 3 Hours.
The study of deviant language patterns and patterns associated with cultural diversity. Language evaluation with emphasis on linguistic analysis and the development of language programming appropriate to language problems will be covered. Five hours of clinical observation are required. Prerequisite: Student must complete CD 321 before enrolling in this class.

CD 341. Speech & Hearing Science. 2 Hours.
Fundamentals of acoustics, speech production, speech perception, and basic instrumentation. Prerequisite: CD 310.

CD 342. Introduction to Audiology. 4 Hours.
A study of the basic tests of hearing with emphasis on test administration and interpretation. It includes anatomy and physiology of the auditory system and its relationship to various types and degrees of hearing loss. Prerequisite: CD 310.

CD 394. Independent Study General Cd. 1-4 Hour.

CD 410. Audiology Practicum. 1 Hour.
This practicum course will provide the undergraduate student in Communication Disorders, who has an interest in Audiology, the opportunity to participate in Audiology diagnostics in the CD clinic. The student will initially observe the audiologic diagnostic/patient management protocols in the clinic and will gradually be required to participate in greater measure. The goal is for the student to acquire greater understanding of audiologic test administration, interpretation, and patient counseling. Pre-requisite: CD 342.

CD 411. Clinical Practicum. 3 Hours.
Supervised practicum in a clinical setting. Prerequisite: CD 324.

CD 412. Neurology for Communication Disorders. 2 Hours.
This course provides an overview of the role of neuroanatomy in speech and language. Attention is given to the structures of the brain and spinal cord, the ascending and descending pathways, cranial nerves, and the vascular supply to the brain. The role of these structures in the communication process is discussed. Prerequisites: CD 310, 341.

CD 413. Anatomy and Phys for Communication Disorders. 3 Hours.
This course provides an overview of the anatomical and physiological bases of communication. Attention is given to the structures and functions of the respiratory, phonatory, resonatory and articulatory systems. Prerequisites: Students must complete CD 310, 341, and 412. May take concurrently with advisor's consent.

CD 420. Advanced Communication Disorders. 3 Hours.
This course will provide a general overview of neurologically-based communication disorders, dysphagia, voice disorders, and stuttering. Course work will emphasize characteristics, procedures for assessment, and general treatment approaches for these communication disorders. Five hours of clinical observation are required.

CD 424. Language Development. 3 Hours.

CD 426. Speech Language Development and Disorders for the Teacher. 4 Hours.
The study of speech language development and disorders of children. Inter-relationships among personal, social, academic, speech, and language skills are covered. Academic modifications and coordination with specialized personnel are emphasized. For non-majors.

CD 427. Aural Rehabilitation. 3 Hours.
Study of the rehabilitative philosophies and methodologies of individuals with hearing impairments.
CHEM 110. Survey of Chemistry. 4 Hours.
An introductory course covering topics that concern students’ everyday lives. This course is designed for liberal arts and general education students. The course consists of an introduction to the science and includes historical perspectives. The course is intended to present chemistry in its broad culture, social, and economic context. Lecture, 3 hours; laboratory, 2 hours.

CHEM 110H. Honors Survey of Chemistry. 4 Hours.
An introductory course covering topics that concern students’ everyday lives. This course is designed for liberal arts and general education students. The course consists of an introduction to the science and includes historical perspectives. The course is designed to present chemistry in its broad cultural, social, and economic context. Assignments will include investigation of specific topics and written descriptions of the findings. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 115. Introductory Chemistry. 4 Hours.
Presents knowledge of concepts of chemical principles in greater depth and with more mathematical applications than in CHEM 110. Includes studies of general inorganic principles. Lecture, 3 hours; laboratory, 2 hours.

CHEM 115H. Honors Introductory Chemistry. 4 Hours.
This course introduces concepts in general, organic, and biochemistry. Topics likely to be covered include: measurement, atoms, molecules, elements, the periodic table, nuclear chemistry, compounds, bonds, molecular geometry, classes of organic compounds, gases, liquids, solutions, chemical reactions, solutions, acids, bases, and biochemical compounds. Assignments will include investigation of specific topics and written descriptions of the findings. Lecture, 3 hours; laboratory, 3 hours. Corequisite: Math 102 or 103. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 121. General Chemistry I. 5 Hours.
This course is the first of two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: matter, measurement, atoms, ions, molecules, reactions, chemical calculations, thermochemistry, bonding, molecular geometry, periodicity, and gases. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Corequisite: MATH 103.

CHEM 121H. Honors General Chemistry I. 5 Hours.
This course is the first of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: matter, measurement, atoms, ions, molecules, reactions, chemical calculations, thermochemistry, bonding, molecular geometry, periodicity, and gases. Note: Chem 121 and 121L must be taken concurrently. Assignments will include investigations of specific topics and written descriptions of the findings. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Corequisite: Math 103. Prerequisite: Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 122. General Chemistry II. 5 Hours.
This course is the second of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: intermolecular forces, liquids, solids, kinetics, equilibria, acids, bases, solution chemistry, precipitation, thermodynamics, and electrochemistry. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Prerequisite: CHEM 121.

CHEM 122H. Honors General Chemistry II. 5 Hours.
This course is the second of a two-semester sequence primarily intended for students majoring in science and science-related fields. Topics likely to be covered in this semester include: intermolecular forces, liquids, solids, kinetics, equilibria, acids, bases, solution chemistry, precipitation, thermodynamics, and electrochemistry. Assignments will include investigation of specific topics and written descriptions of the findings. Lecture, 3 hours; recitation, 1 hour; laboratory, 3 hours. Corequisite: Math 103. Prerequisites: CHEM 121H/121HL, Honors program admission or 3.30 cumulative GPA and permission of the instructor.

CHEM 127. Chemistry of the Environment. 4 Hours.
This course is unique in that it uses topics of concern/interest to facilitate the learning and understanding of the scientific concepts behind them. The course will use current environmental topics, such as our atmosphere, global warming, energy, the ozone layer and water quality, to bring forward important chemical concepts as naming, bonding, stoichiometry, energetics, pH and chemical reactions. The course will also bring an interdisciplinary flavor to the material, discussing such topics as the carbon cycle and biological contributions, how earth processes may affect the quality of our drinking water and the effect of acid rain on the earth (both in terms of the geology and the ecosystem).

CHEM 227. Principles of Environmental Chemistry. 4 Hours.
Designed to provide students with a basic introduction to Environmental Chemistry. The course will introduce students to the environmental pathways, toxicology, and organic and inorganic environmental contaminants. The students will also study various processes in the environment, including those in air, soil, and water. Depending on time, the students may also be introduced to the management of hazardous chemicals. Prerequisite: Student must complete CHEM 127 before enrolling in this course.

CHEM 230. Quantitative Analysis. 5 Hours.
A course in quantitative chemistry including gravimetric and volumetric analysis, statistical treatment of data, and an introduction to some instrumental analysis. Lecture, 3 hours; laboratory, 6 hours. Prerequisites: CHEM 122.

CHEM 240. Fundamentals of Organic Chemistry. 5 Hours.
Theory of bonding and structure in organic molecules and their reactions. An emphasis on functional groups related to biological molecules. This course presents the minimum preparation for CHEM 480. Offered in the spring. Lecture, 4 hours; laboratory, 2 hours. Prerequisite: CHEM 122.
CHEM 299. Special Topics. 1-8 Hour.

CHEM 341. Organic Chemistry I. 5 Hours.
A study of different classes of organic functional groups, their nomenclature, reactions, and properties. An introduction to Infrared and Nuclear Magnetic Resonance Spectroscopy is included. Offered in the fall. Lecture, 3 hours; laboratory, 3 hours; recitation, 1 hour. Prerequisite: CHEM 122.

CHEM 342. Organic Chemistry II. 5 Hours.
A continuation of CHEM 341. A study of the chemical and mechanistic properties of organic functional groups. Offered in the spring. Lecture, 3 hours; laboratory, 3 hours; recitation, 1 hour. Prerequisite: CHEM 341.

CHEM 360. Principles of Physical Chemistry. 4 Hours.
This course is designed for students interested in chemical education at the secondary level. Topics include gas laws, thermodynamics, equilibria, kinetics, quantum mechanics and spectroscopy. Offered alternate years. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: CHEM 230 and MATH 107.

CHEM 380. Environmental Chemistry. 4 Hours.
The course examines the interaction of chemical substances with the environment. Emphasis is placed on water quality and air quality. Offered alternate years. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: CHEM 230.

CHEM 420. Inorganic Chemistry. 3 Hours.
An advanced course in inorganic chemistry, including theories of covalent and ionic bonding, crystalline structure, coordinate covalent bonding, group theory, and coordination chemistry. Offered alternate years. Lecture, 3 hours; laboratory, 6 hours. Prerequisite: CHEM 230.

CHEM 422. Inorganic Synthesis. 1 Hour.
Applied techniques in inorganic synthesis and compound characterization. Offered on demand. Laboratory, 3 hours. Prerequisite: Consent of instructor. Corequisite: CHEM 420.

CHEM 430. Instrumental Analysis. 5 Hours.
A survey of instrumental methods used for chemical analysis. These methods include molecular absorption, atomic absorption and emission, fluorescence and phosphorescence, infrared absorption chromatography, nuclear magnetic resonance and mass spectrometry. Offered alternate years. Lecture, 3 hours; laboratory, 6 hours. Prerequisite: CHEM 230.

CHEM 440. Organic Spectroscopy. 3 Hours.
Identification of organic molecules via spectroscopic methods. Methods studied include infrared, UV-visible, proton and carbon-13 nuclear magnetic resonance, and mass spectrometry. Offered alternate years. Lecture, 2 hours; laboratory, 2 hours. Prerequisite: CHEM 342.

CHEM 442. Medicinal Chemistry. 3 Hours.
This course is designed for students interested in medicinal applications of organic chemistry and for students interested in continuing their education in medicine, pharmacy, and other health related fields. The course offers the study of major classes of medicinal compounds presented in a broad historic and cultural perspective of the development of medicinal chemistry from the first attempt to synthesize quinine in the early XIX century to modern days' antibiotics. Offered alternate years. Lecture, 3 hours. Prerequisite: CHEM 342 and junior or senior status.

CHEM 461. Physical Chemistry I. 4 Hours.
This course is the first of a two-semester sequence of calculus-based physical chemistry for chemistry majors. Topics covered include thermodynamics and equilibrium. Offered alternate years. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: CHEM 122, MATH 166, and PHYS 222.

CHEM 462. Physical Chemistry II. 4 Hours.
A continuation of CHEM 461. Topics include: quantum mechanics, molecular orbital theory, group theory, and spectroscopy. Offered alternate spring terms. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: CHEM 461.

CHEM 480L. Biochemistry Laboratory. 2 Hours.
A course covering theory and laboratory experience with a variety of techniques used in biochemistry. Laboratory, 6 hours. Prerequisite: CHEM 230. Corequisite: CHEM 481.

CHEM 481. Biochemistry I. 3 Hours.
Study of major classes of biological compounds, synthesis of macromolecules, enzyme kinetics, intermediary metabolism, and control mechanisms. Lecture, 3 hours. Prerequisite: BIOL 150 and CHEM 240 or 342.

CHEM 482. Biochemistry II. 3 Hours.
A continuation of Chem 481 with more in-depth studies of particular pathways; particular emphasis is placed on medicinal chemistry and on corresponding clinical applications associated with the various pathways. Lecture 3 hours; Pre-requisite Chem 481.

CHEM 494. Directed Research in Chemistry. 1-6 Hour.
Students conduct research under the direction of a faculty mentor. The general topic and specific goals and activities are agreed upon by the student and the mentor. The number of credits is proportional to the time committed to the research.

CHEM 497. Internship in Chemistry. 1-4 Hour.
A cooperative occupational training program in the field of chemistry or a related area. The course may be repeated in the same or different position. Prerequisite(s): Departmental approval and student must be a Chemistry or Chemistry Education major. Student must be at Junior or Senior status.
CHEM 499. Special Topics. 1-8 Hour.

CJ 201. Introduction to Criminal Justice. 3 Hours.

CJ 226. Introduction to Criminal Investigation. 3 Hours.
This course provides a broad examination of the basic principles involved in conducting a criminal investigation. Specifically, the students in this course learn about the general modus operandi of different types of criminals in committing; violent crimes, property crimes, organized crimes, sex crimes, cybercrimes, and several others in addition to gaining knowledge and skills to carry out basic processes of investigating these crimes. Furthermore, the course explores issues like reporting and documenting crimes and crime scenes, forensic examinations, interrogation and intelligence as well as carrying out searches. Prerequisite: CJ 201.

CJ 227. Crimes Against Children. 3 Hours.
This course explores child abuse and neglect as major types of crimes committed against children. Considering the fact that processing these types of crimes requires a set of specific knowledge and skills, this course primarily intends to teach students about the methods of identifying victims, mandatory reporting requirements, techniques of investigation and interviewing children. In addition, this course intends to provide students a broader perspective on understanding the social and individual dynamics of these types of crimes as well as potential policies and programs to prevent them.

CJ 229. Interviewing and Interrogation. 3 Hours.
This course aims to help students to gain a set of essential knowledge and skills to carry out interviews and interrogation for investigative and legal purposes as used in law enforcement, probation, corrections, juvenile justice, homeland security, and in other areas of application. Specifically, it covers crucial interpersonal communication skills as well as methods and techniques for understanding the psychological, ethical, and legal aspects of obtaining information from subjects.

CJ 299. Special Topics. 1-8 Hour.
Independent investigations of topics of special interest related to criminal justice. Topics may vary to reflect contemporary criminal justice issues. Prerequisite: CJ 201.

CJ 300. Policing. 3 Hours.
The broader objective of this course is to help students to gain knowledge and develop an intellectual perspective on the structure, role and organization of policing in a democratic, multi-cultural, postmodern society. Specifically, the course examines the philosophical, social, legal and political aspects of law enforcement as well as current and future trends, research, and practices that are developed for its overall functions. Prerequisite: CJ 201.

CJ 302. Use of Force in Policing. 3 Hours.
This course will examine the origins of police use of force to include a review of case law and department policy involving the various use of force levels by law enforcement. Students will research and review specific instances where the use of force by law enforcement have occurred. The course will include an examination of the subculture of policing and the situational factors affecting an officer’s use of force and as a victim of violence. The course will review of the investigatory and judicial process after a law enforcement use of force incident and the statistical information involving the use of force by law enforcement. Prerequisite: Introduction to Criminal Justice (CJ 201).

CJ 320. Community Corrections. 3 Hours.
This class is intended to provide an analysis of probation, parole, and intermediate punishments. The course includes a brief overview of the history of community corrections in the United States. It is designed to familiarize students with the most recent developments in community-based corrections, including implementation, management, effectiveness, and challenges. It provides detailed descriptions of alternatives to incarceration, assumptions underlying programs, and outcome studies. A significant amount of discussion and in-depth analyses will include topics of probation, parole, community corrections officers, treatment, offender assessment, and intermediate punishments. Prerequisite: CJ 201.

CJ 330. Criminological Theory. 3 Hours.
This course intends to help students to gain an intellectual perspective on the nature of criminal behavior through which a comprehensive understanding regarding the existing and potential practices of the criminal justice system can be developed. This course examines positivist and classical perspectives of criminological theory regarding why people are committing crimes. More specifically, it explores legal, biological, social and psychological correlates of criminal behavior. Prerequisite: CJ 201.

CJ 332. Restorative Justice. 3 Hours.
A different approach to discipline, restorative justice, focuses on restoring the offender, victim, and the community. This class will examine the history of restorative justice, restorative justice programs for adult and juvenile offenders, effectiveness of its use, and offender populations most commonly selected for restorative justice inventions. Prerequisite: CJ 201.

CJ 340. Juvenile Justice System. 3 Hours.
Illustrated major components of juvenile justice system, including arrest, intake, adjudication, and disposition of juvenile offenders; examines transfer process for treating juveniles as adults; describes landmark legal cases extending rights to juveniles; examines juveniles court organization as an adversarial system; treatment of contemporary juvenile justice issues, including death penalty for juveniles and deinstitutionalization of status offenders. Prerequisite: CJ 201.
CJ 344. Media, Internet and Crime. 3 Hours.
Media, Internet, and Crime will prepare students to understand how mass media presents crime, criminals, and the American criminal justice system with respect to policing, courts, and corrections. The focus of this course will look at the historical evolution of media (sound, print, visual, comic books, film, television, video games, recorders) and the impact of the computer and the internet in the 21st century as it applies to dissemination of crime-related information. This course will attempt to dispel common misconceptions about the mass media's effects on crime and justice. Prerequisite: CJ 201.

CJ 345. Policy Issues in Criminal Justice. 3 Hours.
Assessment of the development, efficacy, and politics of criminal justice policy. Emphasis on analyzing the formulation, implementation, and evaluation of criminal justice policy. Prerequisite: CJ 201.

CJ 348. Legal & Ethical Issues in Criminal Justice. 3 Hours.
This course explores a wide range of legal philosophies and ethical issues in decision making and agency operations. Included are conflict in standards, decision making and operational priorities during routine and crises situations, professionalism in recognizing and dealing with questionable behavior of individuals, and the consequences of failing to deal effectively with them. Recommended: 201.

CJ 362. Gender Issues in Criminal Justice. 3 Hours.
This course will look at the constantly evolving gendered nature of crime, criminal justice theory, policy and practice and emerging legal doctrines about privacy and sexual rights. Key themes will include gender differences in criminal behavior, criminal victimization, criminal processing and law progression. In addition, the discussion of evolution of gender employment in the Criminal justice system will be included. Prerequisite: CJ 201.

CJ 364. Cybercrimes. 3 Hours.
Cyber world is a recent context where many crime-related activities are going on at an incredible phase in different formats. The major objective of this course is to prepare students for their future careers in the field of criminal justice or related areas by providing essential knowledge with the major concepts, trends and issues in regards to the crimes committed in this very context. This course will be a general survey of the topic where the following areas will be covered during the course: - Computer as target (access offenses, interception of data, etc.) - Fraud and related issues on cyberworld - Content-related offenses (pornography, gambling, etc.) - Offenses against the person (harassment, etc.) - Major principles and procedures in the investigation of cybercrimes - Legal and jurisdictional matters. Prerequisite: CJ 201.

CJ 366. International Crime. 3 Hours.
This course is an introduction to international crime and international criminal justice. Issues discussed include topics like globalization and globalized crime, international criminal law, international and transnational crimes, contemporary slavery, human smuggling and human trafficking. The course's goals should be viewed in the context of the phenomenon of globalization. An increasing number of people hold the view that because of globalization we cannot afford to ignore what happens in the world outside of the United States, and that knowledge of other cultures - including cultures of law and legal systems - is absolutely crucial in order to be able to meaningfully and respectfully interact with other nations of the world. Prerequisite: CJ 201.

CJ 368. Campus Crime. 3 Hours.
This course will give students a comprehensive understanding of campus crime and victimization. Special attention will be given to understating the scope of the crime problem nationally and within North Dakota with a focus on victims of sexual assault. The course will also actively research intervention strategies, prevention policies, and the role of the Clery Act, Title IX, and student responses to the problem.

CJ 375. Gangs. 3 Hours.
Explores gang phenomena in U.S.; concentrates in recent research about formation and gang related violence including the various criminological theories that explain the social, economic, political, and environmental reasons for the rise of gangs in various American urban centers. Prerequisite: CJ 201.

CJ 380. Corrections. 3 Hours.
Examines institutionalization of convicted offenders; describes jails and prisons; investigates issues including privatization of prison operations, inmate rights; correctional officer duties/training/ responsibilities are described; examines post-institutionalization experiences of released inmates in community programs; examines classification systems used to determine one's level of custody; describes different types of prisons/jails and their functions. Prerequisite: CJ 201.

CJ 381. Institutional Corrections. 3 Hours.
This course will examine the various issues in prisons and jails in the U.S. Past and current literature will be discussed regarding institutional corrections and participants in prisons and jails, including inmates, officers, and administrators. The explored issues include the purposes of incarceration, differences between jails and prisons, adaptation to life in prison for inmates, differences between male and female inmate experiences, correctional officers, prison violence, relationships in prison, and prisoners' rights. Prerequisite: CJ 201.

CJ 382. Correctional Rehabilitation. 3 Hours.
Various issues related to the implementation and effectiveness of correctional treatment approaches and programs will be presented in this course. This course will cover specific correctional programs, the risk/needs/responsivity model for effective correctional programming, the history regarding the goals of corrections, the research on whether correctional programs are reducing crime, and the most common targets for correctional interventions. Prerequisite: CJ 201.
CJ 383. Offender Risk Assessment and Typology. 3 Hours.
Almost all correctional settings, institutional or community-based, rely on offender assessment to guide practices with offenders. This class will provide a hands-on approach to conducting numerous actuarial risk assessments commonly used in correctional practice, such as the Level of Service Inventory-Revised (LSI-R). It will also discuss the barriers of offender typology in actuarial risk assessments including sexual offenders, drug offenders, and female offenders. Prerequisite: CJ 201.

CJ 384. Special Correctional Populations. 3 Hours.
This course provides an introduction to special correctional populations including: sexual offenders, drug offenders, female offenders, those with mental illness, those with learning disabilities, and others. Various definitions of these offenders will be examined as well as the theories behind their criminal behavior. Appropriate assessment, placement, and treatment of special correctional populations will guide the course. Prerequisite: CJ 201.

CJ 385. Terrorism & Homeland Security. 3 Hours.
This course has two major components: It, first, explores terrorism from an international and national perspective; examines the social, political, and cultural reasons for terrorism. In addition, the students learn about different types of terror and terrorist organizations existing in different countries and regions around the world. The second part of this course is dedicated to an exploration of homeland security. In this part of the course, the students learn about what constitutes homeland security as a concept as well as the practical operations and the history and legal foundations of the agencies responsible for maintaining homeland security. Prerequisite: CJ 201.

CJ 386. Juvenile Corrections. 3 Hours.
This course includes an examination of the history of ideas about and responses to juvenile delinquency. The course will also evaluate the scope and nature of juvenile delinquency historically and today. Explanations of the different patterns of offending and types of offending of juvenile delinquents as well as effective correctional practices will be examined. Finally, the course will devote a significant amount of time critiquing the responses of various parts of the juvenile justice system including probation officers, as well as responses by other social institutions such as the family, community, and schools. Prerequisite: CJ 201.

CJ 387. Punishment-From Corporal to Capital. 3 Hours.
Capital punishment is a controversial topic within the field of criminal justice. This course will provide students with the opportunity to get acquainted with the history of capital punishment; introduce the social and political perspectives that surround punishment; explore methods and costs of capital executions and other means of punishment such as prisons; review moral, ethical and political arguments related to the use of punishment; and examine the implications of using the death penalty as a form of punishment. Prerequisite: CJ 201.

CJ 390. Criminal Justice in Indian Country. 3 Hours.
Course examines historical and contemporary issues of crime, delinquency, justice, and public safety on American Indian Reservations and Alaskan Native Villages in the US. Specific focus will be given tribal justice systems; tribal interactions with Federal Justice Organizations (FBI, Federal Courts and Probation, Federal Bureau of Prisons), as well as tribal interface with local/county/state police, courts and corrections in 280 states such as ND. Tribal law and order reforms under PL 111-211 are examined along with reform policies for dealing with domestic violence, substance abuse, and gang violence. Recommended: CJ 201.

CJ 391. Independent Study General CJ. 1-6 Hour.
Intensive study of sustantive interest areas of students; major literature review leading to analytical paper; topics chosen collaboratively by student and instructor/advisor. Prerequisite: consent of instructor.

CJ 395. Victims & Victimology. 3 Hours.
The course provides a student's overview of the characteristics and trends of victims in a variety of settings, and the criminal justice system's perception and response to these individuals. Prerequisite: CJ 201.

CJ 401. Administration of Criminal Justice Systems. 3 Hours.
This course is an overview of organizational theory as it applies to the administration of Criminal Justice agencies. It explores the nature of criminal justice organizations, individual and group behavior in these organizations as well as managerial processes carried out in these organizations. The topics included in this course covers, but not limited with, leadership, motivation, communication, evaluation, socialization, conflict, decision making, organizational change and effectiveness. Prerequisite:CJ 201.

CJ 402. Management Issues in Criminal Justice. 3 Hours.
This course examines organizational management problems and issues that impact the American justice organizations including police, courts, corrections, and juvenile justice. The course addresses organizational theories of administration and management and how these can be applied to contemporary criminal justice management issues. Prerequisite: CJ 201.

CJ 420. Homeland Security Advance. 3 Hours.
This course builds on a student's knowledge about the American Criminal Justice System and its relation to Homeland Security. Course examines Homeland Security's history, legal foundation, national infrastructure and interface with criminal justice. Specific focus is given: intelligence and counterintelligence, weapons of mass destruction, cyber-crime, organized crime, domestic and border security, and immigration issues. Incident command and control systems, adopted in 2012 are discussed. Students completing the course satisfactorily may wish to obtain FEMA certificates. Prerequisite: CJ 201 or consent of Department.

CJ 450. White-Collar Crime. 3 Hours.
Categories of job offending are analyzed through criminological theory, law, and the criminal and regulatory justice systems, including corporate crime, professional crime, individual crime, and crime by state workers. Traditional and novel strategies for the social control of these offenses are also presented. Prerequisite: CJ 201.
CJ 480. Research Methods in Criminal Justice. 3 Hours.
This course covers methods of social science research as they are commonly employed in the field of criminal justice. The students will gain a fine understanding of how a research project can be designed and applied to actual problems / issues of the criminal justice system as well as how the existing research reports and findings should be interpreted for a better understanding of the criminal justice policies and practices. At the end of the course, the students will be exposed to theory and practice of qualitative, quantitate and mixed methods of social research as well as reporting the findings in a scholarly and professional format. Prerequisites: CJ 201 and CJ 330.

CJ 481. Data Analysis Strategies in Criminal Justice. 3 Hours.
This course examines fundamentals of descriptive and inferential statistical analysis of various types of data used within criminal justice. Specifically, this course explores the appropriate use of data, the limits of various methods, how data is collected and organized, and how to interpret and report findings from the statistical analysis. The students will be exposed to, at least, one of the most commonly used statistical analyses software and gain practical experience in carrying out essential statistical analyses through this software. Prerequisite: CJ 201.

CJ 491. Senior Seminar. 3 Hours.
Integration of program outcomes with application of knowledge, values, and skills necessary for field entry, value and ethical considerations, and the development and implementation of future career objectives. Provides application of core courses, provides students with current developments in key core areas. Prerequisites: CJ 201, criminal justice major, senior status and must have completed all CJ core courses.

CJ 494. Directed Criminal Justice Research. 1-8 Hour.
This course provides an opportunity for students to carry out an independent research project in their area of interest within the field of criminology and criminal justice. The students will practically design their own research project in consultation with the instructor and implement appropriate research method under the guidance and supervision of the instructor. The overall purpose of the course is to help students to gain practical experience of identifying a research problem, designing a research project accordingly and carrying out this project. The students will, eventually, be expected to report the results of this project as a publication and an oral presentation to a group of audience.

CJ 497. Field Experience. 1-6 Hour.
Students practicum in a criminal justice or related agency; course may be repeated in either the same or different agency; designed to enhance these experiences, supplementary readings and written assignments are required. Prerequisites: CJ 201 or consent of instructor; all core requirements must be completed before enrolling; may be repeated once for 3 credit hours.

CJ 499. Special Topics Criminal Justice. 1-8 Hour.
Specialized topics offered as regular classes; topics vary depending upon student and faculty interest. Prerequisite: CJ 201.

COMM 099. Recitals. 0 Hours.
This is a zero credit course required of all communication arts majors and minors, and is required each semester in attendance. It is designed to accumulate information about each student's required attendance at predesignated communication arts department recitals.

COMM 110. Fundamentals of Public Speaking. 3 Hours.
The theory and practice of public speaking with emphasis on topic selection, content, organization of material, language, methods of securing attention and maintaining interest, delivery and critical evaluation of informative and persuasive messages. May no be used as part of communication arts major, minor, of concentration.

COMM 120. Introduction to Broadcasting. 3 Hours.
Basic introduction to commercial and non-commercial broadcasting.

COMM 191. Freshman Seminar. 1 Hour.
Introduction to departmental requirements and opportunities. Pre-requisite: Communication major or minor.

COMM 210. Advanced Public Speaking. 3 Hours.
An advanced course in the art of oral discourse. Emphasis is placed on professional presentations, adapting to diverse audiences, logic, persuasion, and rhetorical analysis. Prerequisite: COMM 110 or consent of instructor.

COMM 211. Communication & Popular Culture. 3 Hours.
Includes analysis of audience, occasion, subject, and speaker. Subject matter will include such media as movies, songs, television, humor, fashion, public demonstration, advertisements, architecture, etc. Includes text readings, group discussion, analytical essays, and a critical paper and presentation.

COMM 212. Interpersonal Communication. 3 Hours.
Introduces fundamental concepts of communication between individuals. Exploring aspects of self expression, relationship communication-how people present themselves, and how others perceive them in return.

COMM 218. Public Relations Principles. 3 Hours.
An introduction to the theory and practice of public relations, emphasizing management functions, its publics, writing skills, communication process, tools, and professional ethics.

COMM 219. Mass Media and Society. 3 Hours.
Basic communication theory and its application to mass communication with emphasis on social, cultural, and political implication of the media.

COMM 220. Broadcast Advertising & Applications. 3 Hours.
This course will examine, through research and field experience, the fundamental elements of electronic advertising practices and applications. Students will learn success factors that increase the power of advertising through mass media. Restricted to sophomore, junior, and senior status.
COMM 221. PR & Media Writing. 3 Hours.
Introduction to basic writing skills in the field of public relations & the media. This is a writing intensive course. You will learn how to adapt message for various media & mediums. Specifically, you will learn to compose news releases, media advisories, internal communications information, and more. Active writing is a key component taught in this course. This course teaches students how to prepare professional public relations messages for print electronic media.

COMM 224. Social Media, Writing, and Design. 3 Hours.
Learn techniques used to capture readers’ attention in online and print media while combining images and text to tell the story.

COMM 225. Audio Production I. 3 Hours.
Laboratory and lecture course with emphasis on the principles and techniques of radio production and programming.

COMM 244. Reporting and Feature Writing. 3 Hours.
Introduction to news gathering, judgment, writing, history, conventions, and style of the news story, the newspaper feature story, and the magazine article.

COMM 281. Reporting & Editing. 1 Hour.
Laboratory course in which class members work on the campus paper and attend staff meetings. Repeatable up to eight credits.

COMM 283. TV Activities. 1 Hour.
An opportunity for students to work on various projects that they will produce for on and off campus. Repeatable up to eight credits.

COMM 284. Radio Activities. 1 Hour.
An opportunity for students to work on various audio projects that they will produce for on and off campus groups. Repeatable up to eight credits.

COMM 285. Communication Arts Activities. 1 Hour.
The participation in a significant capacity in any communication arts activity above and beyond the requirements of a specific course. Repeatable up to eight credits.

COMM 286. Promotions Activities. 1 Hour.
The course provides students with an understanding of how to strategically plan promotions. Students are able to engage in real life events activities such as planning, marketing, advertising, production, writing, and more. Students are taught time management along side promotions. This course specifically directs students to have hands on experience within the Broadcasting Department. More directly, writing newsletters, promotions of channel 19, alumni relations, web site writing & creation, and advertising.

COMM 291. Sophomore Seminar. 1 Hour.
Study of communication (people, events, activities) as determined by student/professor consultation. Pre-requisite: Communication major or minor.

COMM 297. Internship. 1-2 Hour.
Hands-on experience in the discipline. Restricted to Communication majors or minor or consent of instructor.

COMM 299. Special Topics. 1-8 Hour.

COMM 311. Oral Interpretation. 3 Hours.
The study of literature for performance with emphasis on written and verbal analysis. The technique of performance applied to oral reading of literature.

COMM 315. Persuasion & Argumentation. 3 Hours.
An investigation of the structure, types, and tests of persuasive arguments with practical application through rhetorical analysis and speeches. Prerequisite: COMM 110 or consent of instructor.

COMM 316. Group Dynamics. 3 Hours.
Study of techniques of group discussion and small group theory with emphasis on participating in various types of discussion and conferences.

COMM 317. Rhetorical Theory. 3 Hours.
A study of the development of rhetorical standards and practices from ancient time to the present.

COMM 318. Organizational Communication. 3 Hours.
The course is a study of communication practices in organizations by examining organizational structure, leadership, teambuilding, and ethics. The course will include communication areas such as diversity, conflict, stress, and technology.

COMM 322. Media Sales and Analysis. 3 Hours.
A close up look at the business of broadcast advertising, including radio, TV, and cable.

COMM 323. Journalism History. 3 Hours.
Examination of the news gathering function of the mass media with special emphasis on press theory and the development of thought of freedom of expression.

COMM 324. Community Relations. 3 Hours.
This course examines current communication strategies used to establish and maintain contact with communities. Sects of society integrate communication differently and it’s essential to a public relations practitioner to understand those levels of communication. This class explores a variety of ways to maintain community relations, focusing specifically on technology and social networking. Most importantly it informs students how to utilize community resources to promote strong community relations.
COMM 325. Campaigns and Strategies. 3 Hours.
This course will explore marketing, public relations, and advertising relationships in today's market. The textbook, classroom lectures, guest speakers, and assignments will build a solid foundation in the fundamentals needed to develop and implement campaigns and strategies in the field of public relations, advertising, and marketing. Prerequisites: COMM 218 and junior or senior status.

COMM 326. Media Announcing. 3 Hours.
Theories, practices, and techniques of "on-air" presentation will be the focus of this course. Students will develop the skills necessary to perform a variety of media announcing tasks. Students will study the techniques and styles required to perform as media newscaster, interviewers, program hosts, commercial and public service announcers. Prerequisite: COMM 120 or consent of instructor.

COMM 328. Play by Play Communication. 3 Hours.
Focuses on the theory and practice of electronic media sports coverage, with an emphasis on the role, skills and practice of radio and TV sports announcers and electronic sports media journalism. The class includes play-by-play broadcasts and a class project.

COMM 329. Sports Television Production. 3 Hours.
Professional sports media at an advanced level. Special topics in areas such as sports media production, announcing, performance and sports feature. The course will emphasize other performance situations, such as producing and anchoring radio and television sportscasts. After completing this course, students will be able to develop, write, produce, perform as talent and post-produce programming for broadcast sports media.

COMM 344. Investigative Reporting. 3 Hours.
This course is an introduction to the subject matter, techniques and ethics of investigative reporting. It will include such topics as secondary sources, primary documents, people sources, computer-assisted reporting, writing projects, accuracy and ethics. Prerequisite: COMM 244.

COMM 354. Special Events Planning. 3 Hours.
The course will introduce students to special events processes and techniques. Students will become knowledgeable about model workplace skills, leadership development, promotions, media relations, and production associated with an event. Site selection, program planning, and material development will be among other designations for the course.

COMM 360. Video Production I. 3 Hours.
Emphasis on the operation of video, audio, and editing equipment. Prerequisite: COMM 120.

COMM 361. Broadcast News Writing. 3 Hours.
Intensive survey and application of gathering, writing, and presenting.

COMM 362. Broadcast News Gathering. 3 Hours.
An introduction to the practical knowledge of basic electronic news gathering production techniques, as well as to learn to operate equipment associated with ENG. Students will learn the correct terminology and the basic formats of ENG. Prerequisite: COMM 360.

COMM 388. Communication for Educators. 3 Hours.
This course is designed for students pursuing an education or related degree. It will include the study of various communication opportunities faced by person in a profession educational setting.

COMM 389. Directing Forensics. 2 Hours.
Theory, philosophy, and practice in speech contest/festival design and of coaching individual forensic events and debate. Designed for the teacher who will be asked to coach speech on the secondary level. May be taken at the same time as student teaching.

COMM 390. Communication Arts Methods. 4 Hours.
Methods and materials for creative teaching of speaking, listening, and theatre and broadcast activities, in today's secondary school environment. Prerequisite: Admission to Teacher Education.

COMM 394. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of communication. Pre-requisite: Communication major or minor.

COMM 395. Service Learning. 3 Hours.
Students will utilize reflection and research (both primary and secondary) to integrate (a) personal community or global service experience(s). Prerequisite: Communication major or minor.

COMM 397. Communication Arts Practicum. 1-3 Hour.
Student Internship with application of specialized speech techniques in broadcasting, theatre, or other areas of communication arts.

COMM 410. Advanced Problems. 3 Hours.
Courses beyond the present offerings on broadcasting, speech communication, and theatre arts. No more than three courses may be accrued.

COMM 412. Communication Law and Ethics. 3 Hours.
A study of the regulatory policies (federal, state, and municipal), history of free speech, the responsibility of the media, the responsibility of the individual as sender and receiver of messages, and ethical decision making in modern electronic and print media. The course will focus on current communications issues in social and workplace settings.

COMM 413. Gender Communication. 3 Hours.
Course designed to explore the theories surrounding differences and similarities in male and female communication. Focus on ways in which gender roles originated and are sustained in a variety of context including families, organizations, institutions, peer groups, the media, and interpersonal relationships. Prerequisites: COMM 110 and junior of senior status.
COMM 425. Crisis Communication. 3 Hours.
This course develops the public relations practitioner from a theoretical and professional approach. Students will learn how to incorporate grounded theory into crisis management plans. This course develops the research base focusing on fundamental case studies within the field in order to develop a proactive approach to crisis management. Students will learn how to use an ethical framework when engaging communities, organizations or the society at large before, during and after a crisis situation. Prerequisite(s): COMM 218.

COMM 460. Advanced TV and Social Media Production. 3 Hours.
Use of TV video, audio, and editing equipment in various news and commercial applications. Prerequisite: COMM 360.

COMM 475. Broadcast Production. 1-3 Hour.
The operations, techniques, and practices of broadcast production. Activities include originating, acquiring, organizing, and assembling news segments into a complete television program. Can be repeated for up to eight credits. Prerequisite: COMM 360.

COMM 492. Senior Portfolio. 1 Hour.
In this course, students will present their final portfolios prior to graduation. The portfolio will be compiled throughout the student's academic career and include professional quality elements for the student to market him-/herself to potential employers. Portfolios may include coursework and/or work from an internship. Prerequisite: COMM 099.

COMM 497. Broadcast Practicum. 4 Hours.
Internship in the mass communication field allowing the students to put into practice, in a professional setting, those techniques and theories learned in their coursework. Prerequisites: Completion of 40 credits in communications with a 2.75 GRA in major.

COMM 499. Special Topics. 1-8 Hour.
CSCI 101. Introduction to Computer Science. 3 Hours.
General hardware and software issues such as: terminology, environments. Applications such as: word processing, spreadsheets, databases, Internet usage.

CSCI 110. Foundations of Computer Science. 3 Hours.
Introduction to computer science concepts and terminology including: generic data types, data representation, operating systems and system software, von Neumann architecture, OS and hardware usage, installation and maintenance, cyber security and privacy, and networking concepts.

CSCI 111. Introduction to Web Languages. 4 Hours.
Introduction to programming in a high-level language. Emphasis on problem solving and logical thinking. Design, implementation and testing of programs for small scale problems using elementary data types and control structures using web programming languages.

CSCI 112. Visual Basic and VBA. 4 Hours.
Introduction to programming in the Visual BASIC and Visual Basic Application. Prerequisites: CSCI 111.

CSCI 127. Beginning JAVA. 4 Hours.
An introduction to programming in the Beginning JAVA language. Prerequisite: Student must complete CSCI 120 or have consent of the instructor before enrolling in this class.

CSCI 160. Computer Science I. 4 Hours.
An introduction to computer science, with problem solving algorithm development, and structured programming in a high-level language. Emphasis is on design, code debug, and document programs, using techniques of good programming style. Prerequisites: CSCI 111 and ASC 93 with a C or higher in both courses or instructor consent.

CSCI 161. Computer Science II. 4 Hours.
Object-oriented concepts, terminology and notation. The C++ language is explored including topics such as dynamic memory, exception handling, function and class templates, operator overloading, inheritance, polymorphism, and generic programming with the standard template library. Additional topics may include GUI libraries. Prerequisites: CSCI 160 and MATH 103 with a C or higher in both courses.

CSCI 177. Intermediate JAVA. 4 Hours.
Intermediate level programming in the JAVA language. Prerequisite: CSCI 127.

CSCI 221. Web and Internet Programming. 4 Hours.
Service side programming for the WWW. Emphasis on servlet programming and distributed component programming using API's for object serialization, remote method invocation, database connectivity and XML generation. Prerequisite: CSCI 161 with a C or higher.

CSCI 242. Algorithms & Data Structures I. 4 Hours.
Advanced programming techniques including recursion divide-and-conquer, and backtracking will be considered. Dynamic and static data structures including lists, stacks, and queues. Modular programming, program specification and verification, and analysis of algorithms. Prerequisites: CSCI 161, MATH 107 or both MATH 103 and MATH 105 with a C or higher in all courses.

CSCI 243. Algorithms & Data Structures II. 4 Hours.
Advanced programming techniques including sorting, binary trees, AVL trees, graphs and networks. A discussion of searching techniques for conceptual graphs and networks and additional searching strategies. Analysis of algorithms will also be presented. Prerequisite: CSCI 242 with a C or higher.

CSCI 260. UNIX Environment. 4 Hours.
An introduction to the UNIX environment. Basic tools and utilities. Shell programming. Prerequisite: CSCI 160.
CSCI 275. Computer and Digital Hardware I. 4 Hours.
Fundamentals of digital systems, data representations, mathematics digital systems, microprocessor design and instruction sets, introduction to
laboratory equipment. Prerequisites: CSCI 161, MATH 107 or MATH 103 and MATH 105 with a C or higher in all courses.

CSCI 297. Internship. 1-8 Hour.
Supervised professional work experience in a cyber-technology environment at the 100 & 200 course level. May not be counted towards earned credits
for major or minor. Student must have departmental approval before enrolling.

CSCI 299. Special Topics. 1-4 Hour.
Prerequisite: CSCI 101.

CSCI 321. Windows Programming. 4 Hours.
Development of applications for the Windows environment and use of a standard library and its classes. Prerequisite: CSCI 161 with a C or higher.

CSCI 323. Robotics. 4 Hours.
Introduction to robotics emphasis is on the computer design, programming of autonomous robot systems, basic dynamics and control of motion,
sensors, and artificial intelligence techniques for robot applications in the real world. Individual and group projects analyze robot control problems,
designing hardware, and software solutions. Students write basic control programs for different robot platforms and apply state-of-art artificial intelligence
techniques to the control of robotic mechanisms. Prerequisite: CSCI 161 with a C or higher.

CSCI 330. Software Engineering and Testing. 4 Hours.
The principle, methods and models used to develop and manage software projects, including test implementation of a large-scale project. Prerequisite:
Student must complete CSCI 161, 275 and 340 with a C or higher before enrolling in this course.

CSCI 331. Social Implications. 4 Hours.
An introduction to: The effects of computer technology (hardware and/or software) on society and individuals; ethical problems faced by computer
professionals; human interaction and interfacing with computer technology. Prerequisite: CSCI 161, 275 and 340 or instructor consent.

CSCI 335. Theoretical Computer Science. 4 Hours.
Models of computation, regular expressions, finite automata, Kleene's Theorem, lexical analysis, context-free grammars, pushdown automata,
inroduction to parsing. Prerequisites: CSCI 242, CSCI 275, MATH 208, and MATH 209 with a C or higher in all courses.

CSCI 340. Computer Networks I. 4 Hours.
Introduction to network design and management. Topics include the local area networks, wireless networks and communication systems, OSI and TCP/
IP Models, signals and modulation, protocol designs such as Ethernet, Wifi, Bluetooth, cellular networks, ad hoc networks, flow control, error handling,
routing, interfaces, and applications. Prerequisites: CSCI 161, CSCI 275, MATH 107 or MATH 103 and MATH 105, MATH 208, and MATH 209 with a C
or higher in all courses.

CSCI 352. Comparative Languages. 4 Hours.
Comparison of procedural and non-procedural languages. Study of strengths and weaknesses of language for solving various problems. Introduction to
implementation issues such as memory allocation. Prerequisite: CSCI 242.

CSCI 356. Database Management I. 4 Hours.
Introduction to database management systems, database theory and schema design, and programming, including data modeling, set theory, relational
calculus, functional and multivalued data dependencies, and normalization. Various database models are discussed including, relational, NoSQL,
external, hierarchical, and inverted files, and database management and security. Prerequisites: CSCI 161 and MATH 209 with a C or higher in all
courses or BIT 312 or department approval.

CSCI 360. Systems Programming. 4 Hours.
Programming using interrupts and operating systems services. Device driver implementation. Brief comparison of different hardware systems.
Prerequisites: CSCI 242, CSCI 275, MATH 208, and MATH 209 with a C or higher in all courses.

CSCI 370. Computer Organization. 4 Hours.
The structure and organization of computer hardware. Register implementation and usage. Memory management. Comparison of Architectures.
Prerequisites: CSCI 161, CSCI 275, MATH 208, and MATH 209 with a C or higher in all courses.

CSCI 375. Computer and Digital Hardware II. 4 Hours.
Advanced applications of digital systems, builds on the content of CSCI 275, emphasis on system designs. Prerequisite: CSCI 275.

CSCI 391. Teaching Computer Science. 2 Hours.
Classroom management and equipment. Analysis of student difficulties, survey of current literature, observation, and practicum. Prerequisites: CSCI
160, 250 and admission to Teacher Education.

CSCI 440. Data Communications & Computer Security. 4 Hours.
Network administration and management of data protocols and models, basic configurations, software, hardware, and routing applications. Problems of
computer security and possible solutions, internet security, secure operation system and kernels, with an emphasis on applications. Prerequisite: CSCI
340 with a C or higher.

CSCI 450. Operating Systems. 4 Hours.
Design and implementation of operating systems. Study of the control of and communication between interacting processes. Resource allocation and
management in a multiprogramming environment. Prerequisites: CSCI 360 and CSCI 370 with a C or higher in both courses.
CSCI 452. Compiler & Interpreter Construction. 4 Hours.
Theory and practice of program translation. Lexical and syntactic analysis, error detection and response, optimization. Prerequisites: CSCI 275 and CSCI 335 with a C or better in both courses.

CSCI 456. Database Management II. 4 Hours.
Advanced database theory and applications. Students will be expected to have a solid foundations in normalization and database programming. Students will be expected to apply their knowledge of set theory, relational calculus and normalization to design and develop a large database project in a relational database system and create an application which uses the database in the programming language of their choice from a large data set. Prerequisite: CSCI 356 with a C or higher.

Introduction to computer and network security. Topics covered include the CIA triad model, symmetric and public-key encryption algorithms, hashing algorithms, and securing data storage, application and communications systems, firewalls, penetration testing, vulnerability assessments, reverse engineering, malware and ethics. Prerequisites: CSCI 340 and CSCI 370 with a C or higher in both courses.

CSCI 460. Capstone Project. 4 Hours.
The student chooses a research or software development project in consultation with the instructor. The student prepares a project proposal discussing the scope of the project and develops it to those specifications. On completion of the project the student is expected to present the results of their work and submit a final report. It is recommended that the project is focused on student’s chosen field of study. Prerequisites: CSCI 242, CSCI 340, CSCI 356, and CSCI 370 with a C or higher in all courses.

CSCI 497. Internship. 1-8 Hour.
Supervised professional experience in computing applications. A maximum of two credits may be counted toward a major or minor. May be repeated up to a total of eight credits. Grading is pass/fail. Prerequisite: Departmental Approval.

DTS 200. Special Topics In Dts. 1-8 Hour.
DTS 225. Introduction To Safety Education. 1 Hour.
Promotes general safety with special emphasis on school bus safety, fire safety, and tornado safety.

DTS 230. Driver & Traffic Safety Education. 3 Hours.
Introduction to driver and traffic safety education. A review of various high school textbooks and other teaching tools.

DTS 250. Defensive Driving. 1 Hour.
Classroom course that is a part of the National Safety Council’s Diver improvement program. Successful completion allows a three point reduction on a licensee’s driving record.

DTS 260. Teenage Driving Behavior Problems. 2 Hours.
Teaches prospective driver about the past problems concerning teenage traffic offenders. Assists driver educators in adjusting classroom presentations to address problems with beginning teenage drivers.

DTS 350. Advanced Driving. 3 Hours.
Advanced driving to improve skills, perception, decision making, and general driving ability.

DTS 390. Traffic Law. 3 Hours.

DTS 399. Independent Study General Dts. 1-4 Hour.

DTS 450. Organization & Administration of Safety Education. 2 Hours.
Basic concepts and development of the four phase program: dual controlled car, simulator, multiple car driving range, and classroom. Corequisite or Prerequisite: DTS 230.

DTS 452. Instruction in Range, Simulator and In-Car. 3 Hours.
Instruction in the use of electronic driving simulator, equipment, multiple care driving range, and dual controlled car. Prerequisite: DTS 450.

DTS 454. Driver Education for the Disabled. 2 Hours.
Instruction in dual-controlled cars with special hand controls for teaching the handicapped. Prerequisite: DTS 450.

DTS 499. Independent Study Honors Dts. 1-8 Hour.

ECE 310. Introduction to Early Childhood Education. 3 Hours.
Study of early childhood learning theories, developmentally appropriate materials. classroom arrangement, observational techniques, and curriculum planning. Actual experience with materials, observation, and field experience.

ECE 312. Methods: Arts Integration. 2 Hours.
This course explores and uses the fine and performing arts as primary pathways to learning in young children. Includes selecting materials, creating environments, and planning lessons and activities that integrate art, music, and movement across curriculum disciplines.

ECE 313. Language Development and Emerging Literacy. 3 Hours.
Language activity includes speaking, writing, reading, and listening. Coursework will center on how language is acquired, the functions of language and how language develops. Examine how teachers can best support the growth of children as language learners and users.
ECE 314. Mathematics & The Young Child. 2 Hours.
This course explores curriculum and methods for teaching mathematics in pre-K through grade 3. Candidates actively engage in projects and activities that help them develop a conceptual understanding of teaching mathematics in a cooperative and constructionist environment where children view themselves as mathematicians. Emphasis is placed on the use of manipulatives, problem solving activities, and children's literature in the planning and organizing of developmentally appropriate classroom activities and lessons.

ECE 316. The Emergent Reader. 2 Hours.
This course explores a wide variety of developmentally appropriate instructional practices for teaching early childhood learners multiple ways of communicating and experiencing language through books and media programs. Emphasis is placed on integrating reading, writing, speaking, and listening as forms of creative personal expression. Effective methods of teaching children how to decode and encode print are studied. Prerequisites: Students must complete ECE 335 and be admitted to Teacher Education before enrolling in this course. Corequisites: Students must also be enrolled in ECE 310, 312, and 314 at the same time.

ECE 320. Infant/Toddler Development. 2 Hours.
This course explores the child's growth and development from birth to 36 months. It will give candidates a basis for understanding normal developmental needs of children and a means of meeting them in the children's home, childcare center, and community environments.

ECE 322. Leadership & Supervision in Early Childhood Education. 2 Hours.
This course explores effective organization of early childhood programs and looks at managing the day-to-day operations of a program. Candidates examine leadership frameworks and unique leadership styles, and how to apply the principles of leadership to create a vision, become an agent of change, and model professional and ethical behavior. Candidates examine supervision frameworks for effective recruitment, selection, and orientation practices. Candidates study a comprehensive model for supervising staff, promoting ongoing professional development and creating a strengths-based team in nurturing positive teaching/learning environments.

ECE 333. Preschool Methods and Materials. 3 Hours.
Study of development of 4-7 year olds and procedures in preschool planning including teaching techniques and expressive materials for the campus preschool. Prerequisite: Students must complete ECE 310 before enrolling in this course.

ECE 338. Home School Community Relations. 2 Hours.
This course explores home-school-community relations. The content includes the role of the Dollars and Sense team, parent involvement in school, parent-teacher conferences, home visits, parent and community programs, and community resources for parents.

ECE 361. Observation and Assessment ECE. 3 Hours.
Students will learn about and actively engage in a variety of observational methods to assess the social, motor, and cognitive growth of young children. Prerequisite: Student must complete ECE 310 before enrolling in this course.

ECE 430L. Pre-School Practicum. 1 Hour.
Students will work in the Minot State University Preschool, with direct application of those concepts learned in ECE 361 and ECE 333. Corequisites: Students must take ECE 361 and ECE 333 at the same time. Course is restricted to Early Childhood Education majors and Elementary Education majors with a Kindergarten Concentration. Admittance to teacher education is required.

ECE 436. Kindergarten Methods and Materials. 3 Hours.
Exploration of curriculum, methods, and materials for use in kindergarten settings. Prerequisite: Student must complete ECE 310 before enrolling in this course.

ECON 201. Principles of Microeconomics. 3 Hours.
Supply and demand, price and output determination in the product and resource markets, consumer demand, elasticity, costs and profits, and intentional trade.

ECON 202. Principles of Macroeconomics. 3 Hours.
Nature, method, and scope of economic analysis; nature of economic growth; inflationary tendencies and unemployment, monetary and fiscal policies, international finance. (May be taken before 201.)

ECON 299. Special Topics. 1-8 Hour.

ECON 312. Price Theory. 3 Hours.
Analysis of individual consumer demand, principles of production, costs, pricing and output decisions under different market structures. Prerequisite(s): ECON 201.

ECON 314. National Income Analysis. 3 Hours.
Study of major movements in national income, production, employment, price levels, as well as policy related to growth and equilibrium. Prerequisite(s): ECON 202.

ECON 315. Labor Economics. 3 Hours.
Survey of labor-management relations that examines the policies and objectives of labor unions history and government, organizing, and bargaining, economics of the labor market and wage determination, government control and major laws that affect labor-management relations. Prerequisites: ECON 201 and 202.
ECON 318. Money and Banking. 3 Hours.
Nature and function of U.S. depository institutions (especially commercial banks, saving and loans, and credit unions); their regulation with particular emphasis on the Federal Reserve System’s monetary policy and instruments of control and an introduction to monetary theory. Prerequisites: ECON 201 and 202.

ECON 320. Environ and Nat Resource Econ. 3 Hours.
This class engages students in standard economic theory through the lens of environmental issues such as global climate change and overpopulation. The approach of this class combines traditional microeconomic analysis with a detailed examination of macro-level ecological problems that require local, national, and global policy solutions. It discusses how to utilize natural resources efficiently and issues related to the usage of natural resources. Prerequisite(s): ECON 201.

ECON 394. Independent Study General Econ. 1-4 Hour.

ECON 410. Managerial Economics. 3 Hours.
Managerial Economics is an application of the part of Microeconomics that focuses on the topics that are of greatest interest and importance to managers. The purpose of learning this subject is to help managers make better decisions. Topics include demand and cost analysis, market structure, pricing decision, and government regulations. Some powerful analytical tools such as regression analysis, business forecasting, and linear programming will also be covered to assist the decision making process. Prerequisites: ECON 201 and 202.

ECON 414. International Economics. 3 Hours.
Study of the causes fo international trade, classical and neoclassical models of international trade, the movement fo money, goods, and factors fo production over national boundaries, role of trade barriers and balance of payments. Prerequisites: ECON 201 and 202.

ECON 418. History of Economic Thought. 3 Hours.
Study of evolution of economic thought under different social and political background, like mercantilism, physiocracy, classical economies, historical school and Socialist doctrines. Prerequisites: ECON 201 or 202.

ECON 419. Economic Planning & Development. 3 Hours.
Study of basic techniques and methods in planning which facilitate various levels of economic development. The application of the planning strategies necessary to effect desirable economic development is also undertaken. Prerequisites: ECON 201 and 202.

ECON 421. International Energy Markets. 3 Hours.
This course introduces students to the International Energy Markets. It will examine energy industry market structure and how it relates to business decision making. The course will provide fundamental economic knowledge needed to implement decisions related to the energy industry. It will review supply and demand structures of the energy market as well as various energy forecasting methodologies. The course will use energy data analysis methodology as a tool for analyzing future energy requirements. Prerequisites: ECON 320 and 312.

ECON 494. Independent Study Honors Econ. 1-8 Hour.

ECON 499. Special Topics. 1-8 Hour.

ED 221. Diagnostic Teaching. 1 Hour.
This course provides an introduction to the concept and practice of diagnostic teaching and data driven instruction. Candidates will apply these principles and practices in a 30 hour tutoring experience.

ED 250. Foundations of Education. 2 Hours.
Study of the historical, philosophical, sociological, concepts that have impated the development of American public schools. Includes an orientation to the teaching profession and a field experience.

ED 250H. Foundations of Education. 2-3 Hour.
Study of the historical, philosophical and sociological concepts that have impacted the development of American public schools. Includes an orientation to the teaching professional and a field experience Pre-requisite: acceptance into the Honors Program and must be of sophomore, junior or senior status.

ED 260. Educational Psychology. 2 Hours.
Emphasis learning theory, effective teaching, classroom management and child development as applied to educational settings.

ED 260H. Educational Psychology. 2 Hours.
Emphasizes learning theory, effective teaching, classroom management and child development as applied to educational settings. Pre-requisite: Admitted to the Honor Program and of sophomore, junior or senior status.

ED 260L. Clinical I. 0 Hours.
The initial level clinical within the teacher education program provides candidates with 20 hours of observations in schools related to their major and the content in educational psychology. Prerequisite or Corequisite: Students must be enrolled in or have completed ED 260 before enrolling in this course.

ED 282. Managing the Learning Environment. 2 Hours.
Strategies for successfully creating a positive learning environment in the classroom; strategies for dealing with the disruptive student, strategies for creating positive parental involvement in student learning.

ED 282L. Clinical II. 0.5 Hours.
This entry level clinical provides candidates with 12 hours of experience in a variety of support programs and services in educational settings.
ED 284. Teaching Diverse Learners. 2 Hours.
Adapting teaching strategies to culture, ethnic, linguistic, developmental, and physical differences in the classroom. Collaborating with related professions in individualizing instruction.

ED 284L. Clinical III. 0.5 Hours.
This entry level clinical experience provides candidates with 30 hours of engagement with professional organizations and service learning in projects related to education in schools and the community.

ED 299. Special Topics. 1-8 Hour.

ED 320. Curriculum, Planning & Assessment I. 2 Hours.
The development of curriculum for the public schools and strategies for the planning, delivery, and assessment of instruction. Prerequisite: ED 260.

ED 321L. Clinical IV. 0.5 Hours.
This mid-level clinical experience provides students in teacher education with an extended experience in school working on academic interventions with small groups of students.

ED 322. Curriculum, Planning, and Assessment II. 2 Hours.
The development of assessment processes and tools based on the reciprocal relationship between instruction and assessment, with a focus on data driven interventions and instruction. Prerequisite: Students must complete ED 320 before enrolling in this course.

ED 323L. Clinical V. 0.5 Hours.
This mid-level clinical experience provides students in teacher education with an extended experience in a school working on academic interventions with small groups of students and designing appropriate assessments. Prerequisite: ED 320.

ED 324L. Fall Experience. 0 Hours.
This mid-level clinical experience provides students in teacher education with an extended experience in the fall semester observing and assisting with beginning of the year room design, organization, and classroom management policies and procedures.

ED 350. Middle School Philosophy & Curriculum. 3 Hours.
Acquaints students with the philosophy of middle school education and current practices in middle school curriculum, instruction, and assessment. Prerequisites: ED 320.

ED 380. Technology in Teaching. 2 Hours.
Strategies for the instructional uses of technology including multimedia presentation, e-mail, internet, spreadsheets, data bases, and emerging technologies. Prerequisites: Admission to Teacher Education and ED 320 or CD major or BS in Early Childhood major.

ED 394. Independent Study In Education. 1-4 Hour.

ED 402. Content Area & Develop Reading. 3 Hours.
The study of teaching reading at elementary, middle school, and high levels; ways of responding to literature and other written materials, content area reading for different purposes, application of strategies and study skills, and use of a variety of performance assessments. Prerequisite: Student must complete ED 320 before enrolling in this class.

ED 440. Remedial Reading. 3 Hours.
Diagnosis and treatment of children with reading difficulties. Prerequisites: Admission to Teacher Education and ED 352.

ED 441. Clinical Practice in Remedial Reading. 3 Hours.
Supervised practice in a clinical remedial reading situation. Prerequisites: Admission to Teacher Education and ED 440.

ED 451. Middle School Teaching Strategies. 3 Hours.
Designed to develop the skills and teaching strategies to implement a middle school program. Stresses teaming, thematic curriculum development, advising, and working with parents. Prerequisites: Admission to Teacher Education and ED 320.

ED 480. Clinical Practicum in Education. 1-5 Hour.
This course in designed to give education majors an opportunity to have 30 hours of practical experience. Placements in schools settings are arranged by the Teacher Advisement and Field Placement office. Prerequisites: Admission to Teacher Education, a methods class, and departmental approval.

ED 482. Student Teaching Seminar. 2 Hours.
This seminar will provide support to candidates as they complete the final phase of their teacher education program. Topics relevant to student teaching will be discussed. Corequisite: Students must be enrolled in either ED 491, 492, 493, 494, or 495 at the same time as this course.

ED 483. Student Teaching Seminar. 2 Hours.
This seminar will provide support to candidates as they complete the final phase of their teacher education program. Topics relevant to student teaching will be explored including classroom management, diversity, technology, instructional strategies, assessment, and data driven instruction. Corequisite: Students must be enrolled in either ED 491, 492, 493, 494, or 495 at the same time as this course.

ED 484. Student Teaching Seminar. 2 Hours.
This seminar will provide support to candidates as they complete the final phase of their teacher education program. Topics relevant to student teaching will be explored including classroom management, diversity, technology, instructional strategies, assessment, and data driven instruction. Corequisite: Students must be enrolled in either ED 491, 492, 493, 494, or 495 at the same time as this course.
ED 491. Student Teaching Kindergarten. 4-16 Hour.
Supervised teaching in kindergarten. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other requires education coursework.

ED 492. Student Teaching, Elementary. 4-16 Hour.
Supervised teaching in elementary schools. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other requires education coursework.

ED 493. Student Teaching, Secondary. 4-16 Hour.
Supervised teaching in secondary schools. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other requires education coursework.

ED 494. Student Teaching K-12. 4-16 Hour.
Supervised teaching in both elementary and secondary levels in restricted areas. Prerequisites: Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other requires education coursework.

ED 495. Student Teaching, Special Areas. 4-16 Hour.
Supervised teaching in special areas: mentally handicapped and education of the deaf. Recommendation by advisor, division/department chairperson, and TEAC; admission to Teacher Education; and completion of all other required education coursework.

ED 497. Mentored Clinical Practice. 5-16 Hour.
This course is designed to provide a one-year mentored clinical internship for classroom teachers. Prerequisites include departmental approval and emergency licensure by the Educational Standards and Practices Board of North Dakota.

ED 499. Independent Study Honors Ed. 1-8 Hour.

ELED 352. Foundations of Reading. 3 Hours.
Principles, techniques, and approaches for implementing a developmental reading program in the elementary school. Prerequisite: Admission to Teacher Education and ED 320 or BS in Early Childhood major or CD major.

ELED 421. Elementary Mathematics Methods. 3 Hours.
Practicum in teaching mathematics to children in cooperative learning groups through the use of manipulative materials, symbolic representations, and problem solving approaches. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning processes. Prerequisites: Admission to Teacher Education, ED 320, MATH 277 and 377 or ECE 314. Corequisites: ELED 422, ELED 423, ELED 424, and SCI 426.

ELED 422. Elementary Language Arts Methods. 3 Hours.
Encompasses curriculum, theory, and methodology in language arts. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning processes. Prerequisites: Admission to Teacher Education and ED 320, ELED 352. Corequisite: ELED 422, 423, 424, SCI 426. Course restricted to Elementary Education and Early Childhood Education majors.

ELED 423. Elementary Reading Methods. 3 Hours.
Principles, techniques, approaches, and materials for teaching reading in grades K through 8. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning processes. Prerequisites: Admission to Teacher Education and ED 320, ELED 352. Corequisite: ELED 422, 423, 424, SCI 426. Course restricted to Elementary Education or Early Childhood Education majors.

ELED 424. Elementary Social Studies Methods. 3 Hours.
Curriculum, theory, and methodology in the teaching of social studies. Observation and participation in a planned teaching experience in a school setting will illustrate and support the learning process. Prerequisites: Admission to Teacher Education and ED 320. Corequisite: ELED 421, 422, 423, 424, SCI 426. Course restricted to Elementary Education or Early Childhood Education majors.

ELED 425. Elementary Education Practicum. 0 Hours.
This practicum course accompanies the 5 methods classes in elementary education and reflects approximately 150 hours in the elementary classroom.

ENGL 110. College Composition I. 3 Hours.
Guided practice in college-level reading, writing, and critical thinking. Emphasis on writing processes, and on approaches to critical reading. Does not apply toward the English major. Prerequisite: Students must complete ASC 87 with a C or higher, have an ACT English test score of at least 18, an SAT Reading & Writing score of at least 480, an ACCUPLACER test score of at least 5, or a PLAN test score of at least 15.

ENGL 111H. Honors Composition I. 3 Hours.
The first course in the honors curriculum. ENGL 111 takes the place of ENGL 110 and, if the student continues in the Honors Program, COMM 110 is required of all Honors Students earning a BSE degree. The course is reading intensive and encourages intellectual independence. Admission to the Honors Program is not a prerequisite, but ACT scores of 25 in reading and writing are required. Does not apply to the English major.

ENGL 120. College Composition II. 3 Hours.
Advanced practice in college-level writing from sources and in applying rhetorical strategies. Emphases in rhetorical strategies and incorporating research in academic writing. Does not apply toward the English major. Prerequisite: ENGL 110.

ENGL 121H. Honors Composition II. 3 Hours.
The second course taken in the honors curriculum. Replaces ENGL 120 in the general education program. Independent research and writing focuses in a rigorous study of literature. Prerequisites: ENGL 110 or 111H; admission to Honors Program or permission of the Honors Director. Does not apply toward the English major.
ENGL 191. English Community Seminar. 1 Hour.
This course is designed to be taken the spring following a student's declaration of an English or English Education major. The community seminar is an introduction to the English community at Minot State. Students will learn the many different areas of research within the field of English studies, become aware of club and academic opportunities within the department, and practice community building. Prerequisite: Students must be an English or an English Education major before enrolling in this course.

ENGL 209. Introduction to Linguistics. 3 Hours.
Enter level knowledge for the scientific study of language, including such topics as phonology, semantics, grammar, and related cultural history.

ENGL 211. Introduction to Creative Writing. 3 Hours.
Study and practice in writing techniques and strategies employed by writers in various genres, including fiction/creative nonfiction/poetry/teleplay/drama. Focus on developing skills in manipulating point of view, creating figurative language, writing realistic dialogue, developing themes and characters, and honing style to suit various audiences and genres. Read for craft by examining and analyzing the work of successful writers in various genres.

ENGL 220. Introduction to Literature. 3 Hours.
Reading and discussion of literary forms such as the short story, the novel, poetry, and drama, with emphasis on common literary terminology. Does not count toward the English major/minor.

ENGL 225. Introduction to Film. 3 Hours.
Introduction to the aesthetic, technical, and social significance of selected films, with emphasis on understanding basic film vocabulary and narrative structure. Four studio hours per week.

ENGL 227. Survey of Creative Nonfiction. 3 Hours.
This introductory survey course provides exposure to reading and analyzing a variety of creative nonfiction including reportage, criticism and commentary, memoir, and the personal essay to explore how the genre can be both honest and creative. Students will examine the use of voice, subjectivity, emotion, speculation, memory, humor, imagination, and the complicated idea of truth in nonfiction literature in its various forms, and discuss how nonfiction is conceived and constructed.

ENGL 231. Bible as Literature. 3 Hours.
Study of the Bible from a literary point of view.

ENGL 231H. Bible As Literature. 3 Hours.

ENGL 232. World Mythology. 3 Hours.
The study of representative myths, legends, and folklore from various cultures with emphasis upon the literary aspects of myth.

ENGL 238. Children's Literature. 3 Hours.
Introductory study of picture books and poetry; folk tales, fairy tales, myth, and legend; modern fiction, both realistic and imaginary, historical fiction, and biographical and informational books for children.

ENGL 240. World Literature. 3 Hours.
Study of diverse and significant literary texts in a variety of genres from antiquity to the present from a wide variety of cultures and nationalities in terms of their aesthetic quality, cultural values, and historical periods.

ENGL 251. Foundations in Brit Lit I. 3 Hours.
A survey of British literature from the Anglo Saxon period through the 18th century. Prerequisite: ENGL 110.

ENGL 252. Foundations in Brit Lit II. 3 Hours.
A continuing survey of British literature from the Romantic period to the present. Prerequisite: ENGL 110.

ENGL 261. Foundations in Am Lit I. 3 Hours.
A survey of American literature from the pre-Colombian aboriginal literature through the mid-nineteenth century. Prerequisite: ENGL 110.

ENGL 262. Foundations in Am Lit II. 3 Hours.
A survey of American literature from the mid-nineteenth century to the present. Prerequisite: ENGL 110.

ENGL 265. Native American Literature. 3 Hours.
The study of Native American Indian legends, poems, and stories with emphasis on contemporary writings.

ENGL 270. Introduction to Literary Criticism. 3 Hours.
The study of methods and assumptions of literary criticism, the reasons for and values to literary studies, and the formal academic discourse employed in English. Course serves as an introduction to the English major. Prerequisite: ENGL 110.

ENGL 299. Special Topics. 1-8 Hour.

ENGL 311. Contemporary American Poetry. 3 Hours.
This course explores the most exciting developments in American poetry from 1950 until the present. We will consider a wide array of poetic movements—the Beats, the New York School, Confessionalism, the San Francisco Renaissance, The Black Mountain group, the New Formalists, and the Language poets—in order to understand the aesthetic tendencies that inform American poetries being written today. In particular, we will examine key individual poets through close readings of their most exemplary work and how that work is emblematic of the social and historical milieu in which the poems were written.
ENGL 315. Profes and Tech Writing. 3 Hours.
Concentrated instruction and practice in technical and job-related expository writing.

ENGL 317. Teaching Writing. 3 Hours.
Study of methods of teaching writing with emphasis on contemporary theories. Prerequisite: ENGL 120.

ENGL 318. Writing Tutor Training. 1 Hour.
The course covers practices and theories for tutoring writers. Content includes the composing process, diagnosing problems, establishing rapport, managing research and helping with second language needs. Prerequisite: ENGL 120.

ENGL 318L. Supervised Writing Tutoring. 0 Hours.
Supervised tutoring experience in the Writing Center (20 hours). Prerequisites: Student must complete ENGL 110 and 120 with a grade of C or better. Prerequisite or Corequisite: be enrolled or have completed ENGL 318 before enrolling in this class.

ENGL 321. Topics in Creative Writing. 3 Hours.
This themed, team-taught creative writing course allows students further practice across genres of creative writing before entering advanced, genre-specific workshop courses. Themes and topics will change yearly to inspire students to explore new writing styles within the discipline and also gain exposure to diverse voices in poetry, fiction, and creative nonfiction.

ENGL 322. Am Dialects in Lit and Media. 3 Hours.
Examines American regional dialects (e.g. African American English, Chicano English, Appalachian English) and how those dialects are represented in literature and media. Students will explore the history, development, and linguistic features of various dialects, then they will read literature and watch films that make us of those dialects. Students will evaluate the effects of authentic and stereotypical representations of dialects on audience with an eye to exploring how these representations reflect attitudes towards dialects in America.

ENGL 324. Rhetoric of Everyday Life. 3 Hours.
This course is an introduction to modern rhetorical theory and the application of mid to late twentieth-century theories in analyzing, exploring, and interpreting our everyday experiences. In this course, students will continue the ongoing conversations of how we are influenced by the persuasive messages (written and performed) surrounding us in our cultures through rhetorical theories and how our personal histories influence the messages we receive.

ENGL 326. American Apocalyptic Lit. 3 Hours.
This course traces apocalyptic literature in the Americas from the Spanish explorers and Puritan settlers through to the twenty-first century. Students will read literature in a variety of genres and explore how both imagery and narrative tactics are critical in apocalyptic literature. Students will also explore how apocalyptic literature has indelibly marked American culture, politics, and social rhetoric. This course is a literary and cultural study course, not a religion or theology course.

ENGL 329. Coming of Age Literature. 3 Hours.
Students will discuss films and novels in which the main characters grow up. The texts' themes may include, but are not limited to, acculturation, appearance and reality, crime and punishment, death ecology, education, emotional and physical change, friendship, gender roles, human sexuality, individuals and institutions, individuals and society, love, race and ethnic relations, search for meaning, and spirituality. Students will select some of the texts through class vote.

ENGL 331. Ethnicity and Identity Search. 3 Hours.
The identity struggle that persons of specific ethnic backgrounds encounter in their cultural contexts. Texts (including films) and topics may vary and the ethnic focus may either be comparative or selective.

ENGL 334. Film Directors. 3 Hours.
According to the auteur theory, some directors are the dominant creators of their films. In the seminar we'll read selected materials about several major directors, view several films by each director, and identify and discuss the recurrent patterns, techniques, and meanings that are the directors' individual signatures.

ENGL 335. Film Genres. 3 Hours.
Films are commonly classified into broad categories, or genres, including action, war, western, comedy, science fiction, mystery/suspense, horror, drama, and family. In this seminar we'll discuss aesthetic conventions, content, cultural contexts, and socio-historical significance of films in three genres. We'll view nine or ten major films in total and we'll read selected materials.

ENGL 338. Topics in Adolescent Lit. 3 Hours.
Literature written for teenagers (ages fourteen through eighteen) is uniquely positioned because it addresses the emotional and social issues and fears unique to adolescence. In this course, students will read a variety of literature written for teens and through this literature, explore topics such as race, family, technology, and coming of age. Specific topics will vary each time the course is offered, but students will explore how writers attempt to address the concerns and problems of adolescents in an increasingly complex society.

ENGL 339. Topics in African Lit. 3 Hours.
The enormous effects of cultural change upon the Dark Continent will be studied through post-colonial African writers ranging from Chinua Achebe to V.S. Naipul. The course will continue with a study of contemporary African authors and literature.
ENGL 342. Gendered Literature. 3 Hours.
This course will explore through literature how gender intersects with other identity categories such as sex, class, sexuality, and race in shaping authorship, reading, and representation. Course materials will span time periods, cultures, and countries to investigate an array of experiences that interrogate concepts of gender. Through the course of the semester, students will explore the gender continuum, covering hegemonic masculinity, exaggerated femininity, and all the shades in between.

ENGL 343. Graphic Novels as Lit. 3 Hours.
Graphic novels have been labeled as "comics" and "pop" culture, unworthy of study; however, graphic novels are rising in popularity and prestige in this course, students will explore the evolution of the graphic novel, from its earliest forms through the present day, including stand alone novels and retellings of classical literature. Students will examine the ways in which artwork, narration, and dialogue interact to produce a hybrid piece of literature and will have the opportunity to write their own graphic novel manuscripts.

ENGL 345. American Noir. 3 Hours.
What used to be considered a sub-genre of detective or crime fiction, noir is more and more understood as a sub-genre of American modernism. Criminal and other "outsider" activity or behavior often drives the plot of noir fiction and film; however, this literature serves as the vehicle by which we can understand issues central to modern and contemporary (and literary) American life - issues such as class, race, gender, sexuality, sense of place, and/or belonging, moral codes, psychological well-being, achievement and success, and narrative style. Noir, then, develops and modifies popular literary and cultural formulas to address genuine social and aesthetic problems, and thus deserves the intense, focused analysis of this literature course.

ENGL 348. Language Arts for the Writer. 3 Hours.
The craft of writing with style is developed through the study of language arts and the close reading of a writer's (or writers') use of words, sentences, paragraphs, narration, characters, dialogue, details, and gestures. Personal selection of a writer by students.

ENGL 349. Chinese and Japanese Literature. 3 Hours.
This course will explore significant developments in Chinese and Japanese literature and art, as well as like developments amongst Asian minority groups, all discussed in their relationship to the literature of our own time and place. Includes works by Chinese T'ang poets and the creators of Japanese Noh Theater, among others.

ENGL 350. Literature of the Last Twenty Years. 3 Hours.
In this course students will read a selection of text written in the last twenty years in order to explore the place of recent text and literary trends within the study of literature. The course will offer a global perspective by featuring text from across the English speaking world. Students will think critically about the types of literature they have seen being widely distributed, adapted, and read during their lifetimes.

ENGL 355. Age of Shakespeare. 3 Hours.
Study of representative works of Shakespeare. Prerequisite: ENGL 110.

ENGL 357. Studies in Nineteenth Century American Literature and Culture. 3 Hours.
This course explores American literature of various kinds from the Revolutionary period, through slavery and Reconstruction, until the first wave of feminism (roughly 1770-1900). As literature reflects cultures, concerns, and issues, this textual study will allow readers multiple perspectives on struggles and triumphs throughout the period.

ENGL 358. Literature of the Upper Great Plains. 3 Hours.
Students will explore literature written in first-person about experiences of settling and of homesteading in the Upper Great Plains. Other accounts will be from children's perspectives of that was produced years after the fact. While much of the literature will be realism, some fiction will also be read for contrast. Students will compare accounts written by women and men, between Canada and Nebraska, between early nineteenth century and late twentieth century.

ENGL 359. Literature of the Wild. 3 Hours.
This course not only provides students with a focused way of examining how American nature writers have framed human interactions with the natural environment and how these writings are relevant to current ecological problems and issues, but it also asks that they inquire how cultural values have shaped our definitions of nature, our perceptions of and relationships to the natural environment, and our political priorities relative to the kinds of environmental problems and solutions that we address in the United States.

ENGL 360. Love, Lust, and Loss in Western Literature: The Pastoral, Elegiac, and Courtly Traditions. 3 Hours.
This course explores the development of literary traditions of love of Ancient Greece and Rome, Medieval, Renaissance, and Romantic English Literature, and its pertinence to love traditions of our own time. The course further considers two interesting corollaries of the literary love traditions: strange sex and weird spirituality.

ENGL 363. Magical Realism. 3 Hours.
Magical realism is a loosely defined and broadly descriptive genre in which natural laws are occasionally stretched or ignored. In this course students will explore the genre's range and variety. The reading and viewing lists will emphasize Mexican and Latin American novels and films. Students will explore the themes, characteristics, objectives, and attitudes of magical realism in order to better understand the genre's focus on the mysteriousness or everyday real.

ENGL 365. Media English. 3 Hours.
Methods for incorporating the production, editing, and publishing of computer-based media into the English classroom are developed by using computer graphics, video recorders, Google docs, pods, blogs, social networks, and other net tools.
ENGL 367. Media Literacy. 3 Hours.
In order to address the increasingly visual and digital demands of our culture and the citizen it produces, this course will explicitly deal with the dissemination of information and culture via different forms of popular media. Based on the idea that everything produced by our culture is readable text, students will read and produce both traditional and non-traditional texts in a variety of media. Students will also explore how different media changes, how we process information and the impact they have on important concepts such as identity, self, culture, community, authority, and argument.

ENGL 368. Place in Detective Fiction. 3 Hours.
From Sam Spade's San Francisco to Spenser's Boston to V.I. Warshawski's Chicago, place plays a huge role in the detective novel, often becoming a character itself. This course will examine the role of place, both real and invented, in detective novels and films. Students will read detective fiction and watch several films and through this, they will examine how the place in which a detective operates affects the unfolding of the mystery and the detective's attempts to find out "whodunit."

ENGL 373. World Drama. 3 Hours.
Study of diverse and significant dramatic texts from antiquity to the present from a wide variety of cultures and nationalities in terms of their aesthetic quality, cultural values, and historical periods.

ENGL 374. Reading the Built Environment. 3 Hours.
With over three-quarters of America's population now living in cities, the dynamic between humans and the environment has shifted away from the natural to the built. This course will explore the varied interactions between cities/towns and the people who live there. Students will read literary and spatial texts in order to challenge the definition and experience of community and how it changes and adapts depending on the built environment that surrounds it - the spaces where cities bleed into one another, where nature has reasserted itself within the city, or where previously vibrant small towns and city centers stagnate.

ENGL 376. The American Century: American Literature and Culture in the Twentieth Century. 3 Hours.
In this course, students will read literature produced by twentieth-century American writers, and through it explore issues of race, class, gender, and region or place. Students will also study the critical theories and aesthetic movements associated with the terms modernism and postmodernism. Students will also investigate how literature and culture intersect and inform one another.

ENGL 378. The Modernists. 3 Hours.
This course examines that crazy experimental time in early twentieth century arts and letters when the idea of form explodes, creating all kinds of new literary and aesthetic models that changed our world. Includes works by T. S. Eliot, Gertrude Stein, William Butler Yeats, Virginia Wolf, Henry Green, Ezra Pound, and others, situated in the historic context of the two World Wars.

ENGL 383. Topics in Black American Literature. 3 Hours.
This course includes both fiction and non-fiction with readings from oral traditions and slavery to that of the nineteenth and twentieth centuries. Topics may focus on slavery, legal cases, migrations, language (dialect to rap) or other topics. We will explore the relationships between Black Americans and hegemonic groups, and the impact of African-Americans/Blacks upon the people and cultures of America.

ENGL 385. Tracking the Sword in the Stone: Arthurian Legend Then and Now. 3 Hours.
This course examines the development of Arthurian Legend from its sixth century British origins through the European Middle Ages and unto the present day, for Arthur, they say, is still among us.

ENGL 389. Warriors, Marchers, and Martyrs. 3 Hours.
The literature of collisions are studied, whether those collisions are political, military, cultural, racial, economic, religious, environmental, gendered, or sexual oppressions or crises. Texts (including films) and topics may vary.

ENGL 390. Secondary Language Arts Methods. 4 Hours.
Theory and practice in teaching literature, composition, and language in the secondary school. Includes practicum. Prerequisite: Admission to Teacher Education.

ENGL 391L. Junior Research Lab. 0 Hours.
This course is designed to be completed the spring semester prior to Senior Seminar (ENGL 491). In this research seminar, students will begin the research process for their senior seminar paper, select a second reader within the English department, and craft a research proposal and annotated bibliography pertaining to their research paper for Senior Seminar. Prerequisite: Students must be an English or an English Education major before enrolling in this course.

ENGL 397. Internship. 1-6 Hours.
Hands-on experience in the discipline. Placement determined at time of internship. May be repeated as desired. Prerequisite: Restricted to students who are English or English Education majors.

ENGL 399. Special Topics. 3 Hours.

ENGL 400. Studies in British Literature. 3 Hours.
Advanced study in themes, authors, genres within British Literature. Faculty teaching the course will provide sub-title descriptors for registration and transcription.

ENGL 401. Studies in American Literature. 3 Hours.
Advanced studies in various themes, authors, genres of American Literature.

ENGL 402. Studies in Literature and Culture. 3 Hours.
Advanced study in various themes, authors, genres in Literature and culture, to include World Literature.
ENGL 410. Fiction Workshop. 3 Hours.  
Concentrated instruction and practice in writing fiction.

ENGL 411. Poetry Workshop. 3 Hours.  
Concentrated instruction and practice in writing poetry.

ENGL 412. Creative Nonfiction Workshop. 3 Hours.  
Concentrated instruction and practice in writing creative nonfiction.

ENGL 430. Advanced Seminar in Literature. 3 Hours.  
Intensive exploration of selected literary texts and topics. May include literary and nonliterary cultural texts and genres, historical periods, oral and written forms, dramatic texts, the roles of audience, gender, class, nationalism and/or other social relations. May be repeated for credit as content changes. The seminar method will be used as the organizational norm for the class. In this method, students can expect to lead class discussions and openly critique the work of others in the class. Prerequisite: Students must complete ENGL 110 and ENGL 120 before enrolling in this course.

ENGL 435. Major Writers. 3 Hours.  
Intensive study of selected literary works by major authors. Authors and selections will vary from semester to semester. Prerequisites: ENGL 120 and one 300-level English course or consent of instructor. May be repeated for credit as content changes.

ENGL 470. Advanced Seminar in Literary Criticism. 3 Hours.  
Intensive exploration of one school (or related schools) of modern literary theory. Focus will be on primary works of criticism, not literature. May repeat for credit as content changes. Prerequisite: ENGL 270.

ENGL 491. Senior Seminar. 3 Hours.  
In-depth study of literary issues. Serves as capstone course for English degree. Prerequisites: ENGL 120, 191, 391, and senior status. Course restricted to majors.

ENGL 494. Independent Study Honors Eng. 1-8 Hour.  

ENGL 496. Study Abroad. 1-6 Hour.  
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count toward English major/minor/BSE.

ENGL 497. Internship. 4-12 Hour.  
Hands-on experience in the discipline. Placement determined at time of internship. May be repeated as desired. Prerequisite: Restricted to students who are English or English Education majors or have the consent of the instructor.

ENGL 499. Special Topics. 1-8 Hour.

FIN 251. Personal Finance. 3 Hours.  
Introduces the consumer to money management and the development of long and short term personal financial planning. Topics include budgeting, consumer credit, saving and investing, insurance planning, retirement and estate planning, real estate investment, and shelter planning. An excellent course for beginning students and nonbusiness majors.

FIN 281. Fundamentals of Energy. 3 Hours.  
An introductory course in energy fundamentals, which will include an overview of various energy sources, energy terms and definitions, and calculations related to energy. Energy economics and management are emphasized. Energy calculations, such as unit cost for petroleum and unit cost for electricity will be taught.

FIN 299. Special Topics in Finance. 2-3 Hour.

FIN 353. Corporation Finance. 3 Hours.  
Introduces the student to the essentials of financial management. Coverage includes financial analysis, working capital management, capital budgeting, cost of capital, dividend policy, and long term financing decisions. Prerequisites: ACCT 201 and MATH 210.

FIN 355. Investments. 3 Hours.  
Introduces the student to the principles of investment. Topics to be covered include: description of the investment environment and investment decisions; introduction to investment, securitym and portfolio theories; financial statement analysis; the implications of the Efficient Market Hypothesis for active and passive portfolio management; and analysis, valuation and management of equities, fixed income securities, indices adn indexed funds, and derivative securities. Prerequisites: FIN 353 and ECON 201 and 202.

FIN 357. Advanced Corporate Finance. 3 Hours.  
An advanced course which examines issues related to financing the corporation including capital structure, valuation of various forms of dept and equity financing, capital budgeting decisions, dividend policy decisions, financial analysis, forecasting and managing risk with financial instruments. Prerequisite: FIN 353.

FIN 360. Entrepreneurial Finance. 3 Hours.  
Introduces the student to the theories, knowledge, and financial tools needed by the entrepreneur in starting, building, and harvesting a successful venture. Topics include financing a new venture, managing profit and cash flow, financing the growth of the firm, alternative financing methods, creation of value, valuation methods, financial distress, and harvesting a successful venture. A primary focus is on the financial aspect of the business plan. Prerequisite: FIN 353.
FIN 421. International Energy Markets. 3 Hours.
This course introduces students to International Energy Markets. It will examine energy industry market structure and how it relates to business decision-making. The course will examine both renewable and non-renewable energy industry market structures. The course will provide fundamental economic knowledge needed to implement decisions related to the energy industry. It will review supply and demand structures of the energy market as well as various energy forecasting methodologies. The course will use energy data analysis methodology as a tool for analyzing future energy requirements. Prerequisites: Students must complete FIN 281 ECON 320, and FIN 353.

FIN 443. Real Estate Finance. 3 Hours.
Introduces the students to the basic principles of real estate, real estate law, and real estate finance. Topics include the ownership and transfer of real estate property, legal instruments, analysis of real estate markets, real estate appraisals, legal aspects of real estate, and financing residential, commercial, and income property. Prerequisites: FIN 353 and ACCT 300.

FIN 451. Insurance & Risk Management. 3 Hours.
Examines the nature of risk and risk management from a social, individual, business and organizational perspective. Explores the available risk management tools and alternatives including insurance. Prerequisites: FIN 353 and ACCT 300.

FIN 454. Portfolio Theory. 3 Hours.
Studies advanced concepts relating to investment to include financial statement analysis, stock market efficiency and anomalies, derivative securities, valuation of debt, equity securities and modern portfolio theory. Prerequisite: FIN 355.

FIN 455. Financial Institutions & Markets. 3 Hours.
Focuses on the management of depository and non-depository financial institutions and the use of the money and capital markets in financial management strategy. Institutional emphasis includes banks, S & L's, credit unions, investment companies, real estate investment trusts, finance companies, insurance companies, and pension funds. Prerequisite: FIN 353.

FIN 457. International Corporate Finance. 3 Hours.
Examines financial management implications of exchange risk exposure, accounting conventions, international constraint on capital flows, international investment management, foreign taxation, and working capital management of international firms. Prerequisite: FIN 353.

FIN 458. Financial Analysis and Valuation. 3 Hours.
Provides a framework for using financial statement data in a variety of business analysis and valuation contexts used by management, security analysts, bankers, and business consultants. The student will be taught the concepts and tools to analyze financial statements and cash flows in order to evaluate the effectiveness of a company’s strategy and to make sound financial decisions. Prerequisite: FIN 357 and senior status.

FIN 459. Advanced Project Evaluation. 3 Hours.
This course addresses project evaluation and risk analysis for the energy industry and applies quantitative and statistical techniques to investment decisions. The course will emphasize modeling and forecasting methodologies. Software applications will include standard statistical and risk analysis software packages. Prerequisite: Student must complete FIN 281 and FIN 357 before enrolling in this class.

FIN 491. Seminar in Energy Topics. 2 Hours.
This course introduces current practices and trends and reviews applications that are used in the energy industries. The topics presented will focus on both the short and long-term energy outlook for society. Both renewable and non-renewable energy topics will be presented by industry leaders and experts. Both North Dakota and global energy forecasting needs will be discussed.

FIN 495. Seminars in Leadership Development. 3 Hours.
Special topics in leadership including concepts, principles, and processes to facilitate effective, compassionate, and ethical leadership within the leader/follower relationship. The course will examine the relevance of self-awareness, self-management, environmental situations, social awareness & responsibility, and relationship management in authentic leadership. Prerequisites: Restricted to College of Business majors and minors and students with junior or senior status. Instructor consent is required.

FIN 497. Internships. 2-9 Hour.
A cooperative occupational training program in the area of finance. Maximum of 3 credits will count toward major. Prerequisites: restricted to major, junior or senior status and consent of the department.

FIN 499. Special Topics. 1-16 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics.

FREN 101. Beginning French I. 3 Hours.
For beginners or those entering with one or two years of high school French. Introduction to listening, speaking, reading, writing, and culture.

FREN 102. Beginning French II. 3 Hours.
A continuation of Beginning French I. Prerequisite: FREN 101.

FREN 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of French. Pre-requisite: French or French Education major or minor.

FREN 201. Intermediate French I. 3 Hours.
Review of basic French with increased practice in conversation, reading, and writing. Prerequisite: FREN 102, three years of high school French or consent of instructor.

FREN 202. Intermediate French II. 3 Hours.
Continuation of FREN 201. Prerequisite: FREN 201.
FREN 220. French Film. 3 Hours.
An exploration of socio-cultural, historical, and political issues in French film. Supplementary readings on modern French art and literature in English translation. Taught in English.

FREN 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the French or French Education major or minor.

FREN 299. Special Topics. 1-8 Hour.
Varying areas of content, issues, or themes in the study of French language, literature, culture, and civilization. Repeatable for credit as topics change.

FREN 304. Introduction to French Literature. 3 Hours.
Designed to improve language skills with an emphasis on reading and to enhance the student's ability to understand literature. Includes study of poetry, drama, and narrative from the French-speaking world. Prerequisite: FREN 202 or consent of instructor.

FREN 340. Conversation & Composition I. 3 Hours.
The first of a year long sequence focusing on advanced practice in oral and written skills using cultural readings and other media. Prerequisite: Student must complete FREN 202 before enrolling in this class.

FREN 341. Conversation & Composition II. 3 Hours.
The second of a year long sequence focusing on advanced practice in oral and written skills using cultural readings and other media. Prerequisite: Students must take FREN 202 or consent of instructor before enrolling in this class.

FREN 343. Contemporary Culture of the French-Speaking World. 3 Hours.
Readings in culture and society from the French-speaking world.

FREN 394. Independent Study. 1-8 Hour.
Independent or directed study of special topics in the study of French. Pre-requisite: French or French Education major or minor.

FREN 395. Service Learning. 3 Hours.
Student will utilize reflection and research (both primary and secondary) to integrate (a) personal community or global service experience(s). Pre-requisite: French or French Education major or minor.

FREN 399. Special Topics. 1-8 Hour.
Varying areas of content, issues, or themes in the study of French.

FREN 401. Advanced Topics in French. 3 Hours.
Topics will vary from year to year depending on student backgrounds and needs.

FREN 402. Genres or Periods French Literature. 3 Hours.
Study of a major genre or period in French literature. Topics varies from year to year.

FREN 403. Senior Thesis In French. 3 Hours.

FREN 450. Senior Capstone Project in French. 3 Hours.
Individual research project on a cultural topic approved by the instructor on semester prior to enrollment in the course. Course is restricted to majors.

FREN 496. Study Tour. 1-18 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyound travel itself. May be repeated for credit. May count towards the French minor.

GEOG 110. Introduction to Geography. 3 Hours.
Study of geography in a modern context and its synthesizing role in relation to both physical and social sciences. Major emphasis is on the relationships between people and their environment, spatial interactions, and regional structures.

GEOG 161. World Regional Geography. 3 Hours.
The course presents countries of the world through the experiences of MSU faculty native to these countries. The principal objectives are: 1) to illustrate the immense diversity of world countries and cultures, 2) to facilitate the students' understanding and appreciation of the world cultures, 3) to motivate students to learn more about other countries and cultures, 4) to help students to become citizens of the world, 5) to increase marketability of MSU students on the global job market.

GEOG 162. North America. 3 Hours.
A thematic and regional approach to the geography of North America that stresses human patterns and relationships with the physical environment. Pre-Req: GEOG 110 and GEOG 161.

GEOG 261. Countries and Cultures. 3 Hours.
The course presents countries of the world through the experiences of MSU faculty native to these countries. The principal objectives are: 1) to illustrate the immense diversity of world countries and cultures, 2) to facilitate the students' understanding and appreciation of the world cultures, 3) to motivate students to learn more about other countries and cultures, 4) to help students to become citizens of the world, 5) to increase marketability of MSU students on the global job market.

GEOG 262. North America. 3 Hours.
A thematic and regional approach to the geography of North America that stresses human patterns and relationships with the physical environment. Pre-Req: GEOG 110 and GEOG 161.

GEOG 263. North Dakota. 3 Hours.
Study of the interrelationship that exists between North Dakota's physical and cultural environments. Specific topics include physiography, climate, flora, prehistoric occupation, historic development, demography, and economic structures. Pre-Req: GEOG 110 and GEOG 161.

GEOG 264. Geography of Africa. 3 Hours.
Study of the natural regions of Africa with emphasis on the climate, physical and human resources, trade, culture, and their effects upon world affairs.
GEOG 265. Geography of Asia. 3 Hours.
A regional study of Asia with special emphasis on Central, South, East, and Southeast Asia. A study of the natural and cultural regions with emphasis on the climate, physical and human resources, trade, culture, and their effects upon world affairs.

GEOG 266. Latin America and the Caribbean. 3 Hours.
A general overview of an extremely diverse region that is the product of both physical and cultural factors which have interacted over time to produce a unique landscape.

GEOG 267. Geography of Europe. 3 Hours.
A study of Europe's environmental and cultural geography with emphasis on its environmental regions, current Supranational union, and nationalistic divisions.

GEOG 268. Geography of the Middle East. 3 Hours.
An investigation of the natural, political, and historical regions of Southwestern Asia, the Levant, and the Saudi Peninsula. International political linkages, economic implications of oil, environmental opportunities and limitations, and cultural landscapes are emphasized.

GEOG 289. Introduction to GIS. 3 Hours.
Introduces students to theory and techniques of geographic information systems (GIS), which includes the discovery, management, analysis, and display of spatial data. GIS is a valuable too in disciplines that deal with spatial data, including geography, history, field or environmental sciences, epidemiology, economics, and business. This course is equivalent to GEOL 220. Lecture 2 hours; laboratory, 2 hours.

GEOG 299. Special Topics. 1-8 Hour.

GEOG 330. Geography of Weather & Climate. 3 Hours.
The major aspects of meteorology which involves the study of weather conditions will be addressed. Climatology will be treated as the scientific study of the Earth's climates. The dynamics of global climate change will be discussed in detail.

GEOG 340. Human Geography. 3 Hours.
Human Geography: The world will be viewed as a complex interaction between political, economic, social, and cultural systems, illustrative of the changes that occur on the landscape over time.

GEOG 360. Perception of the Environment. 3 Hours.
This seminar will examine attitudes and perceptions people hold of their environment and how landscapes become symbolic in cultural identity. Perceptions of a variety of environments will be studied including plains, mountains, deserts, lakes, rivers, forests, deltas, rural towns, farmscapes, and urban settings. The thematic emphasis will be on how perceptions of landscapes are important to environmental ethics, community identity, and land management.

GEOG 370. Geography of World Tourism. 3 Hours.
A systematic description and analysis of the world's major tourism destination regions including coastal zones, alpine areas, interior lakes, and waterways, cities, and cultural attractions. Geographic and economic factors affecting the development of tourism regions are considered. Pre-Req: GEOG 110 and GEOG 161.

GEOG 380. Cultural Geography. 3 Hours.
As a sub-field within human geography, the seminar will address the human imprint on the physical landscape. The study will focus sharply on describing and analyzing the ways language, religion, economy, government and other cultural phenomena interact in space creating place; basically, how humankind functions spatially.

GEOG 394. Independent Study General Geog. 1-4 Hour.
GEOG 494. Independent Study Honors Geog. 1-8 Hour.
GEOG 499. Special Topics. 1-8 Hour.

GEOL 101. Environmental Geology with Lab. 4 Hours.
Mankind's interaction with the earth. Major environmental problems facing citizens today including: water resources, energy and mineral ressources, and geologic hazards. Local field trips. Lecture, 3 hours; laboratory, 2 hours.

GEOL 101H. Honors Environment Geology W/Lab. 4 Hours.
Mankind's interaction with the earth. Major environmental problems facing citizens today including: water resources, energy and mineral resources, and geological hazards. Laboratory time will focus on small-scale research projects, in-depth discussions of particular topics including current events, and local field trips. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: Honors Program admission of 3.30 cumulative GPA and permission of instructor.

GEOL 105. Physical Geology with lab. 4 Hours.
Earth as a physical body, its structure, composition, and the geologic processes acting on and within the earth. Designed especially for students with a specific interest in geology and for those students contemplating a major in sciences. Field trips. Lecture, 3 hours; laboratory, 2 hours.

GEOL 106. Historical Geology with lab. 4 Hours.
Earth through time, its origin, history, and the history and evolution of animal and plant life. Laboratory study of fossils, sedimentary rocks, and stratigraphic problems. Field trips. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: GEOL 105.
GEOL 108. Earth and Planetary Science. 4 Hours.
An introduction to the physical geology of Earth and astronomy, focusing on our solar system. Earth’s materials and structure; internal and surficial processes that work to shape Earth; the history of the Earth. Introduction to astronomy, including the earth’s moon, the planets, and minor bodies of our solar system, the sun, and the universe beyond our solar system. Lecture, 3 hours; laboratory, 2 hours.

GEOL 110. Earth Science by Inquiry. 4 Hours.
This course uses inquiry-based methods to explore observational astronomy and some of the physical principles that shape the earth. Students will explore heat and temperature, magnetism, and optics, as well as the paths of the sun, earth, and moon through space.

GEOL 127. Environmental Earth Systems. 4 Hours.
This course is an introduction to Earth Science with an emphasis on people’s connections to environmental issues. Earth science is covered within an Earth systems framework with an emphasis on interactions, now the various Earth systems interact with one another. It also deals with how Earth interacts with people, including how Earth affects people (resources, hazards), and how people affect Earth in both positive and negative ways. An underlying concept in this course is stewardship: how people can live with Earth responsibly, working toward a sustainable future.

GEOL 201. Minerals & Rocks. 3 Hours.
Physical, chemical, structural, and optical properties of minerals; description and identification of common rock-forming and ore minerals; mineral associations and introduction to classification of common rock types. Field trips. Offered each spring. Lecture, 1 hour; laboratory, 2 hours. Prerequisite: GEOL 105.

GEOL 220. Introduction to GIS. 3 Hours.
Introduces students to theory and techniques of geographic information systems (GIS), which includes the discovery, management, analysis, and display of spatial data. GIS is a valuable tool in disciplines that deal with spatial data, including geography, history, field or environmental sciences, epidemiology, economics, and business. This course is equivalent to GEOG 289. Lecture, 2 hours; laboratory, 2 hours.

GEOL 227. Earth Materials and Analysis. 4 Hours.
A study of earth materials, including minerals, rocks, soil, and water, and the basic processes that relate them. It can be considered essentially a course on the rock cycle (materials and processes), and to some extent the hydrologic cycle, with some emphasis on the methods used to characterize and identify earth materials. The laboratory portion of the course will focus on forensic geology, the use of a variety of laboratory/instrumental techniques to characterize and identify earth materials. Lecture, 3 hours; laboratory, 3 hours. Prerequisites: Students must complete GEOL 127 and CHEM 127 before enrolling in this course.

GEOL 240. Geology of North Dakota. 3 Hours.
Geology of North Dakota for including historical geology of North Dakota and surrounding areas; Precambrian basement rocks; Phanerozoic sedimentary rocks; glacial geology; relationships between geology and physical geography (landforms); and existing and potential economic resources of North Dakota. Weekend field trip(s) required. Lecture, 2 hours; laboratory, 2 hours. Prerequisite: GEOL 105.

GEOL 260. Energy Resources. 3 Hours.
A survey of energy resources including fossil fuels, renewable, nuclear and unconventional sources. Emphasis on origin, use and implications of development. 2 hours Lec, 3 hours Lab. Prerequisite: GEOL 105. Offered alternate falls.

GEOL 290. Regional Geology. 3 Hours.
A study of the geology of a particular region in the United States or abroad. Class time involves introduction to the geology and preparation for a field trip to the region. Field trip is typically 10-14 days long and may involve hiking and camping. Special fees required. May be repeated for credit. Lecture, 2 hours, field trip required. Prerequisite: GEOL 101 or GEOL 105 or consent of instructor.

GEOL 299. Special Topics. 1-8 Hour.

GEOL 300. Geologic Field Methods. 3 Hours.
Geologic mapping and sampling techniques. Students use basic mapping instruments, gather datum record it while in the field, and construct complete and accurate geologic maps. Offered alternate falls. Lecture, 1 hour; laboratory, 4 hours. Prerequisites: GEOL 106 and 210 or consent of instructor.

GEOL 305. Methods in Mineral and Petrology. 2 Hours.
Application of modern laboratory methods to the study of minerals and rocks. Methods include optical and scanning electron microscopy, analysis of bulk materials by ICP-ACES and XRD, and EDX macroanalysis of minerals. Offered alternate fall semesters. Laboratory: 6 hours. Prerequisite: Students must complete GEOL 210 before enrolling in this course.

GEOL 310. Igneous & Metamorphic Petrology. 3 Hours.
Description and classification of igneous and metamorphic rocks based on mineralogy, textures, and chemical compositions; study of the origins of rocks through laboratory investigation of suites of related rocks. Field trips. Offered alternate springs. Lecture, 2 hours; laboratory, 2 hours. Prerequisite: GEOL 305.

GEOL 311. Paleontology. 4 Hours.
Fossilization, classification, evolution, and paleoecology. Geologic history and identification of major invertebrates phyla. Laboratory emphasizes fossils indentification. Offered alternate falls. Field trip. Lecture, 2 hours; laboratory, 4 hours. Prerequisite: GEOL 106 and BIOL 151.

GEOL 320. Oceanography. 3 Hours.
Nature, origin, and evolution of ocean basins and sea water. Sea water chemistry, movement, and ability to support life. Life forms. Lecture, 2 hours; laboratory, 2 hours. Prerequisite: GEOL 105.
GEOL 321. Hydrogeology. 3 Hours.
Surface water hydrology; runoff and stream flow; groundwater hydroeology; distribution of groundwater, aquifer properties, local and regional groundwater flow, geology of groundwater occurrence; groundwater resource development and management; water law. Offered alternate springs. Lecture, 2 hours; laboratory, 3 hours. Prerequisite: GEOL 210.

GEOL 322. Geomorphology. 4 Hours.
Processes that shape the Earth's surface. Effects of rock type, geologic structure, and climate on the formation and evolution of land forms. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: GEOL 210.

GEOL 323. Global Climate Change. 3 Hours.
Examination of physical, chemical and biological processes that cause environments to change naturally or under the influence of human activities. Consideration of small watersheds, large lake systems and global atmospheric-ocean systems including meteorological processes. Emphasis on positive and negative feedback in controlling environments and their susceptibility to change. Pre-Requisite: Geol 101 or Geol 105 or Geol 108.

GEOL 331. Soils. 4 Hours.
Principles of soils including formation, properties, and classification. This course includes the use of soils information in environmental applications. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: GEOL 210.

GEOL 340. Chemistry of Natural Waters. 4 Hours.
Principles of aqueous chemistry, interactions between water and geologic materials, and the chemical nature of various natural waters; includes both fresh and saline waters found in both surface water environments (streams, lakes, oceans) and subsurface environments (vadose zone and saturated zones). Lecture, 3 hours; laboratory, 2 hours. Prerequisite: GEOL 210. Co-requisite: CHEM 121.

GEOL 361. Structural Geology. 4 Hours.
Stress, strain, mechanical behavior of rocks; description and interpretation of folds, faults, joints, and foliation; tectonic processes; interpretation of geologic maps and field data. Field trip. Offered alternate springs. Lecture, 2 hours; laboratory, 6 hours. Prerequisite: GEOL 210.

GEOL 390. Regional Field Geology. 3 Hours.
Application of geologic field methods to a particular area or areas. Field work focuses on rock unit descriptions, stratigraphic section measurement, and geologic mapping in areas of moderately complex geology. One hour of lecture per week is used to prepare for field work. The field work requires a 15-day trip. Prerequisite: GEOL 300.

GEOL 394. Independent Study General Es. 1-4 Hour.

GEOL 410. Advance Earth Science by Inquiry. 4 Hours.
Course involving aiding instructors in Earth Science by Inquiry (GEOL 110). Students will conduct oral interviews with GEOL 110 students during GEOL 110 class to determine their progress. Students will be required to learn plate tectonics and observational astronomy in depth during class preparation periods. Course exposes future secondary science teachers to inquiry methods in earth science and teaches them alternate reasoning methods that can be used at a variety of instructional levels. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: Consent of instructor.

GEOL 411. Field Geology. 6 Hours.
The methods of geology, including the preparation of stratigraphic columns, cross sections and geologic maps integrated with paleoenvironmental interpretation and structural history. Students must write professional level reports. Offered in summer. Prerequisites: GEOL 361, 471, and consent of instructor.

GEOL 421. Applied Hydrogeology. 3 Hours.
Mass transport in vadose and saturated zones; origin and behavior of inorganic and organic contaminants; investigative techniques; groundwater models; site remediation. Lecture, 2 hours; laboratory, 3 hours. Prerequisites: GEOL 321.

GEOL 471. Sedimentation and Stratigraphy. 4 Hours.
Origins, characteristics, and classification of sedimentary rocks. Techniques of study, interpretation of data, lithostratigraphy, biostratigraphy, chronostratigraphy, and correlation. Offered alternate falls. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: Student must complete GEOL 106 and 210 before enrolling in this class.

GEOL 494. Directed Research in Geology. 1-2 Hour.
Students conduct research under direction of a faculty mentor. The topic and goals are agreed to by student and mentor in writing at the beginning of the research. A requirement for successful completion of a second credit of GEOL 494 on a project is that the student will submit an acceptable draft of a research paper that includes introduction/background, methods, and results. Repeatable for credit.

GEOL 497. Co-Op Practicum. 4-8 Hour.

GEOL 499. Special Topics. 1-8 Hour.

GERM 101. Beginning German I. 3 Hours.
For beginners or those entering with one or two years of high school German. Introduction to listening, speaking, reading, writing, and culture.

GERM 102. Beginning German II. 3 Hours.
A continuation of Beginning German I. Prerequisite: GERM 101.

GERM 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of German. Pre-requisites: German or German Education major or minor.
GERM 201. Intermediate German I. 3 Hours.
Review of basic German with increased practice in conversation and reading. Prerequisite: GERM 102, three years of high school German, or consent of instructor.

GERM 202. Intermediate German II. 3 Hours.
Continuation of GERM 201. Prerequisite: GERM 201.

GERM 220. German Film. 3 Hours.
An exploration of socio-cultural, historical and political issues in non-mainstream German film. Supplementary readings on modern German art and literature in English translation. Includes a cross-cultural unit on censorship in the arts during the cold war. Taught in English.

GERM 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the German or German Education major or minor.

GERM 299. Special Topics. 1-8 Hour.

GERM 340. Conversation & Composition I. 3 Hours.
This is one of a pair of courses focusing on advanced practice in oral and written skills using cultural reading and other media. Prerequisite: Student must complete GERM 202 or have the consent of the instructor before enrolling in this class.

GERM 341. Conversation & Composition II. 3 Hours.
This is one of a pair of courses focusing on advanced practice in oral skills using cultural readings and other media. Prerequisite: Student must complete GERM 202 or have the consent of the instructor before enrolling in this class.

GERM 342. Introduction to German Literature. 3 Hours.
Designed to improve language skills with an emphasis on reading and to enhance the student's ability to understand literature. Includes study of poetry, drama, and narrative from the German-speaking world. Prerequisite: Student must complete GERM 202 or have consent of the instructor before enrolling in this class.

GERM 343. German Culture. 3 Hours.
Readings in culture and society from the German-speaking world.

GERM 394. Independent Study. 1-4 Hour.
Independent or directed study of special topics in the study of German.

GERM 395. Service Learning. 3 Hours.
Students will utilize reflection and research (both primary and secondary) to integrate (a) personal community or global service experience(s). Prerequisite: German or German Education major or minor.

GERM 399. Special Topics. 1-3 Hour.
Varying areas of content, issues, or themes in the study of German. Pre-requisite: German or German Educaiton major or minor.

GERM 421. Advanced Topics In German. 3 Hours.

GERM 423. Senior Thesis In German. 3 Hours.

GERM 441. Periods in German Literature. 3 Hours.
Study of major genre or period in German literature. Topic varies from year to year. Prerequisite: Students must complete GERM 342 before enrolling in this course.

GERM 450. Senior Capstone Project In German. 3 Hours.
Individual research project on a cultural approved by the instructor on semester prior to enrollment in the course. Course restricted to majors.

GERM 496. Study Tour. 1-18 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. May count towards the German or German Education major or minor.

GERM 499. Special Topics. 1-4 Hour.
Topics will vary from year to year depending on student backgrounds and needs.

GS 225. Intro to Gender/Women's Studies. 3 Hours.
This course provides a general introduction to the wide array of historial, social, economic, and philosophical topics usually included within the boundaries of gender studies, and the methods used to analyze society and culture. Considers the differences between sex and gender by examining the relationships among nature, and masculinity, students will examine the patriarchal structure, feminism, non-hetero-normative sexualities, sexism, and various categories of generated existence. An interdisciplinary collection of texts from literature and theory, social sciences, psychology, pop culture, and film will be utilized.

GS 294. Independent Study. 1-3 Hour.
Directed topics of study.
GS 299. Special Topics in Gender/Women's Studies. 1-6 Hour.

GS 397. Internship: Medieval Fem Forum. 1-3 Hour.
Hands-on experience assisting with the production, editing, and distribution of an international feminist scholarly journal. Admission by application only. May repeat for credit.

GS 494. Independent Study. 1-3 Hour.
Directed topics of study.

GS 499. Special Topics in Gender/Women's Studies. 1-6 Hour.

HIST 101. Western Civilization I. 3 Hours.
A survey of the political, intellectual, social and economic trends of Western Civilization from the Classical Age of the French Revolution. (General Education History Survey).

HIST 102. Western Civilization II. 3 Hours.
A survey of the political, intellectual, social, and economic trends of Western Civilization from the French Revolution to the present. (General Education History Survey).

HIST 103. US History to 1877. 3 Hours.
Survey of U.S. history from Colonial period to the end of Reconstruction. (General Education History Survey).

HIST 104. US History from 1877. 3 Hours.
Survey of U.S. history from the end of Reconstruction to present. (General Education History Survey).

HIST 203. Modernization of Early America. 3 Hours.
This course will introduce students to the major developments in American social, intellectual, and cultural history from discovery through the Civil War. The focus of the course will be on the concept of modernization: why, when, and how was life in America evolving toward those characteristics we consider part of modern life? Central topics will include cultural interaction, daily life, the development of a new society, American exceptionalism, the evolution of American intellectual thought, democratization, social movements, and the development of an American literature. US.

HIST 206. Islam and the Muslim World. 3 Hours.
This course introduces students to the history and culture of the wider Muslim world. In this course we will study three aspects of Islam and the Muslim World: Islam as a religion, the 1,400 year history of Muslim civilization in all its diversity, and Islam today. NW.

HIST 211. World Civilizations to 1500. 3 Hours.
A survey of the history of world civilizations to 1500. (General Education History Survey).

HIST 212. World Civilizations Since 1500. 3 Hours.
A survey of the history of world civilizations since 1500. (General Education History Survey).

HIST 215H. Modern World Origins. 3 Hours.
A seminar in the origins of the modern world. Class time will emphasize student discussion of assigned relevant historical sources, both primary and secondary. In addition, there will be extensive and varied writing assignments. Honors Program admission of 3.30 cumulative GPA and permission of the instructor is required. (General Education History Survey).

HIST 219. Environmental History. 3 Hours.
This course is an introduction to the field of Environmental History. It will explore the relationship between people, communities, resources and the environment in the past and will study examples from the U.S., Europe, and other parts of the world. Students will use secondary literature and primary-source case studies to study major environmental themes related to conservation, resource management, land use, development, water, and pollution. Upon completion students will demonstrate understanding of the scope and depth of environmental issues in world history, of the methods historians have developed to approach such questions, and of major case studies related to rural and urban experiences.

HIST 220. North Dakota History. 3 Hours.
This course surveys the history of North Dakota, amidst its broader geographic region, from prehistoric times to the present. Course topics examine the environmental, social, economic, cultural, and political development of the state and its people. US.

HIST 227. History of Vietnam. 3 Hours.
This course surveys the history of Vietnam from its formation to the late twentieth century. Topics covered include Vietnam's cultural and historical origins, its place in South-East Asia, colonization under the French, the experience of WWII, the French and American wars in Vietnam, and Vietnam since the 1970s. NW.

HIST 231. History of Latin America. 3 Hours.
Survey of the countries below the Rio Grande from pre-Colombian times to the present. Special attention to continuity of Native American culture, colonial legacies, identity, gender roles, revolutions, relations with the U.S., and land and income distribution. NW.

HIST 240. History of Africa. 3 Hours.
Africa has a wide variety of cultures and peoples. In this survey, we will study civilizations in as different areas as the Egyptian Nile, the Malian savanna, the Congolian rainforest, and East Coast Swahili traders. Topics include ancient Egypt, Islam, European colonialism and its consequences, apartheid, women, and kinship. NW.
HIST 242. Ancient European Worlds. 3 Hours.
This course surveys Europe's prehistory and antiquity from the agricultural revolution of the Neolithic until the fall of the Western Roman Empire in 476 CE. It explores the political organization, social institutions, economies, religions, art, and cultures of both the "classical" civilizations of Greece and Rome and the Celts, the Minoans, the Mycenaean, the Etruscans, and other civilizations that developed in and shaped the ancient European region. EU.

HIST 243. Medieval Europe. 3 Hours.
This course surveys Western, Central, and Eastern Europe from the break-up of the Western Roman Empire in the fifth century through the Renaissance in the fifteenth century. It examines both the history of and popular ideas about the European Middle Ages, including discussion of such topics as knights and violence, race and antisemitism, women's social and political roles, and political and religious conflict. EU.

HIST 244. Renaissance and Reformation. 3 Hours.
This course surveys the significant political, social, cultural, and religious issues of the European Renaissance and Reformation. It discusses the rise of Italian city-states and their artistic and intellectual developments, the ideas of the Reformation as developed by Martin Luther and others, and the social and political consequences of those ideas including the religious wars of the sixteenth and early seventeenth centuries. EU.

HIST 251. Introduction to Public History. 3 Hours.
The purpose of this course is to introduce students to public history, which is often simply defined as the practice of history outside of the classroom, produced for a non-academic audience. This simple definition belies complicated fundamental issues, such as what role the public audience does and should play in the determination of what issues are of historical concern, and how they should be handled. Starting with consideration of what public history is, and what are its purposes and basic questions, the class will then work on developing some of the basic skills that public historians need. Students will speak with and, in some cases, shadow current professionals in the field. They will be introduced to sources of historical information available in the local community and organizations of value to public historians. Ultimately, students will utilize the ideas and skills that they develop during the semester as they undertake a local historical research project that will culminate in a public presentation.

HIST 261. American Indian History. 3 Hours.
A survey of American Indian history from pre-contact to the present, providing an overview of major trends and developments. US.

HIST 280. Practice and Method. 3 Hours.
This colloquium introduces students to the tools, research, and writing methods, resources and theoretical approaches required in upper level history courses. It includes a semester-long student-initiated research project that will allow students to refine their skills. The course also features discussion of reading that illustrate a wide variety of historical approaches and methods. To be taken upon declaring a major in history or social science.

HIST 299. Special Topics in History. 1-8 Hour.
These are flexible courses that may be taught depending on student needs. The design of the course is to present the student an opportunity to concentrate on various topics. Prerequisites may apply. (Depending on topic, course may be categorized as a NW, EU, or US).

HIST 315. History of American Women. 3 Hours.
The experience of women in American history, with emphasis upon the continual change in women's roles and differences brought about by region, ethnicity, and economic class. Prerequisites: any general education history survey or consent of instructor. US.

HIST 319. Colonial America. 3 Hours.
Traces the development of the colonies from the time of European exploration and early English colonization to the confrontations between Britain and America in the 1760s and 1770s. Prerequisite: any general education history survey or consent of instructor. US.

HIST 320. The Early Republic. 3 Hours.
Study of the social, intellectual, political, and diplomatic forces, issues, and personalities in America's formative (1781-1824) years. Prerequisite: any general education history survey or consent of instructor. US.

HIST 325. Sectionalism and the Civil War. 3 Hours.
Traces the rise of sectionalism as a force on antebellum America leading to the Civil War. Prerequisite: any general education history survey or consent of instructor. US.

HIST 328. The Transformation of America. 3 Hours.
Study of industrialization, urbanization, and immigration in America from 1865 to 1901, focusing on the social, political, and international consequences of and reaction to economic change. Prerequisite: any general education history survey or consent of instructor. US.

HIST 336. African American History. 3 Hours.
Examines the history of African Americans in American society from 1619 to the present, including the West African cultural context, cultural retentions and changes in the American environment, and the emergence of cohesive African American culture. The course pays special attention to the ideas, contributions, and changing roles of African Americans within American society, economy, culture, and politics. Prerequisite: any general education history survey or consent of instructor. US.

HIST 337. Imperialism in Asia. 3 Hours.
Models of western imperialism will be contrasted with those developed by Japan and China to develop a comparative study of political, cultural, and social developments in Japan, Indochina, China and other Asian countries. Recent trends and relationships with the West will be emphasized. Prerequisite: any general education history survey or consent of instructor. NW.
HIST 341. Roman Republic and Empire. 3 Hours.
This course explores in detail the history of Rome from the foundation of the city in the ninth century B.C.E. through the fall of the western part of the Roman Empire in 476 C.E. Topics discussed include Roman Republican institutions, imperial expansion, the creation of the Roman Empire, the foundation and development of Christianity, and the lasting influence of Rome on European politics and culture. Prerequisite: any general education history survey or consent of the instructor. EU.

HIST 342. The Age of the Vikings. 3 Hours.
This course looks not only at the "Viking Age" circa 780-1070 CE but also at the origins of the Vikings and their cultural contexts and legacies. It discusses Scandinavian society from late antiquity through the Middle Ages, exploring social structure, gender ideas and relations, religion and mythology, technology, politics and war, literature, and art. This course details Viking raids, expansion, and integration throughout Europe and examines modern literature and media to discover what "Viking" came to mean long after the Viking Age ended. Prerequisite: any general education history survey or consent of instructor. EU.

HIST 343. The Medieval Church. 3 Hours.
This course examines the Christian church and Christendom from its beginnings in the Roman Empire through the eve of the Protestant Reformation. It examines the history and institutions of the church, including monasticism, the papacy, church-state conflicts, East-West divisions, medieval philosophy and theology, mysticism, popular religion, and the Crusades. Prerequisite: any general education history survey or consent of instructor. EU.

HIST 347. The Making of Modern Europe. 3 Hours.
A thematic study of Europe during the age of the industrial and social revolution, 1815-1919. This course compares major social and cultural trends across a variety of European nations. Prerequisite: any general education history course or consent of instructor. EU.

HIST 350. Europe in 20th Century. 3 Hours.
A detailed consideration of the main political, intellectual, social, and economic trends of 20th century Europe. Prerequisite: any general education history course or consent of instructor. EU.

HIST 351. The Mediterranean World. 3 Hours.
This course explores the development and interactions of the many Bronze Age and Iron Age civilizations and peoples of Africa, Asia, and Europe who were connected by the Mediterranean Sea. Those studied include the Egyptians, Minoans, Mycenaenans, Assyrians, Hebrews, Phoenicians, Persians, Greeks, and Romans. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 352. Medieval & Early Modern Women. 3 Hours.
This course examines the lives of European women from the beginning of the Middle Ages through the early seventeenth century. It explores the use of gender as a category for historical interpretation as it investigates women's (and men's) identities, agency, and power in the household, the court, the Church, and the marketplace. While this course does examine the lives of famous women, it primarily seeks to reveal the lives, thoughts, feelings, and experiences of all European women over the course of eleven centuries. Prerequisite: any general education history survey or consent of instructor. EU.

HIST 353. Great Plains Indian History. 3 Hours.
Study of the culture and history of the Indian peoples of the Great Plains. Prerequisite: any general education history survey or consent of instructor. US.

HIST 354. Explorers and Encounters. 3 Hours.
This course is about early modern explorers and the lands and peoples they encountered. The course reflects on explorations and encounters by Europeans as they marveled and interpreted the peoples and lands they met. The class encompasses the Atlantic, Indian Ocean, and the Pacific and changes over time from the late 15th through the 18th centuries, as attitudes changed and perceptions of the other modified. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 355. Peoples & Cultures of Native North America. 3 Hours.
The course surveys the major culture areas of North America prior to contact with Europeans. In each region particular attention is given to one group or nation to highlight cultural adaptations and development. Prerequisite: any general education history survey consent of instructor. US.

HIST 356. History of Mexico. 3 Hours.
Mexico and the U.S. are entering into an ever closer relationship, but their histories are quite different. This survey outlines the Mexican past from pre-Colombian to modern times. We will focus on one area (the Andes or Mesoamerica) and study a wide variety of topics such as: conquest, colonialism, religion, gender, protests, and ecology. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 357. History of Brazil. 3 Hours.
Brazil is more than carnival alone, but that is a fundamental aspect of the largest South American society. In this course, we will examine Brazilian history and society from a wide variety of angles. The country is very diverse: from the Amazon rainforest where native peoples still live in isolation, to the Sao Paulo metropolitan area that can compete with any Western country as to modernity and industrial development. Brazil is a country full of contrasts: optimistic but sad, dancing sambas but violent. In the course we will examine Brazil's past and how this contributed to the country's present social, economic, political, and cultural situation. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 358. Experimental Course in History. 3 Hours.
This is an experimental course that may be taught department needs. The design of the course is to allow the instructor to test and assess content and methodology that may become a permanent part of a department's course listings. Prerequisites: any general education history survey or consent of instructor. Depending on topic, course may be categorized as a NW, EU, or US.

HIST 359. Independent Study General Hist. 1-4 Hour.
Depending on topic, course may be categorized as NW, EU, or US. Must have instructor consent.
HIST 399. Readings in History. 1-3 Hours.
Study and discussion of readings in history. Specific topic will be arranged with the instructor. Prerequisite: consent of instructor. Depending on topic, course may be categorized as a NW, EU, or US.

HIST 401. Historiography. 3 Hours.
A course to consider both the philosophy or theory of history as well as the mechanics of "doing" history. Prerequisites: any general education history survey or consent of instructor.

HIST 410. Trans-Mississippi West. 3 Hours.
An in-depth look at the impact of this region on the development and growth of America. Prerequisites: any general education history survey or consent of instructor. US.

HIST 415. 20th Century America. 3 Hours.
A seminar focusing on a particular theme or time period of 20th century American history. A specific focus will be selected each time the course is offered. Prerequisites: any general education history survey or consent of instructor. US.

HIST 430. Native American Social History. 3 Hours.
Seminar examining the different social experiences of Native peoples in North America. Topics include, among others, historical demography, gender, intercultural relations with the U.S. Prerequisites: any general education history survey or consent of instructor. US.

HIST 434. History and Multimedia. 1-3 Hour.
This course is designed to teach students to transform the content of a traditional seminar paper into a variety of multimedia formats. It introduces students to current digital tools, explores design issues and organizational strategies, and considers how to design presentations for varied audiences such as museums, children and schools, internet users, portable device users, and senior populations. No technical background is required, although students will need to have completed a 300 or 400 level history research paper to use as the raw material for this course, or they must co-enroll in a 300 or 400 level history class that requires such a paper.

HIST 436. Piracy, Smuggling, and Corruption. 3 Hours.
In this course students will study morals and values in their colonial Latin American contexts, how they are construed and how historians and contemporaries have interpreted them. We will do this by examining the most controversial peoples in these societies, from prostitutes to pirates, from slaves to men and women of ill repute. This promises to be a voyage of discovery of the other and of the self. Prerequisites: any general education history survey or consent of instructor. NW.

HIST 440. Comparative Slavery in the Americas. 3 Hours.
North and South America have different experiences with slavery. In this seminar we will compare and contrast the African impact on both continents, especially in Brazil and the United States. Some topics that we will study are the slave trades, runaway slave societies, the Haitian revolution, African religions, race relations, gender roles, families, and the meanings of freedom. Prerequisites: any general education history survey or consent of instructor. NW or US.

HIST 441. The Early Middle Ages. 3 Hours.
This seminar focuses on Late Antiquity and the Early Middle Ages, the period from the late fourth through the late tenth centuries C.E. during which the Western Roman Empire was replaced by the individual kingdoms and principalities of medieval Europe. Participants will research the history and historiography of this period, which includes the "barbarian invasions" of Rome and the fall of the Western Roman Empire, the rise of the Roman Church, the transition from Classical to medieval philosophy, the establishment of the Carolingian and Holy Roman Empires, and the foundation of medieval European political, social, and economic systems. Prerequisite: any general education history survey or consent of instructor. EU.

HIST 442. The Crusades. 3 Hours.
This seminar explores the period of the Crusades from its inception in the late eleventh century through its demise in the later Middle Ages. It looks at the development of the religion of Islam and of Muslim political states, the wars of the Crusades, the creation of the Crusader States, and conflict and cooperation among Christians, Jews, and Muslims in Asia and North Africa. Prerequisite: any general education history survey or consent of instructor. NW.

HIST 460. Modern France and Francophone Society. 3 Hours.
An in-depth seminar on the major themes of modern French history from 1750 to the present. Prerequisites: any general education history survey or consent of instructor. EU.

HIST 491. History Seminar. 3 Hours.
An advanced seminar in history with a major paper requirement. Prerequisite: any general education history survey or consent of instructor. Depending on topic, course may be categorized as NW, EU, or US.

HIST 494H. Independent Study Honors Hist. 1-8 Hour.
Depending on topic, course may be categorized as a NW, EU, or US. Prerequisite: consent of instructor.

HIST 497. Internship. 1-6 Hour.
Placement in applied public history setting for practical experience. Prerequisite: HIST 280 and consent of instructor. Repeatable for credit.

HIST 499. Special Topics in History. 1-8 Hour.
This is a flexible course that may be taught depending on student needs. The design of the course is to present the student an opportunity to concentrate on various topics. Prerequisites may apply. Depending on topic, course may be categorized as a NW, EU, or US.
HIST 95. Intercultural Experience. 0 Hours.
History 995 creates and/or facilitates intercultural and/or interpersonal experiential opportunities for students. Students will participate in an experience that requires thoughtful and demonstrated engagement.

HIST 97. History/Social Science Portfolio. 0 Hours.
Students should register for this course in the semester they intend to submit their portfolio for their History BA, History BSEd, or Social Science BSEd degree.

HMS 151. Stress Management. 2 Hours.
Focuses on utilizing concepts related to stress and stress management strategies to achieve holistic high level wellness.

HMS 203. Health Care Through the Life Span. 3 Hours.
Provides an overview of promotion of health and prevention of illness throughout the life span.

HMS 208. Medical Terminology. 2 Hours.
Comprehensive examination of prefixes, stems, and suffixes as well as emphasis on pronunciation, spelling, and definitions of words used by health professionals including key pathology, diagnostic and treatment procedures terms.

HMS 213. Life Span Growth & Development. 3 Hours.
Focuses on human growth and development throughout the life span. Prerequisite: PSY 111. Classroom Study = 45 hrs.

HMS 215. Principles of Pharmacology. 3 Hours.
Provides a survey of all major drug groups as they apply to providing safe, therapeutic client care.

HMS 240. Nutrition. 3 Hours.
Nutrition and application to human dietary needs of people at different ages.

HMS 243. Pathophysiology. 3 Hours.
Provide fundamental knowledge of the structural and functional changes caused by disease and alterations in body function. Emphasis is placed on understanding changes and responses that produce signs and symptoms in common health problems. Prerequisites: Student must complete BIOL 220 and 221 before enrolling in this class.

HMS 260. Introduction to Public Health. 3 Hours.
Examines the history, biomedical basis, disciplines (epidemiology, statistics, social and behavioral sciences), and techniques of public health, including education and policy development. Focuses on the health care system, medical care, and trends in public health. Prerequisite: Restricted to students with senior standing or have consent of instructor.

HMS 279. Death & Dying. 3 Hours.
Provides a wholistic approach to end-of-life issues, including death, dying, and bereavement.

HMS 299. Special Topics Health Mgmt Sci. 1-8 Hour.

HMS 322. Therapeutic Touch. 2 Hours.
This elective course explores the scientific, theoretical, and clinical foundations of therapeutic touch. Contemporary research findings are discussed and critiqued. Blends both didactic and experiential learning into a balanced, grounded approach to this new version of ancient, caring, healing art. Prerequisites: junior or senior year or faculty approval. CS = 30*.

HMS 333. Transcultural Health Care. 3 Hours.
Present framework for health care providers to learn concepts and characteristics of diverse populations to provide culturally competent care for individuals, families, and communities.

HMS 379. Health & Physiological Aspects of Aging. 3 Hours.
Examines concepts of health, physiological changes, and health related practices of older adults. Required for Gerontology minor.

HMS 394. Independent Study General HMS. 1-4 Hour.

HMS 460. Quality & Risk Management in Health Care. 3 Hours.
Examines the fundamentals of a health care quality and risk management program, including risk identification, loss prevention, loss reduction, claims management process, risk financing, legal-ethical factors, and clinical risk exposures. Provides experience in quality and risk management practices that are unique to the health care settings. Prerequisite: Restricted to students with senior standing or have consent of instructor.

HMS 463. Issues Health Care Regs & Prac. 3 Hours.
Examines a variety of agencies that oversee and regulate healthcare in the United States. Focuses on a variety of professional standards and laws that affect quality of care, delivery, and managerial decision making. Prerequisite: Restricted to students with Senior status.
HON 191H. The Honors Community. 1 Hour.
This course introduces students to the MSU honors program. Informal conversations with MSU faculty, administrators, honors students, staff, and community leaders will familiarize students with the university, the community, the honors approach to learning. Students also investigate or discover new or existing passions through student-created learning experiences (SCLE), created in consultation with the instructor. Students present, evaluate, and reflect on their learning and experiences related to the SCLE. Prerequisite: Student must be admitted to the honors program before enrolling in this course.

HON 199H. Honors Special Topics. 1-4 Hour.
An Honors-level exploration of special topic area determined by participating department. Content will vary.

HON 250H. Foundations of Leadership. 3 Hours.
HON 250H is designed to introduce students to basic components of leadership theory, concepts, and development. Students will engage in activities, assignments, and discussions that will enhance their leadership skills and community involvement.

HON 251H. Culinary Arts & Entertaining. 1 Hour.
A hands-on cuisine from a particular geographical region of the world. Readings on historical, social, economic, and artistic aspects of the relevant culture that pertain to the culinary arts. Applied lessons in menu planning, table setting, and food preparation/presentation. Additional course fee covers food costs. Prerequisite: Student must be admitted into the Honors Program before enrolling in this class.

HON 264H. Thinking Outside the Box. 3 Hours.
A seminar in civic engagement. Students will work with a community leader or community agency to identify, understand, and formulate solutions to complex, real-life community challenges. Emphasis on political empowerment, collaborative work with diverse constituencies, research, data analysis, and problem-solving. Prerequisite: Student must be admitted into the Honors Program before enrolling in this class.

HON 250H. Foundations of Leadership. 3 Hours.

HON 391H. Community Problem-Solving. 3 Hours.
A seminar in civic engagement. Students will work with a community leader or community agency to identify, understand, and formulate solutions to complex, real-life community challenges. Emphasis on political empowerment, collaborative work with diverse constituencies, research, data analysis, and problem-solving. Prerequisite: Student must be admitted into the Honors Program before enrolling in this class.

HON 395H. Citizenship and Service. 3 Hours.
An interdisciplinary exploration of community-building, social justice, and human liberation that engages students directly in meaningful community service. Study of history, theory, and the local/global realities of community-building; reflection upon characteristics of a just society, individual responsibility, and potential leadership roles. Prerequisite: Student must be admitted to the honors program or have a cumulative GPA of 3.30 and instructor consent before enrolling in this course.

HON 399H. Special Topics. 1-8 Hour.

HON 351H. Integrity & The Examined Life. 3 Hours.
This seminar addresses the two themes of moral integrity and Socrates' claim that only the examined life is truly worth living. The focus is on great works, both written and visual (movies), and the students are challenged to develop their own views on a number of substantive matters. Prerequisite: Students must be admitted to the Honors program or have a cumulative GPA of 3.30 and instructor consent before enrolling in this course.

HON 395H. Citizenship and Service. 3 Hours.

HON 450H. Honors Thesis/Project Proposal. 1 Hour.
The honors thesis/project is the Honors Program's capstone experience. It allows students to explore academic areas of their most passionate interests and engage in the process of discovery and scholarship. In this course, students get a head-start on their thesis/project. They use this time to 1) explore potential thesis/project topics; 2) identify an advisor; 3) review relevant research literature; and 4) develop a comprehensive proposal. Prerequisite: Student must be admitted into the Honors Program before enrolling in this class.

HON 451H. Honors Thesis/Project. 1-3 Hour.
The honors thesis/project is the Honors Program's capstone experience. It allows students to explore academic areas of their most passionate interests and engage in the process of discovery and scholarship under the direction of the Honors Director and faculty advisor. An honors thesis/project can be written in any discipline and may take a variety of formats—from a traditional scholarly paper to a design portfolio; from a business plan to a performance; from a service project to a scientific research project - but always includes a written component, a public presentation, and a defense before a faculty committee. Students will work with the Honors Director to determine the appropriate number of credits needed to complete the requirements of the course. Prerequisites: Student must complete HON 450H and have instructor consent before enrolling.
HON 494H. Honors Independent Study. 1-8 Hour.

HON 499. Special Topics. 1-8 Hour.

HUM 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of humanities.

HUM 210. Research Strategies. 2 Hours.
Both practical and theoretical in scope, this class is designed to help students become full participants in our Information Society. This class uses a mixture of lecture, in class discussion, hands on assignments, and written research project to give the student the technical skills and critical thinking abilities they need to use the printed and electronic information resources found in libraries and on the Internet.

HUM 251. Humanities. 3 Hours.
Integrated course in art, literature, and music from the Stone Ages through the Early Middle Ages.

HUM 252. Humanities. 3 Hours.
Integrated course in art, literature, and music from the Gothic Period through the Seventeenth Century.

HUM 253. Humanities. 3 Hours.
Integrated course in art, literature, and music from the Eighteenth Century to the Modern Era.

HUM 254. Non-Western Humanities. 3 Hours.
An integrated survey of the art, literature, philosophy, and history of a particular non-western culture. The specific culture studied from year to year will vary but could rotate among Japanese, African, pre-Columbian American, Chinese, or Indian. May be repeated for credit.

HUM 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the Humanities minor.

HUM 299. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one time offerings of current topics. Prerequisite: Consent of instructor.

HUM 394. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of humanities.

HUM 399. Special Topics. 1-3 Hour.
Varying areas of content, issues, or themes in the study of humanities.

HUM 496. Study Tour. 1-6 Hour.
MSU faculty-led study trips to appropriate locations. The course requirements will include additional requirements beyond the travel itself and may be repeated for credit.

HUM 499. Special Topics. 1-8 Hour.
Topics are variable. Offerings include visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Prerequisite: Consent of instructor.

INT 101. Orientation To Minot State. 1-2 Hour.
An intensive orientation program offered to prepare incoming students for academic and social life at Minot State University. Students are introduced to the services and opportunities available through the University. Students also learn basis concepts behind higher education and engage in exercises that emphasize the use of writing and critical thinking.

INT 151. Writing And Thinking Workshop. 2 Hours.

INT 175. Transition to University Life. 2 Hours.
This course of designed to ease the new student’s transition into college and provide opportunities for the student to obtain knowledge and skills necessary to complete his/her educational goals. Some of the topics covered are: campus resources, stress management, assertive communication, conflict resolution, leadership, and money management.

INT 190. Study Skills. 2 Hours.
This course will contain practical strategies for a successful college experience. Topics will include: time management, listening skills, textbook reading skills, identifying learning styles, test-taking techniques, and effective writing. This course is appropriate for anyone wishing to improve learning skills.

INT 299. Special Topics. 1-8 Hour.
Topics variable. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.
INT 394. Independent Study. 1-4 Hour.
INT 494. Independent Study Honors. 1-8 Hour.
INT 496. Study Abroad (Non-Reciprocal). 1-18 Hour.
Students registered will study abroad in programs not governed by reciprocal exchange agreements with Minot State University. The course is considered as a placeholder and required for students studying abroad in order to maintain full-time status. In addition, course content is designed to enhance cross-cultural learning and provide guidance on how to approach living and adapting to another culture and community. Courses and grades earned abroad will be entered as transfer credits from the host institution for the related semester of study abroad. Prerequisites: Restricted to students who have at least Sophomore status, a 2.5 GPA, and approval from the Office of International Programs.
INT 497. Study Abroad. 1-18 Hour.
Students registered will study abroad in programs governed by reciprocal exchange agreements with Minot State University. The course is considered as a placeholder and required for students studying abroad in order to maintain full-time status. In addition, course content is designed to enhance cross-cultural learning and provide guidance on how to approach living and adapting to another culture and community. Course and grades earned abroad will be entered as transfer credits from the host institution for the related semester of study abroad. Prerequisites: Restricted to students who have at least Sophomore status, a 2.5 GPA, and approval from the Office of International Programs.
INT 499. Special Topics. 12.00 Hours.
Topics variable. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.
INT 95. Fostering a Diverse and Inclusive Community. 0 Hours.
This is a service course in which students work to promote the vitality of community and culture through public activities that foster a diverse and inclusive climate. The course experience will require students to organize, coordinate, or play a significant role in executing a public activity or event that celebrates different cultural or ethnic backgrounds, such as the International Cultural Celebration, Black History Month activities, or the annual spring Honor Dance and Powwow.
KIN 100. Concepts of Fitness & Wellness. 2 Hours.
Provides information and skill training directed towards assessing the health related components of physical fitness, proper nutritional needs for performing physical activities, laboratory activities (group exercise, calisthenics, walk/jog, and weight training), and the cognitive concepts of health related fitness.
KIN 101. Social Dance. 1 Hour.
Students will participate in a variety of social dances including; line, swing, latin, square, waltz, country 2 step, country 3 step, traditional two step, and multicultural dance.
KIN 102. Jogging & Conditioning. 1 Hour.
Instruction, practice, and participation in the basis skills, body mechanics, and terminology associated with jogging and power walking. An emphasis is placed on developing a personal fitness program to fit the individual's needs and current abilities.
KIN 103. Beginning Gymnastics. 1 Hour.
Requires active participation in fundamental tumbling skills, movement fundamentals, and warm-up.
KIN 104. Team Sports. 1 Hour.
Requires active participation in (but not limited to) speedball, flickerball, basketball, and softball.
KIN 105. Outdoor Activities I. 1 Hour.
Requires active participation in (but not limited to) snow skiing and other outdoor related activities. Fees apply to specific activities.
KIN 106. Varsity Soccer. 1 Hour.
Requires active participation in varsity soccer. Repeatable for credit.
KIN 107. Introduction to Physical Education. 2 Hours.
Provides prospective physical educators with an insight into the broad scope of physical education. The student will have the opportunity to obtain an understanding and appreciation of this multifaceted field. Opportunities to assess what physical education offers in terms of career potential. Pre- or corequisite: KIN 100.
KIN 108. Volleyball. 1 Hour.
Requires active participation in the fundamental skills and sport of volleyball.
KIN 109. Racket Sports. 1 Hour.
Requires active participation in (but not limited to) tennis, racquetball, and pickleball.
KIN 110. Beginning Swimming. 1 Hour.
Requires active participation in the fundamental skills of swimming. An emphasis will be placed on water survival skill based upon the American Red Cross water safety guidelines.
KIN 111. Varsity Football. 1 Hour.
Requires active participation in varsity football.
KIN 112. Varsity Basketball. 1 Hour.
Requires active participation in varsity basketball.
KIN 113. Varsity Track and Field. 1 Hour.
Requires active participation in varsity track and field.

KIN 114. Varsity Tennis. 1 Hour.
Requires active participation in varsity tennis.

KIN 115. Varsity Golf. 1 Hour.
Requires active participation in varsity golf.

KIN 116. Varsity Cross Country. 1 Hour.
Requires active participation in varsity cross country.

KIN 117. Varsity Volleyball. 1 Hour.
Requires active participation in varsity volleyball.

KIN 118. Varsity Cheerleading. 1 Hour.
Requires active participation in cheerleading during the fall or winter sports.

KIN 119. Varsity Softball. 1 Hour.
Requires active participation in varsity softball.

KIN 120. Strength Training. 1 Hour.
Instruction, practice, and participation in the basis skills, body mechanics, and terminology associated with weight training. An emphasis is placed on developing a strength training program to fit the individual’s needs and current abilities.

KIN 121. Varsity Baseball. 1 Hour.
Requires active participation in varsity baseball.

KIN 122. Varsity Dance Team. 1 Hour.
Requires active participation on the varsity dance team.

KIN 123. Outdoor Activities II. 1 Hour.
Requires active participation in (but not limited to) canoeing and other associated outdoor activities. Fees apply to specific activities.

KIN 124. Individual Sports. 1 Hour.
Requires active participation, terminology, knowledge, and skills associated with (but not limited to) golf and archery.

KIN 125. Intermediate Swimming. 1 Hour.
Requires active participation in the perfection of swimming skills.

KIN 126. Group Exercise. 1 Hour.
Students will actively participate in a variety of group exercise formats including yoga, bodypump, cardio, strength, sculpt, circuit, tabata, stability ball, and step.

KIN 127. Advanced Hunter Education. 1 Hour.
Provides North Dakota Hunter Education certification, firearms historyym and nomenclature, marksmanship theory and practice, firearm handling and safety (which includes live firing with shotgun), basic first aid survival, hunting, philosophy, and hunter ethics.

KIN 131. Varsity Wrestling. 1 Hour.
Requires active participation in varsity wrestling. Repeatable for credit.

KIN 210. First Aid & CPR. 2 Hours.
Provides instruction in first aid, emergency care procedures, and CPR, which leads to certification by the American Red Cross.

KIN 215. Methods of Teaching Sport Activities. 2 Hours.
Provides instruction, practice, and teaching experience in sports activities. Fundamental rules, skills, terminology, and teaching strategies will be emphasized in (but not limited to) the following sports; softball, soccer, speedball, volleyball, badminton, racquetball, archery, golf, tennis, wallyball, pickleball, and ultimate frisbee. This course is restricted to PE majors and minors, and corporate fitness majors.

KIN 220. Methods of Teaching Dance. 2 Hours.
Provides practice, instruction, and teaching experience in (but not limited to) social, folk, and square dance. Emphasis will be placed on methods and techniques of teaching the rhythms of dance steps and placement of dance. This course is restricted to PE majors and minors, and corporate fitness majors.

KIN 225. Fitness Leadership. 2 Hours.
Course provides prospective corporate fitness, physical education and coaching professionals with an understanding of the fitness industry.

KIN 226. Methods of Teaching Group Exercise and Strength Training. 2 Hours.
Provides instruction, practice, and teaching experience in group exercise and strength training. Fundamental terminology, skills, and teaching techniques of the two activities will be emphasized. Students will practice developing training programs tailored to fit ability, fitness level, and desired outcomes of their future students and clients. Prerequisites: KIN 120 and 126.

KIN 231. Methods of Teaching Aquatics. 2 Hours.
Instruction and participation in the basic swimming strokes, water games, and aquatic exercises.
KIN 270. Upper/Low Extremity Evaluation. 3 Hours.
The purpose of this course is to provide students with the knowledge and skills to perform evaluation of upper and lower extremity (UE/LE) injuries or conditions. Students will be able to perform an observation, history, palpate, perform MMT, perform a neurological evaluation, evaluate ROM, perform special and functional tests for the UE/LE. Prerequisite(s): ATR 207, KIN 431, and BIOL 220.

KIN 299. Special Topics in Human Performance. 1-3 Hour.

KIN 300. Principles of Coaching Methods. 2 Hours.
This course provides students with the foundational content to successfully complete the American Sport Education Program coaching certification. The curriculum covers essentials to prepare coaches to step on the field for the first time. There is a focus on principles of coaching, behavior, teaching, physical training, and management. Topics include coaching philosophy and style, sport management, season and practice planning, and teaching technical and tactical skills. Students completing the course and certification will be published on the ASEP national coaching registry. Prerequisite: Students must be Physical Education or Corporate Fitness and Wellness majors or Coaching minors before enrolling in this course.

KIN 301. Psychomotor Development. 2 Hours.
Provides an understanding of the changes that occur in motor behavior over the entire lifespan. Participants will have opportunities to discuss issues relating to various motor development theories and to the different influences affecting an individual's motor development. Participants will have opportunities to observe and analyze fundamental motor patterns as they are performed in various settings. Emphasis is placed on the identification of components of correct form, the detection of incorrect form, and the appropriate use on skill cues to prompt participants toward correct form.

KIN 310. Organization & Administration of PE & Athletics. 2 Hours.
Provides a study of administration and management concepts and management responsibilities relevant to teaching and non-teaching career fields. Prerequisite: KIN 107.

KIN 325. Personal Training Methods. 2 Hours.
This course is designed to provide prospective personal trainers and coaches with instruction, practice, and teaching experience in personal training and lifestyle management coaching. Fundamental terminology, personal training skills, strategies, and techniques will be emphasized. Students will practice developing personal training programs tailored to fit the ability, fitness level, and desired outcomes of prospective clients. Prerequisite: Students must complete KIN 226 before enrolling in this course.

KIN 334. Nutrition for Physical Performance. 2 Hours.
Provides information on how nutritional habits affect physical performance. An emphasis will be placed on knowledge of the six basic nutrients, food groups, calories, and energy expenditure.

KIN 340. Elementary Methods & Activities. 3 Hours.
Provides prospective teachers with an understanding of a contemporary and reflective approach to teaching elementary physical education grades K-6. This approach to teaching is based on "Dynamic Physical Education for Elementary School Children" by Robert P. Pangrazi Ph. D and serves as the content for the recently published National Standards for Physical Education (Moving into the Future, 1995). Participants will learn and practice a set of specific teaching behaviors and curriculum development skills, which will be most useful as beginning teachers. Peer teaching and participation in up to six field experiences in surrounding elementary schools are also a part of class. Activities in this class will result in materials meeting many of the INTASC standards. Prerequisites: KIN 301 and Admission to Teacher Education. In addition, this course is a prerequisite for KIN 341 and it is highly recommended that this is also taken prior to KIN 391.

KIN 341. Practicum for Elementary Physical Education. 2 Hours.
Provides prospective physical education teachers with active participation in the complete process of teaching developmentally appropriate physical education to children in grades K-6. This approach to teaching is based on "Dynamic Physical Education for Elementary School Children" by Robert P. Pangrazi Ph. D and serves as the content for the recently published National Standards for Physical Education (Moving into the Future, 1995). Participants will receive twenty-four contact hours with children during which time they will practice and refine instructional skills taught in KIN 340. Prerequisites: KIN 340 and Admission to Teacher Education.

KIN 360. Administration of School Health Programs. 3 Hours.
The development and administration of the public school health program, with emphasis being placed on health services, helpful school living, and health instruction. Special emphasis placed on developing and administering health instruction material for the elementary through senior high school program based upon the guidelines and recommendations of the North Dakota Department of Public Instruction.

KIN 361. Vital Health Issues. 3 Hours.
Provides participants with an understanding of various current health topics and issues including (but not limited to) stress, mental health, intimate relationships, weight management, and substance abuse.

KIN 362. Principles & Methods of Teaching School Health. 3 Hours.
Provides prospective teachers with an understanding of a contemporary and reflective approach to teaching health in the public schools grades K-12. This approach to teaching is based on learner-centered instructional strategies. Participants will learn and practice skills that will be most useful to them as beginning teachers such as: (a) establishing the learning environment; (b) planning appropriate and meaningful learning experiences; and (c) using effective teaching behaviors to implement the lesson plans.
KIN 391. Secondary Physical Education Methods and Practicum. 4 Hours.
This course has two major components. First, methods coursework done at MSU which provides teaching strategies for classroom management, planning, instruction, and assessment of teacher as well as student behavior. Application of current theories of motivation are explored and applied in this course. Second, forty-five contact hours woth secondary students will provide extensive opportunity to apply current jpractices learned in the classroom. Prerequisites: KIN 301, Admission to Teacher Education, and it is highly recommended that students take KIN 340 prior to enrolling in this course. Course restricted to Physical Education majors.

KIN 394. Independent Study. 2 Hours.
KIN 401. Methods of Coaching Football. 2 Hours.
Provides techniques, skills, strategies, and coaching procedures developed through classroom presentations and skill sessions.

KIN 402. Methods of Coaching Basketball. 2 Hours.
Provides fundamental and team concepts developed through classroom and skill sessions.

KIN 403. Methods of Coaching Track. 2 Hours.
Provides responsibilities, rules, methods, and techniques of coaching track and field. Laboratory work ans skill sessions.

KIN 404. Methods of Coaching Baseball. 2 Hours.
Provides fundamental and team concepts developed through classroom presentations and skill sessions.

KIN 405. Methods of Coaching Wrestling. 2 Hours.
Provides the requirements, responsibilities, and methods of coaching wrestling on a secondary or junior high school level. Along with classroom lecture and discussion the students will be required to observe practice sessions and matches at the local junior and senior high schools.

KIN 406. Methods of Coaching Volleyball. 2 Hours.
Provides techniques, skills, strategies, and coaching procedures developed through in-class analysis and on court skill sessions.

KIN 407. Psychology of Physical Education & Athletes. 2 Hours.
Provides knowledge of the psychological aspects of participation in physical education and athletic events. Emphasis will be placed on the teacher/coach and student/athlete relationship in regard to developing communication, leadership, motivation, self-confidence, and goal setting skills. Prerequisite: PYS 111.

KIN 431. Kinesiology. 3 Hours.
Provides study of joint movements and muscle action as related to physical activities. Prerequisite: BIOL 115 or 220.

KIN 433. Physiology of Exercise. 3 Hours.
Provides a comprehensive study of the physiological effect of muscular exercise and training upon organs and systems of the body. Prerequisite: KIN 431.

KIN 441. Evaluation of Psychomotor Performance. 3 Hours.
Designed to provide the corporate fitness and physical education major with an understanding of contemporary methods used to measure and evaluate psychomotor skills and performance. Emphasis will be placed on learning and practicing techniques necessary for proper evaluation of health and performance related to physical fitness and selected sport skills.

KIN 442. Adapted Physical Education. 2 Hours.
Provides practical methods and teaching applications that can be used in a mainstreamed or adapted group games, dance, and individual and dual sports. Prerequisite: KIN 215.

KIN 494. Special Topics In Physical Ed. 1-8 Hour.
KIN 496. Coaching Activities Practicum. 2 Hours.
Coaching minors work with experienced coaches in the field to gain practical experience in a field setting. All practicum's arranged by the department.

KIN 497. Practicum in Corporate Fitness. 8-18 Hour.
160 to 360 hours of practicum experience at two to four sites in a recreation, wellness, fitness center, clinical, or athletic performance setting. Students must take at least two credits at a time, with 20 hours of clinical experience required per credit. Restricted to junior and senior corporate fitness majors. Prerequisite: KIN 226, KIN 325, and KIN 431 or 433 courses must be completed.

LANG 101. Beginning Classical Greek I. 4 Hours.
Introduction to the language of the ancient Greek world. Students will learn a substantial amount of vocabulary as well as key morphological and syntactic constructions. Throughout, students will be exposed to snippets from authors ranging from Plato and Sophocles to Homer and Aristophanes. There will also be occasional forays into Mycenaean Greek and epichoric inscriptions.

LANG 104. Native Languages of America. 3 Hours.
This is an introduction to linguistic analysis using the languages native to North America as our template. Students will examine particular languages with an eye towards their sounds, word forms, and word order. Additionally, students will observe the historical development and cultural significance of particular native languages. Languages native to North Dakota such as Hidatsa, Mandan, Arikara, Lakota, Nakota, Dakota, Chippewa, and Cree will be highlighted.
LANG 105. Writing Systems. 3 Hours.
A history of the principle writing systems of the world and a discussion of how they work. In addition to studying cuneiform, Egyptian hieroglyphs, Chinese characters, Japanese kana and kanji, Korean hanul, Mayan glyphs, Hindi's devanagari, Linear A and B, Cree's alphasyllabary, Russian's cyrillic, Cherokee's syllabary, Hebrew and Arabic's consonantal writing systems, ample time will be spent tracing the history and development of the Roman alphabet's individual letters.

LANG 206. Latin and Greek in Scientific Terminology. 1 Hour.
This course familiarizes students with the Latin and Greek building blocks which are so fundamental to much terminology in the natural sciences. The morphological structure of Latin and Greek words will be explored as will the semantic ranges of the most common and useful affixes and roots.

LANG 298. Syntax & Morphology. 3 Hours.
To introduce ESL (English as a Second Language) students to the richness of English affixes as well as to the rules of sentence formation. Specifically: 1.

LANG 299. Special Topics. 1-8 Hour.

LANG 390. Foreign Language Methods. 4 Hours.
Practical Methods for teaching foreign languages. Examines theories of second language acquisition and research in effectiveness of various teaching strategies. Includes a 60 hour practicum in high school classes with some practice teaching. This course is limited to and required of foreign language majors and minors in the BSE program. Does not count towards the residency requirements for the FL BSE major or minor. Prerequisite: Admission to Teacher Education or department consent.

LANG 394. Independent Study General Lang. 1-4 Hour.

LANG 404. TA Foreign Language Seminar. 3 Hours.
This course is designed to provide structure to the experience of teaching foreign languages as a Fulbright Language Teaching Assistant (FLTA).

LANG 451. Study Abroad Recap. 1-6 Hour.
After completing a significant period of immersion in the target culture, students take this course at Minot State University the semester upon returning. The foreign language faculty assist students in reflecting upon their study abroad experience while narrowing down topics for a senior capstone. This course is restricted to declared FL BA/BSE majors and minors. It does not count towards the residency requirement for the FL BA/BSE major or minor. Prerequisite: Restricted to students who are Foreign Language majors.

LANG 499. Special Topics. 1-8 Hour.

LANG 95. Foreign Language Experience. 0 Hours.
This is a service course in which students could use their language skills by tutoring in the schools, volunteering in the courthouse and hospitals, or presenting language lessons in the nursing homes with songs and parties.

LAT 101. Beginning Latin I. 3 Hours.
Introduction to the grammar and language of the Roman Empire with emphasis on Latinate words surviving into English. Throughout, students will be exposed to snippets from real Latin authors, e.g. Caesar, Vergil, Cicero, Ovid.

LAT 102. Beginning Latin II. 3 Hours.
A continuation of Latin 101 with an introduction to more advanced grammar topics such as the subjunctive, indirect discourse, conditional sentences, and the supine. Increasingly more advanced literary texts are also introduced.

LAT 201. Intermediate Latin I. 3 Hours.
A continuation of Latin 102 with primary focus on reading prose. Reading selections will come from Caesar’s “Gallic Wars”, Cicero’s “Pro Caelio”, Augustus ‘“Res Gestae”, Suetonius’ “The Twelve Caesers”, and portions of Jerome’s Vulgate Bible. Prerequisite: Student must complete Latin 102 before enrolling in this class.

LAT 202. Intermediate Latin II. 3 Hours.
To continue in the reading of original Latin prose authors such as Cicero, Caesar, Tacitus, and Suetonius as well as to explore the works of various poets such as Vergil, Horace, and Catullus. A final portion of the class will offer an overview of the development of the Latin language into the Romance languages. Prerequisite: Students must complete Latin 201 before enrolling in this course.

LEGL 322. Criminal Law. 3 Hours.
A critical examination of the development and function of western criminal law; analyzes current definitions of criminal acts and omissions, defenses, and justifications in the social and legal society of the United States. Prerequisite: Student must complete CJ 201 before enrolling in this class.

LEGL 350. Criminal Procedure. 3 Hours.
This course is designed to expose students to the rules and procedures in which criminal prosecutions are governed. The course begins with examining the rules and procedures of police investigations and continues throughout the process of the criminal justice process. Examples of questions that criminal procedures addresses are: When can a police officer conduct a search of a home? When can a probation officer enter probation’s home without notice? Students will also examine the historical foundation of these rules and procedures. Prerequisite: Student must complete CJ 201 before enrolling in this class.

LEGL 365. Law & Society. 3 Hours.
Examination of the various perspectives on th development and implementation of law and assessment of the various facets of law in action. Prerequisite: CJ 201.
LEGL 370. Court Processing and Sentencing. 3 Hours.
Provides students with a comprehensive analysis of the U.S. court system; the function of state and federal district, appellate, and supreme courts is reviewed; students are introduced to the influence of extra-legal factors and their differential impact on offender processing; contemporary criminal justice issues facing the court system are also examined. Prerequisite: CJ 201.

LEGL 372. Juries. 3 Hours.
The primary objective of this course is to offer students a comprehensive, critical analysis of the jury system in the United States. A few of the issues to be examined are: jury selection and service, jury nullification, jury decision-making, information processing, juries and tort awards, and juror competence. A special emphasis will focus on the capital jury process and decision-making. Prerequisite: CJ 201.

LEGL 374. Comparative Criminal Justice Systems. 3 Hours.
This course is designed to provide students with an in-depth study of international criminal justice and legal traditions and systems. Students will be complete critique of the differences and similarities among various international criminal justice and U.S. justice and legal systems. Prerequisite: CJ 201.

MATH 103. College Algebra. 4 Hours.
This course explores fundamental college algebra topics, either as preparation for further study in mathematics or to meet the general education requirement. Topics of study include the following: relations, functions, and graphing; equations and inequalities; complex numbers; radical, polynomial, rational, exponential, and logarithmic functions; systems of equations; matrices; sequences and series; and the binomial theorem. Prerequisite: ASC 093 with C or better, or qualifying math placement test score, or ACT math subtest score of 21 or higher. Required corequisite Math 103L if ACT math subtest score is 18-20 or qualifying Elementary Algebra math placement test score is 60-75.

MATH 103L. College Algebra Lab. 2 Hours.
College Algebra level lab provides students in Math 103 with an extended experience in a lab setting working on algebra skills. Lab meets 4 hours per week. This class is S/U. Required Corequisite to Math 103 if ACT math subtest score is 18-20. Withdrawing from this class will also withdraw you from Math 103.

MATH 104. Finite Mathematics. 4 Hours.
This course is for students whose major does not require MATH 103 College Algebra, Math 107 Precalculus, or courses in calculus. This course emphasizes the understanding and application of mathematics as they are used in everyday life. Topics of study include systems of linear equations and inequalities, matrices, linear programming, logic, mathematics of finance, elementary probability, and descriptive statistics. This course does not serve as the prerequisite for any other math course. Prerequisite: ASC 093 with C or better or qualifying math placement test score, or ACT math subtest score of 21 or higher.

MATH 105. College Trigonometry. 2 Hours.
A study of angles, trigonometric function and their inverses, solving triangles, trigonometric identities and equations, polar coordinates, and applications. Prerequisite: Students must complete Math 103 with a C or better or have an ACT subscore of 25 or higher before enrolling.

MATH 107. Precalculus. 4 Hours.
This course includes the study of equations and inequalities, polynomial, rational, exponential and logarithmic functions, conic sections, standard forms, polar-coordinates and introduction to parametric equations, graphing, trigonometric and inverse trigonometric functions, trigonometric identities and equations, and applications. Prerequisite(s): MATH 103 with a C or better, or qualifying math placement test score, or ACT math subtest score of 25 or higher.

MATH 146. Applied Calculus. 3 Hours.
Introduction to differential and integral calculus with applications from areas such as social science and business. Topics include limits, derivatives, integrals, exponential and logarithmic functions, and applications. Prerequisite(s): MATH 103 with a C or better, or qualifying math placement test score, or ACT math subtest score of 25 or higher.

MATH 165. Calculus I. 4 Hours.
Topics include limits, continuity, differentiation, Mean Value Theorem, integration (indefinite and definite integrals), Fundamental Theorem of Calculus, and applications. Prerequisite(s): MATH 107 with a C or better, or MATH 103 and 105 with a C or better, or qualifying math placement test score, or ACT math subtest score of 29 or higher.

MATH 166. Calculus II. 4 Hours.
Topics include applications of integration, methods of integration, polar equations, sequences, series, power series, and application Prerequisite(s): MATH 165 with a C or better.

MATH 201H. Environmental Mathematics. 3 Hours.
Exploration of environmental issues using mathematical models together with real world data. Topics may include: ecology, health sciences, economics, genetics, and other environmental issues. Possible field experience. Prerequisite(s): Math 102 with a C or higher, or qualifying math placement test score, or ACT math subtest score of 22 or higher.

MATH 205. Math Proof & Problem Solving. 3 Hours.
A course on mathematical proofs and axiomatic systems. Topics may include set theory, formal logic, combinatorics, graph theory. Prerequisite: MATH 165.

MATH 208. Discrete Mathematics I. 3 Hours.
Introduction to discrete mathematics with an emphasis in computer science and applications including: sets and set theory, Boolean algebra and digital logic theory, formal logic and equivalence, mathematical proofs (direct, contradiction, contrapositive, and induction), sequences and recursion, relations and functions, and relational algebra. Prerequisite: MATH 103 or MATH 107 or MATH 146 or MATH 165 with a C or better.
MATH 209. Discrete Mathematics II. 3 Hours.
Intermediate discrete mathematics with an emphasis in computer science and applications including: combinatorics and probability, graph theory including circuits, isomorphisms, trees, shortest path algorithms, algorithm analysis, regular expressions and formal languages, and finite-state automata. Prerequisite: MATH 208 with a C or better.

MATH 210. Elementary Statistics. 4 Hours.
An examination of introductory statistics concepts, including sampling, descriptive statistics, probability, correlation, regression, binomial and normal distributions, confidence intervals and hypothesis testing of one and two populations, ANOVA, and Chi-square tests. Technology will be used to enhance learning and mirror statistical applications and practices in the larger world. Prerequisite(s): ASC 093 with a C or better, or qualifying math placement test score, or ACT math subtest score of 21 or higher. Required corequisite Math 210L if ACT math subtest score is 18-20 or qualifying Elementary math placement test score is 60-75.

MATH 210L. Elementary Statistics Lab. 2 Hours.
Elementary Statistics level lab provides students in Math 210 with an extended experience in a lab setting working on statistics skills. Lab meets 4 hours per week. This class is S/U. Required Corequisite to Math 210 if ACT math subtest score is 18-20. Withdrawing from this class will also withdraw you from Math 210.

MATH 265. Calculus III. 4 Hours.
Functions of more than one variable, multiple integrals, line integrals, Green's and Stroke's theorem. Prerequisite: MATH 166.

MATH 266. Introduction to Differential Equations. 3 Hours.
First order equations, linear equations, systems of equations, series methods, Prerequisite: MATH 265 and MATH 314.

MATH 277. Mathematics for Elementary Teachers I. 3 Hours.
A course for elementary education majors. Topics include problem solving, number systems (natural numbers through the reals), number theory, and proportional reasoning. Technology and manipulatives are used throughout the course. Prerequisite: ASC 093 with a C or better, or qualifying math placement test score, or ACT math subtest score of 21 or higher.

MATH 294. Intro to Research Math. 1-2 Hour.
Students explore topics, expand their mathematical knowledge, and begin to conduct intro ductory research under the direction of a faculty mentor. The number of credits is proportional to the time committed to the research (1 SH = 3 hours of student work per week on average). Repeatable for up to 4 credits total. Prerequisite(s): MATH 165 with a B or better; instructor permission required.

MATH 299. Special Topic. 1-4 Hour.

MATH 305. Linear Algebra. 4 Hours.
Real vector spaces, subspaces, linear transformations, matrices, eigenvalues and eigenvectorsm vector geometry. Prerequisite: MATH 107 or advanced placement.

MATH 314. Introduction to Mathematical Programming. 2 Hours.
An introduction to symbolic, numerical, and graphical computing using mathematical software packages. MATLAB will be used during fall semesters and Mathematica will be used during spring semesters. Prerequisite: Students must complete MATH 165 and MATH 305 before enrolling in this course.

MATH 315. Intro to Mathematical Modeling. 3 Hours.
An introduction to mathematical modeling is the translation of a real world problem into a well formulated mathematical model. Students will develop the basic skills and techniques of formulation, simulation, analysis, and testing of mathematical models for describing and predicting a variety of phenomena. Understanding the fundamental principles in model formulation in physics, chemistry, biology, business, economics, medicine, and social and environmental sciences will be emphasized. Prerequisites: Student must complete MATH 165 and Math 314 before enrolling in this class.

MATH 320. Number Theory. 3 Hours.
Unique factorization, residue theory, Diophantine equations, quadratic equations and reciprocity. Prerequisite: MATH 205.

MATH 325. Algebra for Secondary Teachers. 3 Hours.
Algebra topics in the secondary mathematics curriculum are explored using a variety of manipulative, technologies, and teaching resources. Focus areas include patterning, connections between algebraic topics, and multiple ways of knowing and learning algebraic topics. Prerequisite: Students must complete MATH 165 before enrolling in this course.

MATH 330. College Geometry. 4 Hours.
Geometry for secondary teachers. Euclidean geometry using both inductive and deductive approaches. Teaching tools include appropriate technology. Standard topics plus finite and transformational geometry. Prerequisite: MATH 205.

MATH 345. Linear Models. 4 Hours.
An introduction to statistical methods including topics from sampling, hypothesis testing, nonparametric statistics, resampling, simple and multiple regressions, and the general linear model. Computer statistical packages will be integrated into the course. Prerequisite: MATH 210 or equivalent.

MATH 346. Experimental Design. 4 Hours.
Statistical methods including topics from analysis of variance; fixed and random factors; block, nested, and crossed designs; factorial, fractional factorial and confounded designs; split plot designs; and multivariate analysis. Computer statistical packages will be integrated into the course. Prerequisite: MATH 210.
MATH 371. Early Practicum. 1 Hour.
This course will require a minimum of 45 clock hours in a practicum experience. The experience can be any one of or combination of the following: secondary classroom, teaching assistant on campus, tutor on or off campus, tutor in the MSU Math Clinic, tutor at Job Corps, or some other experience approved by the Mathematics Department. Prerequisite(s): MATH 165.

MATH 377. Mathematics for Elementary Teachers II. 3 Hours.
A course for elementary education majors. Topics include probability, statistics, and geometry. Calculators, computer software, and manipulatives are throughout the course. Prerequisite: ASC 093 with a C or better, or qualifying math placement test score, or ACT math subtest score of 21 or higher.

MATH 378. Mathematics for Elementary Teachers III. 3 Hours.
A required general education course for elementary education majors. Topics include algebraic reasoning and habits of mind, problem solving, set theory, probability, and statistics. Students will learn how to communicate, explain, and demonstrate mathematics using various physical models, conceptual models, manipulatives and other relevant tools through the study of student errors and implementation of classroom activities. Prerequisites: Students must complete Math 227 and Math 377 prior to enrolling in this course. Corequisite: Students must enroll in ED 221 at the same time as this course.

MATH 380. History of Mathematics. 3 Hours.
Development of mathematics from its early beginning through the present axiomatic approach. Problems from each era are included. Prerequisite: MATH 107 or advanced placement.

MATH 381. Secondary Math Practicum. 1 Hour.
This course will require a minimum of 60 clock hours in a practicum experience. The experience will take place in a grades 7-12 setting. Prerequisite(s): Admission to Teacher Education. Prereq/Coreq: MATH 391.

MATH 391. Teaching Mathematics. 3 Hours.
Intended for secondary mathematics teachers. Planning mathematics lessons, developing mathematics teaching skills. Prerequisite(s): Admission to Teacher Education.

MATH 394. Independent Study General Math. 1-4 Hour.

MATH 420. Abstract Algebra. 4 Hours.
Introduction to abstract algebraic systems. Groups, rings, homomorphisms and isomorphisms. Prerequisites: MATH 205.

MATH 445. Probability And Statistics I. 4 Hours.
Introduction to probability, discrete and continuous random variables, distribution functions, special probability distributions. Prerequisite: MATH 146 or 166.

MATH 446. Probability and Statistics II. 4 Hours.
Multivariate probability distributions. Functions of random variables, moment generating functions, sampling distributions, estimation methods, properties of point estimations, linear models, some special experimental designs. Prerequisite: MATH 445.

MATH 450. Real Analysis. 4 Hours.
Limits of functions and sequences, continuity, topology of the reals, differentiation, Riemann Integration, convergence and uniform convergence. Prerequisite: MATH 205.

MATH 460. Complex Analysis. 3 Hours.
Analytic functions, conformal maps, Cauchy integral formula, residue theorem. Prerequisites: MATH 265, 450.

MATH 466. Intro to Partial Differential Equations. 3 Hours.
Solution of the standard partial differential equations (Laplace's equation, transport equation, heat equation, wave equation) by separation of variables and transform methods, including eigenfunction expansions, Fourier and Laplace transform. Boundary value problems, orthogonality and Fourier series. Prerequisite: Math 266.

MATH 470. Numerical Analysis. 4 Hours.
Error analysis, numerical differentiation and integration, linear systems and numerical solutions to differential equations. The computer language of instruction will be FORTRAN. Prerequisites: Student must complete MATH 265, 305, and 314 before enrolling in this class.

MATH 494. Directed Research in Math. 1-4 Hour.
Students conduct research under the direction of a faculty mentor. The general topic and specific goals and activities are agreed upon by the student and the mentor. While publication or presentation is not a requirement, all projects have a goal of producing publishable/presentable results. The number of credits is proportional to the time committed to the research (1 SH = 3 hours of student work per week on average). Repeatable for up to 8 credits total. Prerequisite(s): Math 294 (2 SH); instructor consent.

MATH 499. Special Topics. 1-4 Hour.

MHA 297. Addiction Studies Practicum. 2 Hours.
Participation in individual, group, and family counseling in an agency or hospital involved in addiction counseling. Prerequisite: PSY 111.

MHA 338. Professional Relations & Ethics. 3 Hours.
Study of Federal Confidentiality Laws and ND Commitment Law and process in order to protect the rights of the client. Prerequisite: PSY 111.
MHA 344. Dynamics of Addiction. 3 Hours.
Emphasizes the history of drug abuse, theories, and controversies regarding chemical dependency, and multidisciplinary approaches to treatment. Prerequisite: PSY 111.

MHA 349. Psychopharmacology. 3 Hours.
An introduction to behavioral pharmacology, including the basics of pharmacology, psychology, and neuroscience needed to understand drugs of abuse. Prerequisite: PSY 111.

MHA 423. Introduction to Counseling. 3 Hours.
Study of the theories of counseling and application of these principles for dealing with behavioral problems in agencies, schools, or hospitals. Prerequisite: PSY 111.

MHA 424. Advanced Counseling. 3 Hours.
Further study of counseling theory with students being required to develop a workable methodology of their own. Prerequisite: PSY 111.

MHA 476. Group Dynamics. 3 Hours.
Actual group experience in a lecture/lab format. Readings and written assignments focus on organizing groups and skills required of group facilitators. A problem solving/personal growth group meets each week. Prerequisite: PSY 111.

MHA 485. Addiction Studies Practicum. 15 Hours.
Participation in the North Dakota consortia to provide experience in the addiction field. This is a 4.5 month, full time experience, where the student actively participates as an addiction counselor in training. Course restricted to psychology or addiction studies majors.

MHA 486. Addiction Studies Practicum. 15 Hours.
Participation in one of the North Dakota consortia to provide experience in the addiction field. This is the second part of the nine month practicum experience required for licensure as an addiction counselor. The course involves a 4.5 month, full time experience, where the student actively participates as an addition counselor in training. Course restricted to psychology or addiction studies majors.

MUSC 099. Recitals/Concerts. 0 Hours.
This if a non-credit course which will appear on each music major's semester program. It is designed to accumulate information as to the student's required attendance at predesignated recitals, concerts, and seminars. The final grade will be either Satisfactory (S) or Unsatisfactory (U).

MUSC 100. Music Appreciation. 3 Hours.
Designed for the non-music majors and may be used as partial fulfillment of Humanities requirement. Representative works from many cultures will be studied.

MUSC 101. Fundamentals of Music. 2 Hours.
Introduction to fundamental elements of music and functional musicianship for non-music majors.

MUSC 102. Private Piano. 0.5-4 Hour.
Course restricted to majors. Repeatable for credit.

MUSC 103. Private Harpsichord. 1 Hour.
Course restricted to majors. Repeatable for credit. Prerequisite: Restricted to students who are music or music education majors.

MUSC 105. Women's Chorus. 1 Hour.
Open to female singers with interest in singing.

MUSC 106. Private Organ. 0.5-4 Hour.
Repeatable for credit.

MUSC 108. Private Voice. 0.5-4 Hour.
Repeatable for credit.

MUSC 110. Audio/Video Technology. 1 Hour.
This course is designed to provide basic knowledge and gain experience with recording live performances. Employing both on campus and online resources, the students will study basic practices for recording and production as they apply that knowledge to recording projects within the Division of Music. Prerequisite: Restricted to students who are music majors.

MUSC 111. Private Voice. 0.5-4 Hour.
Repeatable for credit.

MUSC 112. Diction for Singers I. 2 Hours.
Introduces rules, concepts and practice of proper pronunciation and articulation for singing in English and Italian using the International Phonetic Alphabet. Develops specific language skills necessary for solo vocal and choral singing and teaching. [Course offered every fall semester.]

MUSC 113. Diction for Singers II. 2 Hours.
Introduces rules, concepts and practice of proper pronunciation and articulation for singing in French and German using the International Phonetic Alphabet. Develops specific language skills necessary for solo vocal and choral singing and teaching. [Course offered every spring semester.] Prerequisite: Students must complete MUSC 112 before enrolling in this course.

MUSC 114. Western Plains Opera Production. 1 Hour.
The Western Plains Opera Production course will provide students a variety of opportunities for growth through both the performance and technical aspects of a fully-staged professional music production.
MUSC 115. Opera-Musical Production. 1 Hour.
Techniques of production and staging dramatic musical works, employing operas and scenes from operas. Prerequisite: consent of instructor.

MUSC 116. Private Strings. 0.5-4 Hour.
Repeatable for credit.

MUSC 117. Private Classical Guitar. 0.5-4 Hour.
Repeatable for credit.

MUSC 119. Vocal Ensemble. 1 Hour.
Membership subject to approval of director. (Rehearsals by arrangement.).

MUSC 120. Concert Choir. 1 Hour.
Membership subject to approval of director.

MUSC 121. Intro to Music Theory. 2 Hours.
Foundations of music notation and basic music literacy. Course provides a background for MUSC 122 Music Theory and a foundation for successful pursuit of the Music major. Prerequisite: Students must enroll in MUSC 123 Aural Skills at the same time.

MUSC 122. Music Theory I. 3 Hours.
Study of music notation and basic structure of music, including key signatures, scales, chords, fourpart writing and instrumental notation. Provides students with practical applications of music theory concepts. Meets three times weekly.

MUSC 123. Aural Skills I. 1 Hour.
A lab experience meeting twice weekly, to develop abilities in sight-singing, ear training, rhythm reading and error detection, interval and chord identification.

MUSC 124. Music Theory II. 3 Hours.
Further develops a student’s understanding of music notation and basic structures of music, including voice-leading, figured bass, melodic forms, modulations and seventh chords. Meets three times per week. Prerequisite: MUSC 122.

MUSC 125. Aural Skills II. 1 Hour.
A lab experience meeting twice weekly, to develop abilities in sight-singing, ear training, rhythm reading and error detection, interval and chord identification. Prerequisite: MUSC 123.

MUSC 126. Private Brass. 0.5-4 Hour.
Repeatable for credit.

MUSC 127. MSU Singers. 1 Hour.
By audition.

MUSC 128. Keyboard Theory I. 1 Hour.
Prerequisite: Student must be enrolled in MUSC 122 before enrolling in this course.

MUSC 129. Private Composition. 0.5-4 Hour.
Instructor approval required. Repeatable for credit.

MUSC 130. Brass Ensemble. 1 Hour.
Rehearsals are arranged and membership is subject to approval of director.

MUSC 131. Private Percussion. 0.5-4 Hour.
Repeatable for credit.

MUSC 133. Private Woodwinds. 0.5-4 Hour.
Repeatable for credit.

MUSC 135. Woodwind Ensemble. 1 Hour.
Rehearsals arranged and membership subject to approval of director.

MUSC 140. String Ensemble. 1 Hour.
Membership subject to approval of director.

MUSC 144. Chamber Ensembles. 1 Hour.
Brass, String, Percussion, Woodwind, Keyboard, and Vocal students are welcome to join on approval of the instructor(s), either as an elective or in fulfillment of their Small Ensemble requirements.

MUSC 145. Percussion Ensemble. 1 Hour.
Rehearsals are arranged and membership subject to approval of director.

MUSC 150. Orchestra. 1 Hour.
Rehearses Thursday evening. The Minot Symphony Orchestra is a university-community organization. Open to qualified students upon approval of director.
MUSC 153. Accompanying. 3 Hours.
MUSC 155. Wind Ensemble. 1 Hour.
Open to qualified students subject to approval of director.
MUSC 160. Concert Band. 1 Hour.
Open to qualified students subject to approval of director.
MUSC 163. Beaver Athletic Band. 1 Hour.
Brass & Percussion Ensemble which performs at athletic events, in concert and in recital, community events and tours regularly. Members are selected by audition.
MUSC 164. Musical Theatre Professional Preparation. 2 Hours.
Designed to prepare students to be successful at professional Musical Theatre auditions and to provide them with practical skills and information related to show business (i.e: agents, managers, unions, negotiating, contracts, headshots, resumes, casting directors, etc.).
MUSC 165. Jazz Ensemble. 1 Hour.
Open to qualified students subject to approval of director.
MUSC 167. Jazz Combo. 1 Hour.
Open to qualified students subject to approval of director.
MUSC 177. Functional Piano. 1 Hour.
A piano class designed for students who are beginners on the instrument, first year theory students, and elementary education majors. Course restricted to majors. (Class meets twice weekly.) Prerequisite: Restricted to students who are music or music education majors.
MUSC 178. Functional Piano. 1 Hour.
Continuation of MUSC 177. Prerequisite: MUSC 177. (Class meets twice weekly.).
MUSC 180. Class Guitar I. 1 Hour.
Beginning technique in chord and melody playing is developed in class ensemble. Courses in progressive order of advancement.
MUSC 181. Class Guitar II. 1 Hour.
Continuation of MUSC 180. Prerequisite: MUSC 180.
MUSC 201. World Music. 3 Hours.
Designed to introduce the world's major music's in order to encourage and enhance cultural diversity. May be used as partial fulfillment of the Humanities requirement.
MUSC 202. Private Piano. 1-3 Hour.
Upper division private study.
MUSC 203. Music Theatre Studio. 1 Hour.
Performance of major roles of Musical Theatre in studio projects. Emphasis on the student's integration of singing, acting, and movement into a unified performance.
MUSC 205. History of US Through Music. 3 Hours.
Designed for the non-music majors and may be used as partial fulfillment of the Humanities requirement. American music which accompanied significant historical eras and development will be studied.
MUSC 206. Private Organ. 1-3 Hour.
Upper division private study.
MUSC 207. History of Pop and Rock Music. 3 Hours.
Pop Music and American Liberal Capitalism helped to create a planetary culture. Twentieth century events that brought the world to this pass were not so much a movement as a force of creativity and capitalism yoked by the first global communications network. This course brings liberal arts students into contact with tools and information on this subject.
MUSC 211. Private Voice. 1-3 Hour.
Upper division private study.
MUSC 216. Private Strings. 1-3 Hour.
Upper division private study.
MUSC 222. Music Theory III. 3 Hours.
A continuing study of the underlying theoretical background of tonal music, begun in Theory I and II. Topics include a thorough study of chromatic harmony and the deterioration of functional harmony in the late 19th century to the demise of tonality on the 20th. Analytical techniques are stressed. Meets three times per week. Prerequisite: MUSC 123, 124, or 125.
MUSC 223. Aural Skills III. 1 Hour.
A practical continuation of previous aural studies. Areas to be covered include advanced work in musical dictation, error detection, and sight singing. Meets twice per week. Prerequisite: MUSC 124 or 125.
MUSC 224. Form and Analysis. 2 Hours.
This course will explore the analysis of compositional forms, phrase structure and advances harmonic analysis of works from the 18th century to modern music. The course is restricted to music majors. Prerequisite: MUSC 222.

MUSC 225. Aural Skills IV. 1 Hour.
A practical continuation of previous aural studies. Areas to be covered include highly advanced work in musical dictation, error detection, and sight singing. Meets three times per week. Prerequisite: MUSC 222 or 223.

MUSC 226. Private Brass. 1-3 Hour.
Upper division study.

MUSC 229. Private Composition. 0.5-4 Hour.
Instructor approval required. Repeatable for credit. Prerequisite: MUSC 122, 124, 222, and music majors of junior and senior status.

MUSC 231. Private Percussion. 1-3 Hour.
Upper division private study.

MUSC 233. Private Woodwinds. 1-3 Hour.
Upper division private study.

MUSC 250. Basic Conducting. 2 Hours.

MUSC 260. Introduction to Music History. 3 Hours.
Survey of the history and traditions of western civilization through its music. Students will focus on the musical content and trace developmental trends through the common periods of music history. This course is restricted to music majors.

MUSC 299. Special Topics. 1-8 Hour.

MUSC 301. Music Methods for the Elementary Teachers. 2 Hours.
Methods and materials for the classroom teacher in guiding young children in musical experiences K-6. Prerequisites: MUSC 101 or 122 and Admission to Teacher Education.

MUSC 305. Musical Theatre History. 3 Hours.
History of Musical Theatre, primarily focusing on American Musical Theatre, from its defining influences and roots to the present. Topics to be covered include significant productions, composers, lyricists, librettists, choreographers, directors, designers, and actors.

MUSC 306. Music History and Literature I. 3 Hours.
This course will develop the students' knowledge of Western Civilization through its musical history and literature dating from ancient Greece to 1750. Students will focus on analytical and listening skills to further their understanding of musical styles.

MUSC 307. Music History and Literature II. 3 Hours.
This course will develop the students' knowledge of Western Civilization through its musical history and literature dating from 1750 to the present. Students will focus on analytical and listening skills to further their understanding of musical styles.

MUSC 325. Vocal Pedagogy. 3 Hours.

MUSC 340. Voice Methods. 1 Hour.
This course investigates basic vocal pedagogy methods, introducing essential tools for teaching singing. Student will study international phonetic alphabet to assist foreign language diction skills, and explore repertoire suited for the beginning singer. Prerequisite: restricted to major or consent of instructor.

MUSC 341. String Methods. 1 Hour.
A practical class involving the playing and techniques of teaching the bowed, orchestral string instruments (violin, viola, cello, and string bass) at the elementary level. Teaching materials and string pedagogy are also considered.

MUSC 342. Woodwind Methods. 1 Hour.
The purpose of this course is to give the student an introduction to the techniques of playing and teaching woodwinds. Teaching methods, proper playing position, embouchure, common problems and errors made by students, equipment, maintenance and repair of the instruments, and both pedagogical and performance literature will be presented.

MUSC 343. Brass Methods. 1 Hour.
Teaching techniques and performance proficiency on each of the brass family instruments.

MUSC 344. Percussion Methods. 1 Hour.
Techniques and methods of playing and teaching percussion.

MUSC 345. Wind Band Literature. 2 Hours.

MUSC 346. Symphonic Literature. 2 Hours.

MUSC 347. Chamber Music Literature. 2 Hours.

MUSC 350. Advanced Conducting. 2 Hours.
Objectives of this course are developing and refining gestures which convey musical meaning, to refine interpretive skills, and to develop an ability to critique and improve one's own conducting. Prerequisites: Restricted to students who are music majors with junior or senior status.
MUSC 366. Instrumental Jazz Improvisation I. 2 Hours.
Study of the utilization and translation of basic musical elements such as scales, mixolydian modes, dominant seventh chords, rhythm, form, and melody into an individually creative jazz performance. Open to all instruments including strings.

MUSC 367. Instrumental Jazz Improvisation II. 2 Hours.
Continuation of MUSC 366 by studying the dorian modes, minor seventh chords, and integration rhythm and melody with actual playing to further the students progress. Prerequisite: MUSC 366.

MUSC 384. Orchestra Methods in Secondary Education. 3 Hours.
Provides the parallel alternative for Band and Choral Methods classes. The string educator is often hired to teach only strings for a school system. This course includes methods and materials relative to a successful string program. Pre-requisites: MUSC 124 and admission to teacher education.

MUSC 390. Instrumental Methods in Secondary Education. 3 Hours.
Instrumental conducting, score reading and performance preparation, including examination of methods and materials used in secondary band and orchestra programs. Prerequisites: MUSC 124 and admission to Teacher Education.

MUSC 391. Choral Methods in Secondary Education. 3 Hours.
Choral conducting, score reading and performance preparation, including examination of methods and materials used in the secondary choir program. Prerequisites: MUSC 124 and admission to Teacher Education.

MUSC 392. Elementary Music Methods. 3 Hours.
Methods and materials used in elementary general music/choral music program grades K-8. Prerequisites: MUSC 123, 124, 125, and admission to Teacher Education.

MUSC 397. Elementary Music Field Experience. 1 Hour.
Development of basic skills on fretted instruments (guitar, ukelele), recorder, autoharp, percussion instruments for use in the elementary music classroom. Prerequisite: MUSC 124 and Admission to Teacher Education.

MUSC 440. Instrument Repair. 1 Hour.
Basic techniques in instrument maintenance and care.

MUSC 441. Piano Tuning. 2 Hours.
Study of piano tuning, piano construction and repair in addition to organ tuning. Prerequisites: The ability to play all major chords and any two note interval. May be repeated.

MUSC 442. Piano Pedagogy. 3 Hours.
The examination of teaching methods and applied music instruction management for piano majors.

MUSC 480. Senior Project. 1 Hour.
Capstone project representing accomplishment in designated applied study area.

MUSC 494. Independent Study Honors Music. 1-8 Hour.

MUSC 499. Special Topics. 1-8 Hour.

NURS 221. Pre-Professional Development. 1 Hour.
Facilitates the development of professional behaviors, roles, and responsibilities. Provides opportunity for professional development, community service, and continuing education. Nursing elective graded pass/fail. Guidelines available through Department of Nursing. Prerequisite: Pre-nursing or nursing major.

NURS 222. Math For Meds. 1 Hour.
Enables the student to develop calculation skills, using the dimensional analysis technique, to safely calculate and administer medications.

NURS 253. Nursing Perspectives. 3 Hours.
Focuses on introductory concepts of the discipline of professional nursing. Open to the general university student. CS = 45°.

NURS 255. Nursing Foundations. 5 Hours.
Applies basic theoretical concepts to professional nursing in appropriate practice settings. Prerequisites: Admission to nursing. CS = 60; C/L = 90°.

NURS 264. Health Assessment. 4 Hours.
Applies methods required for a nursing health assessment in classroom and laboratory setting. Prerequisites: Admission to nursing. CS = 45; C/L = 45°.

NURS 299. Special Topics. 1-4 Hour.

NURS 323. Gerontological Nursing. 3 Hours.
Fosters an awareness and understanding of the aging population by investigating the biopsychosocial and spiritual needs of the elderly population. The issues of wellness, health, and function are addressed. The student is expected to gain an understanding of nursing and nursing's role in providing care for the older population. Prerequisites: NURS 255, 263, 264 or permission of instructor; and admission to nursing.

NURS 325. Adult Health I. 5 Hours.
Focuses on nursing care of adults experiencing common health problems with predictable outcomes in selected body systems, including concepts of absorption, elimination, regulation, mobility, perceptual dysfunction, cell injury and inflammation, altered immune responses, and perioperative principles. Concepts important in understanding health and illness in the elderly are included. Clinical experiences occur in laboratory simulation and perioperative settings. Prerequisites: Admission to nursing. CS = 45; C/L = 90°.
NURS 335. Adult Health II. 5 Hours.
Focuses on nursing care for adults, including the elderly, who experience chronic and/or progressive health problems in selected body systems. Concepts of sensation, oxygenation, digestion, regulation, movement/coordination, and abnormal cell growth are included. Principles and practices of intravenous therapy are applied to the adult client. Clinical experiences occur in the laboratory, medical, and rehabilitation settings of the hospital. Prerequisite: Admission to nursing. CS = 45; C/L = 90*.

NURS 344. Child Health Nursing. 4 Hours.
Applies theories, concepts and competencies in providing nursing care for infants, children, and adolescents within families. Clinical experiences will occur in a variety of settings. Prerequisites: Admission to nursing. CS = 30; C/L = 45*.

NURS 354. Psychiatric Mental Health Nursing. 4 Hours.
Applies psychosocial concepts and theories in psychiatric-mental health nursing within a nursing process framework for care of persons with mental health conditions. CS = 30; C/L = 90. Prerequisites: Student must complete NURS 325, 335, PSY 270 and be admitted into the nursing program before enrolling in this class.

NURS 361. Women's Health. 1 Hour.
Apply current theories and concepts in women's health and health practices within families. Prerequisite: Restricted to students who are admitted into the nursing program.

NURS 363. Nursing Theory and Research. 3 Hours.
Surveys contribution of theory and research to the development of the discipline of nursing. Focuses on nursing theories, conceptualizations, and research utilization for decision making within professional nursing. Prerequisite: Admission to nursing. CS = 45*.

NURS 364. Maternal Newborn Nursing. 4 Hours.
Applies current theories, concepts and competencies in evidence based maternal-newborn nursing. Provides experiences in caring for women, childbearing, families and newborns in the hospital, clinic and community. Compares the nursing roles in maternal-newborn nursing. CS = 30; C/L = 90. Prerequisite: Student must have completed NURS 335 prior to enrolling in this class.

NURS 383. Professional Nursing I. 3 Hours.
Professional Nursing I introduces the student to the nature of baccalaureate nursing, including the Department of Nursing Philosophy and curricular concepts. Students explore various nursing roles and theories in a variety of traditional and nontraditional settings. Prerequisite: acceptance into BSN program.

NURS 394. Nursing Internship. 1-6 Hour.
NURS 397. Nursing Internship. 2-6 Hour.
Fostering development of clinical nursing skills and decision making in approved health care agencies. Guidelines available through Department of Nursing. Prerequisite: admission to nursing. One semester credit hour = minimum of 45 hours of clinical study. Prerequisite: NURS 335.

NURS 399. Independent Study General Nurs. 1-4 Hour.
NURS 421. Nursing Leadership Development. 1 Hour.
Provides opportunities to implement leadership skills in professional roles and community service. Promotes activities in professionalism, continuing education, and networking. Guidelines available through Department of Nursing. Prerequisites: NURS 256 and 264; and admission to nursing.

NURS 456. Public Health Nursing. 5 Hours.
Demonstrates population-focused community-oriented nursing through the synthesis of nursing theory and public health theory applied to promoting, preserving and maintaining the health of populations and grounded in social justice. Provides experience in a variety of urban, rural, and frontier community settings. Prerequisite: NURS 344,354,361 and 364. Admission to nursing. CS = 45; C/L = 90*.

NURS 457. Public Health for the Professional Nurse. 5 Hours.
Demonstrates population-focused community-oriented nursing through the synthesis of nursing theory and public health theory applied to promoting, preserving and maintaining the health of populations and grounded in social justice. Provides experience in a variety of urban, rural, and frontier community settings. Prerequisite: NURS 363 and 383. Admission to BSN Completion Program. CS = 45; C/L = 90*.

NURS 458. Public Health Prof Nurse II. 3 Hours.
Provides opportunities for clinical application of population-focused, community-oriented nursing theory through experience in a variety of urban, rural and/or frontier community settings. Prerequisites: NURS 383,363,457 or corequisite and Admission to RN to BSN.

NURS 464. Adult Health III. 5 Hours.
Focuses on advanced nursing care of adults experiencing acute, complex, and potentially unstable illnesses and injuries. Concepts, principles, and theories relating to adaptation and life support management of regulatory systems are included. Clinical experiences include laboratory simulation and life support settings, including critical care areas, dialysis, and emergency/trauma services. Prerequisite: Admission to nursing and senior status. CS = 45; C/L = 90*.

NURS 471. Nursing Review. 1 Hour.
Provides a systematic review of essential nursing content required for licensure. Prerequisites: Student must complete NURS 456 and 484 before enrolling in this class.
NURS 472. Trends and Issues. 2 Hours.
Evaluates current issues and trends impacting upon professional nursing practice. Introduces strategies to empower nurses for professional nursing with emphasis on legal, ethical and political economic frameworks, career management; health care policy. Prerequisites: Admission to nursing and faculty approval. CS = 30*.

NURS 473. Nursing Leadership & Management. 3 Hours.
Analyzes theories and concepts of leadership and management for the professional nurse in dynamic nursing care delivery systems. Prerequisite: Admission to nursing. CS = 45*.

NURS 483. Professional Nursing II. 3 Hours.
Professional Nursing II will provide the student with an opportunity to examine professional nursing in a changing health care delivery system including the current and future focus of nursing care. Prerequisite: Acceptance into RN to BSN completion program.

NURS 493. Professional Nursing III. 3 Hours.
This integrative capstone course provides the student opportunity to design and implement a project in collaboration with faculty by integrating leadership and management concepts into nursing practice in a health care system. Prerequisite: acceptance into RN to BSN completion program.

NURS 494. Independent Study Honors Nurs. 1-8 Hour.

NURS 496. Study Abroad. 1-6 Hour.
Provides opportunities for MSU faculty-led study trips to appropriate locations. Focuses on becoming more culturally knowledgeable about global health care by immersion in a nursing culture of a different country. Will include additional requirements beyond travel itself. May be repeated for credit for different countries.

NURS 497. Nursing Practicum. 6 Hours.
Integrates management concepts in clinical nursing practice in selected health care systems with the collaborative guidance of faculty and clinical preceptors. Prerequisites: Admission to nursing. C/L = 270*.

NURS 499. Special Topics In Nursing. 1-8 Hour.

PHIL 100. Critical Thinking. 3 Hours.
The study of effective thinking, both logic and evaluative.

PHIL 101. Introduction to Philosophy. 3 Hours.
Basic problems, concepts, and methods of philosophy.

PHIL 102. Philosophy of Human Nature. 3 Hours.
Focuses on what it means to be a human being and the so-called "nature-nurture controversy."

PHIL 201. Philosophy of Religion. 3 Hours.
A critical examination of the reasonability of religious belief. The existence of God, the problem of evil, and other topics will be discussed.

PHIL 210. Ethics. 3 Hours.
A study of traditional concepts in ethical theory and moral reasoning.

PHIL 299. Special Topics In Philosophy. 1-8 Hour.

PHIL 330. Political Philosophy. 3 Hours.
This course examines the basic principles and features of the major political philosophies and systems of government.

PHIL 355. The Enlightenment. 3 Hours.
The course is a general overview of the historical, cultural, political and philosophical elements of European Enlightenment. Topics covered included but are not limited to the following: the rise of science, the roles of reason, the attack on "tradition" and the development of Democracy and human rights.

PHIL 380. Existentialism. 3 Hours.
A careful examination of major existentialist thinkers (Kierkegaard, Nietzsche, Sartre, etc.) and dominant existential themes: alienation, mortality, the meaning of life, and God.

PHIL 383. Asian Philosophy. 3 Hours.
A critical examination to the leading eastern worldviews: Buddhism, Hinduism, Confucianism, Taoism, and the eastern views.

PHIL 394. Advanced Philosophy. 3 Hours.

PHIL 399. Independent Study General Phil. 1-4 Hour.

PHIL 494. Independent Study Honors Phil. 1-8 Hour.

PHIL 499. Special Topics In Philosophy. 1-8 Hour.

PHYS 110. Astronomy. 4 Hours.
A study of the universe that begins with the earth as a planet, the planets and the satellites of our solar system, and moves out through stellar astronomy to galaxies and into the very fabric of the universe. It includes an evaluation of the methods and techniques of astronomy. Offered fall semester. Both day and night laboratories. Lecture, 3 hours; laboratory, 2 hours.
PHYS 110H. Honors Astronomy. 4 Hours.
A study of the universe that begins with the earth as a planet, the planets and the satellites of our solar system, and moves out through stellar astronomy
galaxies and into the very fabric of the universe. Evaluation of the methods and techniques of astronomy. Explicit training in use of the full spectrum
of the MSU observatory equipment. Offered fall semester. Both day and night laboratories. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: Honors
program admission or 3.30 cumulative GPA and permission of instructor.

PHYS 203. Introduction to Physics I. 4 Hours.
Elementary laws and principles of mechanics and fluids. Lecture, 2 hours; laboratory, 2 hours; recitation, 2 hours. Prerequisite: MATH 103.

PHYS 204. Introduction to Physics II. 4 Hours.
Elementary laws of electricity and magnetism, optics, and modern physics. Lecture, 2 hours; laboratory, 2 hours; recitation, 2 hours. Prerequisite: PHYS
203.

PHYS 221. General Physics I. 5 Hours.
Newton's laws; work and energy; impulse and momentum; angular momentum; oscillations; gravity; wave motion; thermodynamics. Lecture, 3 hours;
laboratory, 2 hours; recitation, 2 hours. Corequisite: MATH 165.

PHYS 221H. Honors General Physics I. 5 Hours.
Newton's Laws; work and energy; impulse and momentum; angular momentum; oscillations; gravity; wave motion; thermodynamics. Emphasis on
sophisticated quantitative reasoning, order of magnitude estimation, in-depth application of calculation, and physical underpinnings of other sciences and
technology. Lecture, 3 hours; Laboratory, 2 hours; recitation, 2 hours. Prerequisite: Math 165 and admission to the honors program or 3.30 cumulative
GPA and permission of instructor.

PHYS 222. General Physics II. 5 Hours.
Electricity; Gauss' laws and potential difference; magnetism; Maxwell's equations; optics; introduction to Modern Physics. Lecture, 3 hours; laboratory, 2
hours; recitation, 2 hours. Prerequisite: PHYS 221. Corequisite: MATH 166.

PHYS 222H. Honors General Physics II. 5 Hours.
Electricity; Gauss' laws and potential difference; magnetism; Maxwell's equations; optics; introduction to modern physics. Emphasis on sophisticated
quantitative reasoning, order of magnitude estimation, in-depth application of calculus, and physical underpinnings of other sciences and technology.
Lecture, 3 hours; laboratory, 2 hours; recitation, 2 hours. Corequisite: Math 166 Precisitement: Honors program admission.

PHYS 299. Special Topics. 1-8 Hour.

PHYS 394. Independent Study General Phys. 1-4 Hour.

PHYS 494. Independent Study Honors Phys. 1-8 Hour.

PHYS 499. Special Topics. 1-8 Hour.

POLS 115. American Government. 3 Hours.
Principles of American government, political behavior, institutions.

POLS 116. State and Local Government. 3 Hours.
Structures, politics, and behavior in state and local governments.

POLS 275. Contemporary Community Issues. 3 Hours.
This course is designed to develop your understanding of the different communities you are a member of and the issues facing them in the 21st century.
Drawing on theories and concepts from various disciplines, we will expand on how communities and the issues associated with them are defined,
constructed and addressed at multiple levels of society. Specifically, we will examine various political and social issues facing our communities including
but not limited to: crime, ecology, inequalities, health care and the family. We will also set those issues in their larger state, national and global context,
address the impact of that context and the proposed possible outcomes for the future.

POLS 299. Special Topics. 1-6 Hour.

POLS 325. Graphic Novels and Politics. 3 Hours.
Graphic Novels - like any form of social commentary - has a history of addressing the politics of the day. This course will take critical look at how the
Graphic Novels have addressed the political and civic issues today and historically. Drawing on primary source materials and analytical texts, the course
examines not only how civic issues and politics shape Graphic Novels, but also how Graphic Novels impact larger civic and political discussions.

POLS 375. Contemporary Political Issues. 3 Hours.
This course is designed to develop your understanding of the larger political world and the issues facing it in the 21st century. Drawing on theories
and concepts from various disciplines, we will expand on how political issues are defined, constructed and addressed at multiple levels of society.
Specifically, we will look at various political issues and policies facing the United States, including but not limited to: crime, ecology, inequalities, health
care and the family. We will also set those issues in their larger global context, address the impact of that context and the proposed possible outcomes
for the future.

POLS 394. Independent Study General Ps. 1-4 Hour.

POLS 451. Political Sociology. 3 Hours.
Political sociology broadly conceived is the study of power and domination in social relationships to include the relationship between state and
society. The course draws upon comparative history to analyze socio-political trends and thereby includes the analysis of the family, the mass media,
universities, trade unions, etc. A typical research question might, for example, be: what factors explain why so few American citizens choose to vote.
POLS 494. Independent Study Honors Ps. 1-8 Hour.
POLS 499. Special Topics In Political Sci. 1-6 Hour.
POLS 95. Political Science Experience. 0 Hours.
POLS 095 - Political Science Experience provides students with a diverse selection of applied experiences to gain more critical understand of a variety of political and cultural topics at all levels - International, National, State and Local. The experience requires students to actively engage in the political process - broadly defined. It is designed to fulfill the IP2 requirements of General Education.

PSY 111. Introduction to Psychology. 3 Hours.
A survey of the scientific study of behavior and mental processes. Topics studied include development of normal and abnormal behavior, learning, biopsychology, development, memory, personality, cognition, therapy, and social psychology. This course is a prerequisite to most other psychology courses.

PSY 112. Foundations of Psychology. 3 Hours.
Designed for psychology and addition studies majors, this course will emphasize the tools necessary to advance in these fields. Prerequisites: Students must complete PSY 111 before enrolling in this class, and declare a major in Psychology or Addiction Studies.

PSY 241. Introduction to Statistics. 4 Hours.
This course examines basic concepts in measurement, scaling, descriptive statistics, binomial and normal distribution, applied probability, and z-scores. In addition, this course introduces inferential statistics and hypothesis testing, including t-test, analysis of variance, correlation and linear regression, and the chi-square test statistic. Basic software applications will also be examined. Prerequisites: ASC 093 with a C or better, or qualifying math placement test score, or ACT math sub-test score of 21 or higher. Required co-requisite PSY 241L if ACT math sub-test score is 18-20 or qualifying pre-algebra math placement test is 60-78.

PSY 241L. Introduction to Statistics Lab. 1 Hour.
Introduction to Statistics level lab provides students in PSY 241 with an extended experience in a lab setting working on statistical skills. Lab meets 2 hours per week. This class is S/U. Required co-requisite to PSY 241 if ACT math sub-test score is 18-20. Withdrawing from this class will also withdraw you from PSY 241.

PSY 242. Research Methods in Psychology. 4 Hours.
A study of the scientific methods as it is used in the investigation of problems in psychology. A variety of types of research methodologies, as well as the advantages and disadvantages of their use. Ethical implications of the use of various methodologies will also be discussed. Prerequisites: PSY 241, Math 210, or departmental approval.

PSY 252. Child Psychology. 3 Hours.
Overview of theories of human development form conception through childhood including physical, cognitive, language, social, and self-help skills in family, school, and community settings. Prerequisite: PSY 111.

PSY 255. Child & Adolescent Psychology. 3 Hours.
Overview of theories of human development from conception through adolescence including the physical, cognitive, language, social, and educational aspects of the individual development. Special emphasis will be given to the individuals learning capabilities. This course cannot be applies towards the Psychology or Addiction Studies majors, minors, or concentrations. Prerequisite: PSY 111.

PSY 261. Psychology of Adjustment. 3 Hours.
This course will present psychological research about improving adjustment and overall quality of life. Factors affecting adjustment include gender, personality, self-esteem, ability to communicate effectively, health, experience of stress, changes with aging, and coping processes. Factors also include things like social influence and pressure, relationships with others, career preparation, work, and stages of life. The desired outcome is for students to use this knowledge to actively take charge of their own lives, effectively adjusting to an ever-changing world. Prerequisite: PSY 111.

PSY 270. Abnormal Psychology. 3 Hours.
A survey of the classification, symptoms, and etiology of psychological disorders. Prerequisite: PSY 111.

PSY 299. Special Topics In Psychology. 1-8 Hour.

PSY 313. Industrial Organizational Psychology. 3 Hours.
This course will examine human behavior in industrial and organizational settings. Psychological principles are applied to selection, placement, adn training. The effectiveness of individuals and groups within organizations, including leadership and control, conflict and cooperation, motivation, and organizational structure and design, is examined. Prerequisite: PSY 111.

PSY 352. Adolescent Psychology. 3 Hours.
Study of physical, cognitive, emotional, social, and behavioral parameters of adolescence from preteen to young adulthood. Prerequisite: PSY 111.

PSY 365. Evolutionary Psychology. 3 Hours.
Examines the important aspects of human behavior as it is explained as a result of natural selection. The course will focus on a number of topics including sex differences, mate selection, selfishness and altruism, homicide and violence. Prerequisite: PSY 111.

PSY 375. History & Systems of Psychology. 3 Hours.
Examines the historical development of the science of psychology. Special emphasis is placed upon cultural context and its influences on the developing systems of psychology. Prerequisite: PSY 111.
PSY 376. Social Psychology. 3 Hours.
An interdisciplinary approach to the study of behavior of individuals in relation to social stimulus situation. Prerequisite: PSY 111.

PSY 379. Psychology of Adult & Aging. 3 Hours.
Overview of theories of human development from young adulthood through old age focusing on demands of personal adjustment, family, work, retirement, and community life. Prerequisites: PSY 111; recommended: PSY 252 or 352.

PSY 394. Independent Study General Psych. 1-4 Hour.
Election of a topic and a course of study. Must be approved by a psychology staff member and the psychology chair. Student must be a psychology major and have 12 semester credits.

PSY 410. Cognitive Psychology. 3 Hours.
Examines the research dealing with the processing of sensory information, attention, short term and long term memory, decision making and problem solving, as well as related topics. Prerequisite: PSY 111.

PSY 411. Introduction to Personality Theories. 3 Hours.
Examines the basic concepts of personality development as viewed by the psychoanalytic, learning, humanistic and trait-type theorists. Special emphasis is placed on the comparison of various perspectives. Prerequisite: PSY 111.

PSY 413. Theories & Practice of Psychotherapy. 3 Hours.
Aimed at the development of a balanced view of the major concepts of various therapies and an awareness of practical applications and implementation of techniques used by the various therapists. Prerequisite: PSY 111.

PSY 435. Theories of Learning. 3 Hours.
Examines the basic concepts of learning theory as viewed by the more prominent theorists in the area. Emphasis is placed on the comparison of the various perspectives within historical contexts. Prerequisite: PSY 111.

PSY 460. Sensation and Perception. 3 Hours.
Focus on the principles of our sensory systems and the laws which govern the sensory processes. The course includes research and theories on the visual system, auditory system, chemical senses, and the skin senses. Prerequisite: PSY 111.

PSY 465. Introduction to Behavioral Neuroscience. 3 Hours.
An introduction to the neuroanatomical and neurophysiological bases of behavior, including learning, reinforcement, eating and drinking, sleep, sexual behavior, and mental disorders. Prerequisite: PSY 111.

PSY 473. Behavior Modification. 3 Hours.
Description of behavioral principles and procedures for assessment and treatment that can be used helping professionals to enhance behavioral development. Class projects are required. Prerequisite: PSY 111.

PSY 491. Senior Seminar in Psychology. 3 Hours.
Overview of psychology as a discipline and a synthesis of biological and psychological factors in human behavior. Prerequisites: PSY 111, 241, senior status and psychology major.

PSY 494. Directed Behavioral Research. 1-4 Hour.
This course provides students with the practical applications of research designs. Although a resulting publication is not required for the course, it is desired outcome. Students will need to work with a faculty Sponsor on a specific research project.

PSY 495. Service Learning. 3 Hours.
This course provides students with the ability to work in meaningful community service coupled with instruction about the service and reflection on their service. Prerequisite: Students must be psychology majors in their junior or senior year before enrolling in this course.

PSY 496. Senior Research Thesis. 3 Hours.
Students will formulate an original research topic and write a paper in that topic. Restricted to psychology majors and senior status.

PSY 497. Psychology Practicum. 3 Hours.
Placement in an applied setting for practical experience. Prerequisite: Students must be a psychology major in their junior or senior year before enrolling in this class.

PSY 499. Special Topics In Psychology. 1-8 Hour.

RAD 102. Introduction to Radiologic Technology. 1 Hour.
Designed to acquaint first year student (freshman) radiologic technology students with the depth and breadth of this field. Students visit the radiology department of a local hospital. The course is presented by the education coordinator of a local school of radiologic technology. Lecture, 1 hour.

RAD 405. Radiologic Technology Clinical. 6-15 Hour.
Students spend 24 months in a hospital environment. Education includes both didactic and clinical studies. Restricted to students who have been admitted to the Radiologic Technology degree program.

SCE 101. Environments and Societies. 3 Hours.
Explores the intertwined relationships between communities and their environments at the local and global level from a social science perspective topics will include human impact on the environment and vice versa, the role of geography in human relations, historical perspectives on the role environment plays, resource use versus conservation, public and urban space issues, economic and ethical implications of environmental policy, and social problems related to environmental impacts that are unequally distributed among demographic groups of society.
SCE 102. Environments and Humanities. 3 Hours.
Students will be introduced to the basic underpinnings of environmental literature, ecocriticism, and place studies (with a focus on the US West), and will consider how place or nature intersect with race, class and gender. Student will also explore the basic underpinnings of environmental art, land art, eco-art, and public art. In addition, students will be introduced to environmental ethics, such as the duties to and rights of non-human species and responsibilities of humans to each other and the environment.

SCE 103. Environments and Sciences. 4 Hours.
Introduces students to environmental science, including environmental policies and the roles of science in policy development. Topics addressed include environmental systems, biodiversity, conservation and preservation, food and agriculture, environmental health, water and air pollution, global climate change, earth resources, energy, solid and hazardous wastes, and sustainability. The laboratory includes local field trips as well as laboratory investigations. Lecture 3 hours; laboratory 2 hours.

SCE 260. Collaborative Study. 3 Hours.
Collaborative investigation of a particular local community and environmental issue by a group of students using an interdisciplinary approach. Topic is set prior to the course based on student interests. Prerequisite: Students must complete SCE 101, 102, or 103 before enrolling in this course.

SCE 301. Environmental Values & Ethics. 3 Hours.
Introduces students to the field of inquiry that addresses values of nature and the ethical responsibilities of human to each other and to the environment with respect to community and environment issues. Different types of ethics will be studied and applied to concrete examples of community and environment problems. Examples of the different ethics include utilitarian ethics, deontic ethics, and concepts of justice. Also to be studied include whether duties or obligations exist to individuals-including nonhumans, other species as a group, ecosystems or the biosphere. Prerequisite: Student must complete SCE 101, 102, or 103 before enrolling in this class.

SCE 394. Directed Research. 1-3 Hour.
Investigation of a particular local community and environmental issue using an interdisciplinary approach. Topic is set prior to the course based on student interests and community needs. This course consists of an individual research project that is designed by the student with the help of a faculty mentor. It provides a platform for students to be engaged in research that is perhaps more focused on their particular field of interest, but that addresses a problem or issue of broader interest and that incorporates an appropriate level of interdisciplinary treatment. The research may be conducted under the direction of a single faculty member. In some cases, however, the nature of the project may require more than one faculty mentor. The research project may be an outgrowth of a SCE 291 Topics and Projects in SCE course, which is typically itself an outgrowth of SCE 101 Introduction to SCE. 3 hours per week per credit hour. May be repeated for credit. Prerequisite: Students must complete SCE 260 before enrolling in this course.

SCE 397. Internship. 3 Hours.
An internship is a work-related learning experience for individuals who wish to develop hands on work experience in a certain occupational field or profession, or provide valuable service to a community and its citizens. An internship is an excellent way to determine if the field or profession is the best career option to pursue. Interns not only gain practical work experience and build experience in a given profession or field, they also have the opportunity to share their academic and scholarly knowledge with people in a given community. Prerequisite: Students must take SCE 101, 102, or 103 before enrolling in this course.

SCE 494. Senior Capstone. 2 Hours.
Students, having completed their research or creative project on a particular community and environmental issue in SCE 394, write a thesis, give a public presentation, and defend their work to their thesis committee. Prerequisite: Students must complete SCE 394 before enrolling in this course.

SCI 240. Research Methods. 2 Hours.
This course will introduce students to library skills, computer skills and communication skills used to plan and carry out research projects. Students will search for, read, and discuss journal articles; write and edit project proposals; and learn basic data management and analysis skills. Prerequisite: sophomore, junior, or senior status.

SCI 299. Special Topics. 1-8 Hour.

SCI 301. Biogeochemical Cycles. 3 Hours.
A broad overview of global biogeochemical process, including the origin of elements, Earth evolution, evolution of biogeochemical cycles, biogeochemical cycles of major elements such as carbon, nitrogen, phosphorous, and sulfur, cycles of select trace elements, interactions of biogeochemical cycles, biogeochemistry of various ecosystems, and environmental biogeochemistry. Lecture, 3 hours. Prerequisite: Student must take BIOL 127, CHEM 127, or GEOL 127 before enrolling in this course.

SCI 391. Teaching Science in Secondary Schools. 3 Hours.
Study of science teaching in middle school and high school grades with emphasis on clinical experience. Basic techniques for all disciplines are individualized in practice. Emphasis on teaching an investigative approach to science. Prerequisite: Admission to Teacher Education.

SCI 394. Independent Study General Sci. 1-4 Hour.

SCI 426. Elementary Science Methods. 4 Hours.
Study of basic concepts of science within a framework of elementary school teaching methodology. Interpretation of science content, learning theory, curriculum approaches, instructional strategies, and lesson planning are emphasized. Includes extensive clinical experience. Lecture, 4 hours. Prerequisite: Admission to Teacher Education and ED 320. Corequisites: ED 320, 421, 422, 423, 424.
SCI 480. Seminar. 3 Hours.
Students present and discuss original student research project in both written and oral forms. To enroll, students must have completed their research and must have written the Introduction, Methods, and Results components of the research paper. Time in this course is also dedicated to a review of fundamental aspects of the discipline of their major and successful completion of a comprehensive exam. Prerequisites: senior status; and 2 credits of CHEM 494 or GEOL 494, or permission of instructors.

SCI 494. Independent Study Honors Sci. 1-8 Hour.

SCI 499. Special Topics. 1-8 Hour.

SCI 95. Interconnecting Perspectives in Science. 0 Hours.
Science 095 examines how to present important scientific concepts to students from a diversity of backgrounds including different cultures, different learning styles, different ages, different genders, different physical abilities and different intellectual abilities.

SOC 110. Introduction to Sociology. 3 Hours.
An introduction to the basic insight, concepts, theories and methods of the discipline. The course encourages students to think critically, to apply sociological knowledge, and to develop a global perspective. Topics for discussion include culture, social interaction, deviance, sexuality, stratification, race relations, gender, family, economics, politics, technology, and social change. SOC 110 is a prerequisite for all 300 and 400 level SOC courses.

SOC 200H. Idea of Society. 3 Hours.
The idea of society is perhaps one of the most difficult abstractions in our repertoire. This course introduces the student to various perspectives that seek to explain both the historical and contemporary meaning of society. Honors Program admission or 3.30 cumulative GPA and permission of the instructor is required.

SOC 201. Social Problems. 3 Hours.
A sociological analysis of major social problems.

SOC 200. Social Movement & Human Right. 3 Hours.
This course examines the complex relationship between social movements and human rights. Primary emphasis will be given to how grassroots movements/mobilizations have both shaped and contested our modern conceptions and practices of human rights in the US and globally. Prerequisite(s): SOC 110 or SOC 200H.

SOC 278. Social Research Methods. 3 Hours.
Study of the basic methods of empirical social science research. Topics include techniques and theory of research design, formulating and testing hypotheses, measurements, sampling, modes of observation, data management, and elementary data analysis.

SOC 280. Social Movement & Human Right. 3 Hours.
This course examines the complex relationship between social movements and human rights. Primary emphasis will be given to how grassroots movements/mobilizations have both shaped and contested our modern conceptions and practices of human rights in the US and globally. Prerequisite(s): SOC 110 or SOC 200H.

SOC 299. Special Topics in Sociology. 1-8 Hour.
This is a flexible course that may be taught depending on student needs. The design of the course is to present the student an opportunity to concentrate on various topics.

SOC 325. Environmental Sociology. 3 Hours.
This course examines the interrelationship between our community, culture, society and the global environment. Students will become engaged in diverse environmental projects, discussions and debates on eco-feminism, bio-diversity, bio-piracy, environmental degradation and future sustainability. Students will complete a final project that provides suggestions, recommendations and solutions to environmental preservation in the future.
SOC 357. Sociology of Religion. 3 Hours.
A sociological analysis of religious belief, behavior, organization, and the relation between religion as an institution and the larger society of which it is a part. Prerequisite: SOC 110.

SOC 361. Comparative Ethnic Studies. 3 Hours.
Examination of the social, political, legal, and economic development of ethnic inequality in our American society. Topics include prejudice and discrimination, majority and minority relations, institutionalized racism, intergroup contacts, migration, immigration, affirmative action and equal opportunity programs. Prerequisite: SOC 110.

SOC 363. Sociology of Gender. 3 Hours.
This course focuses on the social, political, legal, and economic dimensions of contemporary women's issues. Topics include the feminization of poverty, reproductive technology, single parenthood, childcare policies, aggression against women, and institutionalized sexism. Prerequisite: SOC 110.

SOC 369. Studies in Deviance. 3 Hours.
This course examines how so-called deviant identities, communities, desires, and practices are socially, historically, and culturally constructed. Particular emphasis is placed on non-traditional forms of deviancy. Discussion topics include transgender issues, queer theory, body modification, religious fanaticism, and militia groups. Prerequisite: SOC 110.

SOC 374. Cultural Studies. 3 Hours.
This course provides students with a basic understanding of the dynamics of culture and its impact on global change. Areas covered include: institutional structures of culture, cultural history and legacies, production and distribution of culture, effects of culture on meaning and social action. Prerequisite: SOC 110.

SOC 375. Social Change and Development. 3 Hours.
Designed to familiarize students with the theories, methods, and analytical frameworks for understanding social change and development in a global context. Topics covered include gender and race/ethnicity issues, social movements, and collective behavior, economic development, and globalization. Prerequisites: SOC 110 and three credits of Sociology.

SOC 376. Social Psychology. 3 Hours.
Study of the social sources and patterns of the aging perception, attribution, socialization, and interpersonal interaction. Prerequisite: SOC 110.

SOC 394. Independent Study General Soc. 1-4 Hour.

SOC 399. Senior Readings. 1-6 Hour.
Intended for students close to completing their major/minor sociology requirements. This course provides a forum for students to test the knowledge and skills they have acquired throughout their course of study by re-examining specific issues pertinent to sociology. Topics to be discussed range from civic, political, and religious participation through race, ethnicity, and gender issues. Prerequisites: SOC 110, three credits of sociology, and consent of instructor.

SOC 401. Research/Practicum/Internship. 1-6 Hour.
The course allows students the option of developing a major paper involving a literature review or empirical research or placement in applied setting for practical experience. Community and/or campus settings are available. Prerequisite: Student must complete SOC 110 OR SOC 200H before enrolling in the class.

SOC 420. Drugs & Society. 3 Hours.
An examination of public policy and the social construction of drugs and drug use. Includes the history of drug legislation, the interactional experiences of drug users, harm reduction and rehabilitation vs. criminalization, social effects, drug culture, and legalization debates. Prerequisite(s): SOC 110 or SOC 200H.

SOC 451. Political Sociology. 3 Hours.
Political sociology broadly conceived is the study of power and domination in social relationships to include the relationship between state and society. The course draws upon comparative history to analyze socio-political trends and thereby includes the analysis of the family, the mass media, universities, trade unions, etc. A typical research question might, for example, be: what factors explain why so few American citizens choose to vote.

SOC 476. Theory Construction & App. 3 Hours.
Course is based on a basic understanding of the properties, limitations, and applications of theory important not only to producers of sociological knowledge but also as consumers of that knowledge. The goal of the class is develop an understanding of sociological theory by exploring some of the basic theoretical orientations sociologists use in studying social phenomena and some of the specific theories based on these orientations. By considering criteria appropriate for evaluating these orientations and the theories developed from them. And exploring the different ways that a sociological theory may and may not be used in resolving social problems. Prerequisite(s): SOC 110 or SOC 200H.

SOC 477. Sociological Theory. 3 Hours.
This course introduces students to the major nineteenth and twentieth century thinkers who shaped the development of sociological thought. In exploring the theoretical heritage of sociology, the course seeks to develop an appreciation of what theory is and how necessary and useful it is for examining and understanding the social world. A major assumption of the course is that sociological theory has an eminently practical function for understanding ourselves and the world we live in. Prerequisite(s): SOC 110 or SOC 200H and SOC 476.
SOC 494. Independent Study Honors Soc. 1-8 Hour.

SOC 499. Special Topics in Sociology. 1-8 Hour.
This is a flexible course that may be taught depending on student needs. The design of the course is to present the student an opportunity to concentrate on various topics.

SPAN 101. Beginning Spanish I. 3 Hours.
For beginners or those entering with one or two years of high school Spanish. Introduction to listening, speaking, reading, writing, and culture.

SPAN 102. Beginning Spanish II. 3 Hours.
A continuation of Beginning Spanish I. Prerequisite: SPAN 101.

SPAN 120. Basic Spanish for Travel and Business. 3 Hours.
This course is designed to help students attain basic business conversation skills in Spanish. It will also provide a broad introduction to Spanish grammar and also cultural insight to business practices in the Spanish speaking world. Current events and topics related to the Hispanic World will also be discussed.

SPAN 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of Spanish. Pre-requisite: Spanish or Spanish Education major or minor.

SPAN 201. Intermediate Spanish I. 3 Hours.
Review of basic Spanish with increased practice in conversation, reading, and writing. Prerequisite: SPAN 102, three years of high school Spanish, or consent of instructor.

SPAN 202. Intermediate Spanish II. 3 Hours.
Continuation of SPAN 201. Prerequisite: SPAN 201.

SPAN 220. Hispanic Cinema. 3 Hours.

SPAN 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the Spanish or Spanish Education major or minor.

SPAN 299. Special Topics. 1-8 Hour.
Varying areas of content, issues, or themes in the study of Hispanic language, literature, culture, and civilization. Repeatable for credit as topics change.

SPAN 340. Conversation & Composition I. 3 Hours.
Advanced practice in oral and written skills using cultural readings and other media. Prerequisite: Student must complete SPAN 202 or have the consent of the instructor before enrolling in this class.

SPAN 341. Conversation & Composition II. 3 Hours.
This is one of a pair of courses focusing on advanced practice in oral and written skills using cultural readings and other media. Prerequisite: Student must complete SPAN 202 or have the consent of the instructor before enrolling in this class.

SPAN 342. Introduction to Hispanic Literature. 3 Hours.
Designed to improve language skills with an emphasis on reading and to enhance the student's ability to understand literature. Includes study of poetry, drama, and narrative from the Spanish speaking world. Prerequisite: SPAN 341 or consent of instructor.

SPAN 343. Contemporary Hispanic Culture. 3 Hours.
Readings in culture and society of the Spanish speaking world.

SPAN 394. Independent Study. 1-4 Hour.
Independent or directed study of special topics in the study of Spanish. Repeatable for credit as topics change.

SPAN 395. Service Learning. 3 Hours.
Students will utilize reflection and research (both primary and secondary) to integrate (a) personal community or global service experience(s). Prerequisites: Spanish or Spanish Education major or minor.

SPAN 399. Special Topics. 1-8 Hour.
Varying areas of content, issues, or themes in the study of Spanish.

SPAN 441. Hispanic Literature. 3 Hours.
Survey of the literature of the Spanish speaking world. Prerequisite(s): SPAN 342 or consent of instructor.

SPAN 443. Senior Thesis In Spanish. 3 Hours.
Individual research project on a cultural topic approved by the instructor one semester prior to enrollment in the course. Course restricted to majors.

SPAN 450. Spanish Senior Seminar. 3 Hours.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. May count towards the Spanish or Spanish Education major or minor.
SPED 101. Introduction to Intellectual & Developmental Disability Services. 3 Hours.
A survey of the various types of developmental disabilities, the philosophy of service, person centered planning, working with families, job coaching, and legal and ethical considerations for persons with developmental disabilities.

SPED 110. Introduction to Exceptional Children. 3 Hours.
A survey course examining exceptionalities of learning with a focus on understanding current social and educational responsibilities.

SPED 111. Health Care in IDD I. 3 Hours.
This course concentrates on basic medication concepts and procedures, health and wellness issues, nutrition information, and oral hygiene.

SPED 112. Health Care in Developmental Disabilities II. 3 Hours.
This course focuses on the most common types of seizures and provides information on how to observe, report, and assist persons during seizures. Included also are techniques of positioning, turning, and transferring persons with physical disabilities. This course provides an introduction to issues in sexuality and also teaches how to support independent living skills in persons with intellectual disabilities.

SPED 113. American Sign Language I. 3 Hours.
This course is designed to introduce students to American Sign Language. Students develop basic vocabulary and conversation skills. Fundamental aspects of Deaf Culture are incorporated.

SPED 115. American Sign Language II. 3 Hours.
This course is a continuation of ASL I. Students will expand vocabulary and conversation skills. Focus is on a greater understanding of ASL and its cultural features. Prerequisite: Student must complete SPED 113 before enrolling in this class.

SPED 117. Manually Coded English. 3 Hours.
An introduction to Signing Exact English and finger spelling. A basic sign vocabulary is presented.

SPED 120. Intro to Positive Behavior Supports. 3 Hours.
This course focuses on principles of behavior; defining, recording, and charting behavior, and how to write behavioral objectives. It teaches positive behavior support strategies and how to design and implement positive behavior support plans.

SPED 140. Human Development. 3 Hours.
A study of the sequence of human development from conception to late childhood, adolescence through adulthood, with emphasis on motor, language, cognitive, emotional, and social characteristics.

SPED 141. Development of Young Children. 2 Hours.
In this course, students will learn typical and atypical development of children ages birth to age five. The course includes observation of development, introduction to service delivery models, and study of best practices in intervention. Prerequisite: Students must complete in SPED 110 before enrolling this course.

SPED 142. Development of Children with Disabilities. 3 Hours.
In this introductory course in sensory disabilities, students will learn the dimensions of deaf/hard of hearing, visual impairments, and dual impairments. The content will cover the etiology of sensory disabilities that can result in additional learning challenges. In addition, historical foundations and research evidence upon which educational best practice is based for sensory disabilities is identified. Prerequisite: SPED 110.

SPED 143. American Sign Language III. 3 Hours.
This advanced course is a continuation of ASL I & II as a tool to enrich their vocabulary and understanding of the structure of ASL. Topics relating to Deaf Culture will be discussed throughout the course as well as opportunities to increase fluency in the language. Prerequisites: SPED 113, SPED 115.

SPED 144. Promoting Inclusive Opportunities. 3 Hours.
The course introduces a value-based process for developing and evaluating major program goals for persons with disabilities including the relationship of assessment to goal setting and person-centered planning. Students will apply instructional interventions including assistive technology applications for persons with intellectual disabilities. Strategies for promoting relationships between people with disabilities and other community members and guidelines for leisure program planning and implementation will be discussed.

SPED 145. Dual Diagnoses: ID and Mental Health Disorders. 2 Hours.
An overview of issues related to supporting people who experience both intellectual disability and mental health disorders including identification of the need for services, treatment options, and standards for service provision. The course provides information for program coordinators on assessment of mental health disorders, collaboration with community-based team members, pharmacological and behavior support, and cognitive behavioral therapies and approaches with individuals with intellectual disabilities.
SPED 225. Assisting People with Traumatic Brain Injury. 2 Hours.
This course provides a comprehensive overview of Traumatic Brain Injury (TBI) and how to assist people with TBI and their families. It discusses community resources, assessment issues and strategies, as well as the role of employment consultants in working with people with TBI.

SPED 233. Experience In SPED. 1 Hour.
Through a service learning approach, students will be introduced to a diverse, vibrant, professional community working together with others to ensure that individuals with exceptionalities are valued and included in all aspects of life. Students will be exposed to leadership policy and practices. Prerequisite or Corequisite: Students must be concurrently enrolled in or have previously taken SPED 110.

SPED 234. Disability and Society. 3 Hours.
This course prepares future leaders to understand new perspectives on viewing disability as a part of a diverse society. Learning experiences are designed to eliminate myths and preconceptions and prepare students to successfully encounter diversity as expressed by people with disabilities who may be colleagues, employees, neighbors, or members of the community.

SPED 250. Developing Communicative Interactions. 2 Hours.
This course is designed to provide training to personnel who work with persons with extensive and pervasive support needs. It is a multimedia training program in the area of social, communicative language skill development, and intervention. The course also discusses effective interpersonal communication.

SPED 255. Aging and IDD. 2 Hours.
This course is designed to address training needs of direct support professionals and human services personnel working with senior citizens with developmental disabilities in community programs. It covers demographic and philosophical considerations, health, social, and legal issues, and coordination of services.

SPED 296. Field Experience in IDD. 4 Hours.
Practical experience in the development of individual program plans, medication management; positioning, turning, and transferring techniques; management of seizure disorders; job coaching; participant empowerment; facilitation of services; community networking; facilitation of relationships; provision of person-centered supports; vocational, education, and career support; assessment, documentation; communication; positive behavior supports; and aging issues. Prerequisites: SPED 101, 11, 112, 120, and 221 or instructor permission.

SPED 299. Special Topics In Special Ed. 1-8 Hour.
Research in current trends related to various topic areas in the field of special education.

SPED 302. Language and Communication Interventions. 3 Hours.
Students will learn the characteristics of culture and use of language as it relates to diversity across cultures. Additional focus will be on communication and social interaction alternatives and typical and atypical language development. Students will learn augmentative and alternative communication strategies to support and enhance the verbal and non-verbal communication skills of individuals with exceptional learning needs. Prerequisite: SPED 110 and Admission to Teacher Education or Interpreting & Sign Language Studies major.

SPED 310. Introduction to Intellectual Disability and Autism Spectrum Disorder. 3 Hours.
In this survey course, students will explore definitions and issues related to individuals with intellectual disability (ID) and autism spectrum disorder (ASD). In addition, trends and practices will be discussed in the areas of developmental disabilities. Students will understand the impact of learners' academic and social abilities, attitudes, interests, and values on instruction and career development. Prerequisite: Student must complete SPED 110 before enrolling in this class.

SPED 311. Introduction to Autism Spectrum Disorder. 3 Hours.
This course will examine the historical perspective of the autism spectrum as well as the etiology, early detection, assessment, diagnosis and characteristics of persons with ASD throughout the lifespan. Participants will learn a variety of interventions and instructional strategies appropriate in non-educational settings in order to improve an individual's social, behavior and communication skills among other quality of life outcomes. Prerequisite: Students must complete SPED 101 before enrolling in this course.

SPED 312. Intermediate Sign Language. 3 Hours.
A course in American Sign Language that focuses on increasingly complex aspects of the language including vocabulary, grammar, concepts and discourse. Students further develop their fluency in the language. Course content is beyond the fourth level of ASL.

SPED 318. Advanced Interpreting. 3 Hours.
This course covers advanced concepts and skills in the interpreting process. It focuses on refinement of ASL to English and English to ASL interpretation as well as ethical and practical application in the profession. Prerequisite: Students must complete SPED 316 before enrolling in this course.

SPED 330. Survey Of Deaf Culture. 3 Hours.
This survey course provides an overview of the rich and vibrant language and culture of individuals who are Deaf in North America.

SPED 340. Assessment in SPED. 4 Hours.
Students will learn to administer and interpret a variety of assessment instruments appropriate for diverse learners. The focus will include the use of legal provisions and ethical principles, screening, pre-referral, referral and classification practices and procedures, for individuals with exceptional learning needs. In addition, curriculum-based assessment will be used to evaluate instruction and monitor student progress. Prerequisite: SPED 110 and admission to Teacher Education.
SPED 341. Assessment in Developmental Disabilities. 4 Hours.
Students will gain knowledge in the fundamental concepts of assessment and purposes of various assessment methods in developmental disabilities. Students will also acquire skills in planning for assessment, instrument selection, administration, scoring, interpreting and reporting assessment results. Practical application of assessment skills for person centered planning is required. Prerequisite: Students must complete SPED 101 before enrolling in this course.

SPED 379. Leadership in SPED. 3 Hours.
The student will engage in service learning activities that benefit individuals with diverse learning needs, their families, and community. Students will gain leadership skills through these activities and will understand how their dispositions uphold high standards of competence and integrity. Students will focus on collaboration, partnerships, and ethical and professional practices in the field of special education. Prerequisite: Sped 110 and admission to teacher education.

SPED 410. Introduction to Learning and Emotional/Behavioral Disabilities. 3 Hours.
Students will understand the characteristics of individuals with specific learning disabilities, emotional/behavior disorders, and other common conditions such as ADD/ADHD. Students will understand prevalence, etiology, and diagnostic criteria of these disabilities as well as gain awareness of evidence based practices to support these learners. Prerequisite: Sped 110.

SPED 412. Advanced Sign Language. 3 Hours.
A course in American Sign Language that focuses on advanced levels of concept expression and dialogue for a myriad of settings. Course content is beyond the fifth level of ASL.

SPED 420. Inclusive Practices. 3 Hours.
Students will learn methods for differentiating instruction to meet the needs of a diverse range of learners in inclusive settings. Concepts of the shared model of Response to Intervention (RTI) and Universal Design for Learning (UDL) will be emphasized. A variety of co-teaching practices will be modeled within this course. In addition, collaborative partnerships with school personnel and community members for integrating individuals with exceptional learning needs will be demonstrated. Prerequisites: SPED 110 and admission to teacher education.

SPED 433. Advanced Field Experience. 4 Hours.
Advanced practical experience in interpreting and sign language.

SPED 440. Instructional Interventions for People with DD. 3 Hours.
This course is designed so students can attain knowledge of theories and research that form the basis for instructional interventions for adults with developmental disabilities. Students will learn how to develop and select instructional content and strengthen their understanding of resources and strategies for adults who require a Person Centered Plan. The course focuses on how to identify functional skills in a variety of domains, write goals and objectives, develop a task analysis, design intervention plans, collect and graph baseline and instructional data and then make data-based decisions. Prerequisite: Students must complete SPED 101 before enrolling in this course.

SPED 441. Methods for High Incidence Disabilities. 3 Hours.
Students will have knowledge of theories and research that form the basis for curriculum development and instructional practice for students identified as having high incidence disabilities. Students will develop and select instructional content with resources and strategies for students described as needing intermittent or limited levels of support. Students will learn to make responsive adjustments to lesson planning and instructional pedagogy based on assessment and data-based decision making. Students will develop and implement comprehensive individualized education programs in collaboration with various team members. Prerequisite: SPED 110 and admission to Teacher Education.

SPED 442. Methods for Low Incidence Disabilities. 3 Hours.
Students will have knowledge of theories and research that form the basis for curriculum development and instructional practice for students who have been identified as having low incidence disabilities. Students will develop and select instructional content with resources and strategies for students described as needing extensive and pervasive levels of support. Students will learn to make responsive adjustments to lesson planning and instructional pedagogy based on assessment and data-based decision making. Students will develop and implement comprehensive, annual individualized education programs in collaboration with various team members. Students will demonstrate techniques in transferring, positioning, lifting and CPI training. Prerequisite: SPED 110 and admission to Teacher Education.

SPED 444. Transition to Adult Life. 3 Hours.
Students will have knowledge in designing and using methods for assessing transition instruction for students of all ages with a special emphasis on students with a transition IEP (16-21). An emphasis on functional academics, vocational training, life and social skills development, recreation/leisure opportunities, and post-secondary training will be included. Students will understand their role in developing transitional individual education programs and how to work effectively with human services providers. Prerequisite: SPED 110 and admission to Teacher Education.

SPED 445. Collaboration in Special Education. 3 Hours.
This course examines issues and effective strategies for successful collaboration with interdisciplinary team members so students with disabilities can be included in the general education classroom. Students will understand the importance of fostering responsive, respectful, and beneficial relationships between families and professionals. Students will learn how to communicate and problem solve effectively with other team members including family members and legal guardians. Prerequisite: SPED 110 and admission to Teacher Education or Interpreting & Sign Language Studies major.
SPED 446. Interdisciplinary Teaming and Community Collaboration in Human Services. 3 Hours.
This course examines issues and effective strategies for successful collaboration with interdisciplinary team members so people with disabilities can be included in their communities and meet their personal outcomes. Students will describe the critical aspects that foster responsive, respectful, and beneficial relationships between families and professionals. Students will demonstrate how to communicate and problem solve effectively with other team members including direct support professionals, consultants, family members and legal guardians. Prerequisite: Students must complete SPED 101 before enrolling in this course.

SPED 454. Models & Strategies in Employment for People with Developmental Disabilities. 4 Hours.
Students will learn effective models and strategies of individualized employment support for individuals with developmental disabilities from high school transition through retirement. Students will learn about and apply current best practices to support employment outcomes. Prerequisite: Students must complete SPED 101 before enrolling in this course.

SPED 491. Senior Seminar in IDD. 4 Hours.
Seminar on various topics for seniors in the field of intellectual and developmental disabilities.

SPED 494. Practicum In Special Education. 4 Hours.
Students will participate in a practicum with their school partners to design, implement, and evaluate instructional practices. Prospective special educators will develop and apply knowledge, skills, and dispositions essential to the roles for which they are being prepared. Prerequisite: SPED 110 and admission to Teacher Education.

SPED 497. Externship in IDD. 8 Hours.
Students will participate in a final practicum in the field of human services and be supervised by agency personnel in a variety of adult agencies. Participating agencies include residential, vocational, recreational, social, protection, and advocacy as well as case management agencies serving adults with intellectual and developmental disabilities.

SPED 499. Special Topics in SPED. 1-8 Hour.
Research in current trends related to various topic areas in the field of special education.

SS 283. Ethnic and Cultural Diversity in America. 3 Hours.
This course examines the historical development of American ethnic and cultural diversity, including Native American, and places that diversity in global perspective. This course meets the Education Standards and Practices Board (ESPB) Native American Studies requirement for teacher certification.

SS 299. Special Topics In Social Science. 1-8 Hour.

SS 391. Secondary History/Social Science Teaching Methods. 3 Hours.
A methods course designed for those intending to teach history and social studies at the secondary level. The course includes a study of classroom techniques, a microteaching experience, and a practicum in a secondary level social classroom. Prerequisite: Admission to Teacher Education. (Offered fall semester only.).

SS 394. Independent Study General Ss. 1-4 Hour.

This course is designed to give History and Social Science education majors an opportunity to have thirty hours of practical experience. Placements in school settings are arranged by the Teacher advisement and Field Placement Office. Co-requisite: SS 391. Prerequisite: Admission to Teacher Education, SS 391, or departmental approval, and History Education and Social Science Education majors.

SS 399. Readings in Social Science. 1-3 Hour.
Study and discussion of readings in social science, particularly those which cross disciplinary lines.

SS 494. Independent Study Honors Ss. 1-8 Hour.

SS 499. Special Topics In Social Science. 1-8 Hour.

SWK 250. Interpersonal Skills. 3 Hours.
This course is designed to develop verbal and nonverbal interpersonal skills related to common, everyday interactions as well as those interactions germane to the Generalist Practice Planned Change Process. The course requires 25 hours of concurrent interpersonal skill building human service experience.

SWK 256. Development of Social Welfare. 3 Hours.
The course reviews and evaluates the history, philosophical assumptions, values and development of social welfare programs and services throughout the United States. The course examines the socio-political-economic conditions which not only form, but influence social welfare systems. In addition, the course discusses intersections between privilege and oppression. The course reviews multiple marginalized, oppressed, and underserved populations with which social work intersects and ways that social work can positively impact social, economic, environmental justice, and human rights.

SWK 285. Child Welfare in Rural Comm. 3 Hours.
This course will examine the basic core of child welfare services: Services to protect children from neglect and abuse, family preservation services, foster care, adoption, and child advocacy. Additionally, it will examine the legal framework that governs the affairs of children.
SWK 299. Special Topics In Social Work. 1-4 Hour.

SWK 330. Human Behavior and the Social Environment. 3 Hours.
This course reviews the biopsychosocial-cultural aspects of human development across the life span within the context of Generalist Practice. Students will apply knowledge of human behavior and the social environment, person-in-environment and other multidisciplinary theoretical frameworks to provide social work across the life span. Prerequisite: Student must complete SWK 250, SOC 110, and PSY 111 before enrolling in this class.

SWK 331. Family Dynamics. 3 Hours.
This course applies a variety of theoretical perspectives, including systems theory and person-in-environment in order to use skills to engage, assess, intervene, and evaluate social work practice with families.

SWK 335. Social Work Methods I. 3 Hours.
This course applies knowledge, values, and skills for entry level Generalist Practice Social Work with individuals and families using evidence-based skills and interventions. Students will develop skills to engage, assess, plan, intervene, and evaluate social work practice with individuals and families. Prerequisites: SWK 331 and admission to the Social Work Program.

SWK 340. Social Welfare Policy. 3 Hours.
A generalist practice framework is used for the analysis of social welfare policies and current policy structures, and policy practice, advocacy, and evaluation used in agency, community, and legislative settings.

SWK 350. Rural Social Work Practice. 3 Hours.
Study and evaluation of rural, regional social services and delivery systems, characteristics of rural populations and community analysis, function and roles of social worker in a nonmetropolitan environment. Prerequisite: SWK 250, 255 and 256.

SWK 379. Aging Practices and Policies. 3 Hours.
Study of social welfare policies which sanction and direct services and welfare for the elderly.

SWK 394. Independent Study General Sw. 1-4 Hour.

SWK 401. Contemporary Issues with Native American Families. 3 Hours.
This course will survey contemporary issues that Native American families face in today's society and how these influence effect the context of family life and the helping process.

SWK 402. N.A. Children & Adolescents. 3 Hours.
This course will survey contemporary issues that Native American children and adolescents experience in today's society and how these issues affect their family life and issues relatd to delivery of services.

SWK 426. Social Work Methods II. 3 Hours.
This course applies knowledge, values, and skills for generalist social work practice with groups using evidence-based skills and interventions. Students will develop and utilize skills to engage, assess, intervene, and evaluate social work practice with groups. Prerequisites: SWK 340 and admission to the Social Work Program.

SWK 427. Social Work Methods III. 3 Hours.
This course applies knowledge, values, and skills for generalist social work practice with organizations and communities using evidence-based skills and interventions. Students will develop and utilize skills to engage, assess, intervene, and evaluate social work practice with organizations and communities. Pre-requisites: SWK 330, 331, and Admission to the Social Work Program.

SWK 428. Crisis Intervention. 3 Hours.
This course introduces students to the theory and practice of crisis intervention with an emphasis on the use of short-term intervention and problem-solving techniques. This course emphasizes crisis theory and crisis intervention models applied to various crisis problems and populations at-risk. Pre-requisite: Junior or Senior status.

SWK 429. Interprofessional Health Care Practice. 3 Hours.
Today's fast-paced, high acuity health care system demands health care professionals who can collaborate effectively using an interprofessional team approach in order to provide patient-centered care. Students will explore discipline specific roles and scope of practice as well as issues common to all health care professions such as communication, team dynamics, ethics, patient safety, and quality improvement. Pre-requisites: SWK 250, 256, 330, 331, 335, and 340.

SWK 430. Diversity, Oppression, and Social Change. 3 Hours.
This course focuses on enhancing knowledge and insight into the impact of oppressed individuals to include, but not limited to age, color disability, ethnicity, family structure, gender national origin, race, and sexual orientation. To promote self-awareness, a key component in cross-cultural social work practice, students will be challenged to thoughtfully and critically analyze their own identity development by examining personal beliefs and life-experiences with privilege and oppression. The person-in-environment assessment strategy will be applied as practical intervention strategy for future practice with diverse individuals. Pre-requisites: SWK 250, 256, 330, 331, 335, and 340. Co-requisite: SWK 426.

SWK 442. Research Methods in Social Work. 3 Hours.
This course introduces students to the concepts and principles of social work research methodology. This course includes conceptualizing a social work problem, designing research strategy, making use of relevant literature, and organizing and evaluating relevant data. Prerequisite(s): MATH 210 or PSY 241.
SWK 489. Field Experience. 3-9 Hour.
Field experience is a course that provides structured and educationally directed learning experiences in public and private human service agencies, but is geared for those students who may want an additional field experience prior to Field Education. Pre-requisite: Admission to the Social Work program and consent of instructor.

SWK 490. Field Education. 12 Hours.
This course is a structurally and educationally directed learning experience in public and private human service agencies that utilizes social work knowledge, values, and skills. Pre-requisite: Admission to the Social Work program. Co-requisite: SWK 491.

SWK 491. Senior Seminar. 3 Hours.
The Senior Seminar course taken concurrently with Field Education promotes the integration of knowledge, values, and skills and filed learning with a focus on professional and ethical issues. Co-requisites: SWK 490 and senior status.

SWK 494. Independent Study Honors Sw. 1-8 Hour.

SWK 499. Special Topics. 1-8 Hour.

THEA 110. Introduction to Theatre Arts. 3 Hours.
Basic introduction to the theory and principles of theatrical presentation including dramatic literature, acting, stagecraft and dramatic analysis, with emphasis on practical application.

THEA 120. Intro to Drama Lit & Analysis. 3 Hours.
An introductory course in the literature of drama. Plays representative of important periods of theatre history are discussed and analyzed in their cultural context as well as for possible performance. Students work to understand the plays' potential meanings for modern audiences.

THEA 121. The One-Act Play. 2 Hours.
The course revolves around the study of the one-act play, how it differs from the full length play, as well as the reading of several one-acts and evaluating them as per their availability and appropriateness for competition.

THEA 161. Acting I. 3 Hours.
A basic introduction to script analysis, scene work, and characterization. Exploring the actors tools through voice, movement, and stage combat may be implemented depending on instructor.

THEA 162. Audition Techniques. 1 Hour.
The selection, rehearsal, and performance of theatrical scenes and monologues as well as musical theatre material for the purpose of auditions.

THEA 164. Musical Theatre Professional Preparation. 2 Hours.
Designed to prepare students to be successful at professional Musical Theatre auditions and to provide them with practical skills and information related to show business (i.e: agents, managers, unions, negotiating, contracts, headshots, resumes, casting directors, etc.).

THEA 194. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of theatre. Pre-requisite: Theatre Arts major or minor.

THEA 199. Special Topics. 1-3 Hour.
Varying areas of content, issues, or themes in the study of theatre.

THEA 201. Theatre Practicum. 1 Hour.
Participation in a significant capacity in any communication arts sponsored theatrical production above and beyond the requirements of a specific course. Repeatable up to eight credits.

THEA 202. KCACTF Participation. 1 Hour.
Credit offered to those students selected for the KCACTF Irene Ryan Regional Scholarships as well as those students choosing to actively participate in the various regional events, i.e. Design Expo, Stage Management, Theatre Management Challenge, and those students interested in presenting work elsewhere. The course will include selection, preparation, and presentation of the required artifacts or audition pieces.

THEA 203. Music Theatre Studio. 1 Hour.
Performance of major roles of Musical Theatre in studio projects. Emphasis on the student's integration of singing, acting, and movement into a unified performance.

THEA 221. Costuming. 2 Hours.
Introduction to the art of theatrical costuming from history through construction. Included will be an introduction to the design process.

THEA 222. Make-Up. 2 Hours.
Theory and practical laboratory work in stage make-up applications, including mask building.

THEA 250. Creative Drama. 3 Hours.
The study fo creativity, and the relationship of drama and creative play culminating with activities centering around storytelling and children's theatre.

THEA 261. Performance Studies. 3 Hours.
An examination of “performativity.” and explorations of performance beyond the confines of “theatre proper”. Students will create works for the theatre which resist the limits of traditional narrative as well as experiment with the definition of performance.
THEA 270. Stagecraft. 3 Hours.
The course will begin with the stage managers approach to script analysis for a play in production and will conclude with the fundamental approach to
the implementation of the scenic artist’s designs for the stage through the study of set construction, painting techniques, and technical coordination.

THEA 275. Production Design. 3 Hours.
The focus of the course will be design process, as applied to the creation of the theatrical environment, including analysis, research, communication, and
implementation. Students will complete design projects in costing, scenery, or lighting. Prerequisite(s): THEA 270.

THEA 296. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count
toward the Theater Arts major or minor.

THEA 297. Internship. 1-2 Hour.
Hands-on experience in the discipline.

THEA 299. Special Topics. 3 Hours.

THEA 301. Movement I. 3 Hours.
Introduction to physical and movement elements of the actor’s craft and stage performance, including neutral presence, alignment, walking, spatial
awareness, self-awareness, and availability. Exercises will be given to strengthen and stretch the body. Techniques involving the application of yoga,
pilates, ballet and Viewpoints will be applied to physical expression in character development and creation of object and animal essences. No previous
fitness/movement training required, only a quest for play and healthier daily living.

THEA 302. Movement II. 3 Hours.
Participants will develop body awareness, improve posture, enhance muscle strength, increase range of motion, and further the art of muscle relaxation.
Implementation and continuation of yoga/pilates matwork and ballet will increase strength, coordination, and flexibility for the stage performer. Final
project will involve movement application with classical Shakespearean text. No previous fitness/movement training required, only a quest for play and
healthier daily living.

THEA 303. Musical Theatre Dance. 3 Hours.
This course is designed to introduce the student to the basic principles and techniques characteristic of tap, jazz, and musical theatre dance styles.
Warm-up, exercises, combinations in a variety of jazz and tap styles will provide opportunities for the student to develop an efficient use of weight,
alignment, flexibility, articulation of footwork, coordination, endurance, strength, and musicality. A fun-filled class that culminates in song and dance
routines for the stage.

THEA 305. Musical Theatre History. 3 Hours.
History of Musical Theatre, primarily focusing on American Musical Theatre, from its defining influences and roots to the present. Topics to be covered
include significant productions, composers, lyricists, librettists, choreographers, directors, designers, and actors.

THEA 350. Theatre History, Criticism & Literature I. 3 Hours.
A survey of the development of the theatre and drama, including dramatic analysis, performance theory and style, theater architecture, and individual
contributions, from its beginning to 1642. Prerequisite: Student must complete THEA 120 or have instructor consent before enrolling in this class.

THEA 351. Theatre History Criticism, & Literature II. 3 Hours.
A continuation of THEA 350 and the development of the theatre and drama, including dramatic analysis, performance theory and style, theatre
architecture, and individual contributions, from 1642 to the present. Prerequisite: Student must complete THEA 120 or have instructor consent before
enrolling in this class.

THEA 361. Acting II. 3 Hours.
In-depth study of modern trends in acting technique with special emphasis placed upon the creation of character through various acting styles, and
continued emphasis on voice and movement. Prerequisite: Student must complete THEA 161 or have the consent of the instructor before enrolling in
this class.

THEA 385. Directing. 3 Hours.
Fundamentals of composition and picturization, blocking, stage business, and rehearsal as applied to the directing of plays. Prerequisite: THEA 161 or
consent of instructor.

THEA 386. Playwriting. 3 Hours.
A study of the basic principles of writing for the stage. Emphasis will be on developing short forms of productions, specifically the ten-minute play.

THEA 387. Playwrights Lab. 1 Hour.
Development of original student-written plays. Focus will be on revision of 10-minute scripts for production. Prerequisite: Student must complete THEA
386 or have the consent of the instructor before enrolling in this class.

THEA 394. Independent Study. 1-3 Hour.
Independent or directed study of special topics in the study of theatre. Pre-requisite: Theatre Arts major or minor.

THEA 395. Service Learning. 3 Hours.
Students will utilize reflection and research (both primary and secondary) to integrate (a) personal community or global service experience(s). Pre-
requisite: Theatre Art major or minor.
THEA 399. Special Topics. 1-3 Hour.
Varying areas of content, issues, or themes in the study of theatre.

THEA 401. Tour Show. 3 Hours.
This course is designed for the both the Theater and non-Theater major/minor to acquaint the student with the basic principles of acting, stage work, and touring. These principles include, but are not limited to: script reading and analysis; a technical production process that would accommodate a limited budget and specifics to be performed in various spaces and conditions; the research and preparation of materials that would allow a non-traditional audience member and teacher to view the production and be able to incorporate performance materials back into a regular classroom activity.

THEA 414. Theatre Management. 3 Hours.
This course will emphasize the business of theatre: Production Procedures from beginning to the end; grant writing, box office procedures, publicity policies, and audience development. Prerequisite: BADM 301.

THEA 450. Contemporary Drama. 3 Hours.
A study of dramatic literature from 1952 to the present. Plays from England, Europe, and the Americas will be represented. Course may be repeated as the content changes.

THEA 480. Advanced Theatre Performance. 3 Hours.
The focus of the course may include: script analysis, dramaturgy, devising theatre, and vocal technique for the stage (including diction, pronunciation, and dialect as needed). Students will do a variety of projects leading to production concepts as discussed by the ensemble. The final project will be a finished theatrical performance directed and acted by class members. Prerequisites: THEA 161, 301, 361, and 385.

THEA 492. Capstone Experience. 3 Hours.
Provides for individual research culminating in a thesis project under direct supervision of an instructor. Student must be at junior or senior status before enrolling.

THEA 496. Study Tour. 1-3 Hour.
MSU faculty-led study trips to appropriate locations. Will include additional requirements beyond travel itself. May be repeated for credit. Does not count towards the Theatre Arts major or minor.

THEA 499. Special Topics. 3 Hours.

THEA 95. Theatre Experience. 0 Hours.

UNIV 110. First Year Seminar. 2-3 Hour.
An academic course linked to two other courses to form a first-year experience learning community. The course should inspire and support the transition to university life and learning and provide opportunities to engage with the campus and larger community. Topics vary according to the theme of the learning community.

WS 294. Independent Study. 1-3 Hour.
Directed topics of study.

WS 299. Special Topics. 1-3 Hour.
Special topics in Women's Studies.

WS 494. Independent Study. 1-3 Hour.
Directed topics of study.

WS 499. Special Topics. 1-3 Hour.
Special Topics in Women's Studies.

Center for Extended Learning (CEL)
The mission of the Center for Extended Learning (CEL) is to provide flexible, accessible, and quality lifelong learning opportunities. To serve this mission, CEL offers courses in a variety of locations and in a range of formats that meet the needs of today's learners.

Courses for university credit can be taken online, by video conferencing/IVN, at the Minot Air Force Base, in Bismarck, Fargo, and at other outreach sites within North Dakota. In addition, CEL provides College for Kids camps, community and professional seminars, and education workshops for teachers throughout North Dakota and surrounding states. Non-credit activities may also be offered in a wide variety of interest areas to meet the needs of the local community.

Registration for CEL Credit Activities
Registration for CEL credit activities must be completed via Campus Connection (http://www.minotstateu.edu/cc). Campus Connection allows you to choose courses offered by several delivery methods. When registering for a course, review the Mode of Instruction list of delivery options. Courses not listed as On Campus Face to Face are distance education courses offered by CEL and include a distance education access fee. Any student interested in enrolling in a distance education course must be fully admitted to MSU, either as a degree-seeking or non-degree seeking student.
Tuition and Fees

Distance education courses are charged per credit and are not covered under the tuition cap. Tuition and fees are separate from, and in addition to, any coursework taken in the On Campus Face to Face mode. The Business Office website (http://www.minotstateu.edu/busoffic/student_info.shtml) has a schedule of Distance Education tuition and fees. Financial aid is available for qualifying students who enroll in CEL courses for university credit.

Immunization Waiver

A student who enrolls in only distance education courses (online, independent study, or off-campus sites), may be exempt from submitting proof of Measles, Mumps, and Rubella (MMR) immunization for admission to MSU. A student immunization waiver request (http://www.minotstateu.edu/health/immunization.shtml) must be completed to grant an exemption. Students who choose to attend the campus at a later time will be required to submit proof of MMR immunization.

MSU Online

Minot State University is dedicated to the development of quality, flexible, online education. Online courses allow students to receive undergraduate or graduate education in the convenience of their home, office, or school. These courses reflect the same rigorous academic and faculty standards that apply to the University’s traditional programs and fulfill certain degree requirements.

Programs

- Associate of Science Degree in Human Services with a major in Intellectual and Developmental Disabilities (p. 262)
- Bachelor of Science in Human Services: Intellectual and Developmental Disabilities (p. 261)
- Bachelor of Science in Management (p. 216)
- Bachelor of Science in Marketing (p. 218)
- Bachelor of Science in International Business (p. 215)
- Bachelor of Science in Management Information Systems (p. 221)
- Bachelor of Applied Science in Applied Business Information Technology (p. 222)
- BSN Completion Program for the Registered Nurse (p. 247)
- Bachelor of General Studies (p. 50)

Out of State Students

State and federal laws require colleges and universities to be authorized to offer online degree programs in states other than their own. If you reside outside of North Dakota and would like to take online courses from MSU, please visit the State Authorization (http://www.minotstateu.edu/online/stateauthorization.shtml) page on the MSU Online website for information on programs available in your area.

Minot Air Force Base (MAFB)

CEL sponsored classes and degree programs are available to military personnel, their dependents, and civilians, both at the Minot Air Force Base (MAFB) in the Francis X. Deignan Building and on the MSU campus. The University provides a coordinator at the MAFB to assist Air Force personnel with advising, selecting courses, tuition assistance, and registration. Students may register for MAFB classes via Campus Connection (http://www.minotstateu.edu/cc). Military members using tuition assistance must complete the required forms through the base education office and submit them to the MSU Business Office.
Computer Literacy Requirement

According to the Department of Defense directive 1322.8, all students completing a degree on the Minot Air Force Base must do one of the following: 1) successfully complete an introduction to computer science course as one of their program electives, or 2) present evidence (credential, transcript, etc.) that computer literacy has been obtained.

Withdrawals—Military

All military members using tuition assistance who wish to withdraw from courses or the university must complete the required form through the base education office and complete MSU's withdrawal procedures. Failure to follow the withdrawal procedures will result in a failing grade for each course for which the student has enrolled.

Bismarck

MSU makes it convenient to earn your degree from a 4-year public university without having to leave Bismarck, by attending classes on the BSC Campus. Let us show you all of the opportunities for hands on learning, research and added benefits of low student to faculty ratios. Alternatively, many classes in these degree programs can be taken online.

Programs

- Bachelor of Addiction Studies (p. 235)
- Bachelor of Arts in Psychology (p. 237)
- Bachelor of Social Work (p. 239)
- Bachelor of Science in Criminal Justice (p. 75)
- Bachelor of Science in Management (p. 216) (online program with faculty advising on site)
- Bachelor of Science in Marketing (p. 218) (online program with faculty advising on site)

Fargo

Minot State University's Social Work department and North Dakota State University's Human Development and Family Science department have teamed up for a collaborative degree program. Students can earn an HDFS degree from NDSU, Family Science option, and a B.S.W. in Social Work from Minot State University at the same time. All courses are taught on the NDSU campus, and the total degree credits required are only 133.

Interactive Video Network (IVN)

The North Dakota Interactive Video Network (IVN) is a statewide videoconferencing communication tool providing distance education opportunities throughout the state. IVN courses connect instructor and students in one location to students in other locations. Information about IVN classes and room assignments for remote sections not on the MSU campus are posted on the CEL website (http://www.minotstateu.edu/cel/ivn.shtml).

Academic Testing Center

The Academic Testing Center (ATC) at Minot State University strives to provide reliable test administration and high quality customer service in a secure environment.
The ATC provides testing services for MSU and the community at large. We offer a variety of tests including placement and professional certification exams. Please see our complete exam listing (http://www.minotstateu.edu/cel/pages/act-exams.shtml) for more information. The testing center also provides both computerized and paper/pencil proctoring services for MSU students and community members.

Financial Information, Services, and Organizations

Information regarding financial aid, tuition and fees, and scholarships are located under Financial Information, Services, and Organizations. Services to the region, as well as student services, clubs, organizations, and activities are also included.

Financial Information

Information regarding financial aid, tuition and fees, and scholarships are located under Financial Information.

Financial Aid

Minot State University makes every effort to provide financial assistance to eligible applicants through loans, grants, scholarships, employment, or a combination of these and other student aid programs. It is expected students will meet part of their need from earnings, and parents will contribute in proportion to their financial ability. A student applying for financial aid at Minot State University is considered for a variety of federal, state, and institutional programs. Applications are evaluated to determine the individual need of the students and awards are made with careful adherence to federal, state, and institutional guidelines. The primary responsibility for financing a college education rests with the student and his or her family. Financial aid should be used as a supplement to family support. The Financial Aid Office reserves the right to the final determination regarding the type(s) and amount of aid awarded to students. Awards are based upon an evaluation of the student’s eligibility as determined by the Free Application for Federal Student Aid form and the availability of funds. Financial assistance from Minot State University is redetermined annually.

Who May Apply

Students applying for federal financial aid must:

1. Be a U.S. Citizen or an eligible non-citizen.
2. Be enrolled and fully accepted for enrollment in a degree granting program.
3. Maintain Satisfactory Academic Progress toward completion of a course of study.
4. Not be in default on any Federal Student Loan Program.
5. Not owe a repayment of any grant funds previously received.

How to Apply

Students applying for financial aid must complete a Free Application for Federal Student Aid (FAFSA). When completing the FAFSA, applicants must list Minot State University as a university they plan to attend. The Minot State University school code is 002994.

All students (including first-year students, returning and transfer students) are encouraged to complete the FAFSA online at FAFSA.gov (http://www.fafsa.gov). Students applying for financial aid for the summer term will also be required to complete an institutional financial aid application. The summer financial aid application is available online at MinotStateU.edu/finaid (http://www.minotstateu.edu/finaid). The application becomes available when summer registration begins.

When to Apply

To receive priority consideration for financial aid for the upcoming academic year, MSU must receive the results of the student’s FAFSA and the student’s application for admission by April 15. Students should file the FAFSA online by April 1 to meet the priority deadline. Students who meet the priority deadline will receive consideration for the campus based aid programs (Federal Supplement Educational Opportunity Grants and Federal Work Study) as well as the Federal Pell Grant, Federal Direct Loan Programs and the North Dakota State Grant. Applications for financial aid will be accepted after April 15, but funding may be limited to the Federal Pell Grant and Federal loan programs.

Students completing the FAFSA incorrectly or omitting necessary information may be required to correct their FAFSA before financial aid will be awarded. Corrections may cause a delay in determining a student’s eligibility and may cause students to miss the priority funding date.
Verification

If selected for verification by the Department of Education or Minot State University, students must provide documentation to prove the accuracy of the information provided on the FAFSA. As a part of this process, students and/or parents may need to provide a Tax Return Transcript and other requested documentation. Tax Return Transcripts can be obtained at irs.gov (https://www.irs.gov). Financial aid may be canceled for failure to provide requested documentation within a reasonable length of time (30-45 days). If you purposely give false or misleading information, you may be fined up to $20,000, sent to prison, or both. Verification forms and additional information is available online at MinotStateU.edu/finaid/verification.shtml (http://www.minotstateu.edu/finaid/verification.shtml)

How Financial Aid is Awarded

Financial aid awards are based on need and the availability of funds. Need is defined as the difference between the estimated cost of education as determined by the University, and the expected family contribution (EFC) as determined by the FAFSA. A need exists if the expected family contribution is less than the estimated cost of education.

The estimated cost of education includes costs recognized by the federal government as necessary for a student to pursue an education. The estimated cost of education includes: tuition, fees, books, board, room, transportation, and other miscellaneous personal expenses. The expected family contribution formula considers:

1. Income of the student, spouse, and/or parent.
2. Assets of the student, spouse, and/or parent.
3. Family size.
4. Number of family members enrolled in college.
5. Age of the student, spouse, or parents.

Every effort is made to provide adequate funding to meet the student’s educational costs. To view our actual cost of attendance visit our web site at MinotStateU.edu/finaid/cost.shtml (http://www.minotstateu.edu/finaid).

How Financial Aid is Disbursed

Students must meet admissions, attendance and satisfactory academic progress requirements prior to receiving financial aid. All loans, grants, scholarships and work study awards are subject to change, depending on enrollment status, other resources, participation criteria and availability of funds. If attending the academic year, grants, scholarships and loans will be disbursed in two allotments during the period of time for which the student is enrolled. Aid is disbursed each semester during the fee payment date and thereafter. Fee payment date information can be obtained at the Financial Aid Office or Business Office. The students’ accounts will be credited and any excess aid will be disbursed by the Business Office during fee payment.

Students whose charges are less than the financial aid received are encouraged to have the excess financial aid direct deposited into their bank account. If a student does not complete a direct deposit request, an excess aid check will issued by the Business Office where the student may pick it up or request to have it mailed.

Financial Aid Satisfactory Progress Policy

Federal regulations require institutions participating in federal financial aid programs to measure a student’s progress toward earning a degree. To be eligible to receive financial aid, students must meet all of the institution requirements, be admitted into a degree granting program and must meet the following minimum standards:

1. **Grade Point Average (GPA).** Students are required to maintain a minimum cumulative grade point average of 2.0 at the conclusion of each semester based on all Minot State University and transfer undergraduate credits.
2. **Attempted/Completed Credits.** Students must successfully complete a minimum of 66.667% of the cumulative attempted credits.
3. **Maximum Time Limit.** Students must successfully complete their degree within 150% of the published number of credits needed to complete their program of study. The maximum number of credits includes all credits attempted while attending Minot State University and any credits attempted at other colleges or universities whether or not federal financial aid was received while completing those credits. Students who are approaching the maximum attempted credit hour limit will receive a Financial Aid Information Service Indicator on Campus Connection to warn them that they are close to reaching this limit.

A detailed copy of Minot State University’s satisfactory progress policy for financial aid eligibility may be obtained from the Financial Aid Office or online at MinotStateU.edu/finaid/policies.shtml (http://www.minotstateu.edu/finaid/policies.shtml).

Appeal Process

A student with special circumstances may appeal his or her financial aid status by submitting documentation explaining and verifying the special circumstance to the Financial Aid Office. Documentation received will be reviewed and students will receive notification by email of the outcome of their appeal.
**Withdrawal from the University**

Students who find it necessary to withdraw from all courses must complete a Withdrawal Form either at the Financial Aid Office or online at MinotStateU.edu/finaid/withdrawal.shtml. Students who withdraw from all courses after the start of a semester will be subject to the Return of Title IV Funds Policy and the University’s refund policy.

**Return of Title IV Funds Policy**

Students who withdraw from school and who have received federal funds may have to repay a portion of those funds back to the federal aid programs. The portion of funds that must be returned is calculated by dividing the number of calendar days attended by the number of calendar days in the term.

Example: The term is 116 calendar days in length and the student decides to withdraw on the 21st calendar day of the term. The student has earned 18.1% of the funds received and must repay 81.9% of the funds. If the student received $2,600 the student would have to repay $2,129.40.

The impact this federal regulation will have on students who withdraw from school is that they will have to repay, at the time of withdrawal, a portion of the funds they received for the term of attendance. Students who owe a repayment of funds: (1) will not be entitled to enroll in subsequent terms, (2) will not be eligible to receive additional federal funds, and (3) will have a hold put on his or her grade transcripts until his or her account is paid in full. In addition, these students may have his or her account reported to the U.S. Department of Education for further action.

Students who receive institutional scholarships may have to repay a portion of those funds based upon the return of funds formula. The full Return of Title IV Funds Policy is available online at MinotStateU.edu/finaid/_documents/policies/policy_refund_repayment.pdf.

**Unofficial Withdrawal**

Students who stop participating in all classes in the midst of a semester without formally withdrawing are considered to have unofficially withdrawn.

If a student earns a passing grade in one or more classes in a semester (fall, spring or summer term), MSU will presume the student completed the course and thus completed the period of enrollment. If a student who began attendance and has not officially withdrawn fails to earn a passing grade in at least one course offered over an entire semester, MSU will assume the student has unofficially withdrawn and will seek documentation of the student's last date of academic participation in his or her courses. The determination of unofficial withdrawals will occur after grades are posted at the end of each semester by creating a list of all students who received all F's, I's, or U's for the payment period (semester). For unofficial withdrawals, the withdrawal date used for calculating Return of Title IV funds is the later date of either the midpoint of the period of enrollment or the last date of academic participation in any course as reported by the student's faculty members.

Based on the determined unofficial withdrawal date, a Return of Title IV funds calculation will be completed to determine the amounts and types of federal financial aid to be returned and MSU will return the unearned Title IV funds to the Federal Aid programs. All unearned financial aid funds to be returned will be the responsibility of the student to repay to MSU. A letter will be mailed to the student at the time of calculation notifying the student of their obligation to repay MSU for the unearned portion of the federal financial aid they received for the semester and a point of contact from the MSU Business Office will be identified in the letter. Students who unofficially withdraw will be placed on Financial Aid Disqualification following the term in which they received all F’s, I’s, or U’s.

**Access to Records**

Files containing information regarding individual students are not open to the general public under the provisions of the Family Educational Rights and Privacy Act of 1974.

**Student Consumer Information**

The Higher Education Opportunity Act requires that all United States academic institutions provide certain consumer information about the University to future and current students, including financial aid information. For your convenience, MSU has consolidated that information on the Student Consumer Information website: MinotStateU.edu/finaid/consumer_information.shtml.

**Types of Financial Aid**

Minot State University provides four types of financial aid:

1. Grants
2. Loans
3. Work Study
4. Scholarships and Award Programs

Grants are gifts of money that do not have to be repaid. Loans must be repaid. Work Study allows a student to work and earn money to offset educational expenses. Scholarships are gifts awarded to students on the basis of academic achievement, need, or other criteria. The financial aid...
programs listed below represent the major programs offered at Minot State University. Many students qualify each year for scholarships offered by private and public agencies, groups, and organizations. Students are encouraged to research other possible scholarship sources with his or her high school counselors, principals, library, and department/division chairs.

Grants

Federal Pell Grant
The Federal Pell Grant may be awarded to an undergraduate student pursuing his or her first bachelor’s degree for up to 12 full-time semesters or its equivalent. Students must meet the eligibility requirements. The amount of the grant is based on the expected family contribution (determined by the FAFSA), the estimated cost of attendance, the student’s enrollment status and the funding appropriated by the Federal Government. A student may apply for the Federal Pell Grant by completing the FAFSA.

Federal Supplemental Educational Opportunity Grant (FSEOG)
FSEOG awards may be awarded to undergraduate students who are eligible for a Federal Pell Grant. The deadline for priority funding is April 15. The FSEOG is a campus-based program and is administered by the Financial Aid Office. A student may apply for the FSEOG by completing the FAFSA.

Federal TEACH Grant
The Federal Teacher Education Assistance for College and Higher Education (TEACH) Grant Program provides up to $4000 a year in grant assistance to undergraduate and graduate students who are completing course work needed to begin working in a high-need teaching field. Students must score above the 75th percentile on one part of an admissions test (such as the SAT, ACT, GRE, etc.) or achieve and maintain at least a 3.25 cumulative GPA for each semester in order to be eligible to receive a TEACH grant. Students receiving a TEACH Grant must sign an Agreement to Serve (ATS) each year that explains that each recipient must teach for four years within eight years of completing or ceasing enrollment in a TEACH Grant eligible program as a full-time highly-qualified teacher in a low-income elementary or secondary school in a high-need field such as Math, Science, Foreign Language, Special Education, Reading Specialists or other high-need fields listed on the US Department of Education’s Nationwide Listing of Teacher Shortage Areas. A TEACH Grant recipient who fails to complete the required teaching service requirement must repay the grant as an Unsubsidized Federal Direct Loan with interest accruing from the date of the first disbursement.

North Dakota State Student Incentive Grant Program (SSIG or State Grant)
The North Dakota State Student Incentive Grant Program (SSIG or State Grant) may be awarded by the North Dakota University System to undergraduate students who are United States citizens, residents of North Dakota, graduates of a North Dakota high school or who have completed a program of home education or received a general education development high school diploma, and have not previously received a State Grant for more than eight semesters. The grants are need-based and are dependent upon the availability of funds and pro-rated based on enrollment status. The awards may be adjusted based on unmet need and to reflect the appropriate enrollment status. Students apply by submitting the FAFSA as soon as possible after October 1st. For more information, visit ndus.edu/students/paying-for-college/grants-scholarships/#NDSSIGP (http://www.ndus.edu/students/paying-for-college/grants-scholarships/#NDSSIGP).

ND Academic Scholarship and ND Career and Technical Scholarship
North Dakota resident students may apply for either the Academic Scholarship or the Career and Technical Education Scholarship. Applicants must graduate from a ND high school and apply during their senior year before the application deadline. Applications may be submitted online or through the mail. Students must also request an official transcript be sent to the North Dakota Department of Public Instruction. The total value of the scholarship is $6,000 with a payment of $750 per semester for a total annual payment of $1,500. The award will only be paid during the six years following high school graduation. Scholarships are renewable provided the student maintains a 2.75 GPA, reviewed each semester. For more information on the scholarships, visit ndus.edu/students/paying-for-college/grants-scholarships/ (https://www.ndus.edu/students/paying-for-college/grants-scholarships).

Loans

Nursing Student Loan (NSL)
The Federal Nursing Student Loan is a 5% interest loan program administered by the Financial Aid Office and is available to students enrolled and accepted into the nursing program. Students may apply for NSL by completing the FAFSA. The deadline for priority consideration is April 15. The federal government pays the interest on the loan during periods of enrollment of half-time or greater. Repayment of the loan begins nine months after the student graduates, drops to less than half-time status, or withdraws from school. Students receiving a NSL are required to complete NSL loan entrance counseling and a master promissory note prior to the initial disbursement and each year annually as further disbursements are made. An exit interview is required at the time a student graduates or terminates enrollment at MSU.

Nursing Education Loan
The Nursing Education Loan is awarded by the North Dakota Board of Nursing. Applicants must be accepted or enrolled in a nursing program approved by the North Dakota Board of Nursing. The loan amounts are up to $2,000 for the Associate in Science in Practical Nursing program and up to $3,000 for baccalaureate completion programs. Repayment is by nursing employment in North Dakota after graduation and/or by monetary repayments. The application is available at ndbon.org (http://www.ndbon.org) the deadline is July 1.
Federal Direct Loans

Federal Direct Loan borrowers must be enrolled at least half-time. The Federal Direct Loan interest rate for loans borrowed during an upcoming school year is set on July 1 each year. Prior to the release of the first Federal Direct Loan disbursement, students must accept the loan in Campus Connection, complete entrance loan counseling and a Master Promissory Note (MPN) at StudentLoans.gov (http://www.studentloans.gov). Forbearance, Deferment and Cancellation of Loan information can be found on the Master Promissory Note. The aggregate Direct Loan limit for dependent students is $31,000; the aggregate Direct Loan limit for independent students is $57,500. Exit Loan Counseling is required at the time a student graduates, drops below half-time status or terminates enrollment at MSU.

The Federal Direct Subsidized Loan may be awarded to students who are enrolled at least half-time and have need. Students may apply for a Federal Direct Subsidized loan by completing the FAFSA. If eligible, a freshman may borrow up to $3,500, a sophomore (or a student in a two-year program) may borrow up to $4,500, and a junior or senior may borrow up to $5,500. The maximum amount that can be borrowed is $23,000. Repayment begins six months after graduation or if the student ceases to be enrolled at least half-time.

A new borrower, on or after July 1, 2013, is eligible to receive Direct Subsidized Loans for up to 150 percent of the time it takes to complete the educational program. For example, a student in a four-year program will have six years’ worth of subsidized loan eligibility. The borrower becomes responsible for the accruing interest during all periods as of the date the borrower exceeds the 150 percent limit.

The Federal Direct Unsubsidized Loan is a non-need based program for those ineligible for (any or all of) the Direct Subsidized Loan. The student is responsible for the interest payment while enrolled. The additional annual loan limit for dependent undergraduate students is $2,000. The additional annual loan limit for independent undergraduate students (or students whose parents are unable to obtain Direct Parent Loans for Undergraduate Students) is $6,000 a year for the first and second years of study and $7,000 for the third and fourth years of study. Repayment begins six months after graduation or if the student ceases to be enrolled at least half-time.

Federal Direct Parent Loan for Undergraduate Students (PLUS)

Federal PLUS loans enable parents to borrow money to help pay for their children’s education. Parents may borrow on behalf of a dependent student. The maximum amount of the loan is the difference between the cost of education less other financial assistance received. Repayment begins 60 days after final disbursement. To apply, go to StudentLoans.gov/myDirectLoan (https://studentloans.gov/myDirectLoan); complete the Plus Request process and a Master Promissory Note.

Work Study

Federal Work Study Program (FWS)

The Federal Work Study Program provides eligible students an opportunity to earn money which helps pay their educational costs. Minot State University offers FWS as part of a student’s total financial aid package. Students apply for FWS by completing the FAFSA and by meeting the priority funding deadline of April 15th. Awards are based on the availability of funds.

Scholarships and Award Programs

To apply for undergraduate scholarships available through Minot State University, complete the MSU Undergraduate Scholarship and Awards Program Application by the February 15 deadline. Application information is available at MinotStateU.edu/finaid/scholarships.shtml (http://www.minotstateu.edu/finaid/scholarships.shtml).

Students interested in scholarships based on performance, such as music, theater or athletics are encouraged to contact the individual departments. Individual departments may request additional information.

Other Sources of Funding

Native American Assistance

Individual Native American tribes administer their own Higher Education Scholarship Programs. Native American students should apply directly to the Tribal Higher Education Office on the respective tribal agency. Early application is recommended as funds are limited and deadlines apply. Additional resources are available at MinotStateU.edu/finaid/rns.shtml (http://www.minotstateu.edu/finaid/rns.shtml).

Vocational Rehabilitation

Students with disabilities may be entitled to assistance for tuition, fees, and books. Students who wish to apply would contact the local Vocational Rehabilitation Office for eligibility information and applications.

Veterans, National Guard, and Veteran Tuition Waiver

Students serving in either the National Guard or Air National Guard may be eligible for tuition assistance. For information or eligibility requirements, contact your local National Guard unit or the Adjutant General, P.O. Box 5511, Bismarck, ND 58506-5511.
Tuition and Other Fees

The academic year is divided into two semesters (fall and spring) of sixteen weeks each. In addition, there is an annual summer semester of eight weeks. The cost of tuition and fees is as follows (amounts listed are actual for 2017-2018; amounts subject to change without notice):

Cost of Tuition and Fees

(per semester, full time on-campus, 12-18 credit cap)

Undergraduate (full-time, per semester)

</tbody>
</table>

Under its new tuition plan, MSU will charge all students the resident rate.

The tuition and fees listed above are for MSU on-campus courses. The tuition and fees charged for most on-campus courses are capped at 12 credits up to 18 credits per academic career. Any credits above 18 will have an additional per credit charge. The tuition and fees for the graduate and undergraduate careers are calculated separately. Distance Education courses do not cap at 12 credits, charges are calculated on all credits. Also, in addition to tuition and fees, all distance education courses will be charged an access fee. An access fee is a per credit tuition charge to a student to cover the added costs associated with delivery of a course.

Tuition and fees are due in full at the beginning of each semester by the payment deadlines. Deadlines are available on the university calendar.

All students are encouraged to complete an institutional scholarship and awards program application.

Cancellation Policy

Registrations will be cancelled for those students who have not paid tuition and fees or requested a deferment by the payment deadline. A fee of $150 will be assessed to be reinstated in classes. If you need to request a payment deferment, please contact the Business Office.

Refunds of Tuition and Fees

Refunds on Class Changes

Any student who drops a class during the first 8.999% of the class days of a term will receive a 100% refund of tuition and fees for the credit hours attributable to the class or classes dropped. After the first 8.999% of the class days of a term, there will be no refund for a class which is dropped. However, classes of the same or fewer credits may be substituted when added prior to the 8.999% deadline for the dropped class at no additional tuition and fee charge. If added classes result in an increase in credit hours, or if an added class requires special course fees, the institution will charge the student for the additional credits and any special course fee.

Refunds for Officially Withdrawing Students

Any student who withdraws from MSU will receive a refund of tuition and fees according to the schedule below. Tuition and fees will be refunded based on the percentage which coincides with the exact day of the term in which the student formally withdraws.

<table>
<thead>
<tr>
<th>Percentage of Completed Class Days</th>

<td>0%</td>
</tr>
</tbody>
</table>

Refunds are calculated from the day classes commence to the date of application in writing and not from the date of last attendance at classes.
Fees
The tuition and fees listed on the previous page include the student activity fee, technology fee and the ConnectND fee. The tuition and fees listed exclude additional fees such as distance education access fee, special course fees to cover added and unique costs of the course, program fees for nursing and clinical lab science, parking permits, etc.

Undergraduate Award Program
In addition to the large variety of scholarships, Minot State University offers a variety of Award Programs. Application is made by submitting the MSU Undergraduate Scholarship Application.

Disclaimer: Award programs are subject to change without notice and subject to the availability of funds.

The Financial Aid Office has the right to adjust any and all awards based on information received after the initial awards were made, the availability of funds, or changes to federal, state, or institutional policies and regulations.

Automatic 4-Year Awards
The automatic 4-Year Renewable Award is designed for new freshmen students who are admitted to Minot State and meet academic qualifications by the July 1st deadline.

Eligibility Criteria:
• New first year freshman student
• US or Canadian citizenship
• Fully admitted to Minot State University by July 1 for fall admission
• 3.0 or higher unweighted high school GPA or GED score of 165+
• 19 or greater composite ACT score or equivalent total SAT score
• No separate application required
• Requires enrollment in 12 or more Minot State credits per semester

Visit MinotStateU.edu/finaid/scholarships.shtml (http://www.minotstateu.edu/finaid/scholarships.shtml) to view complete terms, conditions and renewal criteria.

Great Plains Transfer Scholar Award
Eligibility Criteria:
• 3.0 or higher transfer GPA
• Completion of minimum of 24 and no more than 70 transferable semester hours of earned credit.
• Enrollment in a minimum of 12 credits of on campus courses.
• U.S. or Canadian citizenship
• Complete Minot State General Scholarship Application by February 15th priority deadline

Diversity Tuition Waiver
Undergraduate new freshmen with a high school GPA of 2.25 and first-time transfer students with a transfer GPA of 2.25 are eligible to apply for this award by completing the Minot State General Scholarship Application by the February 15th priority deadline.

Resident 50% of actual tuition charged
Contiguous 25% of actual tuition charged
Non-Resident 10% of actual tuition charged
WUE 10% of actual tuition charged

Students must be enrolled full-time and be a US Citizen. Waiver applies only to the on-campus credits and off campus face-to-face credits. Kathy was a pastor of the United Campus Ministries on the MSU campus. Collectively they provided MSU Native American students with the support services they needed to successfully meet their education goals. Recipients must be of Native American/American Indian ancestry (a verifiable 1/4 tribal blood quantum) and be of freshman and/or first year tribal college transfer student status. Scholarship is a one year non-renewable duration scholarship.

Services to Region

Institute for Rural Human Services

The Institute for Rural Human Services (IRHS) is a unique project in which various human service entities collaborate. The Institute draws together various professional disciplines and service providers to address human problems of rural families and to seek solutions through a team approach. Its three-fold mission is to provide direct clinical and outreach services, technical assistance, and conduct educational activities that assist rural families in understanding and meeting their human service needs.

Interactive Video Network

The Interactive Video Network (IVN) offers statewide video conferencing providing distance education opportunities throughout North Dakota.

IVN utilizes Internet-based videoconferencing technology (H. 323) over the state network (STAGEnet) to significantly enhance communication and learning opportunities. Videoconferencing services extend beyond higher education and tribal colleges to include K-12 schools, NDSU Extension and Research Centers, and state government agencies.
Minot State University

More information about classes and meetings at MSU is available on the CEL website (http://www.minotstateu.edu/cel/ivn.shtml).

Minot Symphony Orchestra

The Minot Symphony Orchestra is a joint University/community/professional orchestra which presents three classical concerts, a family concert, a pops concert, and children’s concerts each season. Membership is dependent upon the needs of the ensemble and is open to University students and community or regional members through audition. More information can be found at www.minotsymphony.com (http://www.minotsymphony.com).

North Dakota Center for Persons with Disabilities

The North Dakota Center for Persons with Disabilities (NDCPD) is a University Center of Excellence on Developmental Disabilities, Education, Research, and Services. We are part of a national network of 67 similar programs at universities throughout the United States called University Centers for Excellence on Developmental Disabilities (UCEDDS). NDCPDs mission is to provide service, education, and research which empower communities to welcome, value, and support the well-being and quality of life for people of all ages and abilities. NDCPD serves a diverse population of people with disabilities and their families, service providers and educators, and people in the public and private sector through the following activities:

- Providing interdisciplinary training to students in multiple disciplines.
- Providing evidence-based in-service training for practicing professionals and others serving people with disabilities and their families.
- Providing education to individuals with disabilities, families, and support providers that will allow them to practice greater self-determination and exert greater choice and control.
- Disseminating information and research findings through publications, presentations, and the internet.
- Providing direct services and supports to people with disabilities to minimize disparities in health care, enhance educational opportunities, develop work skills, and other services that will ensure that communities are accessible and responsive to the needs of individuals with developmental disabilities and their families.
- Providing technical assistance to public policy makers and entities serving the disability community.
- Conducting research, evaluation, and analysis in areas of importance to the field of disabilities.

NDCPD provides many opportunities for students to participate in its projects and activities. NDCPD offers an interdisciplinary training experience for MSU students. Working with traditional academic departments such as Communication Disorders, Psychology, Social Work, and Special Education, NDCPD faculty provide students with leadership experiences that supplement their discipline-specific coursework. NDCPD also provides training and educational programs for professionals and paraprofessionals in the disability community. Working with academic departments, NDCPD makes a variety of workshops, courses, and professional development programs available in communities throughout North Dakota. Students from all disciplines are invited to become involved in the NDCPDs varied research, service, training, and dissemination activities. For more information call JoLynn Webster, NDCPDs Pre-Service Interdisciplinary coordinator at 800-233-1737 or 701-858-3206, or stop at the NDCPD offices located in Memorial Hall 203.

North Dakota Geographic Alliance

The North Dakota Geographic Alliance is a statewide organization of teachers, professional geographers, and other persons interested in promoting geography education within the state of North Dakota. The Alliance administrative office is located in the Mount Vernon Building, 900 N. Broadway, Minot. The Alliance publishes a quarterly newsletter, holds an annual meeting and professional development programs, and offers other types of geography-related resources. Students are invited to join the Alliance, to submit articles for publication in the Alliance newsletter, and to participate in Alliance-sponsored programs.

Communication Disorders Clinic

Each year children and adults from across the region come to the clinic for assessment and treatment of communication and swallowing disorders and to take advantage of sophisticated equipment and the expertise of our faculty. A unique team of professionals provides assessment and designs individual habilitative and rehabilitative programs which help people with communication and swallowing disorders to live their best lives. In addition clinical personnel and faculty collaborate with area schools, health care facilities and other service agencies to assist people with communication and medical speech pathology needs. Therapy services cost $15 per hour and assessments are billed at $65 per session. Call 701-858-3030 for additional information.

Western Plains Opera Company

The Western Plains Opera Company is a joint University/community opera which presents a major production each year. The Opera Company performs a variety of representative works. It is open to University students and community members through audition.

Great Plains Center of Community Research & Service

The mission of the Great Plains Center for Community Research & Service (GPCCRS) is to strengthen the quality of life in rural communities through community/University research and service partnerships that will identify, research, and take steps toward solving rural community quality of life issues and problems.
GPCCRS utilizes research activities to assist communities in identifying priority issues, engaging students and faculty in researching those issues, and collectively developing an action plan to address the issues. The development activities include disseminating information, grant writing support, and engagement of students in local communities with real purpose.

Faculty and students should use GPCCRS as a resource to enhance classroom activities by reaching out to local communities and addressing real life issues.

**Services to Students**

Information regarding campus buildings, residence hall room rates, parking, and dining services are located under Services to Students. Student services include, but are not limited to: the Center for Engaged Teaching and Learning, the Bookstore, the Student Success Center, the POWER Center, Office of International Programs, Student Health and Development Center, Veteran's Center, Multicultural Support Services, and Vocational Rehabilitation.

**Campus Buildings**

**Administration**

Offices of the President, Vice President for Academic Affairs, Vice President for Administration and Finance, Vice President for Student Affairs, Center for Extended Learning, Business Office, Registrar's Office, Academic and Institutional Projects, Financial Aid, University Communications, Enrollment Services, Red and Green (student newspaper) Dakota College at Bottineau, and, Human Resources are housed here. Also included are three Interactive Video Network (IVN) studios located on the third floor.

**Amphitheater**

This outdoor facility was built by students, alumni, and other university supporters. Located in the hills in the northern part of the campus, it provides a beautiful setting for summer theatre, musicals, and other productions.

**Astronomical Observatory**

Established in 1967 and relocated to north of the Amphitheater in 1988, the observatory houses a 16-inch diameter Schmidt-Cassegrain telescope used primarily by astronomy students. It is open for viewing on specified evenings.

**Cyril Moore Science Center**

This building houses administrative offices for the life and physical sciences. A lecture-demonstration auditorium seating 233, and classrooms, laboratories, and research facilities for biology, chemistry, geoscience, physics, and science education are located here.

**Dome**

The administrative office of the Department of Athletics is housed in this building. This structure also provides facilities for a wide variety of activities such as handball, racquetball, basketball, volleyball, tennis, wrestling, and indoor track with seating for over 10,000 people. The building also has lockers, showers, classrooms, and offices, plus other use areas.

**Facilities Management**

This building houses the central heating plant, carpenter and welding shop and the campus security office.

**Hartnett Hall**

The administrative offices of the College of Arts and Sciences and the Division of Humanities are located in this building. There are classrooms and studios for art, broadcasting, communication arts, English, and foreign languages. A 200-seat theater for lectures, recitals, and theater productions and an art gallery displaying works of nationally recognized, contemporary American artists are also housed there. A computer lab is in this building.

**Library**

The Gordon B. Olson Library houses basic library facilities and two computer-lab centers. Containing over 420,000 volumes in books, bound periodicals, and government documents, it also houses special collections of North Dakota materials, a children's collection, media materials (over 14,000 video recordings, filmstrips, slides, and other non-print material) and microfilms. The library currently subscribes to over 600 periodicals and is a depository for United States Government and State of North Dakota publications. The library building provides study accommodations for 800 students.
Memorial Hall
In 1996, Memorial Hall was remodeled and expanded. It houses the Rural Crime and Justice Center, five academic departments, the Graduate School, and the North Dakota Center for Persons with Disabilities. The five departments located in Memorial Hall are communication disorders; special education; criminal justice; nursing; and addiction studies/psychology/social work. A computer lab is in this building.

Model Hall
Completely renovated in 1990, this building houses administrative offices for mathematics and computer science. There are two instructional computer labs, four tiered multimedia classrooms, and numerous classrooms for lecture.

Old Main
This first building on campus underwent a $8.6 million remodel between 2001-2003. It provides classroom and office space for the College of Business, and the Divisions of Music and Social Science. It also houses the office of Information Technology, the Center for Engaged Teaching and learning (CETL), and the Severson Entrepreneurship Academy. Ann Nicole Nelson Hall provides facilities for the performing arts with a seating capacity for 950.

Residence Halls
Cook Hall
A five-story co-ed residence hall for 188 students, it was completed in 1965.

Crane Hall
A $4.4 million remodel of Crane Hall was completed in 2006. It is now an ultramodern co-ed residence hall with two-room suites for four students with private bathrooms. The hall accommodates 88 students.

Dakota Hall
Dakota Hall is a co-ed residence hall. It also houses the Veterans Office and the Residence Life/Housing Office.

Lura Manor
Lura Manor is a co-ed residence hall that houses 143 students in four-person suites. The Student Health and Development Center is located on the lower level.

McCulloch Hall
This co-ed residence hall for 145 students was completed in 1960.

Campus Apartments
Campus Heights Apartments
Completed in 1984, it houses 18 efficiency and 12 two-bedroom apartments. Open to all students. Families have preference for the two-bedroom units.

Pioneer Hall
A 40 unit apartment building. They are one bedroom apartments. 4 are handicap accessible, 6 are designated as single student apartments and the remaining 30 apartments are considered family apartments for married couples are single students/couples with a child.

Student Center (SC)
The Student Center is located at the heart of the Minot State University campus. A campus information center/post office/central receiving/parking office at the east end of the Student Center greets visitors to campus.

In 2007, a $1.1 million facelift of an antiquated ballroom in the Student Center created the new student activity center, called the Beaver Dam. The sumptuous lounge contains pool tables, an electronic shuffleboard, a 20-foot big-screen TV, plasma TVs, soft furniture and a fireplace.

Newly remodeled offices for the Student Government Association were located near the Beaver Dam during the project. The offices of the Student Center director, student activities coordinator, Career Center and POWER Center are also located nearby.

Other amenities in the Student Center include laptop computer stations, two convenience stores, a swimming pool and the MSU Bookstore, which is affiliated with Barnes & Noble. The residence dining center, Beaver Creek Cafe, is located on the second floor and Buckshot's, a snack bar open to the public, is located on the lower level.
The Student Center also houses the Multicultural Center, Native American Cultural Center, and the offices of International Programs, Advancement, Alumni and the contracted food service provider.

While the Student Center has been designed to serve students, it also houses a functional conference center on the third floor that is used for numerous campus and community events.

**Swain Hall**

Renovated and re-opened in 2010, it houses the Department of Teacher Education and Human Performance.

**Wellness Center**

The Wellness Center houses activity courts for basketball, volleyball, floor hockey and other activities. It also contains space for fitness classes, weight lifting, cardio equipment, spinning classes, intramurals, personal training, student dances, and other student activities.

**Residence Life**

**Parking**

All vehicles parked on the campus must have a parking permit. Permits are available in the Parking Office in Facilities Management. The cost is $65 for reserved parking space for faculty, staff and students for the academic year. Parking areas are identified as "E" for Employees, "S" for Students, and "S/E" for lots where employees or students may park. Refunds are available by the semester, if one no longer wishes to park on campus. Campus parking is supervised; tickets will be issued and cars improperly parked will be towed at the owner’s expense. Further information may be obtained by contacting the Parking Office at the mail room/information center in the Administration Building or at 701-858-3318.

**Housing**

Residence Hall housing is available for students desiring to reside on campus. Students must be enrolled Full Time in on-campus classes to be eligible for on campus housing.

**Required Housing Policy**

University housing can provide both educational and social opportunities important to the success of students. Studies show that students who live on campus are more likely to complete their degrees, are more involved with university activities, and graduate at higher rates than students living off campus.

To promote student success, Minot State University requires undergraduate students who have earned fewer than 24 semester hours and are under 20 years of age prior to the first day of the current semester, to live on campus and purchase a meal plan. Our residence hall programs will help you meet people, grow as a person, enjoy residential life, and to have the experience of a lifetime on campus.

Requests for exemption to the Required University Housing Policy should be directed to the Office of Residence Life. Requests must be received by July 1 for Fall Semester and November 1 for Spring Semester. Exceptions may include students who are:

- 20 years or older at the start of semester
- Married
- Commuting from the permanent home of your parents or legal guardian (within 25 miles of campus)
- A veteran of military service or active duty personnel
- A single parent
- Transferring more than 24 credits to MSU

Exceptions may require verification involving the following documentation for each respective category: copy of marriage license; signed statement from parent or guardian; copy of DD Form 214 or Military ID; copy of child/children’s birth certificate(s).

The University Housing Committee will review each request for exemption and will notify the student of approval or denial within 10 business days of the request and submission of all required supporting documents.

The residence hall program, just as all programs at Minot State University, is administered, without discrimination on the basis of race, color, religion, national origin, sex, marital status, disability, veteran status, age or sexual orientation.

**Residence Halls**

Each residence hall has lounge areas for recreation and entertaining, coin operated laundry facilities, a small kitchen area for personal cooking, and landline service that is offered for $8.00 per month. Cable TV and internet access are available in each room. Unless otherwise noted, each room
has two beds, a desk and shelving unit, a closet, and dresser drawers. As of Fall 2016 all residence halls are co-ed. Cook, McCulloch and Dakota are community style halls. Lura Manor and Crane Hall rooms are arranged in suites (two double rooms and a private bath per suite).

No soliciting is permitted in the residence halls without the approval of the administration. Pets are not permitted in campus housing facilities.

Room Rates
Residence halls are contracted for the academic year or spring only. Room fees are subject to change by action of the State Board of Higher Education. Board and room rates do not include semester breaks.

In case of damage to a room or if the room is left in unsatisfactory condition, the student will be held liable for repairs and cleaning. Housing for male and female students is also available during summer sessions. Housing may not be available during semester breaks.

Reservation Fees
A reservation fee of $100.00 is required to confirm a room assignment. This fee is payable in the form of a check, money order, credit card, or bank draft to Minot State University, and should be attached to the housing form, and sent to Residence Life and Housing. Students may apply online for housing using credit card or check through their Campus Connection. Students may also pay for the reservation fee over the phone with a credit card. Applications will be processed on a first come first serve basis.

Refund of Room Fees
Fees sent to the University for a room reservation will be refunded if a student submits a contract cancellation form by June 1 for full year contracts and December 15 for spring semester only contracts. Students who are re contracting will be refunded 50% of their reservation fee if they submit a contract cancellation form by June 1. After June 1 for the fall semester, reservation fees are non-refundable.

Occasionally, a student will have to leave the residence hall during the academic year. The unused portion of the room rental will be refunded on a weekly basis when the student leaves school during the semester because of illness, or due to an emergency in the immediate family of the student or complete withdraw from the university. For students who choose to move off campus during the contract term (full year or spring only), students will be responsible for 50% of the remaining room and board contract. A room occupied any part of a week will count as one full week.

Campus Apartment Housing
There are 70 student apartment units on campus, six of which are designed for accessibility by persons with disabilities. Two-bedroom, one-bedroom, and efficiency units are available.

Apartments are unfurnished but each contains a stove and a freezer-refrigerator. A laundry room with coin-operated machines is provided.

Rents range from $417.00 to $640.00 per month. Students desiring apartment housing should contact the Residence Life Office.

Photo ID

Eligibility and Procedures
Following are the eligibility requirements and the procedural steps necessary to obtain a Student or Faculty/Staff ID Card. Please refer to this information as the student guide to helping individuals better understand who is eligible to receive an ID card and how, when and where it can be obtained. ID Cards can be obtained in the Photo ID office located on the second floor of the Student Center.

An individual must meet one of the following criteria prior to obtaining an ID card:

- Students (undergraduate, graduate and professional) must be admitted or registered with the University. Note: University entitlements are based on current status, not future status.
Terms and Conditions

Your ID card is the official identification card of Minot State University and, as such, may be required for admission to University functions and certain contracted services. Your card is valuable and should be treated like cash or a credit card. Violations of the following terms and conditions may result in confiscation of the card. The card must be returned upon request. ID card information and photos may be used for various official campus uses. A government issued photo ID must be presented at the time of card issuance.

Minot State University issues an ID card to all registered students and employed faculty and staff subject to the following:

1. The ID card is the property of the Minot State University. The University reserves the right to revoke use of the card or any of its accounts at any time. The card is non-transferable and may be used only by the individual to whom it is registered.

2. The ID card, transactions related to the use of the card, and any account balances are the sole responsibility of the individual Cardholder until the University is notified in writing that the card is lost or stolen. For all online accounts, the Cardholder will not be held liable for any unauthorized transaction which occurs after the University has been notified of a loss, theft, or possible unauthorized use of the card.

3. Money deposited into the debit account (Beaver Bucks Account) is subject to the terms and conditions of the debit account. Any money left in your individual Beaver Bucks Account will revert to the ID card Office two (2) years after becoming inactive. An application for deposit and a complete copy of these terms and conditions can be obtained at the ID Card Office.

4. The Cardholder will not damage or alter the card in any manner. This includes, but is not limited to, punching holes in or affixing stickers to the card.

5. The Cardholder is solely responsible for all fees associated with the card including the cost of replacing a physically damaged, lost or stolen card. A non-refundable fee of $20 is charged to replace a lost or stolen card.

Dining Services

Students have a variety of options to accommodate their schedules; meals served in the Beaver Creek Café are all-you-care-to-eat. We offer three (3) entrees at lunch and dinner, including vegetarian options, and two (2) soups daily. A changing choice of side items is offered along with the main entrees daily. A rotating grill option and deli bar provide additional choices at lunch and dinner. Our daily entrees for lunch and dinner have included; pastas, tacos, wrapped sandwiches, baked potatoes, pancakes, omelets and pizza. A full salad bar in offered at lunch and dinner. Students will also find fresh fruits and vegetables, whole grain breads and cereals, dairy products, fish, poultry, lean meats, soft-serve ice cream with assorted toppings. Our own bakery on campus provides daily deliveries of scrumptious pastries and desserts. An endless variety of beverages from Coke, Pepsi and Sunkist are also available. The food service area is an integral part of the residence hall community. We offer a variety of options at affordable prices. By letting us do the menu planning, shopping, preparation and clean-up, students have more time for studying, campus activities, work or relaxation! All residence hall students are required to participate in a meal plan. Additional information on various plans can be obtained from the Student Center Director's Office in the Student Center, 2nd floor between the hours of 8 a.m. and 4:30 p.m.

Dining Service Meal Plans, 2018–2019

Students living in a residence hall on campus specify a meal plan through the housing selection process with the Office of Residence Life. Residents are required to have a meal plan and may choose from unlimited and block plans that include flex dollars and guest meals. Service hours are daily from 7:00 AM – 10:00 PM. We think students will appreciate the nutritional and dietary benefits of lighter and more frequent meals during the day. It's great if a student likes to snack or keep irregular hours. Additional information on various plans can be obtained from the Student Center Director's Office in the Student Center, 2nd floor between the hours of 8 a.m. and 4:30 p.m.

Dining plan meals are served in the Beaver Creek Café, located on the 2nd floor of the Student Center during the following hours.

- Sunday - Saturday 7:00 a.m. - 10:00 p.m.

Flex dollars and guest passes are included in all meal plans. Flex Dollars is a declining balance program that allows students to make purchases at ALL food service locations across campus. Guest passes may be used for a friend or a visiting family member. Flex dollars and guest passes are not re-loadable.

Dining plans are purchased and activated at the Student Center Director's office located on the 2nd floor of the Student Center. All dining plans, as well as included Flex Dollars and guest passes expire at the end of the semester.

Beaver Bucks

Beaver Bucks is a debit service, which is linked to the MSU ID card, available to students, faculty and staff. Beaver Bucks can be used at Buckshots, The Beaver Creek Café, Convenience Store, Copies for U, and Barnes & Noble Bookstore at MSU. A statement of all transactions can be provided for all cardholders upon request. Meal plans and Beaver Bucks are activated in the Student Center Directors office. Your account will remain active until you graduate or terminate employment with the University. Beaver Bucks deposits to all accounts can be made through the Student Center Director's Office, Monday–Friday during regular business hours.
Student Services

Kevin Harmon, Vice President for Student Affairs & Dean of Students

Student affairs staff are involved in many areas of student services and student development. Areas of involvement pertaining to students are: admissions, housing (on-campus, off-campus, married student, apartment, and summer workshops), career planning and placement, university policy and procedures pertaining to students, Student Government Association, student health and development, veterans services and general student policies. The staff serve on several committees on behalf of students and because of their varied responsibilities, can help students with almost any type of problem. Questions should be directed to the Vice President for Student Affairs & Dean of Students on the lower level of the Administration Building or to the specific office providing the service.

Academic Advising

Definition of Advising
Academic advising is a personalized, interactive, and intentional process in which the advisor helps the student set and achieve academic, career, and personal goals. The advising process will incorporate respect for and engagement with all cultures, people, and points of view. The student will acquire relevant information and services to make responsible decisions consistent with interests, goals, abilities, and degree requirements. The desired result is that the student will feel a connection with the advisor and a sense of guidance, while realizing personal responsibility for exploring options and making decisions.

Mission
Academic advising at Minot State University is committed to student success and promoting growth and development of all students through life-long learning, engagement, and advancement of knowledge.

Advising Outcomes
Through the academic advising experiences at Minot State University students will,

• Develop an educational plan to successfully achieve their academic, career, and personal goals
• Understand university policies and procedures
• Determine and utilize the necessary resources and services to support their goals
• Demonstrate knowledge in using Campus Connection
• Understand the value of General Education Requirements
• Exhibit an understanding of their degree requirements
• Select courses each semester to progress toward completing their educational plan
• Demonstrate the ability to make effective decisions, enhance problem-solving skills, and communicate effectively
• Understand the relationship between classroom experiences and their academic, career, and personal goals
• Understand the importance of including experiences outside of the classroom in their educational plan
• Graduate in a timely manner based on their educational plan

Advisor Responsibilities

• Serve as a student advocate
• Exhibit a caring attitude
• Be aware of current university resources and provide students with necessary referrals
• Be available to students through posted office hours, email, and appointment times
• Provide guidance to students as they set academic, career, and personal goals
• Be a responsive listener
• Understand and communicate curriculum, graduation requirements, and university policies and procedures
• Assist students in understanding degree requirements
• Assist students in selecting courses based on individual interests and abilities
• Monitor progress toward career and educational goals by maintaining accurate and up-to-date advising files
• Maintain confidentiality of student records
• Assist students in enhancing decision-making, problem-solving, and communication skills
• Participate in advisor training sessions to keep informed and current

Student Responsibilities
- Review and understand university policies and procedures, General Education Requirements, graduation requirements, and the MSU Undergraduate Catalog
- Read MSU email account on a regular basis
- Learn to access and navigate Campus Connection
- Be aware of academic dates and deadlines
- Explore resources to assist in making career and academic decisions
- Schedule and attend advising appointments
- Arrive on time for appointments
- Prepare for advising sessions and bring relevant materials to appointment
- Bring a list of questions to appointments and ask questions if a topic is not understood
- Communicate openly with advisor by clarifying personal values, abilities, goals, and needs
- Be familiar with requirements of selected major(s)/minor(s) and schedule courses in accordance with those requirements
- Recognize that advising is a shared responsibility; however, students must accept final responsibility for all decisions

Bookstore

Barnes and Noble Bookstore

The University Bookstore, located on the lower level of the Student Center, is operated by Barnes and Noble. The Bookstore is an integral part of the University and functions as a link between students, faculty, and staff by providing high quality educational products and service to enhance the educational experiences at Minot State University.

Center for Engaged Teaching and Learning

The mission of the Center for Engaged Teaching and Learning at Minot State University is to provide opportunities and support for students, faculty, and staff, through engaged teaching and learning, to enhance the higher education experience and increase student success.

For more information on any of these programs, visit the CETL website at http://www.minotstateu.edu/cetl/index.shtml, visit us at our office located in Old Main 101, or call us at 701-858-4040.

First-Year Experience (FYE)

The First-Year Experience at Minot State University is an opportunity for first-year students to participate in a powerful learning experience that will inspire the transition to university life and learning through participation in unique learning communities, peer mentor interactions, and opportunities to engage with the campus and larger community.

As part of an FYE, students work with talented, engaging faculty and staff members who care about students, are focused on student success, and provide learning experiences that are unique, challenging, and relevant. Students also receive the assistance of a peer mentor, an upper-class student trained to provide support and guidance to first-year students.

The First-Year Experience (FYE) at Minot State University is an opportunity for you to participate in a powerful learning experience that will inspire your transition to university life and learning through unique learning communities, peer mentors, and opportunities to engage with the campus and larger community.

FYE Outcomes:

Outcome 1: To connect the student to their peers and faculty members.
Outcome 2: To engage the student with the campus and larger community.
Outcome 3: To enhance students' sense of belonging at MSU.
Outcome 4: To communicate and facilitate understanding of the academic expectations of the university.
Outcome 5: To enhance students' competency in some of the following skills and capacities:

- written and oral communication
- critical thinking
- critical reading
- collaboration
- information literacy
- quantitative literacy
Peer Mentoring Program

The Peer Mentoring Program is designed to assist in the personal, social and academic acclimation of first-year students to MSU through cultivating relationships with outstanding upperclassman mentors as part of the First-Year Experience. In addition to providing support, mentors can connect students to resources, clubs, organizations, and other academic and co-curricular activities.

The objectives of the Peer Mentoring Program are:
- To develop and enhance a sense of student identity,
- To become effectively integrated into the school, faculty and campus as a whole,
- To articulate a sense of purpose about being at MSU and about pursuing their particular program of study,
- To acquire the necessary skills to become independent and life-long learners.

What is a Peer Mentor?

A Peer Mentor is an exceptional student chosen to serve as a co-instructor in a FYE class. Peer Mentors are former students of the First-Year Experience who have been recommended by faculty and selected through an application and interview process based on their academic success, involvement in campus organizations and knowledge of the Minot State campus. Peer Mentors are not simply teaching assistants; rather, they are co-instructors, taking responsibility for leading class discussions, planning activities and working one-on-one with each student.

The Peer Tutoring Program

The Peer Tutoring Program is aimed at providing students with the essential learning tools and resources integral to their academic success. Through the use of highly qualified and trained tutors, the CETL Peer Tutoring Program seeks to empower the students being served in their pursuit of becoming independent learners. All peer tutors hired by CETL have been highly successful in the courses they tutor. Currently, CETL offers Drop-in Tutoring. Visit CETL (Old Main 101/103) or the website http://www.minotstateu.edu/cetl/index.shtml for a schedule.

The Peer Tutoring Program at Minot State University is certified by the College Reading and Learning Association’s International Tutor Training Program (ITTPC). This allows MSU to train and certify tutors at Level I of the ITTPC program. Level I requires 25 hours of actual compensated tutoring and participation in 10 hours of training experiences.

Engagement Honor Roll

Undergraduate students who complete a minimum of 50 hours, which can be a combination of engagement activities in which will be recognized on the Engagement Honor Roll. Hours will be verified by the individual supervising the engagement activities. This accolade will show on the student's transcript for the semester in which it was earned.

Academic Advising

The focus of academic advising in CETL is to provide advising services to undeclared students and students pursuing the Bachelor of General Studies (BGS) degree. CETL’s advising program places an emphasis on serving as a student advocate, demonstrating a caring attitude, listening to the needs of advisees, assisting students with making connections to appropriate university resources, facilitating the course selection process, supporting advisees in setting short and long term goals, and guiding students in making career and academic decisions based on their personal goals. The academic advising unit also serves as a resource to advisors campus wide, providing support and guidance to faculty and staff advisors. The CETL advising program assists with academic advisement and registration at New Student Orientation sessions, creates and maintains the Academic Advisor Handbook, advising website, advising newsletters, and coordinates advisor development workshops/trainings.

Starfish Early Alert

Student success is a high priority at Minot State University. Day-to-day student performance and behavior are among the most useful indicators of issues related to student success. Starfish Early Alert is an easy-to-use student retention tool which helps students and their advisors stay informed about students’ academic progress. Starfish users include students, advisors, instructors, and student support services. At Minot State University, Starfish will promote communication between instructors, students and their advisors, giving students and advisors a “heads-up” regarding attendance, academic or general concerns. Through automated email messages, students can receive “kudos” from instructors for their outstanding classroom performance. Students and advisors may receive “flag” notifications in areas of concern. Once a flag is received, the message remains active in the system until it is removed by the advisor or support person who addresses the concern with the student, thereby closing the loop, indicating the student has been contacted about the issue.

New Student Orientation

New Student Orientation is a part of New Student Programs, which assist students in their transition to Minot State University. New Minot State University students (first-year and transfer) are required to complete a New Student Orientation. New Student Orientation provides programming to prepare students for higher education by offering information sessions, campus tours, student group activities led by student orientation leaders, academic advising, and course registration. An online option is available for students who will complete online-only courses or for those completing coursework at a satellite site. New Student Orientation programs are offered throughout the calendar year. Information regarding orientation programs are sent electronically to all students who have been admitted to Minot State University.

Welcome Weekend
Welcome Weekend is the second part of New Student Programs at Minot State University. New first-year and transfer students will be able to engage with the community, meet fellow students, and learn essential student success information, all-the-while, participating in this fun program. Students will discover student success services and participate in campus activities, led by a current Minot State student. In addition to exploring the MSU campus, students will participate in an off-campus volunteer activity, where student will make a difference in our regional community.

**Multicultural Support Services**

The Native American Cultural Center is located on the third floor of the Student Center, and the Multicultural Center is located on the first floor of the Student Center. Both centers provide supportive services to diverse student populations and international students at MSU.

**Office of International Programs**

The Office of International Programs provides advising for admitted and enrolled international students on federal F-1 student and J-1 exchange visitors regulations, academic and cultural adjustment, health insurance and other matters.

For additional information regarding international student services, admission requirements, or federal F-1 regulations, please refer to the International Student Admissions section in the front of the catalog, or visit our website at: http://www.minotstateu.edu/international.

**POWER Center**

**POWER Center (Providing Opportunities With Enhanced Resources)**

The POWER Center serves students that are either the first in their family to earn a four year degree and/or students who fall within specified income guidelines (taxable income within 150% of poverty level) or have a documented disability. Opportunities and enhanced resources are provided to these 310 participants to assist them in achieving success while completing their post-secondary education. POWER provides a variety of services including free tutoring, additional academic advising, career planning, financial aid counseling, study skill tips, workshops, and extra resources to help students make the most of their MSU experience.

- **Location** – Main Office Student Center - 2nd Floor, Learning Loft Student Center - 3rd Floor

- **Phone**: 701/858-4047
- **Website**: www.minotstateu.edu/power/
- **Email**: keryl.lesmann@minotstateu.edu

POWER is funded by TRiO Student Support Services grants from the U.S. Department of Education serves U.S. citizens working on their first Bachelor’s degree.

**Student Health and Development**

The Student Health & Development Center (SHDC) is located on the lower level of Lura Manor. Elevator access is available at the northwest door.

**Student Health Center**

The goal of the Student Health Center is to improve the status of health and ultimately the quality of life of MSU students while they are on campus and as they plan for the future. Focus is on health promotion, risk reduction through surveillance and control of health hazards, health education, and referral to other campus or community services as needs are identified.

The Student Health Center is staffed by a nurse practitioner, registered nurse, and a licensed practical nurse, with a referral service to Minot Center for Family Medicine as needed. These providers diagnose and treat a variety of acute health problems in an ambulatory clinic setting and make referrals as indicated by the health care needs of students. Student health care is intended to supplement private health care. It is not intended to provide comprehensive medical care.

At the discretion of the Student Health Center staff, assistance provided may include, but is not limited to:

- Treatment of minor illness and injury
- Immunizations
- Contraception and/or contraceptive counseling
- Sexually transmitted disease education, screening and treatment
- Preparation and maintenance of medical records
- Blood pressure monitoring
- CLIA waived laboratory services
• Health maintenance exams
• Health education/promotion programs
• Mental health screening and treatment/referral
• Prescriptions as necessary
• Tuberculosis screening and testing
• Mandatory reporting of communicable diseases
• Sports and employment physicals
• Referral assistance to community health resources (primary care for chronic disease, emergency care, procedures, dental, vision, radiology, pharmacy, and full laboratory services)

North Dakota University System Immunization and Tuberculosis Requirements
All students must submit proof of two MMRs (measles, mumps, and rubella), students 21 and younger are required to provide proof of meningitis vaccine (given after age 16), and all students must complete the tuberculosis questionnaire. Submit required documentation on the MSU Student Health and Development Portal (http://www.minotstateu.edu/health/immunization.shtml). Use your campus connection username and password to log-in.

Student Development Center
The Student Development Center offers counseling and disability services.

Counseling Services
The mission of Minot State University Counseling Services is to empower and advocate for the student's personal and educational development through short-term counseling and educational outreach. We want student experiences here to be positive and growth promoting. Personal counseling services provide free, confidential consultation, short-term intervention and referral. Counseling sessions are kept in strict confidence within legal and ethical limits. In situations where the problems are more long standing, referrals can be provided for services within the community.

Other services include:
• Educational programming on campus
• In-class presentations on request
• Stress management training
• Residence hall outreach

For further information or to schedule an appointment, please contact the Student Development Center at (701) 858-3371.

Disability Services
Minot State University recognizes its responsibility for making reasonable accommodations and/or adjustments to ensure there is no discrimination on the basis of disability as established under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act.

In coordination with the Disability Support Service, reasonable accommodations will be provided for qualified students with disabilities (LD, Orthopedic, Hearing, Visual, Speech, Psychological, ADD/ADHD, Health Related, TBI, Speech, PTSD, and Other). Please meet with the instructor during the first week of class to make arrangements. Accommodations and alternative format print materials (large print, audio, disk or Braille) are available through the Disability Support Service, located on campus in the lower level of Lura Manor. For more information, contact Disability Services at (701) 858-3371 or visit the website at www.minotstateu.edu/disability_services.

Student Success Center
Career Center
The Career Center provides programs and services to students to aid in the development and implementation of their educational plans and goals. Through the Center's programs and services, our goal is to assist students from the beginning to the end - beginning with new student orientation and ending with the final stages of the job search process. We provide new and current students, as well as alumni, with the support they need to be successful.

Career Services
www.minotstateu.edu/careers

Services and programs are provided to help students explore career options, clarify their career goals, and link those goals to appropriate academic paths. A variety of career assessment and decision-making resources are available in the major and career exploration process. Browse through a
variety of resources that provide detailed descriptions of different occupations, labor market information and the certification and education requirements necessary to enter the world-of work for specific careers.

Staff provide assistance to students and alumni in defining career and employment goals and assists in their search for employment opportunities. In addition, the Center offers guidance on job search strategies, including resume preparation, cover letter writing, and interviewing techniques. The office also coordinates activities such as on campus interviews, specialized career workshops, and an annual job fair and etiquette luncheon.

Programming/Workshops
The Career Center, along with the POWER Center, provides a variety of programs designed to enhance student success from entrance to the university and throughout the university experience. Topics include: time management, career exploration, study skills, money management, writing for college coursework, and stress techniques.

Veterans Educational Benefits

The Minot State University Veteran Center serves as a guide for active duty, transitioning active duty, National Guard, Reserves, veterans, dependents and spouses into the university education system. The Center's office strives to ensure VA educational benefited individuals who are able to put their earned benefits to use in a quality education here at Minot State University, while providing referrals to academic and financial assistance as well as to physical and mental health well being. They provide veterans and their families' answers to the questions about their educational benefits regarding VA policies and procedures while outlining opportunities to put those benefits to work. To learn more about the benefits related to active duty, veterans, dependents and spouses, go to http://www.minotstateu.edu/veterans/ and click the appropriate link related to your service.

Students who wish to be certified to use VA educational benefits at Minot State University must complete a worksheet at the beginning of each term. The worksheet is available on line at http://www.minotstateu.edu/veterans/va-certification-worksheets.shtml

Student veterans and dependents using VA benefits should have submitted an application for benefits and have their Certificate of Eligibility and supporting documentation. Transfer students must complete a request for change of place of training (DD 22-1995) prior to the beginning of their first term at MSU.

Benefit recipients wishing to receive advance payment should contact the veterans center at least 45 days in advance of the term for which they plan to register, as a separate form is required for advance payment.

Graduate students are also required to submit a degree plan to the school certifying official before their enrollment can be certified to the VA.

Students should contact the VA certifying official with questions about full-time status. Training time is determined from the start of the term, to its end. Generally speaking, in order to be considered full-time, benefit recipients must be enrolled in at least 12 credits (fall or spring), 6 credits per 8 week term (summer). Exceptions to this guideline occur when a student is enrolled in courses during a non-standard term that meet for less than the regular 16 or 8 week semester. Your instructor will be contacted if you receive a failing grade.

It is important to remember that the VA pays you for class attendance and you will be charged back for any and all course work not completed or dropped after the last day to drop for that term. The VA will not pay for audited courses. The VA will only pay for repeated courses if you are repeating a class that requires a higher grade for your program. Chapter 30, 1606 and 1607 recipients must verify their enrollment monthly (online Via W.A.V.E.) or by phone at 888-442-4551.

All student veterans and dependents receiving subsistence allowances under the Montgomery GI Bill or Survivors' and Dependents' Education Assistance program are required by law to report promptly to the Minot State University Veteran Center any changes in their enrollment which may affect the amount of money they receive. Failure to notify the Veteran Center of changes to your schedule may result in an overpayment of benefits which the recipient will be responsible to pay back to the VA.

More detailed information on the VA educational benefits is located on the Veteran Center website, http://www.minotstateu.edu/veterans, or the GI Bill website www.gibill.va.gov (http://www.gibill.va.gov) or by calling 888-442-4551.

Vocational Rehabilitation

The student must obtain approval from Vocational Rehabilitation which specifies in detail the funds that will be provided for tuition, fees, and other expenses. This approval should be obtained well in advance of the beginning of classes. Vocational Rehabilitation will provide written authorization to the MSU Business Office.

Student Life and Activities

Student Government

All registered University students automatically belong to the Student Government Association. Governmental matters which pertain to student affairs are regularly handled by the Student Senate, which elects its officers and senators in the spring. An election is held in the fall to elect two first-year
Student Government Association meetings are open to the public.

**Student Activities/MSU Life Committee**

The MSU: Life Committee exists to provide a fun and engaging social atmosphere here at Minot State University. Led by the Directors of Entertainment and comprised of a group of enthusiastic student volunteers, the MSU: Life Committee plans, coordinates, and directs campus activities for the benefit of all MSU students. Events vary from comedians, hypnotists, dances, movies, and musicians. These events are free with your MSU ID unless otherwise specified. This committee is open to any interested MSU student and interviews for the Co-Directors of Entertainment are held each spring.

**Athletics**

Minot State University men’s and women’s athletic programs are members of the National Collegiate Athletic Association (NCAA) and the Northern Sun Intercollegiate Conference (NSIC). The men’s competition includes football, basketball, track and field, golf, baseball, wrestling, and cross-country. The women’s competition includes basketball, cross-country, track and field, volleyball, softball, soccer, and golf.

**Intramural Programs**

A variety of sport activities are offered for both men and women throughout the school year. This program is sponsored by the Student Government Association and the Wellness Center.

**Homecoming**

The annual homecoming has become a tradition in Minot. Each fall semester, the University sets aside a week for the entertainment of graduates, current, and former students. The celebration includes a parade, a football game, and many other features conducive to the renewal of old acquaintances.

**Music**

The University’s Division of Music is an accredited member of the National Association of Schools of Music and provides exciting opportunities for the study and performance of all disciplines within music. Concert and lecture offerings are listed on the Music Division website. Performance opportunities available to all university students include choir, women’s chorus, band, orchestra, and jazz ensemble.

**Publications**

There are two student publications on campus. The Red & Green, the student newspaper, is published weekly during the regular school year. The Coup, the student literary magazine, is published annually. Student editors receive salaries paid from student activity fees. Students may earn one hour of journalism credit for working on the Red & Green. The publications are advised by faculty members and governed by policy developed by the Board of Student Media.

**Radio Station (KMSU)**

KMSU, the campus radio station, operates over the local access television channel. Students who live in the dorms may listen by tuning their television to channel 19. The signal is also broadcast over the local cable access channel (KMSU TV) to over 15,000 homes in the local area.

Students who wish may work with KMSU as a disc jockey doing on air shows or working in one or more of the behind the scenes jobs connected with the radio station by registering for radio activities. This one-credit class is available to all MSU students.

The Media Ink Club is open to all students interested in the media, be it electronic print, advertising, or public relations.

**Native American Cultural Center**

The Native American Cultural Center provides counseling, advising, and academic student transitional assistance to Native American/American Indian students at Minot State University. Student personal, social, financial, and career concerns are also addressed at this “home away from home” rest and relaxation student center. Coordination and correspondence with area tribal councils, offices and colleges is also maintained to benefit and support our students.

Campus and community events are developed and presented to promote public awareness, understanding and appreciation of Native American people and their culture. A portion of the MSU Native American Collection of cultural artifacts is also on display for public viewing.

The Native American Cultural Center is open Mon.–Fri., 8 a.m. to 4:30 p.m.

**Multicultural Center**

The Multicultural Center is designed to provide a safe and comfortable location for all diverse student populations and international students. The Multicultural Center also exists to provide a campus location for the appreciation of diverse populations and cultures. Throughout the year, the
center hosts a number of events that celebrate ethnic and cultural diversity. Events include ethnic food sampling, speakers, films, and other cultural presentations. The Multicultural Center is located on the 1st floor of the Student Center. Hours are 8 a.m. to 4:30 p.m. Mon.–Fri.

**Theatre Arts**

The Campus Players is the student organization open to all university students. It sponsors several major productions each year. Theatre facilities include the Harold G. Aleshire Theatre, the Black Box for less formal and locally-written shows, and the Amphitheatre located on the north side of the campus. The Theatre Arts Program also hosts workshops, guest lectures, and touring professional companies.

**Student Organizations**

**Campus-Based Organizations**

Minot State University offers a full range of organizations which students may participate during their University years.

See MSU website at www.minotstateu.edu/sga/clubs-list.shtml for most up-to-date list.

**Non-campus Organizations**

All non-campus organizations must get the approval of the Student Welfare and University Affairs committee before they are permitted to function on campus. Any campaigning or soliciting by non-campus organizations must have the approval of the Vice President for Student Affairs.

**Student Safety**

**Sexual Violence**

This section will describe the different policies and procedures related to sexual offenses, how they are reported, privacy policies, programs for victims of sexual violence, investigation requirements, special arrangements for the complainant and the accused, University disciplinary measures and other procedures.

**I. Policy on Sexual Assault**

Minot State University’s commitment to students and employees is to provide a campus free from all forms of sexual assault and sexual harassment. This behavior will not be tolerated.

**Definition:**

In accordance with the ND Century Code 12.1-20-07/03 and MSU, sexual assault and gross sexual imposition is any sexual act or sexual contact performed upon one person by another to which one person does not or cannot consent. Consent is defined as speech or conduct indicating freely given agreement to participate in sexual activity. Silence or the use of alcohol/drugs are NOT an indication of consent.

Minot State University prohibits any behavior (sexual acts/contacts) in which:

1. The victim is compelled to submit to force or by threat of force.
2. The victims power to appraise or control his/her conduct is impaired by administering the use of intoxicants.
3. The victim is unaware that a sexual act/contact is being committed upon him or her. For example: a state of intoxication due to alcohol or drug use; loss of consciousness; lack of knowledge that the act in question is sexual assault.
4. Knows or has reasonable cause to believe that the other person suffers from a mental disease or defect which renders him or her incapable of understanding the nature of his/her conduct.

**Reporting:**

Sexual assault victims may contact various individuals, departments and agencies for assistance. Information will be confidential unless consent is given.

24 hours a day

1 Residence Hall staff report to the Director of Residence Life.

**Procedure:**

1. Obtain medical care and help as soon as possible after the sexual assault whether or not you choose to report to the police.
2. North Dakota’s mandatory reporting law requires hospitals to report crimes of sexual assault to the police.

**Key Points:**

1. Take a change of clothing to the hospital if possible.
   a. Do not bathe, douche, brush teeth, use mouthwash, or change clothes before getting medical attention in order to avoid elimination of evidence.
b. Medical treatment will assist in dealing with any concerns about pregnancy and sexually transmitted diseases.

2. It is the victim's decision as to whether he/she wants to talk to the police. He/she is not required to press charges.
   a. Victims are encouraged to file a report with the police and preserve all evidence should they decide at a later date to exercise their legal rights.
   b. Filing a report with the police may also help others from becoming victims.
   c. Victims may file a Blind Report -no names.

3. North Dakota Crime Victims Reparation Act
   a. May cover emergency room costs if you do not have public or private medical insurance. If approved, may also be reimbursed for out of pocket medical expenses, loss of earnings, and psychological counseling.

4. Seek professional counseling either on campus or through an off-campus agency.

5. For information about the Crime Victims Compensation Program (Division of Adult Services, ND Dept. of Corrections), call 701-328-6195, toll free to 1-800-445-2322, or in Ward County to 701-857-6480, or visit their website at www.ndcrimevictims.org (http://www.ndcrimevictims.org).
   a. To be eligible you must report the crime within 72 hours, cooperate with the investigation, and fill out an application within 1 year of the crime.
   You MUST NOT have consented to, provoked, or incited the crime, or been assisting in or committing a criminal act causing your injuries.

6. Refer to departments, agencies listed under Reporting Section.

Response:

The Vice President of Student Affairs or his/her designate will promote informational material and programs to aid in the prevention of sexual assault. Following a sexual assault on campus and the filing of a complaint, the Vice President of Student Affairs or his/her designate will:

1. Assist the victim in securing medical treatment.
2. Take steps to promote confidentiality in working with victims.
3. Assist the victim in arranging for professional counseling.
4. Assist the victim in pursuing a criminal complaint if so desired.
5. Initiate an investigation and take appropriate disciplinary action in accordance with the MSU Student Conduct Policy.
6. Institutional Disciplinary Action may be taken regardless of any decision or penalty by civil authorities.
7. Disciplinary proceedings will afford the accuser and the accused equal rights as stated in the Student Conduct Policy, section IV, letter L. Student Rights.
8. Offer the victim the following services if appropriate:
   a. Withdrawal from a class/University.
   b. Assistance in securing a restraining order.
   c. Change in housing, phone, parking assignment.
   d. Request increase in security coverage.
9. Promote educational programs and information in the residence halls for the campus community.
10. Request ongoing reviews and updating of campus lighting and security enhancements. (Assistant VP for Facilities Management.)

II. Policy on Sexual Harassment

Minot State University’s commitment to equal opportunity includes an assurance to its employees and students that they will not be subjected to sexual harassment; as such conduct is prohibited at the university. Minot State University defines sexual harassment as follows:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of sexual nature constitute sexual harassment when (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment or education requirement; (2) submission to or rejection of such conduct by an individual is used as the basis for employment decisions, educaitonal decisions (grades, etc.) affecting such individual; (3) such conduct has the purpose or effect of substantially interfering with an individual’s work or learning performance or creating an intimidating or demeaning, or hostile, offensive working/classroom environment.

This definition is in compliance with Title VII of the Civil Rights Act of 1964.

Employees or students concerned about violations of this policy may request assistance from the university’s Human Resource Officer, in the Administration building, the Student Health and Development Center, located in Lura Manor, or an appropriate administrator. In addition, the university’s affirmative action plan and equal opportunity grievance procedure shall be available for any person who wishes to file a complaint alleging a violation of this policy.

Approved by Minot State University, March 9, 1981.

III. Prevention, Awareness, and Victim Services

The Domestic Violence Crisis Center (DVCC) in Minot provides comprehensive services in a four county area, including Ward, Pierce, McHenry, and Renville counties. Their website (www.courage4change.org) has valuable information for victims of abuse (sexual or otherwise), and for those who know
someone who is a victim. They also provide prevention and awareness information, as well as holding events throughout the year for the purposes of prevention, awareness, and fundraising to continue their services in the area.

**DVCC Contact Information**

Office - 701-852-2258
Crisis Line - 701-857-2200 or 800-398-1098
Rape Crisis Line - 701-857-2500

**Student Conduct**

See the Student Handbook.

**Administration and Faculty**

**North Dakota State Board of Higher Education**

The North Dakota State Board of Higher Education is a constitutional body created by a vote of the people of North Dakota in 1938 and is charged with the governance of the North Dakota Higher Education System, of which Minot State University is a part.

**Members of the Board**

Don Morton, ’20, Fargo
Kathleen Neat, ’21 Tioga
Mike Ness, ’18, Bismarck
Kevin Melicher, ’18 Fargo
Greg Stemen, ’19 Oakes
Jacob Daily, 18, NDSU Student Member
Casey Ryan, ’21, Grand Forks
Nick Hacker, 19 Bismarck
Birgit Pruess, ’18, Fargo, Faculty Advisor
Andy Wakeford, ’18 Devils Lake, Staff Advisor

**Officers of The University**

Dr. Steven W. Shirley, President
Dr. Laurie Geller, Vice President for Academic Affairs
Mr. Rick Hedberg, Vice President for Advancement
Mr. Brent Winiger, Vice President for Administration & Finance
Mr. Kevin Harmon, Vice President for Student Affairs
Ms. Jonelle Watson, Assistant Vice President, Business Services/Controller

**Minot State University Board of Regents**

The Board of Regents is an advisory board which is designed to facilitate the positive growth and development of Minot State University. This select group of influential individuals provides valuable input and guidance by participation in the University’s ongoing strategic planning process. The Board of Regents also works with university administrators to accomplish specifically identified projects and activities.

**Executive Committee**

Dan Langemo, Executive Chair
Leslie Coughlin, Past Chair
Jarid Lundeen, Chair Elect
Dr. Steven W. Shirley, MSU President
Brent Winiger, Treasurer
Rick Hedberg, Secretary
Randy Burokhord, Member at Large

**Minot State University Development Foundation**

The MSU Development Foundation is an independent, nonprofit, 501 (c)(3) I.R.C., organization which has been established for the purpose of soliciting, receiving and managing resources for the benefit of Minot State University. The foundation seeks funding from all appropriate external sources to supplement state appropriations, strengthen endowments, enhance scholarship opportunities, and insure the highest level of educational programming for Minot State University. The four standing committees of the foundation are:
1. Investment Advisory Committee
2. Special Gifts Committee
3. Development Strategies Committee
4. Nominating Committee

**Executive Committee**

Maynard Sandberg ’55, President
Tom Probst ’67, Vice President
Dr. Steven W. Shirley, MSU President
Brent Winiger, Treasurer
Rick Hedberg, Executive Director
Tom Probst ’67, Investment Advisory Committee
Robert Sando, Vice President Special Gifts Committee
Karen Krebsbach ’62, Development Strategies Committee
Doris Slaaten ’49, Nominating Committee

**Minot State University Alumni Association**

The MSU Alumni Association is a nonprofit, 501(c)(3) I.R.C. organization whose mission is to “promote positive relationships that encourage alumni, students, community, and friends to be actively and emotionally identified with Minot State University.” The Alumni Association Board of Directors works closely with the MSU Director of Alumni Relations to accomplish this by sponsoring various special programs and events, such as regional gatherings, reunions, the annual MSU GALA Dinner and Auction, Golden Awards Banquet, travel programs, and the publication of the magazine “Connections.” There are no membership dues. Each graduating class is entered in the Alumni database and current addresses are maintained. The Alumni Office is part of the University Advancement team.

**Executive Committee**

Kristi Berg, ’01/’95 President
Kelsey Holt, ’97 Past President
Chelsea Kirkhammer, ’06 President Elect
Jaimie Jundt Brunner ’00, Vice President for Promotions
Chelsea Kirkhammer ’06, Vice President for Events
Sabrina Hermann, ’83/’02, Vice President of Outreach

**Minot State University Office of University Advancement**

The Office of University Advancement has been established on the campus of Minot State University to oversee and coordinate all alumni, development efforts. The Vice President for Advancement serves as the chief advancement officer, reports directly to the President of the University, and supervises the activities of the Director of Alumni Relations and Annual Giving, Donor Relations Officer, Director of Marketing, Major Gifts Officer, and Office of Publications and Design. The advancement office is responsible for creating and maintaining a positive public image for the University, cultivating meaningful relationships with the institution’s various constituencies, and developing external resources from all available sources.

**Accreditation**

Minot State University is accredited by:

1. The Higher Learning Commission A Commission of the North Central Association of Colleges and Schools
   30 North LaSalle St, Suite 2400
   Chicago, IL 60602-2504
